TRIPOD ORDERS \$2.3 MILLION-WORTH OF CAMTEK S

INSPECTION SYSTEMS FOR PLANT IN CHINA

MIGDAL HA EMEK, Israel, January 17, 2007 Camtek Ltd. (**Nasdaq: CAMT, TASE: CAMT**) announced today that Tripod Technology Corporation (www.tripod-tech.com), a leading manufacturer of advanced printed circuit boards based in Taoyuan, Taiwan, has ordered a quantity of Camtek s automated optical inspection (AOI) systems. The order, totaling approximately US\$2.3 million, includes Pegasus 200S, Camtek s new model for inspecting finished HDI boards, and Dragon FL for inspecting fine-line PCB panels. The majority of the systems were installed at Tripod s new plant in Wuxi, mainland China, in the fourth quarter of 2006. The balance of the order will follow during the first quarter of 2007.

This order represents Tripod s complete-solution approach to yield assurance in manufacturing high-density interconnect boards for advanced semiconductor packaging, explained Cliff Young, General Manager of Camtek Taiwan. The Dragon FL provides in-process inspection of the high density boards while still in panel form, while the Pegasus 200S inspects the finished boards in strip form, after all coating and gold-plating processes. This approach enables a tight integration of the AOI operation into the production floor and facilitates yield management.

Our partnership with Tripod goes back over five years, indicating the customer s satisfaction with Camtek s quality of support and system performance, concluded Mr. Young.

ABOUT CAMTEK LTD.

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek s automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry. This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry, price reductions as well as due to risks identified in the documents filed by the Company with the SEC.
