(1) Includes \$237 million of available-for-sale securities at fair value at September 30, 2011.

(2) Represents Chesapeake Term Notes and the FLRT 2010 Notes (as defined in the Preliminary Prospectus Supplement).

(3) Amounts are net of \$3 million of unamortized swap gains partially offset by \$1 million of original issue discount, as of September 30, 2011.

(5) Amounts are net of unamortized discount of \$44 million as of September 30, 2011.

(6) Reflects the issuance of \$220 million aggregate principal amount of the Notes in the Offering. In accordance with ASC 470-20, convertible debt that may be wholly or partially settled in cash is required to be separated into a liability and an equity component, such that interest expense reflects the issuer's non-convertible debt interest rate. Upon issuance, a debt discount will be recognized as a decrease in debt and an increase in equity. The debt component will accrete up to the principal amount over the expected term of the debt. ASC 470-20 does not affect the actual amount that PHH is required to repay, and the amount shown in the table above for the Notes is the aggregate principal amount of the Notes and does not reflect the debt discount that PHH will be required to recognize.

(7) Mortgage Loan Securitization Debt Certificates were consolidated with securitized mortgage loans as a result of the adoption of updates to ASC 810. See Note 1, Summary of Significant Accounting Policies
