KOGER EQUITY REPORTS SECOND QUARTER 2002 RESULTS

- Announces the Termination of the AP-Knight Management Contract -

Boca Raton, Florida, August 13, 2002 (Business Wire) -- Koger Equity, Inc. (NYSE: KE), a self-managed real estate investment trust (REIT), which owns, operates, and manages suburban office buildings throughout the Southeastern and Southwestern United States, today announced its results for the second quarter ended June 30, 2002. Certain of the Company's results, as compared to the prior year, have been affected by the sale of assets in December 2001.

Highlights include:

- o Same-store net operating income for the second quarter 2002 increased 5.8%, compared to the second quarter 2001.
- o Operating margins for the second quarter increased to 62.6% as compared to 62.1% for the second quarter 2001.
- o New net rent versus expiring net rent during the second quarter 2002 increased 10.3% on new and backfill leasing and 1.0% on renewal leasing.
- o Payout ratio to funds from operations (FFO) was 68.6% and cash available for distribution (CAD) was 95.3% for the second quarter.

Total rental revenues in the second quarter 2002 were \$31.9 million, as compared to \$41.6 million in the second quarter of 2001. Funds from operations (FFO) for the second quarter totaled \$11.0 million, or \$0.51 per fully diluted share, as compared to FFO of \$17.7 million, or \$0.63 per fully diluted share in the same period of fiscal 2001. Fully diluted earnings per share (EPS) for the second quarter 2002 was \$0.20, compared to EPS of \$0.32 in the prior period. The decreases in revenue and earnings are attributable to the sale of approximately 36% of Koger's assets during fiscal 2001.

Same-store net operating income for the second quarter 2002 increased 5.8% on a GAAP basis and 5.9% on a cash basis compared to the second quarter 2001. Occupancy on this same-store portfolio, which consists of 118 properties, decreased to 88.9% at June 30, 2002 from 90.8% at June 30, 2001. The majority of the occupancy decrease is attributable to economic softness in the Atlanta market.

For the quarter total leasing activity was approximately 324,000. In addition, the weighted average net rental rate on new leases signed, excluding first generation space, was \$12.25 per square foot. This represents a 2.4% increase from the \$11.96 per square foot which was the average rental rate on

Edgar Filing: KOGER EQUITY INC - Form 8-K

expiring leases.

"While we sold more than one third of our non-core assets in fiscal 2001, we are encouraged by our stronger than expected second quarter results, and are starting to experience a slight recovery in our southeastern office markets, due to modest absorption and a stabilizing job market," commented Thomas Crocker, Chief Executive Officer of Koger Equity. "Although we continue to believe that economic uncertainty is a reality that may affect results, we believe Koger's current asset portfolio is well positioned. More importantly, however, due to our balance sheet strength, the Company is poised to quickly take advantage of strategic opportunities when they come along."

Year-to-Date Results:

For the six months ended June 30, 2002, FFO totaled \$22.5 million on rental revenues of \$62.5 million compared with FFO of \$35.2 million on rental revenues of \$83.2 million for the same period in 2001. EPS for the first six months of 2002 totaled \$0.44 per diluted share compared to EPS of \$0.65 in the first half of 2001.

Same-store net operating income for the six months ended June 30, 2002, increased 6.1% on a GAAP basis and 6.3% on a cash basis compared to the six months ended June 30, 2001. For the first six months of 2002, total lease activity for the office portfolio reached 799,000 square feet. The weighted average net rental rate on leasing activity year-to-date was at \$11.56 on new leases compared to \$11.46 on expiring leases. Based on the current outlook, and Koger's results to date, the Company is reaffirming its fiscal 2002 diluted FFO per share guidance of \$2.00. In addition, Koger expects to provide fiscal 2003 FFO per diluted share guidance prior to the end of the third quarter.

However, some likely assumptions for fiscal 2003 include:

- o The termination of the management agreement for the assets sold to AP-Knight, LP. in fiscal 2001.
- o The State of Florida's decision to eliminate its Labor Department in Tallahassee.
- o Insurance premium increases in the second half of fiscal 2002.

In conjunction with the termination of the management agreement, the Company announced that Board of Director member John R S Jacobsson will resign. He is also a director of Apollo Real Estate Advisors, LP.

Mr. Crocker concluded, "While we achieved positive comparable same store operating margins through the first six-months of fiscal 2002, we are still attempting to factor into our budgets for fiscal 2003 the uncertain leasing traffic throughout our portfolio, reduced management fee income, and unrealistic asset pricing that seems pervasive in this current market. That said, we continue to believe in the long-term viability of our strategy, which focuses on buying class A assets at the right price in the right markets and doing so without sacrificing our balance sheet strength. We believe that this strategy will succeed, however, our collective experience calls for a patient approach in this economy. That said, we believe Koger is well positioned to maximize total return for shareholders over time, particularly with our equity at current levels."

Forward Looking Statement

Estimates of future FFO per share are by definition, and certain other matters discussed in this press release may be, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Although Koger Equity, Inc. believes the expectations reflected in such forward-looking

statements are based on reasonable assumptions; there can be no assurance that its expectations will be attained. Certain factors that could cause actual results to differ materially from the Company's expectations are set forth as risk factors in the company's SEC reports and filings, including its annual report on Form 10-K. Included among these factors are changes in general economic conditions, including changes in the economic conditions affecting industries in which its principal tenants compete; its ability to timely lease or re-lease space at current or anticipated rents; its ability to achieve economies of scale over time; the demand for tenant services beyond those traditionally provided by landlords; changes in interest rates; changes in operating costs; its ability to attract and retain high-quality personnel at a reasonable cost in a highly competitive labor environment; future demand for its debt and equity securities; its ability to refinance its debt on reasonable terms at maturity; and its ability to complete current and future development projects on schedule and on budget. Many of these factors are beyond the Company's ability to control or predict. Forward-looking statements are not guarantees of performance. For forward-looking statements contained or incorporated by reference herein, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The Company assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.
