THE QUANTUM GROUP, INC.
(A DEVELOPMENT STAGE ENTERPRISE)
NOTES TO CONDENSED FINANCIAL STATEMENTS - (UNAUDITED)
JULY 31, 2004

NOTE 1: DESCRIPTION OF COMPANY

On May 28, 2003, Transform Pack International, Inc. (the "Company") merged with Quantum HIPAA Consulting, Inc ("Quantum"). On January 30, 2004, the shareholders of the Company approved the reincorporation of the Company under the name of The Quantum Group, Inc. ("TQGI"). The shareholders approved a 1 for 10 reverse stock split (See Note 6). The Company is a development stage company with no current revenues. The Company's business model is to become a provider of services to the healthcare industry in three complementary areas: outsourcing administrative responsibilities for physicians, Managed Care Organizations, healthcare facilities and physician associations; developing new technologies for the healthcare delivery system; and providing healthcare services to consumers. (See

Edgar Filing: QUANTUM GROUP INC /FL - Form 10QSB

Note 4)

BASIS OF PRESENTATION

The condensed financial statements include of The Quantum Group, Inc. (the "Company") have been prepared in accordance with generally accepted accounting principles for interim financial information and Regulation S-B. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements.

The accompanying condensed financial statements of the Company are unaudited. However, in the opinion of management, they include all adjustments necessary for a fair presentation of financial position, results of operations and cash flows. All adjustments made during the nine months ended July 31, 2004, were of a normal, recurring nature. The amounts presented for the nine months ended July 31, 2004, are not necessarily indicative of the results to be expected for any other interim period or for the entire fiscal year. Additional information is contained in the Annual Report on Form 10-KSB of the Company for the year ended October 31, 2003, which should be read in conjunction with this quarterly report.

GOING CONCERN

The Company has no revenues to date. Since its inception, the Company has been dependent upon the receipt of capital investment to fund its continuing activities. In addition to the normal risks associated with a new business venture, there can be no assurance that the Company's business plan will be successfully executed. The Company's ability to execute its business model will depend on its ability to obtain additional financing and achieve a profitable level of operations. There can be no assurance that sufficient financing will be obtained. Nor can any assurance be made that the Company will generate substantial revenues or that the business operations will prove to be profitable. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CASH EQUIVALENTS

The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. At July 31, 2004 there were no cash equivalents.

PROPERTY AND EQUIPMENT

Furniture and equipment are stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to five years.

RESEARCH AND DEVELOPMENT COSTS

Research and development costs are charged to expense when incurred.

Edgar Filing: QUANTUM GROUP INC /FL - Form 10QSB

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

INCOME TAXES

The Company has not recognized any benefit of such net operating loss carry forwards in the accompanying financial statements in accordance with the provisions of SFAS No. 109, as the realization of this deferred tax benefit is not likely. A 100% valuation allowance has been recognized to offset the entire effect of the Company's net deferred tax asset.

STOCK COMPENSATION

The company has adopted Statement of Financial Accounting Standards No. 123 ("SFAS 123"), "Accounting for Stock-Based Compensation." SFAS 123 encourages the use of a fair-value-based method of accounting for stock-based awards, under which the fair value of stock options is determined on the date of grant and expensed over the vesting period. Under SFAS 123, companies may, however, measure compensation costs for those plans using the method prescribed by Accounting Principles Board Opinion No. 25 ("APB No. 25"), "Accounting for Stock Issued to Employees." Companies that apply APB No. 25 are required to include pro forma disclosures of net earnings and earnings per share as if the fair-value-based method of accounting had been applied. The Company elected to account for such plans under the provisions of APB No. 25. The Company accounts for stock options granted to consultants under SFAS 123.

THE QUANTUM GROUP, INC.

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED FINANCIAL STATEMENTS - (UNAUDITED)

JULY 31, 2004

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Had the compensation expense for the stock option plan been determined based on the fair value of the options at the grant date consistent with the methodology prescribed under Statement of Financial Standards No. 123, "Accounting for Stock Based Compensation," at July 31, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below:

	2004	2003
	-----	-----
Net income (loss)		
As reported	\$ (620,028)	\$ (59,431)
	-----	-----
Pro forma	\$ (644,928)	\$ (59,431)
	-----	-----
Earnings per share		
As reported	\$ (0.18)	\$ (0.02)
	-----	-----
Pro forma	\$ (0.19)	\$ (0.02)
	-----	-----

Edgar Filing: QUANTUM GROUP INC /FL - Form 10QSB

The fair value of each option is estimated on the date of grant using the fair market value option-pricing model with the assumptions:

risk-free interest rate	4%
expected life (years)	5
expected volatility	2.31
expected dividends	None

NOTE 3: FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of cash and cash equivalents, accounts payable and accrued liabilities approximate their fair value because of the short maturity of these financial instruments.

NOTE 4: MERGER WITH QUANTUM HIPAA CONSULTING, INC.

Effective May 28, 2003, the Company consummated a merger pursuant to a merger agreement with Quantum HIPAA Consulting Group, Inc. Quantum HIPAA Consulting Group, Inc. developed a training compact disc and manuals to instruct the healthcare industry on the implementation of the regulations created to comply with the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

The Company completed the merger by issuing 2,700,000 million shares of Common Stock to the sole shareholder of Quantum, in exchange for all the issued and outstanding shares of Quantum. For accounting purposes, the acquisition was treated as a recapitalization of the Company. The value of the net assets of the Company after the acquisition was completed is the same as their historic book value.

On May 30 2003, in accordance with the agreement, the Company, Transform Pack International, Inc., sold its wholly owned subsidiary, Transform Pack, Inc. (TPI) to certain previous shareholders and investors of the Company. Transform Pack, Inc. and its shareholders have agreed to assume and indemnify the Company for all operating debts of the Company.

NOTE 5: LOSS PER SHARE

Basic loss per share is computed by dividing loss available to common shareholders by the weighted average number of common shares for the period. Diluted loss per share is not presented as the effects would be anti-dilutive.

GOING CONCERN

The Company is a development stage company that over the last three years has expensed material sums in creating procedures, manuals and systems to assist the medical community in the implementation of medical regulations. Though the Company has materially finished developing its training programs, additional updates and deployment will be required.

As shown in the accompanying condensed financial statements, the Company has incurred recurring losses and negative cash flows from its development and organization activities and has negative working capital and shareholders' deficit. Under normal conditions, these conditions raise substantial doubt about the Company's ability to continue as a going concern.

There can be no assurance that the Company will be able to successfully implement its plans to generate additional investor interest and raise additional capital, or if such plans are successfully implemented, that the Company will achieve its goals.

Furthermore, if the Company is unable to raise additional funds, it may be required to modify its growth and developmental plans, and even be forced to severely limit development operations completely.

The accompanying condensed financial statements have been prepared assuming that the Company will continue as a going concern and do not include any adjustments to reflect the possible future effects of the recoverability and classification of assets or the amounts and classification of liabilities that might result from the outcome of this uncertainty. See "Liquidity and Capital Resources," below.
