The allocation to each account is calculated by multiplying the aggregate amount of such dividends by a fraction, the numerator of which is the balance credited to the account and the denominator of which is the aggregate balances credited to all accounts, all as of the last day of the quarter immediately preceding the quarter in which the dividends are received. Once allocated, such dividends may, at the discretion of the Committee, be paid out to the account holder within ninety (90) days after the end of the plan year in which they are received.
