Disclaimer

This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended. These statements express a belief, expectation or intention and are generally accompanied

outcomes. The forward-looking statements include statements about SandRidge Energy, Inc.'s future operations, rig counts, and focus on conventional oil plays with a goal to achieve a self-funding capital program while growing production and reducing the construction of infrastructure, capital raising activities and hedge transactions. We have based these forward-looking statements on analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, which are appropriate under the circumstances. However, whether actual results and developments will conform with our expectations and projections is subject to uncertainties, including the volatility of oil and natural gas prices, our success in discovering, estimating, and developing oil and gas reserves, the successful integration of recent acquisitions, our timely execution of hedge transactions, credit conditions of global capital markets, changes, including those related to carbon dioxide and greenhouse gas emissions, and other factors, many of which are beyond our control. See Part I, Item 1A - Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2011 and in comparison to our Quarterly Reports on Form 10-Q. All of the forward-looking statements made in this presentation are qualified by these cautionary statements. There can be no assurance that the events or conditions described will not be realized or, even if substantially realized, they may not have the expected consequences to or effects on our company or its operations. No guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. We may update or revise any forward-looking statements.

Regulation G Disclosure

This presentation includes certain non-GAAP financial measures as defined under SEC Regulation G. A reconciliation of those measures to the most comparable GAAP measure is available on our website at www.sandridgeenergy.com.

Additional Information and Where to Find It

On January 18, 2013 SandRidge Energy, Inc. (the "Company") filed with the U.S. Securities and Exchange Commission (the "SEC") in connection with the consent solicitation by TPG-Axon Partners, LP, TPG-Axon Management LP, TPG-Axon Partners GP, L.P., TPG-Axon International GP, LLC, Dinakar Singh LLC, Dinakar Singh, Stephen C. Beasley, Edward W. Moneypenny, Fredric G. R. Westbrook (the "TPG-Axon Consent Solicitation"), and has mailed the definitive consent revocation statement and a form of consent to the Company entitled to execute, withhold or revoke consents relating to the TPG-Axon Consent Solicitation. **STOCKHOLDERS SHOULD REVIEW THE DEFINITIVE CONSENT REVOCATION STATEMENT, WHICH IS AVAILABLE NOW, AND OTHER DOCUMENTS FILED WITH THE SEC FOR MORE INFORMATION. THESE DOCUMENTS ARE NOT AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION.** Stockholders may obtain a free copy of the definitive consent revocation statement (which is available) filed with the SEC by the Company through the website maintained by the SEC at www.sec.gov.

Certain Information Regarding Participants

The Company and certain of its directors and executive officers are participants in the solicitation of consent revocations from the TPG-Axon Consent Solicitation. Stockholders may obtain information regarding the names, affiliations and interests of the Company's directors and executive officers in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, which was filed with the SEC on February 27, 2012, its Quarterly Reports on Form 10-Q for the quarters of the fiscal year ending December 31, 2012, filed on May 7, 2012, August 6, 2012 and November 9, 2012, respectively, and the definitive consent revocation statement which was filed with the SEC on January 18, 2013. These documents can be obtained free of charge through the website maintained

Overview

TPG-Axon's Bid for Control

Short-term focus disrupts the creation of long-term shareholder value

Campaign is based on false and misleading statements

Asking stockholders to turn over control of SandRidge to a new board nominated exclusively by TPG-Axon

Election of TPG-Axon's nominees would not provide stockholders with any control premium

Overview

SandRidge was founded in 2006 with the goal of becoming a leader

in natural gas production

Subsequently, natural gas priced declined from a high of ~\$13.50/Mcf in 2008 to less than \$2.00/Mcf

SandRidge's Board and management team took strategic actions to transition the Company to an oil-focused producer in response to the sharp decline in natural gas prices

Consistent with these actions, the Board and management are aligned around a clear plan to deliver stockholder value by:

Continuing to perform as the premier operator in the Mississippian

Continuing to strengthen SandRidge's financial position

Funding capital expenditures within cash flows

SandRidge's strong and independent Board is highly qualified and has the expertise to lead the Company in the continued execution of its strategy

Why We're Here

TPG-Axon, a hedge fund owning approximately 6.7% of SandRidge stock,

*

has engaged in a false and misleading campaign to replace your Board

If successful, TPG-Axon's efforts would turn control of SandRidge over to a new board of directors nominated exclusively by TPG-Axon, who we believe will encourage and facilitate a sale or major restructuring designed to benefit short-term investors

6

Our Strategy is Delivering Results

Shifted from 65% of revenues from natural gas in 2009 to 86% from oil today

Over 80% of Mississippian cash flows result from oil production

Transition to oil

producer

Leadership in

Mississippian

Mississippian

drill bit growth

Improve financial

condition and

liquidity

Most active and most efficient driller in the play, which has among the highest returns in the US

Operational expertise and infrastructure development make SandRidge the lowest cost producer

138% growth in production from Q3 2011 to Q3 2012

Grew production in the Mississippian 18x from Q3 2010 to Q3 2012

Announced sale of Permian for \$2.6 billion generating cash proceeds of \$1.4 billion over our net investment

Over

\$2

billion

of

cash

and

~\$2.8

billion

in

7

TPG-Axon intends to force a sale or major restructuring benefitting short-term holders: They have yet to demonstrate the ability or to articulate a plan to actually run SandRidge's business for any

length of time

TPG-Axon is a short-term-focused hedge fund

TPG-Axon has actively sold shares of SandRidge (~5.3 million shares since initial investment in November 2011)

Sold five times in last year and three times since July 2, 2012 (including as recently as December 10, 2012)

3 other E&P investments in the past 3 years

Other E&P investments held on average only 2 fiscal quarters

TPG-Axon's nominees lack the relevant oil and gas exploration and production operating experience necessary to drive SandRidge's future growth

TPG-Axon is asking stockholders to turn over control of the Board and SandRidge.

The election of TPG-Axon's nominees would not provide stockholders with any control premium

If successful, TPG-Axon's proposals could trigger a change of control forcing the Company to offer to buy back \$4.3 billion in Senior Notes, which could materially harm its financial position

If successful, TPG-Axon's proposals would also result in the accelerated vesting of a substantial number of shares of restricted stock held by senior management, thereby removing a

key
element
of
the
Company's
retention
program
and
potentially
depriving
the
Company
of
its
experienced
leadership
TPG-Axon's Efforts Would Disrupt Long-Term Value Creation

8
TPG-Axon's Campaign is Based on False and Misleading Statements
TPG-Axon and Mount Kellett have made a number of allegations regarding related party transactions.

The SandRidge Board has reviewed these allegations several times and has found no evidence of wrongdoing. Important facts include:

SandRidge's interests are located in over 7,500 sections covering nearly five million acres in 30 counties throughout an area that encompasses approximately 17 million acres; virtually all companies active in the play are likely to have some interests that could be characterized as adjacent to the Company's holdings

Across SandRidge's vast acreage in the Mississippian, the Company competes with numerous other companies. WCT Resources is just one of many

WCT Resources is an independent oil and gas company

Mr. Ward has no control over WCT Resources, and does not participate in its management, operations or business

WCT Resources managers, which include Mr. Ward's son, have no access to non-public information concerning SandRidge's land and mineral acquisition programs

Transactions between SandRidge and WCT Resources have been thoroughly reviewed and

approved
in
advance
by
disinterested
Board
members
in

SandRidge proactively constructed infrastructure to access regional
transmission network

-

~500 miles of power distribution lines

-

3 operated substations, 4 additional substations in 2013

Figures are as of year-end 2012

15

Low Cost Mississippian Operator

Proactively managing infrastructure needs

and capitalizing on scale allows SandRidge to be a low cost operator in the play

Trucked water volumes are less than 1.0%, down from over 8.0% in early 2012

Wells on generators have declined by over 20% as a result of SandRidge's expanding electrical infrastructure

As a result, LOE has declined over 15% since 1Q12

Excludes Production and Ad Valorem Taxes

Current production of over 30 MBoe/d

Low maintenance capital requirements,
high cash flowing assets

SandRidge believes offshore assets are one of
the few remaining attractively priced producing
assets

As such, we will continue to look to
opportunistically acquire small bolt-on properties
with minimal development requirements
Dynamic Acquisition Review

Prior to the acquisition, SandRidge was positioned as an asset rich company with a
constrained development capacity due to financial limitations

The Dynamic acquisition provided attractively priced EBITDA and production and
enhanced SD credit metrics

The transaction strengthened our ability to develop the Mississippian by improving
financial flexibility and providing free cash flow for the development of our large and
long-lived onshore asset base
