**Petrobras submits declarations of commerciality for the Aruanã and Oliva accumulations, in the post-salt of Campos Basin**

Rio de Janeiro, January 3<sup>rd</sup>, 2013 – Petróleo Brasileiro S.A – On December 28 Petrobras submitted the Declarations of Commerciality to Brazil's National Petroleum, Natural Gas and Biofuels Agency (ANP) for the oil and gas accumulations of the Aruanã and Oliva areas, located in concession BM-C-36, block C-M-401, in the post-salt of Campos Basin.

In the proposal sent to the ANP, Petrobras suggests that the Aruanã accumulation be named Tartaruga Verde field and the Oliva accumulation Tartaruga Mestiça.

The estimated total recoverable volumes for these new fields are indicated in the table below:

| <b>Field</b>      | <b>Volume Estimate</b><br>Million Barrels of Oil Equivalent (MM Boe) |
|-------------------|--|
| Tartaruga Verde   | 230  |
| Tartaruga Mestiça | 121  |

The Tartaruga Verde accumulation is 127 km from the city of Macaé, off the coast of Rio de Janeiro state. It is located at a water depth of 976 meters, at a depth of 2993 meters, with an oil/water contact (OWC) verified at -3123 meters.

The Tartaruga Mestiça accumulation is approximately .5 km northeast of Tartaruga Verde, at a water depth of 934 meters, at a depth of 2,870 meters, with an oil/water contact (OWC) verified at 3,064 meters.

Both accumulations contain good quality oil (27<sup>º</sup> API) and are located in Albian-age carbonate reservoirs.

Petrobras also sent to the ANP the final report of the Discovery Assessment Plan - PAD (1-BRSA-713-RJS – discovery well), initiated in 2010, whose exploratory program resulted in the delimitation of these two accumulations.

During the PAD period five wells were drilled, three of which were in the Tartaruga Verde area and two in the Tartaruga Mestiça area. In addition to this exploratory effort, four cased-hole drill-stem tests (DST) and two extended well tests (EWT) were carried out. The results of these EWTs indicated excellent productivity and revealed information on the characteristics of the reservoirs that will be essential for the optimization of the Development Plans (DP).

---

The Declarations of Commerciality of these new fields were made more than six months ahead of schedule, considering the June 30<sup>th</sup>, 2013 deadline of the Assessment Plan. This makes it possible to start the definitive production of these areas by 2017, as considered in the 2012-2016 Business and Management Plan. Petrobras has a stake of 100% in these fields.

## SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
