Q3 Financial Highlights

Revenue of \$952 million, up 1% on an underlying basis

Trading profit of \$207 million, up 10% on an underlying basis

Trading profit margin up 190 bps to 21.7% as efficiency benefits come through

Continued strong performance from Advanced Wound Management and Sports Medicine Joint Repair

EPSA at 16.6 cents, up 2%

Sustained strong cash generation with net cash now \$379 million

Commenting, Olivier Bohuon, Chief Executive Officer of Smith & Nephew, said:

Edgar Filing: SMITH & NEPHEW PLC - Form 6-K

I am pleased to report an underlying 10% increase in trading profit for the quarter to \$207 million. The benefits of our efficiency improvements have helped to offset the impact of on-going tough conditions in Europe, and we continued to make good commercial progress in the emerging markets. Our Advanced Wound Management business continued to thrive, growing at twice the market rate.

Smith & Nephew's strategic priorities are about making choices for the long term benefit of our business, by allocating resources to the areas where we can achieve the greatest returns. I am confident that by following this strategy we are shaping the Group to respond to the market conditions and opportunities we face.

Notes

- 1 Unless otherwise specified as reported all revenue increases/decreases throughout this document are underlying increases/decreases after adjusting for the effects of currency translation and disposals. See note 4 to the financial statements for a reconciliation of these measures to results reported under IFRS.
- 2 A reconciliation from operating profit to trading profit is given in note 5 to the financial statements. The underlying increase in trading profit is the increase in trading profit after adjusting for the effects of currency translation and disposals.
- 3 Adjusted earnings per ordinary share (EPSA) growth is as reported, not underlying, and is stated before restructuring and rationalisation costs, amortisation of acquisition intangibles, profit on disposal of net assets held for sale and taxation thereon. See note 2 to the financial statements.
- 4 All numbers given are for the quarter ended 29 September 2012 unless stated otherwise.
- 5 References to market growth rates are estimates generated by Smith & Nephew based on a variety of sources.

Third Quarter Results

Our revenue was \$952 million in the quarter, up 1% on an underlying basis year-on-year. On a reported basis revenue was down -8%, reflecting a -4% negative currency impact and a -5% effect from the loss of revenues from the old Biologics and Clinical Therapies business following the Bioventus transaction.

Trading profit in the quarter was \$207 million, up 10% underlying on last year (2011: \$205 million). This resulted in a Group trading profit margin of 21.7%, a strong performance, and 190 basis points ahead of 2011. This margin improvement demonstrates the positive impact of the restructuring of Advanced Surgical Devices against the weak comparable last year.

Conditions across our Established Markets remained challenging, particularly in Europe which has further deteriorated from the previous quarter. We delivered 2% growth in the US, in our other Established Markets we saw a -1% decline and in the Emerging and International Markets, 6% growth.

The net interest receivable for the period was \$2 million. The tax rate for the quarter, and estimated effective rate for the full year, was 30.2% on profit before restructuring and rationalisation costs and amortisation of acquisition intangibles. Adjusted attributable profit of \$149 million is before these items and taxation thereon.

Adjusted earnings per share in the quarter grew 2% to 16.6¢ (83.0¢ per American Depositary Share, ADS), compared to 16.2¢ last year (81.0¢ per ADS). Basic earnings per share was 15.0¢ (75.0¢ per ADS) (2011: 14.9¢).

Trading cash flow (defined as cash generated from operations less capital expenditure but before restructuring and rationalisation costs) was \$264 million in the quarter, continuing its positive trend and reflecting a trading profit to cash conversion ratio of 128% (2011: 102%).

The Group had \$379 million net cash at the period end, against net cash of \$150 million at the end of Q2 2012 and net debt of \$196 million at Q3 2011.

Advanced Surgical Devices global (ASD)

ASD delivered total revenue of \$698 million in the quarter, flat on last year on an underlying basis (excluding a -3% currency headwind and -7% impact from the Bioventus transaction) (2011: \$774 million). Revenue in the US was flat, whilst our other Established Markets declined by -1% and overall we saw weaker market conditions, particularly in Europe. We achieved a 3% increase in the Emerging and International Markets. This increase, lower than recent quarters, mainly reflects distributor buying patterns and is against a strong comparable. In China we continue to grow at over 20%.

Trading profit margin increased 330 basis points to 21.3% (2011: 18.0%) and trading profit increased to \$149 million, as the benefits from our actions to restructure ASD come through against a weak comparable. The US restructuring is well advanced and our programmes are fully underway in Europe, from which we expect to deliver further efficiency benefits in the future.

Like-for-like price pressure across our Hip and Knee Implant and Trauma franchises remained similar to previous quarters, at around -2%. Price pressure was partially offset through mix gains.

Our **Knee Implant** franchise had a weaker quarter with a decline of -1% against a strong comparable. This compares to an estimated market growth of 2%. This reflects both the increased weakness in the European market where we have a proportionately larger market position, and also our position in the knee new product cycle. Our new JOURNEY^{II} system is in clinical evaluation and full global market release is expected in late 2013 or early 2014. The LEGION^H Hinge Knee system with its leading kinematic design was launched in the US last quarter and will be introduced in Europe early next year.

In **Hip Implants**, excluding our metal-on-metal products, revenues were flat, an improvement on the prior quarter. The total hip market was estimated to be flat at 0%. The focus areas of our traditional hip implant portfolio, including the R3[™] Acetabular System, the POLARCUP[™] Dual Mobility Hip System, the SMF[™] Short Modular Femoral Hip System and products featuring our VERILAST[™] bearing technology, all saw good growth in revenue. Our new hip revision system, REDAPT[™], is currently in limited market release and is on track to launch in the US in late Q4 2012.

Revenue across the whole hip franchise was down -4%. Sales of our BIRMINGHAM HIP[™] Resurfacing System (BHR) were down -36% compared with last year.

Our **Sports Medicine Joint Repair** franchise had a strong quarter, with revenue up 8%. The US was particularly strong, with double digit revenue growth. In the quarter we launched several new products. This included the ENDOBUTTON[™] CL Ultra 10mm fixation device, which extends this leading range to the growing number of surgeons who use the anatomic technique for anterior cruciate ligament (ACL) knee repair. We also obtained US FDA clearance for expanding the indications of six of our repair products, including HEALICOIL[™] PK Suture Anchor and the OSTEORAPTOR[™] Suture Anchor for use in hip arthroscopy.

Revenue in our **Arthroscopic Enabling Technologies** franchise fell by -3%, consistent with the prior quarter, as customers reduced their capital spending on visualisation equipment.

Revenue from our **Trauma** franchise was up 2%, which was the same as the overall estimated market growth rate of 3% after the -1% impact of our expiring US royalties, as previously highlighted. We have started implementing our refined Trauma commercial model, as we increase our focus and resources to address the opportunities we see in the high growth trauma and extremities markets. In particular, we have started creating focused US sales teams to serve our trauma and extremities customers and their differing requirements.

Advanced Wound Management global (AWM)

AWM continued to deliver strong underlying growth, with revenue growing at 4% (excluding a -6% currency impact) to \$254 million (2011: \$258 million), double the estimated market rate of 2%. This was another good result set against a slightly weaker market. In addition, we had a strong comparator quarter when we benefitted from the effects of the consolidation of our distributor network in Canada, which particularly impacted our Exudate and Infection Management franchises.

The US achieved growth of 11%, driven by a very strong performance from Negative Pressure Wound Therapy (NPWT). The Established Markets outside the US were flat, we saw good performances from France, Germany and the Nordics, but Spain was very weak, declining at over -20%. Our Emerging and International Markets grew strongly at 15%. Exudate Management and Infection Management declined in the quarter at -1% and -6% respectively.

Growth from our NPWT portfolio was very strong. We had a successful launch of RENASYS[™] NPWT and VERSAJET[™] in Japan in the quarter and expect to gain significant market share from our position in Japan as the market leader in advanced wound care. More generally in NPWT we continue winning large hospital accounts in the US and Europe. PICO[™] is now making a meaningful contribution to our growth rate and revenues.

In total we added 10 new products and line-extensions in the quarter. Last quarter we launched ALLEVYN[™] Life, which has been progressing well and we are expanding into additional countries and adding to the range.

Smith & Nephew has entered into a global settlement agreement with Wake Forest University that will resolve all existing NPWT patent litigation between the two parties. The terms of the agreement are confidential.

The AWM trading margin was 250 basis points lower than the prior year at 22.9% (2011: 25.4%) largely due to the settlement with Wake Forest University. Trading profit in the quarter was \$58 million (2011: \$66 million).

Nine Months to 29 September 2012

For the period, reported revenues were \$3,060 million, with underlying growth up 2% compared to the same period last year (excluding a -2% currency headwind and -3% impact of Bioventus transaction) (2011: \$3,164 million).

Reported trading profit for the nine month period was \$693 million (2011: \$682 million) with the trading profit margin up 110 basis points to 22.6%.

The net interest charge was \$nil. The tax charge of \$298 million is based upon an estimated effective rate for the full year of 30.2% on profit before restructuring and rationalisation costs, amortisation of acquisition intangibles and profit on disposal of net assets held for sale. Adjusted attributable profit before these items and taxation thereon was \$485 million and attributable profit was \$587 million.

EPSA increased year-on-year to 54.2¢ (271.0¢ per ADS) (2011: 52.6¢). Reported basic earnings per share was 65.6¢ (328.0¢ per ADS), compared to 49.6¢ (248.0¢ per ADS) in the same period of 2011.

Trading cash flow was \$741 million compared with \$657 million a year ago. This is a trading profit to cash conversion ratio of 107% compared with 96%.

Outlook

We do not see any change in the outlook for the Group as a whole for 2012; however, we continue to see variation in performance at a product franchise level.

In Advanced Wound Management, we are seeing excellent growth relative to the market, driven by NPWT market share gains. Conversely in hips we have seen stronger and longer-lasting BHR headwinds and we are seeing a slightly lower knee growth relative to market than we had expected. Sports Medicine and Trauma continue performing in line with our expectations.

We are seeing significant challenges in Europe, where we have about 30% of our revenues, and expect this to continue.

We have consistently been delivering on our trading profit margin improvement, and our guidance for the full year is unchanged.

NOTES

1. These interim financial statements have been prepared in conformity with IAS 34 Interim Financial Reporting. The financial information herein has been prepared on the basis of the accounting policies set out in the annual accounts of the Group for the year ended 31 December 2011. Smith & Nephew prepares its annual accounts on the basis of International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), IFRS as adopted by the European Union (EU) and in accordance with the provisions of the Companies Act 2006. IFRS as adopted by the EU differs in certain respects from IFRS as issued by the IASB. However, the differences have no impact for the periods presented.

The Group has adequate financial resources and its customers and suppliers are diversified across different geographic areas. The directors believe that the Group is well placed to manage its business risk successfully. The directors have a reasonable expectation that the Group has sufficient resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis for accounting in preparing the interim financial statements.

The financial information contained in this document does not constitute statutory accounts as defined in section 434 and 435 of the Companies Act 2006. The auditors issued an unqualified opinion and did not contain a statement under section 498 of the Companies Act 2006 on the Group's statutory financial statements for the year ended 31 December 2011, which have been delivered to the Registrar of Companies.

2. Adjusted earnings per ordinary share (EPSA) is a trend measure which presents the long-term profitability of the Group excluding the impact of specific transactions that management considers affect the Group's short-term profitability. The Group presents this measure to assist investors in their understanding of trends. Adjusted attributable profit is the numerator used for this measure.

EPSA has been calculated by dividing adjusted attributable profit by the weighted (basic) average number of ordinary shares in issue of 895 million (2011 891 million). The diluted weighted average number of ordinary shares in issue is 900 million (2011 895 million).

8. Of the \$298 million (2011 \$196 million) taxation charge for the nine months, \$282 million (2011 \$156 million) relates to overseas taxation. Taxation of \$209 million (2011 \$203 million) for the nine months on the profit before restructuring and rationalisation costs, amortisation of acquisition intangibles and profit on disposal of net assets held for sale is at the full year effective rate. In 2012, a net taxation charge of \$89 million (2011 taxation benefit of \$7 million) arose on profit on disposal of net assets held for sale after adjusting for restructuring and rationalisation costs and amortisation of acquisition intangibles.

In March 2012, the UK Government announced that the UK tax rate for accounting periods starting on or after 1 April 2013 will be reduced to 23%. The relevant legislation has been enacted in 2012. The deferred tax impact of this change will result in a credit which has been taken into account in calculating the effective tax rate for the year ending on 31 December 2012.

9. The 2011 final dividend of \$97 million was paid on 9 May 2012. The first interim dividend of 2012 of 9.90 US cents per ordinary share was declared by the Board on 1 August 2012. This was paid on 30 October 2012 to shareholders whose names appeared on the register at the close of business 12 October 2012. The sterling equivalent per ordinary share was set at 6.13 pence.
10. In January 2012, the Group announced its intention to sell the Clinical Therapies business (CT business) to Bioventus LLC (Bioventus). This was completed on 4 May 2012 for a total consideration of \$367 million and resulted in a profit before taxation of \$251 million. The revenue of the CT business in the four month period to disposal was \$69 million and profit before taxation was \$12 million. The details of the transaction are set out below:

INDEPENDENT REVIEW REPORT TO SMITH & NEPHEW plc

Introduction

We have been engaged by the Company to review the interim financial statements in the interim financial report for the three and nine months ended 29 September 2012 which comprises the Group Income Statement, Group Statement of Comprehensive Income, Group Balance Sheet, Condensed Group Cash Flow Statement, Group Statement of Changes in Equity and the related notes 1 to 12. We have read the other information contained in the interim financial report and considered whether it contains any apparent misstatements or material inconsistencies with the interim financial statements.

This report is made solely to the company in accordance with guidance contained in International Standard on Review Engagements 2410 (UK and Ireland) *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim financial report is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim financial report in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

As disclosed in note 1, the annual financial statements of the Group are prepared in accordance with IFRSs as adopted by the European Union. The interim financial statements included in this interim financial report have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted by the European Union.

Our Responsibility

Our responsibility is to express to the Company a conclusion on the interim financial statements in the interim financial report for the three and nine months ended 29 September 2012 based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Review Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements in the interim financial report for the three and nine months ended 29 September 2012 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.
