The status of the Company's corporate governance is as follows:

I. Basic Policy of Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Policy [updated]

Basic Policy of Corporate Governance

Under its basic philosophy "A company is a public entity of society," the Company has long been committed to corporate governance. The Company's corporate governance system is based on the Board of Directors, which is responsible for deciding important operational matters for the whole Group and monitoring the execution of business by Directors, and Corporate Auditors and the Board of Corporate Auditors, which are independent from the Board of Directors and responsible for auditing the performance of duties by Directors. The Company has established the following management system based on the implementation of autonomous management in each business domain and the corporate governance system suitable for the Company's business system.

Outline of Current System of Corporate Governance Mechanisms such as Execution of Business, Auditing and Monitoring, and Reason for Adoption of the System

The Company's Board of Directors is composed of sixteen (16) Directors, two (2) of whom are Outside Directors. In accordance with the Company Law of Japan and related laws and ordinances (collectively, the "Company Law"), the Board of Directors has ultimate responsibility for administration of the Company's affairs and monitoring of the execution of business by Directors.

The Company has an optimum management and governance structure tailored to the Group's business domain-based organizational structure. Under this structure, the Company has empowered each of its business domain companies through delegation of authority. At the same time, the Company employs an Executive Officer system to provide for the execution of business at its various domestic and overseas Group companies. This system facilitates the development of optimum corporate strategies that integrate the Group's comprehensive strengths. The Company has thirty-one (31) Executive Officers (excluding those who concurrently serve as Directors), which include Presidents of business domain companies, senior officers responsible for certain foreign regions and officers responsible for corporate functions of the headquarters.

Table of Contents

In addition, in order to ensure swift and strategic decision-making, as well as sound and appropriate monitoring at the same time, the Board of Directors, as a decision-making body for Groupwide matters, concentrates on corporate strategies and the supervision of business domain companies, while Executive Officers have been delegated with the authority to handle responsibilities relating to day-to-day operations at each business domain company. Taking into consideration the diversified scope of its business operations, the Company has opted to maintain a system where Executive Officers, who are most familiar with the specifics of the operations, take an active part in the Board of Directors meetings. Furthermore, the Company established and operates the Group Management Committee, which is a decision-making body prior to a meeting of the Board of Directors, with the aim of ensuring full discussions in the Board of Directors meetings and proper decision-making. Moreover, to clarify the responsibilities of Directors and create a more agile organization of the Board of Directors, the Company has limited the term of each Director to one year.

Pursuant to the Company Law, the Company has elected Corporate Auditors and established a Board of Corporate Auditors, made up of Corporate Auditors. The Corporate Auditors and Board of Corporate Auditors monitor the status of corporate governance and audit the day-to-day activities of management, including the performance of duties by Directors. The Company has five (5) Corporate Auditors, including three (3) Outside Corporate Auditors. Additionally, the Company elected Corporate Auditors who have substantial finance and accounting knowledge. Corporate Auditors participate in the general meetings of shareholders and the Board of Directors meetings, receive reports from Directors, Executive Officers, employees and Accounting Auditors, and exercise other auditing authority permitted to Corporate Auditors under the law. Full-time Senior Corporate Auditors also attend important meetings and conduct visiting audits of business offices in order to ensure effective audit. In order to augment internal auditing functions in the Group, the Company has assigned fourteen (14) non-statutory full-time senior auditors at business domain companies and a marketing sector (collectively, business domain companies, etc.) to assist Corporate Auditors in audits. The Company also inaugurated regular Panasonic Group Auditor Meetings (comprising a total of sixteen (16) members, of which two (2) were Senior Corporate Auditors of the Company and fourteen (14) were non-statutory full-time senior auditors from business domain companies, etc.) chaired by the Senior Corporate Auditors of the Company to enhance collaboration among the Company's Corporate Auditors, non-statutory full-time senior auditors of internal division companies and corporate auditors of the Group companies. In addition, as part of their audit duties, Corporate Auditors maintain close contacts with the Internal Audit Group, which performs business audits and internal control audits, to ensure the efficiency of audits. Corporate Auditors regularly receive from the Internal Audit Group or other sections a regular report regarding the status involving the internal control system and results of audits. Corporate Auditors may request the Internal Audit Group or Accounting Auditors to conduct an investigation, if necessary. Moreover, in order to enhance the effectiveness of the audits conducted by Corporate Auditors and ensure the smooth implementation of audits, the Company has established a Corporate Auditor's Office with a full-time staff of six (6) under the direct control of the Board of Corporate Auditors.

Mr. Yoshihiro Furuta, a senior corporate auditor of the Company, has substantial finance and accounting knowledge, having held the position of General Manager, Accounting, at Matsushita Electric Works, Ltd.

1) Specific measures to realize basic policy

In engaging in activities that help enrich people's lives, the Company aims to become a company that is capable of taking the lead in solving global environment issues, the world's common challenge. Leading up to its 100th anniversary in 2018, the Company has set a vision of becoming the No. 1 Green Innovation Company in the Electronics Industry. In this context, the Company has positioned its three-year midterm management plan, Green Transformation 2012 (GT12), which has started in fiscal 2011, as a first step along this path. Under the guidance of this plan, the Company will closely integrate its environment contribution with business growth as highlighted by the two central themes of the plan: Paradigm shift for growth and Laying a foundation to be a green innovation company. From a paradigm shift to growth perspective, the Company is working diligently to shift its activities from (1) existing businesses to new businesses including energy; (2) Japan-oriented to globally-oriented, and (3) individual product-oriented to solutions and systems business-oriented. The Company will adopt bold and unconventional measures over the three years of the plan in its efforts to become a group filled with strong growth potential. Under the new management system established as a result of the acquisitions of all shares of Panasonic Electric Works Co., Ltd. and SANYO Electric Co., Ltd. in April 2011, followed by Group-wide business and organization restructuring, the Company will accelerate these initiatives.

2) Measures based on the basic policy to prevent control by inappropriate parties

On April 28, 2005, the Board of Directors resolved to adopt a policy related to a Large-scale Purchase of the Company's shares (the Large-scale Purchase Rule) called the Enhancement of Shareholder Value Plan (the ESV Plan). At the May 2012 meeting of the Board of Directors, the ESV Plan was approved again.

With respect to a Large-scale Purchaser (a "Large-scale Purchaser") who intends to acquire 20% or more of all voting rights of the Company (the "Large-scale Purchase"), this policy requires that (i) the Large-scale Purchaser provide sufficient information, such as its outline, purposes or conditions, the basis for determination of the purchase price and funds for purchase, and management policies and business plans which the Large-scale Purchaser intends to adopt after the completion of the Large-scale Purchase, to the Board of Directors before the Large-scale Purchase is to be conducted and (ii) after all required information is provided, the Board of Directors should be allowed a sufficient period of time (a sixty (60)-day period or a ninety (90)-day period) for consideration. The Board of Directors intends to assess and examine any proposed Large-scale Purchase from the perspective of the interests of shareholders as a whole after the information on such purchase is provided, and subsequently to disclose the opinion of the Board of Directors and any other information needed to assist shareholders in making their decisions. The Board of Directors may negotiate with the Large-scale Purchaser regarding purchase conditions or suggest alternative plans to shareholders, if it is deemed necessary.

If a Large-scale Purchaser does not comply with the rules laid out in the Large-scale Purchase Rule, the Company's Board of Directors may take countermeasures against the Large-scale Purchase to protect the interests of all shareholders. Countermeasures include the implementation of stock splits, issuance of stock acquisition rights (including allotment of share options without contribution) or any other measures that the Board of Directors is permitted to take under the Company Law of Japan, other laws and the Company's Articles of Incorporation. If a Large-scale Purchaser complies with the Large-scale Purchase Rule, the Board of Directors does not intend to prevent the Large-scale Purchase at its own discretion, unless it is clear that such Large-scale Purchase will cause irreparable damage or loss to the Company.

The Board of Directors will make decisions relating to countermeasures by referring to advice from outside professionals, such as lawyers and financial advisers, and fully respect the opinions of Outside Directors and Corporate Auditors.

When invoking the aforementioned countermeasures, if the Company's Board of Directors decides that it is appropriate to confirm the will of shareholders from the perspective of the interest of all shareholders, a general meeting of shareholders will be held. If the Company's Board of Directors decides to hold a general meeting of shareholders, it will give notice to that effect as well as the reasons for such a meeting at that time.

The Board of Directors will adopt specific countermeasures which it deems appropriate at that time. If the Board of Directors elects to make a stock split for shareholders as of a certain record date, the maximum ratio of the stock split shall be five-for-one. If the Board of Directors elects to issue stock acquisition rights to shareholders, the Company will issue one (1) stock acquisition right for every share held by shareholders on a specified record date. One (1) share shall be issued on the exercise of each stock acquisition right. If the Board of Directors elects to issue stock acquisition rights as a countermeasure, it may determine the exercise period and exercise conditions of the stock acquisition rights, such as the conditions that shareholders who belong to a specific group of shareholders including a Large-scale Purchaser may not exercise stock acquisition rights in consideration of the effectiveness thereof as a countermeasure, as well as the conditions that allow the Company to acquire share options by swapping the Company stock with a party other than the Large-scale Purchaser.

The Company recognizes that the aforementioned countermeasures may cause damage or loss, economic or otherwise, to a prospective Large-scale Purchaser who does not comply with the Large-scale Purchase Rule. The Company does not anticipate that taking such countermeasures will cause shareholders, other than the Large-scale Purchaser, economic damage or loss of any rights. However, in the event that the Board of Directors determines to take a specific countermeasure, the Board of Directors will disclose such countermeasure in a timely and appropriate manner, pursuant to relevant laws and stock exchange regulations.

The term of office for all Directors is one (1) year, and Directors are elected at the Ordinary General Meeting of Shareholders held in June every year. The Company's Board of Directors intends to review the ESV Plan, as necessary, for reasons including amendments to applicable legislation. Any such review would be conducted in the interests of all shareholders.
