**KAPSTONE PAPER AND PACKAGING CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(In thousands, except share and per share amounts)**

**(unaudited)**

**1. Financial Statements**

The accompanying unaudited consolidated financial statements of KapStone Paper and Packaging Corporation (the Company, we, us, our or KapStone ) have been prepared in accordance with U.S. generally accepted accounting principles ( GAAP ) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of a normal recurring nature) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2013.

**2. Recent Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) No. 2014-09 Revenue from Contracts with Customers . The guidance in this update affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The guidance in this update supersedes the revenue recognition requirements in Accounting Standards Codification ( ASC ) Topic 605, Revenue Recognition , and most industry-specific guidance throughout the Industry Topics of the Codification. Additionally, this update supersedes some cost guidance included in Subtopic 605-35, Revenue Recognition Construction-Type and Production-Type Contracts . For a public entity, the amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The ASU allows for full or modified retrospective adoption. Early application is not permitted. The Company is currently evaluating the expected impact of adopting this standard.

In July 2013, the FASB issued ASU No. 2013-11 Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists . ASU No. 2013-11 amends the guidance within ASC Topic 740, Income Taxes , to require entities to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU No. 2013-11 beginning in the first quarter of 2014 with no impact on the consolidated financial statements.

**3. Longview Acquisition**

## Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

On July 18, 2013, the Company acquired 100 percent of the stock of Longview Fibre Paper and Packaging, Inc., ( Longview ) for \$1.025 billion plus \$41.5 million of working capital adjustments. Longview is a leading manufacturer of high quality containerboard, kraft papers, and corrugated products. Longview's operations include a paper mill located in Longview, Washington equipped with five paper machines which have the capacity to produce 1.3 million tons of containerboard and kraft paper annually. Longview also owns seven converting facilities located in the Pacific Northwest.

The excess of the purchase price over the aggregate estimated fair value of net assets acquired was allocated to goodwill. The purchase price allocation is final.

The cost for the Longview inventories is determined on a last-in, first-out method except for replacement parts and supplies inventories, which are valued using the average cost method. As of June 30, 2014, Longview's inventories included in the Consolidated Balance Sheets were \$110.3 million.

**6. Short-term Borrowings and Long-term Debt***First Amendment to Amended and Restated Credit Agreement*

In April 2014, the Company entered into a First Amendment to the Amended and Restated Credit Agreement dated as of July 18, 2013 (the "First Amendment"). The First Amendment reduces the borrowing rates under our senior secured credit facility (the "Credit Facility") for both term loans under the Credit Facility and for any future borrowings under the \$400 million revolving credit facility (the "Revolver") portion of the Credit Facility. The interest rates are based on LIBOR rates plus margin determined from a pricing grid based on the Company's debt to EBITDA ratio as defined in our Amended and Restated Credit Agreement, as amended by the First Amendment (the "Credit Agreement"). Accordingly, the weighted average interest rate on borrowings under the Credit Facility as of June 30, 2014 is 2.0 percent, compared to 2.25 percent as of March 31, 2014. The First Amendment also reduced the unused commitment fees related to the Revolver by 5 to 10 basis points.

The Company incurred approximately \$0.7 million of loan amendment costs associated with the First Amendment, which is being amortized using the effective interest method.

*Credit Facility*

Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

As of June 30, 2014, the Company has current availability of \$395.0 million under the Revolver.

As of June 30, 2014, the Credit Facility had two term loans outstanding totaling \$1.221 billion with a weighted average interest rate of 2.0 percent.

Table of Contents

***Debt Covenants***

The Credit Agreement contains, among other provisions, covenants with which we must comply. The covenants limit our ability to, among other things, incur indebtedness, create additional liens on our assets, make investments, engage in mergers and acquisitions, pay dividends and sell any assets outside the normal course of business.

As of June 30, 2014, the Company was in compliance with all applicable covenants in the Credit Agreement.

***Fair Value of Debt***

As of June 30, 2014, the fair value of the Company's debt approximates the carrying value of \$1.2 billion as the variable interest rates re-price frequently at current market rates. The debt was valued using Level 2 inputs in the fair value hierarchy which are significant observable inputs including quoted prices for debt of similar terms and maturities.

***Other Borrowing***

In 2014 and 2013, the Company entered into short-term financing agreements of \$6.3 million and \$3.7 million, respectively, at an annual interest rate of 1.69 and 1.56 percent, respectively, for its annual property insurance premiums. The agreements require the Company to pay consecutive monthly payments through the term of each financing agreement ending on December 1st. As of June 30, 2014 and June 30, 2013, there was \$2.9 million and \$1.7 million, respectively, outstanding under these agreements which is included in Other current borrowings on the Consolidated Balance Sheets.

**7. Income Taxes**

The Company's effective income tax rate for the six months ended June 30, 2014 and 2013 was 33.9 percent and 34.2 percent, respectively. Our tax rate is affected by recurring items such as state income taxes. It is also affected by discrete items that may occur in any given period, but are not consistent from period to period. In addition to state income taxes, the domestic manufacturing deduction had the most significant impact on the difference between our statutory U.S. federal income tax rate of 35 percent and our effective tax rate for both years.

The Company is subject to examination by taxing authorities. The Company's federal tax years are open beginning with 2010. The Internal Revenue Service is currently examining the Company's income tax return for 2012. For acquired companies, U.S. Corrugated Acquisition Inc.'s federal tax years 2009 through 2011 are open and are currently under examination. The Internal Revenue Service recently concluded their examination of Longview's tax returns for 2011, 2012 and the period ending with our acquisition in July 2013. Accordingly, in the quarter ended June 30, 2014, the Company reversed a \$0.3 million reserve for an uncertain tax position. State income tax years are generally open beginning

with 2010.

Table of Contents

Approximately 78,000 shares and 10,000 of unexercised stock options were outstanding at June 30, 2014 and 2013, respectively, but were not included in the computation of diluted earnings per share because the options were anti-dilutive.

On December 11, 2013, the board of directors declared a two-for-one stock split in the form of a stock dividend on the Company's common stock. To implement the stock split, shares of common stock were distributed on January 7, 2014 to all shareholders of record as of the close of business on December 23, 2013. All shares and earnings per share amounts for the three and six month periods ended June 30, 2013 have been restated to reflect this change.

KapStone funds the Pension Plans according to IRS funding requirements. Based on those requirements, KapStone funded \$2.3 million for the six months ended June 30, 2014 and expects to fund an additional \$1.6 million to the Pension Plans in 2014.

**Defined Contribution Plan**

We offer a 401(k) Defined Contribution Plan ( Contribution Plan ) to eligible employees. Table of ContentsStock Options

Stock option awards vest as follows: 50% after two years and the remaining 50% after three years or upon a grantee of such stock options attaining the age 65. The stock options awarded in 2014 have a contractual term of ten years and are subject to forfeiture should the recipient terminate his or her employment with the Company for certain reasons prior to vesting in his or her awards, or the occurrence of certain other events such as termination with cause. The exercise price of these stock options is based on the closing market price of our common stock on the date of grant (\$30.40 is the weighted average price for the 2014 awards described above) and compensation expense is recorded on an accelerated basis over the awards vesting periods.

The weighted average fair value of the stock options granted in March 2014 and 2013 was \$10.36 and \$5.41, respectively. The fair value was calculated using the Black-Scholes option-pricing model based on the market price at the grant date and the weighted average assumptions specific to the underlying options. In the quarter ended March 31, 2014, the expected term used by the Company is based on the historical average life of stock option awards. The expected volatility assumption is based on the volatility of our common stock from the same time period as the expected term of the stock options. The risk-free interest rate was selected based upon yields of U.S. Treasury issues with a term similar to the expected life of the stock options. The assumptions utilized for calculating the fair value of stock options during the period are as follows:

	Six Months Ended June 30,	
	2014	2013
Stock Options Black-Scholes assumptions (weighted average):		
Expected volatility	39.93%	50.19%

**Liquidity and Capital Resources**

***Credit Facilities***

In April 2014, the Company entered into the First Amendment, which reduced the borrowing rates for both term loans under the Credit Facility and for any future borrowings under the \$400 million Revolver. The interest rates are based on LIBOR rates plus margin determined from a pricing grid based on the Company's debt to EBITDA ratio as defined in the Credit Agreement. Accordingly, the average weighted interest rate on borrowings under the Credit Facility, as of June 30, 2014, is 2.0 percent, compared to 2.25 percent as of March 31, 2014. The First

Amendment also reduced the unused commitment fees related to the Revolver by 5 to 10 basis points.

The Company has \$395.0 million available under the Revolver at June 30, 2014. In addition, the Credit Facility also includes an accordion feature that allows the Company, subject to certain terms and conditions, to increase the commitments under the Revolver by up to \$300.0 million.

***Voluntary and Mandatory Prepayments***

For the six months of 2014, the Company made no voluntary prepayments on its term loans under the Credit Facility. No mandatory prepayments were required under the Credit Agreement.

Table of Contents

***Other Borrowing***

In January 2014, the Company entered into short-term financing agreement of \$6.3 million at an annual interest rate of 1.69 for its annual property insurance premiums. The agreement requires the Company to pay consecutive monthly payments through the term of the financing agreement ending on December 1st. As of June 30, 2014, there was \$2.9 million outstanding under the current agreement.

***Debt Covenants***

As of June 30, 2014, under the financial covenants of the Credit Agreement, the Company must comply on a quarterly basis with a maximum permitted leverage ratio. The leverage ratio is calculated by dividing the Company's debt by its rolling twelve month total earnings before interest expense, taxes, depreciation and amortization and allowable adjustments. The maximum permitted leverage ratio declines over the life of the Credit Agreement. On June 30, 2014, the maximum permitted leverage ratio was 4.50 to 1.00. On June 30, 2014, the Company was in compliance with a leverage ratio of 2.67 to 1.00.

The Credit Agreement also includes a financial covenant requiring a minimum fixed charge coverage ratio. This ratio is calculated by dividing the Company's trailing twelve month total earnings before interest expense, taxes, depreciation and amortization and allowable adjustments less cash payments for income taxes and capital expenditures by the sum of our cash interest and required principal payments during the twelve month period. From the closing date of the First Amendment through the quarter ending June 30, 2014, the fixed charge coverage ratio was required to be at least 1.25 to 1.00. On June 30, 2014, the Company was in compliance with the Credit Agreement with a fixed charge coverage ratio of 5.80 to 1.00.

As of June 30, 2014, KapStone was also in compliance with all other covenants in the Credit Agreement.

18, 2013 and \$5.5 million for the completion of the North Charleston, South Carolina paper mill No. 3 paper machine upgrade.

Net cash provided by financing activities was \$1.4 million and reflects \$2.9 million of net borrowings and repayments for our annual property insurance premiums and \$1.6 million of proceeds from share transactions, partially offset by \$2.4 million for payment on long-term debt and \$0.7 of loan amendment costs. ***Future Cash Needs***

Our remaining 2014 cash needs primarily consists of \$15.9 million to pay the remaining quarterly debt repayments and interest on our term loans, approximately \$50.0 million for capital expenditures for the balance of 2014, funding an additional \$1.6 million contribution to our pension plans and any additional working capital needs.

**Off-Balance Sheet Arrangements**

We have not entered into any off-balance sheet financing arrangements and have not established any special purpose entities. We have not guaranteed any debt or commitments of other entities or entered into any options on non-financial assets.

**QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Market risk is the sensitivity of income to changes in interest rates, commodity prices, equity prices, and other market-driven rates or prices.

Under our Credit Agreement, at June 30, 2014 we have an outstanding Credit Facility consisting of two term loans totaling \$1.2 billion and the Revolver totaling \$400 million. Depending on the type of borrowing, the applicable interest rate under the Credit Facility is calculated at a per annum rate equal to (a) LIBOR plus an applicable margin or (b) the base rate that is calculated as (i) the greatest of (x) the prime rate, (y) the federal funds effective rate plus 0.50% or (z) a daily rate equal to one month LIBOR plus 1% plus (ii) an applicable margin. The unused portion of the Revolver will also be subject to an unused fee that will be calculated at a per annum rate (the Unused Fee Rate).

The applicable margin for borrowings under the Credit Facility and the Unused Fee Rate will be determined by reference to the pricing grid based on the Company's total leverage ratio. Under such pricing grid, the applicable margins for Term Loan A-1 and Revolver will range from 1.0% to 2.0% for Eurodollar loans and from 0.0% to 1.0% for base rate loans and the Unused Fee Rate will range from 0.25% to 0.40%. The applicable margins for Term Loan A-2 will range from 1.25% to 2.25% for Eurodollar loans and from 0.25% to 1.25% for base rate loans. At June 30, 2014 the weighted average interest rate of the term loans was 2.0%.

Changes in market rates may impact the base or LIBOR rate under our Credit Facility. For instance, if the bank's LIBOR rate was to increase or decrease by one percentage point (1.0%), our annual interest expense would change by approximately \$12.3 million based upon our expected future monthly term loan balances per our existing repayment schedule.

We are exposed to price fluctuations of certain commodities used in production. Key raw materials and energy used in the production process include roundwood and woodchips, old corrugated containers, fuel oil, electricity and caustic soda. We purchase these raw materials and energy at market prices, and do not use forward contracts or other financial instruments to hedge our exposure to price risk related to these commodities. We have three contracts to purchase coal at fixed prices with all expiring on December 31, 2014.

We are exposed to price fluctuations in the price of our finished goods. The prices we charge for our products are primarily based on market conditions.

We are exposed to currency fluctuations as we invoice certain European customers in Euros. The Company did not use forward contracts to reduce the impact of currency fluctuations during the quarter ended June 30, 2014. No such contracts were outstanding at June 30, 2014.
