-

Item 2.02 Results of Operations and Financial Condition

Geron Corporation (the Company or Geron) is furnishing this information under Item 2.02 of Form 8-K.

The information in this Current Report, including Exhibit 99.1, is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section. The information in this Current Report, including Exhibit 99.1, shall not be incorporated by reference into any registration statement or other document filed pursuant to the Securities Act of 1933, as amended, or the Exchange Act.

On April 25, 2013, the Company issued a press release announcing its financial results for the three months ended March 31, 2013. A copy of the press release is attached as Exhibit 99.1.

Item 2.05 Costs Associated with Exit or Disposal Activities

On April 25, 2013, the Board of Directors of Geron resolved and directed that, effective immediately, Geron will discontinue its discovery research and companion diagnostics programs and close its research laboratory facility located at 200 Constitution Drive, Menlo Park, California. Going forward, the Company will concentrate its resources on the clinical development of imetelstat, its telomerase inhibitor, in hematologic myeloid malignancies, including myelofibrosis. In connection with this strategic focus, the Company will no longer be pursuing further development of imetelstat in solid tumors with short telomeres or essential thrombocythemia.

On April 25, 2013, the Company announced a restructuring to reduce its workforce from 64 positions to 44 full-time positions, representing a reduction of approximately 31% of the Company's workforce. The Company expects the majority of the reduction in its workforce to be completed by the end of the second quarter of 2013.

In connection with the foregoing changes to the Company's business, the Company anticipates it will incur aggregate restructuring charges of approximately \$1.9 million, of which \$1.3 million will be paid in cash during 2013. The aggregate projected restructuring charges consist of approximately \$640,000 related to one-time termination benefits, comprised principally of severance, benefit continuation costs, outplacement services and non-cash stock-based compensation expense associated with the elimination of 20 positions; and approximately \$650,000 for facility-related charges and approximately \$570,000 for non-cash charges related to write-downs of laboratory equipment and leasehold improvements in connection with the discontinuation of the Company's discovery research and companion diagnostics programs and the closure of its research laboratory facility. The majority of these charges are expected to be recognized in the second quarter of 2013. The Company may incur other charges and will record these expenses in the appropriate period as they are determined. The Company plans to sell any excess equipment, the net proceeds of which, if any, may offset some of these future charges.

The aggregate expected restructuring charges to be incurred or cash expenditures to be paid by the Company in connection with the reduction in workforce, discontinuation of the discovery research and companion diagnostics programs, closure of the research laboratory facility, and the timing thereof, are subject to a number of assumptions, and actual results may differ materially from those originally anticipated. The Company may also incur other material charges not currently contemplated due to events that may occur as a result of, or associated with, the foregoing changes to the Company's business.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On April 25, 2013, the Company announced the departure of Stephen M. Kelsey, M.D., F.R.C.P., F.R.C.Path., from his position as the Company's Executive Vice President, Research and Development and Chief Medical Officer, effective May 3, 2013.

On April 25, 2013, the Company and Dr. Kelsey entered into a Termination Agreement (the Kelsey Agreement) that extends the exercise period of all vested and exercisable stock options held by Dr. Kelsey as of May 3, 2013 to December 31, 2013, and by which Dr. Kelsey provided a general release of claims against the Company.

The foregoing description of the Kelsey Agreement is qualified in its entirety by reference to the full text of the Kelsey Agreement, which will be filed as an exhibit to the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2013.
