-

Item 7.01 Regulation FD Disclosure.

On January 10, 2013, Bemis Company, Inc. issued a press release providing revised segment information for certain periods based on its new segment reporting structure, a copy of which is furnished as Exhibit 99 to this report. The revised structure will be the basis for the regular earnings conference call scheduled for Thursday, January 31, 2013, at 10:00 a.m. (ET). Individuals may listen to the call on the Internet at www.bemis.com under "Investor Relations." Listeners are urged to check the website ahead of time to ensure their computers are configured for the audio stream. Instructions for obtaining the required, free, downloadable software are available in a pre-event system test on the site.

Use of Non-GAAP Financial Measures

The press release furnished as an exhibit to this report contains certain non-GAAP financial measures, including:

- Segment operating profit as adjusted
- Segment operating profit as adjusted as a percentage of net sales

Each of these measures excludes from the most directly comparable GAAP measures the impact of certain items. Management believes these adjusted measures are useful to investors because they assist an investor's understanding of the impact of these items on the comparability of the Company's operations from year-to-year. Excluding the impact of these items also enables investors to compare our underlying operational results and trends before other charges and income items that are considered by management as not related to the Company's core operations. Management uses these adjusted measures to monitor and evaluate operating performance and also for internal planning purposes. These measures are subject to certain limitations because they do not reflect all charges, income, or other items that were actually recognized by the Company in accordance with GAAP. As a result, investors should consider these non-GAAP measures in addition to, and not as a substitute for, or superior to, financial performance measures presented in accordance with GAAP. In addition, these adjusted measures may not be calculated in the same manner as adjusted measures presented by other companies.

Item 9.01 Financial Statements and Exhibits.

- (d). The January 10, 2013, Bemis Company, Inc. press release provides revised segment information for certain periods based on the new segment reporting structure.
