Enclosure: Partner Communications announces preparations for entry into the financial services sector and publishes a tender for the launch of a nonbank consumer credit card through one of the credit card companies

PARTNER COMMUNICATIONS ANNOUNCES  
PREPARATIONS FOR ENTRY INTO THE FINANCIAL  
SERVICES SECTOR AND PUBLISHES A TENDER FOR THE  
LAUNCH OF A NONBANK CONSUMER CREDIT CARD  
THROUGH ONE OF THE CREDIT CARD COMPANIES

Rosh Ha'ayin, Israel, February 10, 2019 - Partner Communications Company Ltd. ("Partner" or "the Company") (NASDAQ and TASE: PTNR), a leading Israeli communications operator, announces that further to the Company's reports with respect to the examination of new potential growth engines, among others, in the fintech and finance industries and as part of its preparation for entry into the financial services sector, Partner published today an invitation to receive offers from credit card companies for the provision of services and the establishment of a customer club offering a range of financial products based on nonbank credit card.

In the invitation sent to the credit companies operating in Israel, Partner seeks to receive offers for the provision of services from one credit card company, noting that the customer club will be based on an infrastructure of an international credit card company (Visa or MasterCard) and/or an international private label (American Express or Diners).

This step is the first in a series of steps that the Company is working on as part of its activity formed under the name Partner Finance.

Mr. Isaac Benbenisti, CEO of Partner noted: "The expansion of Partner's activity into the financial sector is a first for a communications company in Israel. We are starting today a significant journey and just as we knew how to initiate a change in the multi-channel television market and in the area of internet services over fiber optic infrastructure, I am certain that we will be able to expand the competition in the financial sector and bring real value to customers and investors.

This operation, as part of the formed operation Partner Finance, will benefit from the advanced technological capabilities of the Partner Group, using the development resources and know-how of our Information Technology division. After an in-depth process that included the examination of similar models in the world and working with start-up companies active in the field of fintech, we are now beginning the next stage of our entry into the finance world."
