**About Cypress Energy Partners, L.P.**

We are a diversified Delaware limited partnership formed to serve energy companies throughout North America. We completed our initial public offering in January 2014. We currently provide essential midstream services that include independent pipeline inspection and integrity services to producers and pipeline companies and water and environmental services to U.S. onshore oil and natural gas producers and trucking companies.

Our business is organized into three reportable segments: (1) Pipeline Inspection Services ( Pipeline Inspection ), (2) Pipeline & Process Services ( Pipeline & Process Services ) and (3) Water and Environmental Services ( Water Services ), constituting saltwater disposal activities in our saltwater disposal entities. We also have a number of other potential lines of business outlined in our IRS private letter ruling that would allow us to further diversify our business activities and lines of business serving the energy industry.

The Pipeline Inspection segment generates revenue primarily by providing essential inspection and integrity services on a variety of infrastructure assets, including midstream pipelines, gathering systems, and distribution systems. Services include non-destructive examination, mechanical integrity, survey, data gathering, and supervision of third-party contractors. Our results in this segment are driven primarily by the number of inspectors that perform services for our customers and the fees that we charge for those services, which depend on the type, skills, technology, equipment, and number of inspectors used on a particular project, the nature of the project, and the duration of the project. The number of inspectors engaged on projects is driven by the type of project, prevailing market rates, the age and condition of customers' assets including pipelines, gas plants, compression stations, storage facilities, and gathering and distribution systems, including the legal and regulatory requirements relating to the inspection and maintenance of those assets. Our customers are also billed for per diem charges, mileage, and other reimbursement items.

The Pipeline & Process Services segment generates revenue primarily by providing essential midstream services, including hydrostatic testing services and chemical cleaning related to newly-constructed and existing pipelines and related infrastructure. We generally charge our customers in this segment on a fixed-bid basis, depending on the size and length of the pipeline being tested, the complexity of services provided, and the utilization of our work force and equipment. Our results in this segment are driven primarily by the number of field personnel that perform services for our customers and the fees that we charge for those services, which depend on the type and number of field personnel used on a particular project, the type of equipment used and the fees charged for the utilization of that equipment, and the nature and duration of the project. These projects are typically based on fixed-bid agreements with customers.

The Water Services segment owns and operates nine (9) Environmental Protection Agency Class II saltwater disposal facilities in the Williston Basin region of North Dakota. Eight (8) of the facilities are wholly

owned and we have ten (10) pipelines from multiple E&P customers connected to these saltwater disposal facilities, including two (2) that were developed and are owned by us. Our saltwater disposal facilities provide essential midstream services to oil and natural gas upstream producers and their transportation companies. All of the saltwater disposal facilities utilize specialized equipment and remote monitoring to minimize the facilities' downtime and increase the facilities' efficiency for peak utilization. These facilities also utilize oil skimming and recovery processes that remove residual oil from water delivered to our saltwater disposal facilities via pipeline or truck. We sell the oil recovered from these skimming processes, which contributes to our revenues. In addition to these saltwater disposal facilities, we provide management and staffing services to a saltwater disposal facility in which we own a 25% ownership interest.

We filed our certificate of incorporation with the Secretary of State of Delaware on September 19, 2013.

Our principal executive offices are located at 5727 S. Lewis Avenue, Suite 300, Tulsa, Oklahoma 74105, and our telephone number is (918) 748-3900.

**Table of Contents**

**RISK FACTORS**

Investment in any securities offered pursuant to this prospectus supplement and the applicable base prospectus involves risks. You should carefully consider the risk factors included or incorporated by reference herein, including the risk factors discussed under the heading "Risk Factors" in our most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K we file after the date of this prospectus supplement, and all other information contained or incorporated by reference into this prospectus supplement, as updated by our subsequent filings under the Exchange Act, and the risk factors and other information contained in any applicable free writing prospectus before acquiring any of such securities. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered securities.

**Risks Related to This Offering**

***Management will have broad discretion as to the use of the proceeds from this offering and may not use the proceeds effectively.***

Because we have not designated the amount of net proceeds from this offering to be used for any particular purpose, our management will have broad discretion as to the application of the net proceeds from this offering and could use them for purposes other than those contemplated at the time of the offering. Our management may use the net proceeds for general partnership purposes that may not improve our financial condition or market value.

***The market price of our common units may be adversely affected by the future issuance and sale of additional common units, including pursuant to the sales agreement, or by our announcement that such issuances and sales may occur.***

We cannot predict the size of future issuances or sales of our common units, including those made pursuant to the sales agreement with our sales agent or in connection with future acquisitions or capital raising activities, or the effect, if any, that such issuances or sales may have on the market price of our common units. The issuance and sale of substantial amounts of our common units, including issuances and sales pursuant to the sales agreement, or announcement that such issuances and sales may occur, could adversely affect the market price of our common units.

***It is not possible to predict the actual number of common units we will sell under the sales agreement, or the gross proceeds resulting from those sales.***

Subject to certain limitations in the sales agreement and compliance with applicable law, we have the discretion to deliver a placement notice to the Agent at any time throughout the term of the sales agreement. The number of common units that are sold through or to the Agent after delivering a placement notice will fluctuate based on a number of factors, including the market price of the common units during the sales period, the limits we set with the Agent in any applicable placement notice, and the demand for our common units during the sales period. Because the price per unit of each common unit sold will fluctuate during the sales period, it is not currently possible to predict the number of common units that will be sold or the gross proceeds to be raised in connection with those sales.

***The common units offered hereby will be sold in at the market offerings, and investors who buy common units at different times will likely pay different prices.***

Investors who purchase common units in this offering at different times will likely pay different prices, and so may experience different levels of dilution and different outcomes in their investment results. We will have discretion, subject to market demand, to vary the timing, prices, and numbers of common units sold in this offering. In addition,

there is no minimum or maximum sales price for common units to be sold in this offering. Investors may experience a decline in the value of the common units they purchase in this offering as a result of sales made at prices lower than the prices they paid.

S-5

**Table of Contents**

**USE OF PROCEEDS**

The amount of proceeds from this offering will depend upon the number of common units sold and the market price at which they are sold. There can be no assurance that we will be able to sell any common units under or fully utilize the sales agreement as a source of financing.

We intend to use the net proceeds of this offering, after deducting the Agent's commissions and our offering expenses, for general partnership purposes, which may include, among other things, repayment of indebtedness, financing of future acquisitions and capital expenditures and additions to working capital. We may temporarily invest the net proceeds in short-term, interest-bearing instruments or other investment-grade securities. We have not determined the amount of net proceeds to be used specifically for such purposes. As a result, management will retain broad discretion over the allocation of net proceeds.

**MATERIAL FEDERAL INCOME TAX CONSEQUENCES**

The tax consequences to you of an investment in our common units will depend in part on your own tax circumstances. Although this section updates and adds information related to certain tax considerations, it should be read in conjunction with the risk factors in our most recent Annual Report on Form 10-K, and with **Material Federal Income Tax Consequences** in the accompanying base prospectus, which provides a discussion of the principal federal income tax considerations associated with our operations and the purchase, ownership and disposition of our common units. The following discussion is limited as described under the caption **Material Federal Income Tax Consequences** in the accompanying base prospectus.

All prospective unitholders are encouraged to consult with their own tax advisors about the federal, state, local and foreign tax consequences particular to their own circumstances. In particular, ownership of common units by tax-exempt entities, including employee benefit plans and IRAs, and non-U.S. investors raises issues unique to such persons. The relevant rules are complex, and the discussions herein and in the accompanying base prospectus do not address tax considerations applicable to tax-exempt entities and non-U.S. investors, except as specifically set forth in the accompanying base prospectus. Please read **Material Federal Income Tax Consequences Tax-Exempt Organizations and Other Investors** in the accompanying base prospectus.

**PLAN OF DISTRIBUTION**

We have entered into a sales agreement with B. Riley FBR, Inc. (the Agent) under which we may issue and sell our common units from time to time through or to the Agent, acting as sales agent or principal. Sales of our common units, if any, under this prospectus supplement and the accompanying prospectus may be made by any method that is deemed an at the market offering as defined in Rule 415 promulgated under the Securities Act. We may instruct the Agent not to sell common units if the sales cannot be effected at or above the price designated by us from time to time. We or the Agent may suspend the offering of common units upon notice and subject to other conditions.

The Agent will offer our common units subject to the terms and conditions of the sales agreement as agreed upon by us and the Agent. Each time we wish to issue and sell common units under the sales agreement, we will notify the Agent of the number or dollar value of common units to be issued, the time period during which such sales are requested to be made, any limitation on the number of common units that may be sold in one day, any minimum price below which sales may not be made and other sales parameters as we deem appropriate. Once we have so instructed the Agent, unless the Agent declines to accept the terms of the notice, the Agent has agreed to use its commercially reasonable efforts consistent with its normal trading and sales practices to sell such common units up to the amount specified on such terms. The obligations of the Agent under the sales agreement to sell our common units are subject to a number of conditions that we must meet.

We will pay the Agent commissions for its services in acting as agent in the sale of common units at a commission rate equal to 3.0% of the gross sales price per common unit sold. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions and proceeds to us, if any, are not determinable at this time. We have also agreed to reimburse the Agent for certain specified expenses, including the fees and disbursements of its legal counsel in an amount not to exceed \$40,000. We estimate that the total expenses for the offering, excluding commissions and reimbursements payable to the Agent under the terms of the sales agreement, will be approximately \$108,000.

Settlement for sales of common units will generally occur on the second business day following the date on which any sales are made, or on some other date that is agreed upon by us and the Agent in connection with a particular transaction, in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

In connection with the sale of the common units on our behalf, the Agent will be deemed to be an underwriter within the meaning of the Securities Act and the compensation of the Agent will be deemed to be underwriting commissions or discounts. We have agreed to provide indemnification and contribution to the Agent against certain civil liabilities, including liabilities under the Securities Act.

The offering of our common units pursuant to the sales agreement will terminate upon the earlier of (i) the sale of all of our common units subject to the sales agreement, or (ii) termination of the sales agreement as provided therein.

The Agent and its affiliates may in the future provide various investment banking and other financial services for us and our affiliates, for which services they may in the future receive customary fees.

**ABOUT CYPRESS ENERGY PARTNERS, L.P.**

We are a diversified Delaware limited partnership formed to serve energy companies throughout North America. We completed our initial public offering in January 2014. We currently provide essential midstream services that include independent pipeline inspection and integrity services to producers and pipeline companies and water and environmental services to U.S. onshore oil and natural gas producers and trucking companies.

Our business is organized into three reportable segments: (1) Pipeline Inspection Services ( Pipeline Inspection ), (2) Pipeline & Process Services ( Pipeline & Process Services ) and (3) Water and Environmental Services ( Water Services ), constituting saltwater disposal activities in our saltwater disposal entities. We also have a number of other potential lines of business outlined in our IRS private letter ruling ( PLR ) that would allow us to further diversify our business activities and lines of business serving the energy industry.

The Pipeline Inspection segment generates revenue primarily by providing essential inspection and integrity services on a variety of infrastructure assets, including midstream pipelines, gathering systems, and distribution systems. Services include non-destructive examination, mechanical integrity, survey, data gathering, and supervision of third-party contractors. Our results in this segment are driven primarily by the number of inspectors that perform services for our customers and the fees that we charge for those services, which depend on the type, skills, technology, equipment, and number of inspectors used on a particular project, the nature of the project, and the duration of the project. The number of inspectors engaged on projects is driven by the type of project, prevailing market rates, the age and condition of customers' assets including pipelines, gas plants, compression stations, storage facilities, and gathering and distribution systems, including the legal and regulatory requirements relating to the inspection and maintenance of those assets. Our customers are also billed for per diem charges, mileage, and other reimbursement items.

The Pipeline & Process Services segment generates revenue primarily by providing essential midstream services, including hydrostatic testing services and chemical cleaning related to newly-constructed and existing pipelines and related infrastructure. We generally charge our customers in this segment on a fixed-bid basis, depending on the size and length of the pipeline being tested, the complexity of services provided, and the utilization of our work force and equipment. Our results in this segment are driven primarily by the number of field personnel that perform services for our customers and the fees that we charge for those services, which depend on the type and number of field personnel used on a particular project, the type of equipment used and the fees charged for the utilization of that equipment, and the nature and duration of the project. These projects are typically based on fixed-bid agreements with customers.

The Water Services segment owns and operates nine (9) Environmental Protection Agency Class II saltwater disposal facilities in the Williston Basin region of North Dakota. Eight (8) of the facilities are wholly-owned and we have ten (10) pipelines from multiple E&P customers connected to these saltwater disposal facilities, including two (2) that were developed and are owned by us. Our saltwater disposal facilities provide essential midstream services to oil and natural gas upstream producers and their transportation companies. All of the saltwater disposal facilities utilize specialized equipment and remote monitoring to minimize the facilities' downtime and increase the facilities' efficiency for peak utilization. These facilities also utilize oil skimming and recovery processes that remove residual oil from water delivered to our saltwater disposal facilities via pipeline or truck. We sell the oil recovered from these skimming processes, which contributes to our revenues. In addition to these saltwater disposal facilities, we provide management and staffing services to a saltwater disposal facility in which we own a 25% ownership interest.

We filed our certificate of incorporation with the Secretary of State of Delaware on September 19, 2013.

**DESCRIPTION OF OUR COMMON UNITS**

The following description of our common units is not complete and may not contain all the information you should consider before investing in our common units. This description is summarized from, and qualified in its entirety by reference to, our partnership agreement, which has been publicly filed with the SEC. See [Where You Can Find More Information](#); [Incorporation by Reference](#).

**The Common Units**

The common units represent limited partner interests in us. The holders of common units are entitled to participate in partnership distributions and are entitled to exercise the rights and privileges available to limited partners under our partnership agreement. For a description of the relative rights and preferences of holders of common units in and to partnership distributions, please read this section and [Cash Distribution Policy and Restrictions on Distributions](#). For a description of the rights and privileges of limited partners under our partnership agreement, including voting rights, please read [Our Partnership Agreement](#).

Our common units are listed on the NYSE under the symbol [CELP](#).

**Transfer Agent and Registrar**

***Duties***

Computershare Trust Company, N.A. serves as the registrar and transfer agent for our common units. We pay all fees charged by the transfer agent for transfers of common units, except the following that must be paid by our unitholders:

surety bond premiums to replace lost or stolen certificates, or to cover taxes and other governmental charges in connection therewith;

special charges for services requested by a holder of a common unit; and

other similar fees or charges.

Unless our general partner determines otherwise in respect of some or all of any classes of our partnership interests, our partnership interests are evidenced by book entry notation on our partnership register and not by physical certificates.

There is no charge to our unitholders for disbursements of our cash distributions. We will indemnify the transfer agent, its agents and each of their respective stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence or intentional misconduct of the indemnified person or entity.

***Resignation or Removal***

The transfer agent may resign, by notice to us, or be removed by us. The resignation or removal of the transfer agent will become effective upon our appointment of a successor transfer agent and registrar and its acceptance of the

appointment. If no successor has been appointed and has accepted the appointment within 30 days after notice of the resignation or removal, our general partner may act as the transfer agent and registrar until a successor is appointed.

### **Transfer of Common Units**

By transfer of common units in accordance with our partnership agreement, each transferee of common units shall be admitted as a limited partner with respect to the common units transferred when such transfer and admission are reflected in our books and records. Each transferee:

automatically agrees to be bound by the terms and conditions of, and is deemed to have executed, our partnership agreement;

**Table of Contents**

represents and warrants that the transferee has the right, power, authority and capacity to enter into our partnership agreement; and

gives the consents, waivers and approvals contained in our partnership agreement.

Our general partner will cause any transfers to be recorded on our books and records no less frequently than quarterly.

We may, at our discretion, treat the nominee holder of a common unit as the absolute owner. In that case, the beneficial holder's rights are limited solely to those that it has against the nominee holder as a result of any agreement between the beneficial owner and the nominee holder.

Common units are securities and are transferable according to the laws governing the transfer of securities. In addition to other rights acquired upon transfer, the transferor gives the transferee the right to become a substituted limited partner in our partnership for the transferred common units.

Until a common unit has been transferred on our books, we and the transfer agent may treat the record holder of the common unit as the absolute owner for all purposes, except as otherwise required by law or stock exchange regulations.

**CASH DISTRIBUTION POLICY AND RESTRICTIONS ON DISTRIBUTIONS**

**Rationale for Our Cash Distribution Policy**

Our partnership agreement requires that we distribute all of our available cash quarterly. This requirement forms the basis of our cash distribution policy and reflects a basic judgment that our unitholders are better served by distributing our available cash rather than retaining it, because, among other reasons, we believe we will generally finance any expansion capital expenditures from external financing sources. Subject to the distribution preferences of the Series A preferred units representing limited partner interests in the Partnership (the Series A Preferred Units), under our current cash distribution policy, we make a quarterly distribution to the holders of our common units of \$0.21 per unit, or \$0.84 per unit on an annualized basis, to the extent we have sufficient available cash after the establishment of cash reserves and the payment of costs and expenses, including the payment of expenses to our general partner. The Series A Preferred Units receive the distribution preference described below under Provisions of our Partnership Agreement Relating to Cash Distributions Series A Preferred Units. However, other than the requirement in our partnership agreement to distribute all of our available cash each quarter, we have no legal obligation to make quarterly cash distributions in this or any other amount, and our general partner has considerable discretion to determine the amount of our available cash each quarter. In addition, our general partner may change our cash distribution policy at any time, subject to the requirement in our partnership agreement to distribute all of our available cash quarterly. Generally, our available cash is our (1) cash on hand at the end of a quarter after the payment of our expenses and the establishment of cash reserves and (2) cash on hand resulting from working capital borrowings made after the end of the quarter. Because we are not subject to an entity-level federal income tax, we expect to have more cash to distribute than would be the case if we were subject to federal income tax. If we do not generate sufficient available cash from our operations, we may, but are under no obligation to, borrow funds to pay the minimum quarterly distribution to our unitholders.

**Limitations on Cash Distributions and Our Ability to Change Our Cash Distribution Policy**

Although our partnership agreement requires that we distribute all of our available cash quarterly, there is no guarantee that we will make quarterly cash distributions to our unitholders, and we have no legal obligation to do so. Our current cash distribution policy is subject to certain restrictions, as well as the considerable discretion of our general partner in determining the amount of our available cash each quarter. The following factors affect our ability to make cash distributions, as well as the amount of any cash distributions we make:

Our cash distribution policy is subject to restrictions on cash distributions under our credit facility and other debt agreements we may enter into in the future. Our credit facility contains covenants requiring us and our subsidiaries to maintain certain financial ratios and contain certain restrictions on incurring indebtedness, making distributions, making investments and engaging in certain other partnership actions, including making cash distributions while a default or event of default has occurred and is continuing, notwithstanding our cash distribution policy. Furthermore, we are not permitted to borrow under our revolving credit facility to pay distributions if, as a result, we would have less than \$5.0 million of availability under the revolving credit facility.

The amount of cash that we distribute and the decision to make any distribution is determined by our general partner, taking into consideration the terms of our partnership agreement. Specifically, our general partner has the authority to establish cash reserves for the prudent conduct of our business and for future cash

distributions to our unitholders, and the establishment of or increase in those reserves could result in a reduction in cash distributions from levels we currently anticipate pursuant to our stated cash distribution policy. Any decision to establish cash reserves made by our general partner in good faith is binding on our unitholders.

While our partnership agreement requires us to distribute all of our available cash, our partnership agreement, including the provisions requiring us to make cash distributions, may be amended with the consent of our general partner and the approval of a majority of the outstanding common units, including common units owned by our general partner and its affiliates.

**Table of Contents**

Under Section 17-607 of the Delaware Revised Uniform Limited Partnership Act (the Delaware Act ), we may not make a distribution if the distribution would cause our liabilities to exceed the fair value of our ass
