Interest reset dates

Starting with the interest period scheduled to commence on June 15, 2006, the interest reset date for each interest period will be the first day of such interest period, subject to the Tranche 1 and Tranche 2 business day convention.

The following terms apply to each of the Tranche 1 Notes and the Tranche 2 Notes:

3-month U.S. dollar LIBOR

The 3-month U.S. dollar London interbank offered rate (LIBOR) will be the offered rate appearing on the Telerate LIBOR page, as of 11:00 A.M., London time, on the relevant interest determination date, for deposits of U.S. dollars for a period of three months beginning on the relevant interest reset date. The Telerate LIBOR page is Telerate page 3750 or any replacement page or pages on which London interbank rates of major banks for the U.S. dollar are displayed. When we refer to a particular heading or headings on this page, those references include any successor or replacement heading or headings, as determined by the calculation agent.

If the rate described above does not appear on the Telerate LIBOR page, then LIBOR will be determined on the basis of the rates, at approximately 11:00 A.M., London time, on the relevant interest determination date, at which deposits of the following kind are offered to prime banks in the London interbank market by four major banks in that market selected by the calculation agent: deposits of U.S. dollars for a period of three months beginning on the relevant interest reset date and in a representative amount. The calculation agent will request the principal London office of each of these banks to provide a quotation of its rate. If at least two quotations are provided, LIBOR for the relevant interest determination date will be the arithmetic mean of the quotations.

If fewer than two quotations are provided as described above, LIBOR for the relevant interest determination date will be the arithmetic mean of the rates for loans of the following kind to leading European banks quoted, at approximately 11:00 A.M., in New York on that interest determination date, by three major banks in New York selected by the calculation agent: loans of U.S. dollars for a period of three months, beginning on the relevant interest reset date and in a representative amount.

If fewer than three banks selected by the calculation agent are quoting as described above, LIBOR for the new interest period will be LIBOR in effect for the prior

interest period. If the initial base rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

The reference banks and dealers employed by the calculation agent in determining the base rate may include the calculation agent itself and its affiliates.

Interest determination dates

With respect to each of the Tranche 1 Notes and the Tranche 2 Notes, the interest determination date relating to a particular interest reset date will be the second London business day preceding the interest reset date, subject to the Tranche 1 and Tranche 2 business day convention.

Tranche 1 and Tranche 2 business day convention

With respect to each of the Tranche 1 Notes and the Tranche 2 Notes, if any interest reset date, interest determination date or interest payment date (other than the maturity date) would otherwise be a day that is not a Tranche 1 or Tranche 2 business day, as the case may be, the relevant date will be postponed to the next day that is a Tranche 1 or Tranche 2 business day, as the case may be, provided, however, that, if that date would fall in the next succeeding calendar month, such date will be the immediately preceding Tranche 1 or Tranche 2 business day, as the case may be.

Tranche 1 and Tranche 2 business days

With respect to each of the Tranche 1 Notes and the Tranche 2 Notes, any day that is a New York business day and a London business day, provided that, solely with respect to any payment or other action to be made or taken at any place of payment outside New York City, is also a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions, generally, are authorized or obligated by law, regulation or executive order to close in the place of payment.

London business day means any day on which dealings in U.S. dollars are transacted in the London interbank market.

New York business day means each Monday, Tuesday, Wednesday, Thursday and Friday which is not a day on which banking institutions in New York City generally are authorized or obligated by law, regulation or executive order to close.

Tranche 1 and Tranche 2 day count fraction

Actual/360 (ISDA).

With respect to each of the Tranche 1 Notes and the Tranche 2 Notes, the calculation agent will calculate the amount of accrued interest applicable to the notes by multiplying the face amount of the relevant tranche by an accrued interest factor for the interest period, *i.e.*, the

period from and including the issue date, or the last date to which interest has been paid or made available for payment, to, but excluding, the payment date. This factor will be equal to the number of days in the interest period divided by 360.

Calculation agent

Citibank, N.A.

All calculations relating to the Tranche 1 Notes and the Tranche 2 Notes will be made by the calculation agent, an institution that we appoint as our agent for this purpose. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the Notes without your consent and without notifying you of the change.

The calculation agent will determine on each interest determination date the interest rate that takes effect on the applicable interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period.

Upon request, the calculation agent will provide notice of the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date. The calculation agent's determination of any interest rate, and its calculation of the amount of interest for any interest period, will be final and binding in the absence of manifest error.

All percentages resulting from any calculation relating to a note will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point (e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655)). All amounts used in or resulting from any calculation will be rounded upward or downward, as appropriate, to the nearest cent.

Optional make-whole redemption

We have the right to redeem each of the Tranche 3 Notes and the Tranche 4 Notes, in whole or in part, at any time

and from time to time at a redemption price equal to the greater of (1) 100% of the principal amount of such notes plus accrued interest to the date of redemption and (2) as determined by the quotation agent, the sum of the present values of the remaining scheduled payments of principal and interest on such notes (excluding any portion of such payments of interest accrued as of the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the adjusted treasury rate, plus 15 basis points in the case of the Tranche 3 Notes and 20 basis points in the case of the Tranche 4 Notes.
