FOR IMMEDIATE RELEASE

PLAINS RESOURCES REPORTS 2004

FIRST QUARTER RESULTS

Houston, Texas May 4, 2004 - Plains Resources Inc. (NYSE:PLX) today reported net income of \$13.3 million, or \$0.55 per diluted share for the first quarter of 2004 compared to net income of \$7.3 million, or \$0.28 per diluted share for the first quarter of 2003.

Net income in the first quarter of 2004 includes a non-cash pre-tax gain of \$23.9 million related to the conversion of 75% of the Company's subordinated units of Plains All American Pipeline, L.P. (NYSE:PAA) into common units. After this conversion, all of the Company's 12.4 million PAA units consist of common units.

The Company reported equity in earnings from its ownership in PAA of \$7.0 million compared to \$6.3 million in the first quarter of 2003. The Company's cash distribution from PAA was \$8.2 million in the first quarter of 2004, a 9% increase from the first quarter 2003 distribution of \$7.5 million.

Oil production volumes were 2,308 barrels per day in the first quarter of 2004 compared to 2,578 barrels per day in the prior year quarter. In accordance with SEC Staff Accounting Bulletin 101, the Company's results reflect revenue from oil production in the period it is sold as opposed to when it is produced. The location of the Company's Florida properties and the timing of the barges that transport the oil to market cause reported sales volumes to differ from production volumes. The Company reported sales of 1,275 barrels of oil per day in the first quarter of 2004 compared to 3,067 barrels per day in the first quarter of 2003. In the first quarter of 2004, the Company had only one barge delivery of crude oil causing sales volumes to be significantly less than produced volumes.

Edgar Filing: PLAINS RESOURCES INC - Form DEFA14A

Unit gross margin before hedging and derivative cash settlements was \$13.27 in the first quarter of 2004 versus \$14.12 in the first quarter of 2003. The decrease is primarily due

to increased production expenses resulting from higher workover, electricity and fuel costs. During the first quarter of 2004, the Company recorded \$4.4 million of derivative losses consisting of \$1.4 million of cash settlements and \$3.0 million reflecting the decrease in the fair value of the Company's crude oil swaps.

General and administrative expense was \$4.1 million in the first quarter of 2004 compared to \$1.8 million in the first quarter of 2003. The increase is primarily attributable to expenses related to the proposed buy-out of the Company and to a much lesser extent, accounting system conversion costs.

Plains Resources is an independent energy company engaged in the acquisition, development and exploitation of crude oil and natural gas. Through its ownership in Plains All American Pipeline, L.P., Plains Resources has interests in the midstream activities of marketing, gathering, transportation, terminaling and storage of crude oil. Plains Resources is headquartered in Houston, Texas.

Except for the historical information contained herein, the matters discussed in this news release are forward-looking statements that involve certain risks and uncertainties that could cause actual results to differ materially. These risks and uncertainties include, among other things, economic conditions, oil and gas price volatility, uncertainties inherent in the exploration for and development and production of oil and gas and in estimating reserves, regulatory changes and other factors discussed in Plains Resources' filings with the Securities and Exchange Commission.

- (1) Effective February 1, 2003 we were required to discontinue hedge accounting and reflect the mark-to-market value of our hedges in earnings. The amounts presented represent the effect of derivative cash settlement losses on our average sales prices. Because sales volumes (1,275 bbls/day) were less than the hedged volumes (1,500 bbls/day) in the first quarter of 2004, the derivative cash settlement loss is disproportionately high.
