Commission file number: 001-37509

HENNESSY CAPITAL ACQUISITION CORP. II

(Exact name of registrant as specified in its charter)

Delaware 47-3913221
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification Number)

700 Louisiana Street

Suite 900 77002

Houston, Texas
(Address of principal executive offices) (Zip Code)

Registrant's telephone number: **(713) 300-8242**

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class:

**Name of Each Exchange on Which
Registered:**

Edgar Filing: Hennessy Capital Acquisition Corp II - Form 10-K

Common Stock, par value \$0.0001 per share
Warrants to purchase one-half of one share of Common Stock
Units, each consisting of one share of Common Stock and one
Warrant

The NASDAQ Stock Market LLC
The NASDAQ Stock Market LLC
The NASDAQ Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of June 30, 2015, the last business day of the registrant's most recently completed second fiscal quarter, the registrant's securities were not publicly traded. The registrant's units began trading on the NASDAQ Capital Market on July 23, 2015 and the registrant's shares of common stock and warrants began trading on the NASDAQ Capital Market on September 11, 2015. The aggregate market value of the common stock outstanding, other than shares held by persons who may be deemed affiliates of the registrant, computed by reference to the closing sales price for the common stock on December 31, 2015, as reported on the NASDAQ Capital Market, was \$192,413,513.

As of February 19, 2016, there were 24,949,885 shares of common stock, par value \$0.0001 per share, of the registrant issued and outstanding.

Unless otherwise stated in this Annual Report on Form 10-K (this “Report”), references to:

“we,” “us,” “company” or “our company” are to Hennessy Capital Acquisition Corp. II;

“public shares” are to shares of our common stock sold as part of the units in our initial public offering (whether they were purchased in our initial public offering or thereafter in the open market);

“public stockholders” are to the holders of our public shares, including, without limitation, our initial stockholders and members of our management team to the extent our initial stockholders and/or members of our management team have purchased public shares, provided that each initial stockholder’s and member of our management team’s status as a “public stockholder” shall only exist with respect to such public shares;

“management” or our “management team” are to our executive officers and directors;

“sponsor” are to Hennessy Capital Partners II LLC, a Delaware limited liability company, an affiliate of Daniel J. Hennessy, our Chairman and Chief Executive Officer;

“founder shares” are to shares of our common stock, 4,989,977 of which are currently outstanding and have been issued to our initial stockholders prior to our initial public offering;

“private placement warrants” are to the warrants issued to our sponsor in a private placement simultaneously with the closing of our initial public offering; and

“initial stockholders” are to holders of our founder shares prior to our initial public offering.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Report, including, without limitation, statements under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements can be identified by the use of forward-looking terminology, including the words “believes,” “estimates,” “anticipates,” “expects,” “intends,” “plans,” “may,” “will,” “potential,” “projects,” “predicts,” “continue,” or “should,” or, in the negative or other variations or comparable terminology. There can be no assurance that actual results will not materially differ from expectations. Such statements include, but are not limited to, any statements relating to our ability to consummate any acquisition or other business combination and any other statements that are not statements of current or historical facts. These statements are based on management’s current expectations, but actual results may differ materially due to various factors, including, but not limited to:

our ability to complete our initial business combination;

our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;

our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;

our potential ability to obtain additional financing to complete our initial business combination;

our pool of prospective target businesses;

failure to maintain the listing on, or the delisting of our securities from, NASDAQ or an inability to have our securities listed on NASDAQ or another national securities exchange following our initial business combination;

the ability of our officers and directors to generate a number of potential investment opportunities;

our public securities’ potential liquidity and trading;

the lack of a market for our securities;

the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
or

our financial performance.

The forward-looking statements contained in this Report are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have

anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. These risks and others described under “Risk Factors” may not be exhaustive.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this Report. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this Report, those results or developments may not be indicative of results or developments in subsequent periods.

PART I

Item 1. Business

Introduction

We are a blank check company incorporated in April 2015 as a Delaware corporation formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, or similar business combination with one or more businesses.

Objective and Business Opportunity

While we may pursue an acquisition opportunity in any business, industry, sector or geographical location, we are focused on industries that complement our management team's background and capitalize on the ability of our management team to identify and acquire a business, focusing on the industrial manufacturing, distribution or services sector in the United States (which may include a business based in the United States which has operations or opportunities outside of the United States). We are seeking to acquire one or more businesses with an aggregate enterprise value of approximately \$500 million to \$1 billion.

Our strategy is to identify, acquire and, after our initial business combination, build, an industrial manufacturing, distribution or services business. Industrial manufacturers, distributors and service providers are companies that manufacture and/or distribute products or provide critical services to a broad range of customers and end use markets. We believe that an industrial "renaissance" is now underway in the United States and that this resurgence is primarily the result of three critical cost factors: (i) a stable and flexible labor market, (ii) cheap and abundant sources of energy and (iii) logistical factors such as shipping costs and the various risks of operating extended global supply chains, each of which we believe is quite favorable to the United States when compared with advanced manufacturing nations and increasingly competitive when compared with emerging manufacturing nations.

According to the Boston Consulting Group, or BCG, the manufacturing-cost gap between the U.S. and other highly developed economies widened significantly over the last decade. Stable and efficient labor is one key to growing the U.S. competitive advantage. The U.S. has one of the world's most flexible labor markets and has the highest worker productivity among the world's largest exporters by far. Adjusted for productivity, U.S. labor costs are 20% to 54% lower than those of Western Europe and Japan for many products. Productivity-adjusted wages have grown only 8% in the U.S. from 2004-2014 while such wages have almost tripled in China.

In addition to the benefits of its labor force, the U.S. also has an energy cost advantage. While industrial prices for natural gas have risen around the world, they have decreased by approximately 50% in the U.S. since the recovery from underground shale deposits began in earnest. Natural gas currently costs more than three times as much in China, France and Germany than in the U.S., and nearly four times as much in Japan. Natural gas is used increasingly as a fuel in U.S. power plants, which is likely to ensure that the price of industrial electricity will remain between one-quarter and two-thirds of the cost of electricity in major exporting nations such as China, Japan, Germany, France and Italy. We believe cheap natural gas will give the U.S. a powerful and unique cost advantage that will benefit a wide variety of industries across the full value chain, from feedstock to finished goods, and should be largely exclusive to the U.S. for the foreseeable future.

When taking all of this into account, the U.S. has emerged as the lowest-cost manufacturing location in the developed world, and at the same time, has achieved approximate cost parity with low-cost countries in Eastern Europe. The cost gap with China has shrunk dramatically, and, if the trend of the last ten years continues, will likely disappear before the end of the decade.

We believe these factors are further compounded when adding logistical factors to the decision making process. Factors such as shipping costs, the various risks of operating extended global supply chains, just-in-time inventory requirements and shorter product life cycles necessitate that production and end-markets be co-located. According to BCG, the U.S. and Mexico are the “rising stars” of the top 25 export economies because of low wage growth, sustained productivity gains, stable exchange rates and significant energy and electricity cost advantages.

Hennessy Capital LLC is the managing member of our sponsor and was founded by Daniel J. Hennessy, our Chairman and Chief Executive Officer in 2013. From September 2013 to February 2015, Mr. Hennessy served as Chief Executive Officer and Chairman of the Board of Hennessy Capital Acquisition Corp., or Hennessy 1, which merged with School Bus Holdings Inc., or SBH, in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD), and since February 2015, has served as its Vice Chairman. Mr. Hennessy serves as a Partner at Code Hennessy & Simmons LLC (n/k/a CHS Capital or “CHS”) a middle-market private equity investment firm he co-founded in 1988. Over a 25-year period, CHS invested \$2.8 billion in 395 operating companies with aggregate revenues of approximately \$15 billion. Mr. Hennessy has served as Chairman of the Board and Director of CHS portfolio companies that manufacture and/or distribute a broad array of products or provide services for the industrial, infrastructure, energy and packaging sectors including:

Dura-Line Holdings, a producer of high-density polyethylene conduit and pipes (from 2012 to 2014);

Thermon Group Holdings (NYSE: THR), a designer and manufacturer of heat tracing systems focused on the external application of heat to pipes, tanks and instrumentation (from 2010 to 2011);

Penhall International, a provider of concrete cutting, breaking, excavation and highway grinding services (from 2006 to 2010);

GSE Environmental, a supplier of geosynthetic liners and products (from 2004 to 2011);

WNA, a designer and manufacturer of upscale plastic disposable tableware products (from 2002 to 2007); and

Kranson Industries (n/k/a TricorBraun), a distributor of plastic and glass containers (from 1999 to 2004).

Mr. Hennessy has over 25 years of middle-market private equity investment experience, dedicated almost entirely to investments in industrial manufacturing, distribution or services operating companies. He has initiated and overseen numerous add-on acquisitions, divestitures, IPOs and debt capital markets issues for CHS-owned companies and is well known by the most active middle-market private equity firms, investment banks and debt financing sources that will be called upon to assist us in executing our strategy.

We have assembled a group of independent directors who bring us public company governance, executive leadership, operations oversight, private equity investment management and capital markets experience. Our Board members have extensive experience, having served as directors, CEOs, CFOs or in other executive and advisory capacities for numerous publicly-listed and privately-owned companies. Our directors have experience with acquisitions, divestitures and corporate strategy and implementation, which we believe will be of significant benefit to us as we evaluate potential acquisition or merger candidates as well as following the completion of our initial business combination.

Our entire management team served as executive officers, directors and/or advisors of Hennessy 1, a former blank check company which raised \$115.0 million in its initial public offering in January 2014 and completed its initial

business combination with SBH in February 2015. In connection with their duties with Hennessy 1, our executive officers reviewed more than one hundred potential targets in the diversified industrial manufacturing and distribution sectors in the United States between February 2014 (a month following Hennessy 1's initial public offering) and June 2014 (when Hennessy 1 decided to focus its efforts on a business combination with SBH). Hennessy 1's stockholders approved the business combination with SBH with approximately 99% of the shares voting, 98% of which were voted in favor of the transaction, allowing for the swift completion of the business combination only 13 months after Hennessy 1's initial public offering. The purchase price for the transaction reflected a pro forma enterprise value of \$427 million which implied a purchase multiple of 5.7x to 5.9x FY2015 estimated EBITDA based on SBH's management's guidance versus the average of the public comparables of 9.3x EBITDA. The transaction included the assumption of \$223 million of debt which implied 2.5x net leverage at closing (based on FY2014 adjusted EBITDA). We believe that potential sellers of target businesses will view the fact that our management team has successfully closed a business combination with a vehicle similar to our company as a positive factor in considering whether or not to enter into a business combination with us. However, past performance by our management team is not a guarantee of success with respect to any business combination we may consummate.

We believe our management team is well positioned to take advantage of the growing set of investment opportunities focused on industrial manufacturing, distribution or service companies in the United States, to create value for our stockholders, and that our contacts and relationships, ranging from owners of private and public companies, private equity funds, investment bankers, attorneys, accountants and business brokers will allow us to generate attractive acquisition opportunities. Our management team is led by Daniel J. Hennessy, who has over 25 years of experience in the private equity investment business and served as Chief Executive Officer of Hennessy 1. Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that Mr. Hennessy or any other members of our management will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process, but our business is currently Mr. Hennessy's primary professional focus and we expect that he will continue to devote a substantial portion of his professional time to our affairs.

Strategy and Execution

We have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. We will use these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines.

Middle-Market Businesses. We are seeking to acquire one or more businesses with an aggregate enterprise value of approximately \$500 million to \$1 billion and an EBITDA of \$50 million to over \$100 million, determined in the sole discretion of our officers and directors according to reasonably accepted valuation standards and methodologies. We believe that the middle market segment provides the greatest number of opportunities for investment and is the market consistent with our sponsor's previous investment history. This segment is where we believe we have the strongest network to identify the greatest number of attractive opportunities. We are targeting more sizable businesses than Hennessy 1 as we believe the larger market capitalization and public float of the resulting company will be more attractive to our investors.

Established Companies with Proven Track Records. We are seeking to acquire one or more established companies with consistent historical financial performance. We are focused on companies with a history of strong operating and financial results and strong fundamentals. We do not intend to acquire start-up companies or companies with recurring negative free cash flow.

Companies with Proven Revenue and Earnings Growth or Potential for Revenue and Earnings Growth. We are seeking to acquire one or more businesses that have achieved or have the potential for significant revenue and earnings growth through a combination of organic growth, synergistic add-on acquisitions, new product markets and geographies, increased production capacity, expense reduction and increased operating leverage.

Companies with, or with the Potential for, Strong Free Cash Flow Generation. We are seeking to acquire one or more businesses that already have, or have the potential to generate, consistent, stable and increasing free cash flow. We are focused on one or more businesses that have predictable revenue streams.

Strong Competitive Position. We are focused on acquisition targets that have a leading, growing or niche market position in their respective industries. We are analyzing the strengths and weaknesses of target businesses relative to their competitors. We are seeking to acquire one or more businesses that demonstrate advantages when compared to their competitors, which may help to protect their market position and profitability.

Experienced Management Team. We are seeking to acquire one or more businesses with a complete, experienced management team that provides a platform for us to further develop the acquired business's management capabilities. We will seek to partner with a potential target's management team and expect that the operating and financial abilities of our executive team and board will complement their own capabilities.

Sectors Exhibiting Secular Growth or with Potential for Cyclical Uptick. We are focused on acquisition targets in sectors which exhibit positive secular growth or potential for near-term cyclical uptick. We plan to identify sectors that have demonstrated strong positive growth in recent years, possess drivers for continued growth and are strategically positioned to benefit from upswings in their respective industry cycles.

Benefit from Being a Public Company. We intend to acquire one or more businesses that will benefit from being publicly traded and can effectively utilize the broader access to capital and the public profile that are associated with being a publicly traded company.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. These criteria are substantially similar to the criteria set forth by Hennessy 1 for its initial business combination. Hennessy 1's business combination with School Bus Holdings Inc., which, through its subsidiaries, conducts its business under the "Blue Bird" name, and satisfied each criteria.

In addition, the members of our board of directors have significant executive management and public company experience with industrial manufacturing, distribution or service companies. Over the course of their careers, the members of our management team and board of directors have developed a broad network of contacts and corporate relationships that we believe will be useful for sourcing investment opportunities. This network has been developed through our management team's experience in:

sourcing, acquiring, operating, developing, growing, financing and selling businesses; and

executing transactions under varying economic and financial market conditions.

This network has provided our management team with a flow of referrals that have resulted in numerous transactions. We believe that the network of contacts and relationships of our management team will provide us with an important source of investment opportunities. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity groups, investment banks, consultants, accounting firms and large business enterprises. In connection with their duties with Hennessy 1, our executive officers reviewed more than one hundred potential targets in the diversified industrial manufacturing and distribution sectors in the United States between February 2014 (a month following Hennessy 1's initial public offering) and June 2014 (when Hennessy 1 decided to focus its efforts on a business combination with SBH).

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial and other information which will be made available to us.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or a qualified independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Members of our management team directly or indirectly own our common stock and warrants following our initial public offering, and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination. For additional information regarding our executive officers' and directors' business affiliations, see "Management—Directors and Executive Officers."

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such officer or director is required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity rejects the opportunity. We do not believe, however, that the fiduciary duties or contractual obligations of our executive officers will materially affect our ability to complete our business combination. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Our sponsor, executive officers, directors and director nominees have agreed, pursuant to a written letter agreement, not to participate in the formation of, or become an officer or director of, any other blank check company until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination by July 28, 2017, which is 24 months after the closing of our initial public offering.

Significant Activities Since Inception

Edgar Filing: Hennessy Capital Acquisition Corp II - Form 10-K

On July 28, 2015, we consummated our initial public offering of 17,500,000 units, each unit consisting of one share of common stock, par value \$0.0001 per share, and one warrant to purchase one-half of one share of common stock at an exercise price of \$5.75 per half share (\$11.50 per full share), pursuant to a registration statement on Form S-1 (File No. 333-205152). The units were sold in our initial public offering at an offering price of \$10.00 per unit, generating gross proceeds of \$175,000,000 (before underwriting discounts and commissions and offering expenses). Simultaneously with the consummation of our initial public offering, we completed the private placement of 13,900,000 warrants, issued to our sponsor, generating gross proceeds of \$6,950,000.

On July 30, 2015, the underwriters of our initial public offering exercised their over-allotment option in part and, on August 4, 2015, the underwriters purchased 2,459,908 units at an offering price of \$10.00 per unit, generating gross proceeds of approximately \$25 million. On August 4, 2015, simultaneously with the sale of the over-allotment units, the Company completed a private placement with our sponsor for an additional 1,180,756 warrants at a price of \$0.50 per warrant, generating gross proceeds of approximately \$590,000.

Approximately \$200 million of the net proceeds from the IPO (including the over-allotment) and the private placements with our sponsor were deposited in a trust account established for the benefit of the Company's public stockholders.

Our units began trading on July 23, 2015 on the NASDAQ Capital Market under the symbol HCACU. Commencing on September 11, 2015, the securities comprising the units began separate trading. The units, common stock, and warrants are trading on the NASDAQ Capital Market under the symbols "HCACU," "HCAC" and "HCACW," respectively.

Initial Business Combination

NASDAQ rules require that our initial business combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the trust account (less any deferred underwriting commissions and taxes payable on interest earned) at the time of our signing a definitive agreement in connection with our initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent accounting firm or independent investment banking firm that is a member of FINRA, with respect to the satisfaction of such criteria.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public company, we believe target businesses will find this process a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We are an “emerging growth company,” as defined in the JOBS Act. We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our initial public offering, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Financial Position

With funds available for a business combination currently in the amount of \$194,276,000 (including amounts held outside the trust account at December 31, 2015) assuming no redemptions and after payment of \$7,185,000 of deferred underwriting fees, we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting our Initial Business Combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time. We intend to effectuate our initial business combination using cash from the proceeds of our initial public offering and the private placement of the private placement warrants, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using stock or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our business combination or used for redemptions of purchases of our common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely impact a target business.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination, and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. Subject to compliance with applicable securities laws, we would complete such financing only simultaneously with the completion of our business combination. In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by law, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Origination and Sourcing of Target Business Opportunities

We believe our management team's extensive private equity investment and transaction experience, along with relationships with intermediaries and companies, will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our board and management team have developed a broad network of contacts and corporate relationships around the world. This network has been developed over the course of over 25 years, in the case of our Chairman and Chief Executive Officer.

Specifically, our Chairman and Chief Executive Officer serves as a Partner at CHS Capital, a middle-market private equity investment firm he co-founded in 1988. Over a 25-year period, CHS invested \$2.8 billion in 395 operating companies with aggregate revenues of approximately \$15 billion. From September 2013 to February 2015, our Chairman and Chief Executive Officer, as well as certain of our directors and officers served as directors of Hennessy 1, formerly a blank check company, which is now Blue Bird Corporation (NASDAQ: BLBD). We expect that the management team's network of existing contacts and relationships will be able to deliver a flow of potential platform and add-on acquisition opportunities which are proprietary or where a limited group of established, credentialed

buyers have been invited to participate in the sale process. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions. Our executive officers were able to review more than one hundred potential targets for Hennessy 1 between February 2014 (a month following Hennessy 1's initial public offering) and June 2014 (when Hennessy 1 decided to focus its efforts on a business combination with SBH).

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking which is a member of FINRA or a qualified independent accounting firm that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

If any of our executive officers becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. All of our executive officers currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

We anticipate that target business candidates will also be brought to our attention from various unaffiliated sources, including investment bankers, private investment funds and other intermediaries. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read the prospectus relating to our initial public offering and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the track record and business relationships of our officers and directors.

Selection of a target business and structuring of our initial business combination

NASDAQ rules provide that our initial business combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the trust account (less any deferred underwriting commissions and taxes payable on interest earned) at the time of our signing a definitive agreement in connection with our initial business combination. The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from independent investment banking firm that is a member of FINRA or a qualified independent accounting firm with respect to the satisfaction of such criteria. If our securities are not listed on NASDAQ after our initial public offering, we would not be required to satisfy the 80% requirement. However, we intend to satisfy the 80% requirement even if our securities are not listed on NASDAQ at the time of our initial business combination. Subject to this requirement, our management has virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we are not permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be valued for purposes of the 80% of net assets test.

To the extent we effect our business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can

use to complete another business combination.

Lack of business diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our business combination with only a single entity, our lack of diversification may:

subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and

cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited ability to evaluate the target's management team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that the additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders may not have the ability to approve our initial business combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

Type of Transaction	Whether Stockholder Approval is Required
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No
Merger of the company with a target	Yes

Under NASDAQ's listing rules, stockholder approval would be required for our initial business combination if, for example:

we issue common stock that will be equal to or in excess of 20% of the number of shares of our common stock then outstanding;

any of our directors, officers or substantial shareholders (as defined by NASDAQ rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding shares of common stock or voting power of 5% or more; or

the issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted purchases of our securities

In the event we seek stockholder approval of our business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares in such transactions. They will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual

acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. We have adopted an insider trading policy which requires insiders to: refrain from purchasing shares during certain blackout periods and when they are in possession of any material nonpublic information and to clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of such purchases would be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our common stock may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against the business combination. Our sponsor, officers, directors, advisors or their affiliates will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors and/or their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will only be made to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors and/or their affiliates will not make purchases of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable and working capital released to us) divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they may hold in connection with the completion of our business combination.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirement or we choose to seek stockholder approval for business or other legal reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and

file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to purchase will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and

file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. In such case, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after our initial public offering in favor of our initial business combination. As a result, we would need only 7,484,966 of the 19,959,908 public shares, or 37.5%, sold in our initial public offering to be voted in favor of our initial business combination in order to have such transaction approved. Each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction. In addition, our initial stockholders have entered into letter agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and public shares in connection with the completion of a business combination.

Our amended and restated certificate of incorporation provides that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of common stock submitted for redemption will be returned to the holders thereof.

Limitation on redemption upon completion of our initial business combination if we seek stockholder approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 20% of the shares sold in our initial public offering, which we refer to as the "Excess Shares." We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 20% of the shares sold in our initial public offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or

our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 20% of the shares sold in our initial public offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our business combination.

Tendering stock certificates in connection with a tender offer or redemption rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$35.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the stockholders meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until July 28, 2017.

Redemption of public shares and liquidation if no initial business combination

Our sponsor, executive officers, directors and director nominees have agreed that if we do not complete our initial business combination by July 28, 2017, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$50,000 of interest to pay dissolution expenses (which interest shall be net of taxes payable and working

capital released to us) divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination within the 24-month time period.

Our initial stockholders have entered into letter agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination by July 28, 2017. However, if our initial stockholders acquire public shares in or after our initial public offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

Our sponsor, executive officers, directors and director nominees have agreed, pursuant to a written letter agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination by July 28, 2017, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable and working capital released to us) divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). Prior to acquiring any securities from our initial stockholders, permitted transferees must enter into a written agreement with us agreeing to be bound by the same restriction.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$2,004,000 of proceeds held outside the trust account (as of December 31, 2015), although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes and not released to us to fund working capital expenses, we may request the trustee to release to us an additional amount of up to \$50,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of our initial public offering, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, Mr. Hennessy has agreed that he will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets other than due to the failure to obtain such waiver, in each case net of the amount of interest which may be withdrawn to pay taxes or working capital expenses, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, then Mr. Hennessy will not be responsible to the extent of any liability for such third-party claims. We cannot assure you, however, that Mr. Hennessy would be able to satisfy those obligations. None of our other officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions

in value of the trust assets other than due to the failure to obtain such waiver, in each case net of the amount of interest which may be withdrawn to pay taxes or working capital expenses, and Mr. Hennessy asserts that he is unable to satisfy his indemnification obligations or that he has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against Mr. Hennessy to enforce his indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against Mr. Hennessy to enforce his indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be substantially less than \$10.00 per share.

We will seek to reduce the possibility that Mr. Hennessy will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Mr. Hennessy will also not be liable as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$2,004,000 of proceeds held outside the trust account (as of December 31, 2015) with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$50,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination by July 28, 2017 may be considered a liquidation distribution under Delaware law. Delaware law provides that if a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination by July 28, 2017, is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution. If we are unable to complete our business combination by July 28, 2017, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (net of the amount of interest which may be withdrawn to pay taxes or working capital expenses and less up to \$50,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 24th month, and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers and investment bankers) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account.

As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, Mr. Hennessy may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets other than due to the failure to obtain such waiver, in each case net of the amount of interest withdrawn to pay taxes or working capital expenses and less any per-share amounts distributed from our trust account to our public stockholders in the event we are unable to complete our business combination by July 28, 2017 and will not be liable as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, Mr. Hennessy will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. Furthermore, our board may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only in the event of the redemption of our public shares if we do not complete our business combination by July 28, 2017 or if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above.

Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation contains certain requirements and restrictions relating to our initial public offering that will apply to us until the consummation of our initial business combination. If we seek to amend any provisions of our amended and restated certificate of incorporation relating to stockholders' rights or pre-business combination activity, we will provide public stockholders with the opportunity to redeem their public shares in connection with any such vote. Our initial stockholders have agreed to waive any redemption rights with respect to their founder shares and public shares in connection with the completion of our initial business combination. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

prior to the consummation of our initial business combination, we shall either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which stockholders may seek to redeem their shares, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable and working capital released to us) or (2) provide our stockholders with the opportunity to tender their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable and working capital released to us) in each case subject to the limitations described herein;

we will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, solely if we seek stockholder approval, a majority of the outstanding shares of common stock voted are voted in favor of the business combination;

if our initial business combination is not consummated by July 28, 2017, then our existence will terminate and we will distribute all amounts in the trust account; and

prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination.

These provisions cannot be amended without the approval of holders of 65% of our common stock. In the event we seek stockholder approval in connection with our initial business combination, our amended and restated certificate of incorporation provides that we may consummate our initial business combination only if approved by a majority of the shares of common stock voted by our stockholders at a duly held stockholders meeting.

Competition

In identifying, evaluating and selecting a target business for our business combination, we have encountered, and may continue to encounter, intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Employees

We currently have three executive officers. Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that Mr. Hennessy or any other members of our management will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process, but our business is currently Mr. Hennessy's primary professional focus and we expect that he will continue to devote a substantial portion of his professional time to our affairs.

Periodic Reporting and Financial Information

Our units, common stock and warrants are registered under the Exchange Act and we have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports contain financial statements audited and reported on by our independent registered public auditors.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with GAAP. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have financial statements prepared in accordance with GAAP or that the potential target business will be able to prepare its financial statements in accordance with GAAP. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential acquisition candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2016 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to have our internal control procedures audited. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our initial public offering, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period. References herein to “emerging growth company” shall have the meaning associated with it in the JOBS Act.

Item 1A. Risk Factors

RISK FACTORS

You should carefully consider all of the following risk factors and all the other information contained in this Report, including the financial statements. If any of the following risks occur, our business, financial condition or results of operations may be materially and adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. The risk factors described below are not necessarily exhaustive and you are encouraged to perform your own investigation with respect to us and our business.

We are a recently formed early stage company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently formed early stage company with no operating results. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We may be unable to complete our business combination. If we fail to complete our business combination, we will never generate any operating revenues.

Our public stockholders may not be afforded an opportunity to vote on our proposed business combination, which means we may complete our initial business combination even if a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable state law or NASDAQ rules or if we decide to hold a stockholder vote for business or other reasons. For instance, the NASDAQ rules currently allow us to engage in a tender offer in lieu of a stockholder meeting but would still require us to obtain stockholder approval if we were seeking to issue more than 20% of our outstanding shares to a target business as consideration in any business combination. Therefore, if we were structuring a business combination that required us to issue more than 20% of our outstanding shares, we would seek stockholder approval of such business combination. However, except as required by law or the NASDAQ rules, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may consummate our initial business combination even if holders of a majority of the outstanding shares of our common stock do not approve of the business combination we consummate.

If we seek stockholder approval of our initial business combination, after approval of our board, our initial stockholders have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Unlike many other blank check companies in which the initial stockholders agree to vote their founder shares in accordance with the majority of the votes cast by the public stockholders in connection with an initial business combination, after approval of our board, our initial stockholders have agreed to vote their founder shares, as well as any public shares purchased during or after our public offering, in favor of our initial business combination. Our initial stockholders own 20.0% of our outstanding shares of common stock. As a result, we would need only 7,484,966 of the 19,959,908 public shares outstanding (37.5%) to be voted in favor of our initial business combination in order to have such transaction approved. Accordingly, if we seek stockholder approval of our initial business combination, after the approval of our board, it is more likely that the necessary stockholder approval will be received than would be the case if our initial stockholders agreed to vote their founder shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the business combination.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Since our board of directors may complete a business combination without seeking stockholder approval (unless stockholder approval is required by law or the NASDAQ rules, or we decide to obtain stockholder approval for business or other legal reasons), public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's

“penny stock” rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination by July 28, 2017. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the time frame described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

Our sponsor, executive officers and directors have agreed that we must complete our initial business combination by July 28, 2017. We may not be able to find a suitable target business and complete our initial business combination by such date. If we have not completed our initial business combination by such date, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable and working capital released to us, and less up to \$50,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

If we seek stockholder approval of our initial business combination, our sponsor, directors, executive officers, advisors and their affiliates may elect to purchase shares from public stockholders, which may influence a vote on a proposed business combination and reduce the public "float" of our common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or

their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our common stock and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain the quotation, listing or trading of our securities on a national securities exchange.

If a public stockholder fails to receive notice of our offer to redeem our public shares in connection with our business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our business combination. Despite our compliance with these rules, if a public stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. In the event that a public stockholder fails to comply with these procedures, its shares may not be redeemed.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of our common stock that such stockholder properly elected to redeem, subject to the limitations described herein, and (ii) the redemption of our public shares if we are unable to complete an initial business combination by July 28, 2017, subject to applicable law and as further described herein. In addition, if our plan to redeem our public shares if we are unable to complete an initial business combination by July 28, 2017 is not completed for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond July 28, 2017 before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of our initial public offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, because we have net tangible assets in excess of \$5,000,000, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means that we will have a longer period of time to complete our business combination than do companies subject to Rule 419. Moreover, if our initial public offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold 20% or more of our common stock, you will lose the ability to redeem all such shares in excess of 20% of our common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to an aggregate of 20% or more of the shares sold in our

initial public offering, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our business combination. And as a result, you will continue to hold that number of shares exceeding 20% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, on our redemption, and our warrants will expire worthless.

We have encountered and expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources are relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of our initial public offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable is limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, if we are obligated to pay cash for the shares of common stock redeemed and, in the event we seek stockholder approval of our business combination, we make purchases of our common stock, potentially reducing the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

If the net proceeds of our initial public offering not being held in the trust account are insufficient to allow us to operate until July 28, 2017, we may be unable to complete our initial business combination.

The funds available to us outside of the trust account may not be sufficient to allow us to operate until July 28, 2017, assuming that our initial business combination is not completed during that time. We believe that the funds available to us outside of the trust account are sufficient to allow us to operate until July 28, 2017; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

If the net proceeds of our initial public offering not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search, to pay our taxes and to complete our business combination.

Of the net proceeds of our initial public offering, only approximately \$2,004,000 (as of December 31, 2015) are available to us outside the trust account to fund our working capital requirements. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive approximately \$10.00 per share on our redemption of our public shares, and our warrants will expire worthless.

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Although these charges may be non-cash items and would not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the tender offer materials or proxy statement relating to the business combination contained an actionable material misstatement or material omission.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our business combination within the prescribed time frame, or upon the exercise of a redemption right in connection with our business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors. Mr. Hennessy has agreed that he will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes or working capital expenses, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, Mr. Hennessy will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether Mr. Hennessy has sufficient funds to satisfy their indemnity obligations and, therefore, Mr. Hennessy may not be able to satisfy those obligations. We have not asked Mr. Hennessy to reserve for such eventuality. We believe the likelihood of Mr. Hennessy having to indemnify the trust account is limited because we will endeavor to have all vendors and prospective target businesses as well as other entities execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account.

Our directors may decide not to enforce the indemnification obligations of Mr. Hennessy, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share or (ii) other than due to the failure to obtain such waiver such lesser amount per share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes or working capital expenses, and Mr. Hennessy asserts that he is unable to satisfy his obligations or that he has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against Mr. Hennessy to enforce his indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against Mr. Hennessy to enforce his indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

restrictions on the nature of our investments, and

restrictions on the issuance of securities,

each of which may make it difficult for us to complete our business combination.

In addition, we may have imposed upon us burdensome requirements, including:

registration as an investment company;

adoption of a specific form of corporate structure; and

reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. The proceeds held in the trust account may be invested by the trustee only in United States government treasury bills with a maturity of 180 days or less or in money market funds investing solely in United States Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Because the investment of the proceeds will be restricted to these instruments, we believe we will meet the requirements for the exemption provided in Rule 3a-1 promulgated under the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we are required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business and results of operations.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the Delaware General Corporation Law, or DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination by July 28, 2017 may be considered a liquidation distribution under

Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following July 28, 2017 in the event we do not complete our business combination and, therefore, we do not intend to comply with those procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers and auditors) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination by July 28, 2017 is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution.

We do not currently intend to hold an annual meeting of stockholders until after our consummation of a business combination and you will not be entitled to any of the corporate protections provided by such a meeting.

We do not currently intend to hold an annual meeting of stockholders until after we consummate a business combination (unless required by NASDAQ), and thus may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting of stockholders be held for the purposes of electing directors in accordance with a company's bylaws unless such election is made by written consent in lieu of such a meeting. Therefore, if our stockholders want us to hold an annual meeting prior to our consummation of a business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We have not registered the shares of common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants and causing such warrants to expire worthless.

We have not registered the shares of common stock issuable upon exercise of the warrants issued in our initial public offering under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed, as soon as practicable, but in no event later than thirty (30) days after the closing of our initial business combination, to use our best efforts to file a registration statement under the Securities Act covering such shares and maintain a current prospectus relating to the common stock issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants issued in our initial public offering are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, unless an exemption is available. Notwithstanding the above, if our common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement or register or qualify the shares under blue sky laws. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of common stock included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying shares of common stock for sale under all applicable state securities laws.

The grant of registration rights to our initial stockholders and holders of our private placement warrants may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our common stock.

Pursuant to an agreement entered into concurrently with the issuance and sale of the securities in our initial public offering, our initial stockholders and their permitted transferees can demand that we register the founder shares, holders of our private placement warrants and their permitted transferees can demand that we register the private placement warrants and the shares of common stock issuable upon exercise of the private placement warrants. We will

bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our common stock that is expected when the securities owned by our initial stockholders, holders of our private placement warrants or their respective permitted transferees are registered.

Because we are not limited to a particular industry or any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

We will seek to complete a business combination with an operating company in the industrial manufacturing, distribution or services sector in the United States (which may include a company based in the United States which has operations or opportunities outside the United States), but may also pursue acquisition opportunities in other industries, except that we will not, under our amended and restated certificate of incorporation, be permitted to effectuate our business combination with another blank check company or similar company with nominal operations. Because we have not yet entered into a definitive agreement with any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or an early stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our shares will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a potential business combination target. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the tender offer or proxy statement materials relating to the business combination contained an actionable material misstatement or material omission.

We may seek investment opportunities in industries outside of the industrial manufacturing, distribution or services sector (which industries may or may not be outside of our management's area of expertise).

Although we are focusing on identifying business combination candidates in the industrial manufacturing, distribution or services sector in the United States (including candidates based in the United States which may have operations or opportunities outside the United States), we will consider a business combination outside of the industrial manufacturing, distribution or services sector if a business combination candidate is presented to us and we determine that such candidate offers an attractive investment opportunity for our company or we are unable to identify a suitable candidate in the industrial manufacturing, distribution or services sector after having expended a reasonable amount of time and effort in an attempt to do so. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our securities will not ultimately prove to be less favorable to investors in our initial public offering than a direct investment, if an opportunity were available, in a business combination candidate.

In the event we elect to pursue an investment outside of the industrial manufacturing, distribution or services sector, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained herein regarding the industrial manufacturing, distribution or services sector would not be relevant to an understanding of the business that we elect to acquire.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

We may seek investment opportunities with a financially unstable business or an entity lacking an established record of revenue or earnings.

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking or accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking or accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

We may issue additional common or preferred shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination, any one of which would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 45,000,000 shares of common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. There are currently 2,529,783 authorized but unissued shares of common stock available for issuance, which amount takes into account shares reserved for issuance upon exercise of outstanding warrants. Immediately after our initial public offering, there will be no shares of preferred stock issued and outstanding. We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. However, our amended and restated certificate of incorporation provides, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. The issuance of additional shares of common or preferred stock:

may significantly dilute the equity interest of investors in our initial public offering;

may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;

could cause a change in control if a substantial number of common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and

may adversely affect prevailing market prices for our units, common stock and/or warrants.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants

will expire worthless.

We are dependent upon our executive officers and directors and their departure could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our executive officers and directors, at least until we have completed our business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements and take time away from oversight of our operations.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with the company after the completion of our business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the tender offer or proxy statement materials relating to the business combination contained an actionable material misstatement or material omission.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a potential business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation and our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination.

Certain of our executive officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented to our company or to another entity.

Until we consummate our initial business combination, we will continue to engage in the business of identifying and combining with one or more businesses. Our executive officers and directors are, or may in the future become, affiliated with entities that are engaged in a similar business.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary or contractual duties. Accordingly, they may have conflicts of interest in determining whether a particular business opportunity should be presented to our company or to another entity. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Members of our management team may directly or indirectly own common stock and warrants following our initial public offering, and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or executive officers, although we do not intend to do so. We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our executive officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, executive officers and directors. Our directors also serve as officers and board members for other entities. Such entities may compete with us for business combination opportunities. Although we are not specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business

combination and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent accounting firm or independent investment banking firm that is a member of FINRA regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Since our sponsor, executive officers and directors will lose their entire investment in us if our business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

In May 2015, our sponsor purchased an aggregate of 5,031,250 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.005 per share. Because the underwriters of our initial public offering did not exercise their over-allotment option in full, 41,273 of such shares were forfeited in August 2015. In May 2015, our sponsor transferred 50,000 founder shares to each of Messrs. Bell, Sullivan, Burns and Shea, our independent directors, 35,000 to Mr. Petruska, our Executive Vice President, Chief Financial Officer and Secretary, 200,000 to Mr. Charlton, our President and Chief Operating Officer and 5,000 to Charles B. Lowrey II, an advisor to our company. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor purchased an aggregate of 15,080,756 private placement warrants, each exercisable for one-half of one share of our common stock at \$5.75 per half share (but may be exercised only for a whole number of shares of common stock), for a purchase price of \$7,540,378, or \$0.50 per warrant, that will also be worthless if we do not complete a business combination.

The founder shares are identical to the shares of common stock included in the units being sold in our initial public offering. However, the holders have agreed (A) to vote any shares owned by them in favor of any proposed business combination and (B) not to redeem any shares in connection with a stockholder vote to approve a proposed initial business combination.

The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

Since our sponsor, executive officers and directors will not be eligible to be reimbursed for their out-of-pocket expenses if our business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

At the closing of our initial business combination, our sponsor, executive officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. In the event our business combination is completed, there is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred in connection with activities on our behalf. However, our sponsor, executive officers and directors, or any of their respective affiliates will not be eligible for any such reimbursement if our business combination is not completed and we do not have funds outside the trust account. These financial interests of our sponsor, executive officers and directors may influence their motivation in identifying and selecting a target business combination and completing an initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this Report to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;

acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;

our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;

our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;

our inability to pay dividends on our common stock;

using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;

limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;

increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and

limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of our initial public offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from our initial public offering and the private placement of warrants have provided us with approximately \$199,599,000 (including \$2,004,000 held outside the trust as of December 31, 2015) that we may use to complete our initial business combination and pay deferred underwriting commissions being held in the trust account.

We may effectuate our business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

solely dependent upon the performance of a single business, property or asset, or

dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure a business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does

not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares of common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete a business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (such that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our business combination even if a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

The exercise price for the public warrants is higher than in many similar blank check company offerings in the past, and, accordingly, the warrants are more likely to expire worthless.

The exercise price of the public warrants is higher than is typical in many similar blank check companies in the past. Historically, the exercise price of a warrant was generally a fraction of the purchase price of the units in the initial public offering. The exercise price for our public warrants is \$5.75 per half share, or \$11.50 per whole share. Warrants may be exercised only for a whole number of shares of common stock. As a result, the warrants are less likely to ever be in the money and more likely to expire worthless.

In order to effectuate our initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination that our stockholders may not support.

In order to effectuate a business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and changed industry focus. We cannot assure you that we will not seek to amend our charter or governing instruments in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation to facilitate the completion of an initial business combination that some of our stockholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by a certain percentage of the company's stockholders. In those companies, amendment of these provisions requires approval by between 90% and 100% of the company's public stockholders. Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of our initial public offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be

amended if approved by holders of 65% of our common stock. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our common stock, subject to applicable provisions of the DGCL or NASDAQ rules. Our initial stockholders, who collectively beneficially own 20.0% of our common stock, will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination by July 28, 2017, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (net of the interest which may be withdrawn to pay taxes or working capital expenses) divided by the number of then outstanding public shares. These agreements are contained in letter agreements that we have entered into with our sponsor, executive officers and directors. Prior to acquiring any securities from our initial stockholders, permitted transferees must enter into a written agreement with us agreeing to be bound by the same restriction. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers and directors for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

Although we believe that the net proceeds of our initial public offering and the sale of the private placement warrants will be sufficient to allow us to complete our initial business combination, because we have not yet entered into a definitive agreement with any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of our initial public offering and the sale of the private placement warrants prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. The current economic environment has made it especially difficult for companies to obtain acquisition financing. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business. In addition, even if we do not need additional financing to complete our business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our business combination. If we are unable to complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our trust account, and our warrants will expire worthless.

Our initial stockholders control a substantial interest in us and thus may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Our initial stockholders own 20.0% of our issued and outstanding shares of common stock. Accordingly, they may exert a

substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation. If our initial stockholders purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our initial stockholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this Report. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our common stock. In addition, our board of directors, whose members were elected by our sponsor, is divided into two classes, each of which will generally serve for a term of two years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of

the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our business combination.

We may amend the terms of the warrants in a manner that may be adverse to holders with the approval by the holders of at least 65% of the then outstanding public warrants.

Our warrants are issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders. Accordingly, we may amend the terms of the warrants in a manner adverse to a holder if holders of at least 65% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the warrants with the consent of at least 65% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, shorten the exercise period or decrease the number of shares of our common stock purchasable upon exercise of a warrant.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our common stock equals or exceeds \$24.00 per share for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date we send the notice of redemption to the warrant holders. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by their initial purchasers or their permitted transferees.

Our warrants may have an adverse effect on the market price of our common stock and make it more difficult to effectuate our business combination.

We issued warrants to purchase 9,979,954 shares of our common stock as part of the units offered in our initial public offering and, simultaneously with the closing of our initial public offering, we issued in a private placement an aggregate of 15,080,756 private placement warrants, each exercisable to purchase one-half of one share of common

stock at \$5.75 per half share. Warrants may be exercised only for a whole number of shares of common stock. To the extent we issue shares of common stock to effectuate a business transaction, the potential for the issuance of a substantial number of additional shares of common stock upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding shares of our common stock and reduce the value of the shares of common stock issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in our initial public offering except that, so long as they are held by our sponsor or its permitted transferees, (i) they will not be redeemable by us, (ii) they (including the common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by the sponsor until 30 days after the completion of our initial business combination and (iii) they may be exercised by the holders on a cashless basis.

Because each warrant is exercisable for only one-half of one share of our common stock, the units may be worth less than units of other blank check companies.

Each warrant is exercisable for one-half of one share of common stock. Warrants may be exercised only for a whole number of shares of common stock. No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of common stock to be issued to the warrant holder. As a result, warrant holders not purchasing an even number of warrants must sell an odd number of warrants in order to obtain full value from the fractional interest that will not be issued. This is different from other initial public offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for half of the number of shares compared to units that each contain a warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if our units included a warrant to purchase one whole share.

The requirements of being a public company may strain our resources and divert management's attention.

As a public company, we are subject to the reporting requirements of the Exchange Act, the Sarbanes-Oxley Act of 2002 (the "Sarbanes Oxley Act"), the Dodd-Frank Wall Street Reform and Consumer Protection Act, the listing requirements of NASDAQ and other applicable securities rules and regulations. Compliance with these rules and regulations increase our legal and financial compliance costs, make some activities more difficult, time-consuming or costly and increase demand on our systems and resources, particularly after we are no longer an "emerging growth company." The Sarbanes-Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and, if required, improve our disclosure controls and procedures and internal control over financial reporting to meet this standard, significant resources and management oversight may be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business and operating results. We may need to hire more employees in the future or engage outside consultants to comply with these requirements, which will increase our costs and expenses.

A market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

The price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

NASDAQ may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Our securities are currently listed on NASDAQ. However, we cannot assure you that our securities will continue to be, listed on NASDAQ in the future or prior to our initial business combination. In order to continue listing our securities on NASDAQ prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 round-lot holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with NASDAQ's initial listing requirements, which are more rigorous than NASDAQ's continued listing requirements, in order to continue to maintain the listing of our securities on NASDAQ. For instance, our stock price would generally be required to be at least \$4 per share and our stockholders' equity would generally be required to be at least \$5 million. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If NASDAQ delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

a limited availability of market quotations for our securities;

reduced liquidity for our securities;

a determination that our common stock is a “penny stock” which will require brokers trading in our common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;

a limited amount of news and analyst coverage; and

a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because our units, common stock and warrants are currently listed on NASDAQ, our units, common stock and warrants are covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the state of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on NASDAQ, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of

America, or GAAP, or international financing reporting standards, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statements may also be required to be prepared in accordance with GAAP in connection with our current report on Form 8-K announcing the closing our initial business combination within four business days following such closing. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor internal controls attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2016. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our common stock and could entrench management.

Our amended and restated certificate of incorporation contains provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

If we effect our initial business combination with a company located in the United States but with operations or opportunities outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.

If we effect our initial business combination with a company located in the United States but with operations or opportunities outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

complex and difficult laws applicable to all our material agreements under which we may not be able to enforce our rights;

maintenance of any required import or export licenses;

costs and difficulties inherent in managing cross-border business operations;

rules and regulations regarding currency redemption;

complex corporate withholding taxes on individuals;

laws governing the manner in which future business combinations may be effected;

tariffs and trade barriers;

regulations related to customs and import/export matters;

longer payment cycles;

tax issues, such as tax law changes and variations in tax laws as compared to the United States;

currency fluctuations and exchange controls;

rates of inflation;

challenges in collecting accounts receivable;

cultural and language differences;

employment regulations;

crime, strikes, riots, civil disturbances, terrorist attacks and wars; and

deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

We face risks related to industrial manufacturing, distribution or service companies.

Business combinations with industrial manufacturing, distribution or service companies entail special considerations and risks. If we are successful in completing a business combination with such a target business, we will be subject to, and possibly adversely affected by, the following risks:

the markets we may serve may be subject to general economic conditions and cyclical demand, which could lead to significant shifts in our results of operations from quarter to quarter that make it difficult to project long-term performance;

we may be unable to attract or retain customers;

we may be subject to the negative impacts of catastrophic events;

we may face competition and consolidation of the specific sector of the industry within which the target business operates;

we may be subject to volatility in costs for strategic raw material and energy commodities (such as natural gas, including exports of material quantities of natural gas from the United States) or disruption in the supply of these commodities could adversely affect our financial results;

we may be unable to obtain necessary insurance coverage for the target business' operations;

we may incur additional expenses and delays due to technical problems, labor problems (including union disruptions) or other interruptions at our manufacturing facilities after our initial business combination;

we may experience work-related accidents that may expose us to liability claims;

our manufacturing processes and products may not comply with applicable statutory and regulatory requirements, or if we manufacture products containing design or manufacturing defects, demand for our products may decline and we may be subject to liability claims;

we may be liable for damages based on product liability claims, and we may also be exposed to potential indemnity claims from customers for losses due to our work or if our employees are injured performing services;

our products may be are subject to warranty claims, and our business reputation may be damaged and we may incur significant costs as a result;

we may be unable to protect our intellectual property rights;

our products and manufacturing processes will be subject to technological change;

we may be subject to increased government regulations, including with respect to, among other matters, increased environmental regulation and worker safety regulation, and the costs of compliance with such regulations; and

the failure of our customers to pay the amounts owed to us in a timely manner.

Any of the foregoing could have a negative adverse impact on our operations following a business combination. However, our efforts in identifying prospective target businesses will not be limited to the industrial manufacturing and distribution industry. Accordingly, if we acquire a target business in another industry, these risks will likely not affect us and we will be subject to other risks attendant with the specific industry in which we operate or target business which we acquire, none of which can be presently ascertained.

Item 1B.Unresolved Staff Comments

None.

Item 2.Properties

We do not own any real estate or other physical properties materially important to our operation. Our executive office is located at 700 Louisiana Street, Suite 900, Houston, Texas 77002. The cost for this space is included in the \$10,000 per month fee that we pay an affiliate of our sponsor for office space, utilities and secretarial and administrative services. We consider our current office space adequate for our current operations.

Item 3.Legal Proceedings

To the knowledge of our management, there is no litigation currently pending or contemplated against us, any of our officers or directors in their capacity as such or against any of our property.

Item 4.Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities

(a) Market Information

Our units, common stock and warrants are each traded on the NASDAQ Capital Market under the symbols "HCACU," "HCAC" and "HCACW, respectively. Our units commenced public trading on July 23, 2015, and our common stock and warrants commenced public trading on September 11, 2015.

The table below sets forth, for the calendar quarter indicated, the high and low bid prices of our units, common stock and warrants as reported on the NASDAQ Capital Market for the period from July 23, 2015 through December 31, 2015.

Year Ended

	Units		Common Stock		Warrants	
December 31, 2015	Low	High	Low	High	Low	High
July 23, 2015 through September 30, 2015	\$9.86	\$10.02	\$-	\$-	\$0.24	\$0.27
October 1, 2015 through December 31, 2015	\$9.58	\$9.99	\$9.52	\$9.70	\$0.14	\$0.30

No shares of our common stock traded during the period ended September 30, 2015.

On February 16, 2016 our common stock had a closing price of \$9.70, our warrants had a closing price of \$0.14 and our units had a closing price of \$9.745.

(b) Holders

On February 16, 2016, there was 1 holder of record of our units, 9 holders of record of our common stock and 2 holders of record of our warrants.

(c) Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

(d) Securities Authorized for Issuance Under Equity Compensation Plans.

None.

(e) Recent Sales of Unregistered Securities

None.

(f) Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 6. Selected Financial Data

The following table sets forth selected historical financial information derived from our audited financial statements included elsewhere in this Report as of December 31, 2015 and for the period from April 29, 2015 (inception) through December 31, 2015. You should read the following selected financial data in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the financial statements and the related notes appearing elsewhere in this Report.

Balance Sheet Data:

Cash	\$2,004,000
Cash and Investments held in Trust Account	\$199,654,000
Total Assets	\$201,708,000
Common stock subject to possible redemption (at redemption value)	\$189,326,000
Total stockholders' equity	\$5,000,000

Cash Flow Data:

Net cash used in operating activities	\$(178,000)
Net cash used in investing activities	\$(199,599,000)
Net cash provided by financing activities	\$201,781,000

Statement of Operations Data:

Operating expenses:	
General and administrative expenses	\$475,000
Loss from operations	\$(475,000)
Other Income:	
Interest income	\$205,000
Net loss attributable to common stockholders	\$(270,000)
Basic and diluted net loss per share attributable to common stockholders	\$(0.05)
Weighted average number of common shares outstanding, basic and diluted	\$5,652,000

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

All statements other than statements of historical fact included in this Form 10-K including, without limitation, statements under "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. When used in this Form 10-K, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to us or the Company's management, identify forward-looking statements. Such forward-looking statements are based on the beliefs of management, as well as assumptions made by, and information currently available to, the Company's management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors detailed in our filings with the SEC.

Overview

We are a blank check company incorporated on April 29, 2015 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We intend to effectuate our initial business combination using cash from the proceeds of our initial public offering and a sale of warrants in a private placement that occurred simultaneously with the completion of our initial public offering, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in our initial business combination:

may significantly dilute the equity interest of our stockholders;

may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;

could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;

may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and

may decrease prevailing market prices for our common stock and/or warrants.

Similarly, if we issue debt securities, it could result in:

a decrease in the prevailing market prices for our common stock and/or warrants.

default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;

acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;

our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;

our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;

our inability to pay dividends on our common stock;

using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;

limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;

increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and

limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at December 31, 2015, we had approximately \$2,004,000 in cash. We expect to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete our initial business combination will be successful.

Results of Operations

For the period from April 29, 2015 (inception) through December 31, 2015 our activities consisted of formation and preparation for our initial public offering and subsequent to our initial public offering, efforts directed toward locating and completing a suitable initial business combination. As such, we had no operations or significant operating expenses until August 2015. Our operating costs since then include our search for an initial business combination and are largely associated with our governance and public reporting, state franchise taxes of approximately \$125,000 for the year 2015, and five months of charges of \$10,000 per month payable to an affiliate of our sponsor for administrative services and \$11,600 per month (or \$8,300 per month after twelve months following our initial public offering) for the services of our Chief Financial Officer. Investment income of approximately \$205,000 represents the realized and unrealized appreciation on our investment in U.S. treasury bills since our initial public offering.

Liquidity and Capital Resources

In July and August 2015, we consummated our initial public offering of an aggregate of 19,959,908 units at a price of \$10.00 per unit generating gross proceeds of approximately \$199,599,000 before underwriting discounts and expenses. Simultaneously with the consummation of our initial public offering, we consummated the private placement of 15,080,756 private placement warrants, each exercisable to purchase one-half of one share of our common stock at \$5.75 per half share (\$11.50 per whole share), to our sponsor, at a price of \$0.50 per private placement warrant, generating gross proceeds, before expenses, of approximately \$7,540,000. We received net proceeds from our initial public offering and the sale of the private placement warrants of approximately \$201,756,000, net of the non-deferred portion of the underwriting commissions of \$4,790,000 and offering costs and other expenses of approximately \$593,000. \$199,599,000 of the proceeds of our initial public offering and the private placement have been deposited in the trust account and are not available to us for operations (except amounts designated for working capital and amounts to pay taxes and working capital). At December 31, 2015, we had approximately \$2,004,000 of cash available outside of the trust account to fund our activities to search for an initial business combination.

Until the consummation of our initial public offering, the Company's only sources of liquidity were an initial purchase of shares of our common stock for \$25,000 by our sponsor, and a total of \$237,500 loaned by our sponsor against the issuance of an unsecured promissory note (the "Note"). These loans were non-interest bearing and were paid in full on July 28, 2015 in connection with the closing of our initial public offering.

We expect that the Company has sufficient resources subsequent to our initial public offering to fund its operations for at least the next twelve months.

Off-balance sheet financing arrangements

We have no obligations, assets or liabilities which would be considered off-balance sheet arrangements. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements.

We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or entered into any non-financial assets.

Contractual obligations

At December 31, 2015 we did not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities. In connection with our initial public offering, we entered into an administrative services agreement with an affiliate of our sponsor, pursuant to which the Company pays Hennessy Capital LLC a total of \$10,000 per month for office space, utilities and secretarial support. In addition, the Company is paying its Chief Financial Officer \$11,650 per month during the first twelve months after our initial public offering and \$8,300 per month thereafter and \$150,000 in cash upon the successful completion of the Company's initial business combination for his services. Upon completion of our initial business combination or the Company's liquidation, the Company will cease paying these monthly fees.

Critical Accounting Policies

Use of Estimates:

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. The Company has identified the following as its critical accounting policies:

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

Loss Per Common Share

Net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of shares of common stock outstanding during the period, plus to the extent dilutive the incremental number of shares of common stock to settle warrants, as calculated using the treasury stock method. At December 31, 2015, the Company had outstanding warrants to purchase 17,520,332,000 shares of common stock. For all periods presented, these shares were excluded from the calculation of diluted loss per share of common stock because their inclusion would have been anti-dilutive. As a result, diluted loss per common share is the same as basic loss per common share for the period.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the accompanying condensed balance sheets.

Offering Costs

The Company complies with the requirements of the ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (SAB) Topic 5A - "Expenses of Offering". Offering costs of approximately \$12,568,000 consist of underwriters' discounts of approximately \$11,976,000 (including approximately \$7,185,000 of which payment is deferred) and approximately \$593,000 of professional, printing, filing, regulatory and other costs associated with our initial public offering were charged to additional paid in capital upon completion of our initial public offering in July and August 2015.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC, 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. At December 31, 2015, the Company has a deferred tax asset of approximately \$90,000 related to net loss carryforwards (which begin to expire in 2035) and start-up costs. Management has determined that a full valuation allowance of the deferred tax asset is appropriate at this time.

Redeemable common stock

All of the 19,959,908 shares of common stock sold as part of the Units in our initial public offering contain a redemption feature which allows for the redemption of such common stock under the Company's liquidation or tender offer/stockholder approval provisions. In accordance with ASC 480, redemption provisions not solely within the control of the Company require the security to be classified outside of permanent equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of ASC 480. Although the Company does not specify a maximum redemption threshold, its amended and restated certificate of incorporation provides that in no event will the Company redeem its public shares in an amount that would cause its net tangible assets (stockholders' equity) to be less than \$5,000,001.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of the security to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid-in capital.

At December 31, 2015, 18,932,591 of the 19,959,908 public shares were classified outside of permanent equity at redemption value of \$10.00 per share.

Recent Accounting Pronouncements

The Company complies with the reporting requirements of FASB ASU No. 2014-10, which eliminated certain financial reporting requirements of companies previously identified as “Development Stage Entities” (Topic 915). The amendments in this ASU simplify accounting guidance by removing all incremental financial reporting requirements for development stage entities. The amendments also reduce date maintenance and, for those entities subject to audit, audit costs by eliminating the requirements for development stage entities to present inception-to-date information in the statements of income, cash flows, and stockholders’ equity. Upon adoption, entities no longer present or disclose any information required by Topic 915. For private entities and emerging growth companies under the JOBS Act, the amendments are effective for annual reporting periods beginning after December 15, 2015. The Company has elected early adoption and has incorporated the methodologies prescribed by ASU 2014-10 in the accompanying financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern (“ASU 2014-15”). ASU 2014-15 provides guidance on management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. The amendments in ASU 2014-15 are effective for annual reporting periods ending after December 15, 2016 and for annual and interim periods thereafter. Early adoption is permitted. The Company has adopted the methodologies prescribed by ASU 2014-15, and does not anticipate that the adoption of ASU 2014-15 will have a material effect on its financial position or results of operations.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company’s financial statements.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of our initial public offering and the sale of the private placement warrants held in the trust account are invested in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Item 8. Financial Statements and Supplementary Data

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer (together, the “Certifying Officers”), we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on the foregoing, our Certifying Officers concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Report.

Disclosure controls and procedures are controls and other procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Certifying Officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

Management’s Report on Internal Controls Over Financial Reporting

This Report does not include a report of management’s assessment regarding internal control over financial reporting or an attestation report of our registered public accounting firm due to a transition period established by the rules of the Commission for newly public companies.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance****Directors and Executive Officers**

As of the date of this Report, our directors and officers are as follows:

Name	Age	Title
Daniel J. Hennessy	58	Chairman of the Board of Directors and Chief Executive Officer
Kevin Charlton	50	President, Chief Operating Officer and Director
Nicholas A. Petruska	29	Executive Vice President, Chief Financial Officer and Secretary
Bradley Bell	63	Director and Chairman of the Audit Committee
Richard Burns	63	Director
Peter Shea	64	Director and Chairman of the Compensation Committee
Thomas J. Sullivan	53	Director

Daniel J. Hennessy, our Chairman and Chief Executive Officer since May 2015, is also the Chairman and Chief Executive Officer of Hennessy Capital LLC, an alternative investment firm he established in 2013. From September 2013 to February 2015, Mr. Hennessy served as Chief Executive Officer and Chairman of the Board of Hennessy Capital Acquisition Corp., or Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD), and since February 2015, has served as its Vice Chairman. Mr. Hennessy serves as a Partner at Code Hennessy & Simmons LLC (n/k/a CHS Capital or “CHS”), a middle market private equity investment firm he co-founded in 1988. Over a 25 year period, CHS invested \$2.8 billion in 395 operating companies with aggregate revenues of approximately \$15 billion. Mr. Hennessy has served as Chairman of the Board and Director of CHS portfolio companies that manufacture and/or distribute a broad array of products or provide services for the industrial, infrastructure, energy and packaging sectors including Thermon Group Holdings (NYSE: THR), a designer and manufacturer of heat tracing systems focused on the external application of heat to pipes, tanks and instrumentation from April 2010 to May 2011, Dura-Line Holdings, a producer of high-density polyethylene conduit and pipes from January 2012 to September 2014, Penhall International, a provider of concrete cutting, breaking, excavation and highway grinding services, from July 2006 to November 2010, GSE Environmental, a supplier of geosynthetic liners and products, from May 2004 to December 2011, WNA, a designer and manufacturer of upscale plastic disposable tableware products, from 2002 to 2007 and Kranson Industries (n/k/a/ TricorBraun), a distributor of plastic and glass containers, from 1999 to 2004. In 2009, EDH Properties, LLC, a family real estate investment entity for which Mr. Hennessy was the managing member, filed a petition for voluntary reorganization under Chapter 11 of the U.S. Bankruptcy Code. A plan of reorganization was confirmed by the court in 2010 and the lender received payment in full. Prior to forming CHS, Mr. Hennessy was employed by Citicorp from 1984 to 1988 as head of the Midwest Region for Citicorp Mezzanine Investments and Vice President and Team Leader with Citicorp Leveraged Capital Group. He began his career in 1981 in the oil and gas lending group at Continental Illinois National

Bank (now Bank of America) where he was a Banking Officer. Mr. Hennessy holds a B.A. degree, magna cum laude, from Boston College and an M.B.A. from the University of Michigan Ross School of Business. Mr. Hennessy is well qualified to serve as director due to his experience in private equity and public and private company board governance, as well as his background in finance and his experience with Hennessy 1.

Kevin M. Charlton, our President and Chief Operating Officer since May 2015 and one of our directors since our initial public offering, is also is the Managing Partner of River Hollow Partners, a private equity firm he founded in July 2013 to focus on the lower mid-market. From October 2013 to February 2015, Mr. Charlton served as President, Chief Operating Officer and a member of the board of directors of Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD), and since from January 2014 to February 2015 as a director. Prior to that, from August 2009 to June 2013, Mr. Charlton was a Managing Director in the Principal Transactions Group of Macquarie Capital (USA) Inc., and led a team that oversaw its existing portfolio of North American investments. Prior to joining Macquarie Capital (USA) Inc. in August 2009, Mr. Charlton worked as Managing Director at Investcorp International, a mid-market private equity firm, from August 2002 to June 2009. Prior to joining Investcorp International in August 2002, he worked for JPMorgan Chase and McKinsey & Company and as a contractor in the Astrophysics Division at NASA Headquarters. Mr. Charlton has served on the boards of over 15 private companies and their subsidiaries in a variety of roles, with significant industrial experience in businesses such as FleetPride, a distributor of aftermarket heavy-duty truck parts, Neptune Technologies, a manufacturer of water meters and metering systems, Synthetic Industries, a manufacturer of industrial fabrics, and Brek Manufacturing, an aerospace components manufacturer. Since January 2010 he has been a member of the Board of Directors of Spirit Realty Corporation (NYSE: SRC), a triple-net real estate investment trust that went public in September 2012, where he is a member of the Compensation and Governance Committees. Since March 2014, Mr. Charlton has served on the board of The Addison Group, a privately-owned staffing business. Since August 2014, Mr. Charlton has served on the board of Dancing Deer Baking Company, a manufacturer of branded baked goods and a portfolio company of River Hollow Partners. Since March 2015, he has served as a Board Observer at National Spine and Pain Centers, a privately-owned health care business. Since March 2015, he has served as a member of the Board of Directors of Macro Energy, an advisory firm focused on high-efficiency lighting retrofits for commercial tenants and a portfolio company of River Hollow Partners. He received a Masters in Business Administration with honors from the Kellogg School of Management at Northwestern University in June 1995, a Masters of Science in Aerospace Engineering with Distinction from the University of Michigan in June 1990, and a Bachelors of Science in Engineering Cum Laude from Princeton University in June 1988. Mr. Charlton is well-qualified to serve as director due to his experience in private equity and public and private company governance, as well as his background in industrial business and his experience with Hennessy 1.

Nicholas A. Petruska, our Executive Vice President, Chief Financial Officer and Secretary since May 2015, has served as Vice President of Hennessy Capital LLC, the managing member of our Sponsor, since November 2013, in which position he advised Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD), in connection with its initial public offering in January 2014. In addition, he worked closely with Hennessy 1's CEO and COO on transaction origination and initial assessments of potential target companies and led the due diligence assessment and transaction execution for Hennessy 1's business combination, which was consummated in February 2015. From July 2012 to July 2014, Mr. Petruska served as an associate at CHS Capital, a Chicago-based middle market private equity investment firm, where he evaluated leveraged buyouts and structured equity investments across multiple sectors and monitored certain portfolio companies of CHS. From January 2010 to July 2012, Mr. Petruska served as an investment banking analyst for Morgan Stanley (NYSE: MS) in the mergers and acquisitions and corporate finance groups with a focus on diversified industrials and consumer retail. He holds a B.S. degree, summa cum laude, from Miami University with majors in Finance and Decision Sciences.

Bradley Bell has served as one of our independent directors and the chairman of our audit committee since our initial public offering. From January 2014 to February 2015, Mr. Bell served as a director and chairman of the Audit Committee of Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD). Since October 2014, Mr. Bell has served as a director of MPM Holdings, Inc., a global manufacturer of silicones, quartz, and ceramics, where he has been Non-Executive Chair since December 2014. Since July 2015, Mr. Bell has served as a director and Chairman of the Audit Committee of The Chemours Company LLC (NYSE: CC), a chemical solutions company. From 2001 through 2015, he served as a director of IDEX Corporation (NYSE: IEX), a global industrial company with key growth platforms in Fluid Metering Technology and Health & Science Technology segments, where he chaired the Nominating and Corporate Governance Committee and served on the Compensation Committee. From 2003 to July 2015, he served as a director of Compass Minerals Corporation (NYSE: CMP), an international mining company with operations in salt and specialty fertilizers, where he was chair of the Compensation Committee since May 2010, a member of the Nominating and Corporate Governance Committee from May 2009 until May 2015 and a member of the Audit Committee since May 2012. He served as a director of Coskata Company, a pre-revenue biomass startup with proprietary technology for the production of fuels and chemicals utilizing anaerobic microorganisms where he has been chairman of the audit committee from 2009 to 2015. From November 2003 to December 2010, Mr. Bell served as Executive Vice President of Nalco Corporation, an industrial water treatment and energy services company. Mr. Bell has over 30 years combined experience as an executive in the technology and manufacturing industries, including positions at Rohm and Haas Company, Whirlpool Corporation and Bundy Corporation. Through his experience, Mr. Bell has developed financial expertise and experience in mergers and acquisitions, private equity and capital markets transactions. He has held directorships at publicly traded companies for over 20 years, during which he chaired governance, audit and compensation committees. Through his executive experience and board memberships, Mr. Bell has acquired training and experience in corporate governance and executive compensation. Mr. Bell received a bachelor of science degree in finance with high honors from the University of Illinois and a master of business administration degree with distinction from Harvard University. Mr. Bell is well qualified to serve as director due to his experience in public and private company governance and accounting, including his service on audit, nominating and corporate governance and compensation committees, including his experience with Hennessy 1.

Richard Burns has served as one of our independent directors since our initial public offering. From January 2014 to February 2015, Mr. Burns served as a director of Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD). He also serves as a Senior Advisor to McKinsey & Company, consulting with telecom service providers, suppliers, and private equity investors, and has done so since April 2008. Mr. Burns also serves on the boards of GeorgiasOwn Credit Union, a consumer retail financial services firm, since 2002 and Unison Site Management, a cell site management firm, since March 2010. Mr. Burns has over 35 years of combined executive experience in telecommunications, including landline, broadband and wireless networks. He served as an officer of BellSouth from 2002 to 2006, holding a number of positions including Chief Integration Officer for Broadband Transformation, President of Bellsouth Broadband and Internet Services, and Chief Supply Chain Officer. He also served as an officer of AT&T from December 2006 to March 2008, as President of AT&T's Wireless Network. Through his experience, Mr. Burns has developed expertise in operations, mergers, financial management, and private equity investment. Through his executive experience and board service Mr. Burns has acquired both experience and training in corporate governance, executive compensation, and finance. Mr. Burns received both his Bachelor and Master's Degrees in Engineering from the University of Louisville, and an MBA from Vanderbilt University with Honors. Mr. Burns is well qualified to serve as a director due to his executive experience in large public companies, as well as his board experience in privately held firms and Hennessy 1.

Peter Shea has served as one of our independent directors and the chairman of our compensation committee since our initial public offering. From January 2014 to February 2015, Mr. Shea served as a director and chairman of the Compensation Committee of Hennessy 1, which merged with School Bus Holdings Inc. in February 2015 and is now known as Blue Bird Corporation (NASDAQ: BLBD). Since January 2010, Mr. Shea has been a private equity advisor. He has served as an operating partner of Snow Phipps Group, a private equity firm, since April 2013 and as an operating advisor for OMERS Private Equity (the private equity division of the Ontario Municipal Employees Retirement System) since November 2011. He has been a director of Viskase Companies, a supplier of cellulose and fibrous casings, from October 2006 to the present, where he is currently a member of the Audit Committee and previously served as chairman of the Compensation Committee. He has served as a director of Give and Go Prepared Foods, a bakery manufacturer, since January 2012. He has been a director of CVR Partners LP (NYSE: UAN), a nitrogen fertilizer producer, since May 2014 where he is currently the Chairman of the Environmental, Health and Safety Committee and a member of the Audit Committee. Mr. Shea also serves as chairman of the board of directors of Voltari Corporation (NASDAQ: VLTC), a commercial real estate company, since September 2015. Mr. Shea has served as Chairman of the Board of Directors of FeraDyne Outdoors LLC, a manufacturer of hunting and fishing accessories, since May 2014. He also serves as Chairman of Teasedale Foods, a processor of Hispanic foods. He was a Director of CTI Foods, a processor of protein and soup products for quick serve restaurant chains from May 2010 to July 2013. Mr. Shea was President of Icahn Enterprises (NYSE: IEP) from October 2006 to June 2009 and during the same period led Portfolio Company Operations for Icahn Associates, Carl Icahn's private portfolio. He previously served as a director of Sitel Worldwide Corporation, a customer solutions provider, from October 2011 until September 2015. Mr. Shea served as a director of each of the following companies from October 2006 to May 2009: XO Holdings, a telecommunications services provider, American Railcar, a manufacturer of covered hopper and tank railcars, WestPoint International, a home textiles manufacturer and PSC Metals, a national operator of scrap yards. From 2002 to 2006 Mr. Shea was an independent consultant to various companies, an advisor to private equity firms and a director of Sabert Company, a packaging company. Mr. Shea has also served as a director, Chairman, Executive Chairman, Chief Executive Officer, President or Managing Director of a variety of companies including H.J. Heinz Company in Europe, a manufacturer and marketer of a broad line of food products across the globe, John Morrell & Company, Specialty Meats Company, each an international meat processing firm, Grupo Polymer United in Latin America, a plastics manufacturer, Roncadin GmbH, a food processor operating across Europe, Premium Standard Farms, New Energy Company of Indiana and United Brands Company where he was Head of Global Corporate Development. He has an MBA from the University of Southern California and a BBA from Iona College. Mr. Shea is well qualified to serve as a director due to his experience in public and private company governance and private equity, including his service on numerous corporate boards and on audit and compensation committees, including his experience with Hennessy 1.

Thomas J. Sullivan has served as one of our independent directors since our initial public offering. Mr. Sullivan has served as a director of Media General (NYSE: MEG), a multimedia company, since November 2013. Prior to the merger of Media General and New Young Broadcasting Holding Co. ("Young"), Mr. Sullivan was a member of the Board of Directors, as well as of the Audit, Compensation and Nominating Committees, of Young from January 2009 until November 2013. Mr. Sullivan held the position of Executive Chairman of Young from June 2012 until November 2013 and served as Senior Vice President, Finance and Chief Financial Officer in 2012. Mr. Sullivan serves as a director of American Apparel, Inc. (NYSE MKT: AAP), a manufacturer, distributor, and retailer of apparel products and designs, and serves as AAP's Chair of the Nominating and Corporate Governance Committee and as a member of the Audit Committee. He has also served as a member of the advisory board of Millennium Custodial Trust since 2010 and a Trustee of Accredited Mortgage Loan REIT since 2009. Since 2009, Mr. Sullivan serves as the Managing Partner of Smallwood Partners, LLC, a financial advisory services firm. Mr. Sullivan's previous experience

also includes serving as a Managing Director with Investcorp International, Inc., an international middle market private equity firm. Mr. Sullivan has served on numerous boards for 20 years and has broad leadership, operational and financial restructuring experience as well as experience in the fields of private equity and capital markets. Mr. Sullivan holds a B.B.S. from Villanova University. Mr. Sullivan is well qualified to serve as a director due to his experience as a public company director and in the private equity sector.

Number and Terms of Office of Officers and Directors

Our board of directors is divided into two classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a two-year term. The term of office of the first class of directors, consisting of Messrs. Shea, Burns and Sullivan, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Messrs. Hennessy, Charlton and Bell, will expire at the second annual meeting of stockholders. We do not currently intend to hold an annual meeting of stockholders until after we consummate our initial business combination (unless we do not consummate our initial business combination prior to December 31, 2016, in which case NASDAQ rules require that we hold an annual meeting prior to December 31, 2016).

Our officers are elected by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our officers may consist of a Chief Executive Officer, President, Chief Financial Officer, Vice Presidents, Secretary, Assistant Secretaries, Treasurer and such other offices as may be determined by the board of directors.

Committees of the Board of Directors

Audit Committee

Messrs. Bell, Burns, Shea and Sullivan serve as members of our audit committee. Mr. Bell serves as chairman of the audit committee. Under the NASDAQ listing standards and applicable SEC rules, we are required to have three members of the audit committee, all of whom must be independent. Messrs. Bell, Burns, Shea and Sullivan are independent.

Each member of the audit committee is financially literate and our board of directors has determined that Mr. Bell qualifies as an “audit committee financial expert” as defined in applicable SEC rules.

We have adopted an audit committee charter, which details the principal functions of the audit committee, including:

the appointment, compensation, retention, replacement, and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;

pre-approving all audit and non-audit services to be provided by the independent auditors or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;

reviewing and discussing with the independent auditors all relationships the auditors have with us in order to evaluate their continued independence;

setting clear hiring policies for employees or former employees of the independent auditors;

setting clear policies for audit partner rotation in compliance with applicable laws and regulations;

obtaining and reviewing a report, at least annually, from the independent auditors describing (i) the independent auditor’s internal quality-control procedures and (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;

reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and

reviewing with management, the independent auditors, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

The members of our compensation committee are Messrs. Shea, Bell, Burns and Sullivan. Mr. Shea serves as Chairman of the compensation committee. We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation in executive session at which the Chief Executive Officer is not present;

reviewing and approving the compensation of all of our other executive officers;

reviewing our executive compensation policies and plans;

implementing and administering our incentive compensation equity-based remuneration plans;

assisting management in complying with our proxy statement and annual report disclosure requirements;

approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;

producing a report on executive compensation to be included in our annual proxy statement; and

reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the \$10,000 per month administrative fee payable to an affiliate of our sponsor and the monthly payments and a fee upon the successful completion of our initial business combination to Mr. Petruska, no other compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate, the consummation of a business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by NASDAQ and the SEC.

Director Nominations

We do not have a standing nominating committee, though we intend to form a corporate governance and nominating committee as and when required to do so by law or NASDAQ rules, which will be chaired by Mr. Burns. In accordance with Rule 5605(e)(2) of the NASDAQ rules, a majority of the independent directors may recommend a director nominee for selection by the board of directors. The board of directors believes that the independent directors can satisfactorily carry out the responsibility of properly selecting or approving director nominees without the formation of a standing nominating committee. The directors who shall participate in the consideration and recommendation of director nominees are Messrs. Bell, Shea, Burns and Sullivan. In accordance with Rule 5605(e)(1)(A) of the NASDAQ rules, all such directors are independent. As there is no standing nominating committee, we do not have a nominating committee charter in place.

The board of directors will also consider director candidates recommended for nomination by our stockholders during such times as they are seeking proposed nominees to stand for election at the next annual meeting of stockholders (or, if applicable, a special meeting of stockholders). Our stockholders that wish to nominate a director for election to the Board should follow the procedures set forth in our bylaws.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, and in the past year has not served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers, directors and persons who beneficially own more than ten percent of our common stock to file reports of ownership and changes in ownership with the SEC. These reporting persons are also required to furnish us with copies of all Section 16(a) forms they file. Based solely upon a review of such forms, we believe that during the year ended December 31, 2015 there were no delinquent filers.

Code of Ethics

We have adopted a code of ethics that applies to our officers and directors. We have filed copies of our code of ethics, our audit committee charter and our compensation committee charter as exhibits to our registration statement in connection with our initial public offering. You may review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the code of ethics will be provided without charge upon request to us.

Item 11.Executive Compensation

Compensation Discussion and Analysis

We pay Mr. Petruska, our Chief Financial Officer, \$11,650 per month for his services during the first 12 months following our initial public offering (until July 28, 2016). We will pay \$8,300 per month to Mr. Petruska thereafter (for a maximum of 12 additional months) and we will pay him \$150,000 in cash upon the successful completion of our initial business combination. Commencing on July 22, 2015 through the earlier of consummation of our initial business combination and our liquidation, we have paid an affiliate of our sponsor a total of \$10,000 per month for office space, utilities and secretarial support. Our sponsor, executive officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our independent directors will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting, management or other fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time, because the directors of the post-combination business will be responsible for determining executive and director compensation. Any compensation to be paid to our officers will be determined by our compensation committee.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after the initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth information regarding the beneficial ownership of our common stock as of February 16, 2016 based on information obtained from the persons named below, with respect to the beneficial ownership of shares of our common stock, by:

each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;

each of our executive officers and directors that beneficially owns shares of our common stock; and

all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them.

Name and Address of Beneficial Owner(1)	Number of Shares Beneficially Owned	Approximate Percentage of Outstanding Common Stock	
Hennessy Capital Partners II LLC (our sponsor)	4,549,977	18.2	%
Daniel J. Hennessy(2)	4,549,977	18.2	%
Kevin J. Charlton	200,000	*	
Nicholas A. Petruska	35,000	*	
Bradley Bell(3)	50,000	*	
Richard Burns	50,000	*	
Peter Shea	50,000	*	
Thomas J. Sullivan	50,000	*	
All directors and executive officers as a group (7 individuals)	4,984,977	20.0	%

* Less than 1 percent.

(1) Unless otherwise noted, the business address of each of the following entities or individuals is 700 Louisiana Street, Suite 900, Houston, Texas 77002.

These shares represent the founder shares held by our sponsor. Daniel J. Hennessy, our Chairman and Chief Executive Officer, is the sole managing member of Hennessy Capital LLC, the sole managing member of our sponsor. Consequently, Mr. Hennessy may be deemed the beneficial owner of the founder shares held by our sponsor and has sole voting and dispositive control over such securities. Mr. Hennessy disclaims beneficial ownership over any securities owned by our sponsor in which he does not have any pecuniary interest.

(2) Shares are held through The Bradley J. Bell Trust, of which Mr. Bell is trustee and over which he has voting and dispositive control.

The table above does not include the shares of common stock underlying the private placement warrants held or to be held by our officers or sponsor because these securities are not exercisable within 60 days of this Report.

Changes in Control

N/A

Item 13. Certain Relationships and Related Transactions, and Director Independence

Certain Relationships and Related Transactions

In May 2015, our sponsor purchased 5,031,250 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.005 per share. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20.0% of the outstanding shares upon completion of our initial public offering. In May 2015, our sponsor transferred 50,000 founder shares to each of Messrs. Bell, Sullivan, Burns and Shea, our independent director nominees, 35,000 to Mr. Petruska, our Executive Vice President, Chief Financial Officer and Secretary, 200,000 to Mr. Charlton, our President and Chief Operating Officer and 5,000 to Charles B. Lowrey II, an advisor to our company. The 5,031,250 shares held by the Company's initial stockholders prior to the exercise of the over-allotment option included 656,250 shares subject to forfeiture to the extent that the underwriters' over-allotment option was not exercised in full. Since the underwriters did not exercise the over-allotment option in full, the sponsor forfeited 41,273 of its founder shares, which were canceled by the Company.

Our sponsor purchased 15,080,756 private placement warrants for a purchase price of \$0.50 per warrant, or \$7,540,378 in the aggregate, in private placement transactions that occurred simultaneously with the closing of our initial public offering and the closing of the over-allotment option for our initial public offering. Each private placement warrant entitles the holder to purchase one-half of one share of our common stock at \$5.75 per share. Warrants may be exercised only for a whole number of shares of common stock. The private placement warrants (including the common stock issuable upon exercise of the private placement warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by it until 30 days after the completion of our initial business combination.

If any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity rejects the opportunity. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our business combination.

We have entered into an Administrative Services Agreement with Hennessy Capital LLC, an affiliate of our sponsor, pursuant to which we will pay a total of \$10,000 per month for office space, utilities and secretarial support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. We also pay Mr. Petruska, our Chief Financial Officer, \$11,650 per month for his services during the first 12 months following the consummation of our initial public offering (until July 28, 2016). We will pay Mr. Petruska \$8,300 per month thereafter (for a maximum of 12 additional months) and \$150,000 in cash upon the successful completion of our initial business combination.

Our sponsor, executive officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our independent directors will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to our initial public offering, our sponsor provided an aggregate of \$237,500 to us under an unsecured promissory note and in advances, to be used for a portion of the expenses of our initial public offering. These loans and advances were non-interest bearing, unsecured and were repaid upon the closing of our initial public offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In

the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,000,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$0.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares and private placement warrants. The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that we register such securities for sale under the Securities Act. In addition, these holders have “piggy-back” registration rights to include such securities in other registration statements filed by us and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the costs and expenses of filing any such registration statements.

Our audit committee must review and approve any related person transaction we propose to enter into. Our audit committee charter details the policies and procedures relating to transactions that may present actual, potential or perceived conflicts of interest and may raise questions as to whether such transactions are consistent with the best interest of our company and our stockholders. A summary of such policies and procedures is set forth below.

Any potential related party transaction that is brought to the audit committee’s attention will be analyzed by the audit committee, in consultation with outside counsel or members of management, as appropriate, to determine whether the transaction or relationship does, in fact, constitute a related party transaction. At its meetings, the audit committee will be provided with the details of each new, existing or proposed related party transaction, including the terms of the transaction, the business purpose of the transaction and the benefits to us and to the relevant related party.

In determining whether to approve a related party transaction, the audit committee must consider, among other factors, the following factors to the extent relevant:

whether the terms of the transaction are fair to us and on the same basis as would apply if the transaction did not involve a related party;

whether there are business reasons for us to enter into the transaction;

whether the transaction would impair the independence of an outside director; and

whether the transaction would present an improper conflict of interest for any director or executive officer.

Any member of the audit committee who has an interest in the transaction under discussion must abstain from any voting regarding the transaction, but may, if so requested by the chairman of the audit committee, participate in some or all of the audit committee's discussions of the transaction. Upon completion of its review of the transaction, the audit committee may determine to permit or to prohibit the transaction.

Director Independence

NASDAQ listing standards require that a majority of our board of directors be independent. An "independent director" is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship which in the opinion of the company's board of directors, would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. Our board of directors has determined that Messrs. Bell, Shea, Burns and Sullivan are "independent directors" as defined in the NASDAQ listing standards and applicable SEC rules. Our independent directors have regularly scheduled meetings at which only independent directors are present.

Item 14. Principal Accountant Fees and Services.

The following is a summary of fees paid or to be paid to WithumSmith+Brown, PC, or Withum, for services rendered.

Audit Fees. Audit fees consist of fees billed for professional services rendered for the audit of our year-end financial statements and services that are normally provided by Withum in connection with regulatory filings. The aggregate fees billed by Withum for professional services rendered for the audit of our annual financial statements and review of the financial information included in our Forms 10-Q for the respective periods for the year ended December 31, 2015

totaled approximately \$39,000. The Company incurred approximately \$37,500 related to audit services in connection with our initial public offering. The above amounts include interim procedures and audit fees, as well as attendance at audit committee meetings.

Audit-Related Fees. Audit-related services consist of fees billed for assurance and related services that are reasonably related to performance of the audit or review of our financial statements and are not reported under “Audit Fees.” These services include attest services that are not required by statute or regulation and consultations concerning financial accounting and reporting standards. During the year ended December 31, 2015, we did not pay Withum for consultations concerning financial accounting and reporting standards.

Tax Fees. We did not pay Withum for tax planning and tax advice for the year ended December 31, 2015.

All Other Fees. We did not pay Withum for other services for the year ended December 31, 2015.

Pre-Approval Policy

Our audit committee was formed upon the consummation of our initial public offering. As a result, the audit committee did not pre-approve all of the foregoing services, although any services rendered prior to the formation of our audit committee were approved by our board of directors. Since the formation of our audit committee, and on a going-forward basis, the audit committee has and will pre-approve all auditing services and permitted non-audit services to be performed for us by our auditors, including the fees and terms thereof (subject to the de minimis exceptions for non-audit services described in the Exchange Act which are approved by the audit committee prior to the completion of the audit).

PART IV

Item 15. Exhibits, Financial Statement Schedules

(a) The following documents are filed as part of this Report:

(1) Financial Statements

(2) Financial Statements Schedule

All financial statement schedules are omitted because they are not applicable or the amounts are immaterial and not required, or the required information is presented in the financial statements and notes thereto in is Item 15 of Part IV below.

(3) Exhibits

We hereby file as part of this Report the exhibits listed in the attached Exhibit Index. Exhibits which are incorporated herein by reference can be inspected and copied at the public reference facilities maintained by the SEC, 100 F Street, N.E., Room 1580, Washington D.C. 20549. Copies of such material can also be obtained from the Public Reference Section of the SEC, 100 F Street, N.E., Washington, D.C. 20549, at prescribed rates or on the SEC website at www.sec.gov.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Hennessy Capital Acquisition Corp. II:

We have audited the accompanying balance sheet of Hennessy Capital Acquisition Corp. II (the “Company”) as of December 31, 2015, and the related statements of operations, stockholders’ equity and cash flows for the period from April 29, 2015 (inception) to December 31, 2015. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Hennessy Capital Acquisition Corp. II as of December 31, 2015, and the results of its operations and its cash flows for the period from April 29, 2015 (inception) to December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

HENNESSY CAPITAL ACQUISITION CORP. II
Notes to Financial Statements

NOTE 1 - DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Organization and General:

Hennessy Capital Acquisition Corp. II (the "Company") was incorporated in Delaware on April 29, 2015. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the "Business Combination"). The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended, or the "Securities Act," as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act").

At December 31, 2015, the Company had not commenced any operations. All activity for the period from April 29, 2015 (inception) through December 31, 2015 relates to the Company's formation and the initial public offering ("Public Offering") described below and subsequent to the Public Offering, efforts have been directed toward locating and completing a suitable Business Combination. The Company has not and will not generate any operating revenues until after completion of a suitable Business Combination, at the earliest. The Company has generated non-operating income in the form of investment income on cash and investments from the proceeds of the Public Offering. The Company has selected December 31st as its fiscal year end. All dollar amounts are rounded to the nearest thousand dollars.

Sponsor and Financing:

The Company's sponsor is Hennessy Capital Partners II LLC, a Delaware limited liability corporation (the "Sponsor"). The registration statement for the Public Offering (as described in Note 3) was declared effective by the United States Securities and Exchange Commission (the "SEC") on July 22, 2015. The Company intends to finance a Business Combination with proceeds from the approximately \$199,599,000 of the gross proceeds from the Public Offering (including approximately \$24,599,000 from the underwriters' partial exercise of their overallotment option - Note 3) and approximately \$7,540,000 of gross proceeds (including approximately \$590,000 resulting from the underwriters' partial exercise of their over-allotment option) from the private placement (Note 4). Upon the closing of the Public Offering and the private placement, approximately \$199,599,000 was deposited in a trust account with Continental Stock Transfer and Trust Company acting as trustee (the "Trust Account") as discussed below. As a result of the underwriters' exercising less than the full overallotment option, the Sponsor forfeited 41,273 shares of its common stock as described in Notes 3, 4 and 5.

The Trust Account:

The funds in the Trust Account may be invested only in U.S. government treasury bills with a maturity of one hundred and eighty (180) days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940 which invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of the Business Combination or (ii) the distribution of the Trust Account as described below. The remaining proceeds of the Public Offering outside the Trust Account may be used to pay for business, legal and accounting due diligence expenses for prospective acquisition targets and continuing general and administrative expenses.

The Company's amended and restated certificate of incorporation provides that, other than the withdrawal of interest to pay taxes, if any, or working capital expenses, none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the Business Combination; or (ii) the redemption of 100% of the shares of common stock included in the Units (as defined below) sold in the Public Offering if the Company is unable to complete a Business Combination within 24 months from the closing of the Public Offering (subject to the requirements of law). In November 2015, \$150,000 of interest earned was withdrawn from the Trust for working capital.

Business Combination:

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Public Offering, although substantially all of the net proceeds of the Public Offering are intended to be generally applied toward consummating a Business Combination with a Target Business. As used herein, "Target Business" must be with one or more businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (less any deferred underwriting commissions and taxes payable on interest earned) at the time of the Company signing a definitive agreement in connection with the Business Combination. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company, after signing a definitive agreement for a Business Combination, will either (i) seek stockholder approval of the Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Business Combination, including interest but less taxes payable or amounts released to the Company for working capital expenses, or (ii) provide stockholders with the opportunity to have their shares redeemed by the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to commencement of the tender offer, including interest but less taxes payable or amounts released to the Company for working capital expenses. The decision as to whether the Company will seek stockholder approval of the Business Combination or will allow stockholders to redeem their shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval unless a vote is required by NASDAQ rules. If the Company seeks stockholder approval, it will complete its Business Combination only if a majority of the outstanding shares of common stock voted are voted in favor of the Business Combination. However, in no event will the Company redeem its Public Shares (as defined below) in an amount that would cause its net tangible assets to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its Public Shares and the related Business Combination, and instead may search for an alternate Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with a Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest but less taxes payable or amounts released to the Company for working capital expenses. As a result, such shares of common stock are recorded at redemption amount and classified as temporary equity upon the completion of the Public Offering, in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 480, “Distinguishing Liabilities from Equity.”

The Company will only have 24 months from the closing date of the Public Offering to complete its initial Business Combination. If the Company does not complete a Business Combination within this period of time, it shall (i) cease all operations except for the purposes of winding up; (ii) as promptly as reasonably possible, but not more than ten business days thereafter, redeem the Public Shares for a per share pro rata portion of the Trust Account, including interest, but less taxes payable or amounts released to the Company for working capital expenses (less up to \$50,000 of such net interest to pay dissolution expenses) and (iii) as promptly as possible following such redemption, dissolve and liquidate the balance of the Company’s net assets to its remaining stockholders, as part of its plan of dissolution and liquidation. The initial stockholders have entered into letter agreements with the Company, pursuant to which they have waived their rights to participate in any redemption with respect to their initial shares; however, if the initial stockholders or any of the Company’s officers, directors or affiliates acquire shares of common stock in or after the Public Offering, they will be entitled to a pro rata share of the Trust Account upon the Company’s redemption or liquidation in the event the Company does not complete a Business Combination within the required time period.

In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be less than the initial public offering price per Unit in the Public

Offering.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the accounting and disclosure rules and regulations of the Securities and Exchange Commission (“SEC”).

F-8

Emerging Growth Company:

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when an accounting standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised accounting standard at the time private companies adopt the new or revised standard.

Net Loss Per Common Share:

Net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding during the period, plus to the extent dilutive the incremental number of shares of common stock to settle warrants, as calculated using the treasury stock method. At December 31, 2015, the Company had outstanding warrants to purchase 17,520,332 shares of common stock. These shares were excluded from the calculation of diluted loss per share of common stock because their inclusion would have been anti-dilutive. As a result, diluted loss per common share is the same as basic loss per common share for the period.

Concentration of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution which, at times, may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Financial Instruments:

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the financial statements.

Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Offering Costs:

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (SAB) Topic 5A—"Expenses of Offering". Offering costs of approximately \$12,568,000 consist of underwriters' discounts of approximately \$11,976,000 (including approximately \$7,185,000 of which payment is deferred) and approximately \$593,000 of professional, printing, filing, regulatory and other costs associated with the Public Offering were charged to additional paid in capital upon completion of the Public Offering in July and August 2015.

Income Taxes:

The Company follows the asset and liability method of accounting for income taxes under FASB ASC, 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. At December 31, 2015 the Company has a deferred tax asset of approximately \$90,000 related to net loss carryforwards (which begin to expire in 2035) and start-up costs. Management has determined that a full valuation allowance of the deferred tax asset is appropriate at this time.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of December 31, 2015. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties at December 31, 2015. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities.

Redeemable Common Stock

All of the 19,959,908 shares of common stock sold as part of the Units in the Public Offering contain a redemption feature which allows for the redemption of such common stock under the Company's liquidation or tender offer/stockholder approval provisions. In accordance with ASC 480, redemption provisions not solely within the control of the Company require the security to be classified outside of permanent equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of ASC 480. Although the Company does not specify a maximum redemption threshold, its amended and restated certificate of incorporation provides that in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets (stockholders' equity) to be less than \$5,000,001.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of the security to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid-in capital.

Accordingly, at December 31, 2015, 18,932,591 of the 19,959,908 Public Shares are classified outside of permanent equity at their redemption value. The redemption value is equal to the pro rata share of the aggregate amount then on deposit in the Trust Account, including interest but less taxes payable and amounts released for working capital (approximately \$10.00 per share at December 31, 2015).

Recent Accounting Pronouncements:

The Company complies with the reporting requirements of FASB ASU No. 2014-10, which eliminated certain financial reporting requirements of companies previously identified as "Development Stage Entities" (Topic 915). The amendments in this ASU simplify accounting guidance by removing all incremental financial reporting requirements for development stage entities. The amendments also reduce date maintenance and, for those entities subject to audit, audit costs by eliminating the requirements for development stage entities to present inception-to-date information in

the statements of income, cash flows, and stockholders' equity. Upon adoption, entities will no longer present or disclose any information required by Topic 915. For private entities and emerging growth companies under the JOBS Act, the amendments are effective for annual reporting periods beginning after December 15, 2015. The Company has elected early adoption and the methodologies prescribed by ASU 2014-10 in the accompanying financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern ("ASU 2014-15"). ASU 2014-15 provides guidance on management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. The amendments in ASU 2014-15 are effective for annual reporting periods ending after December 15, 2016 and for annual and interim periods thereafter. Early adoption is permitted. The Company has adopted the methodologies prescribed by ASU 2014-15, and does not anticipate that the adoption of ASU 2014-15 will have a material effect on its financial position or results of operations.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

Subsequent Events:

Management has evaluated subsequent events to determine if events or transactions occurring after the date of the financial statements were issued, require potential adjustment to or disclosure in the financial statements and has concluded that all such events that would require adjustment or disclosure have been recognized or disclosed.

NOTE 3 - PUBLIC OFFERING

In July and August 2015, the Company closed the Public Offering for the sale of 19,959,908 Units at a price of \$10.00 per unit (the “Units”) yielding gross proceeds of approximately \$199,599,000. The closings occurred on July 28, 2015 with respect to 17,500,000 Units and on August 4, 2015 with respect to 2,459,908 Units related to the partial exercise of the underwriters’ overallotment option. Each Unit consists of one share of the Company’s common stock, \$0.0001 par value (the “Public Shares”) and one redeemable common stock purchase warrant (the “Warrants”). Each Warrant entitles the holder to purchase one-half of one share of common stock at a price of \$5.75. No fractional shares will be issued upon exercise of the Warrants. If, upon exercise of the Warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number to determine the number of shares of common stock to be issued to the Warrant holder. Each Warrant will become exercisable on the later of 30 days after the completion of the Business Combination or 12 months from the closing of the Public Offering and will expire five years after the completion of the Business Combination or earlier upon redemption or liquidation. However, if the Company does not complete the Business Combination on or prior to the 24-month period allotted to complete the Business Combination, the Warrants will expire at the end of such period. The Company has agreed to use its best efforts, following the completion of the Business Combination, to file a new registration statement under the Securities Act to cover the shares of common stock issuable upon the exercise of the warrants. If the Company is unable to deliver registered shares of common stock to the holder upon exercise of Warrants issued as part of the 19,959,908 Units during the exercise period, there will be no net cash settlement of these Warrants and the Warrants will expire worthless, unless they are exercised on a cashless basis in the circumstances described in the warrant agreement. Once the Warrants become exercisable, the Company may redeem the outstanding Warrants in whole and not in part at a price of \$0.01 per Warrant upon a minimum of 30 days’ prior written notice of redemption, only in the event that the last sale price of the Company’s shares of common stock equals or exceeds \$24.00 per share for any 20 trading days within the 30-trading day period ending on the third trading day before the Company sends the notice of redemption to the Warrant holders.

The Company paid an underwriting discount of 2.4% of the gross offering proceeds of the Public Offering to the underwriters at the closing of the Public Offering (approximately \$4,790,000), with an additional fee (the “Deferred Discount”) of 3.6% of the gross offering proceeds payable upon the completion of the Business Combination (approximately \$7,185,000). The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes the Business Combination.

In addition, on July 28, 2015 and August 4, 2015, the Sponsor paid the Company approximately \$7,540,000 in a private placement for the purchase of 15,080,756 warrants at a price of \$0.50 per warrant (the “Private Placement Warrants”) - see also Note 4.

Because the underwriters’ exercised less than the full overallotment option, the Sponsor was required to, and did, forfeit 41,273 of its shares on August 4, 2015 - see also Note 4.

NOTE 4 - RELATED PARTY TRANSACTIONS

Founder Shares:

In April 2015, the Sponsor purchased 5,031,250 shares of common stock (the “Founder Shares”) for \$25,000, or approximately \$0.005 per share. In May 2015, the Sponsor transferred 435,000 shares to the Company’s officers and director nominees. The Founder Shares are identical to the common stock included in the Units sold in the Public Offering except that the Founder Shares are subject to certain transfer restrictions, as described in more detail below. The Sponsor agreed to forfeit up to 656,250 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters. The forfeiture was to occur if the over-allotment option was not exercised in full by the underwriters so that the initial stockholders will own 20.0% of the Company’s issued and outstanding shares after the Public Offering. On August 4, 2015, the Sponsor forfeited 41,273 of its Founder Shares.

The Company's initial stockholders have agreed not to transfer, assign or sell any of their Founder Shares until the earlier of (A) one year after the completion of the Company's initial Business Combination, or earlier if, subsequent to the Company's initial Business Combination, the last sale price of the Company's common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Company's initial Business Combination or (B) the date on which the Company completes a liquidation, merger, stock exchange or other similar transaction after the initial Business Combination that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property (the "Lock Up Period").

Private Placement Warrants:

Upon the closing of the Public Offering on July 28, 2015 and August 4, 2015, the Sponsor paid the Company approximately \$7,540,000 in a private placement for the purchase of the Private Placement Warrants. Each Private Placement Warrant entitles the holder to purchase one-half of one share of common stock at \$5.75 per share. The purchase price of the Private Placement Warrants was added to the proceeds from the Public Offering held in the Trust Account pending completion of the Company's initial Business Combination. The Private Placement Warrants (including the common stock issuable upon exercise of the Private Placement Warrants) are not transferable, assignable or salable until 30 days after the completion of the initial Business Combination and they are non-redeemable so long as they are held by the Sponsor or its permitted transferees. If the Private Placement Warrants are held by someone other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the warrants included in the Units sold in the Public Offering. Otherwise, the Private Placement Warrants have terms and provisions that are identical to those of the Warrants sold as part of the Units in the Public Offering and have no net cash settlement provisions.

If the Company does not complete a Business Combination, then the proceeds from the Private Placement Warrants will be part of the liquidating distribution to the public stockholders and the Private Placement Warrants will expire worthless.

Registration Rights:

The Company's initial stockholders and holders of the Private Placement Warrants are entitled to registration rights pursuant to a registration rights agreement entered into in connection with the Public Offering. The Company's initial stockholders and holders of the Private Placement Warrants will be entitled to make up to three demands, excluding short form registration demands, that the Company register such securities for sale under the Securities Act. In addition, these holders will have "piggy-back" registration rights to include their securities in other registration statements filed by the Company. The Company will bear the expenses incurred in connection with the filing of any such registration statements. There are no penalties associated with delays in registering the securities under the registration rights agreement.

Related Party Loans:

As of May 5, 2015, as subsequently amended on July 10, 2015, the Sponsor agreed to loan the Company an aggregate of approximately \$238,000 against the issuance of an unsecured promissory note (the “Note”) to cover expenses related to the Public Offering. Between May and July 2015, the Company borrowed approximately \$238,000 under this Note. These loans were non-interest bearing and were paid in full upon the closing of the Public Offering on July 28, 2015.

Administrative Services Agreement:

The Company agreed to pay \$10,000 a month for office space, utilities and secretarial support to an affiliate of the Sponsor, Hennessy Capital LLC. Services commenced on the date the securities were first listed on the NASDAQ Capital Market and will terminate upon the earlier of the consummation by the Company of an initial Business Combination or the liquidation of the Company.

The Company pays its Chief Financial Officer \$11,650 per month during the first twelve months after the Public Offering and \$8,300 per month thereafter and \$150,000 in cash upon the successful completion of the Company’s initial Business Combination for his services.

NOTE 5 - TRUST ACCOUNT AND FAIR VALUE MEASUREMENT

The Company complies with FASB ASC 820, Fair Value Measurements, for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

Upon the closing of the Public Offering and the private placement, a total of \$199,599,000 was deposited into the Trust Account. All proceeds in the Trust Account may be invested in either U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended, and that invest solely in U.S. Treasuries. In November 2015, \$150,000 was withdrawn from the Trust for working capital.

At December 31, 2015, the proceeds of the Trust Account were invested in U.S. treasury bills yielding interest of approximately 0.2%. The Company classifies its United States Treasury and equivalent securities as held-to-maturity in accordance with FASB ASC 320 “Investments – Debt and Equity Securities”. Held-to-maturity securities are those securities which the Company has the ability and intent to hold until maturity. Held-to-maturity treasury securities are recorded at amortized cost on the accompanying December 31, 2015 balance sheet and adjusted for the amortization or accretion of premiums or discounts.

The following table presents information about the Company’s assets that are measured at fair value on a recurring basis as of December 31, 2015 and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In addition, the table presents the carrying value under ASC 320, excluding accrued interest income and gross unrealized holding gains. Since all of the Company’s permitted investments consist of U.S. government treasury bills, fair values of its investments are determined by Level 1 inputs utilizing quoted prices (unadjusted) in active markets for identical assets or liabilities as follows:

Description	Carrying value at December 31, 2015	Gross Unrealized Holding Gains	Quoted Price Prices in Active Markets (Level 1)
Assets:			
U.S. Government Treasury Bills	\$ 199,654,000	\$ 20,000	\$ 199,674,000

NOTE 6 - STOCKHOLDERS’ EQUITY

Common Stock:

On July 22, 2015, the Company amended and restated its certificate of incorporation to increase the number of its authorized shares of common stock from 29,000,000 shares to 45,000,000 shares. The Company will likely (depending on the terms of the Business Combination) be required to increase the number of shares of common stock which it is authorized to issue in connection with its stockholders vote on the Business Combination to the extent the Company seeks stockholder approval in connection with its Business Combination. Holders of the Company's common stock are entitled to one vote for each share of common stock they own. In July and August, 2015, a total of 19,959,908 shares of common stock were issued as part of the Units in the Public Offering (including Units issued in connection with the partial exercise of the underwriters' overallotment option) and in August 2015 41,273 Founder Shares were forfeited resulting in 24,949,885 shares of common stock issued and outstanding, including 18,932,591 shares subject to redemption at December 31, 2015.

Preferred Stock:

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Board of Directors. At December 31, 2015, there were no shares of preferred stock issued and outstanding.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
