Definitive Proxy Statement

Definitive Additional Materials

Soliciting Material Pursuant to § 240.14a-12

PROTHENA CORPORATION PUBLIC

LIMITED COMPANY

(Exact name of registrant as specified in its charter)

(Name of Person(s) Filing Proxy Statement, if other than the Registrant)

Payment of Filing Fee (Check the appropriate box):

No fee required.

Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.

(1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

Fee paid previously with preliminary materials.

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Prothena Corporation plc Annual General Meeting of Shareholders April 10, 2017

Forward-Looking Statements This presentation contains forward-looking statements. These statements relate to, among other things, Prothena's growth strategy and the way Prothena intends to advance its business and increase shareholder value and Prothena's ability to raise capital through issuances of shares for cash. These forward-looking statements are based on estimates, projections and assumptions that may prove not to be accurate, and actual results could differ materially from those anticipated due to known and unknown risks, uncertainties and other factors, including but not limited to risks and uncertainties associated with Prothena's potential inability to successfully develop and commercialize drug candidates if additional capital is not available to Prothena; the difficulty and uncertainty of drug candidate development and the uncertainty of clinical success, including the risk that Prothena may not be able to successfully discover, develop, obtain regulatory approval for or commercialize any drug candidates; and the risks, uncertainties and other factors described in the "Risk Factors" sections of our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on February 27, 2017 and our subsequent Quarterly Reports on Form 10-Q filed with the SEC. Prothena undertakes no obligation to update publicly any forward-looking statements contained in this presentation as a result of new information, future events or changes in Prothena's expectations.

About Prothena

We Are a Late-Stage Clinical Biotechnology Company with Significant Future Capital Needs We are a global, late-stage clinical biotechnology company establishing fully-integrated research, development and commercial capabilities With multiple programs in development, we seek to fundamentally change the course of progressive diseases involving protein misfolding or cell adhesion We have no products approved for sale and the research and clinical development of our product candidates requires significant capital Until such time that we successfully obtain regulatory approval of our product candidates and achieve substantial positive cash flows from the commercialization of any approved drug candidates, we will continue to rely heavily on efficient access to the capital markets in order to fund our operations

We are Listed in the U.S. and Incorporated in Ireland Prothena is a “spin-off” from Elan Corporation, plc – an Irish company founded in 1969 Both Prothena and Elan were founded as Irish companies – neither became an Irish company through an “inversion” Since we were “spun out” in December 2012, our ordinary shares have been listed exclusively on The NASDAQ Global Market Although we are (and always have been) an Irish company, we are considered to be a U.S. domestic reporting company under SEC rules – we are not a foreign private issuer within the meaning of SEC rules

What it Means to be Listed Exclusively in the U.S. and Incorporated in Ireland Because we are incorporated in Ireland, we follow Irish corporate law Because our ordinary shares are listed exclusively in the U.S. and the U.S. capital markets are the sole capital markets for our ordinary shares: We follow the rules and regulations of the SEC and the NASDAQ rules and listing standards We are subject to the same governance and share issuance requirements as all U.S.-incorporated companies listed on the NASDAQ We are committed to following customary U.S. capital markets practices and corporate governance standards

About Proposals 5, 6 and 7

What are Proposals 5 and 6? Under Irish law, our Board must be authorized by shareholders to both issue any shares and to issue those shares for cash without first offering those shares on the same or more favorable terms to our existing shareholders on a pro-rata basis (referred to as the statutory pre-emption right) Since our formation, our Board has been authorized to: Issue shares up to our authorized but unissued share capital, and Issue shares for cash without first applying the statutory pre-emption right Under Irish law, these share issuance authorities may be granted for a maximum period of five years; accordingly, our Board's share issuance authorities will expire on September 26, 2017 unless renewed by our shareholders Proposals 5 and 6 ask our shareholders to renew, for an additional five years, the same share issuance authorities that have been in place and that our Board has been operating under since our formation In order to be approved, Proposal 5 requires the affirmative vote of a majority of the votes cast on the proposal, and Proposal 6 requires the affirmative vote of 75% of the votes cast on the proposal Additional details on Proposals 5 and 6 are on pages 30-38 of our definitive proxy statement filed with the SEC on March 31, 2017

Why Proposals 5 and 6 are Important and Why You Should Vote “FOR” Both Renewal of our Board’s current share issuance authorities is fundamental to the way we intend to advance our business and increase shareholder value – which depends on our ability to efficiently raise capital Proposals 5 and 6 are directly tied to our specific growth strategy, and our Board needs the continued flexibility to quickly take advantage of opportunities to efficiently and cost-effectively raise capital through share issuances for cash As a late-clinical stage biotechnology company, we rely heavily on, and until such time that we successfully obtain regulatory approval of our product candidates and achieve substantial positive cash flows from the commercialization of any approved drug candidates, will continue to rely heavily on access to the capital markets in order to fund our operations Because of the numerous risks and uncertainties associated with the development and commercialization of our product candidates, the amounts of increased capital outlays and operating expenses associated with completing the development of our product candidates are inherently uncertain, as is the time horizon for which we expect to rely principally on access to the capital markets to fund the completion of our product candidate development efforts

Why Proposals 5 and 6 are Important and Why You Should Vote “FOR” Both (continued) Renewing our Board’s share issuance authorities will allow us to continue to execute on our business and growth strategy without competitive disadvantage – i.e., on an equal footing with our peer companies that are U.S.-incorporated and U.S.-listed Approval of Proposals 5 and 6 would extend – but not expand – our Board’s current share issuance authorities We are not asking shareholders to increase our authorized share capital We are and will continue to be subject to the shareholder approval and other requirements of NASDAQ and the SEC with respect to share issuances Approval of Proposals 5 and 6 would not mean that we would have no limits on future share issuances – to the contrary, we are considered to be a U.S. domestic reporting company under SEC rules and we are subject to the same shareholder approval rules with respect to share issuances as all U.S.-incorporated companies listed on the NASDAQ

We Believe Our Board has Responsibly Used its Current Share Issuance Authorities We believe that we have made significant progress in executing on our business plans and long-term strategy, while also creating value for our shareholders Our Board has been deliberately disciplined in authorizing share issuances for capital raising purposes – we believe that our past capital-raising transactions have been well-timed, well-executed and successfully raised critically-needed capital to further our development programs We believe that we have been equally disciplined in managing and deploying our cash resources Our Board will continue to focus on and satisfy its fiduciary duties to our shareholders with respect to future share issuances

What if Proposals 5 and 6 are Not Approved? If Proposals 5 and 6 are not approved, our Board's current share issuance authorities – that have been in place since our formation – will expire on September 26, 2017. If Proposal 5 is not approved, after September 26, 2017 we will generally not be able to issue shares (other than pursuant to our equity compensation plan), even if we would not otherwise be required to obtain shareholder approval under NASDAQ rules. If Proposal 6 is not approved, after September 26, 2017 we will generally not be able to issue shares for cash without first offering those shares on the same or more favorable terms to our existing shareholders on a pro-rata basis. The above limitations, in either case, would put us at a distinct disadvantage in effectively and efficiently raising capital, and in competing for capital vis-à-vis many of our peers because many of the companies with which we compete strategically and for capital are incorporated in the U.S., and are therefore not subject to similar share issuance restrictions. These limitations would make it more difficult and costly for us to complete capital raising transactions in furtherance of our growth strategy, thus potentially limiting our ability to raise the capital necessary to execute on the strategy that we believe is in the best interests of our shareholders.

Why Proposal 7 is on the Agenda and Why You Should Vote “FOR” Proposal 7 Proposal 6 – to renew our directors’ authority to issue shares for cash without first offering shares to existing shareholders – is a special resolution under Irish law requiring an affirmative vote of 75% of the votes cast on the proposal Given this high vote requirement, we propose to have the ability to adjourn the meeting to solicit additional proxies if there are insufficient votes at the scheduled time of the meeting to approve Proposal 6 Proposal 7 would only allow adjournment to solicit additional proxies if there are insufficient votes to approve Proposal 6 If you support Proposal 6, we believe that a vote for the adjournment proposal also warrants your support

Our Other Proposals

Recurring Annual Proposals Election of directors (Proposal 1) Ratification, in a non-binding vote, of KPMG's appointment and authorization, in a binding vote, to approve its remuneration (Proposal 2) Approval, in non-binding advisory vote, of executive officer compensation – "say-on-pay" (Proposal 3)

Proposal 4 – Amendment and Restatement of 2012 Long Term Incentive Plan

Why Proposal 4 is on the Agenda In 2014, our shareholders approved the current Amended and Restated 2012 Long Term Incentive Plan (the “2012 LTIP”) We are seeking shareholder approval of a further amendment and restatement of the 2012 LTIP to: Increase shares available under the 2012 LTIP by 1,350,000 ordinary shares to a total of 8,750,00 ordinary shares Make other amendments to the 2012 LTIP consistent with current best practices

Why You Should Vote “FOR” Proposal 4 Additional shares are critical to meet attract and retain key individuals essential to our success We expect the additional shares to last two years assuming grants consistent with past practices and usage Our average burn rate over the past three years was 3.71% (calculated using weighted average shares outstanding, and without adjusting for forfeitures) Based on analysis provided by the Compensation Committee’s consultant, we believe the additional shares requested are within generally accepted standards as measured by plan costs relative to industry standards

Why You Should Vote “FOR” Proposal 4 (continued) Other proposed amendments to the 2012 LTIP include:
Automatic acceleration of awards upon a change in control only if not assumed or substituted Any vesting of performance-based awards upon a change in control will be at higher of actual performance or target performance pro-rated based on shortened performance period Prohibit liberal share recycling for all types of awards Prohibit vesting acceleration (subject to limited exceptions) One-year minimum vesting (subject to limited exceptions) Payment of dividends and dividend equivalents only if underlying shares vest

About Our Corporate Governance

We Believe We Have Strong Corporate Governance Practices We have a separate CEO and Chairman (who is independent) 6 of our 7 directors are independent Our independent directors meet regularly in executive session Our Audit, Compensation and Nominating and Corporate Governance Committees are comprised solely of independent directors The composition of our Board reflects an appropriate breadth and balance of knowledge, skills and experience Our Board conducts annual evaluations of its performance Our Board and its committees may engage outside advisors independently of management

We Believe We Have Strong Corporate Governance Practices (continued) We have majority voting for election of directors (with no “holdover” if a director fails to receive a majority vote) Although we have a “staggered” Board, under Irish law and our Constitution any director may be removed at any time without or without cause by a majority vote of shareholders Under Irish law, shareholders holding 10% or more of our shares may convene a special shareholder meeting – including to remove any or all directors and appoint replacement directors We have a robust Code of Conduct and broad prohibitions against directors, officers and employees hedging against or pledging Company securities Our Board is actively engaged in risk oversight

Annual General Meeting Details

We Value Your Support at our Annual General Meeting Our Annual General Meeting will be held on May 17, 2017
Our Board of Directors recommends that you “FOR” each of the director nominees in Proposal 1 and “FOR” each of the other Proposals 2 through 7 Your vote is important, no matter how many or how few shares you may own – please help us avoid the expense of further solicitation by voting today If you require any assistance in voting your shares or have any other questions, please call Alliance Advisors, our proxy solicitor, at +1-855-973-0094
