QUESTIONS AND ANSWERS ABOUT THE MATTERS SUBJECT TO VOTE

WHAT IS BEING VOTED ON?

You are being asked to consider and vote upon a proposal, for purposes of NASD Marketplace Rule 4350 and Section 203 of the Delaware General Corporation Law, to effect an issuance of our common stock which will result in our acquisition of All American Plazas, Inc., or All American, pursuant to the Asset Purchase Agreement, dated as of June 16, 2005, by and among All American and us (which agreement was originally entered into as the Stock Purchase Agreement, but was thereafter amended and restated as such Asset Purchase Agreement). We refer to this transaction in places throughout this proxy as the "acquisition".

In addition, you will also be asked to approve, for purposes of NASD Marketplace Rule 4350(i) only, the potential issuance of our common stock through the exercise of certain convertible debentures we issued in connection with a \$2.5 million sale of such debentures which took place in July 12, 2005. A description of this convertible debenture financing together with the financing documents are disclosed in the Current Report on Form 8-K filed July 15, 2005. We refer to this financing transaction in places throughout this proxy as the "financing".

WHY ARE WE PROPOSING THE ACQUISITION AND SEEKING APPROVAL FOR THE FINANCING?

We will continue to operate in the same manner follow our acquisition of All American in the home heating oil and HVAC business. The Board and management of the Company believe that based upon the acquisition, we will be able to expand our distribution of home heating oil. We believe that the increased buying power resulting from the acquisition will result in our ability to negotiate more financially advantageous fuel purchase credit terms. Also we plan to utilize the All American truck stop locations as additional distribution centers to store fuel and house home heating oil delivery vehicles for sale of its primary product. As part of the relationship established between us and All American, both companies purchase their fuel requirements primarily through TransMontaigne Product Services, Inc. In addition, both us and All American have created additional business relationships with TransMontaigne. In this regard, we have an operations subsidiary named PriceEnergy.com which has created a network of distributors with the assistance of TransMontaigne and All American to deliver fuel upon receiving orders through use of the internet.

We plan with the assistance of All American, to continue to expand its third party dealer network to enable PriceEnergy.com to deliver home heating oil throughout the United States.

As a result, we believe that the acquisition of All American will provide our stockholders with an opportunity to acquire, and participate in, a company with significant growth potential.

WHAT VOTE IS REQUIRED IN ORDER TO APPROVE THE ACQUISITION PROPOSAL?

The approval of the acquisition of All American will require the affirmative vote of a majority of the votes cast, in person or by proxy, at the

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

special meeting.

WHY ARE WE SEEKING APPROVAL FOR THE ACQUISITION AND THE FINANCING?

As a result of being listed for trading on the Nasdaq SmallCap Market, issuances of our common stock are subject to the NASD Marketplace Rules, such as Rule 4350. For example, under Rule 4350(i)(1)(B) and 4350(i)(1)(D), respectively, stockholder approval must be sought when (a) the issuance or potential issuance will result in a change of control of the issuer or (b) in connection with a transaction other than a public offering involving the sale, issuance or potential issuance by the issuer of common stock (or securities convertible into or exercisable common stock) equal to 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock. Furthermore, under Rule 4350(i)(1)(C), stockholder approval must be sought in connection with an acquisition of the stock or assets of another company if any director, officer or substantial shareholder of the issuer has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the company or assets to be acquired or in the consideration to be paid in the transaction or series of related transactions and the present or potential issuance

2

of common stock, or securities convertible into or exercisable for common stock, could result in an increase in outstanding common shares or voting power of 5% or more.

Pursuant to the asset purchase agreement relating to the acquisition, we have agreed to issue shares of our common stock in consideration for substantially all of the assets of All American. The issuance of common stock to All American may result in a violation of the foregoing provisions of Rule 4350, absent stockholder approval for such issuance and the resulting acquisition. In addition, with respect to the financing, a total of 789,970 shares of our common stock may be issued assuming full conversion of all debentures and warrants issued in connection with the financing. On July 12, 2005, the date in which we entered into the documents relating to the financing, our closing price per share of our common stock was \$17.90 (which was greater than the book value of our shares). The exercise price of debentures and warrants issued in connection with the financing is less than the closing price for our shares on July 12, 2005.

The Company is subject to Section 203 of the Delaware General Corporation Law ("Section 203"), which restricts certain transactions and business combinations between a corporation and an "interested stockholder" for a period of three years from the date the stockholder becomes an interested stockholder. An "interested stockholder" is any entity (or related entities) which owns 15% or more of a corporation's outstanding voting stock. Subject to certain exceptions (which do not apply to the acquisition), unless the transaction is approved by the Board of Directors and the holders of at least 66-2/3% of the outstanding voting stock of the corporation (excluding shares held by any interested stockholder), Section 203 prohibits significant business transactions such as a merger with, disposition of assets to, or receipt of disproportionate financial benefits by the interested stockholder, or any other transaction that would increase the interested stockholder's proportionate ownership of any class or series of a corporation's stock.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

On December 15, 2004, Timothy Harrington, our CEO at that time, sold an aggregate of 1,007,300 shares of our common stock to All American. The purchase price for the sale was \$7,500,000, of which \$2,750,000 was paid in cash and All American issued promissory notes in the aggregate principal amount of \$4,750,000 to Mr. Harrington. As a result of Mr. Harrington's sale, All American became an "interested stockholder" for purposes of Section 203 as described above. Additional details regarding Mr. Harrington's sale of his common stock to All American were described in the Current Report on Form 8-K filed with the SEC on December 21, 2004. In addition, as a result of the acquisition, we estimate that All American will own approximately 12.7 million shares of our common stock (out of a total of 14.3 million issued and outstanding). Thus, approval under Section 203 is required by 66-2/3% of the stockholders of the company because All American's common stock ownership of the company will increase from [38%] as of the date hereof to approximately 89%. All of All American's shares received in connection with the acquisition will be restricted shares and not subject to any registration requirement. In addition, approximately 1.67 million of the 11.67 million shares of restricted common stock All American will receive in the acquisition will be escrowed and may be cancelled in the event that holder of certain convertible debentures issued by All American elect to convert their respective debentures into shares of our common stock. For additional information see "Recent Financing of All American" under the heading, "The Acquisition Proposal".

WHAT WILL THE NAME OF THE COMPANY BE AFTER THE ACQUISITION AND FINANCING?

Following the completion of the acquisition, the combined company's name will remain "Able Energy, Inc."

WHAT WILL I RECEIVE IN THE ACQUISITION OR THE FINANCING?

Holders of our securities will continue to hold the Able Energy, Inc. securities they currently own, and will not receive any of the cash paid in connection with the acquisition or the financing. We are simply acquiring all of the outstanding capital stock of All American and obtaining certain financing for working capital purposes. All American will receive all of our shares of common stock being issued by us in the acquisition.

WHO WILL MANAGE US UPON COMPLETION OF THE ACQUISITION OF ALL AMERICAN?

Upon completion of the acquisition, we will be managed by the following persons: Gregory D. Frost will be our Chief Executive Officer and Chairman; Steven Vella will be our Chief Financial Officer; Christopher P. Westad will be President of Able Oil Inc.; and Richard Mitstifer will be Executive Vice President of our new All American Division.

3

The financing will not result in any changes to our management or Board of Directors.

HOW ARE YOU PAYING FOR THE ACQUISITION?

At the closing, we will issue to All American 11,666,667 restricted shares of our common stock at \$3.00 per share for an aggregate purchase price of \$35,000,000. The pricing for this transaction was determined by taking the

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

average of a 20 consecutive day closing price of a share of our common stock in February 2005.

The issuance will result in All American owning approximately 89% of our outstanding common stock on a post-issuance basis. Note, however, that All American has agreed to escrow 1,666,667 shares and that one share of such escrowed common stock will be cancelled for each share of common stock which is issued pursuant to our assumption of certain All American convertible debentures. Finally, All American has entered into a term sheet dated June 6, 2005 with a third party institutional lender to refinance All American's debt and provide All American with certain working capital. The financing is subject to customary closing conditions and is expected to be consummated on October 31, 2005. In the event that All American completes such financing on or before December 31, 2005, we have agreed, to pay an additional \$10,000,000 to All American, payable in shares of our restricted common stock at \$3.00 per share.

WHAT HAPPENS IF THE ACQUISITION OR THE FINANCING IS NOT APPROVED?

If the acquisition is not approved, then we will not be able to consummate the acquisition upon the terms currently contemplated by the asset purchase agreement. We may attempt to renegotiate the terms of the acquisition and seek stockholder approval at a later date.

If the financing is not approved, then we may restructure the financing or rescind the financing and return all funds to the current debenture and warrant holders.

WHEN DO YOU EXPECT THE ACQUISITION AND THE FINANCING TO BE COMPLETED?

It is currently anticipated that the acquisition will be completed promptly following our special meeting of stockholders on _____, 2005. The financing transaction has been completed, subject to approval of our stockholders.

IF I AM NOT GOING TO ATTEND THE SPECIAL MEETING OF STOCKHOLDERS IN PERSON, SHOULD I RETURN MY PROXY CARD INSTEAD?

Yes. After carefully reading and considering the information contained in this proxy statement, please complete and sign your proxy card. Then return the enclosed proxy card in the return envelope provided herewith as soon as possible, so that your shares may be represented at the special meeting.

WHAT WILL HAPPEN IF I ABSTAIN FROM VOTING OR FAIL TO VOTE?

Abstentions are treated as shares present or represented and entitled to vote at the special meeting and will have the same effect as a vote against the acquisition or financing proposals. Broker non-votes are not deemed to be present and represented and are not entitled to vote, and therefore will have no effect on the outcome of the proposal.

WHAT DO I DO IF I WANT TO CHANGE MY VOTE?

If you wish to change your vote, please send a later-dated, signed proxy card to Christopher Westad at Able Energy, Inc. prior to the date of the special meeting or attend the special meeting and vote in person. You also may revoke your proxy by sending a notice of revocation to Christopher Westad at the address of our corporate headquarters.

IF MY SHARES ARE HELD IN "STREET NAME" BY MY BROKER, WILL MY BROKER VOTE MY SHARES FOR ME?

No. Your broker can vote your shares only if you provide instructions on how to vote. You should instruct your broker to vote your shares in accordance with directions provided by your broker.

DO I NEED TO TURN IN MY OLD CERTIFICATES?

No. If you hold your securities in certificate form, as opposed to holding them through your broker, you do not need to exchange them for new certificates. Your current certificates will represent your rights in Able Energy, Inc.

WHO CAN HELP ANSWER MY QUESTIONS?

If you have questions about the acquisition, you may write or call Able Energy, Inc., 98 Green Pond Road, Rockaway, New Jersey 07866, (973) 625-1012, Attention: Christopher Westad.

SUMMARY

This summary discusses the material items of the acquisition proposal and the financing, which are also described elsewhere in this proxy statement. You should carefully read this entire proxy statement and the other documents to which this proxy statement refers you. See "Where You Can Find More Information."

ALL AMERICAN PLAZAS, INC.

All American, which is headquartered in Myerstown, Pennsylvania, is in the business of owning, operating and developing truck stops. Its operations include, but are not limited to, the ancillary merchandising of rights, products, and other goods and services. All American operates 11 multi-service truck stops in the United States that sell diesel fuel and related services to approximately 5,000 trucking accounts and other independent consumers. Its operations are located at primary interchanges servicing major truck routes in the northeast region of the United States, and its facilities, known as "All American Plazas," offer a broad range of products, services, and amenities, including diesel fuel, gasoline, home-style restaurants, truck washes, truck preventive maintenance centers, and retail merchandise stores that market primarily to professional truck drivers and other highway motorists.

THE ACQUISITION

The asset purchase agreement provides for the acquisition by us of substantially all of All American's assets. We will assume all of All American's liabilities, except for its debt liabilities. The asset purchase agreement has an effective date of June 16, 2005. We will enter into a number of leases with All American for each of its 11 multi-service truck stops. All America intends that the rental payments under such leases be used to service All American's debt obligation on its properties. We will issue 11,666,667 restricted shares of our restricted common stock, par value \$.001 per share, at \$3.00 per share to purchase the All American business an aggregate purchase price of \$35,000,000. All American has agreed to escrow 1,666,667 shares of common stock which will be cancelled on a share for share basis for each share of common stock which we

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

issue in connection with certain convertible debenture obligations which we will assume (up to 1,666,667 shares of our common stock).

All American has entered into a term sheet dated June 6, 2005 with a third party institutional lender to refinance All American's debt and provide All American with certain working capital. The financing is subject to customary closing conditions and is expected to be consummated on October 31, 2005. In the event that All American completes such financing on or before December 31, 2005, we have agreed to pay an additional \$10,000,000 to All American, payable in shares of our restricted common stock at \$3.00 per share.

All American and we plan to complete the acquisition promptly after the special meeting, provided that:

- o our stockholders have approved the asset purchase agreement; and

5

- o the other conditions specified in the asset purchase agreement have been satisfied or waived.

If stockholder approval has not been obtained at that time or any other conditions have not been satisfied or waived, the acquisition will be completed promptly after stockholder approval is obtained or the remaining conditions are satisfied or waived.

The asset purchase agreement is included as Annex A to this proxy statement. We encourage you to read the asset purchase agreement in its entirety. See "Asset Purchase Agreement."

THE FINANCING

Pursuant to the terms of the Securities Purchase Agreement dated as of July 12, 2005 (the "SPA") among us and the various purchaser parties named therein, the purchasers purchased debentures in the aggregate amount of \$2.5 Million Dollars evidenced by a Variable Rate Convertible Debenture also dated July 12, 2005 (the "Debentures"). The Debentures are scheduled to be repaid within two years from the date of issuance, subject to the occurrence of an event of default, with interest payable at the rate per annum equal to the LIBOR for the applicable interest period, plus 4% payable on a quarterly basis on April 1st, July 1st, October 1st and January 1st, beginning on the first such date after the date of issuance of the Debentures. The Debentures may be converted at the option of the various purchasers into shares of our common stock at a conversion price of \$6.50 per share. In addition, the purchasers shall have the right to receive five (5) year warrants to purchase 192,308 of common stock at an exercise price of \$7.15 per share. Pursuant to the SPA, we shall also have an optional redemption right (which right shall be mandatory upon the occurrence of an event of default) to repurchase all of the Debentures for 125% of the face amount of the Debentures plus all accrued and outstanding interest and expenses, as well as a right to repurchase all of the Debentures in the event of the consummation of a new financing in which we sell securities at a purchase price that is below the conversion price of \$6.50 per share. The conversion price for the Debentures may be adjusted for various customary events effecting the capitalization of the Company such as stock splits

Pursuant to the Registration Rights Agreement among the parties, the Purchasers shall have demand registration rights with respect to all shares of our common stock obtained by them through the conversion of the Debentures, and

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

we filed a Registration Statement on Form S-3 on August 16, 2005 which is currently under review by the SEC.

The Purchasers shall also have an additional investment right, for a period of nine months after the initial registration statement is first declared effective by the SEC, to purchase units consisting of convertible debentures in the aggregate amount of up to \$15,000,000 (the "Additional Debentures") and common stock purchase warrants equal to 50% of the face amount of such Additional Debentures (the "Additional Warrants"). The conversion price of the Additional Debentures shall be \$6.50 per share of common stock with respect to the first \$5,000,000 of Additional Debentures purchased, \$7.50 per share of common stock for the second \$5,000,000 of Additional Debentures purchased and 80% of the average weighted price of our common stock during the 20 trading days immediately prior to the Purchasers' election to purchase the third \$5,000,000 of Additional Debentures. The Additional Warrants shall have a five-year term and an exercise price of 110% of the conversion price. In the event of the occurrence of a default with respect to the Additional Debentures, we shall have identical redemption rights to those described in the immediately preceding paragraph. Moreover, the Company shall have the right to cause the Purchasers' on a pro rata basis, based on the percentage of their purchase of Debentures, to exercise their Additional Investment Right; however, each Purchaser may refuse to exercise their respective purchase right, but in such event, the Purchaser waives its right to purchase the Additional Debentures. The Agreement provide that, commencing 90 days following the date the initial registration statement is declared effective by the SEC, and ending on the 179th calendar day with regard to the first \$5,000,000 in Additional Debentures, if the average weighted price of our stock for any 20 consecutive trading day period, during said period, exceeds \$7.80 per share. We also have a similar right with regard to the second \$5,000,000 if our stock during the period commencing 180 days, following such effective date through the 269th day, for any 20 consecutive trading day period, exceeds \$9.00 per share and for the period 270 days following the SEC-declared effective date through the 360th calendar day, we have a similar right with regard to the third \$5,000,000 tranche if our stock exceeds \$10.20.

The documents relating to the financing are attached as exhibits to the Current Report on Form 8-K, filed July 15, 2005 with the SEC. We recommend that you review these documents.

OUR BOARD OF DIRECTORS' RECOMMENDATION

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

After careful consideration, our board of directors has determined unanimously that both the acquisition proposal and the financing are fair to, and in the best interests of our stockholders.

In reaching its decision relating to the acquisition, the board considered the opinion of Ehrenkrantz King Nussbaum Inc., that, as of the date of its opinion, and based on conditions that existed as of that date, upon and subject to the considerations described in its opinion and based upon such other matters as Ehrenkrantz King Nussbaum Inc. considered relevant, the consideration to be provided by us in connection with the All American acquisition is fair to our current stockholders from a financial point of view. See "Fairness Opinion."

With respect to the financing, our board also considered two alternative proposals regarding similar financing which were offered by other parties and accessed the Company's ability to service such debt or convert such debt into equity and determined after consideration in several meetings that the terms of the financing were the most favorable terms to the Company.

Accordingly, our board has unanimously approved and declared advisable the acquisition and unanimously recommends that you vote or instruct your vote to be cast "FOR" the approval of the acquisition proposal.

INTERESTS OF OUR DIRECTORS AND OFFICERS IN THE ACQUISITION OR FINANCING

When you consider the recommendation of our board of directors that you vote in favor of adoption of the acquisition proposal, you should keep in mind that certain of our directors and officers have interests in the acquisition that are different from, or in addition to, your interest as a stockholder.

Frank Nocito, our Vice President, Business Development, has an interest in All American. Since 2004, Mr. Nocito has been Vice President of All American. In 2003, Mr. Nocito, as Vice President of All American Industries Corp., a nominee holding company created for purposes of such acquisition, acquired all of the issued and outstanding stock of All American. In 2004, Mr. Nocito and his wife created, for the benefit of their family members, including seven children, the Chelednik Family Trust, and all the issued and outstanding stock of All American was transferred to this Trust. RISK FACTORS

YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS, TOGETHER WITH ALL OF THE OTHER INFORMATION INCLUDED IN THE STATEMENT, BEFORE YOU DECIDE WHETHER TO VOTE OR INSTRUCT YOUR VOTE TO BE CAST TO ADOPT THE ACQUISITION PROPOSAL. UNLESS EXPRESSLY STATED OTHERWISE, THESE RISK FACTORS ASSUME THE CONSUMMATION OF THE TRANSACTIONS CONTEMPLATED BY THE ACQUISITION AND THE RATIFICATION BY THE STOCKHOLDERS OF THE FINANCING (JULY 2005 SALE OF DEBENTURES BY US). UNLESS OTHERWISE INDICATED IN THE CONTEXT, ALL REFERENCES IN THIS SECTION (RISK FACTORS) AND THIS SECTION ALONE TO "US", "WE", "OUR" BE DEEMED TO REFLECT CONDITIONS EXISTING FOLLOWING THE PROPOSED ACQUISITION.

LIMITED OPERATING HISTORY; MANAGEMENT OF GROWTH; SUBSTANTIAL LONG-TERM DEBT

Able Energy, Inc. was incorporated in March 1997 to act as a holding company for its operating subsidiaries. Our remaining subsidiaries have limited operating histories upon which evaluation of their prospects can be made. Although All American has been in business as a owner and/or operator of trucking stops for over 20 years, we are purchasing the assets of All American and its operating business and there are no guarantees that current management or employees will agree to continue their respective employment with us. Furthermore, there can be no assurance that the subsidiaries, other than Able Oil, will generate substantial revenues or attain profitable operations.

Our growth has required, and will continue to require, increased investment in management personnel, financial and management systems and controls and facilities. Our past expansion has placed, and any future expansion would place, significant demands on our administrative, operational, financial and other resources. We intend to continue to expand its business and operations, including entry into new markets, that will place additional strain on our management and operations. Our future operating results will depend, in part, on its ability to continue to broaden our senior management group and administrative infrastructure, and its ability to attract, hire and retain skilled employees. Our success will also depend on the ability of our officers

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

and key employees to continue to implement and improve our operational and financial control systems and to expand, train and manage its employee base. In addition, our future operating results will depend on our ability to expand its sales and marketing capabilities and expand its customer support operations commensurate with its growth, should such growth occur. If our revenues do not increase in proportion to its operating expenses, our management systems do not expand to meet increasing demands, we fail to attract, assimilate and retain qualified personnel, or our management otherwise fails to manage our expansion effectively, there would be a material adverse effect on our business, financial condition and operating results. As of June 30, 2005, we had long term liabilities of \$3,961,899. Our ability to satisfy such obligations will depend on our future operating performance, which will be affected by, among other things, prevailing economic conditions and financial, business and other factors, many of which are beyond our control. There can be no assurance that we will be able to service its indebtedness. If we are unable to service its indebtedness, it will be forced to examine alternative strategies that may include actions such as reducing or delaying capital expenditures, restructuring or refinancing its indebtedness, or the sale of assets or seeking additional equity and/or debt financing. There can be no assurance that any of these strategies could be effected on satisfactory terms, if at all.

SEASONAL FACTORS

Following the acquisition, substantially all of our revenues and income will be derived from the home heating oil business and the truck stop business. Our home heating oil business is seasonal and is and will remain following the acquisition a material portion of our business. A substantial portion of the home heating oil business is conducted during the fall and winter months. Weather patterns during the winter months can have a material adverse impact on its revenues. Although temperature levels for the heating season have been relatively stable over time, variations can occur from time to time, and warmer than normal winter weather will adversely affect the results of the Company's fuel oil operations.

Approximately 65% of our revenues from our home heating oil business are earned and received from October through March. During the spring and summer months, revenues from the sale of diesel and gasoline fuels increase due to the increased use of automobiles and construction apparatus.

FUEL PRICING AND THE EFFECT ON PROFITABILITY

Disruption of fuel supply and fuel pricing would adversely affect our profitability. For instance sharp increases in fuel prices at truck stops historically tend to lead to a temporary decline in fuel margins. Similarly, increases in the pricing for home heating oil will also adversely affect our profit margins associated with our home heating oil business since we may not be able to pass on our proportional increases to our home heating oil customers. Fuel prices have risen sharply recently and may continue to rise.

20

Other factors which may have a significant effect on fuel prices include: natural disasters, particularly those which have recently devastated the Gulf Coast (areas that are major producers, distributors or refiners of petroleum-based products); major global conflicts, especially those involving the U.S. and/or oil producing countries, strikes or political conflict in oil producing countries.

In the future, interruptions in the world fuel markets may cause shortages in, or total curtailment of, fuel supplies. Moreover, a substantial

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

portion of the oil refining capacity in the United States is controlled by major oil companies. These companies, for various reasons (for e.g. new standards imposed by EPA) could in the future decide to limit the amount of fuel sold to independent operators such as us. Any material decrease in the volume of fuel sold for any extended period of time could have a material adverse effect on the results of operations. Similarly, an extended period of instability in the price of fuel could adversely affect our results.

In addition, fuel supply could also impact upon our other operations, including our restaurant and non-fuel operations. Therefore any significant reductions in fuel supplies or fuel volume would materially affect our results.

GROWTH DEPENDENT UPON UNSPECIFIED ACQUISITIONS

Our growth strategy includes the acquisition of existing fuel distributors and truck stops. There can be no assurance that our will be able to identify new acquisition candidates or, even if a candidate is identified, that we will have access to the capital necessary to consummate such acquisitions. Furthermore, the acquisition of additional companies involves a number of additional risks. These risks include the diversion of management's attention from our operations, possible difficulties with the assimilation of personnel and operations of acquired companies, the amortization of acquired intangible assets, and the potential loss of key employees of acquired companies. The future success of our business will depend upon our ability to manage its growth through acquisitions.

GOVERNMENT REGULATION

Federal, state and local laws, particularly laws relating to the protection of the environment and worker safety, can materially affect our operations. The transportation of fuel oil, diesel fuel, propane and gasoline is subject to regulation by various federal, state and local agencies, including the U.S. Department of Transportation ("DOT"). These regulatory authorities have broad powers and we are subject to regulatory and legislative changes that can affect the economies of the industry by requiring changes in operating practices or influencing demand for, and the cost of providing, its services. Additionally, we are subject to random DOT inspections. Any material violation of DOT rules or the Hazardous Materials Transportation Act may result in citations and/or fines on us. In addition, we depend on the supply of petroleum products from the oil and gas industry and, therefore, we may be affected by changing taxes, price controls and other laws and regulations relating to the oil and gas industry generally. We cannot determine the extent to which future operations and earnings may be affected by new legislation, new regulations or changes in existing regulations.

The technical requirements of these laws and regulations are becoming increasingly expensive, complex and stringent. These laws may impose penalties or sanctions for damages to natural resources or threats to public health and safety. Such laws and regulations may also expose us to liability for the conduct or conditions caused by others. Sanctions for noncompliance may include revocation of permits, corrective action orders, administrative or civil penalties and criminal prosecution. Certain environmental laws provide for joint and several liabilities for remediation of spills and releases of hazardous substances. In addition, companies may be subject to claims alleging personal injury or property damages as a result of alleged exposure to hazardous substances, as well as damage to natural resources.

POTENTIAL ENVIRONMENTAL LIABILITY

Our operations are subject to all of the operating hazards and risks that are normally incidental to handling, storing, transporting and delivering fuel oils, gasoline, diesel and propane, which are classified as hazardous

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

materials. We face potential liability for, among other things, fuel spills, gas leaks and negligence in performing environmental clean-ups for our customers. Specifically, we maintain fuel storage facilities on sites owned or leased by us, and could incur significant liability to third parties or governmental entities for damages, clean-up costs and/or penalties in the event of certain discharges into the environment. Such liability can be extreme and could have a material adverse effect on our financial condition or results of operations. Although we believe that it is in compliance with existing laws and regulations, there can be no assurance that substantial costs for compliance will not be incurred in the future. Any substantial violations of these rules and regulations could have an adverse affect upon our operations. Moreover, it is possible that other developments, such as more stringent environmental laws, regulations and enforcement policies thereunder, could result in additional, presently unquantifiable, costs or liabilities to us.

21

LITIGATION

We are not currently involved in any legal proceeding that is likely to have a material adverse effect on our results of operations or our financial condition. From time to time, we may become a party to litigation incidental to its business. There can be no assurance that any financial legal proceedings will not have a material adverse affect on us.

NO ASSURANCE OF ADEQUATE INSURANCE PROTECTION

We maintain insurance policies in such amounts and with coverage and deductibles as our management believes are reasonable and prudent. There can be no assurance, however, that such insurance will be adequate to protect us from liabilities and expenses that may arise from claims for personal and property damage arising in the ordinary course of business or that such levels of insurance will be maintained by us or will be available at economic prices.

FRANCHISING

We intend to expand franchise arrangements to expand its operations and revenue base. Our future growth may be dependent upon new franchisees and the manner in which they operate and develop our locations to promote and develop our concept and our reputation for quality and value. In addition, because we believe that a potential franchisee's total estimated investment relating to an location for our home heating oil business is generally low, we may be more likely to attract franchisees with limited franchise experience and limited financial resources. As a result of its franchising activity, we are subject to Federal Trade Commission ("FTC") regulation and various state laws that govern the offer, sale and termination of, and refusal to renew, franchises. Several state laws also regulate substantive aspects of the franchisor-franchisee relationship. The FTC requires us to furnish prospective franchisees a franchise offering circular containing prescribed information. A number of states in which we might consider franchising also regulate the sale of franchises and require registration of the franchise offering circular with state authorities. Substantive state laws that regulate the franchisor-franchisee relationship presently exist in many states, and bills have been introduced in Congress from time to time which would provide for federal regulation of the franchisor-franchisee relationship in certain respects. The state laws often limit, among other things, the duration and scope of non-competition provisions and the ability of a franchisor to terminate or refuse to renew a franchise.

TRADEMARKS AND SERVICE MARKS

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

We believe that our trademarks and service marks have significant value and are important to the marketing of its products and services, especially if we are successful in implementing our franchise program. There can be no assurance, however, that our proprietary marks do not or will not violate the proprietary rights of others, that our marks would be upheld if challenged or that we would not be prevented from using its marks, any of which could have an adverse effect on us. In addition, there can be no assurance that we will have the financial resources necessary to enforce or defend its trademarks and service marks against infringement.

COMPETITION FROM ALTERNATIVE ENERGY SOURCES

Our retail home heating business competes for customers with suppliers of alternate energy products, principally natural gas and electricity. Every year, a small percentage of our oil customers convert to other home heating sources, primarily natural gas. In addition, we may lose additional customers due to conversions during periods in which the cost of its services exceeds the cost of alternative energy sources.

CONCENTRATION OF WHOLESALE SUPPLIERS FOR HOME HEATING OIL

We have three supply contracts for the purchase of Number 2 Heating Oil, representing 10% of our annual heating fuel purchases. We purchase its remaining fuel supplies on the spot market. We satisfy our inventory requirements with seven different suppliers, the majority of which have significant domestic fuel sources, and many of which have been suppliers to us for over 5 years. Our current suppliers are Conective Oil Corporation, Sprague Energy, Petrocom Energy Group Ltd., Gulf-Catamont, Velerio, Rio, TransMontaigne Inc., Center Marketing, Inc. and Sun Co., Inc. (R&M). We monitor the market each day and determines when to purchase its oil inventory and from whom.

Three of these suppliers provided Able Oil with approximately 60% of its heating oil requirements for the year ended June 30, 2004.

TransMontaigne, Inc. provided Able Melbourne with approximately 99% of its diesel fuel product requirements for the year ended June 30, 2005 and one major suppliers provided Able Melbourne with approximately 99% of its lubricant and related product requirements for the year ended June 30, 2005.

22

Management believes that if our supply of any of the foregoing products was interrupted, we would be able to secure adequate supplies from other sources without a material disruption in its operations. However, there can be no assurance that adequate supplies of such products will be readily available in the future.

ABSENCE OF WRITTEN AGREEMENTS

Approximately 50% of our home heating customers do not have written agreements with us and can terminate services at any time, for any reason. Although we have never experienced a significant loss of its customers, if we were to experience a high rate of terminations, our business and financial condition could be adversely affected.

RISKS ASSOCIATED WITH EXPANSION INTO NEW MARKETS

A significant element of our future growth strategy involves the expansion of our business into new geographic and product markets. Expansion of our operations depend, among other things, the success of our marketing strategy

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

in new markets, successfully establishing and operating new locations, hiring and retaining qualified management and other personnel, and obtaining adequate financing for vehicle and site purchases and working capital purposes.

DEPENDENCE ON KEY PERSONNEL

Our future success will depend, to a significant extent, on the efforts of key management personnel, including Christopher Westad, our Acting Chief Executive Officer and Chairman, and Steven Vella our Chief Financial Officer. The loss of one or more of these key employees could have a material adverse effect on our business. In addition, we believe that its future success will depend, in large part, upon its continued ability to attract and retain highly qualified management, technical and sales personnel. There can be no assurance that we will be able to attract and retain the qualified personnel necessary for its business.

RESTAURANTS

Each of our truck stops includes a restaurant which provides an 'All American Menu'. By operating restaurant facilities we will face risks relating to:

- o our ability to obtain and maintain necessary governmental licenses, permits, and approvals relating to the preparation and sale of food;
- o health inspection scores;
- o food quality;
- o the availability and timely delivery of high-quality fresh ingredients, including fresh produce, dairy products, and meat; and
- o food-borne illnesses.

If we are unable to effectively manage these risks, we may experience negative publicity related to these matters which may impact negatively on the our brand name and image. Such negative publicity could reduce guest traffic at our truck stop restaurants and subsequently affect the results of the operations.

COMPETITION

The truck stop industry is highly competitive and fragmented, and our competitors may have greater resources or other competitive advantages. Certain of our competitors have substantially financial and marketing resources than we do. If our competitors adopt pricing strategies or marketing policies that we do not meet, if they provide products or services that we do not offer, or if we are otherwise unable to compete effectively, our competitors could gain market share and have an adverse effect on our operating results.

Our home heating business is also highly competitive. In addition to competition from alternative energy sources, we compete with distributors offering a broad range of services and prices, from full service distributors similar to ours, to those offering delivery only. Competition with other companies in the retail home heating industry is based primarily on customer service and price. Longstanding customer relationships are typical in the home heating industry. Many companies, including ours, deliver fuel to their customers based upon weather conditions and historical consumption patterns without the customers making an affirmative purchase decision each time fuel is needed. In addition, most companies, including ours, provide equipment repair service on a 24 hour a day basis, which tends to build customer loyalty. We compete against companies that may have greater financial resources than ours. As a result, we may experience difficulty in acquiring new retail customers due to existing relationships between potential customers and other retail home heating distributors.

HIGHLY DEPENDENT ON FINANCIAL CONDITION OF TRUCKING INDUSTRY

Our business is dependent upon the trucking industry in general and upon long-haul trucks in particular. In turn, the trucking industry is dependent on economic factors, such as the level of domestic economic activity and interest rates and operating factors such as fuel prices and fuel taxes, over which we have no control and which could contribute to a decline in truck travel. The long-haul trucking business is also a mature industry that has historically been susceptible to recessionary downturn. Available data indicate that diesel consumption by the trucking industry has grown more slowly than trucking ton-miles, as technological improvements in truck engines have increased their fuel efficiency. In addition, many small trucking companies have filed for bankruptcy protection in recent years. A decline in operations by the long-haul trucking industry would adversely affect us.

DOMESTIC TERRORIST ATTACK

A domestic terrorist incident, particularly involving a truck, could produce adverse effects on us in several ways, including:

- o a reduction in the volume of truck traffic for more than a brief period;
- o bankruptcy of certain truck companies; and
- o the imposition of additional trucking regulations, increasing expenses of truck operations and businesses that service trucks or provide overnight facilities for trucks and truck drivers, such as the services that we provide - for e.g. extra security measures for parked trucks or trucks that are on our home heating delivery routes.

OTHER RISK FACTORS

Future operations may be impacted by a number of factors that could cause our actual financial results to differ. These factors include worldwide economic and political conditions, terrorist's activities, industry special factors, and governmental agencies.

STOCK OWNERSHIP

Of the 2,607,320 outstanding shares of our common stock, All American, who owns approximately 38.6% of our common stock, and our officers and directors, who own an aggregate of approximately 1.0% of our outstanding shares of common stock, have agreed to vote such shares in favor of the acquisition proposal.

THE ACQUISITION PROPOSAL

The discussion in this proxy statement of the acquisition and the principal terms of the asset purchase agreement dated as of June 16, 2005, by and between All American and us is subject to, and is qualified in its entirety by reference to, the asset purchase agreement. A copy of the asset purchase agreement is attached as Annex A to this proxy statement and is incorporated in this proxy statement by reference.

GENERAL DESCRIPTION OF THE ACQUISITION

Pursuant to the asset purchase agreement, we will acquire substantially all of the assets of All American, including All American's equity interests in its owned real estate properties. We will also enter into leases to occupy each of All American's owned trucking plazas (as further described in this proxy). The aggregate amount of rental payments to All American will also roughly equal to All American's aggregate debt or mortgage payments. All American has agreed to

BACKGROUND OF THE ACQUISITION

The terms of the asset purchase agreement are the result of arm's-length negotiations between representatives of All American and us. The following is a brief discussion of the background of these negotiations, the acquisition and related transactions.

Initially, All American was introduced to us because of Able's need for a new fuel supplier. Both All American and Able had a business relationship with TransMontaigne, a fuel supplier. TransMontaigne provided All American with the ability to earn additional revenue based upon its supply chain agreement with TransMontaigne. In the course of these initial discussions, All American learned that Tim Harrington, our former CEO, was interested in selling his stock holdings in our company. TransMontaigne, through extension of fuel credit, enabled All American to close the transaction with Harrington on December 15, 2004. At the same time, All American was also seeking financing from other sources. After certain financings failed to consummate by February 2005, we revisited the possibility of acquiring All American in the belief that this would enable the combined entity to have easier access to capital in the public market. Our board of directors then began a period of intense negotiation and discussion relating to the acquisition, and on February 28, 2005, voted to approve the acquisition. The intention of the Board to enter into an acquisition of All American by Able was announced in an 8-K filing dated March 4, 2005. Our Board elected to use a stock price for said acquisition by looking back for the

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

prior 20 trading days from the February 28, 2005 meeting date to arrive at an average share price of \$3.00 per share. Following the announcement of the intention to enter into the acquisition, Able's stock price substantially increased in value.

Effective June 16, 2005, All American and we entered into a stock purchase agreement and related agreements and, on June 17, 2005, publicly announced such agreement through a joint press release. Such stock purchase agreement was thereafter amended and restated to be an asset purchase agreement, whereby we purchased substantially all of the operating assets of All American.

NECESSITY FOR STOCKHOLDER APPROVAL

Our common stock is traded on the NASDAQ SmallCap Stock Market under the symbol "ABLE". Consequently, we are subject to the Marketplace Rules promulgated by the National Association of Securities Dealers, Inc. ("NASD"). The issuance of these shares requires stockholder approval under the NASD Marketplace Rules, such as Rule 4350.

Under Rule 4350(i)(1)(B) and 4350(i)(1)(D), respectively, stockholder approval must be sought when (a) the issuance or potential issuance will result in a change of control of the issuer (the "Change of Control Rule") or (b) in connection with a transaction other than a public offering involving the sale, issuance or potential issuance by the issuer of common stock (or securities convertible into or exercisable common stock) equal to 20% or more of the common stock or 20% or more of the voting power outstanding before the issuance for less than the greater of book or market value of the stock (the "20% Rule"). Furthermore, under Rule 4350(i)(1)(C), stockholder approval must be sought in connection with an acquisition of the stock or assets of another company if any director, officer or substantial shareholder of the issuer has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the company to be acquired or in the consideration to be paid in the transaction and the present or potential issuance of common stock could result in an increase in outstanding common shares or voting power of 5% or more (the "Affiliated Transaction Rule").

28

In addition, since All American currently holds more than 15% of our issued and outstanding common stock, approval by at least two-thirds of the stockholders (other than All American) is necessary under Section 203 of the Delaware General Corporations Law (the "Delaware Business Combination Rule"). The voting thresholds for approval under the Delaware Business Combination in this case are greater than the Affiliated Transaction Rule, the discussion below relating to the Affiliated Transaction Rule are for information purposes only since approval of the acquisition under the Delaware Business Combination Rule will also satisfy the requirements under the Affiliated Transaction Rule.

THE CHANGE OF CONTROL RULE

The Change of Control Rule requires us to obtain stockholder approval prior to certain issuances with respect to common stock or securities convertible into common stock which will result in a change of control of the issuer. Generally, NASD interpretations provide that 20% ownership of the shares of an issuer by one person or group of affiliated persons is deemed to be control of such issuer. Pursuant to the asset purchase agreement (as more fully described under "Asset Purchase Agreement" on page 35 of this proxy statement), in consideration for all of the outstanding shares of All American, we will issue to All American 11,666,667 restricted shares of our restricted common stock, par value \$.001 per share, at the closing. This issuance will constitute

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

approximately 82% of our issued and outstanding shares of common stock, and will cause All American to own approximately 89% of our issued and outstanding shares of common stock, on a post-issuance basis. All American owned approximately 38% of our issued and outstanding shares of common stock as of June 16, 2005, the date upon which the asset purchase agreement was executed.

THE 20% RULE

The 20% Rule requires Nasdaq-listed issuers to obtain stockholder approval prior to any issuance or potential issuance of securities representing 20% or more of the outstanding common stock or voting power of the issuer (on an as-converted or as-exercised basis) before such issuance for a price less than the greater of the book or market value of the issuer's common stock. For purposes of this rule, the (i) outstanding common stock or voting power of the issuer is determined as of a date the issuer enters into a binding agreement with respect to such issuance or potential issuance, which in the case of the acquisition of All American is June 16, 2005; and (ii) market value of the issuer's common stock is deemed to be the closing bid price of the issuer's common stock immediately prior to entering into such binding agreement, which in the case of the acquisition of All American, is \$18.58 per share, the closing bid price of our common stock on June 15, 2005.

At the closing, we will deliver to All American 11,666,667 restricted shares of our common stock at \$3.00 per share for an aggregate purchase price of \$35,000,000 in exchange for all of All American issued and outstanding common stock. In addition, All American entered into a term sheet dated June 6, 2005 with a third party institutional lender to refinance All American's debt and provide All American with certain working capital, which is described in more detail in "The Asset Purchase Agreement." In the event that All American completes such financing on or before December 31, 2005, we have agreed to pay an additional \$10,000,000 to All American, payable in shares of our common stock at a price of \$3.00 per share. Accordingly, the issuance to All American on the closing date and the potential subsequent issuance in connection with the refinancing will represent a below-market issuance of more than 20% of our outstanding common stock as of June 16, 2005.

THE AFFILIATED TRANSACTION RULE

The Affiliated Transaction Rule requires stockholder approval prior to the issuance of any securities in a transaction in which any director, officer or substantial stockholder of the issuer has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the company or assets to be acquired or in the consideration to be paid in the transaction or series of related transactions and the present or potential issuance of common stock, or securities convertible into or exercisable for common stock, could result in an increase in outstanding common shares or voting power of 5% or more. All American currently owns approximately 38% of our outstanding common stock and its shareholders receive 11,667,777 shares of our common stock in connection with the acquisition, representing an issuance of approximately 82% of our issued and outstanding common stock on a post-issuance basis.

THE DELAWARE BUSINESS COMBINATION RULE

The Delaware Business Combination Rule states that the supermajority consent (two-thirds of the voting shares) is required to approve of any "business combination" involving a "interested stockholder". Such two-thirds voting consent does not include and voting shares held by the interested stockholder. An "interested stockholder" is, subject to certain exceptions which do not apply to the acquisition, any stockholder (along with its affiliates) who hold or control 15% or more of the outstanding voting stock of the corporation. Through its purchase of Tim Harrington's 1,007,300 shares of Able's common stock

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

in December 2004, All American became an interested stockholder for purposes of the Delaware Business Combination Rule. Once a party becomes an interested stockholder, a corporation is prohibited from engaging in any business combination with such interested stockholder for a period of

29

three years unless the appropriate two-thirds majority vote is obtained from the stockholders approving such transaction. A "business combination" under the Delaware Business Combination Rule includes the transactions contemplated by the acquisition.

RECENT FINANCING OF ALL AMERICAN

As previously disclosed in our Current Report on Form 8-K, dated June 7, 2005, and filed with the Securities and Exchange Commission on June 10, 2005, All American recently consummated a financing that, if the acquisition of All American is consummated, will impact us. The recently completed refinancing by All American allowed All American to pay off approximately \$3,000,000 in existing debt and provided All American with approximately \$2,000,000 in working capital.

The following description of the terms of All American's refinancing is qualified in its entirety by the terms and provisions contained in the financing documentation included in the Current Report on Form 8-K, dated June 7, 2005, and filed with the Securities and Exchange Commission on June 10, 2005, as Exhibits 99.1 through 99.7.

Pursuant to the terms of the Securities Purchase Agreement dated June 1, 2005 among All American and certain purchasers identified therein, the purchasers loaned All American an aggregate of \$5,000,000 (the "June Debentures"), evidenced by secured debentures also dated June 1, 2005. The debentures shall be repaid within two years from the date of issuance, subject to the occurrence of an event of default, with interest payable at the rate per annum equal to LIBOR for the applicable interest period, plus 4% payable on a quarterly basis on April 1st, July 1st, October 1st and January 1st, beginning on the first such date after the date of issuance of the debentures. The loan is secured by real estate property owned by All American in Pennsylvania and New Hampshire. In addition, in the event that we do not complete the acquisition of All American prior to the expiration of the 12-month anniversary of the securities purchase agreement, All American shall be considered in default of the loan. Pursuant to the Additional Investment Right among All American and the purchasers, the purchasers may loan All American up to an additional \$5,000,000 on the same terms and conditions as the initial \$5,000,000 loan, except for the conversion price of the debentures.

THE PRIMARY PURCHASER PARTIES OF THE JUNE DEBENTURES ARE THE SAME AS OR AFFILIATED WITH THOSE PURCHASERS IN THE FINANCING.

If we consummate the acquisition of All American, upon such consummation, we will not in general assume the debt obligations of All American which include the obligations described by the above referenced Securities Purchase Agreement, the debentures and the Additional Investment Right Agreement. However, we will assume certain contracted obligations relating to the June Debentures through the execution of a Securities Assumption, Amendment and Issuance Agreement, Registration Rights Agreement, Common Stock Purchase Warrant Agreement and Variable Rate Secured Convertible Debenture Agreement, each between the purchasers of the June Debentures and us. Such documents provide that All American and we shall cause the real estate collateral to continue to secure the loan, until the earlier of full repayment of the loan upon expiration

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

of the debentures or conversion by the purchasers of the debentures into shares of our common stock at a conversion rate of the lesser of (i) the purchase price paid by us for each share of All American common stock in the acquisition, or (ii) \$3.00, the conversion price, subject to further adjustment. However, the conversion price with respect to the additional investment right shall be \$4.00. In addition, the purchasers shall have the right to receive five-year warrants to purchase 2,500,000 of our common stock at an exercise price of \$3.75 per share. We shall also have an optional redemption right (which right shall be mandatory upon the occurrence of an event of default) to repurchase all of the debentures for 125% of the face amount of the debentures plus all accrued and outstanding interest and expenses, as well as a right to repurchase all of the debentures in the event of the consummation of a new financing in which we sell securities at a purchase price that is below the conversion price. Of the contemplated 11,666,667 shares of our common stock (valued at \$3.00 per share) All American is to receive from the acquisition, All American has agreed to escrow 1,666,667 shares of the common stock for the purpose of transfer to the holders of the June Debentures in the event such holders elect to convert the June Debentures. As a result, assuming approval of the acquisition of All American, conversion of the principal amount of the June Debentures will not result in any significant additional issuances of our common stock.

We do contemplate that the debt obligations of All American will be in general serviced through our payments of rents under leases which we plan to enter into with All American with respect to each of the All American owned properties which will allow us to occupy and operate the businesses we are purchasing from All American.

Pursuant to the Registration Rights Agreement among the All American and the purchasers of the June Debentures, if we consummate the acquisition of All American, the purchasers shall have demand registration rights with respect to all shares of our common stock obtained by them through the conversion of the June Debentures. The purchasers shall also have an additional investment right, for a period of nine months after the initial registration statement filed by us with the Securities and Exchange Commission, the SEC, is first declared effective by the SEC, to purchase units consisting of convertible debentures in the aggregate amount of up to \$14,000,000, the additional Debentures, and common stock purchase warrants equal to 50% of the face amount of

30

such additional debentures, the additional warrants. The conversion price of the additional debentures shall be \$6.50 per share of common stock with respect to the first \$7,000,000 of additional debentures purchased, and 80% of the average weighted price of our common stock during the 20 trading days immediately prior to the purchasers' election to purchase the additional debentures, with respect to the remaining \$7,000,000. The additional warrants shall have a five-year term and an exercise price of 110% of the conversion price. In the event of the occurrence of a default with respect to the additional debentures, we shall have identical redemption rights to those described in the immediately preceding paragraph.

If our stockholders approve the acquisition proposal, they will be approving the issuance of the additional securities pursuant to the agreements among the purchasers and us described above as we will assume significantly all of All American's contractual obligations under such documents upon consummation of the acquisition, other than the obligation to repay the debt evidenced by the June Debentures. Our assumption of the debentures and warrants and the potential issuance of the additional debentures and additional warrants could result in an issuance that may violate the Change of Control Rule and the 20% Rule if stockholder was not being sought pursuant to the acquisition proposal.

INTERESTS OF OUR DIRECTORS AND OFFICERS IN THE ACQUISITION

In considering the recommendation of our board of directors that you vote in favor of adoption of the acquisition proposal, you should keep in mind that certain of our directors and officers have interests in the acquisition that are different from, or in addition to, your interest as a stockholder. One of our directors, Gregory Frost, holds a 15.05% beneficial stock interest in All American, and, as such, has abstained from any vote approving the acquisition. It is anticipated, that our current board of directors will remain on the board.

Our board of directors was aware of these arrangements during its deliberations on the merits of the acquisition and in determining to recommend to our stockholders that they vote for the approval of the acquisition proposal.

OUR REASONS FOR THE ACQUISITION AND FINANCING AND RECOMMENDATION OF OUR BOARD

Our board of directors has concluded that the acquisition of All American and the financing are both in the best interests of our stockholders.

In approving the asset purchase agreement with All American, our board of directors relied on information (including financial information) relating to All American, the regulatory environment and the industry fundamentals. In addition, the board considered Ehrenkrantz King Nussbaum Inc.'s opinion that, based on conditions and considerations described in its opinion, the All American acquisition is fair to our current stockholders from a financial point of view.

Our board of directors considered a wide variety of factors in connection with its evaluation of the acquisition and financing. In light of the complexity of those factors, the board did not consider it practicable to, nor did it attempt to, quantify or otherwise assign relative weights to the specific factors it considered in reaching its decision. In addition, individual members of our board may have given different weight to different factors.

The analysis of the board of directors in reaching this conclusion is described in more detail below. In considering the acquisition and the financing, our board gave considerable weight to the following positive factors:

ALL AMERICAN'S SUCCESSFUL RECORD OF GROWTH AND EXPANSION AND HIGH POTENTIAL FOR FUTURE GROWTH

An important criteria to our board of directors was that the company have established business operations, that it was generating current revenues and that it had the strong potential to experience rapid additional growth. Our board of directors believes that All American, as a recognized brand name in the truck stop industry that has been developed over a period of 17 years has in place a strong business infrastructure and provides a solid platform for our plans.

THE EXPERIENCE OF ALL AMERICAN'S MANAGEMENT

Another important criteria to our board of directors was that the company must have a seasoned management team with specialized knowledge of the markets within which it operates and the ability to adapt a company's business model in a rapidly changing environment. All American's management team has shown a strong ability to adjust its business plan to changing market factors and to develop additional business opportunities.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

THE TERMS OF THE ASSET PURCHASE AGREEMENT

The terms of the asset purchase agreement, including the closing conditions and termination provisions, are customary and reasonable. In addition, our board of directors believes that, because members of our current management will own a large percentage of the combined company, the combined company will have a management team that will be committed to growing our company and increasing shareholder value. It was important to our board of directors that the asset purchase agreement include customary terms and conditions as it believed that such terms and conditions would allow for a more efficient closing process and lower transaction expenses.

Our board of directors believes that each of the above factors strongly supported its determination and recommendation to approve the acquisition. Our board of directors did, however, consider the following potentially negative factors, among others, in its deliberations concerning the acquisition including the recent financial history of All American.

Certain of our officers and directors may have different interests in the acquisition than our stockholders. Our board of directors considered the fact that certain of our officers and directors may have interests in the acquisition that are different from, or are in addition to, the interests of our stockholders generally, including the matters described under "Interests of Our Directors and Officers in the Acquisition" above.

After deliberation, our board of directors determined that these potentially negative factors were outweighed by the potential benefits of the acquisition above, including the opportunity for our stockholders to share in All American's future possible growth and anticipated profitability.

FAIRNESS OPINION

Ehrenkrantz King Nussbaum Inc. ("EKN") acted as financial advisor to us in connection with the All American acquisition. EKN delivered its original written opinion to our board of directors on June 15, 2005, which stated that, as of such date, and based upon and subject to the assumptions made, matters considered, and limitations on its review as set forth in the opinion, the consideration to be paid in the acquisition is fair, from a financial point of view, to our stockholders. At the time EKN delivered its original fairness opinion, the acquisition was structured as a stock purchase by us to all of the issued and outstanding shares of All American. Since the June 15, 2005, the acquisition has been amended to become an asset purchase transaction whereby we would purchase substantially all of the operating assets of All American. In this regard, EKN was then further engaged to render another, final written opinion to us regarding whether in its opinion the restructured transaction would be fair, from a financial point of view, to our stockholders and has orally informed us of its intention to issue an opinion that the restructured transaction as an asset purchase is fair to the stockholders, from a financial point of view. We expect that a written opinion by EKN will be delivered to us the week of October 3, 2005, a copy of which will be attached to the final, definitive proxy statement.

- o You are urged to read the EKN opinion carefully and in its entirety for a description of the assumptions made, matters considered, procedures followed and limitations on the review undertaken by EKN in rendering its opinion.
- o The EKN opinion is not intended to be and does not constitute a recommendation to you as to how you should vote with respect to the acquisition. EKN was not requested to opine as to, and its opinion does not address, our underlying business decision to proceed with or effect

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

the transaction.

In arriving at its opinion, EKN reviewed and took into account:

- o the draft asset purchase agreement between All American and us;
- o certain publicly available information concerning us which EKN deemed to be relevant to its inquiry and analysis including our Annual Reports on Form 10-KSB for the fiscal years ended June 20, 2003 and June 30, 2004, Quarterly Reports on Form 10-QSB for the periods ended March 31, 2005, December 31, 2004 and September 30, 2004, Definitive Proxy Statement on Schedule 14A dated May 3, 2005, Current Report on Form 8-K filed on March 4, 2005 and other Securities and Exchange Commission filings;
- o financial and operating information with respect to the business, operations and prospects of All American Plazas, Inc.;
- o discussions with our counsel and Vice President of Business Development and with Beard Miller Company, LLP, the outside auditors for All American, concerning our current operations, financial condition and future prospects;
- o documentation in connection with a financing transaction among All American and certain investors, completed on June 7, 2005, including a Securities Purchase Agreement, Secured Debenture and Additional Investment Rights Agreement as well

32

as proposed documents among such purchasers and us in the event we complete the acquisition of All American, including a Securities Assumption, Amendment and Issuance Agreement, Variable Rate Secured Convertible Debenture, Common Stock Purchase Warrant and Registration Rights Agreement.

In arriving at its opinion, EKN looked at various valuation methods including the following and applied those methods it deemed appropriate in its judgment:

- o Comparable Company Analysis , which derived a range of implied values for All American by analyzing how the public marketplace values similar private companies.
- o Comparable Transaction Analysis, which derived a range of implied values for All American by analyzing how acquirers value companies or assets similar to All American.
- o Contribution Analysis, which examined the relative value of each entity based on each entity's contribution to the combined company. This analysis is based on key financial metrics.
- o Liquidation Value, which analyzed the potential liquidation value of All American.
- o Trading History , which consisted of a review of the prices of and trading history of our common stock prior to the filing of our Current Report on Form 8-K on March 4, 2005, in order to reflect the pre and post transaction indication.
- o Such other financial and comparative analyses as EKN deemed appropriate

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

or necessary for the purpose of rendering its opinion as expressed.

In rendering its opinion, EKN has assumed and relied upon the accuracy and completeness of the financial and other information provided to it or discussed with it by us or otherwise used by EKN in arriving at its opinion without independent verification and further relied upon the assurances of our management that they are not aware of any facts that would make our financial forecasts (including on a pro forma basis) inaccurate or misleading. Based upon the advice of our management, EKN has assumed that such forecasts have been reasonably prepared to reflect the best currently available estimates and judgments of the our management as to our future financial performance (including on a pro forma basis), and that we reasonably expect to perform in accordance with such forecasts. In arriving at its opinion, EKN did not conduct physical inspections of our properties and facilities and did not make or obtain any evaluations, independent or otherwise, or appraisals of our assets, including any proprietary technology, or current or future liabilities. Additionally, we did not authorize EKN to solicit, and it has not solicited any indications of interest from any third party with respect to the purchase or business combination of all or part of its business on a post-transaction basis. EKN's opinion is necessarily based upon limited market, economic and other conditions as they existed on, and can be evaluated as of, the date of the opinion.

EKN has not acted as a financial advisor to us in connection with the initiation, solicitation of or negotiation of any terms of the asset purchase agreement, nor has it had any discussions with the management of All American Plazas, although, it has discussed with All American's financial statements with All American's outside auditors, Beard Miller Company, LLP.

EKN delivered its written opinion to our board of directors on June 15, 2005, which stated that, as of such date, based upon and subject to the assumptions made, matters considered, and limitations on its review as set forth in the opinion, the consideration to be paid in the acquisition is fair, from a financial point of view, to our stockholders. EKN is an investment banking firm that, as part of its investment banking business, regularly is engaged in the evaluation of businesses and their securities in connection with mergers, acquisitions, corporate restructurings, private placements, and for other purposes. Our board of directors determined to use the services of EKN because it is a recognized investment banking firm that has substantial experience in similar matters. EKN has received a fee in connection with the preparation and issuance of its opinion. EKN does not beneficially own any interest in All American or us and has not provided services to either party other than for rendering the fairness opinion to us. In connection with the issuance of the written opinion, EKN was paid an original fee of \$150,000 for the services rendered in connection with the original stock purchase transaction and an additional \$75,000 for its further analysis relating to the restructuring of the acquisition as an asset purchase agreement.

ALTERNATIVE TRANSACTIONS

The Board considered several alternative transactions with respect to both the acquisition and the financing. The Board also considered the alternative of not approving the acquisition or the financing. The other third-party proposals and the option of not approving any transaction were not, in the Board's exercise of sound business judgment, as favorable to the Company or its

stockholders as the acquisition for All American or the financing which was

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

provided by the purchasers of Debentures under the SPA under the July 2005 financing documents.

BUSINESS SYNERGY

With respect to the acquisition, our board of directors felt that All American and our company have compatible existing business models and that the combination of the two companies as contemplated by the Asset Purchase Agreement and related documents will result in certain management and operational efficiencies which would not have been otherwise achieved by each company acting alone including obtaining more favorable credit terms. In addition, the Board believes that diversification of our business in the manner contemplated by the acquisition will assist us in furthering our overall business strategy of achieving vertical integration and supply-chain management. For instance, All American truck stop locations can be used as distribution centers for our home heating oil vehicles. Diversification may also further enable our company to favorably adjust to various fluctuation in the economy, which may be caused by, among other things, the cost and supply of home heating oil.

APPRAISAL OR DISSENTERS RIGHTS

No appraisal rights are available under the Delaware General Corporation Law for our stockholders of in connection with the acquisition proposal or the financing.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE ACQUISITION

The following discusses the material U.S. federal income tax consequences of the acquisition to All American and our stockholders. We do not anticipate any federal income tax effect to our security holders as a result of the financing. This discussion is based on the United States Internal Revenue Code of 1986, as amended, which we refer to as the Code.

Our security holders will continue to hold their securities and, as a result will not recognize any gain or loss from the acquisition.

There should be no federal income tax consequences to a holder of our common stock as a result of the acquisition.

The conclusions expressed above are based on current United States tax law. Future legislative, administrative or judicial changes or interpretations, which can apply retroactively, could affect the accuracy of those conclusions. No rulings have been or will be sought from the Internal Revenue Service concerning the tax consequences of the transactions contemplated by the asset purchase agreement.

The discussion does not address all of the tax consequences that may be relevant to particular taxpayers in light of their personal circumstances or to taxpayers subject to special treatment under the Code. Such taxpayers include non-U.S. persons, insurance companies, tax-exempt entities, dealers in securities, banks and persons who acquired their shares of capital stock pursuant to the exercise of employee options or otherwise as compensation.

BECAUSE OF THE COMPLEXITY OF THE TAX LAWS, AND BECAUSE THE TAX CONSEQUENCES TO ANY PARTICULAR STOCKHOLDER MAY BE AFFECTED BY MATTERS NOT DISCUSSED ABOVE, EACH ABLE ENERGY, INC. STOCKHOLDER IS URGED TO CONSULT A TAX ADVISOR WITH RESPECT TO THE SPECIFIC TAX CONSEQUENCES OF THE TRANSACTIONS CONTEMPLATED BY THE ASSET PURCHASE AGREEMENT TO HIM, HER OR IT, INCLUDING THE APPLICABILITY AND EFFECT OF STATE, LOCAL AND NON-U.S. TAX LAWS, AS WELL AS FEDERAL TAX LAWS.

REGULATORY MATTERS

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

The acquisition and financing and the transactions contemplated by the asset purchase agreement are not subject to the HSR Act or any other material federal or state regulatory requirement or approval, other than that described in this proxy statement relating to NASD Marketplace Rules and Delaware law.

CONSEQUENCES IF ACQUISITION PROPOSAL OR FINANCING IS NOT APPROVED

If the acquisition proposal is not approved by the stockholders, then we will not be able to consummate the acquisition upon the terms currently contemplated by the asset purchase agreement. We may attempt to renegotiate the terms of the acquisition and seek stockholder approval at a later date.

34

If the financing is not ratified by the stockholders, then we may need to amend the terms of the financing or we may be required to rescind the purchase, which will require that we return to all purchasers of Debentures all proceeds, with interest, which we received in connection with the financing, and possibly together with any costs and expenses incurred by the purchasers as a result of such rescission.

REQUIRED VOTE

To be approved by the stockholders, the proposal to approve, for purposes of NASD Marketplace Rule 4350(i), the issuance of securities to All American pursuant to the asset purchase agreement or financing that could violate the Change of Control Rule, 20% Rule and the Affiliated Transaction Rule, which will result in the acquisition of All American, must receive the affirmative votes of a majority of the votes cast, in person or by proxy, at the special meeting.

To be approved by the stockholders, the proposal to approve, for purposes of Section 203 of the Delaware General Corporations Law, the acquisition of the assets from All American pursuant to the asset purchase agreement must receive the affirmative vote of a two-thirds majority of the votes cast, in person or by proxy, at the special meeting. The votes currently held by All American in our company will NOT be included for purposes calculating the votes required by this Section 203 vote.

Abstentions are treated as shares present or represented and entitled to vote at the special meeting and will have the same effect as a vote against this proposal. Broker non-votes are not deemed to be present and represented and are not entitled to vote, and therefore will have no effect on the outcome of this proposal.

RECOMMENDATION

The Board of Directors believes that it is in the company's best interests that the stockholders authorize the issuance of common stock to All American pursuant to both the asset purchase agreement and the financing that could constitute an issuance in violation of the Change of Control Rule, 20% Rule the Affiliated Transaction Rule and/or the Delaware Business Combination Rule.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE ACQUISITION PROPOSAL TO PURCHASE SUBSTANTIALLY ALL OF THE OPERATING BUSINESS ASSETS ALL AMERICAN AND TO RATIFY THE FINANCING AGREEMENTS ENTERED INTO BY US IN JULY 2005 WITH RESPECT TO THE SALE OF THE DEBENTURES.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

THE ASSET PURCHASE AGREEMENT

The following summary of the material provisions of the asset purchase agreement is qualified by reference to the complete text of the asset purchase agreement, a copy of which is attached as Annex A to this proxy statement. All stockholders are encouraged to read the asset purchase agreement in its entirety for a more complete description of the terms and conditions of the acquisition.

STRUCTURE OF THE ACQUISITION

At the effective time of the acquisition, All American will continue as an operating company and become our wholly-owned subsidiary.

PURCHASE PRICE-PAYMENTS

At the closing, we will deliver to All American 11,666,667 restricted shares of our restricted common stock, par value \$.001 per share, at \$3.00 per share for an aggregate purchase price of \$35,000,000 for substantially all of the assets relating to the operating business of All American. 1,666,667 of such shares will be escrowed and be kept by us. In the event that any of the June Debentures are exercised (those debentures which were purchased by various investors in All American in June 2005), then we will have the right to direct and effect the cancellation of a like number of these escrowed shares, up to 1,666,667 shares of our common stock.

We will not be assuming the debt obligations of All American nor will we be taking title to any of the real property which All American owns.

In addition, the shareholders of All American have caused All American to enter into a term sheet dated June 6, 2005 with a third party institutional lender to refinance All American's debt and provide All American with certain working capital. The term sheet provides that the loan will be in the amount of approximately \$35,000,000, at an interest rate of 30-day LIBOR plus spread (adjustable rate), which is equivalent to the Prime Rate + 1.75%, with a 25-year term and a 25-year amortization schedule. All American will secure the loan with a first mortgage on all of its properties, including improvements thereto, and we have agreed to assign over all of our real property equity interests in the All American properties as security for the refinancing. The refinancing is

35

subject to customary closing conditions and is expected to be consummated on October 31, 2005. In the event that All American completes such financing on or before December 31, 2005, we have agreed to pay an additional \$10,000,000 to All American, payable in shares of our restricted common stock at \$3.00 per share. In return, All American will reduce our obligations under various leases we will enter into in connection with the closing of the acquisition.

LEASES

For tax-related and refinancing purposes, we will not assume title to the real property owned by All American relating to its truck stop (and related) business. We will be conveyed all equity interests associated with such real property as part of the purchase price consideration. In order to allow us to operate on the various premises which are owned by All American, we will enter into lease agreements. Payments of rent to All American by us under these lease agreements are intended to be used by All American to service its monthly outstanding debt obligations. Our equity interest in All American real properties will be deemed to be increased on a dollar for dollar basis for each dollar which All American applies the principal amount of its outstanding debt

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

obligations. In the event that All American's monthly debt service obligations materially increase or decrease, the rents we are obligated to pay under our leases with All American will also increase or decrease by the same amounts. In addition, we will be granted the right to pay off the debt on any or all of the All American owned properties provided that we receive title to any properties that are encumbered by such debt.

CLOSING OF THE ACQUISITION

Subject to the provisions of the asset purchase agreement, the closing of the acquisition will take place on the first day following the date that our stockholders approve the acquisition, or at such other time as the parties may agree.

INTERIM COVENANTS RELATING TO ALL AMERICAN

Under the asset purchase agreement, All American, prior to completion of the acquisition, has agreed to conduct its business in the ordinary course consistent with past practice, except as expressly permitted by the asset purchase agreement. In addition to this agreement regarding the conduct of business generally, subject to specified exceptions, All American has agreed that All American:

INFORMATION ABOUT ALL AMERICAN

INTRODUCTION

All American, which is headquartered in Myerstown, Pennsylvania, is in the business of owning, operating and developing truck stops. Its operations include, but are not limited to, the ancillary merchandising of rights, products, and other goods and services. All American operates 11 (8 of which are owned) multi-service truck stops in the United States that sell diesel fuel and related services to approximately 5,000 trucking accounts and other independent consumers. Its operations are located at primary interchanges servicing major truck routes in the northeast region of the United States, and its facilities, known as "All American Plazas," offer a broad range of products, services, and amenities, including diesel fuel, gasoline, home-style restaurants, truck preventive maintenance centers, and retail merchandise stores that market primarily to professional truck drivers and other highway motorists.

During the fiscal year ended September 30, 2004, All American generated revenues of \$131 million and had a net worth \$5 million. In addition, recent appraisals show the fair market value of the real estate owned by All American to be substantially higher than the recorded book value required by generally accepted accounting principles (GAAP) in the United States. When the excess of appraised value real estate over book value is added to the balance sheet, All American's net worth at the end of fiscal 2004 was approximately \$63.9 million.

THE TRAVEL PLAZA AND TRUCK STOP INDUSTRY

INDUSTRY OVERVIEW

Today's travel plazas and truck stops represent a major departure from their predecessors of a generation ago. These clean and modern multi-million dollar businesses offer a tremendous array of facilities and services to professional drivers and the traveling public. According to statistics obtained by the National Trade Association, there are approximately 4,500 travel plazas, pumping three-fourths of all diesel fuel sold at retail in the United States. The industry's primary customers consist of commercial trucking fleets and professional truck drivers that comprise the long-haul sector of the trucking industry.

In 2003, the U.S. Department of Transportation reported that 77 million trucks hauled 13.2 billion tons of freight, delivering 78% of the dollar value of products sold in the United States over highways. The Federal Highway Administration (FHA) predicts an increase of 31% in truck freight by 2015. The chart below depicts a forecast of the trucking industry in 2007. The value of trucking services is expected to grow at an annual compounded rate of 4.7% between 2004 and 2007. Strong growth in retail sales and exports are expected to drive this demand.

and the aggregate economy.

40

Another recent economic study found that by 2008, the number of Class 8 trucks is expected to increase by over 35%, the number of Class 6 and 7 trucks will grow by almost 20%, and the number of Class 3, 4, and 5 trucks will double. The growth of the trucking industry during the past two years is associated with a fundamental improvement in the U.S. economy, and analysts and industry officials are pointing to the recent strength in the retail and manufacturing sectors as catalysts for growing freight tonnage.

Diesel and gas sales is the largest determining factor for revenues and profitability for travel plazas and truck stops. Approximately 75% of All American's revenues during [2004] derived from the sale of diesel and gas. For instance, All American sold 60 million gallons of diesel fuel in Pennsylvania during 2003, which is equivalent to a 5% market share in Pennsylvania, a leading state for sales of diesel fuel.

ALL AMERICAN PLAZAS, INC.

All American Plazas, Inc. traces its roots to 1980 when the Company's founder, Glen Mitstifer, acquired his first truckstop in Carlisle, PA. The Company at that time was incorporated as All American Auto/Truck Plazas, Inc. A silent partner in the business sold his interest in the early 1980's to Carlos Leffler, who owned other companies involved in the wholesale and retail distribution of motor fuels and propane. By 1987, under the guidance of Mr. Mitstifer and Mr. Leffler, the company prospered and grew to a total of seven travel plazas in central PA.

In the mid 1980's Mr. Leffler had acquired a majority interest in another group of truckstops in central PA, incorporated as Truck Terminal Motels of America, Inc. ("TTMA"). In November, 1988 the four TTMA truckstops and the seven All American Auto/Truck Plaza locations were merged, and All American Plazas, Inc. was formed.

All American continued to prosper in the early 1990's, adding a twelfth location in Doswell, VA, and completely re-building several locations, such as Milton, Clarks Ferry and the three Gables sites. Mr Mitstifer was also very active in the formation of AMBEST in 1989, an alliance of independently owned travel plazas formed to offer a nationwide network that would allow the independent operator to effectively compete with national chains. Eight of the All American locations were affiliated with AMBEST.

In 1994 Mr. Leffler passed away, which led to the acquisition of his shares by Mr. Mitstifer in June 1995. As a result of this transaction, Mr. Mitstifer held roughly 88% of the Company's voting shares. By late 1995, Mr. Mitstifer had been joined in the business by his two sons, Richard and Mark, who oversaw the financial and operational aspects of the Company, respectively. Richard had sixteen years of experience in commercial banking, and Mark had been with the Company since its inception in 1980.

The competitive environment in the the Pennsylvanian truckstop business changed dramatically in early 1995 when Utah-based chain Flying-J entered the state, choosing to build in Carlisle, Pennsylvania. During the same time period, other national competitors, such as Pilot and Petro Stopping Centers, had built or were planning new sites across the state. In early 1997, two of the larger chains in the industry, Union 76 and Travel Centers of America were merged, both being controlled by the same investment group. This merger impacted All American's Breezewood location, which had been a Union 76 franchise. The loss of

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

a national affiliation at Breezewood opened the door for discussions with Petro and the next major change in Company history.

In December, 1997 a written understanding was entered into with Petro, whereby three locations (Breezewood, Milton and Frystown) were to become Petro franchise sites, and a fourth (Carlisle) was to be franchised or sold to Petro. In February, 1998 the Breezewood and Milton sites were converted to Petro's. The Frystown site was going to require significant renovations to meet Petro standards and Carlisle needed to be a ground-up rebuild, so both were put on hold for future consideration.

Other company locations were also undergoing changes as a result of the competitive environment, a downturn in the trucking industry and managements decision to franchise with Petro. The SOCO All American in Carlisle had been closed in 1997 and the site put on the market. Part of the agreement with Petro restricted the future use of the site, so that no truckstop competitor would open on the site. Management also decided to sell it's Pine Grove, PA location to an independent operator, because it would reduce debt and the location could not be converted to a Petro. By the end of 1998, All American was operating ten truckstops and a motel.

In 2000, recognizing the amount of capital necessary to convert Carlisle and Frystown to Petro, the decision was made to sell the Carlisle site to Petro. The sale was completed in October, 2000, which included the truckstop property and an adjacent motel site. AAP continued to operate the Carlisle All American until June, 2001, while Petro built their new truckstop on the frontage that was occupied by the motel. By the end of 2001, a portion of the sale proceeds were used for upgrades at the Breezewood and Milton sites, while a new truck repair shop was constructed in Frystown as part of that Petro conversion. The ultimate conversion of the Frystown site was delayed due to a lack of available funds, as proceeds of the sale were used to pay off mortgage debt on the Doswell, VA location. This location had been under agreement of sale but the agreement was not finalized.

41

In early 2002, Mr. Mitstifer, decided to begin the process to sell All American and position himself for retirement. Initial discussions were held with Petro, who had a contractual right of first refusal, due to existing franchise agreements. A favorable deal could not be negotiated with Petro, and Petro allowed talks to begin with other interested purchasers. One of the interested parties was a Connecticut based operation that was led by Frank Nocito, who was ultimately the successful bidder. As part of his group of business interests, Mr. Nocito already operated two independent truckstops, one in NY and the other in NJ. In October, 2003 a stock sale was completed to a newly formed entity, All American Industries Corp. The sale price was \$27.5MM; approximately \$16.5MM was used to pay off debt and the balance of \$11.2MM was structured with \$4MM due at closing, \$3MM due at the first year anniversary of the sale and the balance paid to former shareholders over the next seven years. Mr. Mitstifer, the founder, retired and the company's day to day operation is led by his son, Richard Mitstifer, President, Roger Roberts, Vice President of Operations, Louis Aponte, Vice President and Mark Rosen, Comptroller.

All American operates eleven locations. Eight are part of the original group of All American locations and the other three are operated under management agreements. The other three include Belmont, NY, Carneys Point, NJ and Strattanville, PA, a location that was taken over in April 2004. In January 2004, the Company closed a leased site in Carlisle, PA. The lack of profitability at the site did not make renewal fiscally feasible.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

During the first year of operation All American implemented various cost saving programs that has returned the Company to profitability. Changes have been implemented in restructuring personnel and operations which has already reduced annual operation costs by more than \$1MM and additional improvements will continue. In addition, approximately \$500,000 has been saved on an annual basis after having negotiated a new fuel contract with better credit terms and lower prices. Other cost savings have been implemented by reducing the work force by 15% which also resulted in an annual savings of \$200,000 in workmen's compensation insurance. In addition, the Company signed-on with a new health insurance provider and implemented a 50/50 employee premium contribution plan which has saved an additional \$100,000 to the Company on an annual basis.

COMPETITIVE ADVANTAGE:

Increased competition and consolidation among trucking companies in recent years has heightened truck fleet owners' focus on reducing their operating costs. This trend has placed additional pressure on diesel fuel margins for all industry participants. In addition, from time to time, All American may face intense price competition in certain geographic markets. Industry studies indicate that approximately 61% of stops made by professional truck drivers are for reasons other than the purchase of fuel. Professional truck drivers rate meals, parking, and cleanliness as key factors in determining which truck stop they use. As a result, All American believes that its average site size, user-friendly facility design, and broad offering of non-fuel products, services, and amenities will continue to attract the professional truck driver and should continue to sustain All American's competitive advantage in spite of fuel pricing competition.

Regulators concerned with the number of fatigue related accidents have limited the number of hours a professional truck driver is permitted to drive. New hours of service regulations, in effect since January 4, 2004, increased the mandatory rest periods professional truck drivers are required to take. All American believes these new regulations will increase the time that professional truck drivers spend in multi-service travel centers, thereby increasing demand for higher margin merchandise and services. This factor, together with a high driver turnover rate, may also result in trucking fleets being more inclined to promote and encourage their drivers to use full-service truck stop chains, such as an All American Plaza, as a method of improving their driver retention.

BUSINESS STRATEGY

The mission of All American is to steadily become one of the premier truck stop operators in the United States and to achieve ongoing sales revenues from the acquisition and operation of truck stops throughout the United States.

All American believes that there are currently more than 150 truck stops available for acquisition at commercially reasonable terms in the United States. The need for such facilities will continue long into the future and the development of ancillary properties associated with such facilities acquired will maximize revenue. All American intends to target those companies available for acquisition that have a recognized presence, and will work to convert other independent locations into All American-owned facilities.

To improve and maintain sales, All American is currently upgrading signage and gas islands with a completion date of December 2005. All American has also partnered with TransMontaigne Product Services in diesel branding with a desired result of having a nationwide network of the All American brand. We are investigating the feasibility of offering Bio-diesel fuel at our locations via another collaboration with TransMontaigne. We believe this will put us at a competitive advantage since many of our competitors do not and, to our knowledge, do not currently have plans to implement such a program. We believe, however, that the recent natural disasters in the U.S. Gulf Coast has

demonstrated that the cost of alternative products will be in demand.

42

To increase diesel sales, All American has contracted with Truckstops Direct, a well-known marketing group, to market our locations to fleets that do not presently use our locations. With the assistance from Truckstops Direct, All American has been successful in bringing new accounts into the locations.

All American operates two Petro locations, generally recognized as the leader in the truck stop industry, in Milton and Breezewood, PA. A third location, Frystown, PA, is scheduled for conversion to Petro in 2006. When completed, we believe this will enhance our offering at these locations and strengthen our presence.

BUSINESS OPERATIONS AND STRATEGIC ALLIANCES

TMG & ITS FUEL MANAGEMENT PLATFORM

All American has entered into a fuel supply agreement with TransMontaigne Product Services, Inc. (TMG), which provides All American with direct access to TMG's "Best Practice Fuel Management Platform". The TMG platform allows All American to act as its own wholesale fuel distributor to TMG truck stops without any capital investment whatsoever. TMG generates over \$9 billion in annual revenues and owns 55 oil and gas refineries throughout the U.S. with a total capacity of 21 million barrels of oil equivalents. In 2004, All American consolidated its fuel supply agreements with TMG and purchased \$100 million in fuel from TMG. Based on its agreement with TMG, All American's fuel supply has been market sensitive with minimum markup. The relationship with TMG has allowed All American to pass along a portion of these cost reductions to its customers, providing it with a distinct competitive advantage in the truck stop marketplace. In addition, TMG provides All American with better credit terms than other retail fuel suppliers. Typically, in the truck stop industry, competitors have 10 or less days to pay for inventory while All American has a 15-day grace period, resulting in improved cash flow and earnings.

TMG

TransMontaigne, Inc., the parent company of TMG, is a refined petroleum products distribution and supply company based in Denver, Colorado, with operations primarily in the Gulf Coast, Midwest and East Coast regions of the United States. TransMontaigne predominantly distributes refined petroleum products, such as gasoline, diesel fuel, heating oil, jet fuel and kerosene, and some fertilizer, chemicals and other commercial liquids. TMG provides integrated terminal, transportation, storage, supply, distribution and marketing services to refiners, wholesalers, distributors, marketers and industrial and commercial end users of refined petroleum products. Its principal activities consist of terminal, pipeline and tug and barge operations and supply, distribution, marketing and supply management services.

TMG has assembled an asset infrastructure and developed a shipping history on common carrier pipelines, which are focused on the distribution of refined petroleum products from the Gulf Coast to the Midwest and East Coast. TMG owns and operates terminal infrastructures that handle refined petroleum products and other commercial liquids with transportation connections by pipelines, tankers, barges, rail cars and trucks to its facilities or to third-party facilities. At its terminals, TMG provides throughput, storage, injection and distribution related services to distributors, marketers, retail gasoline station operators and industrial and commercial end users of refined petroleum products and other commercial liquids. During the fiscal year ended

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

June 30, 2004, TMG owned and operated 55 terminals with an aggregate capacity of approximately 21.4 million barrels of refined petroleum products.

TMG has purchased refined petroleum products primarily from refineries along the Gulf Coasts of Texas and Louisiana, and has such products delivered to its own and third party terminals. TMG sells its products primarily through rack-spot sales, contract sales and bulk sales to cruise ship operators, commercial and industrial end users, independent retailers, distributors, marketers, government entities and other wholesalers of refined petroleum products and also provides supply chain management services to industrial, commercial and governmental customers that have large ground vehicle fleets. TMG's customer base includes companies involved in the manufacture and distribution of consumer products, express shipping services, waste disposal services, transportation services and state and local government entities.

BEST PRACTICE FUEL MANAGEMENT PLATFORM:

TMG has developed a proprietary combination of software programs and databases to provide TMG and its customers access to essential real time data with respect to how to purchase and procure fuel from TMG in the optimal manner and at the best prices available. The TMG platform ensures a reduction of fuel costs by facilitating tactical decisions and also provides the opportunity to analyze the data so as to make strategic decisions. The following are some key features of the TMG platform:

43

INTEGRATION OF DATA: Normal day-to-day fuel management involves a number of systems and usually involves much spreadsheet work, duplication of data and manual touches to integrate the different systems. The platform data-level integration eliminates duplication, speeds up production of reports and manual collation of data, integrates different systems with a consistent set of data and provides better and more consistent data for decision making.

FUEL PROCUREMENT SNAPSHOT: The fuel procurement screen provides a snapshot for all sites in a single screen, which allows for quick decision-making. The snapshot includes, in a single screen, a list of all sites and their respective statuses, physical inventory, forecasted consumption and minimum and maximum number of loads that can be dispatched.

PROCUREMENT OPTIMIZATION BY MOVING UP THE SUPPLY CHAIN: The platform is not only geared towards providing a reduction of fuel costs by facilitating tactical decisions, but also provides an opportunity to analyze the data so as to make strategic decisions. This is accomplished by encouraging all suppliers to provide a breakup of the delivered costs into product and freight, which facilitates a comparison of the freight component with the freight in that market area, thereby allowing a customer to check for reasonableness and ensure corrections if necessary. The platform also provides for a comparison of the product price at the [Rack] with industry indexes.

IMPROVED RELEASE LIFE-CYCLE MANAGEMENT: The release life cycle starts from the time the release is created to dispatch a load to a site and continues until both the freight and product is paid. A release goes through many steps along the way, from site and hauler actualization to the automated matching process that verifies the validity of the actualization information. The inventory reconciliation process provides yet another check, until the freight and product payables are finally created and interfaced with the financial system. The platform provides user interfaces, reports and automated processes to manage the life cycle of a release thereby providing for an integrated and robust system that conforms to best practices.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

INDEPENDENT TRUCK STOPS

In ____ 2004, All American acquired a 33% equity interest in Truck Stops Direct ("TSD"), which represents 140 independent truck stops across the U.S. and provides certain benefits to its members for a small monthly fee ranging from \$600 to \$1,000 per month. Among the benefits offered by TSD are the following:

- o individualized direct fleet marketing
- o reduced transaction fees with the major fleet cards
- o better than wholesale discounts on shop and store merchandise
- o reduced pricing for TripPak services
- o competitive monthly retainer fee and no "per gallon" marketing fees or other special charges
- o reduced membership retainer fees for multiple locations
- o no lengthy contracts (60-day written notice of termination by either party)
- o limited network of travel centers, with no overlapping of locations

Provided that the acquisition is completed, TSD has orally committed to grant All American the right to acquire the remaining stock of TSD and immediately thereafter, enter into license agreements with the majority of existing TSD members such that each independent truck stop now uses the name "All American Plazas". The license agreements will provide better credit terms for fuel purchases, cheaper fuel prices, proprietary credit cards and a new customer base utilizing All American's already existing cost plus contracts with national truck fleets to the truck stop owner(s)/licensees.

Through the licensing agreements with the TSD members and the use of the TMG platform for such TSD members. All American has been able to significantly expand the All American Plaza brand and generate recurring revenues without incurring the initial capital expenses of building or acquiring a new truck stop. . These revenues are primarily pre-tax profits, generated without acquiring the actual bricks and mortar, employees, debt, carrying costs and all of the other costs associated with direct truck stop ownership. All American anticipates that it will establish and create non-capital intensive, high profit margins, and recurring revenues during fiscal year 2005 with the implementation and integration of the TMG platform and management assistance.

COST PLUS SUPPLY AGREEMENTS WITH TRUCK FLEETS

All American has entered into "Cost Plus" supply agreements with a substantial number of major national trucking companies, such as JB Hunt, Werner Enterprises, USA Truck and Pensken & Prime. [FULL NAMES] These contracts provide that the truck

44

fleets will pay a set margin over All American's cost of fuel. National truck fleets will not allow their drivers to purchase fuel at truck stops that are not party to cost plus supply agreements with them. The agreements result is increased revenues and stable, predictable profits for All American. The advantage for the truck fleets is that they have long term fuel supply agreements which provide fair pricing over time while lessening the volatility of fuel prices.

ALL AMERICAN REALTY & CONSTRUCTION, INC.

In _____ 2004, All American formed a wholly owned subsidiary named All American Realty & Construction, Inc. (AARC) for the purpose of real estate

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

development and construction. Future development will create additional revenues from the substantial undeveloped surplus real estate All American owns at its truck plazas. All American has more than 150 acres of real estate which is not being utilized by the truck plaza business and has engaged an outside real estate company to produce a full land use survey. All American expects to enter into long term leases with large, national retail chains such as Wal Mart, Home Depot and Lowe's.

COMPETITION

The United States truck stop industry is highly competitive and fragmented. All American has two primary sources of competition: (1) limited service "pumper" truck stops, which focus on providing fuel, typically at discounted prices, while offering only limited additional products and services, and (2) multi-service travel centers, which offer professional drivers and the public a wider range of products and services. All American believes there are approximately 2,400 multi-service and pumper truck stops located in the United States. Approximately 30% of the truck stops are operated by five national chains and such national chains accounted for approximately 83% of all diesel fuel gallons sold over-the-road.

The three industry leaders in truck plazas are Flying J Centers Holdings, L.P., Pilot Corporation and Petro Stopping.

FLYING J CENTERS HOLDINGS, L.P.

Established as a small petroleum marketing company in 1968 with four retail gasoline stations, Flying J Centers Holdings, L.P. has grown to become the largest retail distributor of diesel fuel in North America. Flying J is a fully integrated petroleum company engaged in the exploration, production, refining, transportation, wholesaling and retail marketing of petroleum products. Employing 11,500 people nationwide, the company also owns and operates travel plazas, convenience stores, restaurants, motels and truck service centers. In addition, Flying J's affiliated companies offer a variety of services including, insurance, financial services, communication services, load and equipment facilitation services, truck fleet sales and other interstate travel services.

Flying J's sophisticated network of 165 state-of-the-art travel plazas and fuel stops is located along national highways in 41 states and three Canadian provinces. Another 27 facilities are presently under construction or in various stages of the permitting process with openings scheduled throughout the next two years.

PILOT CORPORATION

Pilot Corporation was founded in 1958 as a single, family-owned gas station in Gate City, Virginia. In 1976, Pilot built its first convenience store and began converting the rest of its locations to convenience stores. Pilot's first travel center opened in 1981, and travel centers have been the main thrust of its business since then. In 1988, Pilot began concentrating on expanding its travel center operations into a nationwide network. Pilot opened its first travel center with a fast-food concept in 1988.

By 2001, Pilot operated 65 convenience stores and 140 travel centers in 37 states. On September 1, 2001, Pilot and Marathon Ashland Petroleum (MAP) entered into an agreement to form Pilot Travel Centers (PTC). MAP is the sixth largest refiner of petroleum products in the country, and its sales are approximately \$20 billion. Pilot is currently the nation's largest operator of travel centers and largest seller of over-the-road diesel fuel. PTCs sell nearly 18% of all over-the-road diesel fuel sold in the United States. A typical PTC includes one or more nationally known chain restaurants, a broad range of retail

GOVERNMENTAL AND OTHER REGULATIONS

GOVERNMENT REGULATION.

All American is subject to various governmental regulations. These include the collection and payment of taxes, complying with government standards, and maintaining various government permits and licenses.

All fuel island equipment must follow the standards set forth by the Bureau of Weights & Measures. The bureau inspects and tests fuel equipment twice annually. Fuel islands must also have adequate cut-off switches and systems in the event of an accidental spill or fire. The scales at each location are tested annually. Each scale operator must have a public weighmaster license, which is issued by the Bureau of Standard Weights.

Most All American locations have eating establishments that must follow regulations set forth by the applicable State, as well as the posting of a license issued annually by the Department of Agriculture. Inspections of All American restaurants are performed by the respective States to verify compliance with restaurant standards for food storage and preparation. Fire suppression systems are also required in all cooking areas and are subject to periodic inspection.

Each retail store is required to post a Cigarette Dealer license (or similar license). In Pennsylvania this is issued by the Department of Revenue Bureau of Business Trust Fund.

In Pennsylvania, the Department of Health issues a certificate of registration which is required to conduct and maintain a facility in accordance with the provisions of the Controlled Substance, Drug, Device and Cosmetic Act #64, approved September 9, 1972.

All American is also subject to various standard taxes. These taxes include federal and state corporate taxes, sales tax, payroll tax, tire recycling fees, and occupancy taxes. All American also collects motor fuel taxes from customers. These motor fuel taxes are withheld by our suppliers upon our purchase of fuel and the supplier files and pays the motor fuel taxes. All American does not directly file motor fuel tax returns for gasoline or diesel.

In Pennsylvania, all "Pressure Vessels" are regulated by the Bureau of Occupational and Industrial Safety, which is part of the Pennsylvania Department of Labor and Industry. Pressure vessels include boilers that can be a component of a locations hot water and/or heating system, and also all air compressors. Air compressors are used in our truck repair facilities, and could also be part of a locations water delivery or HVAC systems. They must be registered with the

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

State and are inspected annually.

ENVIRONMENTAL REGULATIONS.

Environmental regulation for All American truckstops generally fall into three primary categories: (a) sewerage treatment plants; (b) stormwater and spill runoff control; (c) tanks and lines used for delivery of petroleum products; and (d) waste product disposal.

All American owns and operates four on-site sewerage treatment plants at Pennsylvania locations - Frystown, Milton, Clarks Ferry and Strattanville. All four plants must be monitored and maintained daily by licensed operators. All American does have some employees who are licensed operators but have also engaged the services of an outside company that specializes in the operation of treatment plants. They collect affluent samples, handle all reports that are submitted monthly to the State and procure any permits as required. The plants must all comply with strict standards of structural integrity and affluent concentrations, as they all discharge directly to streams and rivers.

Stormwater and spill control is critical, especially at those locations that are adjacent to waterways. Most All American locations do have some form of retention basin to catch stormwater, although most are somewhat passive in their process. Others, such as Doswell, VA actually have a system of skimmers and booms in place that are designed to actively filter the outflow. All garages and fuel islands are required to have an Oil/Water separator that is designed to catch any serious spills of petroleum products. These systems are not designed to filter rainwater, but are targeted towards spills that occur on the fuel islands or in the garages. These tanks must be periodically inspected and emptied of any petroleum products. Where possible, they are required to filter into a sewerage treatment plant, while others are piped to a retention pond.

All tanks of a certain size, whether aboveground or underground, are required to be registered with the State and are subject to periodic inspection and testing. Lines leading to pumps are also tested, normally on an annual basis. Most of All American's locations have double walled tanks that employ the use of an interstitial space to actively monitor any leaks in tanks. The leak

46

detection systems electronically send data to the fuel desk area and an alarm would sound if a problem is detected. In addition to the electronic monitoring of tanks, All American is required by law to keep a daily log of fuel levels in the tanks, which log is reconciled daily against deliveries and product sales to spot any shortages that may be the result of a leak. The State of Pennsylvania maintains an active Underground Storage Tank Indemnification Fund ("USTIF"). AAP pays money into the USTIF based on tank capacity for diesel fuel and actual gallons of gasoline purchased.

All American must also abide by guideline relating to the disposal of waste products. All battery cores are taken back by their original suppliers. Tire casings are collected in trailers and hauled away by a certified recycler, and all oil filters are crushed and drained prior to disposal. Waste oil is either burned in our own heating systems or sold to a certified recycler.

RISK OF LOSS AND LIABILITY INSURANCE

All American maintains all insurance in types and amounts which are customary in the industry for operations of its scope. All locations are covered by property, liability and boiler and machinery insurance. All American also maintains excess liability insurance. All American does not maintain business

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

interruption insurance. Certain states require that All American maintain disability and/or workman's compensation insurance, and All American is in compliance with such requirements. Flood insurance is maintained on the Clark's Ferry property only.

EMPLOYEES

As of June 16, 2005, All American had a total of 640 employees, of which 570 were full-time and 70 were part-time. At such date, 50 of All American's full time employees were salaried and performed executive, management, or administrative functions and the remaining 520 employees were paid by the hour. All American has never had a work stoppage and management characterizes its relations with its employees as good.

LITIGATION

There are no pending material legal proceedings against All American. Moreover, all minor litigation is covered by insurance. However, Carney Properties & Energy Corp., the titleholder of All American's Carney's Point truck plaza real property and an affiliate of All American, is involved in an adversary proceeding with Sovereign Bank.

INDEBTEDNESS

All American is party to a number of credit facilities of varying size, terms and conditions, which have been used by All American and its affiliates and subsidiaries to support their operations, for working capital and capital acquisitions for expansion.

In August 1999, All American borrowed \$10 million from GMAC, successor in interest to FMAC. The loan collateralized by first mortgages on certain properties owned by All American, and currently has an outstanding balance of approximately \$8 million. Bayview Capital loaned All American \$8 million, collateralized by a first mortgage on Milton Petro Truck Stop, which loan was subsequently assigned to Capital Crossing Bank and currently has an outstanding balance of approximately \$4.5 million. In March 2004, All American borrowed \$2.1 million dollar, all of which is currently outstanding, from Fundex Capital Corp., collateralized by a second mortgage on Milton Petro Truckstop. Such loan from Fundex accrues interest at the rate of 12.5% per annum and was originally payable in September 2005 but has been extended for an additional six months.

As of June 16, 2005, Carney Properties Energy Corporation,, a company owned by All American Industries, Inc. ("AAI"), the majority shareholder of All American, entered into a loan agreement in the amount of \$2.2 million with Sovereign Bank, which loan is collateralized by a first mortgage on Carney's Point, of which approximately \$2.1 million is currently outstanding. Belmont Truck Plaza, Inc., a company owned by AAI, obtained a \$750,000 credit facility from the Small Business Administration ("SBA"), collateralized solely by a first mortgage on Belmont Truck Plaza, of which approximately \$750,000 remains outstanding. AAI manages Carney Properties & Energy Corp. and Belmont Truck Plaza and anticipates transferring these two properties to All American in exchange for All American's assumption of AAI's debt obligations to Sovereign Bank and the SBA.

AAI is the maker of a promissory note to the sellers of All American in the amount of \$7.1 Million, secured by second mortgages on Carlisle Gables, Frystown Gables, Doswell, Carlisle Soco, Harrisburg Gables. Regarding the sellers' promissory note, AAI was to make a Three Million Dollar (\$3 million) payment in October 2004; however, AAI has requested an extension for an additional ninety (90) days to make said payment and has requested that the majority shareholder of the seller's promissory note convert approximately \$2 million of the \$3 million dollars into equity of the soon to be formed Newco.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

The Sellers' under the promissory note have agreed to the extension until December 31, 2005. Furthermore, the majority shareholder is considering the conversion of approximately \$2 million dollars in debt to equity in Newco during the extension period.

47

On December 15, 2004, Timothy Harrington, the then Chief Executive Officer of Able Energy, Inc. sold an aggregate of 1,007,300 shares of Able's common stock to All American. The purchase price for the sale was \$7,500,000, of which \$2,750,000 was paid in cash and All American issued promissory notes in the aggregate principal amount of \$4,750,000 to Mr. Harrington. For the first 12 months, only interest was payable to Mr. Harrington. Thereafter, principal and interest shall be payable on a monthly basis. In the event All American and Able were to enter into any transaction pursuant to which the promissory notes become an obligation of Able and Able enters into a material financing transaction, the notes will become immediately due and payable.

On July 27, 2005, Able made a loan in the amount of \$1,730,000 to All American and All American executed and delivered a promissory note for the full amount of the loan in favor of Able. Under the terms of such promissory note, the outstanding principal of the loan bears interest at the rate of 3.5% per annum. All payments of principal and accrued interest are payable sixty days after the date of the promissory note, although All American may extend the repayment for an additional thirty days upon written request.

On January 12, 2005, All American entered into an agreement to factor accounts receivable with Crown Financial, LLC ("Crown"). In accordance with the account purchase agreement, All American received a \$2,000,000 initial advance from Crown. On the 15th and 30th of each month All American has agreed to pay Crown a fee equal to 2.5% of outstanding advances from the proceeding period. All American has agreed to pay Crown a minimum fee of \$200,000 for the first 60 days of the agreement. Notwithstanding the foregoing, All American will pay Crown a fee on January 15, 2005 equal to a per diem rate of .1666% applied to the initial advance for the period from the initial advance to January 15, 2005 in addition to \$10,000 for legal and travel expense associated with the transaction.

All American obtained financing of \$6,450,000 from Avatar Income Fund I, LLC and \$2,050,000 from Avatar Funding Group, LLC ("Avatar") on April 14, 2005, which are collateralized by a first, second or third mortgage on certain real estate owned by certain of All American and are guaranteed by an officer of All American. This financing was used to pay certain of All American's other debt obligations. At closing All American paid total closing fees of \$527,385 and any legal and inspection fees required for the financing. Repayment terms for these loans are interest only, payable monthly at the Wall Street Journal prime rate plus 7% with a minimum rate of 11%, starting June 1, 2005. Unpaid principal and accrued interest is due on November 1, 2005, the maturity date. All American has the option to extend these loans for an additional six months, providing there have been no defaults and All American pay Avatar a 2% extension fee prior to the maturity date.

FACILITIES

All American's facilities are designed to offer a number of benefits to truck fleet operators and drivers. These benefits generally include well-lit and fenced parking lots to enhance security for drivers, trucks, and freight; spacious parking areas and traffic flow patterns designed to reduce accidents; and fewer stops and out-of-route miles through the use of one-stop, multi-service facilities. The facilities offer separate gas and diesel fueling

ENVIRONMENTAL MATTERS

CLARKS FERRY ALL AMERICAN

Clarks Ferry All American has eight registered underground storage tanks (USTs) currently in use. The Clarks Ferry facility has been subject to an ongoing groundwater cleanup program since 1996. A claim was filed with the Pennsylvania Underground Storage Tank Indemnification Fund (USTIF) in 1996 and the claim has been accepted, with USTIF paying 65% of the associated costs. The site characterization and remedial action plan has been handled by Hydrocon Services since 1998. The cleanup process has been slow due to complex geology associated with the facility. Elevated amounts of benzene and MTBE are present in several monitoring wells. All American is not aware of any leaks in USTs or lines and it is likely that the source of the contamination was a gasoline spill of that occurred several years ago as a result of negligence on the part of a fuel delivery driver. After complete characterization of the site and careful consideration of remediation options, Hydrocon Services proposed a remediation

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

program calling for the introduction of reagents to various wells on the facility. Chemical oxidation of the groundwater was completed during November and December of 2002. Upon completion of the March 2003 quarterly sampling, a Remedial Action Progress Report will be submitted to the Pennsylvania Department of Environmental Protection (DEP). In addition, a Remedial Action Completion Report for the property specifying the selection of a site specific standard via pathway elimination was submitted in May 2003. A deed restriction regarding the placement of water wells within the site area will be placed on the property and a post remediation care plan will be instituted. This post remediation care plan will include groundwater sampling and assuring the DEP that no water supply wells are installed across State Route 22/322.

CARLISLE ALL AMERICAN (FORMERLY KNOWN AS CARLISLE TRUCK PLAZA)

Carlisle All American has five registered USTs, of which only three are currently used for the storage of diesel fuel. In July, 2001, a line leak detector alerted management to a possible leak. A problem with supply lines was identified and piping was removed from service. Contaminated soils were stored on site and the piping was disposed of. In October, 2002 the possibility of a leak in another line was noticed and subsequent pressure testing of the line confirmed the presence of a leak. Product from the suspect lines was blown back into the tanks and certain pumps, lines and tanks have been put out of service. Product from the two unused tanks was pumped into tanks currently in use. No repairs or removal of soil and lines has been done relative to this latest failure.

CARLISLE SOCO ALL AMERICAN TRUCK STOP

In November 1999, a 1,000 gallon waste oil UST was removed from the area outside of the former truck repair building and an adjacent 3,000 gallon heating oil UST was removed in April of 2002. Although no soil contamination was evident, further soil testing revealed elevated levels of lead in the area of the waste oil UST, which prompted further delineation for possible groundwater

50

contamination. All American engaged Hydrocon Services to characterize and remediate this facility. One of six monitoring wells did produce slightly elevated levels of naphthalene above the statewide health standard. A claim was submitted to USTIF for coverage of characterization and remediation costs. The claim has been accepted at 85% reimbursement and quarterly sampling events for the following eight consecutive quarters have been conducted. No actual remediation of groundwater has occurred because the statewide health standard has been achieved. AAP received a relief of liability letter from the DEP dated February 4, 2003 for groundwater contamination at the site. A post remedial care plan will be initiated which will consist of measuring each onsite monitoring well (MW-1 through MW-6) biannually for free product. If at the end of two years, no free product is identified in the downgradient wells (MW-2 through MW-6) and no additional releases occur, the monitoring wells will be closed and the post remedial care plan will be completed.

FRYSTOWN ALL AMERICAN

Frystown All American has 10 USTs in use, seven of which are used for the storage of usable products and three of which are part of oil/water separation systems. The facility also contains several above-ground propane tanks and ASTs used for the storage of motor oil. Frystown All American is subject to an ongoing groundwater cleanup program that started in 1998 when the old tanks and fuel islands were replaced. USTIF has accepted the claim and is covering 100% of the clean up costs. The site characterization, remedial action

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

plan and clean up are being handled by Hafer Environmental Services. The contamination has been traced to line leaks that occurred in the old fuel islands and it is also believed that a heating oil tank replaced in the early 1990's was an additional source of contamination. A groundwater remediation system was approved by DEP in 2001 and was put into operation in early 2002. The system draws groundwater from four different wells onsite, filters out contaminants and discharges clean water to a wetlands area on the west end of the property. The duration of the cleanup process is not known at this time because the remediation system has not been operating long enough to adequately measure results.

HARRISBURG GABLES

Harrisburg Gables has five USTs, each of which is in use. Harrisburg Gables has been identified as having petroleum contamination and Hydrocon Services has been handling the characterization and remediation of the property. The suspected source of the contamination is from old tanks removed in 1991, but is also possibly from runoff resulting from spills that occurred in the truck fueling operation. A Phase I study completed in early 2001 revealed that the DEP never issued any final closure relative to the contamination that occurred in 1991. Even though quarterly sampling events in 1991, 1992, 1993 indicated that groundwater was free from contaminants, the DEP required AAP to perform additional testing in 2001 before it would close the matter. New monitoring wells were drilled in 2001 and MTBE contamination was identified. A Site Characterization Report was submitted to DEP in January 2002. In May 2002, additional monitoring wells were drilled and tested. Hydrocon is presently preparing a Remedial Action Completion Report for submittal to the DEP. AAP has chosen to demonstrate attainment of the site specific standard via pathway elimination for site groundwater. A deed restriction will be placed on the property prohibiting groundwater access. Hydrocon anticipates having this report submitted to DEP by mid-March of 2003. Following submittal, the DEP has 90 days to review and comment on this report. [

DOSWELL ALL AMERICAN

At one time, a portion of the Doswell All American facility housed an ethanol manufacturing plant. In December 1997, ECS, Ltd. completed the removal of 12 USTs that were used at the ethanol plant. The removal was uneventful in terms of the contamination and in March 1998 a complete closure report was generated by ECS recommending permanent closure with no further action required. In August 2001, under guidelines of ECS, a subcontractor was hired by AAP to remove asbestos linings from three boilers on the facility. All asbestos removal has been completed.

In the last year, this location has had three different issues that required environmental oversight and remediation. The first involved what police and environmental experts feel was an act of vandalism, when an unknown person intentionally dumped some type of used petroleum product into a storm water retention pond on the property. The pond is designed to retain this type of pollutant that occurs from normal parking lot run-off, but the volume of product introduced did require additional expertise and expense to properly control and dispose of the contamination. Cleanup is complete from this incident and there will be no long term impact to the site.

The second incident involved a tanker truck flipping over while turning into our parking lot and spilling a significant portion of its load of diesel fuel. This spill was mostly contained in the asphalt parking lot, but some product did reach a storm sewer that drains to the aforementioned retention pond. Once again, environmental cleanup specialists were brought in due the magnitude of the spill. Cleanup is complete and the cost of such was borne by the company that owned the tanker.

The third area of environmental concern also involves runoff of petroleum product into the retention pond. Several sources of the diesel fuel were suspected, such as the underground lines, transfer that house pumps and the Oil/Water ("O/W") separator. One by one, the sources were checked for tightness and found to be compliant, with the exception of the O/W separator. It was determined that it had a crack that allows groundwater to fill the separator, thereby causing any petroleum runoff to go straight to the retention pond. Our environmental consultants are currently seeking bids to replace the malfunctioning O/W separator and will continue to carefully monitor the situation. No long term or expensive environmental impact is anticipated from this area of concern.

FORMER CARLISLE ALL AMERICAN TRUCK PLAZA

Although Carlisle All American Truck Plaza facility was conveyed by All American to Petro Stopping Centers, L.P. in October, 2000, All American has agreed to complete the clean up of soils and groundwater at the site, which is contaminated with elevated levels of BTEX constituents and MTBE. A claim was submitted and approved by USTIF for 100% coverage with respect to site characterization and cleanup costs associated with the property. Site characterization activities identified the leaking onsite systems which systems have been removed along with contaminated media. DEP has issued a relief of liability letter for soils based upon the site cleanup activities. With respect to groundwater contamination, All American is presently negotiating with adjoining property owners for the placement of deed restrictions prohibiting groundwater access on their properties. A Site Characterization Report Addendum will be submitted to DEP in the near future in conjunction with a cost benefit analysis for USTIF (active remediation/statewide health standards versus deed restrictions/site specific standard).

RELATED PARTY TRANSACTIONS

On December 15, 2004, All American purchased 1,007,300 shares of our common stock, which as of the date of this proxy statement, constitutes, approximately 38% of our issued and outstanding common stock.

In connection with two loans entered into by the Company in May 2005, fees in the amount of \$167,500 were originally paid to Unison Capital Corporation, a company owned by Frank Nocito, the our Vice President Business Development. Mr. Nocito is also Vice President of All American Plazas, Inc., our largest shareholder. Subsequent to the payments being made and based on discussions with Unison Capital Corporation, such \$167,500 was deemed inappropriate payment to a related party and Unison Capital Corporation agreed to reimburse this amount to the us over a twelve month period beginning in October 2005.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF ALL AMERICAN (FOR TWELVE MONTHS ENDED SEPTEMBER 30, 2004, COMPARED TO PREVIOUS PERIOD)

All American reported revenues of \$131,017,165 for the twelve months ended September 30, 2004, which was an increase of \$6,621,675 over the prior years revenues of \$124,395,490. This increase can be attributed to significantly higher prices for refined distillates, as a result of the increased commodity prices in the world oil markets. Gallons of diesel fuel sold actually declined by 1,367,911, due to the closing of the Carlisle Truck Plaza ("CTP") in January, 2004. CTP sold 2,616,471 gallons of diesel fuel in FYE 9/30/03, but only 543,023 gallons in the FYE 9/30/04. Gasoline volume decreased companywide by 5.4%, or

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

314,322 gallons. Volume in other areas of the operation increased a total of \$1,382,000...up 5.6% in the stores, up 8.8% in the garages and up 2.8% in the restaurants.

Gross Profit Margin, as a percentage of revenues, declined by 1.79%. Total dollar gross profit decreased from \$19,871,429 for the twelve months ended 9/30/03, to \$18,571,710 for the twelve months ended 9/30/04, a total decline of \$1,299,719. The reduction in Gross Profit resulting from the closing of CTP was \$967,292. It should also be noted that a Mechanics Labor was classified differently from year-to-year, resulting in a drop in the reported gross profit of \$1,313,522. In prior years, the accountants had subtracted Mechanics Labor from Cost of Goods, thereby increasing Gross Profit. It was re-classed into Wages. Overall gross profit dollars from continuing operations increased by approx. \$940,000, with increases being realized across all departments, fuel islands, stores, restaurants and garages.

Operating expenses decreased by \$2,623,236 from year-to-year, \$924,396 of this decrease a result of the discontinued operations at CTP, and another \$1,240,630 of the decrease due to the change in accounting treatment noted above, Operating Expenses from continuing operations did decline \$458,210. Most of these savings were realized in Health Insurance costs, where employees are sharing a greater burden of the cost, and Workers Compensation Insurance, because of a significant reduction in the experience modification factor for the year.

General and Administrative Expenses increased by \$29,833 from year-to-year. Savings were realized in personnel and utilities, when the corporate office was consolidated into one location, but they were offset by significant increases in Professional Fees and Amortization. The large Professional fees are legal and accounting costs associated with the stock sale that was consummated early in the year, and the increased Amortization is related to loan fees that were charged on various financing activities.

52

Income from Operations improved to \$509,673 for the twelve months ended 9/30/04, compared to a loss of (\$408,666) for the twelve months ended 9/30/03. The improvement lies primarily in the gross profit increases and operating expense decreases noted above. Interest Expense declined by \$45,933 during the year, as long term debt continues to amortize. Sources of Other Income are also declining, primarily due to local and state authorities continued enforcement of laws that preclude certain games of chance. The Net Income of \$300,160 for the FYE 9/30/04 was a significant improvement over the Loss of (\$901,266) reported the prior year.

LIQUIDITY AND CAPITAL RESOURCES

All American's cash position decreased from \$2,068,104 at 9/30/03, to \$1,792,588 at 9/30/04. In addition to the increased debt that is being serviced as a result of the sale of the company in October, 2003, cash has been used to support the operations of affiliated truckstops in Belmont, NY, Carneys Point, NJ and Strattanville, PA. When taken over, these locations were suffering operational losses and a significant amount of cash was expended to bring suppliers current. Cash had also been expended in the form of a \$200,000 deposit for the purchase of shares of a New Jersey based heating oil dealer, and \$130,000 had been spent to date on a motel renovation project in Doswell, VA. Due to the lack of capital improvements the prior fiscal year, there was also a need for expenditures for repairs at several locations. The largest of these items was for parking lot repairs, which was almost \$300,000 for the year spread across four locations. There were no new loans during the year that provided

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

funding to All American. The primary source of working capital came from our main fuel supplier, who extended an additional five days payment terms, which equates to over \$1MM in additional cash flow.

STOCK SALE COMPLETED ON OCTOBER 3, 2003

All outstanding shares of stock were acquired by All American Industries Corp ("AAI"), the nominee for Chelednik Family Trust. The terms of the purchase called for \$4,000,000 to be paid to former shareholders at closing and the balance of \$7,197,272 to be paid over an eight year period. The Note held by the sellers is collateralized by a second lien on certain company owned real estate. The Note is interest free for six months and bears interest at 8% thereafter. A second lump sum payment of \$3,000,000 was due on September 30, 2004 and then monthly payments of principal and interest were to begin and be made for the next seven years. The lump sum payment was not made as due and the payment was extended until December 1, 2005.

In 1991, All American had established an Employee Stock Ownership Plan ("ESOP") covering full-time employees. The ESOP owned 10.38% of the company stock at the time of the sale. After closing costs charged to the former shareholders, the ESOP received \$273,338 at closing, which has been placed into an escrow account by the trustee. The ESOP cannot be terminated until the shareholders are fully funded, therefore it is anticipated that the ESOP will receive full payment of the \$721,876 due it when the second lump payment is paid.

Related to the transaction, AAI obtained a loan in the amount of \$6,000,000, which is collateralized by certain real estate of ALL AMERICAN. In addition to the \$4,000,000 paid to former shareholders at closing, proceeds of this loan were used to satisfy certain obligations of AAI, which included loan fees and legal costs associated with the stock acquisition.

POST ACQUISITION - FOCUS ON OPERATIONAL IMPROVEMENTS

After the acquisition, a new management team was assembled with a mission to improve bottom line profitability. Roger Roberts, VP of Operations, who has several years of experience in the operation of truck stops, convenience stores and restaurants, was brought in and immediately started to make changes to improve gross profit margins. In our stores, pricing was analyzed and made consistent across the company, better inventory controls were put in place to deter theft and monitor par levels, and several new suppliers were brought in to bid for our business. All stores were reset to be more appealing and increase sales. Pricing in All American's restaurants was analyzed and a new menu produced to improve the offering and the bottom line.

All managers have been challenged to reduce expenditures where they can, especially in labor and supplies. In some cases, physical changes to location layout have been made to allow locations to consolidate and reduce the number of cashiers. They have been asked to bid all of their contracts for services, such as equipment repairs, refuse disposal etc. One expenditure that keeps growing by about 10% each year is health insurance. Effective January 1, 2004, the sharing of monthly premiums was modified, so that employees bear a greater share of the cost, and hopefully a greater awareness of their health care.

In August, 2004 a new, companywide inspection program was implemented to improve the overall cleanliness of All American's sites. Periodic inspections are performed by our operational directors, who now have some oversight and input into all

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

phases of the operation. A re-alignment of directors responsibilities also took place, to better take advantage of the strengths of our personnel.

CARLISLE PRESENCE IS REDUCED

As part of the overall effort to boost the bottom line, management made the decision to close down two sites in Carlisle that were coming to the end of leases. The corporate office that housed several departments, including Accounts Receivable, Human resources and Claims management were moved and consolidated to the Frystown location. There were several employees who decided not to commute to Frystown, which allowed positions to be eliminated and consolidated, resulting in a significant labor savings, in addition to the rent, utilities, etc. Estimated savings are at least \$80,000 annually from the closure of this office.

A tougher call was the closing of the Carlisle Truck Plaza, which the company had operated for twenty years. The location had experienced declining sales since 1995 when Flying J opened their Carlisle site, and the slide continued when Pilot opened in 1998 and Petro opened in 2001. Consolidation in the trucking industry had also taken several customers from the site, whose diesel volume was over 600,000 gallons per month in 1994, but had dropped to around 200,000 gallons per month in the last full year of operation. A once profitable location was now losing about \$25,000 per month. Several steps had been taken to downsize and cut costs, but all proved futile in the end. The lease actually terminated on July 31, 2004, but the decision was made to close the operation in January, 2004, to reduce the losses. It also allowed us the opportunity to have all UST's removed and be off the site by the end of the lease.

STRATTANVILLE, PA COMES ON BOARD

In April, 2004, All American assumed the operation of the Keystone Shortway Travel Plaza on Route 80 in Pennsylvania. It is a well maintained site that adds a quality stop to our network and offers additional opportunities due to vacant property that can be sold or developed. Several operational improvements have been made at the site and they have adopted the All American name and menu to attract business. Under the Agreement, All American has agreed to operate the site for a specified time period with the option to acquire the site at a predetermined price.

(a) by either the Buyer or the Company if a material Breach of any representation, warranty or obligation contained in this Agreement has been committed

A-29

by the other party and such Breach has not been waived or, to the extent the Breach is of the nature which can be cured, not cured within thirty (30) days of written notice of such Breach by the other parties;

(b) (i) by the Buyer if any of the conditions in Section 7 has not been satisfied as of the Closing Date or if satisfaction of such a condition is or becomes impossible (other than through the failure of the Buyer to comply with its obligations under this Agreement) and the Buyer has not waived such condition on or before the Closing Date; or (ii) by the Company, if any of the conditions in Section 8 has not been satisfied as of the Closing Date or if satisfaction of such a condition is or becomes impossible (other than through the failure of the Company to comply with their obligations under this Agreement) and the Company has not waived such condition on or before the Closing Date; or

(c) by mutual consent of the Buyer and the Company.

A party seeking to exercise the rights provided in Section 9.1(a) shall so notify the other party within fifteen (15) days after obtaining Knowledge of the facts, events or circumstances giving rise to the right to terminate, but no later than the Closing Date. In any other case provided for in this Section 9.1, termination may be effected by written notice to the other parties before or at Closing.

9.2 EFFECT OF TERMINATION; LIQUIDATED DAMAGES If this Agreement is terminated pursuant to Section 9.1(a) or 9.1(b) as a result of a Breach (it being understood that a failure of a condition shall not be considered a Breach unless it is caused by a party's breach of its representations and warranties, or other obligations, under this Agreement), this Agreement will terminate, except that sections 12.1 and 12.3 will survive.

ARTICLE X. INDEMNIFICATION; REMEDIES

10.1 SURVIVAL All representations, warranties, covenants, and obligations in this Agreement will survive the Closing, provided that all representations and warranties of the parties shall expire two (2) years after the Closing, relating to title to the Assets, which shall survive indefinitely, Section 3.9, relating to environmental matters, which shall survive for three (3) years, and Section 3.10, relating to taxes, which shall survive until

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

expiration of the applicable statute of limitations), subject to the provisions of Sections 10.4 and 10.5. Neither party shall have any right to indemnification, payment of Damages or other remedy after the Closing based on any inaccuracy or breach of such representations, warranties, covenants, or obligations of which the injured party had any knowledge before the Closing Date, the injured party's sole remedy in such case being to terminate this Agreement and to decline to close pursuant to Section 9.1(a) and, if applicable, to receive the compensation as described in Section 9(2). The waiver of any condition based on the accuracy of any representation or warranty, or on the performance of or compliance with any covenant or obligation, will bar any right to indemnification, payment of Damages, or other remedy based on such representations, warranties, covenants, and obligations.

A-30

10.2 INDEMNIFICATION AND PAYMENT OF DAMAGES BY THE COMPANY

Subject to the limitations of Sections 10.1, 10.4 and 10.5, if the Closing has occurred, the Company will indemnify and hold harmless the Buyer and its officers, directors, affiliates or agents (collectively, the "INDEMNIFIED PERSONS") for, and will pay to the Indemnified Persons the amount of, any loss, liability, claim, damage (including incidental and consequential damages), expense (including costs of investigation and defense and reasonable, documented attorneys' fees of outside counsel) whether or not involving a third-party claim (collectively, "DAMAGES"), arising, directly or indirectly, from or in connection with: (a) any Breach of any representation, warranty, covenant or obligation of the Company in this Agreement; or (b) any claim by any Person for brokerage or finder's fees or commissions or similar payments based upon any agreement or understanding alleged to have been made by any such Person with or the Company (or any Person acting on their behalf) in connection with any of the Contemplated Transactions.

10.3 INDEMNIFICATION AND PAYMENT OF DAMAGES BY THE BUYER Subject to the limitations of Sections 10.1, 10.4 and 10.5, the Buyer will indemnify and hold harmless the Company and its successors and assigns, and will pay to the Company, and its successors and assigns, the amount of any Damages arising, directly or indirectly, from or in connection with (a) any Breach of any representation, warranty, covenant or obligation of the Buyer in this Agreement, or in any certificate delivered by the Buyer pursuant to this Agreement, or (b) any claim by any Person for brokerage or finder's fees or commissions or similar payments based upon any agreement or understanding alleged to have been made by such Person with the Buyer (or any Person acting on its behalf) in connection with any of the Contemplated Transactions.

10.4 LIMITATIONS If the Closing occurs, the Company will have no liability (for indemnification or otherwise) with respect to any representation or warranty, unless on or before the date which is two years from the Closing Date (or, in the case of Section 3.9, three years from the Closing Date), the Buyer notifies the Company of a claim specifying the factual basis of that claim in reasonable detail to the extent then known by the Buyer. A claim pursuant to Section 3.10, shall be made no more than six (6) months after the Buyer obtains Knowledge of the same, but in no event after the expiration of the applicable statute of limitations. Any claims made pursuant to this Section 10.4 shall be deemed a "Claim".

10.5 LIMITATIONS ON AMOUNT -- THE COMPANY

(a) The Company will have no liability (for indemnification or otherwise) with respect to the matters described in Section 10.2 until the total of all Damages with respect to such matters exceeds 1%

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

of the Purchase Price and then only for the amount by which such Damages exceed such amount.

(b) Notwithstanding any other provision of this Agreement or any other document, the maximum aggregate liability of the Company under this Agreement shall be fifty percent (50%) of the cash equivalent amount of the Purchase Price.

(c) The Company's liability hereunder shall be further reduced to the extent (i) the loss, event, liability or matter giving rise thereto is covered by insurance maintained

A-31

or required to be maintained by the Company or the Buyer; (ii) the loss, event, liability or matter giving rise thereto is reimbursable through government programs, including but not limited to Underground Storage Tank Indemnification Fund; and (iii) the loss, event, liability or matter giving rise thereto provides the Buyer or the Company with any reduction in taxes or other operating costs or any other economic benefit.

10.6 LIMITATIONS ON AMOUNT--THE BUYER

(a) The Buyer will have no liability (for indemnification or otherwise) with respect to the matters described in clause of Section 10.3 until the total of all Damages with respect to such matters exceeds 1% of the Purchase Price, and then only for the amount by which such Damages exceed such amount. However, this Section 10.6 will not apply to any claim against the Buyer based on failure to pay the Purchase Price.

(b) The maximum liability of the Buyer under this Section 10.6 shall be fifty percent (50%) of the amount of the Purchase Price paid by the Buyer.

10.7 PROCEDURE FOR INDEMNIFICATION--THIRD PARTY CLAIMS

(a) Promptly after receipt by a party of notice of the commencement of any Proceeding against it against which that party is entitled to indemnity under Sections 10.2 or 10.3, such indemnified party will, if it intends to make a claim against an indemnifying party under such Section, give notice to the indemnifying party of the commencement of such claim within 30 (thirty) days of receipt of notice, but the failure to notify the indemnifying party will not relieve the indemnifying party of any liability that it may have to any indemnified party, except to the extent that the indemnifying party demonstrates that the defense of such action is prejudiced by the indemnifying party's failure to give such notice. The indemnified party shall keep the indemnifying party informed with respect to any significant developments with respect to such Proceeding, answer any questions the indemnifying party or its or their representatives may have from time to time with respect thereto and give all reasonable cooperation to the indemnifying necessary to investigate and defend such Proceeding.

(b) If any Proceeding referred to in subsection (a) of this Section is brought against an indemnified party and it gives notice to the indemnifying party of the commencement of such Proceeding, the indemnifying party will be entitled to participate in such Proceeding and, to the extent that it wishes (unless (i) the indemnifying party is also a party to such Proceeding and the indemnified party determines in

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

good faith that joint representation would be inappropriate, or (ii) the indemnifying party fails to provide reasonable assurance to the indemnified party of its financial capacity to defend such Proceeding and provide indemnification with respect to such Proceeding), to assume the defense of such Proceeding with counsel reasonably satisfactory to the indemnified party . After notice from the indemnifying party to the indemnified party of its election to assume the defense of such Proceeding, the indemnifying party will not, as long as it diligently conducts such defense, be liable to the indemnified party for any fees of other counsel or any other expenses with respect to the defense of such Proceeding, in each

A-32

case subsequently incurred by the indemnified party in connection with the defense of such Proceeding, other than reasonable costs of investigation. The indemnifying party may, however, assume the defense of a Proceeding while reserving expressly all rights to deny that the claims made in that Proceeding are within the scope of and subject to indemnification in which case (i) the indemnified party may participate in the defense thereof, at the expense of the indemnifying party using counsel of the indemnified party's choosing, (ii) no compromise or settlement of such claims may be effected by the indemnifying party without the indemnified party's consent unless (A) there is no finding or admission of any violation of Legal Requirements or any violation of the rights of any Person and no effect on any other claims that may be made against the indemnified party, and (B) the sole relief provided is monetary damages that are paid in full by the indemnifying party; and (iii) the indemnified party will have no liability with respect to any compromise or settlement of such claims effected without its consent. If notice is given to an indemnifying party of the commencement of any Proceeding and the indemnifying party does not, within ten days after the indemnified party's notice is given, give notice to the indemnified party of its election to assume the defense of such Proceeding, the indemnifying party will be bound by any determination made in such Proceeding or any compromise or settlement effected by the indemnified party.

(c) Notwithstanding the foregoing, if an indemnified party determines in good faith that there is a reasonable probability that a Proceeding may adversely affect it or its affiliates other than as a result of monetary damages for which it would be entitled to indemnification under this Agreement, the indemnified party may, by notice to the indemnifying party, assume the exclusive right to defend, compromise, or settle such Proceeding, but the indemnifying party will not be bound by any determination of a Proceeding so defended or any compromise or settlement effected without its consent.

(d) Section 12.5 hereof shall govern jurisdiction over disputes under this Article X.

10.8 PROCEDURE FOR INDEMNIFICATION--OTHER CLAIMS A claim for indemnification for any matter not involving a third-party claim may be asserted by notice to the party from whom indemnification is sought.

10.9 EXCLUSIVE REMEDY If Closing occurs, a claim for Indemnifiable Damages pursuant to this Article shall be the indemnified party's sole and exclusive remedy with respect to any Breach of representation or warranty, or covenant in this Agreement, or any other Transaction Document regardless whether such claim arises in contract, tort, breach of warranty or any other legal or

equitable theory; provided that the rights and limitations of this Article X shall not apply to any claim for failure to pay the Purchase Price or for breach of any affirmative or negative covenant under this or any other agreement related hereto that occurs after Closing, and the parties shall retain all rights and remedies available hereunder or under applicable law for such breach, subject to any express limits on such remedies contained in the applicable agreement. The Buyer shall be entitled to exercise its rights of set-off set forth in Section 10.7 with respect thereto as provided in that section.

A-33

ARTICLE XI. POST-CLOSING COVENANTS

11.1 COOPERATION The parties will cooperate with and provide such further assurances to each other as are reasonably necessary or requested to perfect (of record or otherwise) and, to the extent possible, effectively vest the Buyer's title to the Assets, aid in the prosecution, defense, or other action regarding litigation of any rights arising from or affecting title to the Assets, and assist in making a smooth transition in ownership of the Assets from the Company to the Buyer at each party's own expense. The Company, upon reasonable notice, shall be permitted to have access to the records transferred to the Buyer as provided in this Agreement at no charge to the Company.

11.2 TREATMENT OF CONFIDENTIAL INFORMATION

(a) The Company acknowledges that it may have had in the past, and in the future may have, access to confidential information of the Company and the Buyer. The Company agrees that it will keep confidential all such confidential information and, except with the specific prior written consent of the Buyer, will not disclose such confidential information to any person except; (i) representatives of the Buyer, or (ii) its own representatives, provided that such representatives (other than counsel) agree to the confidentiality provisions of this Section. Confidential information shall not include (A) such information that becomes known to the public generally through no fault of the Company, (B) information required to be disclosed by the terms of this Agreement or by law or the order of any governmental authority under color of law, provided that prior to disclosing any information pursuant to this clause (B), the Company shall, if possible, give prior written notice thereof to the Buyer and provide the Buyer with the opportunity to contest such disclosure, or (C) such information that the disclosing party reasonably believes is required to be disclosed in connection with the defense of a lawsuit against the disclosing party. Because of the difficulty of measuring the economic loss that may be incurred as a result of the breach of the covenants above, and because of the immediate and irreparable damage that would be caused for which the injured party would have no other adequate remedy, the Company agrees that the Buyer and/or the Company may enforce the provisions of this section by injunctions and restraining orders against any of them who breaches any of these provisions. Nothing herein shall be construed as prohibiting the Buyer from pursuing any other remedy available at law or in equity for such breach or threatened breach, including the recovery of damages, subject to the limitations of Article 10. The Company understands and acknowledges that certain of its shareholders may have during the course of negotiating the transactions contemplated by this Agreement, acquired confidential information of the Buyer, and the Company agrees to use its best efforts to cause such shareholders to sign confidentiality agreements in favor of the Buyer in a manner no less restrictive as set forth in this Agreement.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

(b) Because of the difficulty of measuring the economic loss that may be incurred as a result of the breach of the covenant above, and because of the immediate and irreparable damage that would be caused for which the injured party would have no other adequate remedy, the Buyer agrees that the Company may enforce the provisions of this section by specific performance.

A-34

(c) The obligations of the parties under this Section 11.2 shall survive the termination of this Agreement.

11.3 PREPARATION OF TAX RETURNS The Company agree to prepare and execute applicable tax returns for the Company for any interim or stub period. The Buyer agrees not to amend or otherwise change any tax return for any period ending prior to the Closing Date, or otherwise make any election or similar accounting method change that would have the effect of retroactively increasing the Company's tax liability without obtaining prior written consent from the Company.

11.4 EMPLOYMENT ARRANGEMENTS

(a) From and after the Closing Date, the Buyer shall use its Best Efforts to retain a majority of the present full-time employees of the Company at such employee's current position (or, if offered to, and accepted by an employee, a position for which the employee is qualified with the Buyer or a Subsidiary of the Buyer at a salary commensurate with the position), and pay compensation to each person who was employed as of the Closing Date and who continues to be employed by the Company on or after the Closing Date, that is at least equal to the aggregate compensation that such person was receiving from the Company prior to the Closing Date.

(b) For vesting and eligibility purposes for employee benefits under each Company Benefit Plan and/or any employee benefit plan established by the Buyer after the Closing Date, employees and/or directors, former employees and directors, if applicable, of the Company shall receive credit for years of service with the Company.

11.5 NO SECTION 338 ELECTION The Buyer shall not make an election under Section 338(h)(10) of the Internal Revenue Code of 1986, as amended, or any applicable analogous provision of state or local law, in connection with the Contemplated Transactions.

ARTICLE XII. GENERAL PROVISIONS

12.1 EXPENSES Except as otherwise expressly provided in this Agreement each party to this Agreement will bear its respective expenses incurred in connection with the preparation, execution, and performance of this Agreement and the Contemplated Transactions, including all fees and expenses of agents, representatives, counsel, and accountants. For purposes of the foregoing, the Company's expenses shall include only those expenses incurred by Sellers after March 30, 2005. In the event of termination of this Agreement, the obligation of each party to pay its own expenses will be subject to any rights of such party expressly provided herein arising from a breach of this Agreement by another party.

12.2 PUBLIC ANNOUNCEMENTS; FILINGS Any public announcement or similar publicity with respect to this Agreement or the Contemplated Transactions will be issued at such time and in such manner as the Buyer determines based upon the

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Buyer's requirements as a publicly traded Company. Unless consented to by the Buyer and the Company in advance, the Company and the Buyer shall keep this Agreement strictly confidential and may not make any disclosure of

A-35

this Agreement to any Person. The Company and the Buyer will consult with each other concerning the means by which the Company's employees, customers, and suppliers and others having dealings with the Company will be informed of the Contemplated Transactions.

12.3 CONFIDENTIALITY

(a) Except as otherwise contemplated by this Agreement, between the date of this Agreement and the Closing Date, the Buyer and the Company will maintain in confidence, and will cause the directors, officers, employees, agents, and advisors of the Buyer and the Company to maintain in confidence any written, oral, or other information obtained in confidence from another party or the Company in connection with this Agreement or the Contemplated Transactions, unless (i) such information is already known to such party or to others not bound by a duty of confidentiality or such information becomes publicly available through no fault of such party, (ii) the use of such information is necessary or appropriate in making any filing or obtaining any consent or approval required for the consummation of the Contemplated Transactions, or (iii) the furnishing or use of such information is required by or necessary or appropriate in connection with legal proceedings.

(b) If the Contemplated Transactions are not consummated, each party will return or destroy as much of such written information as the other party may reasonably request.

12.4 NOTICES All notices, consents, waivers, and other communications under this Agreement must be in writing and will be deemed to have been duly given when (a) delivered by hand (with written confirmation of receipt), (b) sent by telecopier (with written confirmation of receipt), provided that a copy is mailed by registered mail, return receipt requested, or (c) when received by the addressee, if sent by a nationally recognized overnight delivery service (receipt requested), in each case to the appropriate addresses and telecopier numbers set forth below (or to such other addresses and telecopier numbers as a party may designate by notice to the other parties):

To the maximum extent permitted by applicable law, (x) no claim or right arising out of this Agreement or the documents referred to in this Agreement can be discharged by one party, in whole or in part, by a waiver or renunciation of the claim or right unless in writing signed by the other party; (y) no waiver that may be given by a party will be applicable except in the specific instance for which it is given; and (z) no notice to or demand on one party will be deemed to be a waiver of any obligation of such party or of the right of the party giving such notice or demand to take further action without notice or demand as provided in this Agreement or the documents referred to in this Agreement.

12.8 ENTIRE AGREEMENT AND MODIFICATION This Agreement supersedes all prior oral and written communications, information, disclosures, bid documents, and agreements between the parties with respect to its subject matter (including memoranda, draft term sheets and correspondence relating thereto) and constitutes (along with the Transaction Documents) a complete and exclusive statement of the terms of the agreement between the parties with respect

Nothing expressed or referred to in this Agreement will be construed to give any Person other than the parties to this Agreement (or their heirs, personal representatives, successors and permitted assigns) any legal or equitable right, remedy, or claim under or with respect to this Agreement or any provision of this Agreement. This Agreement and all of its provisions and conditions are for the sole and exclusive benefit of the parties to this Agreement and their heirs, personal representatives, successors and assigns.

12.11 SEVERABILITY If any provision of this Agreement is held invalid or unenforceable by any court of competent jurisdiction, the other provisions of this Agreement will remain in full force and effect. ALL AMERICAN PLAZAS, INC AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 SEPTEMBER 30, 2004

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS

All American Plazas, Inc. ("the Company") operates five full service travel plazas engaged in the retail sale of liquid fuels, truck service, sale of general merchandise, restaurant operations and lodging. The Company also operates three convenience stores and self-service fuel facilities. The Company offers standardized and consistent products and services to accommodate the varied needs of professional truck drivers and other motorists. Generally, these include separate gas and diesel fueling islands, truck maintenance and repair services, certified truck weighing scales, restaurants and travel and convenience stores offering an array of merchandise to cater to professional truck drivers and other motorists. The Company operates its facilities in Pennsylvania and Virginia. A significant portion of the Company's sales and receivables are with companies in the trucking industry. The Company has aggregated its services into one reportable operating segment based on the distribution of products and services under one common site facility.

BASIS OF CONSOLIDATION

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, AAP Delaware, Inc. and AAP Management, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

CASH EQUIVALENTS

For the purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

ACCOUNTS RECEIVABLE, LESS ALLOWANCE FOR DOUBTFUL ACCOUNTS

Trade receivables are stated at outstanding balances, less an allowance for doubtful accounts. The allowance for doubtful accounts is established through provisions charged against income. Accounts deemed uncollectible are charged against the allowance and subsequent recoveries, if any, are credited to the allowance. The allowance for doubtful accounts is maintained at a level considered adequate to provide for losses that can be reasonably anticipated. Management's periodic evaluation of the adequacy of the allowance is based on experience, aging of the receivables, adverse situations that may affect a customer's ability to pay, current economic conditions and other relevant factors. This evaluation is inherently subjective, as it requires estimates that may be susceptible to significant change.

INVENTORIES

Store groceries and merchandise inventory are stated at the lower of cost (determined on retail less markup basis) or market and all other inventories are stated at the lower of cost (determined on an average cost or first-in, first-out basis) or market. Inventories consist of liquid fuels, groceries and general merchandise.

ALL AMERICAN PLAZAS, INC AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FRANCHISES

The franchise fees are amortized on a straight-line basis over 5 to 20 years, the terms of the related agreements. Franchise fees totaling \$28,000 were incurred and added to other assets during the year. Fully amortized franchise fees no longer in service totaling \$84,000 were removed. Franchise fees totaling \$112,500 are included in current and long-term other assets, net of accumulated amortization of \$48,516 at September 30, 2004.

DEFERRED FINANCING COSTS

Deferred financing costs represent loan closing costs incurred by the Company to obtain financing. These costs are being amortized on a straight-line basis over the term the corresponding loan. During the year, the Company incurred costs totaling \$784,390. Deferred financing costs totaling \$1,126,384 are included in other assets, net of accumulated amortization of \$260,144 at September 30, 2004.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the following estimated useful lives:

	Years

Land improvements	7-20
Buildings and improvements	7-40
Equipment	3-5
Furniture and fixtures	5-7

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Vehicles	3
Leasehold improvements	7-15

Property and equipment includes the cost of additions and those improvements, which increase the capacity or lengthen the useful lives of the assets. Repairs and maintenance costs are expensed as incurred. Property retired or sold is removed from the assets and accumulated depreciation accounts and the resulting gain or loss is reflected in income.

ADVERTISING COSTS

The Company expenses all advertising costs as incurred. There are no capitalized advertising costs included in the balance sheet at September 30, 2004. Total advertising expenses included in the statement of operations for the year ended September 30, 2004 was \$347,896.

REVENUE RECOGNITION

Sales of the Company's full service travel plazas, convenience stores and self service fuel facilities are recognized at the time of sale or service.

MOTOR FUEL TAXES

The Company is charged motor fuel taxes by its fuel suppliers and these suppliers remit these taxes to governmental agencies. The Company then collects these taxes from consumers. These taxes were \$29,348,030 for the year ended September 30, 2004 and are included in net sales and cost of sales in the accompanying consolidated statement of operations.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk consist principally of cash balances in excess of the \$100,000 limit insured by the U.S. Federal Deposit Insurance Corporation and trade accounts receivable,

NOTE 4 - CHANGE IN OWNERSHIP

The Company's stockholders sold their ownership interest in the Company to All American Industries Corp ("AAI") the nominee for Sharon Chelednik ("Owner"). AAI agreed to purchase 100% of the issued and outstanding stock of AAP. In executing and delivering the stock purchase agreement, AAI acted solely as the agent and nominee of the Owner. The new owners have no relationship to the former owners.

The sellers sold, assigned and transferred their entire ownership interest in the Company to AAI on October 3, 2003. The purchase price was \$11,197,272. \$4,000,000 was paid at closing, and AAI provided a note to the sellers for \$7,197,272 for the balance. This promissory note is collateralized by, among other things, a second mortgage on certain real estate owned by the Company and is guaranteed by AAI and the Company. No interest is to be paid until the six-month anniversary of the note. This note bears interest at 8%. A payment for \$3,000,000 should have been made to the prior owners on September 30, 2004. Starting October 2004 AAI was to make the first of eighty-three equal monthly payments of principal and interest with respect to the remaining balance of the note based upon a 15-year amortization schedule. This note was amended to provide interest only payments to the prior owners on the outstanding principal balance of the promissory note on the first day of each month until December 1, 2005 when AAI will make a payment of \$3,000,000 to the prior owners. AAI will then make the first of eighty-three equal monthly payments of principal and interest with respect to the remaining balance of the note based upon a 15-year amortization schedule.

In addition, related to this transaction, AAI obtained \$6,000,000 in additional financing from PMJ Capital Corporation ("PMJ") on October 3, 2003, which was collateralized by a first mortgage on the real estate described above. This loan was personally guaranteed by the president of AAI. Repayment terms were interest only, payable monthly at 16% or \$80,000 for twelve months. The principal balance was due on October 2, 2004, but was not paid on this date. AAI continued to make interest payments in accordance with the PMJ loan agreements. The mortgage and any outstanding liabilities were satisfied as of April 19, 2005 and the mortgages on AAP property were discharged as collateral.

ABLE ENERGY, INC.

On December 15, 2004, Timothy Harrington, Chief Executive Officer of Able Energy, Inc. ("Able"), sold an aggregate of 1,007,300 shares of Able's common stock to the Company. The purchase price for the sale was \$7,500,000, of which \$2,750,000 was paid in cash and the Company issued promissory notes in the aggregate principal amount of \$4,750,000 to Mr. Harrington. For the first 12 months, only interest is payable to Mr. Harrington. Thereafter, principal and interest shall be payable on a monthly basis. In the event the Company and Able were to enter into any transaction pursuant to which the promissory notes become an obligation of Able and Able enters into a material financing transaction, the notes will become immediately due and payable. \$3,000,000 of the notes are secured by the personal guarantee of a family member of the trust which owns a majority of the stock of AAI (the "Guarantee"), and by a security interest in certain assets of the Company (the "Company Security"). All of the notes are secured by a pledge of the 1,007,300 shares of the Able's common stock (the "Pledge"). Upon the issuance of surety bonds guaranteeing the payment of the \$3,000,000 of notes, the Guarantee and the Company Security will terminate and the Pledge, by its terms, will cover only the \$1,750,000 note, which is not covered by a surety bond. The Company acquired approximately 50.03% of the total outstanding number of shares of common stock of Able and the 1,007,300 shares represent the Company's entire beneficial holdings in the Able. The Company financed the acquisition through its cash flow, with the assistance of its fuel supplier, TransMontaigne Product Services, Inc., that extended its credit line to the Company. The September 30, 2004 balance sheet of the Company includes a deposit on stock purchase of \$200,000 in accordance with the stock purchase agreement.

On June 16, 2005, Able entered into a Stock Purchase Agreement ("Purchase Agreement") with the shareholder of the Company ("Seller") in connection with the acquisition of the Company. At the closing, Able will deliver to the Sellers 11,666,667 shares of restricted common stock, par value \$.001 per share, at \$3.00 per share for an aggregate purchase price of \$35,000,000. In addition, at the closing, Able will deliver to certain of the Sellers a number of shares of restricted common stock equal to the number of shares of common stock owned by the Company as of the closing date. The Sellers have caused the Company to enter into a term sheet dated June 6, 2005 with a third party institutional lender to refinance the Company's debt and provide the Company with certain working capital. The term sheet provides that the loan will be in the amount of approximately \$35,000,000, at an interest rate of 30-day LIBOR plus spread (adjustable rate), which is equivalent to the Prime Rate + 1.75%, with a 25-year term and a 25-year amortization schedule. In the event that the Company completes such financing on or before

The Company has agreed to pay Crown a minimum fee of \$200,000 for the first 60 days of the agreement. Notwithstanding the foregoing, the Company will pay Crown a fee on January 15, 2005 equal to a per diem rate of .1666% applied to the initial advance for the period from the initial advance to January 15, 2005 in addition to \$10,000 for legal and travel expense associated with the transaction.

Crown requires the Company to keep funds at Horizon Capital Bank in excess of \$750,000 and to maintain a coverage ratio of 125%, defined as the sum of the amount of eligible accounts plus the amount of cash on deposit to the amount of outstanding advance. If the Company falls below this ratio, Crown may require the Company to repurchase accounts or make payments to Crown to reduce the amount of outstanding advance so the coverage ratio increases to 125%.

AVATAR INCOME FUND I, LLC AND AVATAR FUNDING GROUP, LLC

The Company obtained financing of \$6,450,000 from Avatar Income Fund I, LLC and \$2,050,000 from Avatar Funding Group, LLC ("Avatar") on April 14, 2005, which are collateralized by a first, second or third mortgage on certain real estate owned by the Company and are guaranteed by an officer of the Company. This financing was used to pay the \$6,000,000 AAI PMJ loan obligation included in Note 4 and the \$750,000 PMJ obligation of the Company included in Note 9. At closing the Company paid total closing fees of \$527,385 and any legal and inspection fees required for this refinancing. Repayment terms for these loans are interest only, payable monthly at the Wall Street Journal prime rate plus 7%, with a minimum rate of 11%, starting June 1, 2005. Unpaid principal and accrued interest is due on November 1, 2005, the maturity date. The Company has the option to extend these loans for an additional six months, providing there have been no defaults and the Company pays Avatar a 2% extension fee prior to the maturity date.

ALL AMERICAN PLAZAS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS

The Company operates six full service travel plazas engaged in the retail sale of liquid fuels, truck service, sale of general merchandise, restaurant operations and lodging. The Company also operates three convenience stores and self-service fuel facilities. The Company operates its facilities in Pennsylvania and Virginia. A significant portion of the Company's sales and receivables are with companies in the trucking industry.

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash in excess of F.D.I.C. limits and trade accounts receivable.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

BASIS OF CONSOLIDATION

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, AAP Delaware, Inc. and AAP Management, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS

For purposes of reporting cash flows, the Company considers all highly liquid instruments with a maturity of three months or less at the time of purchase to be cash equivalents.

TRADE RECEIVABLES

Trade receivables are stated at outstanding balances, less an allowance for doubtful accounts. The allowance for doubtful accounts is

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

established through provisions charged against income. Accounts deemed to be uncollectible are charged against the allowance and subsequent recoveries, if any, are credited to the allowance. The allowance for doubtful accounts is maintained at a level considered adequate to provide for losses that can be reasonably anticipated. Management's periodic evaluation of the adequacy of the allowance is based on past experience, agings of the receivables, adverse situations that may affect a customer's ability to pay, current economic conditions and other relevant factors. This evaluation is inherently subjective as it requires estimates that may be susceptible to significant change. Unpaid balances remaining after the stated payment terms are considered past due.

INVENTORIES

Store groceries and merchandise inventory are stated at the lower of cost (determined on a retail less markup basis) or market and all other inventories are stated at the lower of cost (determined on an average cost or first-in, first-out basis) or market. Inventories consist of liquid fuels, groceries and general merchandise.

(B-II) F-8

ALL AMERICAN PLAZAS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the following estimated useful lives:

	YEARS

Land improvements	7 - 20
Buildings and improvements	7 - 40
Equipment	3 - 5
Furniture and fixtures	5 - 7
Vehicles	3
Leasehold improvements	7 - 15

Property and equipment includes the cost of additions and those improvements which increase the capacity or lengthen the useful lives of the assets. Repairs and maintenance costs are expensed as incurred. Property retired or sold is removed from the assets and accumulated depreciation accounts and the resulting gain or loss is reflected in income.

FRANCHISES

The franchise fees are amortized on a straight-line basis over 5 to 20 years, the terms of the related agreements. Accumulated amortization at September 30, 2003 and 2002 is \$127,679 and \$123,513, respectively.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

DEFERRED FINANCING COSTS

The deferred financing costs are amortized on a straight-line basis over a period of 15 years, the term of the related loan. Accumulated amortization at September 30, 2003 and 2002 is \$127,188 and \$104,388, respectively.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ADVERTISING COSTS

The Company expenses all advertising costs as incurred. There are no capitalized advertising costs included in the balance sheets at September 30, 2003 and 2002. Total advertising expenses included in the statements of income for the years ended September 30, 2003 and 2002 was \$365,552 and \$399,345, respectively.

NOTE 3 - INVENTORIES

The composition of inventories at September 30, 2003 and 2002 is as follows:

	2003	2002
Store, restaurant and garage merchandise	\$1,617,411	\$1,566,530
Liquid fuels	562,859	515,619
Tires and tubes	523,096	491,408
Reserve for obsolescence	(30,000)	(30,000)
	-----	-----
	\$2,673,366	\$2,543,557
	-----	-----

NOTE 4 - IDLE PROPERTY AND EQUIPMENT

At September 30, 2002, the Company classified assets relating to its SOCO Travel Plaza and developed land at its Frystown location as property and equipment held for sale. The Company had removed its SOCO Travel Plaza from operations in a prior year. At September 30, 2002, the Company's management was

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

attempting to sell these properties. Generally accepted accounting principles at that time required the Company to classify these assets as held for sale. The assets' carrying amount was their net book value (original cost less accumulated depreciation) at the time they were removed from service less an adjustment down to market.

For the year ended September 30, 2003, FAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" became effective for, among other things, the treatment of assets held for sale. This new generally accepted accounting principle provides for additional requirements to be met in order for assets to be classified as held for sale. The Company did not meet all of these requirements at September 30, 2003 in order to classify the SOCO Travel Plaza and Frystown land assets as held for sale. Therefore, the Company has included these assets on the balance sheet as idle property and equipment. In the opinion of the Company's management, this property and equipment has a net realizable value which approximates or exceeds its carrying value.

See Note 15 for a restrictive covenant related to the SOCO Travel Plaza.

The Company's new owner (see Note 17) has not formalized its plans for the SOCO Travel Plaza location and the Frystown land.

NOTE 5 - LONG-TERM DEBT

Long-term debt consisted of the following as of September 30, 2003 and 2002:

	2003

Term loans to GMAC Commercial (GMACC), due in monthly payments of principal and interest ranging from \$40,868 to \$61,303. The notes bear interest at 9% and mature in July 2014.	\$ 8,424,553

Term loans to Ford Motor Credit due in monthly payments of principal and interest of \$1,840. The notes bear interest ranging from 2.9% to 3.9% and mature in February 2004.	3,845
Other	48,062

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Current portion	15,045,816 (874,225)
	\$14,171,591

The term loans with Bay View Bank and GMACC are collateralized by first liens and security interests on the real estate at the Milton, Clarks Ferry and Frystown locations, as well as these locations' equipment, personal property, inventory, cash proceeds, receivables and general intangibles.

In accordance with these loans, the Company must meet a minimum cash flow covenant, as defined, on a quarterly basis. At September 30, 2003 and for the fiscal year then ended, the Company was in violation of this covenant. The institutions, however, have consented on March 19 and April 27, 2004 to waive acceleration related to this covenant for the fiscal year ended September 30, 2003 through October 1, 2004.

On March 19, 2004, the Company entered into an agreement with Bay View Bank which, in addition to waiving financial covenants mentioned above, also modified the loan's repayment terms. This agreement required the Company to make a \$1,400,000 accelerated principal payment with the remaining principal being repaid in modified monthly payments with interest through June 2014. The agreement modified the interest rate to the higher of 4% above LIBOR or 6%, with the interest rate adjustment being made quarterly. The modified monthly payment, including interest at 6%, is approximately \$55,000.

To fund the \$1,400,000 accelerated principal payment to Bay View Bank, the Company obtained a new loan from Fundex Capital Corporation in the amount of \$2,100,000. Repayment terms are interest only, payable monthly at the Wall Street Journal prime rate plus 8.5%, with a minimum rate of 12.5% and a maximum rate as defined by the United States Small Business Administration. The principal balance is due in October 2005. The loan is collateralized by a second mortgage on the Milton location.

NOTE 6 - NOTE PAYABLE, LINE OF CREDIT

During 2003, the Company was party to a credit arrangement with a bank under which it was able to borrow up to \$1,250,000 with advances limited to 75% of qualified accounts receivable. The line was available through March 31, 2004 and was subject to renewal at that time. Interest was payable on amounts outstanding at prime plus 1%. In September 2003, the Company terminated the line of credit arrangement with the bank.

As of September 30, 2003, the Company has letters of credit in the amount of \$275,000 outstanding with one municipality and one vendor to ensure continued performance of the Company's sewage treatment facility and petroleum purchases. These letters are collateralized by certificates of deposit, which are reflected as restricted cash and cash equivalents as of September 30, 2003.

NOTE 8 - INCOME TAXES (CONTINUED)

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income. The net change in the valuation allowance for the years ended September 30, 2003 and 2002 was an increase of \$161,000 and \$90,000, respectively.

At September 30, 2003, the Company has state net operating loss carryforwards of approximately \$2,636,000 that expire at various times through 2013.

The provision for income tax benefits consisted of the following at September 30, 2003 and 2002:

	2003	2002
Federal:		
Current	(\$502,243)	(\$189,000)
Deferred	78,100	(21,200)
	(424,143)	(210,200)
State, deferred	24,100	(6,300)
	(\$400,043)	(\$216,500)

The income tax provision for 2003 and 2002 differs from that which would result from applying federal statutory tax rates to income before income taxes because a valuation allowance has been provided to reduce deferred tax assets to the amount that is more likely than not to be realized.

NOTE 9 - EMPLOYEE STOCK OWNERSHIP PLAN

Effective October 1, 1991, the Board of Directors adopted a resolution to establish an Employee Stock Ownership Plan (ESOP) covering a majority of its full-time employees. Under the Plan, the Company is permitted to make annual contributions to a trust for the benefit of eligible employees in the form of either cash or common shares of the Company. The Plan also permits a participant who is entitled to a distribution from the Plan to elect such distribution in the form of the Company's stock. If the participant makes such an election, the Company is required to repurchase such shares at their fair value. Payment can be made in the form of a lump sum payment or in equal annual installments in accordance with the Plan provisions.

NOTE 9 - EMPLOYEE STOCK OWNERSHIP PLAN (CONTINUED)

The Company is considering termination of its ESOP; however, no formal plan of termination has been adopted. In the event the Plan is terminated, participants' accounts would become 100% vested and the assets of the Plan would be distributed to the participants. The Company would be required to repurchase all outstanding shares at their fair value. As of September 30, 2003, the ESOP plan held 2,816.16 shares of the Company's Class A voting common stock. Subsequent to September 30, 2003, the ESOP sold these shares (see Note 17).

There were no contributions related to the Plan for the years ended September 30, 2003 and 2002.

NOTE 10 - DEFERRED COMPENSATION PLAN AND PURCHASE OF CLASS B NON-VOTING SHARES

Effective October 1, 1993, the Company adopted a deferred compensation arrangement for certain key employees. Under the Plan, participants receive units, which entitle the holder to deferred compensation measured by the estimated fair value of the Company's common stock. The number of units distributed to each participant is based on annual results of operations. The Company recognizes compensation expense immediately based on the estimated value of the outstanding units. Rights of active participants at the date the Plan was adopted vest immediately and any future participants' rights will vest ratably over a five-year period. Upon participants' termination of employment, payment is due in the form of ten equal annual installments, bearing interest. The liability under the Plan at September 30, 2003 and 2002 was \$90,733 and \$101,697, respectively. During 1998, two of the participating employees ended their employment with the Company and, during 2001, a third participating employee ended his employment. Amounts owed to these individuals are being paid in accordance with the terms of the Plan. Included in accrued expenses at September 30, 2003 and 2002 is \$10,964, and included in deferred compensation is \$79,769 and \$90,733, respectively.

NOTE 11 - OPERATING LEASES

The Company leases two truck stop facilities: Carlisle Texaco and Breezewood Petro. The Carlisle Texaco lease expires July 31, 2004. The Company does not plan on renewing this lease (see Note 17). The Breezewood Petro location has two lease agreements: one for the facilities and the second for a parking lot. The facilities lease expires on December 31, 2005 and has ten and eleven year options which would extend the lease through December 31, 2026. The parking lot lease expired on July 31, 2003. Management is currently negotiating a lease renewal which they expect will have a five year term with five year renewal options through 2028. Management expects the annual rent expense to be approximately \$100,000. No formal agreement has been signed to date. The Company also leases computer equipment.

NOTE 11 - OPERATING LEASES (CONTINUED)

The following is a schedule of future minimum lease payments required under noncancellable lease agreements; these payments do not include renewal options that are available with each of the leases:

Year ending September 30:	
2004	\$495,358
2005	366,000
2006	91,500

	\$952,858

The total rental expense included in the income statements under lease obligations for the years ended September 30, 2003 and 2002 was \$776,179 and \$762,246, respectively. Rental expense includes both amounts paid under noncancellable lease arrangements and month-to-month lease arrangements.

NOTE 12 - SIGNIFICANT ESTIMATES

WORKERS' COMPENSATION INSURANCE

During the years ended September 30, 1998 through 2003, the Company provided workers' compensation insurance under a premium only insurance policy for which premiums are based upon payroll, claim history and the associated risk factors. The Company recognizes expense in the accompanying statements of income based upon the insurance company's premiums.

During prior years, the Company provided workers' compensation insurance under a deductible/stop loss insurance policy for which premiums were based upon the actual payroll and amounts to settle the claims incurred in a given year. The total premium was subject to a ceiling based upon the aggregate deductible amount plus the cost of the stop loss insurance which covered all claims in excess of a deductible amount. The Company recognizes expense in the accompanying statements of income based upon: the insurance company's basic premiums, actual claims paid, estimated total reserves for open claims and adjustments for changes in estimates related to paid loss or retrospective insurance premiums which are based upon changes in incurred losses of outstanding claims. Actual results could differ from these estimates. During 2003 and 2002, the Company's estimate for liability under these prior year policies was reduced by approximately \$-0- and \$130,000, respectively, as a result of the claims outstanding at year end.

NOTE 12 - SIGNIFICANT ESTIMATES (CONTINUED)

ENVIRONMENTAL LIABILITY

At September 30, 2003, the Company has two locations where environment investigations and certain remediation procedures are ongoing. In addition, the Company is responsible for certain environmental remediation efforts at its former Carlisle All American location which was sold in October 2000. All three of these locations have been approved for coverage under the Pennsylvania Underground Storage Tank Indemnification Fund, which reimburses certain remediation costs. In addition, the Company has escrowed cash relating to the Carlisle All American location that would be available for future remediation costs for this location (see Note 15).

The nature and full extent of future clean up and remediation costs have been estimated but not yet fully determined. The Company's accrued liability, which represents its portion of estimated remediation costs, was \$50,000 and \$182,500 at September 30, 2003 and 2002, respectively. Due to the uncertainty of the total future remediation costs, the ultimate total cost could change in the coming year, as additional information becomes available.

NOTE 13 - COMMITMENTS

The Company has a fuel supply agreement which obligates it to purchase a significant portion of its diesel fuel from Petroleum Products Corporation (Petroleum) through June 14, 2005. The contract does not call for any fixed or minimum quantities. The agreement provides for pricing based on the average daily prices of the four lowest posted prices of major suppliers.

The Company entered into franchise agreements with Petro Stopping Centers, L.P. (Petro) for its Breezewood and Milton locations during 1998. In accordance with these agreements, royalties are due to Petro based upon base year sales. During the first three years of the agreements, percentages of base year sales are to be excluded from royalties in the amounts of 100%, 35% and 15%, respectively, with 0% excluded in the fourth year and thereafter. For the years ended September 30, 2003 and 2002, these royalty expenses totaled approximately \$400,000 and \$408,000, respectively.

NOTE 14 - CONTINGENCIES

The Company is currently, and is from time-to-time, subject to claims and suits arising in the ordinary course of its business. In certain such actions, plaintiffs request punitive or other damages or non monetary relief, which may not be covered by insurance. The Company accrues for potential liabilities involved in these matters as they become known and can be reasonably estimated. In the Company's opinion, the various asserted claims and litigation in which the Company is currently involved are not reasonably likely to have a material adverse effect on the Company's operations or financial position. However, no assurance can be given as to the ultimate outcome with respect to such claims and litigation. The resolution of such claims and litigation could be material to the Company's operating results.

NOTE 15 - RESTRICTIVE COVENANT AGREEMENT AND ESCROWED CASH

When the Company sold its Carlisle All American location on October 2, 2000, it entered into a Restrictive Covenant Agreement. The terms of this agreement place certain restrictions upon future uses of the Company's Carlisle Gables and SOCO locations should ownership change hands.

In accordance with the requirements of the sale agreement for the Carlisle All American location, \$500,000 of the purchase price was placed into an escrow account. The release of these funds is contingent upon the Company's completion of the environmental Remedial Action Plan (the Plan) for the Carlisle All American location and the Pennsylvania Department of Environmental Protection certifying that no further work is required under the Plan. The Company has included this amount in restricted cash and cash equivalents at September 30, 2003 and 2002.

NOTE 16 - CONCENTRATIONS OF RISK

During the years ended September 30, 2003 and 2002, the Company purchased fuel of \$79,749,427 and \$73,137,436, from three vendors. Trade accounts payable at September 30, 2003 and 2002 included \$2,390,159 and \$1,670,372, respectively, to these vendors.

NOTE 17 - SUBSEQUENT EVENTS

Subsequent to September 30, 2003, the Company's stockholders sold their ownership to an unrelated company. As part of the agreement, the new owner of the Company agreed to distribute to the former owners any amount released from the escrow account relating to the sale of the Company's Carlisle All American location in 2000 (see Note 15). The agreement also required the new owner to issue a promissory note of \$7,191,272 to the Company's former owners. This promissory note is collateralized by, among other things, a second mortgage on certain real estate owned by the Company and by the Company's guaranty.

Also, related to this transaction, the Company obtained \$6,000,000 in additional financing which is collateralized by a first mortgage on the real estate mentioned above.

During January 2004, the Company ceased operations at its Carlisle Truck Plaza location. This location contributed approximately \$6.2 million and \$7.1 million in net sales for the years ended September 30, 2003 and 2002, respectively. The net book value of the assets at this location as of September 30, 2003 was approximately \$83,000. As discussed in Note 11, the lease for this location expires in July 2004. In addition to the rent, the Company will continue to incur certain costs relating to this location through the lease expiration. Eventually the Company expects the closing of Carlisle Truck Plaza to improve its operations as this location was generating operating losses.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders
All American Plazas, Inc. and Subsidiaries
Bethel, Pennsylvania

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

We have audited the accompanying consolidated balance sheets of All American Plazas, Inc. and subsidiaries (the Company) as of September 30, 2002 and 2001, and the related consolidated statements of income, stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of All American Plazas, Inc. and subsidiaries as of September 30, 2002 and 2001, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our report dated December 20, 2001, except for Note 5 as to which the date was September 3, 2002, we expressed a qualified opinion on the September 30, 2001 financial statements due to the Company excluding from current liabilities certain long-term obligations that were in default and could have become due and payable on demand. However, based on bank waivers subsequently obtained by the Company, the accounting treatment reflected in the prior statements was in accordance with accounting principles generally accepted in the United States of America. Accordingly, our present opinion on the 2001 financial statements, as presented herein, is different from that expressed in our previous report.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PROPERTY AND EQUIPMENT (CONTINUED)

Amortization expense on assets acquired under capital leases is included with depreciation expense on owned assets.

Property and equipment includes the cost of additions and those improvements which increase the capacity or lengthen the useful lives of the assets. Repairs and maintenance costs are expensed as incurred. Property retired or sold is removed from the assets and accumulated depreciation accounts and the resulting gain or loss is reflected in income.

FRANCHISES

The franchise fees are amortized on a straight-line basis over 5 to 20 years, the terms of the related agreements. Accumulated amortization at September 30, 2002 and 2001 is \$123,513 and \$117,379, respectively.

DEFERRED FINANCING COSTS

The deferred financing costs are amortized on a straight-line basis over periods of six months to 15 years, the terms of the related loans. Accumulated amortization at September 30, 2002 and 2001 is \$104,388 and \$81,588, respectively.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

ADVERTISING COSTS

The Company expenses all advertising costs as incurred. There are no

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

capitalized advertising costs included in the balance sheets at September 30, 2002 and 2001. Total advertising expenses included in the statements of income for the years ended September 30, 2002 and 2001 was \$399,345 and \$434,649, respectively.

RECLASSIFICATION

Certain 2001 amounts have been reclassified to conform with 2002 classifications. These reclassifications had no effect on previously reported net income for the year ended September 30, 2001.

The composition of inventories at September 30, 2002 and 2001 is as follows:

	\$2,543,557	\$2,744,645

NOTE 4 - PROPERTY AND EQUIPMENT HELD FOR SALE

The Company has removed its SOCO Travel Plaza from service and is attempting to sell the property. A portion of the other asset, property and equipment held for sale, represents the assets' net book value (original cost less accumulated depreciation) at the time they were removed from service less an adjustment down to market. In the opinion of the Company's management, this property and equipment has a net realizable value which approximates its carrying value. See Note 16 for restrictive covenant related to this property. Carrying value for this property at September 30, 2002 and 2001 was \$1,535,641.

During 2002, the Company completed the development of previously purchased land. This asset has been removed from construction in progress and is included as a portion of the other asset, property and equipment held for sale. In the opinion of the Company's management, this property has a net realizable value which exceeds its carrying value. Carrying value for this property at September 30, 2002 was \$730,138.

	2002

	15,871,980
Current portion	(827,543)

	\$15,044,437

The term loans with FMAC and Bay View Bank are collateralized by first liens and security interests on the real estate at the Milton, Clarks Ferry and Frystown locations, as well as these locations' equipment, personal property, inventory, cash proceeds, receivables and general intangibles.

In accordance with these loans, the Company must meet a minimum cash flow covenant, as defined, on a quarterly basis. At September 30, 2002 and for the fiscal year then ended, the Company was in violation of this covenant. The institutions, however, have consented on March 18, 2003 to waive acceleration related to this covenant for each of the quarters for the fiscal years ended September 30, 2002 and 2003. The institutions' waivers of their default and acceleration rights relating to these quarters is through October 1, 2003.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

During the year ended September 30, 2001, certain loans were satisfied resulting in the Company realizing a gain of approximately \$177,000 (net of approximately \$118,000 in income taxes). This gain has been reflected as an extraordinary gain on extinguishment of debt in the statement of income.

The line is collateralized by guarantees of certain stockholders, first mortgage liens on certain properties owned by the Company and first liens on accounts receivable, machinery and equipment, furniture and fixtures and inventory not pledged under the long-term debt agreements in Note 5. The Company must meet certain financial covenants, as defined, including net worth, current ratio and debt to worth.

The components giving rise to the net deferred tax liabilities described above have been included in the accompanying balance sheets as of September 30, 2002 and 2001 as follows:

	2002	2001
	-----	-----
Current assets	\$ 108,500	\$ 243,700

	-----	-----
	(\$1,680,900)	(\$1,708,400)
	-----	-----

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income. The net change in the valuation allowance for the years ended September 30, 2002 and 2001 was an increase of \$90,000 and \$-0-, respectively.

At September 30, 2002, the Company has state net operating loss carryforwards of approximately \$900,000 that expire in 2012.

The provision for income taxes (benefits) consisted of the following at September 30, 2002 and 2001:

	2002	2001
	-----	-----
Federal:		
Current	(\$189,000)	\$974,100

Deferred	(6,300)	(130,700)

	(6,300)	12,700

	(\$216,500)	\$527,900

The income tax provision differs from that which would result from applying federal statutory tax rates to net income before income taxes due to the effect of permanent differences between book and taxable income, such as amounts paid for officer's life insurance and nondeductible expenses for meals and entertainment.

NOTE 10 - EMPLOYEE STOCK OWNERSHIP PLAN

Effective October 1, 1991, the Board of Directors adopted a resolution to establish an Employee Stock Ownership Plan (ESOP) covering a majority of its full-time employees. Under the Plan, the Company is permitted to make annual contributions to a trust for the benefit of eligible employees in the form of either cash or common shares of the Company. The Plan also permits a participant who is entitled to a distribution from the Plan to elect such distribution in the form of the Company's stock. If the participant makes such an election, the Company is required to repurchase such shares at their fair value. Payment can be made in the form of a lump sum payment or in equal annual installments in accordance with the Plan provisions.

The Company is considering termination of its ESOP; however, no formal plan of termination has been adopted. In the event the Plan is terminated, participants' accounts would become 100% vested and the assets of the Plan would be distributed to the participants. The Company would be required to repurchase all outstanding shares at their fair value. As of September 30, 2002, the ESOP plan holds 2,816.16 shares of the Company's Class A voting common stock. The most recent independent appraisal valued these shares at \$190 per share as of September 30, 2001.

There were no contributions related to the Plan for the years ended September 30, 2002 and 2001.

NOTE 11 - DEFERRED COMPENSATION PLAN AND PURCHASE OF CLASS B NON-VOTING SHARES

Effective October 1, 1993, the Company adopted a deferred compensation arrangement for certain key employees. Under the Plan, participants receive units, which entitle the holder to deferred compensation measured by the estimated fair value of the Company's common stock. The number of units distributed to each participant is based on annual results of operations. The Company recognizes compensation expense immediately based on the estimated value of the outstanding units. Rights of active participants at the date the Plan was adopted vest immediately and any future participants' rights will vest ratably

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

over a five-year period. Upon participants' termination of employment, payment is due in the form of ten equal annual installments, bearing interest. Compensation expense was \$-0- and \$921 for the years ended September 30, 2002 and 2001, respectively. The liability under the Plan at September 30, 2002 and 2001 was \$101,697 and \$114,504, respectively. During 1998, two of the participating employees ended their employment with the Company and during 2001 a third participating employee ended his employment. Amounts owed to these individuals are being paid in accordance with the terms of the Plan. Included in accrued expenses at September 30, 2002 and 2001 is \$10,964 and \$10,964, respectively, and included in deferred compensation is \$90,733 and \$103,540, respectively.

These three individuals also held 1,243 shares of Class B non-voting, common stock which were purchased by the Company for \$180 per share and \$200 per share during 1999 and 2001, respectively.

NOTE 12 - OPERATING LEASES

The Company leases two truck stop facilities: Carlisle Texaco and Breezewood Petro. The lease term ranges between five and ten years. The Company also leases computer equipment under a four-year term.

The following is a schedule of future minimum lease payments required under noncancellable lease agreements; these payments do not include renewal options that are available with each of the leases:

Year ending September 30:	
2003	\$ 571,246
2004	495,358
2005	366,000
2006	91,500

	\$1,524,104

The total rental expense included in the income statements under lease obligations for the years ended September 30, 2002 and 2001 was \$762,246 and \$862,271, respectively. Rental expense includes both amounts paid under noncancellable lease arrangements and month-to-month lease arrangements.

NOTE 13 - SIGNIFICANT ESTIMATES

WORKERS' COMPENSATION INSURANCE

During the years ended September 30, 2002 through 1998, the Company provided workers' compensation insurance under a premium only insurance policy for which premiums are based upon payroll, claim history and the associated risk factors. The Company recognizes expense in the accompanying statements of income based upon the insurance company's premiums.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

During prior years, the Company provided workers' compensation insurance under a deductible/stop loss insurance policy for which premiums were based upon the actual payroll and amounts to settle the claims incurred in a given year. The total premium was subject to a ceiling based upon the aggregate deductible amount plus the cost of the stop loss insurance which covered all claims in excess of a deductible amount. The Company recognizes expense in the accompanying statement of income based upon: the insurance company's basic premiums, actual claims paid, estimated total reserves for open claims and adjustments for changes in estimates related to paid loss or retrospective insurance premiums which are based upon changes in incurred losses of outstanding claims. Actual results could differ from these estimates. During 2002, the Company's estimate for liability under these prior year policies was reduced by approximately \$130,000 as a result of the claims outstanding at year end.

ENVIRONMENTAL LIABILITY

In connection with the purchase of a majority interest in the Company on June 14, 1995 by one of the Company's stockholder's, environmental studies were performed on all real estate affected by the transaction. As a result of findings from the initial investigation, further investigations were required for two facilities' underground storage tanks. These investigations are continuing, as well as certain remediation procedures; the nature and full extent of future clean up and remediation costs have been estimated but not yet fully determined.

As part of the stock redemption transaction, the selling stockholders agreed to indemnify the Company for certain environmental costs incurred related to these sites to the extent that the conditions giving rise to the environmental liability existed prior to June 14, 1995. This indemnification was limited to two-thirds of the costs incurred by the Company between \$50,000 and \$1,250,000. The selling stockholders had placed \$800,000 in an escrow account in support of this indemnification. During fiscal year 2001, the Company released the selling stockholders of all liability related to the agreements on these sites and received the remaining funds that had been maintained in the escrow account. This gain of approximately \$246,000 was included in other income in the statement of income for 2001. As of September 30, 2001, the escrow account has been closed and all receivables from the indemnification fund have been realized.

As indicated above, the Company has not yet determined the nature and full extent of the future clean up and remediation effort. The Company's accrued liability was \$182,500 and \$171,900 at September 30, 2002 and 2001, respectively. Due to the uncertainty of the total future remediation costs, the ultimate total cost could change in the coming year, as additional information becomes available.

NOTE 14 - COMMITMENTS

The Company has a fuel supply agreement which obligates it to purchase a significant portion of its diesel fuel from Petroleum Products Corporation (Petroleum) through June 14, 2005. The contract does not call for any fixed or minimum quantities. The agreement provides for pricing based on the average daily prices of the four lowest posted prices of major suppliers.

The Company entered into franchise agreements with Petro Stopping Centers, L.P. (Petro) for its Breezewood and Milton locations during 1998. In accordance with these agreements, royalties are due to Petro based upon base year sales. During the first three years of the agreements, percentages of base year sales are to be excluded from royalties in the amounts of 100%, 35% and 15%, respectively, with 0% excluded in the fourth year and thereafter. For the years ended September 30, 2002 and 2001, these royalty expenses totaled approximately \$408,000 and \$387,000, respectively.

NOTE 15 - CONTINGENCIES

The Company is currently, and is from time-to-time, subject to claims and suits arising in the ordinary course of its business. In certain such actions, plaintiffs request punitive or other damages or nonmonetary relief, which may not be covered by insurance. The Company accrues for potential liabilities involved in these matters as they become known and can be reasonably estimated. In the Company's opinion, the various asserted claims and litigation in which the Company is currently involved are not reasonably likely to have a material adverse effect on the Company's operations or financial position. However, no assurance can be given as to the ultimate outcome with respect to such claims and litigation. The resolution of such claims and litigation could be material to the Company's operating results.

NOTE 16 - GAIN ON SALE OF PROPERTY AND EQUIPMENT

On October 2, 2000, the Company completed the sale of its Carlisle All American location to Petro Stopping Centers, LLP for approximately \$8.5 million resulting in a pre-tax gain of approximately \$2.1 million. This gain is included in other income for financial statement purposes.

Pursuant to the sale of this location, the Company entered into a Restrictive Covenant Agreement. The terms of this agreement place certain restrictions upon future uses of the Company's Carlisle Gables and SOCO locations should ownership change hands. In exchange for entering into this agreement, the Company received \$500,000, which was included in the gain described above.

In accordance with the requirements of the sale agreement for the Carlisle All American location, \$500,000 of the purchase price was placed into an escrow account. The release of these funds is contingent upon the Company's completion of the environmental Remedial Action Plan (the Plan) for the Carlisle All American location and the Pennsylvania Department of Environmental

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Protection certifying that no further work is required under the Plan. The Company has included this amount in the above described gain because management believes that the accrual for future environmental work at the Carlisle All American location is adequate in all material respects at September 30, 2002 and 2001 (see Note 13).

NOTE 17 - CONCENTRATIONS OF RISK

During the years ended September 30, 2002 and 2001, the Company purchased fuel of \$73,137,436 and \$81,650,981, from three and four vendors, respectively. Trade accounts payable at September 30, 2002 and 2001 included \$1,670,372 and \$3,278,698, respectively, to these vendors.

NOTE 18 - SUBSEQUENT EVENT

During the 2002 fiscal year, the Company began considering its strategic options, which included the possible sale of all or substantially all of the Company's stock or assets. As part of this strategy, the Company offered certain key employees' bonuses in order to retain their services. These bonuses, which total approximately \$230,000, are payable in January 2003 and at the time the Company is sold, provided the employees meet certain conditions. At September 30, 2002, the Company did not accrue these bonuses.

On December 13, 2002, the Company's majority stockholder signed a letter of intent to sell his shares to an unrelated party. This sale is subject to, among other conditions, the negotiations and execution of mutually satisfactory agreements and the approval of all shareholders of the Company and of certain franchisors.

ABLE ENERGY, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2004 AND 2003

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Able Energy, Inc. and its subsidiaries. All material inter-company balances and transactions were eliminated in consolidation.

MAJORITY OWNERSHIP

The Company is the majority owner, owning 70.6% of the issued shares of a subsidiary, PriceEnergy.Com, Inc. in which their capital investment is \$25,000. The subsidiary has established an E-Commerce Operating System for the sale of products through a network of suppliers originally on the East Coast of the United States. The business became active in October 2000 (See Notes 8 and 13).

MINORITY INTEREST

The minority interest in PriceEnergy.Com, Inc. is a deficit and, in accordance with Accounting Research Bulletin No. 51, subsidiary losses should not be charged against the minority interest to the extent of reducing it to a negative amount. As such, the losses have been charged against the Company, the majority owner. The loss for year ended June 30, 2004 is \$597,982 (See Notes 8 and 13).

NATURE OF OPERATIONS

Able Oil Company, Able Melbourne and Able Energy New York, Inc. are full service oil companies that market and distribute home heating oil, diesel fuel and kerosene to residential and commercial customers operating in the northern New Jersey, Melbourne, Florida, and Warrensburg, New York respectively. Able Propane installs propane tanks which it owns and sells propane for heating and cooking, along with other residential and commercial uses. The operations of Able Propanewere sold March 1, 2004 and the Company is no longer selling propane in New Jersey (See Note 22).

The Company's operations are subject to seasonal fluctuations with a majority of the Company's business occurring in the late fall and winter months. Approximately 70% of the Company's revenues are earned and received from October through March, and the overwhelming majority of such revenues are derived from the sale of home heating fuel. However, the seasonality of the Company's business is offset, in part, by the increase in revenues from the sale of diesel and gasoline fuels during the spring and summer months due to the increased use of automobiles and construction apparatus.

INVENTORIES

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Inventories are valued at the lower of cost (first in, first out method) or market.

(B-IV) F-9

ABLE ENERGY, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D) JUNE 30, 2004 AND 2003

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost less accumulated depreciation. Depreciation is provided by using the straight-line method based upon the estimated useful lives of the assets (5 to 40 years). Depreciation expense for the year ended June 30, 2004 and 2003 amounted to \$769,742 and \$745,015, respectively.

For income tax basis, depreciation is calculated by a combination of the straight-line and modified accelerated cost recovery systems established by the Tax Reform Act of 1986, and accelerated special depreciation per the Tax Acts of 2002 and 2003.

Expenditures for maintenance and repairs are charged to expense as incurred whereas expenditures for renewals and betterments are capitalized.

The cost and related accumulated depreciation of assets sold or otherwise disposed of during the period are removed from the accounts. Any gain or loss is reflected in the year of disposal.

E-COMMERCE OPERATING SYSTEM DEVELOPMENT COSTS

Costs of \$2,330,794 incurred in the developmental stage for computer hardware and software have been capitalized in accordance with accounting pronouncement SOP98-1. The costs are included in Property and Equipment and will be amortized on a straight line basis during the estimated useful life, 5 years. Operations commenced in October 2000. Amortization for the years ended June 30, 2004 and 2003 amounted to \$461,823 and \$445,842, respectively.

INTANGIBLE ASSETS

Intangibles are stated at cost and amortized as follows:

Customer Lists of \$571,000 related to the Connell's Fuel Oil Company acquisition on October 28, 1996, by Able Oil Company are being amortized over a straight-line period of 15 years. The current period amortization also includes a customer list of \$39,850 and Covenant Not To Compete of \$100,000 relating to the acquisition from B & B Fuels on August 27, 1999, is being amortized over a straight-line period of 10 and 5 years, respectively. The amortization for the years ended June 30, 2004 and 2003 amounted to \$29,191, each year.

In July 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 requires goodwill and other intangible assets to be tested for impairment under certain circumstances, and written off when impaired, rather than being amortized as previous standards required, as such, effective July 1, 2001, the Customer List will no longer be amortized for

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

financial statement purposes.

(B-IV) F-10

ABLE ENERGY, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D) JUNE 30, 2004 AND 2003

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

For income tax basis, the Customer Lists and the Covenant Not To Compete are being amortized over a straight-line method of 15 years as per the Tax Reform Act of 1993.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

INCOME TAXES

Effective January 1, 1997, all the subsidiaries, which were S-Corporations, terminated their S-Corporation elections. The subsidiaries are filing a consolidated tax return with Able Energy, Inc.

Effective January 1, 1997, the Company has elected to provide for income taxes based on the provisions of Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes", which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements and tax returns in different years. Under this method, deferred income tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

CONCENTRATION OF CREDIT RISK

The Company performs on-going credit evaluations of its customers' financial conditions and requires no collateral from its customers.

Financial instruments which potentially subject the Company to concentrations of credit risk consists of checking and savings accounts with several financial institutions in excess of insured limits. The excess above insured limits is approximately \$1,093,621. The Company does not anticipate non-performance by the financial institutions.

CASH

For the purpose of the statement of cash flows, cash is defined as balances held in corporate checking accounts and money market accounts.

ADVERTISING EXPENSE

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Advertising costs are expensed at the time the advertisement appears in various publications and other media. The expense was \$651,302 and \$416,712 for the years ended June 30, 2004 and 2003, respectively.

(B-IV) F-11

ABLE ENERGY, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D) JUNE 30, 2004 AND 2003

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

FAIR VALUE OF FINANCIAL INSTRUMENTS

Carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, accrued compensation, and other accrued liabilities, approximate fair value because of their short maturities.

REVENUE RECOGNITION

Sales of fuel and heating equipment are recognized at the time of delivery to the customer, and sales of equipment are recognized at the time of installation. Revenue from repairs and maintenance service is recognized upon completion of the service. Payments received from customers for heating equipment service contracts are deferred and amortized into income over the term of the respective service contracts, on a straight line basis, which generally do not exceed one year.

COMPUTATION OF NET INCOME (LOSS) PER SHARE

Basic net income (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted net income per share is computed using the weighted-average number of common and dilutive potential common shares outstanding during the period. Diluted net loss per share is computed using the weighted-average number of common shares and excludes dilutive potential common shares outstanding, as their effect is antidilutive. Dilutive potential common shares primarily consist of employee stock options.

IMPAIRMENT OF LONG LIVED ASSETS

Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell.

GOODWILL AND INTANGIBLE ASSETS

In June 2001, FASB approved two new pronouncements: SFAS No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets". SFAS No. 141 applies to all business combinations with a closing date after June 30, 2001. This Statement eliminates the pooling-of-interests method of accounting and further clarifies the criteria for recognition of intangible assets separately from goodwill.

ABLE ENERGY, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D) JUNE 30, 2004 AND 2003

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

SFAS No. 142 eliminates the amortization of goodwill and indefinite-lived intangible assets and initiates an annual review for impairment. Identifiable intangible assets with a determinable useful life will continue to be amortized. The amortization provisions apply to goodwill and other intangible assets acquired after June 30, 2001. Goodwill and other intangible assets acquired prior to June 30, 2001 will be affected upon adoption. The Company has adopted SFAS No. 142 effective July 1, 2001, which will require the Company to cease amortization of its remaining net customer lists balance and to perform an impairment test of its existing customer lists and any other intangible assets based on a fair value concept.

The Company has reviewed the provisions of these Statements. Based upon an assessment of the customer lists, there has been no impairment. As of June 30, 2001, the Company has net unamortized customer lists of \$422,728.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2003, the FASB issued FASB Interpretation ("FIN") No. 46-R, "Consolidation of Variable Interest Entities". FIN No. 46-R, which modifies certain provisions and effective dates of FIN No. 46, sets forth criteria to be used in determining whether an investment in a variable interest entity should be consolidated, and is based on the general premise that companies that control another entity through interests other than voting interests should consolidate the controlled entity. The provisions of FIN No. 46 became effective for the Company during the third quarter of Fiscal 2004. The adoption of this new standard did not have any impact on the Company's financial position, results of operations or cash flows.

SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure (an amendment of FASB Statement No. 123)." In December 2002, the FASB issued SFAS No. 148, which amends SFAS No. 123, "Accounting for Stock-Based Compensation," and provides alternative methods of transition for a voluntary change to the fair value-based method of accounting for stock-based employee compensation; SFAS No. 148 also amends the disclosure requirements of SFAS No. 123 and APB Opinion No. 28, "Interim Financial Reporting," to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The provisions of SFAS No. 148 are effective for financial statements for periods ending after December 15, 2002. The Company will adopt SFAS No. 148 effective July 1, 2003. It currently has no effect on the Company.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

RECENT ACCOUNTING PRONOUNCEMENTS (CONT'D)

DEBT EXTINGUISHMENTS

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements Nos. 4, 44 and 64, Amendment of FASB Statement No. 13, and technical Corrections." Among other things, this statement rescinds SFAS No. 4, "Reporting Gains and Losses from Extinguishment of Debt" (SFAS No. 4), which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. As a result, the criteria in Accounting Principles Board Opinion No. 30, "reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," which requires gains and losses on extinguishment of debts to be classified as income or loss from continuing operations, will now be applied. We adopted the provisions of this statement as of July 1, 2002, as it was effective for years beginning after June 15, 2002.

In December, 2003, the Financial Accounting Standards Board ("FASB") issued a revision to SFAS No. 132, "Employers' Disclosures about Pensions and Other Post retirement Benefits." This revised statement requires additional annual disclosures regarding types of pension plan assets, investment strategy, future plan contributions, expected benefit payments and other items. The statement also requires quarterly disclosure of the components of net periodic benefit cost and plan contributions. This currently has no effect on the Company.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity". This statement affects the classification, measurement and disclosure requirements of certain freestanding financial instruments including mandatorily redeemable shares. This currently has no effect on the Company's operations.

ASSET RETIREMENT OBLIGATIONS

Effective January 1, 2003, the Company has adopted SFAS No. 143, "Accounting for Asset Retirement Obligations" (SFAS No. 143). This statement provides the accounting for the cost of legal obligations associated with the retirement of long-lived assets. SFAS No. 143 requires that companies recognize the fair value of a liability for asset retirement obligations in the period in which the obligations are incurred and capitalize that amount as part of the book value of the long-lived asset. SFAS No. 143 also precludes companies from accruing removal costs that exceed gross salvage in their depreciation rates and accumulated depreciation balances if there is no legal obligation to remove the long-lived assets. The adoption had no current effect on the financial records.

NOTE 10 COMMITMENTS AND CONTINGENCIES

Able Oil Company is under contract to purchase #2 oil as follows:

The Company is subject to laws and regulations relating to the protection of the environment. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, in the opinion of management, compliance with the present environmental protection laws will not have a material adverse effect on the financial condition, competitive position, or capital expenditures of the Company.

In accordance with the agreement on the purchase of the property on Route 46, Rockaway, New Jersey by Able Energy Terminal, LLC, the purchaser shall commence after the closing, the investigation and remediation of the property and any hazardous substances emanating from the property in order to obtain a No Further Action letter from the New Jersey Department of Environmental Protection (NJDEP). The purchaser will also pursue recovery of all costs and damages related thereto in the lawsuit by the seller against a former tenant on the purchased property. Purchaser will assume all responsibility and direction for the lawsuit, subject to the sharing of any recoveries from the lawsuit with the seller, 50-50.

The seller by reduction of its mortgage will pay costs related to the above up to \$250,000 (see Note 6). A settlement has been achieved by the Company with regard to the lawsuit. The settlement provides for a lump sum payment of \$397,500 from the defendants to the Company. In return, the defendants received a release from the Estate (the Seller) and a release and indemnification from the Company. The defendants provided a release to Able Energy and the Estate. Pursuant to the original agreement, the Estate receives 50% of the settlement amount, net of attorney fees.

NOTE 10 COMMITMENTS AND CONTINGENCIES (CONT'D)

This has been amended by an agreement dated November 5, 2001. The entire settlement, net of attorney fees, was collected and placed in an attorney's escrow account for payment of all investigation and remediation costs. Able Energy Terminal, LLC has incurred costs of \$102,956 to June 30, 2004 which are included in Prepaid Expenses and must be presented to the attorney for reimbursement. Per management, the New Jersey Department of Environmental Protection (NJDEP) must issue an approval for treated water run-off. When approval is received, reimbursement can be made upon approval of the attorney and the Estate.

The costs of the cleanup pursuant to the Agreement of Sale must be shared equally (50/50) by the seller and purchaser up to Seller's cap of \$250,000. Seller's contribution to the cleanup is in the form of a reduction to the Note and not by direct payments. The note has been paid in full. As such, any payment by the Estate must be direct payments. Payments will begin when and if costs exceed \$397,500. In the opinion of management, the Company will not sustain costs in this matter which will have a material adverse effect on its financial condition.

Following an explosion and fire that occurred at the Able Energy Facility in Newton, NJ on March 14, 2003, and through the subsequent clean up efforts, Able Energy has cooperated fully with all local, state and federal agencies in their investigations into the cause of this accident.

On April 2, 2003, Able Energy received a Notice Of Violation from the New Jersey Department of Community Affairs ("DCA") citing a total of 13 violations to the New Jersey Administrative Code, Liquefied Petroleum Gas. Twelve of the violations were assessed a penalty of \$500 each. One of the violations, regarding the liquid transfer from one truck to another truck, was assessed a penalty of \$408,000, a second notice was received on April 29, 2003, for an alleged violation on April 12, 2003, and a fine of \$5,500 was assessed for a total of \$419,500. This amount is included in accrued expenses at June 30, 2003. (See below)

Based upon initial review, the company disagrees with many of the findings of the report and disputes many of the allegations. The company has contested the DCA Notice of Violation and the assessed penalties. Counsel and the DCA have had several meetings and hearings were held in the Office of Administrative Law. The Company and DCA have settled the penalties of \$419,500 for \$25,000, resulting in Other Income of \$394,500 (See Note 22). The \$25,000 was paid March 10, 2004.

Company personnel met with personnel of the United States Occupational Safety and Health Administration ("OSHA") on September 12, 2003. OSHA has conducted an investigation relating to the safety practices of the Company, including such practices relating to the March 14, 2003 explosion and fire. OSHA has informed the Company it will be assessed a penalty of \$16,000 based upon violations cited. This amount is included in Accrued Expenses at June 30, 2003. This amount was paid in October 2003.

NOTE 10 COMMITMENTS AND CONTINGENCIES (CONT'D)

The Sussex County, New Jersey, Prosecutor's Office is conducting and investigation as a result of the March 14, 2003 explosion and fire. No determination has been made with respect to its investigation.

A lawsuit (known as Hicks vs. Able Energy, Inc.) has been filed against the Company by property owners who allegedly suffered property damages as a result of the March 14, 2003 explosion and fire. The Company's insurance carrier is defending as related to compensatory damages. Legal counsel is defending on the punitive damage claim. A hearing was held on March 11, 2004 on an application on certain matters by the Plaintiffs, which were denied. The Court presently has before it a motion by Plaintiffs for Class Action Certification. Per legal counsel, whether this matter is certified a Class Action will greatly influence the Company's potential exposure. Legal counsel is guardedly optimistic that Class Action will be denied.

After the March 14, 2003, fire and explosion, the town of Newton changed its zoning requirements and made fuel oil and propane distribution prohibited uses. The Company is appealing a denial of a request for building permits to reconstruct damaged and destroyed buildings and sought a Non-Conforming Use Certificate to permit the fuel oil distribution use only. On August 20, 2004, the Superior Court of New Jersey ruled that the Company may continue to use the site as a non-conforming use, but stayed its decision subject to Newton's appellate rights.

As a result of the March 14, 2003 explosion and fire, various claims for property damage have been submitted to the Company's insurance carrier. These claims are presently being handled and, in many cases, settled by the insurance carrier's adjuster. There were approximately 200 claims being handled and adjusted with reserves for losses established as deemed appropriate by the insurance carrier. The majority of these claims have been settled.

Two lawsuits have been filed by homeowners in Newton, New Jersey who allegedly suffered property damages as a result of the March 14, 2003 explosion and fire. The Company's insurance carrier is defending as related to the property damage claims.

The Company in the normal course of business has been involved in law suits. Current suits are being defended by the insurance carrier and should be covered by insurance.

	-----	-----	-----
Weighted Average of Common Shares Outstanding Used in Basic Earnings Per Share	2,013,250	2,012,708	2,001,332
Dilutive Effect of:

Weighted Average Common Shares Outstanding Used in Diluted Earnings Per Share	2,013,250	2,051,700	2,001,332
	=====	=====	=====

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Able Energy, Inc. and its subsidiaries. All material inter-company balances and transactions were eliminated in consolidation.

MAJORITY OWNERSHIP

The Company is the majority owner, owning 70.6% of the issued shares of a subsidiary, PriceEnergy.Com, Inc. in which their capital investment is \$25,000. The subsidiary has established an E-Commerce Operating System for the sale of products through a network of suppliers originally on the East Coast of the United States. The business became active in October 2000 (See Notes 7 and 12).

MINORITY INTEREST

The minority interest in PriceEnergy.Com, Inc. is a deficit and, in accordance with Accounting Research Bulletin No. 51, subsidiary losses should not be charged against the minority interest to the extent of reducing it to a negative amount. As such, the losses have been charged against the Company, the majority owner. The loss for year ended June 30, 2005 is \$819.790 (See Notes 7 and 12).

NATURE OF OPERATIONS

Able Oil Company, Able Melbourne and Able Energy New York, Inc. are full service oil companies that market and distribute home heating oil, diesel fuel and kerosene to residential and commercial customers operating in the northern New Jersey, Melbourne, Florida, and Warrensburg, New York respectively. Able Energy New York, Inc. also installs propane tanks, which it owns and sells propane for heating and cooking, along with other residential and commercial uses in the Warrensburg, New York area.

The Company's operations are subject to seasonal fluctuations with a majority of the Company's business occurring in the late fall and winter months. Approximately 70% of the Company's revenues are earned and received from October through March, and the overwhelming majority of such revenues are derived from the sale of home heating fuel. However, the seasonality of the Company's business is offset, in part, by the increase in revenues from the sale of diesel and gasoline fuels during the spring and summer months due to the increased use of automobiles and construction apparatus.

INVENTORIES

Inventories are valued at the lower of cost (first in, first out method) or market.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost less accumulated depreciation. Depreciation is provided by using the straight-line method based upon the estimated useful lives of the assets as follows:

Trucks, Machinery & Equipment and Furniture & Fixtures	5 years
Fuel Tanks	10 years
Cylinders - Propane	20 years
Building Improvements	20 years
Buildings	30-40 years
Website Development	5 years

Depreciation expense for the year ended June 30, 2005, 2004 and 2003 amounted to \$697,780, \$769,742 and \$745,015, respectively. The cost and related accumulated depreciation of assets sold or otherwise disposed of during the period are removed from the accounts. Any gain or loss is reflected in the year of disposal.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

For income tax basis, depreciation is calculated by a combination of the straight-line and modified accelerated cost recovery systems established by the Tax Reform Act of 1986, and accelerated special depreciation per the Tax Acts of 2002 and 2003.

At June 30, 2005 and 2004 the equipment under the capital leases had net book values of approximately \$ 768,248 and \$ 622,924, respectively.

(B-V) F-8

Expenditures for maintenance and repairs are charged to expense as incurred, whereas expenditures for renewals and betterments are capitalized.

E-COMMERCE OPERATING SYSTEM DEVELOPMENT COSTS

Costs of \$2,390,589 incurred in the developmental stage for computer hardware and software have been capitalized in accordance with accounting pronouncement SOP98-1. The costs are included in Property and Equipment and will be amortized on a straight-line basis during the estimated useful life, 5 years. Operations commenced in October 2000. Amortization for the years ended June 30, 2005, 2004 and 2003 amounted to \$472,840, \$461,823 and \$445,842, respectively.

GOODWILL AND INTANGIBLE ASSETS

Intangibles include customer lists, a covenant not to compete and development costs- franchising. The covenant not to compete and development costs - franchising are being amortized over 5 year periods. Amortization expense related to the covenant not to compete and development costs - franchising for the years ended June 30, 2005, 2004 and 2003 amounted to \$12,524, \$29,191 and \$29,191, respectively.

Customer Lists totaling approximately \$611,000 related to various acquisitions were being amortized over lives of 10-15 years thorough July 2001 at which point, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 142 requires goodwill and other intangible assets to be periodically tested for impairment, and adjusted when impaired, rather than being amortized as previous standards required, as such, effective July 1, 2001, the Customer List will no longer be amortized for financial statement purposes.

The Company has reviewed the provisions of this Statement. Based upon an assessment of the customer lists, there has been no impairment. As of June 30, 2001, the Company has net un-amortized customer lists of \$422,728.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

INCOME TAXES

Effective January 1, 1997, all the subsidiaries, which were S-Corporations, terminated their S-Corporation elections. The subsidiaries are filing a consolidated tax return with Able Energy, Inc.

Effective January 1, 1997, the Company has elected to provide for income taxes based on the provisions of Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes", which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements and tax returns in different years. Under this method,

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

deferred income tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

CONCENTRATIONS OF CREDIT RISK

The Company performs on-going credit evaluations of its customers' financial conditions and requires no collateral from its customers.

Financial instruments, which potentially subject the Company to concentrations of credit risk consists of checking and savings accounts with several financial institutions in excess of, insured limits. The excess above insured limits is approximately \$1,300,000. The Company does not anticipate non-performance by the financial institutions.

CASH

For the purpose of the statement of cash flows, cash is defined as balances held in corporate checking accounts and money market accounts.

ADVERTISING EXPENSE

Advertising costs are expensed at the time the advertisement appears in various publications and other media. The expense was \$338,995, \$651,302 and \$416,712 for the years ended June 30, 2005, 2004 and 2003, respectively.

(B-V) F-9

FAIR VALUE OF FINANCIAL INSTRUMENTS

Carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, accrued compensation, and other accrued liabilities, approximate fair value because of their short maturities.

REVENUE RECOGNITION

Sales of fuel and heating equipment are recognized at the time of delivery to the customer, and sales of equipment are recognized at the time of installation. Revenue from repairs and maintenance service is recognized upon completion of the service. Payments received from customers for heating equipment service contracts are deferred and amortized into income over the term of the respective service contracts, on a straight-line basis, which generally do not exceed one year.

COMPUTATION OF NET INCOME (LOSS) PER SHARE

Basic net income (loss) per share is computed using the weighted-average number of common shares outstanding during the period. Diluted net income per share is computed using the weighted-average number of common and dilutive potential common shares outstanding during the period. Diluted net loss per share is computed using the weighted-average number of common shares and excludes dilutive potential common shares outstanding, as their effect is antidilutive. Dilutive potential common shares primarily consist of employee stock options. These options and warrants could be dilutive in the future. The numerator for the calculation of both basic and diluted earnings per share is the earnings or loss available for common stockholders.

STOCK BASED COMPENSATION

The Company accounts for its stock options issued to employees and outside directors pursuant to Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" and has adopted the disclosure requirements of SFAS No. 123, "Accounting for Stock-Based Compensation", and SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of FASB Statement No. 123".

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

	2005	2004
Net Income (Loss) From Continuing Operations, as reported	\$ (2,110,257)	\$ (2,700,100)

	=====	=====
Diluted from continuing operations, pro forma	\$ (1.39)	\$ (1.33)
	=====	=====

(B-V) F-10

Potentially dilutive options and warrants to purchase 238,000, 349,000 and 389,000 shares of the common stock were outstanding as of June 30, 2005, 2004 and 2003, respectively, but were not included in the computation of diluted loss per share because the effect of their inclusion would have been anti-dilutive.

The estimated weighted average fair values of the options at the date of grant using the Black-Scholes option-pricing model as promulgated by SFAS No. 123 and the related assumptions used to develop the estimates are as follows:

	2005	2004	2003
Weighted Average fair value of options granted during the year	\$4.82	\$2.04	\$1.99

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

Expected volatility	185.9%	120.1%	113.7%

Expected life	5 years	5 years	5 years

See Note 13 for further discussion of the Company's stock options.

The Company accounts for stock issued to non-employees in accordance with the provisions of SFAS 123 and the Emerging Issues Task Force ("EITF") Issue No. 96-18, "Accounting for Equity Instruments that are Issued to other than Employees for Acquiring, or in Conjunction with Selling Goods or Services." Under SFAS 123, the cost is measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measured.

IMPAIRMENT OF LONG-LIVED ASSETS

Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell.

RECENT ACCOUNTING PRONOUNCEMENTS

SHARE-BASED PAYMENT

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment," which is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation". SFAS 123(R) requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. The compensation cost will be measured based on the fair value of the equity or liability instruments issued. The Statement is effective as of the beginning of the first interim or annual period beginning after June 15, 2005. We will adopt SFAS No. 123(R) on September 1, 2005 using the modified prospective method. We have disclosed the pro forma impact of adopting SFAS No. 123(R) on net income and earnings per share for the year ended June 30, 2005, 2004 and 2003 in Note 1, which includes all share-based payment transactions to date. We do not yet know the impact that any future share-based payment transactions will have on our financial position or results of operations.

INVENTORY COSTS

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs." SFAS 151 amends ARB No. 43, "Inventory Pricing", to clarify the accounting for certain costs as period expense. The Statement is effective for fiscal years beginning after June 15, 2005; however, early adoption of this Statement is permitted. There was no impact from the adoption of this statement.

NOTE 2 NOTES RECEIVABLE

The Company is subject to laws and regulations relating to the protection of the environment. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, in the opinion of management, compliance with the present environmental protection laws will not have a material adverse effect on the financial condition, competitive position, or capital expenditures of the Company.

In accordance with the agreement on the purchase of the property on Route 46, Rockaway, New Jersey by Able Energy Terminal, LLC, the purchaser shall commence after the closing which was August 31, 1999, the investigation and remediation of the property and any hazardous substances emanating from the property in order to obtain a No Further Action letter from the New Jersey Department of Environmental Protection (NJDEP). The purchaser will also pursue recovery of all costs and damages related thereto in the lawsuit by the seller against a former tenant on the purchased property. Purchaser will assume all responsibility and direction for the lawsuit, subject to the sharing of any recoveries from the lawsuit with the seller, 50-50.

The seller by reduction of its mortgage will pay costs related to the above up to \$250,000. A settlement has been achieved by the Company with regard to the lawsuit. The settlement provides for a lump sum payment of \$397,500 from the defendants to the Company. In return, the defendants received a release from the Estate (the Seller) and a release and indemnification from the Company. The defendants provided a release to Able Energy and the Estate. Pursuant to the original agreement, the Estate receives 50% of the settlement amount, net of attorney fees.

This has been amended by an agreement dated November 5, 2001. The entire settlement, net of attorney fees, was collected and placed in an attorney's escrow account for payment of all investigation and remediation costs. Able Energy Terminal, LLC has incurred costs of \$102,956 to June 30, 2005, which are included in Prepaid Expenses and must be presented to the attorney for reimbursement. The New Jersey Department of Environmental Protection (NJDEP) has issued an approval for treated water run-off. The ruling is for a 180-day period, which can be renewed for an additional 180 days, per management, during which a valid permit must be obtained. When approval is received and contract invoice wording is sufficient for the attorney, reimbursement can be made upon approval of the attorney and the Estate.

The costs of the cleanup pursuant to the Agreement of Sale must be shared equally (50/50) by the seller and purchaser up to Seller's cap of \$250,000. Seller's contribution to the cleanup is in the form of a reduction to the Note of \$650,000 and not by direct payments. The note has been paid in full. As such, any payment by the Estate must be direct payments. Payments will begin when and if costs exceed \$397,500. In the opinion of management, the Company will not sustain costs in this matter, which will have a material adverse effect on its financial condition.

Following an explosion and fire that occurred at the Able Energy Facility in Newton, NJ on March 14, 2003, and through the subsequent clean up efforts, Able Energy has cooperated fully with all local, state and federal agencies in their investigations into the cause of this accident.

Edgar Filing: ABLE ENERGY INC - Form PRE 14A

All violation charges with the New Jersey Department of Community Affairs and OSHA have been settled and paid.

The Sussex County, New Jersey, Prosecutor's Office is conducting and investigation as a result of the March 14, 2003 explosion and fire. At a hearing on July 27, 2005, the President and former CFO pleaded guilty and received community service. The Company will face a fine of up to \$30,000 when sentenced September 21, 2005.

A lawsuit (known as Hicks vs. Able Energy, Inc.) has been filed against the Company by property owners who allegedly suffered property damages as a result of the March 14, 2003 explosion and fire. The Company's insurance carrier is defending as related to compensatory damages. Legal counsel is defending on the punitive damage claim. On June 13, 2005, the Court granted a motion certifying a plaintiff class action which is defined as "All Persons and Entities that on and after March 14, 2003, residing within a 1,000 yard radius of Able Oil Company's fuel depot facility and were damaged as a result of the March 14, 2003 explosion". The claim is limited to economic loss and claims for personal injury have been specifically excluded from the Class Certification. The insurer has settled approximately 200 claims against the Company. The Company believes that the Class Claims for compensatory damages is within the available limits of its insurance.

After the March 14, 2003, fire and explosion, the town of Newton changed its zoning requirements and made fuel oil and propane distribution prohibited uses. The Company is appealing a denial of a request for building permits to reconstruct damaged and destroyed buildings and sought a Non-Conforming Use Certificate to permit the fuel oil distribution use only. On August 20, 2004, the Superior Court of New Jersey ruled that the Company may continue to use the site as a non-conforming use, but stayed its decision subject to Newton's appellate rights. The decision was upheld in May 2005 by the court upon the appeal of the Town of Newton. The Company is planning to use the property in the manner approved by the decision.

As a result of the March 14, 2003 explosion and fire, various claims for property damage have been submitted to the Company's insurance carrier. These claims are presently being handled and, in many cases, settled by the insurance carrier's adjuster. There were approximately 200 claims being handled and adjusted with reserves for losses established as deemed appropriate by the insurance carrier. The majority of these claims have been settled.

Two lawsuits have been filed by homeowners in Newton, New Jersey who allegedly suffered property damages as a result of the March 14, 2003 explosion and fire. The Company's insurance carrier is defending as related to the property damage claims. As to Punitive Damages, one case is being defended by an outside attorney and one by the insurance carrier. It appears that compensatory damage claims are within the available limits of insurance.

The Company in the normal course of business has been involved in lawsuits. Current suits are being defended by the insurance carrier and should be covered by insurance and legal counsel is defending on punitive damage claims as noted above.

("All American") in connection with our acquisition of All American. The transaction is expected to be consummated in October 2005, upon receipt of the required approval by our stockholders.

At the closing, we will deliver to the Sellers 11,666,667 shares of our restricted common stock, par value \$.001 per share, at \$3.00 per share for an aggregate purchase price of \$35,000,000. In addition, at the closing, we will deliver to certain of the Sellers a number of shares of our restricted common stock equal to the number of shares of our common stock owned by All American as of the closing date.

All American recently consummated a financing that, if the acquisition of All American is consummated, will impact the Company. Pursuant to the terms of the Securities Purchase Agreement dated June 1, 2005 (the "Agreement") among All American and certain purchasers, the purchasers loaned All American an aggregate of \$5,000,000, evidenced by Secured Debentures also dated June 1, 2005 (the "Debentures").

(B-V) F-20

If the Company consummate the acquisition of All American, upon such consummation, we will assume the obligations of All American under the Agreement, the Debentures and the AIR Agreement through the execution of a Securities Assumption, Amendment and Issuance Agreement, Registration Rights Agreement, Common Stock Purchase Warrant Agreement and Variable Rate Secured Convertible Debenture Agreement, each between the Purchasers and us (the "Able Energy Transaction Documents").

In connection with two loans entered into by the company in May 2005 (see note 4), fees in the amount of \$167,500 were paid to Unison Capital Corporation, a company in which a vice president of Able Energy has a related interest. This individual also has a related party interest to All American Plazas, Inc., the Company's largest shareholder.

Subsequent to the payments being made and based on discussions with Unison Capital Corporation it was determined the \$167,500 was an inappropriate payment to a related party and Unison Capital Corporation has agreed to reimburse this amount to the Company over a twelve month period beginning in October 2005. The

charge had been appropriately classified as deferred finance charges in the balance sheet and therefore will have no effect on the Company's statement of operations.
