PART I

ITEM 1. BUSINESS

General

We were incorporated in the State of Nevada on July 27, 2000. We are presently engaged in the acquisition and exploration of mining properties. The Company's address is 100 Wall Street, 21st Floor, New York, NY 10005. The Company's telephone number is (561) 989-3200.

Background

In August 2000, we acquired the right to prospect one mineral property containing eight mining claims located on Copperkettle Creek in British Columbia, Canada. We have allowed these claims to lapse. From August 26, 2006 to December 11, 2006, we did not conduct any operations. During that period, we intended to identify an acquisition or merger candidate with ongoing operations in any field. However in December 2006 we decided to acquire the right to explore a new property in British Columbia and returned to the business of mineral exploration. On April 30, 2009, the Company decided not to renew certain claims due to a lack of capital. As of the end of the period covered by this Report, the Company had one claim, the GRN claim.

The Company's Current Business Operations

To date we have not performed any work on developing the GRN Claim, and we no longer plan to pursue such development. As of the end of the period covered by this Report, we were in the exploration stage and had not determined whether any commercially viable mineral deposit exists in the property. Further exploration would be required to determine the economic and legal feasibility of pursuing such project. Subsequent to the end of the period covered by this Report, the Company has determined to pursue other mining development opportunities. Subsequent to the end of the period covered by this Report, the Company has retained a new Chief Executive Officer, Leonardo Riera, and a new Chief Financial Officer, Luis Feliu.

Employees

As of the end of the period covered by this Report, we had no full-time employees. We had one officer and director who was a part-time employee and devoted about 10% of his time or four hours per week to our operation. On August 25, 2010 Mr. Urmas Turu resigned as the President of the Company. He shall remain a member of the Company's Board of Directors and as the Company's Secretary and Treasurer until qualified replacements are appointed. Effective as of August 25, 2010, Mr. Leonardo Alberto Riera has been appointed as a member of the Company's Board of Directors and as the President of the Company. Effective as of September 2, 2010, Mr. Luis Feliu has been appointed as the Chief Financial Officer of the Company. Mr. Riera and Mr. Feliu will both devote the majority of their time to the Company's operations.

ITEM 1A. RISK FACTORS

An investment in our Company involves a risk of loss. You should carefully consider the risks described below, before you make any investment decision regarding our Company. Additional risks and uncertainties may also impair our business. If any such risks actually materialize, our business, financial condition and operating results could be adversely affected. In such case, the trading price of our common stock could decline.

We have not yet commenced revenue generating operations under our business model and we have no past performance which can serve as an indicator of our future potential.

We are presently developing a new business model to pursue mining operations. We have been developing our business plan and growing our team, but as of the date of this Report we have not yet implemented our plans. Our most recent financial statements will therefore not provide sufficient information to assess our future prospects. Our likelihood of success must be considered in light of all of the risks, expenses and delays inherent in establishing a new business, including, but not limited to unforeseen expenses, complications and delays, established competitors and other factors.

Our Auditors have issued an opinion expressing uncertainty regarding our ability to continue as a going concern. If we are not able to continue operations, investors could lose their entire investment in our company.

We have a history of operating losses, and may continue to incur operating losses for the foreseeable future. This raises substantial doubts about our ability to continue as a going concern. Our auditors issued an opinion in their audit report dated September 27, 2010 expressing uncertainty about our ability to continue as a going concern. This means that there is substantial doubt whether we can continue as an ongoing business without additional financing and/or generating profits from our operations. If we are unable to continue as a going concern and our Company fails, investors in our Company could lose their entire investment.

We need to raise additional capital which may not be available to us or might not be available on favorable terms.

We will need additional funds to implement our business plan as our business model requires significant capital expenditures. We will need substantially more capital to execute our business plan. Our future capital requirements will depend on a number of factors, including our ability to grow our revenues and manage our business. Our growth will depend upon our ability to raise additional capital, possibly through the issuance of long-term or short-term indebtedness or the issuance of our equity securities in private or public transactions. If we are successful in raising equity capital, because of the number and variability of factors that will determine our use of the capital, our ultimate use of the proceeds may vary substantially from our current plans.

We were incorporated in July 2000 and have yet to generate any revenues. We have losses which we expect to continue into the future. As a result, we may have to suspend or cease operations.

We were incorporated on July 27, 2000, and have not realized any revenues. We were unsuccessful in located mineralized material on our first property and used all of our money on the exploration of the first property. Our operating history is one of failure. Our net loss since inception is approximately \$506,981. To achieve and maintain profitability and positive cash flow we are dependent upon our ability to locate a profitable mineral property, our ability to generate revenues and our ability to reduce exploration costs.

Based upon current plans, we expect to incur operating losses in future periods. This will happen because there are expenses associated with the exploration of our mineral properties. As a result, we may not generate revenues in the future. Failure to generate revenues will cause us to suspend or cease operations.

Our management does not have technical training or experience in exploring for, starting, and operating an exploration program, we will have to hire qualified personnel. If we cannot locate qualified personnel, we may have to suspend or cease operations.

Because our management is inexperienced with exploring for, starting, and operating an exploration program, we will have to hire qualified persons to perform surveying, exploration, and excavation of the property. Our management has no direct training or experience in these areas and as a result may not be fully aware of many of the specific requirements related to working within the industry. Management decisions and choices may not take into account standard engineering or managerial approaches, mineral exploration companies commonly use. Consequently our operations, earnings and ultimate financial success could suffer irreparable harm due to management lack of experience in this industry. As a result we may have to suspend or cease operations.

Indebtedness may burden us with high interest payments and highly restrictive terms which could adversely affect our business.

As a matter of Company policy, our financial plans will limit our debt exposure to a reasonable level. However, a significant amount of indebtedness could increase the possibility that we may be unable to generate sufficient revenues to service the payments on indebtedness, when due, including principal, interest and other amounts.

We may be exposed to tax audits.

Our U.S. federal and state tax returns may be audited by the U.S. Internal Revenue Service (the “IRS”). An audit may result in the challenge and disallowance of deductions claimed by us. Further, an audit could lead to an audit of one or more of our investors and ultimately result in attempts to adjust investors’ tax returns with respect to items unrelated to us. We are unable to guarantee the deductibility of any item that we acquire. We will claim all deductions for federal and state income tax purposes which we reasonably believe that we are entitled to claim. In particular, we will elect to treat as an expense for tax purposes all interest, management fees, taxes and insurance. The IRS may disallow any of the various elements used in calculating our expenses, thereby reducing federal income tax benefits of an investment. To the extent that any challenge or disallowance is raised in connection with a tax return filed by an individual shareholder, the cost of any audit and/or litigation resulting there from would be born solely by the affected shareholder. In the event the IRS should disallow any of our deductions, the directors, in their sole discretion, will decide whether to contest such disallowance. No assurance can be given that in the event of such a contest the deductions would be sustained by the courts. If the disallowance of any deductions results in an underpayment of tax, investors could also be responsible for interest on the underpayments.

Because we intend to conduct our mineral exploration and development activities outside of the United States, we will be required to get approvals from foreign national and local governments.

The Company intends to pursue projects outside of the United States, which may require us to seek the approval of various foreign governments. Seeking such approvals may be expensive, complex, time consuming and uncertain.

We do not anticipate paying cash dividends.

We do not anticipate paying cash dividends in the foreseeable future. We intend to retain any cash flow we generate for investment in our business. Accordingly, our common stock may not be suitable for investors who are seeking current income from dividends. Any determination to pay dividends on our common stock in the future will be at the discretion of our board of directors.

Because the market for our common shares is limited, investors may not be able to resell their common shares.

Our common shares trade on the Over-the-Counter-Bulletin-Board quotation system. Trading in our shares has historically been subject to very low volumes and wide disparity in pricing. Investors may not be able to sell or trade their common shares because of thin volume and volatile pricing with the consequence that they may have to hold your shares for an indefinite period of time.

There are legal restrictions on the resale of the common shares offered, including penny stock regulations under the U.S. Federal Securities Laws.

We anticipate that our common stock will continue to be subject to the penny stock rules under the Securities Exchange Act of 1934, as amended. These rules regulate broker/dealer practices for transactions in "penny stocks." Penny stocks are generally equity securities with a price of less than \$5.00. The penny stock rules require broker/dealers to deliver a standardized risk disclosure document that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker/dealer must also provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker/dealer and its salesperson and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations and the broker/dealer and salesperson compensation information must be given to the customer orally or in writing prior to completing the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction, the broker and/or dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. The transaction costs associated with penny stocks are high, reducing the number of broker-dealers who may be willing to engage in the trading of our shares. These additional penny stock disclosure requirements are burdensome and may reduce all of the trading activity in the market for our common stock. As long as the common stock is subject to the penny stock rules, our shareholders may find it more difficult to sell their shares.

If we raise additional funds through the issuance of equity or convertible debt securities, your ownership will be diluted.

If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership held by existing shareholders will be reduced. New securities may contain certain rights, preferences or privileges that are senior to those of our common shares. Furthermore, any additional equity financing may be dilutive to shareholders, and debt financing, if available, may involve restrictive covenants, which may limit our operating flexibility with respect to certain business matters.

Grants of stock options and other rights to our employees may dilute your stock ownership.

We plan to attract and retain employees in part by offering stock options and other purchase rights for a significant number of common shares. The issuance of common shares pursuant to these options, and options issued in the future, will have the effect of reducing the percentage of ownership in us of our then existing shareholders.

Our stock price may be volatile and market movements may adversely affect your investment.

The market price of our stock may fluctuate substantially due to a variety of factors, many of which are beyond our control. The stock markets in general have experienced substantial volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the market price of our stock. Future sales of our common shares by our shareholders could depress the price of our stock.

We have not declared any cash dividends, nor do we intend to do so. We are not subject to any legal restrictions respecting the payment of dividends, except that they may not be paid to render us insolvent. Dividend policy will be based on our cash resources and needs and it is anticipated that all available cash will be needed for our operations in the foreseeable future.

Section Rule 15(g) of the Securities Exchange Act of 1934

Our company's shares are issued under Section 15(g) of the Securities Exchange Act of 1934, as amended that imposes additional sales practice requirements on broker/dealers who sell such securities to persons other than established customers and accredited investors (generally institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouses). For transactions covered by the Rule, the broker/dealer must make a special suitability determination for the purchase and have received the purchaser's written agreement to the transaction prior to the sale. Consequently, the Rule may affect the ability of broker/dealers to sell our securities and also may affect your ability to sell your shares in the secondary market.

Section 15(g) also imposes additional sales practice requirements on broker/dealers who sell penny securities. These rules require a one page summary of certain essential items. The items include the risk of investing in penny stocks in both public offerings and secondary marketing; terms important to in understanding of the function of the penny stock market, such as "bid" and "offer" quotes, a dealers "spread" and broker/dealer compensation; the broker/dealer compensation, the broker/dealers duties to its customers, including the disclosures required by any other penny stock disclosure rules; the customers rights and remedies in causes of fraud in penny stock transactions; and, the FINRA's toll free telephone number and the central number of the North American Administrators Association, for information on the disciplinary history of broker/dealers and their associated persons.

Securities authorized for issuance under equity compensation plans

We do not have any equity compensation plans and accordingly we have no securities authorized for issuance thereunder.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Securities

On May 11, 2010, we entered into a stock purchase agreement with CRG Finance AG whereby CRG Finance AG purchased 700,000 shares of common stock at \$0.01 per share for a total of \$7,000. This transaction was made in reliance upon the exemption from Securities Act registration provided by Section 4(2) of the U.S. Securities Act, and the rules and regulations promulgated thereunder, including Regulation S.

ITEM 6. SELECTED FINANCIAL DATA

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION, LIQUIDITY, CAPITAL AND RESULT OF OPERATIONS.

The following discussion of the financial condition and results of operations of the Company should be read in conjunction with the financial statements and the related notes thereto included elsewhere in this Report. This Report contains certain forward-looking statements and the Company's future operating results could differ materially from those discussed herein. Certain statements contained in this Report, including, without limitation, statements containing the words "believes", "anticipates," "expects" and the like, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). However, as the Company intends to issue "penny stock," as such term is defined in Rule 3a51-1 promulgated under the Exchange Act, the Company is ineligible to rely on these safe harbor provisions. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to announce publicly the results of any revisions of the forward-looking statements contained or incorporated by reference herein to reflect future events or developments, except as required by the Exchange Act.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us upon which to base an evaluation of our performance. We are an exploration stage corporation and have not generated any revenues from operations.

To become profitable and competitive, we have to conduct exploration on the property and find mineralized material. We will be seeking equity financing to provide for the capital required to implement our research and exploration phases. On July 27, 2007 we completed our private placement. We raised \$82,432 by selling 8,243,200 shares of common stock at a price of \$0.01 per share to twelve shareholders. The proceeds of the offering have been used to sustain operations until the date of this Report.

On May 11, 2010, we entered into a stock purchase agreement with CRG Finance AG whereby CRG Finance AG purchased 700,000 shares of common stock at \$0.01 per share for a total of \$7,000.

The loan, plus any interest accumulated, is due upon demand after the first anniversary of the agreement date within thirty calendar days upon delivery to the Borrower a written demand by the Lender.

On September 1, 2010, we executed a consulting agreement whereby agreeing to pay Executive Consulting Services Group (ECS) \$1,000 per month on a month-by-month basis, renewable by mutual agreement. ECS provides administrative support for the day-to-day operations of the Company. Such administrative duties include maintaining compliance with regulatory agencies, maintaining the Corporate Minute Book and acting as the Company's bookkeeper.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to existing shareholders.

(An exploration stage company)
New York, NY

We have audited the accompanying balance sheets of Ardent Mines Limited ("Ardent Mines") as of June 30, 2010 and 2009, and the related statements of expenses, changes in stockholders' deficit, and cash flows for the years ended June 30, 2010 and 2009 and for the period from July 27, 2000 (inception) through June 30, 2010. These financial statements are the responsibility of Ardent Mines' management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Ardent Mines is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Ardent Mines's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ardent Mines as of June 30, 2010 and 2009, and the results of its operations and its cash flows for the years then ended and for the period from July 27, 2000 (inception) through June 30, 2010, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Ardent Mines will continue as a going concern. As discussed in Note 2 to the financial statements, Ardent Mines has suffered recurring losses from operations and has negative working capital, which raises substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ARDENT MINES LIMITED
(AN EXPLORATION STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business. Ardent Mines Limited (Ardent Mines) was incorporated in Nevada on July 27, 2000. Ardent Mines' principal business plan is to acquire, explore and develop mineral properties and to ultimately seek earnings by exploiting the mineral claims.

Ardent Mines has been in the exploration stage since its formation on July 27, 2000 and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition, exploration and development of mining properties. Upon location of a commercial mineable reserve, Ardent Mines will actively prepare the site for extraction and enter a development stage. At present, management devotes most of its activities to raise sufficient funds to further explore and develop its mineral properties. Planned principal activities have not yet begun.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents. Investments with an original maturity date of three months or less when purchased are considered to be cash equivalents and are stated at cost.

Income Taxes. Ardent Mines recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. Ardent Mines provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

Exploration and Development Costs. Ardent Mines has been in the exploration stage since its formation and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition, exploration and development of mining properties. Mineral exploration costs are expensed as incurred. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs incurred to develop such property, are capitalized. Such costs will be amortized using the units-of-production method over the estimated life of the probable reserve.

Basic and Diluted Net Loss Per Share. Basic and diluted net loss per share calculations are presented in accordance with ASC 260, and are calculated on the basis of the weighted average number of common shares outstanding during the year. They include the dilutive effect of common stock equivalents in years with net income. Basic and diluted loss per share are the same due to the absence of common stock equivalents.

ARDENT MINES LIMITED
(AN EXPLORATION STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

Ardent Mines does not expect the adoption of any other recently issued accounting pronouncements to have a significant impact on their results of operations, financial position or cash flows.

NOTE 2 - GOING CONCERN

From July 27, 2000 (date of inception) to June 30, 2010, Ardent Mines has incurred a loss and has a negative working capital at June 30, 2010. The ability of Ardent Mines to emerge from the exploration stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and/or attain profitable mining operations. Management has plans to seek additional capital through a private placement and public offering of its common stock. There is no guarantee that Ardent Mines will be able to complete any of the above objectives. These factors raise substantial doubt regarding the Ardent Mines' ability to continue as a going concern.

NOTE 3 - RELATED PARTY TRANSACTIONS

As of June 30, 2010, Ardent Mines has a payable to Urmas Turu, president for \$38,490 that was used for payment of expenses on behalf of the Company. The amount has no terms of repayment, is unsecured, and bears no interest. Ardent Mines also leases its business office from Mr. Turu for free.

The amount had no terms of repayment, was unsecured, and bore no interest. As of June 30, 2009, this amount is reported as part of accounts payable since Taras Chebountchak is no longer considered a related party. On February 16, 2010, the Company repaid \$11,000 and Executive Consulting Services, Group (ECS) forgave the remaining \$2,560. This has been accounted for on the financial statements as debt forgiveness income.

The significant components of deferred income tax assets at June 30, 2010 are as follows:

	June 30, 2010	June 30, 2009
Net operating loss carryforward	\$ 190,790	\$ 177,100
Valuation allowance	(190,790)	(177,100)
Net deferred income tax asset	\$ -	\$ -

ARDENT MINES LIMITED
(AN EXPLORATION STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

The Company has recognized a valuation allowance for the deferred income tax asset since the Company cannot be assured that it is more likely than not that such benefit will be utilized in future years. The valuation allowance is reviewed annually. When circumstances change and which cause a change in management's judgment about the realizability of deferred income tax assets, the impact of the change on the valuation allowance is generally reflected in current income.

The cumulative net operating loss carry-forward is approximately \$545,000 at June 30, 2010, and will expire in the years 2021 to 2029.

NOTE 7 – SUBSEQUENT EVENTS

On August 31, 2010, we borrowed \$100,000 from CRG Finance AG at a rate of 7.5% per annum. The loan, plus any interest accumulated, is due upon demand after the first anniversary of the agreement date within thirty calendar days upon delivery to the Borrower a written demand by the Lender.

On September 1, 2010, the Company executed a consulting agreement whereby agreeing to pay Executive Consulting Services Group (ECS) \$1,000 per month on a month-by-month basis, renewable by mutual agreement. ECS provides administrative support for the day-to-day operations of the Company. Such administrative duties include maintaining compliance with regulatory agencies, maintaining the Corporate Minute Book and acting as the Company's bookkeeper.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 ("Exchange Act"), the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting.

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Our internal control system was designed to, in general, provide reasonable assurance to the Company's management and board regarding the preparation and fair presentation of published financial statements, but because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of the Company's internal control over financial reporting as of June 30, 2010. The framework used by management in making that assessment was the criteria set forth in the document entitled "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that assessment, our management has determined that as of June 30, 2010, the Company's internal control over financial reporting was effective for the purposes for which it is intended.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) during the quarter ended June 30, 2010 that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

Indemnification

Under our Articles of Incorporation and Bylaws of the corporation, we may indemnify an officer or director who is made a party to any proceeding, including a law suit, because of his position, if he acted in good faith and in a manner he reasonably believed to be in our best interest. We may advance expenses incurred in defending a proceeding. To the extent that the officer or director is successful on the merits in a proceeding as to which he is to be indemnified, we must indemnify him against all expenses incurred, including attorney's fees. With respect to a derivative action, indemnity may be made only for expenses actually and reasonably incurred in defending the proceeding, and if the officer or director is judged liable, only by a court order. The indemnification is intended to be to the fullest extent permitted by the laws of the State of Nevada.

Regarding indemnification for liabilities arising under the Securities Act of 1933, which may be permitted to directors or officers under Nevada law, we are informed that, in the opinion of the Securities and Exchange Commission, indemnification is against public policy, as expressed in the Act and is, therefore, unenforceable.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Audit fees

The aggregate fees billed for the two most recently completed fiscal periods ended June 30, 2010 and June 30, 2009 for professional services rendered by MaloneBailey, LLP, registered public accountants, for the audit of our annual financial statements, quarterly reviews of our interim financial statements and services normally provided by the independent accountant in connection with statutory and regulatory filings or engagements for these fiscal periods were as follows:

	Year Ended June 30, 2010	Year Ended June 30, 2009
Audit Fees	\$ 10,000	\$ 11,500
Audit Related Fees	-	-
Tax Fees	-	-
All Other Fees	-	-
Total	\$ 10,000	\$ 11,500

In the above table, “audit fees” are fees billed by our company’s external auditor for services provided in auditing our company’s annual financial statements for the subject year along with reviews of interim quarterly financial statements and involvement with various in arrears filing earlier in 2009. “Audit-related fees” are fees not included in audit fees that are billed by the auditor for assurance and related services that are reasonably related to the performance of the audit review of our company’s financial statements. “Tax fees” are fees billed by the auditor for professional services rendered for tax compliance, tax advice and tax planning. “All other fees” are fees billed by the auditor for products and services not included in the foregoing categories.

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before our auditor is engaged by us to render any auditing or permitted non-audit related service, the engagement be:

-approved by our audit committee; or

-entered into pursuant to pre-approval policies and procedures established by the audit committee, provided the policies and procedures are detailed as to the particular service, the audit committee is informed of each service, and such policies and procedures do not include delegation of the audit committee's responsibilities to management.

We do not have an independent audit committee. Our entire board of directors pre-approves all services provided by our independent auditors.

The pre-approval process has just been implemented in response to the new rules. Therefore, our board of directors does not have records of what percentage of the above fees were pre-approved. However, all of the above services and fees were reviewed and approved by the entire board of directors either before or after the respective services were rendered.
