You should rely only on the information contained in or incorporated by reference in this prospectus, any accompanying prospectus supplement or in any related free writing prospectus filed by us with the SEC. We have not authorized anyone to provide you with different information. This prospectus and any accompanying prospectus supplement do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities described in any accompanying prospectus supplement or an offer to sell or the solicitation of an offer to buy such securities in any circumstances in which such offer or solicitation is unlawful. Unless the context otherwise indicates, references in this prospectus to "the Company," "Hollysys," "we," "us," and "our" are to Hollysys Automation Technologies Ltd., a British Virgin Islands company, and its consolidated subsidiaries.

Hollysys Automation Technologies Ltd.

We are a leading provider of automation and control technologies and products in China and increasingly in Southeast Asia, India and the Middle East that enable our diversified industry and utility customers to improve operating safety, reliability, and efficiency. Founded in 1993, we have approximately 3,600 employees with a nationwide China presence in around 50 cities and with subsidiaries and offices in Southeast Asia, India and the Middle East. We serve over approximately 6,000 customers in the industrial, railway, subway, nuclear power, and mechanical and electronic industries in China, Southeast Asia, India, Europe and the Middle East. Our proprietary technologies are applied through our industrial automation solution suite, including the DCS (Distributed Control System), PLC

(Programmable Logic Controller), RMIS (Real-time Management Information System), HAMS (HolliAS Asset Management System), OTS (Operator Training System), HolliAS BATCH (Batch Application Package), HolliAS APC Suite (Advanced Process Control Package), SIS (Safety Instrumentation System), high-speed railway signaling system of TCC (Train Control Center), ATP (Automatic Train Protection), Subway Supervisory and Control platform, nuclear power non-safety automation and control system HolliAs-NMS DCS and other products.

We historically focused our efforts on the area of DCS, which are networks of controllers, sensors, actuators and other devices that can be programmed to control outputs based on input conditions and/or algorithms, which are mainly used to control continuous manufacturing processes. Our DCS have been widely used in the industries involving continuous flow of material handling, such as power generation, petro-chemical, chemical, cement manufacturing, paper mills, and waste water recycling. We also command a position in China's nuclear power automation and control market as the only proven local automation and control product provider to the non-safety control for both nuclear island and conventional island of nuclear power reactors in nuclear power stations. Through our joint venture established with China General Nuclear Power Corporation in 2005, China Techenergy Co., Ltd., we have access to all the nuclear reactors being contracted to our joint venture partner, which is currently holding roughly 60% of China's nuclear market share.

We have a substantial reputation in the PRC domestic industrial automation industry for our comprehensive capabilities and have focused on the development of this market. We carry out integrated solution projects for, render automation services to, or sell our products to, national or multi-provincial companies with subsidiaries located throughout China. To date, we have served more than 6,000 industrial enterprise customers including state-owned enterprises, multinational corporations and local private companies and have undertaken over 20,000 projects. We believe that the quality of our systems is unsurpassed by local Chinese competitors and is comparable to high-end foreign suppliers of DCS and the history of our projects supports that view. For example, after three years of review and analysis, BASF, a large multi-national company, has designated us as a potential qualified DCS vendor for the company, a distinction shared with large multinationals such as ABB and Emerson.

We have also entered the PLC market, which is mainly used in discrete control applied to a wide array of industries. PLCs are usually integrated together into machines providing control at the machinery level. With more of our proprietary products introduced into the market and the behavioral change of customers' purchasing practice, we gradually changed our market and sales positioning from a single DCS/PLC product provider, to a total solution provider encompassing third-party hardware-centric products such as instrumentation and actuators, our proprietary DCS/PLC products, and valued-added software packages such as AMS (Asset Management System), MES (Manufacturing Execution System), APC (Advanced Process Control), OTS Simulation (Operator Training System), and others. The safety system SIS (Safety Instrumentation System), certified under European safety standards and newly introduced to the market in July 2012 will further round out our proprietary product suite in the industrial automation segment.

We have branched out from the industrial automation domain into the subway and surface rail businesses, leveraging on our core competency and strong research and development capabilities, and have already established a leading position in the high-speed rail signaling market and subway SCADA (Supervisory Control and Data Acquisition) market. Besides, we have developed our proprietary high-speed rail signaling system and subway signaling system, and certified both according to European Safety Standard Certification Level 4.

Internationally, we have a strong presence through Concord and Bond in Southeast Asia and increasingly in the Middle East, India and Hong Kong SAR. Through these acquisitions, we are expanding and deepening our ability to offer mechanical and electrical solutions in design, engineering, procurement, project management, construction and commissioning, and maintenance to a wide range of industries, such as manufacturing, banks, hospitals, airports, power plants, commercial centers, hotels, and infrastructure works. We believe that our present leadership position in the high-growth segments is attributable to our vision, execution, and strong research and development capabilities.

Our revenue increased from approximately \$321.7 million in fiscal year 2012, to approximately \$531.4 million in fiscal year 2015, representing a compounded annual growth rate (CAGR) of approximately 18.2% for the past three years. During the same period, our non-GAAP net income attributable to Hollysys increased by a CAGR of approximately 21.7% from \$57.4 million in fiscal year 2012 to \$103.3 million in fiscal year 2015. These significant increases reflect our success in exploring new business areas and our increasing market penetration. We continually

seek to broaden our market reach by introducing new products and improving our profit margin through new business areas such as railway control systems and nuclear power plant control, while exploring international market to fulfill our mission of sustainable and high growth.

Our principal executive offices are located at No. 2 Disheng Middle Road, Beijing Economic-Technological Development Area, Beijing, China 100176, and our telephone number is (86) 10 5898 1386.

## RISK FACTORS

An investment in our securities involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our ordinary shares to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our securities, you should carefully consider the risk factors discussed in the sections entitled “Risk Factors” contained in our most recent Annual Report on Form 20-F filed with the SEC, and in any applicable prospectus supplement and our other filings with the SEC and incorporated by reference in this prospectus or any applicable prospectus supplement, together with all of the other information contained in this prospectus or any applicable prospectus supplement. If any of the risks or uncertainties described in our SEC filings or any prospectus supplement or any additional risks and uncertainties actually occur, our business, financial condition and results of operations could be materially and adversely affected. In that case, the trading price of our securities could decline and you might lose all or part of your investment.

This prospectus contains or incorporates forward-looking statements within the meaning of section 27A of the Securities Act and section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are management’s beliefs and assumptions. In addition, other written or oral statements that constitute forward-looking statements are based on current expectations, estimates and projections about the industry and markets in which we operate and statements may be made by or on our behalf. Words such as “should,” “could,” “may,” “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. There are a number of important factors that could cause our actual results to differ materially from those indicated by such forward-looking statements.

We describe material risks, uncertainties and assumptions that could affect our business, including our financial condition and results of operations, under “Risk Factors” and may update our descriptions of such risks, uncertainties and assumptions in any prospectus supplement. We base our forward-looking statements on our management’s beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that actual outcomes and results may differ materially from what is expressed, implied or forecast by our forward-looking statements. Accordingly, you should be careful about relying on any forward-looking statements. Reference is made in particular to forward-looking statements regarding growth strategies, financial results, product and service development, competitive strengths, intellectual property rights, litigation, mergers and acquisitions, market acceptance or continued acceptance of our products, accounting estimates, financing activities, ongoing contractual obligations and sales efforts. Except as required under the federal securities laws, the rules and regulations of the SEC, stock exchange rules, and other applicable laws, regulations and rules, we do not have any intention or obligation to update publicly any forward-looking statements after the distribution of this prospectus, whether as a

result of new information, future events, changes in assumptions, or otherwise.

#### USE OF PROCEEDS

We will not receive any proceeds from the sale or other disposition of the Shares by the selling shareholder. The selling shareholder will pay any expenses incurred by it for brokerage, accounting, tax or legal services or any other expenses incurred by it in disposing of the Shares. We will bear all other costs, fees and expense incurred in effecting the registration of the Shares covered by this prospectus, including, without limitation, all registration fees and fees and expenses of our counsel and our accountants.

## SELLING SHAREHOLDER

On May 30, 2014, we entered into a convertible loan agreement with International Finance Corporation (“IFC”), under which the Company borrowed \$20,000,000 (the “IFC Loan”) from IFC with an interest rate of 2.1% per annum and commitment fee of 0.5% per annum paid in rear semi-annually. The IFC Loan matures on August 29, 2019, the fifth anniversary of the disbursement date of loan.

According to the convertible loan agreement, IFC may at its option convert, in US\$1,000,000 increments, the IFC Loan in whole or in part, into the Company’s ordinary shares at any time on or prior to the maturity date at a conversion rate and a conversion price in effect at such time. The initial conversion rate at the time of the agreement was 38 ordinary shares per \$1,000, and the initial conversion price was \$26.35 per share. The initial conversion rate and conversion price are subject to subsequent adjustments with events that may dilute the unit price per share. Due to the special cash dividend for \$0.40 per share declared and paid by the Company to the holders of the Company’s ordinary shares in March 2015, the conversion rate has been adjusted to 38.84 ordinary shares per \$1,000 with an adjusted conversion price of \$25.75 per share.

The Company also entered into a registration rights agreement with IFC under which the Company is required to file a registration statement covering the resale of any ordinary shares issued or issuable upon conversion of the IFC Loan. We have filed a registration statement of which this prospectus forms a part for resale of ordinary shares by IFC in accordance with the terms of the registration rights agreement.

The following table sets forth the aggregate number of ordinary shares (on an as-converted basis) beneficially owned by the selling shareholder as of December 14, 2015 and the maximum number of ordinary shares offered by the selling shareholder pursuant to this prospectus. When we refer to the “selling shareholder” in this prospectus, we mean the selling shareholder listed in the table below, as well as its pledgees, donees, assignees, transferees and other successors-in-interest and others who may hold any of the selling shareholder's interest.

Name of Selling Shareholder	Number of Ordinary Shares Owned Prior to Offering		Maximum Number of Ordinary Shares Being Offered	Ordinary Shares Owned After the Offering	
	Number	Percent <sup>(2)</sup>		Number <sup>(1)</sup>	Percent <sup>(1)(2)</sup>
International Finance Corporation	776,800	1.31 %	776,800	0	*

\* Less than 1%.

(1) Assumes that all securities offered are sold.

(2) As of December 14, 2015, a total of 58,358,521 ordinary shares of the Company are considered outstanding pursuant to SEC Rule 13d-3(d) (1).

## **PLAN OF DISTRIBUTION**

The selling shareholder and any of its pledgees, assignees and successors-in-interest may, from time to time, sell any or all of its shares on the Nasdaq Global Select Market or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling shareholder may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits investors;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

- an exchange distribution in accordance with the rules of the applicable exchange;

- privately negotiated transactions;

settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;

broker-dealers may agree with the selling shareholder to sell a specified number of such shares at a stipulated price per share;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

a combination of any such methods of sale; or

any other method permitted pursuant to applicable law.

The selling shareholder may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the selling shareholder may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholder (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with NASD Regulation (“NASDR”) Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASDR IM-2440.

In connection with the sale of the shares or interests therein, the selling shareholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the shares in the course of hedging the positions they assume. The selling shareholder may also sell the shares short and deliver these securities to close out its short positions, or loan or pledge the shares to broker-dealers that in turn may sell these securities. The selling shareholder may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling shareholder and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed

to be underwriting commissions or discounts under the Securities Act. To the best of our knowledge, the selling shareholder does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute shares covered hereby.

The selling shareholder may from time to time pledge or grant a security interest in some or all of the shares owned by it and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell ordinary shares from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus.

The selling shareholder and any other person participating in a distribution of the ordinary shares covered by this prospectus will be subject to the applicable provisions of the Exchange Act and the rules and regulations thereunder. Regulation M of the Exchange Act may limit the timing of purchases and sales of securities by the selling shareholder and any other person. In addition, Regulation M may restrict the ability of any person engaged in the distribution of the securities being offered pursuant to this prospectus to engage in market-making activities with respect to our securities for a period of up to five business days before the distribution.

The Company is required to pay all fees and expenses incident to the registration of the shares, but the Company will not receive any proceeds from the sale of ordinary shares.

## PART II

### INFORMATION NOT REQUIRED IN THE PROSPECTUS

#### Item 8. Indemnification of Directors and Officers.

BVI law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the BVI courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime.

Under the BVI Business Companies Act, 2004 (as amended) (the "Act") and the registrant's Articles of Association, the registrant may indemnify against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred in connection with legal, administrative or investigative proceedings any person who:

- is or was a party or is threatened to be made a party to any threatened, pending or completed proceedings, whether (a) civil, criminal, administrative or investigative, by reason of the fact that the person is or was a director of the registrant; or
- (b) is or was, at the request of the registrant, serving as a director of, or in any other capacity is or was acting for, another company or a partnership, joint venture, trust or other enterprise.

Pursuant to the Act, the indemnity applies only to a person who has acted honestly and in good faith and in what he believed to be the best interests of the registrant and, in the case of criminal proceedings, provided the person had no reasonable cause to believe that his conduct was unlawful. The registrant shall not indemnify a person who has not so acted, and any indemnity given to such a person is void and of no effect.

The termination of any proceedings by any judgment, order, settlement, conviction or the entering of a *nolle prosequi* does not, by itself, create a presumption that the person did not act honestly and in good faith and with a view to the best interests of the registrant or that the person had reasonable cause to believe that his conduct was unlawful.

Expenses, including legal fees, incurred by a director in defending any legal, administrative or investigative proceedings may be paid by the registrant in advance of the final disposition of such proceedings upon receipt of an undertaking by or on behalf of the director to repay the amount if it shall ultimately be determined that the director is not entitled to be indemnified by the registrant in accordance with the Articles of Association.

Expenses, including legal fees, incurred by a former director in defending any legal, administrative or investigative proceedings may be paid by the registrant in advance of the final disposition of such proceedings upon receipt of an undertaking by or on behalf of the former director to repay the amount if it shall ultimately be determined that the former director is not entitled to be indemnified by the registrant in accordance with the Articles of Association and upon such other terms and conditions, if any, as the registrant deems appropriate.

The indemnification and advancement of expenses provided by, or granted pursuant to, the Articles of Association is not exclusive of any other rights to which the person seeking indemnification or advancement of expenses may be entitled under any agreement, resolution of members, resolution of disinterested directors or otherwise, both as to acting in the person's official capacity and as to acting in another capacity while serving as a director of the Company.

The registrant may purchase and maintain insurance in relation to any person who is or was a director of the registrant, or who at the request of the registrant is or was serving as a director of, or in any other capacity is or was acting for, another body corporate or a partnership, joint venture, trust or other enterprise, against any liability asserted against the person and incurred by the person in that capacity, whether or not the registrant has or would have had the power to indemnify the person against the liability under the Articles of Association.

**Item 10. Undertakings.**

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement,

*provided, however*, that subsections (i), (ii) and (iii) above do not apply if the information required to be included in a post-effective amendment by those subsections is contained in reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the

offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Securities Act of 1933 need not be furnished, provided that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (4) and other information necessary to ensure that all other (4) information in the prospectus is at least as current as the date of those financial statements. Notwithstanding the foregoing, with respect to registration statements on Form F-3, a post-effective amendment need not be filed to include financial statements and information required by Section 10(a)(3) of the Securities Act of 1933 if such financial statements and information are contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the Form F-3.

(5) That, for the purpose of determining liability under the Securities Act of 1933, as amended, to any purchaser:

- (i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of this registration statement as of the date the filed prospectus was deemed part of and included in this registration statement.

Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of this registration statement for the purpose of providing the information required by section 10(a) of the Securities Act of 1933, as amended, shall be deemed to be part of and included in this registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement

(ii) relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

That, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934, as amended), that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(6)

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
