For the transition period from _____ to _____

Commission File Number: 001-15317

ResMed Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

98-0152841

(I.R.S. Employer Identification No.)

9001 Spectrum Center Blvd.

San Diego, CA 92123

United States of America

Edgar Filing: RESMED INC - Form 10-Q

(Address of principal executive offices)

(858) 836-5000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

At January 27, 2010, there were 75,150,154 shares of Common Stock (\$0.04 par value) outstanding. This number excludes 8,176,868 shares held by the registrant as treasury shares.

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to the Condensed Consolidated Financial Statements

(Unaudited)

(1) Organization and Basis of Presentation

ResMed Inc. (referred to herein as we, us, our or the Company) is a Delaware corporation formed in March 1994 holding company for the ResMed Group. Through our subsidiaries, we design, manufacture and market equipment for the diagnosis and treatment of sleep-disordered breathing and other respiratory disorders, including obstructive sleep apnea. Our manufacturing operations are located in Australia, Singapore, France and the United States. Major distribution and sales sites are located in the United States, Germany, France, the United Kingdom, Switzerland, Australia, Norway and Sweden.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and six months ended December 31, 2009 are not necessarily indicative of the results that may be expected for the year ending June 30, 2010.

The condensed consolidated financial statements for the three and six months ended December 31, 2009 and 2008 are unaudited and should be read in conjunction with the condensed consolidated financial statements and notes thereto included in our Form 10-K for the year ended June 30, 2009.

(2) Summary of Significant Accounting Policies

(a) Basis of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from management's estimates.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(2) Summary of Significant Accounting Policies, Continued****(b) Revenue Recognition**

Revenue on product sales is generally recorded upon shipment, at which time title and risk of loss transfers to the customer. Revenue on product sales which require customer acceptance is not recorded until acceptance is received. Royalty revenue from license agreements is recorded when earned. Service revenue received in advance from service contracts is initially deferred and recognized ratably over the life of the service contract. Revenue received in advance from rental unit contracts is initially deferred and recognized ratably over the life of the rental contract. Revenue from sale of marketing or distribution rights is initially deferred and recognized ratably as revenue over the life of the contract. Freight charges billed to customers are included in revenue. All freight related expenses are charged to cost of sales. Taxes assessed by government authorities that are imposed on and concurrent with revenue-producing transactions, such as sales and value added taxes, are reported on a net basis (excluded from revenue).

We do not recognize revenues to the extent that we offer a right of return or other recourse with respect to the sale of our products, other than returns for product defects or other warranty claims, nor do we recognize revenues if we offer variable sale prices for subsequent events or activities. However, as part of our sales processes we may provide upfront discounts for large orders, one-time special pricing to support new product introductions, sales rebates for centralized purchasing entities or price-breaks for regular order volumes. The costs of all such programs are recorded as an adjustment to revenue. Our products are predominantly therapy-based equipment and require no installation. As such, we have no significant installation obligations.

(c) Cash and Cash Equivalents

Cash equivalents include certificates of deposit and other highly liquid investments and are stated at cost, which approximates market. Investments with maturities of 90 days or less are considered to be cash equivalents for purposes of the condensed consolidated statements of cash flows.

(d) Inventories

Inventories are stated at the lower of cost, determined principally by the first-in, first-out method, or net realizable value. Finished goods and work-in-process inventories include material, labor and manufacturing overhead costs. We review and provide for any product obsolescence in our manufacturing and distribution operations with assessments of individual products and components (based on estimated future usage and sales) being performed throughout the year.

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(e) Property, Plant and Equipment

Property, plant and equipment, including rental equipment are recorded at cost. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets, generally two to ten years except for buildings, which are depreciated over an estimated useful life of 40 years. Straight-line and accelerated methods of depreciation are used for tax purposes. Maintenance and repairs are charged to expense as incurred.

We capitalize interest in connection with the construction of facilities. Actual construction costs incurred relating to facilities under active development qualify for interest capitalization. Interest capitalization ceases when the construction of a facility is complete and available for use. During the three and six months ended December 31, 2009, we did not capitalize interest relating to such construction costs. During the three and six months ended December 31, 2008, we capitalized interest of \$0.6 and \$1.2 million, respectively.

(f) Intangible Assets

The registration costs for new patents are capitalized and amortized over the estimated useful life of the patent, generally five years. In the event of a patent being superseded, the unamortized costs are written off immediately.

Other intangible assets are amortized on a straight-line basis over their estimated useful lives, which range from three to nine years. We evaluate the recoverability of intangible assets periodically and take into account events or circumstances that warrant revised estimates of useful lives or that indicate that impairment exists. All of our intangible assets are subject to amortization. No impairment of intangible assets has been identified during any of the periods presented.

(g) Goodwill

We conducted our annual review for goodwill impairment during the final quarter of fiscal 2009. In conducting our review of goodwill impairment we identified reporting units, being components of our operating segment of each of the entities acquired and giving rise to the goodwill. The fair value for each reporting unit was determined based on discounted cash flows and involved a two-step process as follows:

Edgar Filing: RESMED INC - Form 10-Q

Step 1 - Compare the fair value for each reporting unit to its carrying value, including goodwill. For each reporting unit where the carrying value, including goodwill, exceeds the reporting unit's fair value, move on to step 2. If a reporting unit's fair value exceeds the carrying value, no further work is performed and no impairment charge is necessary.

- 8 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(g) Goodwill (continued)

Step 2 - Allocate the fair value of the reporting unit to its identifiable tangible and non-goodwill intangible assets and liabilities. This will derive an implied fair value for the goodwill. Then, compare the implied fair value of the reporting unit's goodwill with the carrying amount of the reporting unit's goodwill. If the carrying amount of the reporting unit's goodwill is greater than the implied fair value of its goodwill, an impairment loss must be recognized for the excess.

The results of the review during the final quarter of fiscal 2009 indicated that goodwill was not impaired.

(h) Foreign Currency

The consolidated financial statements of our non-U.S. subsidiaries, whose functional currencies are other than U.S. dollars, are translated into U.S. dollars for financial reporting purposes. Assets and liabilities of non-U.S. subsidiaries whose functional currencies are other than U.S. dollars are translated at period-end exchange rates, and revenue and expense transactions are translated at average exchange rates for the period. Cumulative translation adjustments are recognized as part of comprehensive income, as described in Note 5, and are included in accumulated other comprehensive income in the condensed consolidated balance sheet until such time as the subsidiary is sold or substantially or completely liquidated. Gains and losses on transactions denominated in other than the functional currency of the entity are reflected in the condensed consolidated financial statements.

(i) Research and Development

All research and development costs are expensed in the period incurred.

(j) Earnings Per Share

Basic earnings per share is computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding and the number of

dilutive common stock equivalents such as stock options and restricted stock units.

The weighted average shares used to calculate basic earnings per share were 75,123,000 and 75,742,000 for the three months ended December 31, 2009 and 2008, respectively, and were 75,272,000 and 75,678,000 for the six months ended December 31, 2009 and 2008, respectively. The difference between basic earnings per share and diluted earnings per share is attributable to the impact of outstanding stock options during the periods presented. Stock options had the effect of increasing the number of shares used in the calculation (by application of the treasury stock method) by 1,911,000 and 1,616,000 for the three months ended December 31, 2009 and 2008, respectively, and 1,602,000 and 1,591,000 for the six months ended December 31, 2009 and 2008, respectively.

- 9 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(2) Summary of Significant Accounting Policies, Continued****(j) Earnings Per Share (continued)**

Stock options and restricted stock units of 1,247,000 and 8,176,000 for the three months ended December 31, 2009 and 2008, respectively, and stock options and restricted stock units of 2,372,000 and 14,016,000 for the six months ended December 31, 2009 and 2008, respectively, were not included in the computation of diluted earnings per share as the effect of exercising these options or issuing the restricted stock units would have been anti-dilutive.

Basic and diluted earnings per share for the three months ended December 31, 2009 and 2008 and the six months ended December 31, 2009 and 2008 are calculated as follows (in thousands except per share data):

	Three Months Ended December 31,		Six Months Ended December 31,	
	2009	2008	2009	2008
Numerator:				
Net income, used in calculating diluted earnings per share	\$ 45,983	\$ 33,853	\$ 88,085	\$ 61,879
Denominator:				
Basic weighted-average common shares outstanding	75,123	75,742	75,272	75,678
Effect of dilutive securities:				
Stock options	1,911	1,616	1,602	1,591
Diluted weighted average shares	77,034	77,358	76,874	77,269
Basic earnings per share	\$ 0.61	\$ 0.45	\$ 1.17	\$ 0.82
Diluted earnings per share	\$ 0.60	\$ 0.44	\$ 1.15	\$ 0.80

(k) Financial Instruments

The carrying value of financial instruments, such as cash and cash equivalents, accounts receivable and accounts payable, approximate their fair value because of their short-term nature. The carrying value of long-term debt approximates the fair value as the principal amounts outstanding are subject to variable interest rates that are based on market rates which are regularly reset. Foreign currency option contracts are marked to market and therefore reflect their fair value. We do not hold or issue financial instruments for trading purposes. The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(1) Foreign Exchange Risk Management

We enter into various types of foreign exchange contracts in managing our foreign exchange risk, including derivative financial instruments encompassing forward exchange contracts and foreign currency options.

The purpose of our foreign currency hedging activities is to protect us from adverse exchange rate fluctuations with respect to net cash movements resulting from the sales of products to foreign customers and our Australian manufacturing activities. We enter into foreign currency hedging contracts to hedge anticipated sales and manufacturing costs, principally denominated in Australian dollars, Euros and British Pounds Sterling. The terms of such foreign currency option contracts generally do not exceed three years.

Our foreign currency derivatives portfolio represents a cash flow hedge program against the net cash flow of our international manufacturing operations. We have determined our hedge program to be a non-effective hedge. The foreign currency derivatives portfolio is recorded in the condensed consolidated balance sheets at fair value and included in other assets or other liabilities.

All movements in the fair value of the foreign currency derivatives are recorded within other income, net in our condensed consolidated statements of income.

We are exposed to credit-related losses in the event of non-performance by counter parties to financial instruments. The credit exposure of foreign currency derivatives at December 31, 2009 and June 30, 2009 was \$12.3 million and \$7.8 million, respectively, which represents the positive fair value of foreign currency derivatives held. These values are included in the current and non-current balances of other assets on the condensed consolidated balance sheets.

We held foreign currency derivatives with notional amounts totaling \$221.9 million and \$191.7 million at December 31, 2009 and June 30, 2009, respectively, to hedge foreign currency fluctuations. These contracts mature at various dates prior to December 31, 2012.

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(2) Summary of Significant Accounting Policies, Continued

(m) Income Taxes

We account for income taxes in accordance with the Financial Accounting Standards Board's (FASB) authoritative guidance for accounting for income taxes, which requires deferred tax assets and liabilities to be recognized using enacted tax rates for the effect of temporary differences between the financial statement and tax bases of recorded assets and liabilities. The guidance also requires that deferred tax assets be reduced by a valuation allowance if it is more likely than not that a portion of the deferred tax asset will not be realized. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. We have determined that our future taxable income will be sufficient to recover our deferred tax assets, reported net of any valuation allowance. If in the future we determine that a change has occurred which will not allow this recovery, we will revise any valuation allowance against our deferred tax assets. This will result in a charge against our income tax provision.

The calculation of our effective tax rate is dependent upon the geographic composition of our worldwide earnings, tax regulations governing each region and the availability of tax credits. In addition, the calculation of our tax liabilities involves uncertainties in the application of complex tax laws and regulations. We recognize these uncertainties in accordance with the relevant accounting guidance. The final payment of the amounts regarding these uncertainties may ultimately prove to be less than or greater than our estimate. If this occurs there will be either a benefit or a charge to our income tax provision.

(n) Investment Securities

Management determines the appropriate classification of our investments in debt and equity securities at the time of purchase and re-evaluates such determination at each balance sheet date. Debt securities for which we do not have the intent or ability to hold to maturity are classified as available-for-sale. Securities available-for-sale are carried at fair value, with the unrealized gains and losses, net of tax, reported in accumulated other comprehensive income.

At December 31, 2009 and June 30, 2009, the investments in debt securities are classified on the accompanying condensed consolidated balance sheet as investment securities.

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(2) Summary of Significant Accounting Policies, Continued****(o) Warranty**

Estimated future warranty costs related to certain products are charged to operations in the period in which the related revenue is recognized. The liability for warranty costs is included in accrued expenses in our condensed consolidated balance sheets.

Changes in the liability for product warranty for the six months ended December 31, 2009 are as follows (in thousands):

Balance at July 1, 2009	\$ 8,295
Warranty accruals for the six months ended December 31, 2009	7,634
Warranty costs incurred for the six months ended December 31, 2009	(5,138)
Foreign currency translation adjustments	829
Balance at December 31, 2009	\$ 11,620

(p) Impairment of Long-Lived Assets

We periodically evaluate the carrying value of long-lived assets to be held and used, including certain identifiable intangible assets, when events and circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset group to future net cash flows expected to be generated by the asset group. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell.

(q) Cost-Method Investments

The aggregate carrying amount of our cost-method investments at December 31, 2009 and June 30, 2009 was \$2.0 million and \$2.2 million, respectively. We review the carrying value of these investments at each balance sheet date. During the three and six months ended December 31, 2009, we recognized \$Nil and \$0.3 million, respectively, of impairment losses related to one of our investments. This was based on the determination that the impairment was other-than temporary. The written down investment related to a privately held service company. The expense associated with this impairment has been included in the other income (expense) line within the condensed consolidated statements of income. We have determined, subsequent to the impairment charge, that the carrying value of our remaining cost method investments do not exceed their estimated fair values.

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(2) Summary of Significant Accounting Policies, Continued****(r) Stock-Based Employee Compensation**

We have granted stock options and restricted stock units to personnel, including officers and directors, under the ResMed Inc. 2009 Incentive Award Plan (the 2009 Plan), the 2006 Incentive Award Plan, as amended (the 2006 Plan) and the Amended and Restated ResMed Inc. 2006 Incentive Award Plan (the 2006 Amended Plan). These options and restricted stock units have expiration dates of seven years from the date of grant and vest over one or four years. We granted the options with the exercise price equal to the market value as determined at the date of grant. We have also offered to our personnel, including officers and directors, the right to purchase shares of our common stock at a discount under the ResMed Inc. 2009 Employee Stock Purchase Plan (the ESPP).

We measure the compensation expense of all stock-based awards at fair value on the date of grant and recognize the compensation expense over the service period for awards expected to vest. The fair value of stock options is determined using the Black-Scholes valuation model. Such value is recognized as expense over the service period, using the straight-line method for stock-based awards. The fair value of restricted stock units is equal to the market value as determined at the date of grant.

The fair value of stock options granted under our stock option plans and purchase rights granted under the ESPP is estimated on the date of the grant using the Black-Scholes valuation model, assuming no dividends and the following assumptions:

	Three months ended		Six months ended	
	December 31,		December 31,	
	2009	2008	2009	2008
Stock options:				
Weighted average grant date fair value	\$16.14	\$10.54	\$16.04	\$10.54 - \$11.04

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(2) Summary of Significant Accounting Policies, Continued****(r) Stock-Based Employee Compensation, Continued**

Expected volatilities are based on a combination of historical volatilities of our stock and the implied volatilities from traded options of our stock corresponding to the expected term of the options. We use a combination of the historic and implied volatilities as we believe the addition of the implied volatility is more representative of our future stock price trends. While there is a tradable market of options on our common stock, less emphasis is placed on the implied volatility of these options due to the relative low volumes of these traded options and the difference in the terms compared to our employee options. The expected life represents the weighted average period of time that options granted are expected to be outstanding giving consideration to vesting schedules and our historical exercise patterns. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option.

(3) Investment Securities

The estimated fair value of investment securities as of December 31, 2009 and June 30, 2009 are \$3.7 million and \$4.3 million, respectively. These investments are diversified among high credit quality investment grade securities in accordance with our investment policy. Expected maturities may differ from contractual maturities because the issuers of the securities may have the right to prepay obligations without prepayment penalties.

At December 31, 2009, our investment securities were held in AAA rated auction securities with various maturities between July 2039 and November 2047. These investments had regular roll-over or auction dates at which time the interest rates were re-set or the investments were redeemed for cash. During the six months ended December 31, 2009, one of the investment securities was redeemed at par value by the issuer and we received consideration of \$1.0 million. During the six months ended December 31, 2009, there were no auctions with respect to the remaining investment securities due to the current liquidity issues surrounding the domestic and global capital markets. We continue to earn interest on these investments in accordance with the contract until the next auction occurs. During November 2008, we accepted an offer from UBS that gave us a right to sell our investment securities back to UBS at full par value after June 29, 2010. At December 31, 2009, we have classified the investment securities as a current asset (non-current asset at June 30, 2009) as we expect to receive the cash relating to this investment within the next 12 months. However, in the event we need to access the funds invested in these auction rate securities prior to June 29, 2010, we may not be able to liquidate these securities at the par value. We also believe the current lack of

liquidity of these investments is temporary and have therefore recorded the excess of the carrying value over the fair value of \$0.3 million to comprehensive income within stockholders' equity. Additionally, based on our ability to access our cash and cash equivalents, expected operating cash flows, and other sources of cash, we do not anticipate the current lack of liquidity on these investments will affect our ability to operate the business in the ordinary course.

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(7) Goodwill**

Changes in the carrying amount of goodwill for the six months ended December 31, 2009 were as follows (in thousands):

Balance at July 1, 2009	\$ 213,169
Goodwill on acquisition of Laboratoires Narval SA	8,183
Foreign currency translation adjustments	3,742
Balance at December 31, 2009	\$ 225,094

On October 1, 2009 we acquired 100% of the outstanding shares of Laboratoires Narval SA. Based in France, Laboratoires Narval manufactures and distributes a mandibular repositioning device (MRD) that offers a solution to patients for snoring and obstructive sleep apnea (OSA), especially for those with mild OSA. With this acquisition, we add another therapy to supplement our existing positive airway pressure-based solutions, providing a broader offering for this patient group. The total purchase price was EUR 8 million in cash with potential contingent consideration cash payments of EUR 2 million based on the achievement of certain revenue milestones. In relation to the potential contingent consideration we have recognized a liability of EUR 1.4 million, which is based on the expectation that 70% of the revenue milestones will be achieved. The acquisition is not considered a material business combination. The acquisition of Laboratoires Narval has been accounted for using purchase accounting and is included in our consolidated financial statements from October 1, 2009. We have not incurred any material acquisition related costs in connection with the acquisition of Laboratoires Narval.

(8) Other Intangible Assets

Other intangible assets are comprised of the following as of December 31, 2009 and June 30, 2009 (in thousands):

	December 31, 2009	June 30, 2009
Developed/core product technology	\$41,093	\$34,388

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(9) Long-Term Debt**

Long-term debt at December 31, 2009 and June 30, 2009 consists of the following (in thousands):

	December 31, 2009	June 30, 2009
Current portion of long-term debt	\$50,525	\$67,545
Non-current portion of long-term debt	\$94,599	\$94,191
Total Long Term Debt	\$145,124	\$161,736

Revolving Facility

On February 27, 2009, ResMed Inc., and our wholly-owned subsidiaries, ResMed Corp., ResMed EAP Holdings Inc. and ResMed Motor Technologies Inc., entered into a Third Amendment to the March 1, 2006 Second Amended and Restated Revolving Loan Agreement with Union Bank of California, N.A. (the Loan Agreement).

The Loan Agreement was modified in order that the revolving commitment remains at \$65 million, otherwise it would have been reduced to \$55 million as of March 1, 2009. The entire outstanding principal amount must be repaid in full before March 1, 2011. The outstanding principal amount due under the revolving facility will bear interest at a rate equal to LIBOR plus 0.75% to 1.00% (depending on the applicable leverage ratio). At December 31, 2009, there was \$64.1 million outstanding under this revolving facility.

The obligations of ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. under the Loan Agreement are secured by substantially all of the personal property of each of ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc., and are guaranteed by ResMed Inc. under an Amended and Restated Continuing Guaranty and Pledge Agreement, which guaranty is secured by a pledge of the equity interests in ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. held by ResMed Inc. The Loan Agreement also contains customary covenants, including certain financial covenants and an obligation that ResMed Inc. maintain certain financial ratios, including a maximum ratio of total debt to EBITDA (as defined in the Loan Agreement), a fixed charge coverage ratio, a minimum tangible net worth, and a minimum ResMed Corp., ResMed Motor Technologies Inc. and ResMed EAP Holdings Inc. EBITDA.

In the third amendment, the Loan Agreement was also amended to modify certain financial covenants. The minimum fixed charge coverage ratio was revised to exclude capital expenditures related to construction of our new headquarters building. The requirement that ResMed Corp. and ResMed Motor Technologies Inc. maintain minimum earnings before interest, taxes, depreciation and amortization, or EBITDA, was increased to \$15 million. Finally, the requirement that we meet certain minimum liquidity levels was eliminated.

Edgar Filing: RESMED INC - Form 10-Q

The entire principal amount of the revolving facility and any accrued but unpaid interest may be declared immediately due and payable in the event of the occurrence of an event of default as defined in the Loan Agreement. Events of default include, among other items, failure to make payments when due, the occurrence of a material default in the performance of any covenants in the Loan Agreement or related amendments or a 35% or more change in control of ResMed Inc., ResMed Corp., ResMed Motor Technologies Inc. or ResMed EAP Holdings Inc. At December 31, 2009, we were in compliance with our debt covenants.

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(9) Long-Term Debt, Continued****Syndicated Facility**

On June 8, 2006, our wholly owned Australian subsidiary, ResMed Limited, entered into a Syndicated Facility Agreement with HSBC Bank Australia Limited as original financier, facility agent and security trustee, that provides for a loan in three tranches (the "Syndicated Facility Agreement").

Tranche A is a Euro (EUR) 50 million five-year term loan facility that refinanced all amounts outstanding under a previous facility. Tranche A bears interest at a rate equal to LIBOR for deposits denominated in EUR plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and its subsidiaries (the "ResMed Group") for the most recently completed fiscal year for the applicable interest period. The total outstanding principal amount of Tranche A must be repaid in full on June 8, 2011. At December 31, 2009, the Tranche A facility loan had an amount outstanding of EUR 15 million, equivalent to approximately U.S. dollars (USD) 21.5 million.

Tranche B is a USD 15 million term loan facility that may only be used for the purpose of financing capital expenditures and other asset acquisitions by the ResMed Group. Tranche B bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars, USD or British Pounds Sterling plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire principal amount must be repaid in full on June 8, 2011. At December 31, 2009 there was USD 9.0 million outstanding under the Tranche B loan facility.

Tranche C is a USD 60 million term loan facility that may only be used for the purpose of the payment by ResMed Limited of a dividend to ResMed Holdings Limited, which will ultimately be paid to ResMed Inc. Tranche C bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars or USD plus a margin of 0.70% or 0.80%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire outstanding principal amount was repaid in full during the three months ended June 30, 2009. At December 31, 2009, the Tranche C loan facility was no longer available.

Simultaneous with the Syndicated Facility Agreement, ResMed Limited entered into a working capital agreement with HSBC Bank Australia Limited for revolving, letter of credit and overdraft facilities up to a total commitment of 6.5 million Australian dollars, and ResMed (UK) Limited entered into a working capital agreement with HSBC Bank plc for a revolving cash advance facility for a total commitment of up to 3 million British Pounds Sterling. At December 31, 2009, there were no amounts outstanding under either of these facilities.

Edgar Filing: RESMED INC - Form 10-Q

On September 30, 2008, our wholly-owned Australian subsidiary, ResMed Limited, agreed to amend and restate the Syndicated Facility Agreement entered into on June 8, 2006. The amended and restated agreement (First Amended and Restated Syndicated Facility Agreement) with the Hong Kong and Shanghai Banking Corporation, Sydney Branch as financier and HSBC Bank Australia Limited as facility agent and security trustee, provided for an additional Tranche D term loan facility in the amount of USD 50 million.

- 19 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(9) Long-Term Debt, Continued**

On September 30, 2009, ResMed Limited, agreed to amend and restate for a second time the Syndicated Facility Agreement. The second amended and restated agreement (Second Amended and Restated Syndicated Facility Agreement) provides for the extension of our Tranche D term loan facility in the amount of USD 50 million for an additional 12 month period and to increase the interest rate applicable to the Tranche D portion of the loan facility. The financier continues to have the right to assign part or all of its rights and/or obligations under the Second Amended and Restated Syndicated Facility Agreement to other financial institutions. The extended Tranche D loan facility bears interest at a rate equal to LIBOR for deposits denominated in USD, plus a margin of 2.25% or 2.50%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire principal amount of the additional loan facility must be repaid in full by September 30, 2010. At December 31, 2009 there was USD 50.0 million outstanding under the Tranche D loan facility.

The Syndicated Facility Agreement is secured by a pledge of one hundred percent of the shares of ResMed Inc.'s subsidiary, ResMed Paris SAS (formerly Saime SAS), pursuant to a pledge agreement. The Syndicated Facility Agreement also contains customary covenants, including certain financial covenants and an obligation that ResMed Limited maintains certain financial ratios, including a minimum debt service cover ratio, a maximum ratio of total debt to EBITDA and a minimum tangible net worth. The entire principal amount of the loan and any accrued, but unpaid, interest may be declared immediately due and payable in the event of the occurrence of an event of default as defined in the Syndicated Facility Agreement. Events of default include, among other items, failure to make payments when due, breaches of representations, warranties or covenants, the occurrence of certain insolvency events, the occurrence of an event or change which could have a material adverse effect on ResMed Limited and its subsidiaries, and if ResMed Inc. ceases to control ResMed Limited, ResMed Corp., ResMed SAS, ResMed GmbH & Co. KG, ResMed (UK) Limited, Take Air Medical Handels-GmbH or ResMed Paris SAS.

The obligations of ResMed Limited under the loan facility are subject to two guarantee and indemnity agreements, one on behalf of ResMed Inc. and its U.S. subsidiary, ResMed Corp., and another on behalf of ResMed's international subsidiaries, ResMed SAS (other than Tranche C), ResMed GmbH & Co. KG, ResMed (UK) Limited and Take Air Medical Handels-GmbH. At December 31, 2009, we were in compliance with our debt covenants.

Prepayment Facility

During the quarter ended September 30, 2009, ResMed EPN Limited, our wholly-owned UK subsidiary, obtained access to a Prepayment Facility with HSBC Invoice Finance (UK) Limited that provides for a cash advance facility up

Edgar Filing: RESMED INC - Form 10-Q

to a total commitment of 5 million British Pounds Sterling. These advances are limited to 75% of secured outstanding sales invoices. At December 31, 2009, there were no amounts outstanding under this facility.

Details of contractual debt maturities at December 31, 2009 are as follows (in thousands):

	Total	Payments Due by Period					
		2010	2011	2012	2013	2014	Thereafter

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(10) Stockholders' Equity

Common Stock. On May 27, 2009, our Board of Directors approved a new share repurchase program, authorizing us to acquire up to an aggregate of 10.0 million shares of ResMed Inc. common stock. The program allows us to repurchase shares of our common stock from time to time for cash in the open market, or in negotiated or block transactions, as market and business conditions warrant. This program cancels and replaces our previous share repurchase program previously authorized on June 6, 2002 for 8.0 million shares and pursuant to which we had repurchased 6,622,907 shares. The new program authorizes us to purchase shares in addition to the shares we repurchased under our previous program. There is no expiration date for this program. All share repurchases after May 29, 2009 have been executed in accordance with this program.

During the three and six months ended December 31, 2009, we repurchased 0.6 million and 1.4 million shares, respectively, at a cost of \$30.1 million and \$65.8 million, respectively. At December 31, 2009, we have repurchased a total of 8.1 million shares at a cost of \$274.5 million, of which 6.6 million shares were repurchased pursuant to the repurchase program approved on June 6, 2002 and 1.5 million were repurchased pursuant to the new repurchase program approved on May 27, 2009. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At December 31, 2009, there is a remaining 8.5 million shares that can be repurchased under the approved repurchase program.

Preferred Stock. In April 1997, the Board of Directors authorized 2,000,000 shares of \$0.01 par value preferred stock. No such shares were issued or outstanding at December 31, 2009.

Stock Options and Restricted Stock Units. We have granted stock options and restricted stock units (RSUs) to personnel, including officers and directors, in accordance with the 2006 Plan, the 2006 Amended Plan and the 2009 Plan, which was approved at the annual meeting of the stockholders of ResMed Inc. on November 18, 2009. These options and RSUs have expiration dates of seven years from the date of grant and vest over one or four years. We have granted the options with an exercise price equal to the market value as determined at the date of grant.

The maximum number of shares of our common stock authorized for issuance under the 2009 Plan is 11,460,825. The number of securities remaining available for future issuance under the 2009 Plan at December 31, 2009 is 3,549,374. The number of shares of our common stock available for issuance under the 2009 Plan will be reduced by (i) two and four tenths (2.4) shares, an increase from two and one tenth (2.1) shares, for each one share of common stock delivered in settlement of any full-value award, which is any award other than a stock option, stock appreciation right or other award for which the holder pays the intrinsic value and (ii) one share for each share of common stock delivered in settlement of all other awards. The maximum number of shares, which may be subject to awards granted under the 2009 Plan to any individual during any calendar year, may not exceed 1,500,000 shares of our common

stock (except in a participant's initial year of hiring up to 2,250,000 shares of our common stock may be granted).

At December 31, 2009, there was \$61.6 million in unrecognized compensation costs related to unvested stock-based compensation arrangements. This is expected to be recognized over a weighted average period of 2.9 years. The aggregate intrinsic value of the options outstanding and the options exercisable at December 31, 2009 was \$158.9 million and \$101.5 million, respectively. The aggregate intrinsic value of the options exercised during the three months and six months ended December 31, 2009 was \$14.5 million and \$24.0 million, respectively.

Outstanding at end of period	338,663	\$51.08	2.49

Employee Stock Purchase Plan. The ResMed Inc. 2009 Employee Stock Purchase Plan (the ESPP) was approved at the annual meeting of the stockholders of ResMed Inc. on November 18, 2009, as an amendment to the previously approved employee stock purchase plan. Under the ESPP, participants are offered the right to purchase shares of our common stock at a discount during successive offering periods. Each offering period under the ESPP will be for a period of time determined by the Board of Directors' Compensation Committee of no less than 3 months and no more than 27 months. The purchase price for our common stock under the ESPP will be the lower of 85% of the fair market value of our common stock on the date of grant or 85% of the fair market value of our common stock on the date of purchase. An individual participant cannot subscribe for more than \$25,000 in common stock during any calendar year. As part of the approval of the ESPP at the annual meeting of the stockholders of ResMed Inc. on November 18,

2009, the number of shares of our common stock available for grant under the ESPP increased by 600,000 shares, from 500,000 shares to 1,100,000 shares. The number of securities remaining available for future issuance under the ESPP at December 31, 2009 is 627,766.

During the three and six months ended December 31, 2009, we issued 75,000 shares to our employees and we recognized \$0.4 million and \$0.8 million, respectively, of stock-based compensation expense associated with the ESPP.

(11) Fair Value Measurements

In determining the fair value measurements of our financial assets and liabilities, we consider the principal and most advantageous market in which we transact and consider assumptions that market participants would use when pricing the financial asset or liability. We maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

- 22 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(11) Fair Value Measurements, Continued**

The hierarchies of inputs are as follows:

Level 1: Input prices quoted in an active market for identical financial assets or liabilities;

Level 2: Inputs other than prices quoted in Level 1, such as prices quoted for similar financial assets and liabilities in active markets, prices for identical assets and liabilities in markets that are not active or other inputs that are observable or can be corroborated by observable market data; and

Level 3: Input prices quoted that are significant to the fair value of the financial assets or liabilities which are not observable nor supported by an active market.

The following table summarizes our financial assets and liabilities using the valuation input hierarchy (in thousands):

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$451,431	\$-	\$-	\$451,431
Investment securities	-	3,746	-	3,746
Cost-method investments	-	-	1,973	1,973
Foreign currency options	-	12,259	-	12,259
	\$451,431	\$16,005	\$1,973	\$496,409

We determine the fair value of our financial assets as follows:

Cash and cash equivalents The valuation used for our cash and other money market funds are derived from quoted market prices due to their short term nature and there is an active market for these financial instruments.

Investment securities These securities represent our auction rate securities as described in Note 3. At December 31, 2009, we had investments totaling \$4.0 million at par value with an estimated fair value of \$3.7 million. The value of these securities are calculated by third party valuation models based on observable market prices and inputs including future cash flows, yields and spreads.

Cost-method investments These investments include our holdings in privately held service companies and research

companies that are not exchange traded and therefore not supported with observable market prices. However, these investments are valued by reference to their net asset values which can be market supported and observable inputs including future cash flows.

Foreign currency options These financial instruments are valued using third party valuation models based on market observable inputs, including interest rate curves, on market spot currency prices, volatilities and credit risk.

The following table shows a reconciliation of the changes in the six months ended December 31, 2009 for fair value measurements using significant unobservable inputs (thousands):

	Cost-Method Investments
Balance at July 1, 2009	\$2,201
Impairment of cost-method investment	(250)
Foreign currency translation	22
Balance at December 31, 2009	\$1,973

Item 1

RESMED INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

(12) Legal Actions and Contingencies

In the normal course of business, we are subject to routine litigation incidental to our business. While the results of this litigation cannot be predicted with certainty, we believe that their final outcome will not have a material adverse effect on our consolidated financial statements taken as a whole.

During September and October 2004, we began receiving tax assessment notices for the audit of one of our German subsidiaries by the German tax authorities for the years 1996 through 1998. Certain aspects of these assessment notices are being contested and appealed to the German tax authority office. As the outcome of the appeal cannot be predicted with certainty, any tax issues resolved in a manner not consistent with our expectations may require us to adjust our provision for income tax in the period of resolution.

In February 2007, the University of Sydney commenced legal action in the Federal Court of Australia against us, claiming breach of a license agreement and infringement of certain intellectual property. The claim has been amended to include an allegation of breach of confidentiality. The university is seeking various types of relief, including an injunction against manufacturing, supplying, offering for sale, selling or exporting certain mask devices, payment of license fees, damages or an account of profits, interest, costs and declaration of a constructive trust over and assignment of certain intellectual property. In October 2007, we filed a defense denying the university's claim, as well as a cross-claim against the university seeking an order for rectification of the contract and alleging the university violated the Australian Trade Practices Act. The matter is ongoing. We do not expect the outcome of this matter to have a material adverse effect on our consolidated financial statements.

(13) Derivative Instruments and Hedging Activities

We transact business in various foreign currencies, including a number of major European currencies as well as the Australian dollar. We have significant foreign currency exposure through both our Australian manufacturing activities and international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing expenditures. The terms of such foreign currency option contracts generally do not exceed three years. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures denominated in Euros, Australian dollars and British Pounds. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments.

We have determined our hedge program to be a non-effective hedge. All movements in the fair value of the foreign

currency instruments are recorded within other income, net in our condensed consolidated statements of income. We do not enter into financial instruments for trading or speculative purposes.

- 24 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 1

RESMED INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements****(Unaudited)****(13) Derivative Instruments and Hedging Activities, Continued**

We held foreign currency instruments with notional amounts totaling \$221.9 million and \$191.7 million at December 31, 2009 and June 30, 2009, respectively, to hedge foreign currency fluctuations. These foreign currency instruments mature at various dates prior to December 31, 2012. The fair value and effect of derivative instruments on our condensed consolidated financial statements were as follows:

	Asset Derivatives	December 31, 2009		Gain/(loss) recognized in Income on Derivative
Derivatives Not Designated as Hedging Instruments	Balance Sheet Location	Fair Value	Location of gain/ (loss) recognized in Income on Derivative	Six Months Ended December 31, 2009
Foreign Exchange Contracts	Other Assets	\$12,259	Other Income/(Expense)	\$9,803

We are exposed to credit-related losses in the event of non-performance by counter parties to financial instruments. The credit exposure of foreign currency derivatives at December 31, 2009 and June 30, 2009 was \$12.3 million and \$7.8 million, respectively, which represents the positive fair value of our foreign currency derivatives. These values are included in the current and non-current balances of other assets on the condensed consolidated balance sheets.

(14) Subsequent Events

We have evaluated any events or transactions occurring after December 31, 2009, the balance sheet date, through February 5, 2009, the date that consolidated financial statements were issued, and noted that there have been no such events or transactions which would impact our consolidated financial statements for the three and six months ended December 31, 2009.

Special Note Regarding Forward-Looking Statements**

This report contains or may contain certain forward-looking statements and information that are based on the beliefs of our management as well as estimates and assumptions made by, and information currently available to, our management. All statements other than statements regarding historical facts are forward-looking statements. The words believe, expect, anticipate, will continue, will, estimate, plan, future and other similar expressions in these statements of such expressions, generally identify forward-looking statements, including, in particular, statements regarding the development and approval of new products and product applications, market expansion, pending litigation and the development of new markets for our products, such as cardiovascular and stroke markets. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on these forward-looking statements. Such forward-looking statements reflect the views of our management at the time such statements are made and are subject to a number of risks, uncertainties, estimates and assumptions, including, without limitation, and in addition to those identified in the text surrounding such statements, those identified in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009 and elsewhere in this report.

In addition, important factors to consider in evaluating such forward-looking statements include changes or developments in healthcare reform, social, economic, market, legal or regulatory circumstances, changes in our business or growth strategy or an inability to execute our strategy due to changes in our industry or the economy generally, the emergence of new or growing competitors, the actions or omissions of third parties, including suppliers, customers, competitors and governmental authorities and various other factors. Should any one or more of these risks or uncertainties materialize, or underlying estimates or assumptions prove incorrect, actual results may vary significantly from those expressed in such forward-looking statements, and there can be no assurance that the forward-looking statements contained in this report will in fact occur.

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described in our annual report on Form 10-K, in addition to the other cautionary statements and risks described elsewhere in this report and in our other filings with the SEC, including our subsequent reports on Forms 10-Q and 8-K. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on us, our business, financial condition and results of operations could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

Item 2

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following is an overview of our results of operations for the three and six months ended December 31, 2009. Management's discussion and analysis (MD&A) of financial condition and results of operations is intended to help the reader understand the results of operations and financial condition of ResMed Inc. MD&A is provided as a supplement to, and should be read in conjunction with selected financial data and condensed consolidated financial statements and notes, included herein.

We are a leading developer, manufacturer and distributor of medical equipment for treating, diagnosing, and managing sleep-disordered breathing (SDB) and other respiratory disorders. During the three and six months ended December 31, 2009 we continued our efforts to build awareness of the consequences of untreated SDB, and to grow our business in this market. We are taking steps to increase awareness of the health dangers of sleep-disordered breathing by sponsoring educational programs targeted at healthcare professionals, particularly the primary care physician community. These efforts should further increase awareness of both doctors and patients about the relationship between sleep-disordered breathing, obstructive sleep apnea and co-morbidities such as cardiac disease, diabetes, hypertension and obesity. They should also support our efforts to inform the community of the dangers of sleep apnea for occupational health and safety, especially in the transport industry.

We are committed to ongoing investment in research and development and product enhancements. During the three and six months ended December 31, 2009 we invested \$19.1 million and \$37.0 million respectively, on research and development activities. Since the development of Continuous Positive Airway Pressure (CPAP), we have developed a number of innovative products for SDB and other respiratory disorders including airflow generators, diagnostic products, mask systems, headgear and other accessories. Our new product release schedule remains active across both our mask and flow generator categories. We have recently introduced the ApneaLink Plus, our type 3 device for home sleep testing, the Swift FX mask in Europe and the Mirage SoftGel mask in the Americas.

During the quarter ended December 31, 2009, our net revenue increased by 23% when compared to the quarter ended December 31, 2008. Gross margin was 60% for the quarter ended December 31, 2009 compared to 59% for the quarter ended December 31, 2008. Diluted earnings per share for the quarter ended December 31, 2009 increased to \$0.60 per share, up from \$0.44 per share in the quarter ended December 31, 2008.

At December 31, 2009, our cash and cash equivalents totaled \$451.4 million, our total assets were \$1.6 billion and our stockholders' equity was \$1.3 billion.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Net Revenue**

Net revenue increased for the three months ended December 31, 2009 to \$275.1 million compared to \$223.0 million for the three months ended December 31, 2008, an increase of \$52.2 million or 23%. The increase in net revenue is primarily attributable to an increase in unit sales of our flow generators, masks and accessories. Movements in international currencies against the U.S. dollar positively impacted revenues by approximately \$13.3 million during the three months ended December 31, 2009. Excluding the impact of favorable foreign currency movements, net revenue for the three months ended December 31, 2009 increased by 17% compared to the three months ended December 31, 2008.

Net revenue in North and Latin America increased for the three months ended December 31, 2009 to \$148.0 million from \$123.1 million for the three months ended December 31, 2008, an increase of 20%. We believe this growth has been generated by increased public and physician awareness of sleep-disordered breathing and growth generated from our recent product releases including the S8II flow generator, VPAP IV bilevel flow generator and masks. Net international revenue, which includes all markets outside North and Latin America, for the three months ended December 31, 2009 increased to \$127.1 million from \$99.9 million, compared to the three months, ended December 31, 2008, an increase of 27%. Movements in international currencies against the U.S. dollar positively impacted international revenues by approximately \$13.3 million during the three months ended December 31, 2009. Excluding the impact of movements in international currencies, international sales grew by 14% compared to the three months ended December 31, 2008. We believe this international sales growth predominantly reflects growth in the overall sleep-disordered breathing market and growth generated from our recent product releases, including the S8II flow generator, VPAP IV bilevel flow generator and masks.

Revenue from the sales of flow generators, including humidifiers, for the three months ended December 31, 2009 totaled \$162.1 million, an increase of 29% compared to the three months ended December 31, 2008 of \$126.2 million, including increases of 24% in North and Latin America and 32% elsewhere. Revenue from the sales of masks, motors and other accessories for the three months ended December 31, 2009 totaled \$113.0 million, an increase of 17% compared to the three months ended December 31, 2008 of \$96.8 million, including increases of 16% in North and Latin America and 18% internationally. Excluding the impact of favorable currency movements, international revenue increased by 17% and 8% for revenue from flow generators and masks, motors and other accessories, respectively for the three months ended December 31, 2009 compared to the three months ended December 31, 2008. We believe these increases primarily reflect growth in the overall sleep-disordered breathing market and contributions from new products.

The following table summarizes the percentage movements in our net revenue for the three months ended December 31, 2009 compared to the three months ended December 31, 2008:

Edgar Filing: RESMED INC - Form 10-Q

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency) *
Flow generators	24%	32%	29%	17%	21%
Masks, motors and other accessories	16%	18%	17%	8%	13%
Total	20%	27%	23%	14%	17%

* Constant currency numbers exclude the impact of movements in international currencies.

- 28 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Net Revenue, continued**

Net revenue for the six months ended December 31, 2009, increased to \$522.1 million or 18% as compared to \$440.9 million for the six months ended December 31, 2008. For the six months ended December 31, 2009, revenue from sales of flow generators increased by 20% compared to the six months ended December 31, 2008, comprising a 20% increase in North and Latin America and a 21% increase internationally. Revenue from sales of mask systems, motors and other accessories increased by 16 comprising a 19% increase in North and Latin America and a 10% increase internationally, for the six months ended December 31, 2009 compared to the six months ended December 31, 2008. Movement in international currencies against the U.S. dollar positively impacted net revenue by approximately \$8.0 million during the six months ended December 31, 2009. Excluding the impact of favorable currency movements, total revenue for the six months ended December 31, 2009 increased by 17% compared to the six months ended December 31, 2008. We believe these increases primarily reflect growth in the overall sleep-disordered breathing market, and strong sales from our new products.

The following table summarizes the percentage movements in our net revenue for the six months ended December 31, 2009 compared to the six months ended December 31, 2008:

	North and Latin America	International	Total	International (Constant Currency) *	Total (Constant Currency) *
Flow generators	20%	21%	20%	16%	18%
Masks, motors and other accessories	19%	10%	16%	8%	15%
Total	19%	17%	18%	13%	17%

* Constant currency numbers exclude the impact of movements in international currencies.

Gross Profit

Gross profit increased for the three months ended December 31, 2009 to \$164.2 million from \$131.0 million for the three months ended December 31, 2008, an increase of \$33.2 million or 25%. Gross profit as a percentage of net revenue for the three months ended December 31, 2009 increased to 59.7% from 58.8% for the three months ended December 31, 2008.

Gross profit increased for the six months ended December 31, 2009 to \$314.4 million from \$258.2 million for the six months ended December 31, 2008, an increase of \$56.2 million or 22%. Gross profit as a percentage of net revenue for the six months ended December 31, 2009 was 60.2% compared to 58.5% for the six months ended December 31, 2008.

The increase in gross margins for the three and six months ended December 31, 2009 is primarily due to cost savings attributable to manufacturing and supply chain improvements and the depreciation of the Australian dollar against the U.S. dollar, as the majority of our manufacturing labor and overhead is denominated in Australian dollars.

- 29 -

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Selling, General and Administrative Expenses**

Selling, general and administrative expenses increased for the three months ended December 31, 2009 to \$84.1 million from \$70.1 million for the three months ended December 31, 2008, an increase of \$14.0 million or 20%. Selling, general and administrative expenses, as a percentage of net revenue, were 30.6% for the three months ended December 31, 2009 compared to 31.4% for the three months ended December 31, 2008.

Selling, general and administrative expenses increased for the six months ended December 31, 2009 to \$160.9 million from \$141.4 million for the six months ended December 31, 2008, an increase of \$19.4 million or 14%. Selling, general and administrative expenses, as a percentage of net revenue, were 30.8% for the six months ended December 31, 2009 compared to 32.1% for the six months ended December 31, 2008.

The increase in selling, general and administrative expenses was primarily due to an increase in the number of sales and administrative personnel to support our growth, stock-based compensation costs and other expenses related to the increase in our sales. The increase in selling, general and administrative expenses was also impacted by the net depreciation of the U.S. dollar against international currencies, which increased our expenditure by approximately \$7.0 million and \$4.4 million for the three and six months ended December 31, 2009, respectively, as reported in U.S. dollars. We expect our future selling, general and administrative expenses to be between 30% and 31% of net revenue.

Research and Development Expenses

Research and development expenses increased for the three months ended December 31, 2009 to \$19.1 million from the \$14.9 million for the three months ended December 31, 2008, an increase of \$4.1 million or 28%. Research and development expenses, as a percentage of net revenue, were 6.9% for the three months ended December 31, 2009 compared to 6.7% for the three months ended December 31, 2008.

Research and development expenses increased for the six months ended December 31, 2009 to \$37.0 million from \$32.2 million for the six months ended December 31, 2008, an increase of \$4.8 million or 15%. Research and development expenses, as a percentage of net revenue, were 7.0%, for the six months ended December 31, 2009 compared to 7.3% for the six months ended December 31, 2008.

The increase in research and development expenses was primarily due to an increase in charges for consulting fees and an increase in clinical trials, but was also impacted by the net depreciation of the U.S. dollar against international currencies, which increased expenses by approximately \$4.0 million and \$3.0 million for the three months and six months ended December 31, 2009, respectively, as reported in U.S. dollars. We expect our future research and development expenses to be between 6% and 7% of net revenue.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Amortization of Acquired Intangible Assets**

Amortization of acquired intangible assets for the three and six months ended December 31, 2009 totaled \$2.1 million and \$4.0 million, respectively, as compared to \$1.7 million and \$3.6 million for the three and six months ended December 31, 2008, respectively. The increase in amortization expense is attributable to the recognition of intangibles associated with the recent acquisition of Laboratories Narval SA on October 1, 2009 and the depreciation of the U.S. dollar against the Euro as the majority of the acquired intangible assets are denominated in Euros.

Donations to Foundation

For the three and six months ended December 31, 2009, we donated a total of \$1.0 million and \$2.0 million, respectively, to the ResMed Foundation. The Foundation was established primarily to promote research into the deleterious medical consequences of untreated sleep-disordered breathing and to increase public and physician awareness of the importance of sleep and respiratory health throughout the world. For the three and six months ended December 31, 2008 we donated \$1.0 million to the Foundation.

Other Income, Net

Other income for the three months and six months ended December 31, 2009 was \$5.2 million and \$10.4 million respectively, compared to \$3.7 million and \$5.8 million for the three and six months ended December 31, 2008. The increase in other income was predominately due to gains on foreign currency and hedging transactions during the three and six months ended December 31, 2009 and an increase in interest income during the three and six months ended December 31, 2009.

Income Taxes

Our effective income tax rate of approximately 27.1% for the three months ended December 31, 2009 was lower than our effective income tax rate of approximately 27.9% for the three months ended December 31, 2008. Our effective income tax rate of approximately 27.2% for the six months ended December 31, 2009 was lower than our effective tax rate of 27.8% for the six months ended December 31, 2008. The lower tax rate was primarily due to a change in the geographic mix of taxable income, including the impact of lower taxes associated with our new Singapore manufacturing operation.

We continue to benefit from the Australian corporate tax rate of 30% and certain Australian research and development tax benefits because we generate the majority of our taxable income in Australia.

Net Income

Edgar Filing: RESMED INC - Form 10-Q

As a result of the factors above, our net income for the three months ended December 31, 2009 was \$46.0 million or \$0.60 per diluted share compared to net income of \$33.9 million or \$0.44 per diluted share for the three months ended December 31, 2008, an increase of 36% and 36%, respectively, over the three months ended December 31, 2008.

As a result of the factors above, our net income for the six months ended December 31, 2009 was \$88.1 million or \$1.15 per diluted share compared to net income of \$61.9 million or \$0.80 per diluted share for the six months ended December 31, 2008, an increase of 42% and 44%, respectively, over the six months ended December 31, 2008.

- 31 -

Table of Contents

PART I - FINANCIAL INFORMATION

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Liquidity and Capital Resources**

As of December 31, 2009 and June 30, 2009, we had cash and cash equivalents of \$451.4 million and \$415.7 million, respectively. Working capital was \$687.0 million and \$584.2 million at December 31, 2009 and June 30, 2009, respectively.

Inventories at December 31, 2009 were \$182.9 million, an increase of \$39.8 million or 28% over the December 31, 2008 balance of \$143.1 million. The percentage increase in inventories mainly reflects an increase in materials for new products and the impact of movements in foreign currency exchange rates, particularly the appreciation of the Australian dollar and Euro relative to the U.S. dollar.

Accounts receivable at December 31, 2009 were \$208.9 million, an increase of \$23.2 million or 12% over the December 31, 2008 accounts receivable balance of \$185.7 million. Accounts receivable days outstanding of 70 days at December 31, 2009, decreased by 6 days compared to the 76 days at December 31, 2008 due to an improvement in collections. Our allowance for doubtful accounts as a percentage of total accounts receivable at December 31, 2009 and June 30, 2009 was 3.6% and 3.4%, respectively. To date we have not experienced any significant adverse decline in the credit quality of our customers and it remains broadly consistent with our past experience.

At December 31, 2009 no capital lease obligations exist. Details of contractual obligations at December 31, 2009 are as follows:

In \$000 s	Total	Dec 31, 2010	Payments Due by Period				
			Dec 31, 2011	Dec 31, 2012	Dec 31, 2013	Dec 31, 2014	Thereafter
Long-Term Debt	\$145,124	\$50,525	\$94,599	\$ -	\$ -	\$ -	\$ -
Operating Leases	\$32,932	11,749	8,714	3,758	2,550	2,299	3,862
Purchase Obligations	\$97,431	97,399	23	9	-	-	-
Total Contractual Obligations ^(A)	\$275,487	\$159,673	\$103,336	\$3,767	\$2,550	\$2,299	\$3,862

^(A) The liabilities related to unrecognized tax benefits are not included in the above contractual obligations because the timing cannot be reliably estimated.

Details of other commercial commitments as at December 31, 2009 are as follows:

Amount of Commitment Expiration Per Period

Edgar Filing: RESMED INC - Form 10-Q

In \$000 s	Total	Dec 31, 2010	Dec 31, 2011	Dec 31, 2012	Dec 31, 2013	Dec 31, 2014	Thereafter

Item 2

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources, Continued

Revolving Facility

On February 27, 2009, ResMed Inc., and our wholly-owned subsidiaries, ResMed Corp., ResMed EAP Holdings Inc. and ResMed Motor Technologies Inc., entered into a Third Amendment to the March 1, 2006 Second Amended and Restated Revolving Loan Agreement with Union Bank of California, N.A.

The Loan Agreement was modified in order that the revolving commitment remains at \$65 million, otherwise it would have been reduced to \$55 million as of March 1, 2009, and to modify certain financial covenants. The minimum fixed charge coverage ratio was revised to exclude capital expenditures related to construction of our new headquarters building. The requirement that ResMed Corp. and ResMed Motor Technologies Inc. maintain minimum earnings before interest, taxes, depreciation and amortization, or EBITDA, was increased to \$15 million. Finally, the requirement that we meet certain minimum liquidity levels was eliminated.

The entire outstanding principal amount must be repaid in full before March 1, 2011. The outstanding principal amount due under the revolving facility will bear interest at a rate equal to LIBOR plus 0.75% to 1.00% (depending on the applicable leverage ratio). At December 31, 2009, there was \$64.1 million outstanding under this revolving facility.

Syndicated Facility

On June 8, 2006, our wholly owned Australian subsidiary, ResMed Limited, entered into a Syndicated Facility Agreement with HSBC Bank Australia Limited as original financier, facility agent and security trustee, that provides for a loan in three tranches (the "Syndicated Facility Agreement").

Tranche A is a Euro (EUR) 50 million five-year term loan facility that refinanced all amounts outstanding under a previous facility. Tranche A bears interest at a rate equal to LIBOR for deposits denominated in EUR plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of ResMed Inc. and its subsidiaries (the "ResMed Group") for the most recently completed fiscal year for the applicable interest period. The entire outstanding principal amount must be repaid in full on June 8, 2011. At December 31, 2009, the Tranche A facility loan had an amount outstanding of EUR 15 million, equivalent to approximately U.S. dollars (USD) 21.5 million.

Tranche B is a USD 15 million term loan facility that may only be used for the purpose of financing capital expenditures and other asset acquisitions by the ResMed Group. Tranche B bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars, USD or British Pounds Sterling plus a margin of 0.80% or 0.90%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year.

for the applicable interest period. The entire principal amount must be repaid in full on June 8, 2011. At December 31, 2009 there was USD 9.0 million outstanding under the Tranche B loan facility.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Liquidity and Capital Resources, Continued**

Tranche C is a USD 60 million term loan facility that may only be used for the purpose of the payment by ResMed Limited of a dividend to ResMed Holdings Limited, which will ultimately be paid to ResMed Inc. Tranche C bears interest at a rate equal to LIBOR for deposits denominated in EUR, Australian dollars or USD plus a margin of 0.70% or 0.80%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire outstanding principal amount was repaid in full during the three months ended June 30, 2009. At December 31, 2009, the Tranche C loan facility was no longer available.

Simultaneous with the Syndicated Facility Agreement, ResMed Limited entered into a working capital agreement with HSBC Bank Australia Limited for revolving, letter of credit and overdraft facilities up to a total commitment of 6.5 million Australian dollars, and ResMed (UK) Limited entered into a working capital agreement with HSBC Bank plc for a revolving cash advance facility for a total commitment of up to 3 million British Pounds Sterling. At December 31, 2009, there were no amounts outstanding under either of these facilities.

On September 30, 2008, our wholly-owned Australian subsidiary, ResMed Limited, agreed to amend and restate the Syndicated Facility Agreement entered into on June 8, 2006. The amended and restated agreement (First Amended and Restated Syndicated Facility Agreement) with the Hong Kong and Shanghai Banking Corporation, Sydney Branch as financier and HSBC Bank Australia Limited as facility agent and security trustee, provided for an additional Tranche D term loan facility in the amount of USD 50 million.

On September 30, 2009, ResMed Limited, agreed to amend and restate for a second time the Syndicated Facility Agreement. The second amended and restated agreement (Second Amended and Restated Syndicated Facility Agreement) provides for the extension of our Tranche D term loan facility in the amount of USD 50 million for an additional 12 month period and to increase the interest rate applicable to the Tranche D portion of the loan facility. The financier continues to have the right to assign part or all of its rights and/or obligations under the Second Amended and Restated Syndicated Facility Agreement to other financial institutions. The extended Tranche D loan facility bears interest at a rate equal to LIBOR for deposits denominated in USD, plus a margin of 2.25% or 2.50%, depending on the ratio of the total debt to EBITDA of the ResMed Group for the most recently completed fiscal year for the applicable interest period. The entire principal amount of the additional loan facility must be repaid in full by September 30, 2010. At December 31, 2009 there was USD 50.0 million outstanding under the Tranche D loan facility.

The Syndicated Facility Agreement is secured by a pledge of one hundred percent of the shares of ResMed Inc.'s subsidiary, ResMed Paris SAS (formerly Saime SAS), pursuant to a pledge agreement. The Syndicated Facility Agreement also contains customary covenants, including certain financial covenants and an obligation that ResMed Limited maintains certain financial ratios, including a minimum debt service cover ratio, a maximum ratio of total

debt to EBITDA and a minimum tangible net worth. The entire principal amount of the loan and any accrued, but unpaid, interest may be declared immediately due and payable in the event of the occurrence of an event of default as defined in the Syndicated Facility Agreement. Events of default include, among other items, failure to make payments when due, breaches of representations, warranties or covenants, the occurrence of certain insolvency events, the occurrence of an event or change which could have a material adverse effect on ResMed Limited and its subsidiaries, and if ResMed Inc. ceases to control ResMed Limited, ResMed Corp., ResMed SAS, ResMed GmbH & Co. KG, ResMed (UK) Limited, Take Air Medical Handels-GmbH or ResMed Paris SAS.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources, Continued

The obligations of ResMed Limited under the loan facility are subject to two guarantee and indemnity agreements, one on behalf of ResMed Inc. and its U.S. subsidiary, ResMed Corp., and another on behalf of ResMed's international subsidiaries, ResMed SAS (other than Tranche C), ResMed GmbH & Co. KG, ResMed (UK) Limited and Take Air Medical Handels-GmbH. At December 31, 2009, we were in compliance with our debt covenants.

Prepayment Facility

During the quarter ended September 30, 2009 ResMed EPN Limited, our wholly owned UK subsidiary, obtained access to a Prepayment Facility with HSBC Invoice Finance (UK) Limited that provides for a cash advance facility up to a total commitment of 5 million British Pounds Sterling. These advances are limited to 75% of secured outstanding sales invoices. At December 31, 2009, there were no amounts outstanding under this facility.

We expect to satisfy all of our short-term liquidity requirements through a combination of cash on hand, cash generated from operations and our \$13.8 million in undrawn facilities, which was available at December 31, 2009.

Common stock

On May 27, 2009, our Board of Directors approved a new share repurchase program, authorizing us to acquire up to an aggregate of 10.0 million shares of ResMed Inc. common stock. During the three and six months ended December 31, 2009, we repurchased 0.6 million and 1.4 million shares, respectively, at a cost of \$30.1 million and \$65.8 million, respectively. At December 31, 2009, we have repurchased a total of 8.1 million shares at a cost of \$274.5 million, of which 6.6 million shares were repurchased pursuant to the repurchase program approved on June 6, 2002 and 1.5 million were repurchased pursuant to the new repurchase program approved on May 27, 2009. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares outstanding used in calculating earnings per share. At December 31, 2009, there is a remaining 8.5 million shares that can be repurchased under the share repurchase program approved May 27, 2009.

RESMED INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Principles and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis we evaluate our estimates, including those related to allowance for doubtful accounts, inventory reserves, warranty obligations, goodwill, potentially impaired assets, intangible assets, income taxes and contingencies.

We state these accounting policies in the notes to the financial statements and at relevant sections in this discussion and analysis. The estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could vary from those estimates under different assumptions or conditions.

We believe that the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our financial statements:

(1) Allowance for Doubtful Accounts. We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments, which results in bad debt expense. We determine the adequacy of this allowance by continually evaluating individual customer receivables, considering a customer's financial condition, credit history and current economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

(2) Inventory Adjustments. Inventories are stated at lower of cost or market and are determined by the first-in, first-out method. We review the components of inventory on a regular basis for excess, obsolete and impaired inventory based on estimated future usage and sales. The likelihood of any material inventory write-downs is dependent on changes in competitive conditions, new product introductions by us or our competitors, or rapid changes in customer demand.

(3) Valuation of Deferred Income Taxes. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The likelihood of a material change in our expected realization of these assets is dependent on future taxable income, the intrinsic value of stock options, our ability to deduct tax loss carry forwards against future taxable income, the effectiveness of our tax planning strategies among the various tax jurisdictions that we operate in, and any significant changes in the tax treatment received on our business combinations.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Critical Accounting Principles and Estimates, Continued**

(4) Valuation of Goodwill, Intangibles and Other Long-Lived Assets. We use assumptions in establishing the carrying value, fair value and estimated lives of our long-lived assets and goodwill. The criteria used for these evaluations include management's estimate of an asset's continuing ability to generate positive income from operations and positive cash flow in future periods compared to the carrying value of the asset, as well as the strategic significance of any identifiable intangible asset in our business objectives. If assets are considered to be impaired, the impairment recognized is the amount by which the carrying value of the assets exceeds the fair value of the assets. Useful lives and related amortization or depreciation expense are based on our estimate of the period that the assets will generate revenues or otherwise be used by us. Factors that would influence the likelihood of a material change in our reported results include significant changes in the asset's ability to generate positive cash flow, loss of legal ownership or title to the asset, a significant decline in the economic and competitive environment on which the asset depends, significant changes in our strategic business objectives, utilization of the asset, and a significant change in the economic and/or political conditions in certain countries.

(5) Provision for Warranty. We provide for the estimated cost of product warranties at the time the related revenue is recognized. The amount of this provision is determined by using a financial model, which takes into consideration actual, historical expenses and potential risks associated with our different products. This financial model is then used to calculate the future probable expenses related to warranty and the required level of the warranty provision. Although we engage in product improvement programs and processes, our warranty obligation is affected by product failure rates and costs incurred to correct those product failures. Should actual product failure rates or estimated costs to repair those product failures differ from our estimates, revisions to our estimated warranty provision would be required.

(6) Revenue Recognition. Revenue on product sales is recorded at the time of shipment, at which time title and risk of loss transfers to the customer. Revenue on product sales, which require customer acceptance, is not recorded until acceptance is received. Royalty revenue from license agreements is recorded when earned. Service revenue received in advance from service contracts is initially deferred and recognized ratably over the life of the service contract. Revenue received in advance from rental unit contracts is initially deferred and recognized ratably over the life of the rental contract. Revenue from sale of marketing and distribution rights is initially deferred and recognized ratably as revenue over the life of the contract. Freight charges billed to customers are included in revenue. All freight-related expenses are charged to cost of sales. We do not recognize revenues to the extent that we offer a right of return or other recourse with respect to the sale of our products, other than returns for product defects or other warranty claims, nor do we recognize revenues if we offer variable sale prices for subsequent events or activities. As part of our sales processes we may provide upfront discounts for large orders, one-time special pricing to support new product introductions, sales rebates for centralized purchasing entities or price-breaks for regular order volumes. The costs of all such programs are recorded as an adjustment to revenue. Our products are predominantly therapy-based equipment

and require no installation. As such, we have no significant installation obligations.

- 37 -

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Critical Accounting Principles and Estimates, Continued**

(7) Stock-Based Compensation. We measure the compensation of all stock-based awards at fair value on date of grant. Such value is recognized as compensation expense over the service period, net of estimated forfeitures. We estimate the fair value of employee stock options using a Black-Scholes valuation model. The fair value of an option is affected by our stock price on the date of grant as well as other assumptions including the estimated volatility of our stock price over the term of the awards and the estimated period of time that we expect employees to hold their stock options. The risk-free interest rate assumption we use is based upon U.S. Treasury yield curve appropriate for the expected life of the awards. Expected volatilities are based on a combination of historical volatilities of our stock and the implied volatilities from traded options of our stock corresponding to the expected term of the options. We use a combination of the historic and implied volatilities as we believe the addition of the implied volatility is more representative of our future stock price trends. In order to determine the estimated period of time that we expect employees to hold their stock options, we have used historical rates by employee groups. The estimation of stock awards, including options and restricted stock units, that will ultimately vest requires judgment, and to the extent actual results differ from our estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. The aforementioned inputs entered into the option valuation model we use to fair value our stock awards are subjective estimates and changes to these estimates will cause the fair value of our stock awards and related stock-based compensation expense we record to vary.

(8) Income Tax. We assess our income tax positions and record tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting date. For those tax positions where it is more likely than not that a tax benefit will be sustained, we have recorded the largest amount of tax benefit with a greater than 50 percent likelihood of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where it is not more likely than not that a tax benefit will be sustained, no tax benefit has been recognized in the financial statements.

Table of Contents**PART I - FINANCIAL INFORMATION**

Item 2

RESMED INC. AND SUBSIDIARIES**Management's Discussion and Analysis of Financial Condition and Results of Operations****Recently Issued Accounting Pronouncements**

In September 2006 and February 2008, the FASB issued authoritative guidance on fair value measurements, which defined fair value, established a framework for measuring fair value using generally accepted accounting principles, and expanded disclosures about fair value measurements. We adopted this guidance on July 1, 2008 with the exception of the application of the guidance to non-recurring non-financial assets and liabilities, which we adopted on July 1, 2009. This adoption did not have a material impact on our unaudited condensed consolidated financial statements.

In December 2007 and April 2009, the FASB revised the authoritative guidance on business combinations, which established principles and requirements for how the acquirer in a business combination recognizes and measures all assets and liabilities acquired in a transaction at their acquisition date fair value. The authoritative guidance also change the accounting treatment for specific transactions such as the recognition of contingent liabilities, the recognition of capitalized in-process research and development, restructuring costs, the treatment of acquisition related transaction costs and changes in the income tax valuation allowances. The guidance is effective for business combinations for which the acquisition date is on or after July 1, 2009, with early adoption prohibited. We have adopted this guidance on July 1, 2009.

In March 2008, the FASB issued authoritative guidance on disclosures about derivative instruments and hedging activities, which requires disclosure of how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. The guidance is effective for fiscal years and interim periods within those years, beginning after November 15, 2008. We have adopted this guidance on July 1, 2009 and have included the required additional disclosures.

In May 2009, the FASB issued authoritative guidance on subsequent events, which provides rules on recognition and disclosure for events and transactions occurring after the balance sheet date but before the financial statements are issued or available to be issued. In addition, the guidance requires a reporting entity to disclose the date through which subsequent events have been evaluated, as well as whether that date is the date the financial statements are issued or the date the financial statements are available to be issued. The guidance is effective for interim and annual periods ending after June 15, 2009. We have adopted this guidance on July 1, 2009 and have included the required additional disclosures.

In June 2009, the FASB established that the FASB Accounting Standards Codification (Codification) will become the single official source of authoritative U.S. GAAP (other than guidance issued by the SEC), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force and related accounting literature. Thereby, only one level of authoritative U.S. GAAP will exist, and all other literature will be considered

non-authoritative. The Codification does not change U.S. GAAP. The Codification becomes effective for interim and annual periods on or after September 15, 2009. The Codification was adopted on July 1, 2009 and it did not have a material impact on our unaudited condensed consolidated financial statements.

Off-Balance Sheet Arrangements

As of December 31, 2009, we are not involved in any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

RESMED INC. AND SUBSIDIARIES**Item 3. Quantitative and Qualitative Disclosures About Market Risk
Foreign Currency Market Risk**

Our reporting currency is the U.S. dollar, although the financial statements of our non-U.S. subsidiaries are maintained in their respective local currencies. We transact business in various foreign currencies, including a number of major European currencies as well as the Australian dollar. We have significant foreign currency exposure through both our Australian manufacturing activities and international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing expenditures. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures denominated in Euros and Australian dollars. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments. We do not enter into financial instruments for trading or speculative purposes.

The table below provides information in U.S. dollar equivalents on our significant foreign-currency-denominated financial assets and liabilities at December 31, 2009 (in thousands):

Ave. contractual exchange rate	-	-	-	-		

Interest Rate Risk

We are exposed to risk associated with changes in interest rates affecting the return on our cash and cash equivalents, investment securities and debt. At December 31, 2009, we maintained cash and cash equivalents of \$451.4 million containing financial instruments that have original maturities of less than 90 days. These financial instruments are principally comprised of bank term deposits and at call accounts and are invested at both short term fixed interest rates and variable interest rates. At December 31, 2009, we had total long-term debt, including the current portion of those obligations, of \$145.1 million. All of this debt is subject to variable interest rates. A hypothetical 10% change in interest rates during the three months ended December 31, 2009, would not have had a material impact on pretax income. We have no interest rate hedging agreements.

Credit Market Risk

At December 31, 2009, we held a number of investment securities in AAA rated auction securities with UBS which had various maturities between July 2039 and November 2047. During November 2008, we accepted an offer that gave us a right to sell our investment securities back to UBS at full par value after June 29, 2010. However, in the

event we need to access the funds invested in these auction rate securities prior to June 29, 2010 we may not be able to liquidate these securities at the par value. We believe the current lack of liquidity of these investments is temporary and have therefore recorded the excess of the carrying value over the fair value to comprehensive income within stockholders equity. Additionally, based on our ability to access our cash and cash equivalents, expected operating cash flows, and other sources of cash, we do not anticipate the current lack of liquidity on these investments will affect our ability to operate the business in the ordinary course.

PART I - FINANCIAL INFORMATION

Item 4

RESMED INC. AND SUBSIDIARIES

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of December 31, 2009.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.
