(In thousands, except share and per share amounts)

1. Organization and Description of Business

Envestnet, Inc. (Envestnet) and its subsidiaries (collectively, the Company) provides open-architecture wealth management services and technology to independent financial advisors and financial institutions. These services and related technology are provided via the Envestnet Advisor Suite and Envestnet | PMC, the Company s asset management arm. The Company s headquarters are in Chicago, Illinois. Principal offices are located in New York, New York; Denver, Colorado; Sunnyvale, California; Boston, Massachusetts; Landis, North Carolina and two locations in Trivandrum, India.

The Company s Advisor Suite is a platform of integrated, internet-based technology applications and related services that provide portfolio diagnostics, proposal generation, investment model management, rebalancing and trading, portfolio performance reporting and monitoring solutions, billing, and back-office and middle-office operations and administration.

The Company s investment consulting group, Envestnet | PMC, provides investment manager due diligence and research, a full spectrum of investment offerings supported by both proprietary and third-party research, and overlay portfolio management services.

Through these platform and service offerings, the Company provides open-architecture support for a wide range of investment products (separately managed accounts, multi-manager accounts, mutual funds, exchange-traded funds, stock baskets, alternative investments, and other fee-based investment solutions) from Envestnet | PMC and other leading investment providers via multiple custodians, and also account administration and reporting services.

Envestnet operates three registered investment advisor firms (RIAs) and a registered broker-dealer. The RIAs are registered with the Securities and Exchange Commission (SEC). The broker-dealer is registered with the SEC, all 50 states and the District of Columbia and is a member of the Financial Industry Regulatory Authority (FINRA).

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company as of March 31, 2011 and for the three months ended March 31, 2011 and 2010 have not been audited by an independent registered public accounting firm. These unaudited condensed consolidated financial statements reflect all normal recurring adjustments which are, in the opinion of management, necessary to present fairly the Company s financial position as of March 31, 2011 and the results of operations, stockholders equity and cash flows for the periods presented herein. The unaudited condensed consolidated balance sheet as of December 31, 2010 was derived from the Company s audited financial statements for the year ended December 31, 2010 but does not include all disclosures, including notes required by accounting principles generally accepted in the United States of America (U.S. GAAP). The results of operations for the three months ended March 31, 2011 are not necessarily indicative of the operating results to be expected for other interim periods or for the full fiscal year. Dollar amounts contained in these unaudited condensed consolidated financial statements are in thousands, except share and per share amounts.

The unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. These unaudited condensed consolidated financial statements should be read in conjunction with the December 31, 2010 audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K filed with the SEC.

The preparation of these unaudited condensed consolidated financial statements requires management to make estimates and assumptions that affect the amounts reported in these unaudited condensed consolidated financial statements and accompanying notes. Significant estimates in these unaudited condensed consolidated financial statements include estimating uncollectible receivables, costs capitalized for internally developed software, valuations and assumptions used for impairment testing of goodwill, intangible and other long-lived assets, fair value of stock and stock options issued, fair value of customer inducement assets and liabilities, realization of deferred tax assets and valuation and other

Edgar Filing: ENVESTNET, INC. - Form 10-Q

assumptions used to allocate purchase prices in business combinations. Actual results could differ materially from those estimates under different assumptions or conditions.

Table of Contents**Envestnet, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, except share and per share amounts)*****Recently Adopted Accounting Pronouncements***

In October 2009, the FASB issued authoritative guidance that enables vendors to account for products or services sold to customers (deliverables) separately rather than as a combined unit, as was generally required by past guidance. The revised guidance provides for two significant changes to the existing multiple element revenue arrangement guidance. The first change relates to the determination of when individual deliverables included in a multiple element arrangement may be treated as separate units of accounting. The second change modifies the manner in which the transaction consideration is allocated across the separately identified deliverables. This guidance also significantly expands the disclosures required for multiple-element revenue arrangements. The guidance is required to be adopted in fiscal years beginning on or after June 15, 2010, but early adoption is permitted. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In October 2009, the FASB issued authoritative guidance that changes the accounting model for revenue arrangements that include both tangible products and software elements so that tangible products containing software components and nonsoftware components that function together to deliver the tangible product's essential functionality are no longer within the scope of the software revenue guidance in ASC Subtopic 985-605. In addition, this guidance requires hardware components of a tangible product containing software components always be excluded from the software revenue guidance. The guidance is required to be adopted in fiscal years beginning on or after June 15, 2010, but early adoption is permitted. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

8. Fair Value Measurements

Financial assets and liabilities recorded at fair value in the consolidated balance sheet are categorized based upon a fair value hierarchy established by U.S. GAAP, which prioritizes the inputs used to measure fair value into the following levels:

Edgar Filing: ENVESTNET, INC. - Form 10-Q

- Level 1: Inputs based on quoted market prices in active markets for identical assets or liabilities at the measurement date.
- Level 2: Inputs based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or inputs that are observable and can be corroborated by observable market data.
- Level 3: Inputs reflect management's best estimates and assumptions of what market participants would use in pricing the asset or liability at the measurement date. The inputs are unobservable in the market and significant to the valuation of the instruments.

Table of Contents**Envestnet, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, except share and per share amounts)*****Fair Value on a Recurring Basis:***

The Company periodically invests excess cash in money-market funds not insured by the FDIC. The Company believes that the investments in money market funds are on deposit with creditworthy financial institutions and that the funds are highly liquid. The fair values of the Company's investments in money market funds are based on the daily quoted market prices for the net asset value of the various money market funds. These money market funds are considered Level 1 assets and totaled approximately \$59,062 and \$55,173 as of March 31, 2011 and December 31, 2010, respectively and are included in cash and cash equivalents in the unaudited condensed consolidated balance sheet.

Investments in mutual funds are quoted based on the daily market prices, are considered Level 1 assets and totaled approximately \$87 and \$84 as of March 31, 2011 and December 31, 2010, respectively and are included in other non-current assets in the unaudited condensed consolidated balance sheet.

Fair Value on a Non-Recurring Basis:

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company is required to record assets and liabilities at fair value on a non-recurring basis as required by U.S. GAAP. Generally, assets are recorded at fair value on a non-recurring basis as a result of impairment charges. Other than as described below, the Company did not measure any significant assets or liabilities at fair value on a non-recurring basis during the three months ended March 31, 2011.

Non-marketable investments, which totaled \$1,371 and \$1,386 at March 31, 2011 and December 31, 2010, respectively, represent the Company's investments in privately held companies and alternative investments. Non-marketable investments are priced at cost and reviewed for impairment due to an absence of market activity and market data and are considered Level 3 assets. These investments are included in other non-current assets in the unaudited condensed consolidated balance sheet.

9. Accrued Expenses

Accrued expenses consist of the following:

	March 31, 2011	December 31, 2010
Accrued investment manager fees	\$ 7,318	\$ 6,892
Accrued compensation and related taxes	2,487	4,309
Accrued professional services	250	280
Accrued restructuring charges	187	228
Other accrued expenses	1,405	1,150
Total accrued expenses	\$ 11,647	\$ 12,859

Effective March 31, 2010, the Company closed its Los Angeles office in order to more appropriately align and manage the Company's resources. In the three months ended March 31, 2011, the Company recognized pretax restructuring charges of \$10, primarily for relocation expenses. In the three months ended March 31, 2010, the Company recognized pretax restructuring charges of \$752, primarily for accrued lease payments of \$598, severance charges of \$96 and relocation expenses of \$58.

Table of Contents**Envestnet, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, except share and per share amounts)**

The summary of activity in accrued restructuring charges was as follows:

	Accrued Restructuring Charges
Balance at December 31, 2009	\$
Restructuring provision incurred	1,144
Payments	(733)
Adjustments	(183)
Balance at December 31, 2010	228
Restructuring provision incurred	10
Payments	(51)
Balance at March 31, 2011	\$ 187

10. Income Taxes

U.S. GAAP requires the interim period tax provision to be determined as follows:

At the end of each quarter, the Company estimates the tax that will be provided for the year stated as a percent of estimated ordinary income for the year. The term ordinary income refers to earnings from continuing operations before income taxes, excluding significant unusual or infrequently occurring items.

The estimated annual effective rate is applied to the year-to-date ordinary income at the end of each quarter to compute the year-to-date tax applicable to ordinary income. The tax expense or benefit related to ordinary income in each quarter is the difference between the most recent year-to-date and the prior quarter year-to-date computations.

The tax effects of significant unusual or infrequently occurring items are recognized as discrete items in the interim period in which the events occur. The impact of changes in tax laws or rates on deferred tax amounts, the effects of changes in judgment about beginning of the year valuation allowances and change in tax reserves resulting from the finalization of tax audits or reviews are examples of significant unusual or infrequently occurring items that are recognized as discrete items in the interim period in which the event occurs.

The determination of the annual effective tax rate is based upon a number of significant estimates and judgments, including the estimated annual pretax income of the Company and the development of tax planning strategies during the year.

The following table includes tax expense and the effective tax rate for the Company's income from operations:

Edgar Filing: ENVESTNET, INC. - Form 10-Q

	Three Months Ended	
	March 31,	
	2011	2010
Income (loss) before income taxes	\$ 2,372	\$ (2,623)
Income tax provision (benefit)	968	(112)
Effective tax rate	40.8%	4.3%

Table of Contents**Envestnet, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, except share and per share amounts)**

In 2010, the write-off of certain notes receivable was considered a capital loss for tax purposes. In assessing the realizability of this deferred tax asset, management determined that it was more-likely-than-not that all of this asset would not be realized and accordingly recorded a valuation allowance in the amount of \$926. The valuation allowance for net deferred tax assets as of March 31, 2011 and December 31, 2010 was \$3,444 for both periods and was related to capital losses of \$2,157 and Federal and state net operating losses of \$1,287 primarily due to Section 382 limitations. In assessing the realizability of deferred tax assets, management considers whether it is more-likely-than-not that some or all of the deferred tax assets will be realized.

Upon exercise of stock options, the Company recognizes any difference between U.S. GAAP compensation expense and income tax compensation expense as a tax windfall or shortfall. The difference is charged to equity in the case of a windfall. When the exercise results in a windfall and the windfall results in a net operating loss (NOL), or the windfall increases an NOL carryforward, no windfall is recognized until the deduction reduces the income tax payable. For U.S. GAAP purposes, the Company has deferred the recognition of approximately \$1,036 in windfall tax benefits associated with its stock-based compensation until a cash tax savings is realized. The benefit will be recorded in stockholder s equity when utilized on an income tax return to reduce taxes payable, and as such, it will not impact the Company s effective tax rate.

The total amount of the gross liability for unrecognized tax benefits reported in other non-current liabilities was \$672 and \$612 at March 31, 2011 and December 31, 2010, respectively. At March 31, 2011, the amount of unrecognized tax benefits that would benefit the Company s effective tax rate, if recognized, was \$510.

The Company recognizes potential interest and penalties related to unrecognized tax benefits in income tax expense. The Company had accrued interest and penalties of \$195 as of both March 31, 2011 and December 31, 2010.

The Company files a consolidated federal income tax return and separate tax returns with various states. Additionally, a subsidiary of the Company files a tax return in a foreign jurisdiction. The Company s tax returns for the calendar years ended December 31, 2010 and 2009, and fiscal years ended March 31, 2009 and 2008 remain open to examination by the Internal Revenue Service in their entirety. They also remain open with respect to state taxing jurisdictions.

11. Stock-Based Compensation*Stock Options*

The Company has stock options and restricted stock outstanding under the 2004 Stock Incentive Plan (the 2004) Plan and the 2010 Long-Term Incentive Plan (the 2010 Plan). As of March 31, 2011, the maximum number of shares available for future issuance under the 2010 Plan is 2,251,347.

Table of Contents**Envestnet, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements****(In thousands, except share and per share amounts)****12. Earnings Per Share**

Net income per common share reflects the application of the two class method for 2010. Under the two class method, net income is allocated between common stock and other participating securities based on their respective participating rights. All classes of convertible preferred stock would participate pro rata in dividends and therefore are considered participating securities. Therefore, the two class method of calculating net income per common share has been applied. Basic net income per common share excludes dilution for potential common stock issuances and is computed by dividing net income attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted net income per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, unless they are anti-dilutive. For the three months ended March 31, 2010, the convertible preferred securities are considered anti-dilutive as a result of such securities not having the contractual obligation to participate in losses of the Company. For the calculation of diluted net income per common share, the basic weighted average number of shares is increased by the dilutive effective of stock options and warrants using the treasury stock method.

The following table provides a reconciliation of the numerators and denominators used in computing basic and diluted net income attributable to common stockholders per common share:

	Three Months Ended March 31,

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements regarding future events and our future results within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, in particular, statements about our plans, strategies and prospects under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations. These statements are based on our current expectations and projections about future events and are identified by terminology such as anticipate, believe, continue, could, estimate, expect, expected, intend, will, may, or should or the negative of those terms or other comparable terminology. Although we believe that our plans, intentions and expectations are reasonable, we may not achieve our plans, intentions or expectations.

These forward-looking statements involve risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this quarterly report are set forth in our Annual Report on Form 10-K under Risk Factors; accordingly, investors should not place undue reliance upon our forward-looking statements. We undertake no obligation to update any of the forward-looking statements after the date of this quarterly report to conform those statements to reflect the occurrence of unanticipated events, except as required by applicable law.

You should read this quarterly report on Form 10-Q and our Annual Report on Form 10-K that we have filed with the Securities and Exchange Commission completely and with the understanding that our actual future results, levels of activity, performance and achievements may be different from what we expect and that these differences may be material. We qualify all of our forward-looking statements by these cautionary statements.

The following discussion and analysis should also be read along with our unaudited condensed consolidated financial statements and the related notes included elsewhere in this quarterly report and the audited consolidated financial statements and the related notes included in our Annual Report on Form 10-K that we have filed with the Securities and Exchange Commission. Except for the historical information contained herein, this discussion contains forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those discussed below.

Overview

We are a leading provider of technology-enabled, wealth management solutions to financial advisors. By integrating a wide range of investment solutions and services, our technology platform provides financial advisors with the flexibility to address their clients' needs. We work with financial advisors who are independent, as well as those who are associated with small or mid-sized financial advisory firms and larger financial institutions, which we refer to as enterprise clients. We focus our technology development efforts and our sales and marketing approach on addressing financial advisors' front-, middle- and back-office needs. We believe our investment solutions and services allow financial advisors to be more efficient and effective in the activities critical to their businesses by facilitating client interactions, supporting and enhancing portfolio management and analysis, and enabling reliable account support and administration. In addition, we are not controlled by a financial institution, broker-dealer or other entity operating in the securities or wealth management industry, which we believe affords us a greater level of independence and impartiality.

Operational Highlights

Revenues from assets under management (AUM) or assets under administration (AUA) increased 42% from \$16.4 million in the three months ended March 31, 2010 to \$23.3 million in the three months ended March 31, 2011. The increase was a result of the positive effects of new account growth and positive net flows of AUM and AUA, as well as an increase in the market value of AUM and AUA.

Total revenues, which include licensing and professional service fees, increased 35% from \$21.6 million in the three months ended March 31, 2010 to \$29.3 million in the three months ended March 31, 2011.

Net income attributable to common stockholders for the three months ended March 31, 2011 was \$1.4 million, or \$0.04 per diluted share, compared to a net loss attributable to common stockholders of \$(2.7) million, or \$(0.21) per diluted share for the three months ended March 31, 2010. The prior year period included a \$2.7 million pre-tax charge for the uncollectible portion of accounts and notes receivable due from Fetter Logic, Inc.

Table of Contents

Adjusted EBITDA for the three months ended March 31, 2011 was \$6.2 million, an increase of 104% from \$3.1 million in the prior year period.

Adjusted net income for the three months ended March 31, 2011 was \$2.8 million, or \$0.09 per diluted share, compared to adjusted net income of \$1.2 million, or \$0.04 per diluted share in the prior year period.

Revenues

Edgar Filing: ENVESTNET, INC. - Form 10-Q

Total revenues increased 35% from \$21.6 million in the three months ended March 31, 2010 to \$29.3 million in the three months ended March 31, 2011. The increase was primarily due to an increase in revenues from assets under management or administration of \$6.9 million. Revenues from assets under management or administration were 80% and 76% of total revenues in the three months ended March 31, 2011 and 2010, respectively.

Assets under management or administration

Revenues earned from assets under management or administration increased 42% from \$16.4 million in the three months ended March 31, 2010 to \$23.3 million in the three months ended March 31, 2011. The increase was primarily due to an increase in asset values applicable to our quarterly billing cycle in 2011, relative to the corresponding period in 2010. In the first quarter of 2011, revenues were positively affected by new account growth and positive net flows of AUM and AUA during the fourth quarter of 2010, as well as an increase in the market value of AUM and AUA as of December 31, 2010.

Table of Contents

New account growth and positive net flows of AUM and AUA resulted from continued efforts to increase the number of financial advisors and accounts on our technology platform. The number of financial advisors with AUM or AUA that had client accounts on our technology platform increased from 8,465 as of March 31, 2010 to 14,140 as of March 31, 2011 and the number of AUM or AUA client accounts increased from approximately 185,000 as of March 31, 2010 to approximately 324,000 as of March 31, 2011.

Licensing and professional services

Licensing and professional services revenues increased 14% from \$5.2 million in the three months ended March 31, 2010 to \$6.0 million in the three months ended March 31, 2011. This increase was primarily due to an increase in licensing revenue of \$0.4 million and an increase in professional services revenue of \$0.4 million.

Cost of revenues

Cost of revenues increased 44% from \$7.0 million in the three months ended March 31, 2010 to \$10.1 million in the three months ended March 31, 2011, primarily due to a corresponding increase in revenues from assets under management or administration. As a percentage of total revenues, cost of revenues increased from 32% in the three months ended March 31, 2010 to 35% in the three months ended March 31, 2011.

Compensation and benefits

Compensation and benefits increased 25% from \$8.1 million in the three months ended March 31, 2010 to \$10.1 million in the three months ended March 31, 2011, primarily due to an increase in salaries and commissions of \$1.0 million related to an increase in headcount, an increase in non-cash stock based compensation expense of \$0.6 million and an increase in benefits and taxes of \$0.3 million. Headcount increased from an average of 410 in the three months ended March 31, 2010 to an average of 465 in the three months ended March 31, 2011, primarily due to the hiring of former FundQuest and B-Ready employees in the second quarter of 2010. As a percentage of total revenues, compensation and benefits decreased from 37% in the three months ended March 31, 2010 to 35% in the three months ended March 31, 2011.

General and administration

General and administration expenses decreased 31% from \$7.1 million in the three months ended March 31, 2010 to \$4.9 million in the three months ended March 31, 2011, primarily due to a decrease of \$2.7 million in bad debt expense, offset by increases in communication, research and data services expense of \$0.3 million and marketing costs of \$0.3 million. In the first quarter of 2010, the Company recorded bad debt expense related to the uncollectible portion of accounts and notes receivable from Fetter Logic, Inc. As a percentage of total revenues, general and administration expenses decreased from 33% in the three months ended March 31, 2010 to 17% in the three months ended March 31, 2011.

Depreciation and amortization

Depreciation and amortization expense increased 16% from \$1.3 million in the three months ended March 31, 2010 to \$1.5 million in the three months ended March 31, 2011, primarily due to an increase in fixed asset depreciation and amortization of \$0.2 million. The increase in depreciation and amortization expense was primarily due to increases in computer equipment and software to support the growth of our operations. As a percentage of total revenues, depreciation and amortization decreased from 6% in the three months ended March 31, 2010 to 5% in the three months ended March 31, 2011.

Restructuring charges

Effective March 31, 2010, we closed our Los Angeles office in order to more appropriately align and manage our resources and incurred restructuring charges of approximately \$0.01 million and \$0.8 million in the three months ended March 31, 2011 and 2010, respectively. The expenses incurred in 2010 primarily related to vacating rental office space, relocation expenses and severance charges. We expect our subsequent 2011 expenses related to the closure of our Los Angeles office will not be significant.

Interest expense

Interest expense increased to \$0.2 million in the three months ended March 31, 2011, primarily due to imputed interest on payments due to FundQuest, Inc., a subsidiary of BNP Paribas Investment Partners.

	2011	2010
	(in thousands, unaudited)	
Income tax provision	\$ 968	\$ (112)
Effective tax rate	40.8%	4.3%

Our effective tax rate for the three months ended March 31, 2011 differs from the statutory rate primarily due to the effect of state taxes and permanent differences.

Our effective tax rate for the three months ended March 31, 2010 differs from the statutory rate primarily as a result of the establishment of a full income tax valuation allowance of the deferred tax asset created as a result of the write-off of notes receivable from Fetter Logic that is considered a capital loss for income tax purposes.

Non-U.S. GAAP Financial Measures

	Three Months Ended March 31,	
	2011	2010
	(in thousands, unaudited)	
Adjusted EBITDA	\$ 6,224	\$ 3,052
Adjusted operating income	4,676	1,721
Adjusted net income	2,795	1,188
Adjusted net income per share	0.09	0.04

Adjusted EBITDA represents net income (loss) before interest income, interest expense, net income tax provision (benefit), depreciation and amortization, non-cash stock-based compensation expense, unrealized gain (loss) on investments, impairment of investments, restructuring charges, severance, bad debt expense, customer inducement costs and litigation related expense.

Adjusted operating income represents income (loss) from operations before non-cash stock-based compensation expense, restructuring charges, severance, bad debt expense, customer inducement costs and litigation related expense.

Adjusted net income represents net income (loss) before non-cash stock-based compensation expense, impairment of investments, restructuring expense, severance, bad debt expense, customer inducement costs, imputed interest expense and litigation related expense. Reconciling items are tax effected using the income tax rates in effect on the applicable date.

Adjusted net income per share represents adjusted net income attributable to common stockholders divided by the diluted number of weighted-average shares outstanding.

The Compensation Committee of our Board of Directors and our management use adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share:

as measures of operating performance;

for planning purposes, including the preparation of annual budgets;

to allocate resources to enhance the financial performance of our business;

to evaluate the effectiveness of our business strategies; and

in communications with our Board of Directors concerning our financial performance.

Our Compensation Committee and our management may also consider adjusted EBITDA, among other factors, when determining management's incentive compensation.

We also present adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share as supplemental performance measures because we believe that they provide our Board of Directors, management and investors with additional information to assess our performance. Adjusted EBITDA provides comparisons from period to period by excluding potential differences caused by variations in the age and book depreciation of fixed assets affecting relative depreciation expense and amortization of internally developed software, amortization of customer inducement costs, impairment of investments, impairment of

goodwill, litigation-related expense, bad debt expense, severance, unrealized income (loss) on investments, and changes in interest expense and interest income that are influenced by capital structure decisions and capital market conditions. Our management also believes it is useful to exclude non-cash stock-based compensation expense from adjusted EBITDA, adjusted operating income and adjusted net income because non-cash equity grants made at a certain price and point in time do not necessarily reflect how our business is performing at any particular time.

We believe adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share are useful to investors in evaluating our operating performance because securities analysts use adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share as supplemental measures to evaluate the overall performance of companies, and we anticipate that our investor and analyst presentations will include adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share.

Adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share are not measurements of our financial performance under U.S. GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with U.S. GAAP, or as an alternative to cash flows from operating activities as a measure of our profitability or liquidity.

We understand that, although adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share are frequently used by securities analysts and others in their evaluation of companies, these measures have limitations as an analytical tools, and you should not consider them in isolation, or as a substitute for an analysis of our results as reported under U.S. GAAP. In particular you should consider:

Adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

Adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share do not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share do not reflect non-cash components of employee compensation;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and adjusted EBITDA does not reflect any cash requirements for such replacements;

Due to either net losses before income tax expenses or the use of federal and state net operating loss carryforwards in 2011 and 2010 we had cash income tax payments of \$0.1 million and \$0.04 million in the three months ended March 31, 2011 and 2010, respectively. Income tax payments will be higher if we continue to generate taxable income and our existing net operating loss carryforwards for federal and state income taxes have been fully utilized or have expired; and

Other companies in our industry may calculate adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share differently than we do, limiting their usefulness as a comparative measure.

Management compensates for the inherent limitations associated with using adjusted EBITDA, adjusted operating income, adjusted net income and adjusted net income per share through disclosure of such limitations, presentation of our financial statements in accordance with U.S. GAAP and reconciliation of adjusted EBITDA, adjusted net income and adjusted net income per share to net income and net income per share, the most directly comparable U.S. GAAP measure, and adjusted operating income to income from operations, the most directly comparable U.S. GAAP measure. Further, our management also reviews U.S. GAAP measures and evaluates individual measures that are not included in some or all of our non-U.S. GAAP financial measures, such as our level of capital expenditures and interest income, among other measures.

As of March 31, 2011, we had total cash and cash equivalents of \$71.8 million compared to \$67.7 million as of December 31, 2010.

Cash Flows

The following table presents information regarding our cash flows and cash and cash equivalents for the periods indicated:

	Three Months Ended	
	March 31,	
	2011	2010
	(In thousands, unaudited)	
Net cash provided by operating activities	\$ 5,008	\$ 840
Net cash used in investing activities	(1,839)	(2,083)
Net cash provided by financing activities	978	1,122
Net increase (decrease) in cash and cash equivalents	4,147	(121)
Cash and cash equivalents, end of period	71,815	31,404

Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2011 increased by \$4.2 million compared to the same period in 2010, primarily due to an increase in net earnings of \$3.9 million from the three months ended March 31, 2011 compared to the prior year period.

Investing Activities

Net cash used in investing activities for the three months ended March 31, 2011 decreased by \$0.2 million compared to the same period in 2010. Cash disbursements in 2011 and 2010 totaled \$1.9 million and \$2.2 million, respectively, for purchases of property and equipment and capitalization of internally developed software.

Financing Activities

Net cash provided by financing activities for the three months ended March 31, 2011 decreased by \$0.1 million compared to the same period in 2010, primarily due to lower proceeds from the exercise of stock options in 2011 compared to the same period in 2010 offset by lower purchases of treasury stock in 2011.

We believe that our current level of cash generation, together with our existing current assets will adequately support our operations and capital expenditures over the next 12 months.

Critical Accounting Estimates

There have been no changes in the matters for which we make critical accounting estimates in the preparation of our unaudited condensed consolidated financial statements during the three months ended March 31, 2011, as compared to those disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations for the fiscal year ended December 31, 2010 included in our Annual Report on Form 10-K as filed with the SEC.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Recent Accounting Pronouncements

Edgar Filing: ENVESTNET, INC. - Form 10-Q

In October 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance that enables vendors to account for products or services sold to customers (deliverables) separately rather than as a combined unit, as was generally required by past guidance. The revised guidance provides for two significant changes to the existing multiple element revenue arrangement guidance. The first change relates to the determination of when individual deliverables included in a multiple element arrangement may be treated as separate units of accounting. The second change modifies the manner in which the transaction consideration is allocated across the separately identified deliverables. This guidance also significantly expands the disclosures required for multiple-element revenue arrangements. The guidance is required to be adopted in fiscal years beginning on or after June 15, 2010, but early adoption is permitted. The adoption of this guidance did not have a material impact on our consolidated financial statements.

Table of Contents

In October 2009, the FASB issued authoritative guidance that changes the accounting model for revenue arrangements that include both tangible products and software elements so that tangible products containing software components and nonsoftware components that function together to deliver the tangible product's essential functionality are no longer within the scope of the software revenue guidance in Accounting Standards Codification (ASC) Subtopic 985-605. In addition, this guidance requires hardware components of a tangible product containing software components always be excluded from the software revenue guidance. The guidance is required to be adopted in fiscal years beginning on or after June 15, 2010, but early adoption is permitted. The adoption of this guidance did not have a material impact on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk

Our exposure to market risk is directly related to revenues from asset management or administration services earned based upon a contractual percentage of AUM or AUA. In the three months ended March 31, 2011, 80% of our revenues were derived from revenues based on the market value of AUM or AUA. We expect this percentage to vary over time. A decrease in the aggregate value of AUM or AUA may cause our revenue and income to decline.

Foreign currency risk

The expenses of our India subsidiary, which primarily consist of expenditures related to compensation and benefits, are paid using the Indian Rupee. We are directly exposed to changes in foreign currency exchange rates through the translation of these monthly expenditures into U.S. dollars. For the three months ended March 31, 2011, we estimate that a hypothetical 10% increase in the value of the Indian Rupee to the U.S. dollar would result in a decrease of \$0.1 million to pre-tax earnings and a hypothetical 10% decrease in the value of the Indian Rupee to the U.S. dollar would result in a \$0.1 million increase to pre-tax earnings.

Interest rate risk

We have no floating interest rate debt and therefore we are not directly exposed to interest rate risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, or the Exchange Act, that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and that such information is communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, but not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet the reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation, our principal executive officer and our principal financial officer concluded that as of March 31, 2011, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in internal control over financial reporting during the quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We are involved in litigation arising in the ordinary course of our business. We do not believe that the outcome of any of the current litigation, individually or in the aggregate, would, if determined adversely to us, have a material adverse effect on our results of operations, financial condition or business.

Item 1A. Risk Factors

Investment in our securities involves risk. An investor or potential investor should consider the risks summarized under the caption Risk Factors in Part I, Item 1A of our most recent Annual Report on Form 10-K filed with the SEC, when making investment decisions regarding our securities. The risk factors that were disclosed in our most recent Annual Report on Form 10-K filed with the SEC have not materially changed since the date our most recent Annual Report on Form 10-K filed with the SEC.
