PROXY STATEMENT

FOR

ANNUAL MEETING OF SHAREHOLDERS

Solicitation and revocation of proxies

The enclosed proxy is solicited by Reliability Incorporated, a Texas corporation (the "Company"), for use in connection with the 2004 annual meeting of shareholders of the Company. Although proxies will be solicited primarily by mail, employees of the Company may personally aid in such solicitation. The Company will make arrangements with brokerage houses and banks for forwarding proxy materials to the beneficial owners of shares registered in brokers' and banks' names. All solicitation costs will be paid by the Company. All properly signed proxies will be voted, and, where a choice has been specified by the shareholder as provided on the proxy, it will be voted in accordance with the specification so made. If no specification is made, the shares will be voted FOR all nominees for director, and in the discretion of the proxy holders on any other matter properly coming before the meeting. Any shareholder giving a proxy may revoke it at any time before it is used at the meeting by giving written notice of revocation to the secretary of the Company or by signing and delivering to the secretary of the Company a proxy bearing a later date.

Proxy materials are expected to be mailed or delivered to shareholders on or about March 22, 2004.

Voting at the meeting

Only holders of record of the Company's Common Stock (the "Common Stock") at the close of business on March 8, 2004 will be entitled to vote at the meeting. As of such date, 6,335,965 shares were issued and outstanding and entitled to vote at the meeting. Each share of Common Stock is entitled to one vote; shareholders do not have the right to cumulate their votes with respect to the election of directors.

The presence of the holders of a majority of the issued and outstanding shares of Common Stock entitled to vote, either in person or represented by proxy, is necessary to constitute a quorum for the transaction of business at the annual meeting. If there are not sufficient shares represented at the meeting to constitute a quorum, the meeting may be adjourned until a specified future date to allow the solicitation of additional proxies. Directors are elected by a plurality of the votes cast at the meeting. The nominees who receive the greatest number of votes will be elected, even though the number of votes received may be less than a majority of the shares represented in person or by proxy at the meeting. Proxies that withhold authority to vote for a nominee and broker non-votes will not prevent the election of such nominee if other shareholders vote for such nominee.

John R. Howard has indicated he will not stand for re-election as a director and resigned as a director on March 11, 2004 for personal reasons. He has no disagreements with the Company on any matter relating to the Company's operations, policies or practices. After his resignation, the Board of Directors of the Company was reduced to four members.

<u>Name</u>	<u>Director since</u>	<u>Age</u>	<u>Other positions and offices presently held with the Company (and other principal occupation, if different)</u>

Thomas L. Langford	1980	62	(Group Vice President, Consolidated Contractors International Co. S.A.L.)
Philip Uhrhan	1997	54	(Vice President Finance, Solvay America, Inc.)

Mr. Edwards has been President and Chief Executive Officer of the Company since 1993 and has been a Director and Chairman of the Board of Directors since 1995. From 1990 to 1993, he served as President and Chief Operating Officer of the Company. Mr. Edwards joined the Company in 1977 as Manager of Engineering, Planning and Manufacturing Systems, and subsequently held the positions of Vice President Operations, Corporate Vice President Systems, and Executive Vice President Systems.

Mr. Hampton has been a Director of the Company since 1984. Mr. Hampton was President of S.I.P. Engineering, Inc., an engineering and construction company, from 1984 until his retirement in 1993.

Mr. Langford has been a Director of the Company since 1980. Mr. Langford's principal occupation has been that of Group Vice President of Consolidated Contractors International Co. S.A.L., an engineering and construction company, since February 2001. In June 2000, Stone and Webster, Inc. filed a Chapter 11 Bankruptcy, and Mr. Langford served, from July 2000 until January 2001 as President and Chief Restructuring Officer of the Debtor in Possession of Stone and Webster. From 1991 until 1996, Mr. Langford was President of Parsons Corporation, an engineering and construction company.

Mr. Uhrhan has been a Director of the Company since 1997. Mr. Uhrhan's principal occupation has been that of Vice President Finance of Solvay America, Inc., a chemical and pharmaceuticals company, since 1996. Mr. Uhrhan was a Partner with Ernst & Young LLP for more than five years prior to his employment by Solvay America, Inc.

Management believes that each person proposed to be elected a director is willing and able to serve if elected. If a situation arises in which any nominee is unable or unwilling to serve, proxies will be voted for a nominee selected by the Board of Directors of the Company.

Board of Directors meetings and committees

The Company's Board of Directors held four meetings during 2003. All incumbent directors attended 75% or more of the meetings of the Board of Directors. The Company has a standing audit committee and compensation committee, but does not have a nominating committee. As a general matter, Board members are expected to attend Reliability's annual meetings and all members attended the 2003 annual meeting.

The Company's audit committee, composed of independent directors Messrs. Langford, Howard and Uhrhan, held three meetings during 2003 and each member attended all meetings. The audit committee reviews and approves all services to be performed by independent auditors and the fees therefor, consults with independent auditors and management with respect to internal controls and other financial matters and reviews the results of the year-end audit and other reports of independent auditors. The audit committee is governed by a written charter approved by the Board of Directors. Additional information regarding the functions performed by the committee is set forth below in the Report of the Audit Committee.

Audit Committee Financial Expert. The Board has determined that the Company has two audit committee financial experts, as defined by the Securities and Exchange Commission, serving on its audit committee. Mr. Uhrhan, Chairman of the committee, and Mr. Langford qualify as financial experts and both are independent, as independence for audit committee members is defined by the Securities and Exchange Commission and in the National Association of Securities Dealers' listing standards, as those standards have been modified or supplemented.

The compensation committee, composed of Messrs. Hampton and Howard, met two times during 2003. Both members attended both meetings. The compensation committee reviews executive compensation and benefit plans, recommends changes therein, and makes recommendations to the Board of Directors concerning executive salaries, incentive plans and options to be granted to executives under the Company's stock option plan. The Compensation Committee Report is included below.

The Company does not have a separately designated standing nominating committee, nor does it maintain a charter for such a committee. For the 2004 Annual Meeting, the incumbent independent directors (Messrs. Howard, Langford, Hampton and Uhrhan) functioned as the nominating committee. Given the size of the Board of Directors, the Board does not deem it appropriate to have a separate nominating committee, and all continuing independent (as defined by the National Association of Securities Dealers) members of the Board serve as the nominating committee. While the nominating committee will consider nominees recommended by stockholders, it has not actively solicited recommendations from stockholders. Nominations by stockholders should be submitted to the Secretary of the Company by the last day of December preceding the Annual Meeting. Nominations should include the candidate's name, contact information, relevant biographical information, including qualifications, and whether the proposed nominee is willing to accept nomination and to serve as a director. The Board of Directors met on February 18, 2004 to nominate persons for election as directors at the 2004 Annual Meeting.

Audit Committee Report

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors includes three directors, all of whom are independent, as defined by the standards of the Nasdaq[®] stock exchange. Management has the primary responsibility for the preparation of financial statements and maintaining the reporting process, including implementing and maintaining the systems of internal controls. The Committee assists the Board in overseeing matters relating to the accounting and financial reporting practices of the Company, the adequacy of its internal controls and the quality and integrity of its financial statements. The Committee operates under a charter approved by the Board of Directors. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report and considered the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgements, and the clarity of disclosures in the financial statements.

The Committee met three times during the year ended December 31, 2003, and the Committee Chairman, or his designee in the case of the second fiscal quarter, on behalf of the Committee, reviewed with the independent auditors the interim financial information included in the March 31, June 30, and September 30, 2003 Form 10-Qs prior to their being filed with the Securities and Exchange Commission. The Committee has reviewed the relevant requirements of the Sarbanes-Oxley Act, the revised rules of the SEC and the new corporate governance listing standards of the NASDAQ regarding audit committee policies. The Committee adopted an amendment to its charter on February 18, 2004 to implement these new rules and standards. A copy of this amended charter is attached to this proxy statement.

The independent auditors provided the Committee a written statement describing the relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1 Independence Discussions with Audit Committees. The Committee also discussed with the auditors any relationships that may impact their objectivity and independence and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed and reviewed with the independent auditors all communications required by generally accepted auditing standards, including those described in Statement of Auditing Standards No. 61, as amended, Communications with Audit Committees.

With and without management present, the Committee discussed and reviewed the results of the independent auditors' examination of the Company's December 31, 2003 financial statements. The discussion included matters related to the overall scope and plans for the audit, plans for conducting the audit and other items such as the selection of significant accounting policies, the methods used to account for significant or unusual transactions, the effect of significant accounting policies in emerging areas, the process used by management in formulating accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates, the basis for management's accounting estimates and the disclosures in the financial statements.

The Committee reviewed the Company's audited financial statements as of and for the year ended December 31, 2003, and discussed them with management and the independent auditors. Based on such review and discussions, the Committee recommended to the Board that the Company's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2003, for filing with the Securities and Exchange Commission.

Compensation Committee Report on Executive Compensation

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors of Reliability Incorporated submits this report on executive compensation to the Board of Directors and the Company's shareholders. This report covers components of executive compensation and the bases for the Committee's compensation decisions. The Committee's goals are to establish compensation for executive officers that ensures a fair and competitive salary and additional incentive compensation which is related directly to the financial success of the Company and the performance of the officers and to motivate executive personnel to achieve corporate objectives. A fundamental principle of the compensation program is to align the amount of an executive's total compensation with his contribution to the success of the Company. The program has the following components:

Base salary

Salaries for the chief executive officer (CEO) and each other executive officer are set annually. The Committee strives to set salaries that are competitive with those paid by companies of similar size and revenue in the industry. The Company utilizes the currently available American Electronics Association Executive Compensation Survey (AEA Survey) to determine appropriate and competitive salaries.

The Committee reviews the overall financial performance of the Company, its gross, operating and net profits, the performance of the Company's officers, and the business plan for the upcoming year, as well as the applicable AEA Survey, to determine appropriate and competitive base salaries (salaries). The Committee considered salaries paid by other companies of similar size and revenues to determine market rate salary, excluding incentive compensation, using the 25th percentile results of the AEA Compensation Survey.

In 2003, there were no salary increases for the CEO or any executive officer because of the Company's financial performance for 2002. In August 2002, the board of directors approved restructuring actions to improve the Company's cost structure. As a result, the salaries of the CEO and all executive officers were reduced by 15%. The level of the Company's losses in 2002 and 2003 resulted in the CEO and executive officers receiving total compensation for 2002 and 2003 at amounts below the 25th percentile of the AEA Survey. The level of the Company's income in 2000 resulted in the CEO and executive officers receiving total compensation somewhat below the 75th percentile in 2000.

Short-term incentive compensation

In addition to base salary, the Company has an incentive plan which applies to the CEO, all other executive officers, the directors and all salaried employees of the Company. The incentive plan has three components:

1. a quantitative measure based on income before income tax of:
 - (a) the Company as a whole in the case of the CEO and certain other executive officers; or

Edgar Filing: RELIABILITY INC - Form DEF 14A

- (b) the subsidiary, industry segment or division (Profit Center) of the Company for which the executive is responsible;
- 2. a qualitative measure, which is an evaluation of each individual s performance during the year, made by the Committee for the CEO and by the CEO for all other executive officers; and
- 3. a target incentive which is a quantitative percent of base salary.

The Committee s approach to incentive bonuses is to establish incentives at a pay-for-performance level which allows the executive to be compensated in total at a competitive rate. Each year the Committee establishes the target bonus for the CEO and each executive officer and approves the payment of bonuses, if any, based on

achieving predetermined goals. The CEO and executive officers are only eligible for bonuses when the Company as a whole and/or the Profit Center for which such officer is responsible reports income before income taxes as a percent of revenues equal to or greater than 5%.

1. Target incentives, for 2003, ranged from 40% of base salary for the CEO to 30% for executive officers. The Company and its Profit Centers reported losses in 2003, thus no bonuses were paid to the CEO or any other executive officer.
2. Target incentives, for 2002, ranged from 40% of base salary for the CEO to 30% for executive officers. The Company and its Profit Centers reported losses in 2002, thus no bonuses were paid to the CEO or any other executive officer.

There were no incentive bonuses paid to salaried employees in 2003 or 2002, due to the fact that the Company and its Profit Centers reported losses.

Stock based compensation

The Company's long-term compensation program consists of options granted under the Company's Amended and Restated 1997 Stock Option Plan. The Committee encourages stock ownership by executives and managers so that they have a vested interest in the growth and profitability of the Company. Stock options are used as a component of the total compensation package to reward performance, to equalize benefits with those offered by comparable companies and to encourage key personnel to remain with the Company. In addition, stock options emphasize the objective of increasing shareholder value and encourage share ownership by management in accordance with established guidelines. In general, options granted to the CEO and executives vest in installments over a period of approximately two to three years. The option agreements encourage the CEO and executives to own shares with a market value, at date of grant, equivalent to one times base annual compensation. If the executive does not own the required number of shares on the date the applicable installment would vest, the option installment expires or the exercise period for certain unexercised shares is shortened from ten years to two to three years.

The Board of Directors functions as the administrative committee for the Option Plan and consults with the Committee and grants options based on its subjective determination of the relative current and future contribution that each optionee has made or may make to the long-term goals of the Company.

Benefits

The CEO and other executive officers are not entitled to any additional benefits which are not also provided to all full-time salaried employees.

Respectfully submitted,

W.L. Hampton, Chairman

John R. Howard

Code of Business Conduct and Ethics

The Company adopted a Code of Business Conduct and Ethics on February 18, 2004 that applies to all of the Company's employees, officers and directors, including its principal executive officer and principal financial and accounting officer, or persons performing similar functions. This Code of Business Conduct and Ethics is attached to the Company's Annual Report on Form 10-K for the year ended December 31, 2003 as Exhibit 14.1.

The Company intends to satisfy the disclosure requirement under Item 10 of Form 8-K regarding an amendment to, or a waiver from, a provision of its Code of Business Conduct and Ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or persons performing similar functions and that relates to any element of the code definition enumerated in Securities and Exchange Regulation S-K, Item 406(b) by posting such information on the Company's web site at <http://www.relinc.com> within five business days following the date of the amendment or waiver.

In 2001, 2002 and 2003, the Company did not provide any other compensation or long-term compensation plans for executive officers; thus columns (e), (f) and (h) are omitted from the above table.

- (1) Amounts shown in this column represent the Company's matching and annual profit sharing contributions to the Employee Stock Savings Plan for the benefit of the named individual.
- (2) Mr. Johnson was employed by the Company through October 2003 and his compensation for 2003 includes \$63,467 of accumulated vacation pay and separation pay.
- (3) Mr. Schmidt joined the Company in December 2002.

The Company sponsors an Employee Stock Savings Plan (the Plan). All U.S. employees of the Company who have been employed for six months are covered by the Plan. The Plan allows an employee to contribute up to 100% of defined compensation to the Plan. The Company

Edgar Filing: RELIABILITY INC - Form DEF 14A

matches employee contributions at a rate equal to 50% of the employee's contributions, but the Company's matching contribution is limited to 2% of the employee's defined compensation. The Company also makes a contribution in an amount equal to 1% of the defined compensation of all participants. In addition, the Company may make additional voluntary profit sharing contributions based on the consolidated profits of the Company. The maximum voluntary profit sharing contribution is 5% of compensation. The Company did not make an additional voluntary profit sharing contribution in 2003, 2002 or 2001.

The Company has no long-term compensation plans, awards or arrangements, except for the Amended and Restated 1997 Stock Option Plan. The Company has no stock appreciation rights or option plans. The Company has no long-term incentive plan, defined benefit or actuarial plan, employment contracts or termination of employment or change in control agreements with any executive officer.

Compensation to directors

Through October 2003, non-employee directors were paid a fee of \$1,000 per month. In November 2003, the directors voted to reduce their monthly compensation by 15%, similar to the reductions imposed on the executive officers. Directors also participate in an incentive bonus program similar to the bonus program described in the Compensation Committee Report and participate in the Amended and Restated 1997 Stock Option Plan. In November 2003, each non-employee director was granted options to purchase 15,000 shares of Common Stock. Each option was granted at the fair market value of the Company's Common Stock on the date of grant. In 2003, the Company was not profitable; thus the directors did not receive a bonus for 2003.

Stock Option Plan

Under the Amended and Restated 1997 Stock Option Plan (Option Plan), option grants are available for officers, directors and key employees. The objectives of the Option Plan are to promote the interests of the Company by providing an ownership incentive to officers, directors and key employees, to reward outstanding performance, and to encourage continued employment.

Under the Option Plan, the Board of Directors, which acts as Plan Administrator, determines the officers, directors and key employees to whom options are granted, the type of options, the number of shares covered by such options and the option vesting schedule. The Option Plan provides for the grant of stock options to purchase an aggregate of up to 1,500,000 shares of the Company's Common Stock. All options are issued at market value on the date of the grant.

The Board of Directors granted options to employees to purchase 235,000 and 15,000 shares of Common Stock in 2003 and 2002, respectively. At December 31, 2003, options outstanding covered a total of 839,000 shares of Common Stock. Section 16(a) beneficial ownership reporting compliance

The Securities Exchange Act of 1934, as amended, requires that the Company's directors, executive officers and 10% stockholders (if any) report to the Securities and Exchange Commission certain transactions involving Common Stock.
