 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act
-

Item 2.02 Results of Operations and Financial Condition.

On August 4, 2005, Neose Technologies, Inc. (the *Company*) announced financial results for the quarter ended June 30, 2005. A copy of the press release announcing the Company's financial results is attached hereto as Exhibit 99.1 and incorporated herein by reference.

Item 2.05 Costs Associated with Exit or Disposal Activities.

The Company also announced on August 4, 2005, that it had implemented a restructuring of operations to enable an enhanced focus on next-generation proteins, to allow for the anticipated transfer of production of proteins and reagents to its collaborative partners and contract manufacturers now that its programs are more mature, and to reduce cash burn. These actions were approved by the Company's Board of Directors on August 2, 2005, and are supplementary to previously announced actions to reduce executive cash-based compensation for 2005 and capital spending.

Upon completion of the restructuring during the fourth quarter of 2005, the Company will have reduced the size of its workforce by approximately 25% since March 31, 2005 and expects to realize annualized savings of between \$6 million and \$8 million. The Company estimates that it will incur cash restructuring costs related to personnel of approximately \$1.8 million, including severance costs and the costs of short and long term retention packages offered to employees. Most of the restructuring costs will be reflected in the Company's operating results for the quarter ending September 30, 2005.

As part of the restructuring, the Company will centralize research activities in Horsham, Pennsylvania by ending operations in its leased San Diego facility. Following the manufacture of Phase II clinical material of NE-180, expected to be completed during the third quarter of 2005, the Company's requirements for internally manufactured products will be substantially lower than the capacity of its 24,000 square-foot pilot manufacturing facility. The Company will evaluate alternatives relative to its current headquarters and pilot manufacturing facility, which it owns subject to a mortgage. Such alternatives include the potential disposition of the facility and further consolidation of the Company's research, development and administrative operations into a currently leased facility that is also located in Horsham.

A copy of the press release announcing the restructuring is attached hereto as Exhibit 99.2 and incorporated herein by reference.

Item 2.06 Material Impairments.

As a result of the restructuring described in Item 2.05, above, the Company expects to record, during the second half of 2005, non-cash property and equipment impairment charges. The amounts of such impairment expenses cannot be estimated at the present time.

Item 9.01 Financial Statements and Exhibits.

(a) Financial Statements of Businesses Acquired: None

(b) Pro Forma Financial Information: None

(c) Exhibits: Reference is made to the Exhibit Index annexed hereto and made a part hereof.

Neose Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: Statements in this Current Report on Form 8-K regarding the Company's business that are not historical facts, including, but not limited to, statements regarding the restructuring and the timing and amount of restructuring charges, write-downs and impairment charges that the Company expects to incur in connection with the restructuring, are forward-looking statements that involve risks and uncertainties, including without limitation the risk that the Company will not receive clearance from the FDA to initiate a Phase I clinical trial for NE-180, the risk that the Company will not meet its preclinical development timelines for its proprietary drug candidates, including GlycoPEG-GCSF, and the risk that the Company will incur unexpected charges or will have unexpected expenditures related to the restructuring upon the completion of further analysis with respect to the restructuring generally and the Company's assets specifically. For a discussion of these risks and uncertainties, any of which could cause the Company's actual results to differ from those contained in the forward-looking statement, see the section of Neose's Annual Report on Form 10-K for the year ended December 31, 2004, entitled Factors Affecting the Company's Prospects and discussions of potential risks and uncertainties in the Company's subsequent filings with the SEC.
