Item 1.01 Entry into a Material Definitive Agreement.

In connection with the Arrangement and Centerra Credit Facility described in Items 2.01 and 2.03 below, Thompson Creek Metals Company Inc. (Thompson Creek) and certain of its material subsidiaries entered into guarantee agreements (the Guarantee Agreements) and security agreements (the Security Agreements) with The Bank of Nova Scotia, in its capacity as Administrative Agent under the Centerra Credit Facility. Pursuant to the Guarantee Agreements, Thompson Creek and certain of its material subsidiaries unconditionally guaranteed the full payment and performance of all obligations under the Centerra Credit Facility and related loan documents. Pursuant to the Security Agreements, Centerra B.C Holdings and certain of its material subsidiaries, including Thompson Creek, granted to the Administrative Agent, for the benefit of the lenders under the Centerra Credit Facility, a security interest in substantially all of their properties and assets to secure the full payment and performance of all obligations under the Centerra Credit Facility and other loan documents.

Concurrently with closing of the Arrangement, Thompson Creek amended its streaming agreement with Royal Gold, Inc.'s subsidiary RGLD Gold AG (Royal Gold). Under the terms of the amendment, Royal Gold's 52.25% gold stream at Mount Milligan has been converted to a 35% gold stream and 18.75% copper stream. Royal Gold will continue to pay US\$435 per ounce of gold delivered and will pay 15% of the spot price per metric tonne of copper delivered. In conjunction with the amendment, Royal Gold's first ranking security over 52.25% of gold produced from the Mount Milligan assets has been amended to provide for first ranking security over 35% of produced gold and 18.75% of produced copper. Royal Gold's other existing security over the Mount Milligan assets remains unaffected.

Item 2.01 Completion of Acquisition or Disposition of Assets.

On October 20, 2016 (the Closing Date), Thompson Creek and Centerra Gold Inc. (Centerra) completed the Plan of Arrangement (the Arrangement) previously announced on July 5, 2016, pursuant to which Centerra acquired all of the issued and outstanding common shares of Thompson Creek.

Under the terms of the Arrangement, each issued and outstanding common share of Thompson Creek was acquired by Centerra in exchange for 0.0988 of a Centerra common share for each Thompson Creek common share (the Exchange Ratio). The common shares of Thompson Creek were then transferred to Centerra's newly-formed wholly-owned subsidiary, Centerra B.C. Holdings Inc. (Centerra B.C. Holdings). Centerra issued a total of 22,320,127 Centerra common shares to the former Thompson Creek shareholders, representing approximately 8% of Centerra's issued and outstanding common shares following closing.

In addition, pursuant to the Arrangement: (i) the vesting of each of Thompson Creek's outstanding restricted share units and performance share units was accelerated and each restricted share unit and performance share unit was exchanged for a Thompson Creek common share, which share was then exchanged for Centerra common shares as described above; and (ii) all of Thompson Creek's outstanding stock options to purchase Thompson Creek common shares, whether vested or unvested, were exchanged at the effective time of the Arrangement for stock options to purchase Centerra common shares on the basis of the Exchange Ratio with an exercise price per Centerra common share adjusted on the basis of the Exchange Ratio and all terms and conditions of a replacement option, including time to expiry, conditions to and manner of exercising, being the same as the Thompson Creek option for which it was exchanged and which shall be governed by the terms of the Thompson Creek long term incentive plan.

Edgar Filing: Thompson Creek Metals Co Inc. - Form 8-K

In connection with the closing of the Arrangement, the governing indentures for all of Thompson Creek's outstanding secured and unsecured notes have been satisfied and discharged in accordance with their terms. All of Thompson Creek's 7.375% Senior Notes due 2018 and 12.5% Senior Notes due 2019 have been redeemed, in accordance with the terms of their respective indentures, at redemption prices of 101.844% and 106.250%, respectively, of the principal amount redeemed, plus accrued and unpaid interest to October 20, 2016, and Thompson Creek has delivered a notice of full redemption to the holders of Thompson Creek's 9.75% Senior Secured First Priority Notes due 2017 providing for redemption on December 1, 2016 at a redemption price of 100.000% of the principal amount redeemed, plus accrued and unpaid interest to the redemption date (collectively, the Note Discharge and Redemption). The aggregate amount paid in connection with the Note Discharge and Redemption was US\$881,018,180.72.

The issuance of the Centerra common shares was exempt from registration under Section 3(a)(10) of the Securities Act of 1933, as amended (the Securities Act). Section 3(a)(10) of the Securities Act exempts the issuance of securities issued in exchange for one or more bona fide outstanding securities from the registration requirements of the Securities Act where the terms and conditions of such issuance and exchange have been approved by a court of competent jurisdiction, after a hearing upon the fairness of the terms and conditions of such issuance and exchange at which all persons to whom the securities will be issued have the right to appear and receive timely notice thereof. On October 19, 2016, a final order was entered by the Supreme Court of British Columbia approving the Arrangement.
