⌘ Among the Fund's 10 largest holdings or issuers held, as of February 28, 2013. May be subject to change daily.

† Percentages indicated are based on Fund net assets applicable to Common Shares, unless otherwise noted.

‡ Less than one-tenth of a percent.

(a) Interest on these securities is subject to alternative minimum tax.

(b) All or portion of principal amount transferred to a Tender Option Bond ("TOB") Issuer in exchange the Fund acquired TOB Residuals and cash.

(c) May be sold to institutional investors only under Rule 144A or securities offered pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended.

(d) Proceeds received from TOB transactions.

(e)

Edgar Filing: MainStay DefinedTerm Municipal Opportunities Fund - Form N-Q

Represents the difference between the value of the contracts at the time they were opened and the value as of February 28, 2013.

- (f) As of February 28, 2013, cash in the amount of \$825,000 is on deposit with a broker for futures transactions.
- (g) As of February 28, 2013, cost is \$750,633,156 for federal income tax purposes and net unrealized appreciation is as follows:

Gross unrealized appreciation	\$30,037,440
Gross unrealized depreciation	(381,441)
Net unrealized appreciation	\$29,655,999

"Managed Assets" is defined as the Fund's total assets, minus the sum of its accrued liabilities (other than Fund liabilities incurred for the purpose of creating effective leverage (i.e. tender option bonds) or Fund liabilities related to liquidation preference of any preferred shares issued).

The following abbreviations are used in the above portfolio:

ACA	-ACA Financial Guaranty Corp.
AGC-ICC	-Assured Guaranty Corporation—Insured Custody Certificates
AGM	-Assured Guaranty Municipal Corp.
AMBAC	-Ambac Assurance Corp.
CIFG	-CIFG Group
FGIC	-Financial Guaranty Insurance Co.
FSA	-Financial Security Assurance, Inc.
GTY	-Assured Guaranty Corp.
NATL-RE	-National Public Finance Guarantee Corp.
RADIAN	-Radian Asset Assurance, Inc.

The following is a summary of the fair valuations according to the inputs used as of February 28, 2013, for valuing the Fund's assets and liabilities.

Asset Valuation Inputs

b

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Investments in Securities (a)				
Municipal Bonds	\$ —	\$780,289,155	\$ —	\$780,289,155
Total Investments in Securities	\$ —	\$780,289,155	\$ —	\$780,289,155

Liability Valuation Inputs

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Other Financial Instruments				
Futures Contracts Short (b)	\$ (13,594)	\$ —	\$ —	\$(13,594)
Total Other Financial Instruments	\$ (13,594)	\$ —	\$ —	\$(13,594)

(a) For a complete listing of investments and their industries, see the Portfolio of Investments.

(b) The value listed for this security reflects unrealized appreciation (depreciation) as shown on the Portfolio of Investments.

The Fund recognizes transfers between the levels as of the beginning of the period.

For the period ended February 28, 2013, the Fund did not have any transfers between Level 1 and Level 2 fair value measurements.

Edgar Filing: MainStay DefinedTerm Municipal Opportunities Fund - Form N-Q

As of February 28, 2013, the Fund did not hold any investments with significant unobservable inputs (Level 3).

MainStay DefinedTerm Municipal Opportunities Fund

NOTES TO PORTFOLIOS OF INVESTMENTS February 28, 2013 Unaudited

SECURITIES VALUATION.

Investments are valued as of the close of regular trading on the New York Stock Exchange ("Exchange") (generally 4:00 p.m. Eastern time) on each day the Fund is open for business ("valuation date").

The Board has adopted procedures for the valuation of the Fund's securities and has delegated the responsibility for valuation determination under those procedures to the Valuation Committee of the Fund (the "Valuation Committee"). The Board has authorized the Valuation Committee to appoint a Valuation Sub-Committee (the "Sub-Committee") to deal in the first instance with questions that arise or cannot be resolved under these procedures. The Sub-Committee will meet (in person, via electronic mail or via teleconference) on an as-needed basis. The Valuation Committee shall meet at a later time, as necessary, to ensure that actions taken by the Sub-Committee were appropriate. The procedures recognize that, subject to the oversight of the Board and unless otherwise noted, the responsibility for day-to-day valuation of portfolio assets (including securities for which market prices are not readily available) rests with New York Life Investment Management LLC ("New York Life Investments" or the "Manager"), aided to whatever extent necessary by the Subadviser of the Fund.

To assess the appropriateness of security valuations, the Manager or the Fund's third party service provider who is subject to oversight by the Manager, regularly compares prior day prices, prices on comparable securities and the sale prices to the prior and current day prices and challenges prices exceeding certain tolerance levels with third party pricing services or broker sources. For those securities valued by recommendation, whether through a standardized fair valuation methodology or a fair valuation determination, the Valuation Committee reviews and affirms the reasonableness of the valuation based on such methodologies and determinations on a regular basis after considering all relevant information that is reasonably available.

"Fair value" is defined as the price that a Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. Fair value measurements are determined within a framework that has established a three-tier hierarchy which maximizes the use of observable market data and minimizes the use of unobservable inputs to establish classification of fair value measurements for

Edgar Filing: MainStay DefinedTerm Municipal Opportunities Fund - Form N-Q

disclosure purposes. "Inputs" refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, such as the risk inherent in a particular valuation technique used to measure fair value using a pricing model and/or the risk inherent in the inputs for the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the information available in the circumstances. The inputs or methodology used for valuing securities may not be an indication of the risks associated with investing in those securities. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments in active markets, interest rates and yield curves, prepayment speeds, credit risks, etc.)

Level 3 – significant unobservable inputs (including each Fund's own assumptions about the assumptions that market participants would use in determining the fair value of investments)

The aggregate value by input level, as of February 28, 2013, for the Fund's investments are included at the end of the Portfolio of Investments.

The valuation techniques used by the Fund to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs. The Fund may utilize third party vendor evaluations, whose prices may be derived from one or more of the following standard inputs:

- Benchmark Yields
- Broker Dealer Quotes
- Two-sided markets
- Bids / Offers
- Industry and economic events
- Equity and credit default swap curves
- Reported Trades
- Issuer Spreads
- Benchmark securities
- Reference Data (corporate actions or material event notices)
- Comparable bonds
- Monthly payment information

Securities for which market value cannot be determined using the methodologies described above are valued by methods deemed in good faith by the Fund's Valuation Committee, following the procedures established by the Board, to represent fair value. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information. The Fund may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. For the period ended February 28, 2013 there have been no changes to the fair value methodologies.

Equity and non-equity securities which may be valued in this manner include, but are not limited to: (i) a security for which the trading has been halted or suspended; (ii) a debt security that has recently gone into default and for which there is not a current market quotation; (iii) a security of an issuer that has entered into a restructuring; (iv) a security that has been de-listed from a national exchange; (v) a security for which the market price is not available from third party pricing source or, if so provided, does not, in the opinion of the Fund's Manager or Subadvisor (if applicable), reflect the security's market value; and (vi) a security whose principal market has been temporarily closed at a time when, under normal conditions, it would be open. Securities for which market quotations or observable inputs are not readily available are generally categorized as Level 3 in the hierarchy. As of February 28, 2013, the Fund did not hold any securities that were fair valued in such a manner.

Municipal Debt securities are valued at the evaluated mean prices based on observable inputs supplied by a pricing agent or brokers selected by the Fund's Manager in consultation with the Fund's Subadvisor, if any, whose prices reflect broker/dealer supplied valuations and electronic data processing techniques, if such prices are deemed by the Fund's Manager, in consultation with the Fund's Subadvisor, if any, to be representative of market values, at the regular close of trading of the Exchange on each valuation date. Debt securities, including corporate bonds, U.S. government and federal agency bonds, municipal bonds, foreign bonds, Yankee bonds, convertible bonds, asset-backed securities and mortgage-backed securities, are generally categorized as Level 2 in the hierarchy.

Futures contracts are valued at the last posted settlement price on the market where such futures are primarily traded. Investments in other mutual funds are valued at their respective net asset value ("NAV") as of the close of the Exchange on the valuation date. These securities are generally categorized as Level 1 in the hierarchy.

Temporary cash investments acquired over 60 days to maturity are valued using the latest bid prices or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities, and ratings), both as furnished by independent pricing services. Other temporary cash investments which mature in 60 days or less ("Short-Term Investments") are valued at amortized cost. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between such cost and the value on maturity date. Amortized cost approximates the current fair value of a security. Securities valued at amortized cost are not valued using a quoted price in an active market. These securities are generally categorized as Level 2 in the hierarchy.

Generally, a security is considered illiquid if it cannot be sold or disposed of in the ordinary course of business at approximately the price at which it is valued. Its illiquidity might prevent the sale of such security at a time when the Manager or Subadvisor might wish to sell, and these securities could have the effect of decreasing the overall level of a Fund's liquidity. Further, the lack of an established secondary market may make it more difficult to value illiquid securities, requiring the Fund to rely on judgments that may be somewhat subjective in determining value, which could vary from the amount that the Fund could realize upon disposition. Difficulty in selling illiquid securities may result in a loss or may be costly to the Fund. Under the supervision of the Board, the Manager or Subadvisor determines the liquidity of the Fund's investments; in doing so, the Manager or Subadvisor may consider various factors, including (i) the frequency of trades and quotations, (ii) the number of dealers and prospective purchasers, (iii) dealer undertakings to make a market, and (iv) the nature of the security and the market in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer). Illiquid securities generally will be valued in good faith in such a manner as the Board deems appropriate to reflect their fair value.

Item 2. Controls And Procedures.

(a) Based on an evaluation of the Disclosure Controls and Procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, the “Disclosure Controls”) as of a date within 90 days prior to the filing date (the “Filing Date”) of this Form N-Q (the “Report”), the Registrant’s principal executive and principal financial officers have concluded that the Disclosure Controls are reasonably designed to ensure that information required to be disclosed by the Registrant in the Report is recorded, processed, summarized and reported by the Filing Date, including ensuring that information required to be disclosed in the Report is accumulated and communicated to the Registrant’s management, including the Registrant’s principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) There were no changes in the Registrant’s internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

(a) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)).

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
