Item 8.01 Other Events.

As has been previously reported, on July 1, 2015, Public Service Company of New Mexico (“PNM”), a wholly owned subsidiary of PNM Resources, Inc., and Westmoreland Coal Company (“Westmoreland”) entered into a Coal Supply Agreement (“CSA”), pursuant to which Westmoreland would supply all of the coal requirements of San Juan Generating Station (“SJGS”) through June 30, 2022. PNM and Westmoreland also entered into other agreements under which Westmoreland will provide coal combustion byproducts (“CCB”) disposal and mine reclamation services.

Contemporaneous with the entry into the coal-related agreements, Westmoreland entered into a stock purchase agreement, which provides that Westmoreland will acquire all of the capital stock of San Juan Coal Company (“SJCC”) from BHP Billiton New Mexico Coal, Inc. (“BHP”). Upon closing under the stock purchase agreement, Westmoreland’s rights and obligations under the CSA and the agreements for CCB disposal and mine reclamation services will be assigned to SJCC. The CSA and related agreements will become effective upon the closing of the stock purchase agreement and the effectiveness of the San Juan Project Restructuring Agreement (“RA”). The stock purchase agreement will terminate on June 30, 2016 if its closing has not occurred by that time.

On December 16, 2015, the New Mexico Public Regulation Commission provided the necessary New Mexico regulatory approvals that would allow for the parties to begin taking final measures required to consummate the transaction and transition the coal mining business. The regulatory approval from the Federal Energy Regulatory Commission (“FERC”), which is also required for effectiveness, has not yet been received.

The parties’ target for the effectiveness of the CSA and the RA had been December 31, 2015. On December 23, 2015, Westmoreland announced that the parties involved in the coal mine transaction are now targeting January 31, 2016, for the closing of the purchase of SJCC from BHP.
