INDEPENDENT AUDITORS' REVIEW REPORT

To the Management and Shareholders of

Tele Sudeste Celular Participações S.A.

Rio de Janeiro - RJ

1. We have performed a special review of the Quarterly Information of Tele Sudeste Celular Participações S.A. and subsidiaries referring to the quarter and nine-month period ended September 30 , 2005, prepared under the responsibility of management and according to Brazilian accounting practices, consisting of the balance sheets, individual and consolidated, the related statements of income and the performance report .

2. We conducted our review in accordance with the specific standards established by Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, and consisted principally of: (a) inquiries of and discussions with the persons responsible for the accounting, financial and operating areas of the Company and its subsidiaries as to the criteria adopted in preparing the Quarterly Information; and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries .

3. Based on our special review, we are not aware of any material modifications that should be made to the above-mentioned Quarterly Information for it to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission, specifically applicable to the preparation of the mandatory

Tele Sudeste Celular Participações S.A.

Quarterly Information .

4. We had previously reviewed the individual and consolidated balance sheets as of June 30 , 2005 and the individual and consolidated statements of income for the quarter and nine-month period ended September 30, 2004, presented for comparative purposes , on which we issued unqualified special review reports, dated July 22, 2005 and October 26, 2004, respectively.

TELE SUDESTE CELULAR PARTICIPAÇÕES S.A.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2005

(In thousands of Brazilian reais - R\$, unless otherwise indicated)

1 OPERATIONS

Tele Sudeste Celular Participações S.A. ("Tele Sudeste" or "Company") is a publicly-traded company which, as of September 30, 2005, is controlled by Brasilcel N.V. (50.47% of total capital), Sudestecel Participações S.A. (25.54% of total capital), Tagilo Participações Ltda. (10.90% of total capital) and Avista Participações Ltda. (4.11% of total capital). Sudestecel, Tagilo and Avista are wholly-owned subsidiaries of Brasilcel N.V.

Brasilcel N.V. is jointly controlled by Telefónica Móviles, S.A. (50.00% of total capital), PT Móveis, Serviços de Telecomunicações, SGPS, S.A. (49.999% of total capital) and Portugal Telecom, SGPS, S.A. (0.001% of total capital).

Tele Sudeste has a full controlling interest in the operators Telerj Celular S.A. ("Telerj") and Telest Celular S.A. ("Telest"), which provide mobile telephone services in the States of Rio de Janeiro and Espírito Santo, respectively, including activities necessary or useful to perform the services, in accordance with the licenses granted to them.

The licenses granted to Telerj and Telest are valid until November 30, 2005 and November 30, 2008, respectively, and are renewable, once only, for a 15-year term, by means of the payment of charges equivalent to approximately 1% of the annual billing of the operators.

The business of the subsidiaries, including the services they may provide, are regulated by the National Telecommunications Agency (Agência Nacional de Telecomunicações - ANATEL), the telecommunications regulatory agency, in accordance with Law No. 9,472, of July 16, 1997, and complementary regulations, decrees, rulings and plans.

Edgar Filing: TELE SUDESTE CELULAR PARTICIPACOES SA - Form 6-K

On July 29, 2005, the Company's Board of Directors approved the corporate restructuring of Telest Celular S.A. by a merger with Telerj Celular S.A. The proposed restructuring was submitted to ANATEL on September 6, 2005.

The objective of this operation was to obtain financial and operational benefits, among others, with a reduction in administrative costs and publications, as well as rationalization of accounting procedures .

2 PRESENTATION OF THE FINANCIAL STATEMENTS

The individual (Company) and consolidated quarterly information ("ITR") is presented in thousands of Brazilian reais (except where otherwise mentioned) and was prepared in accordance with Brazilian accounting practices, which include the accounting practices derived from Brazilian corporate law, regulations applicable to the public telecommunications service concessionaires and accounting regulations and procedures established by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM).

The consolidated ITR includes, in addition to the Company's balances and transactions, the balances and transactions of the subsidiaries Telerj and Telest. In the consolidation, all the balances and transactions between the Companies were eliminated.

These ITR were prepared in accordance with principles, practices and criteria consistent with those adopted in preparing the financial statements of the last fiscal year and should be analyzed together with those statements.

The financial statements referring to June 30, 2005 and September 30, 2004 were reclassified, where applicable, for comparison purposes.

Noncurrent	396	396	165,663	156,729
------------	-----	-----	---------	---------

Deferred taxes have been recorded based on the assumption of their future realization, as follows:

- a) Tax loss carryforwards : will be offset up to a limit of 30% of taxable income in subsequent years.
- b) Merged tax credit : consists of the net balance of goodwill and reserve for maintaining the integrity of shareholders' equity (see Note 26) and is realized proportionally to the amortization of the goodwill of the subsidiaries, with terms of five years. Studies by external consultants used in the corporate restructuring process supported recovery of the amount within this term.
- c) Temporary differences : will be realized upon the payments of the accruals, effective losses on bad debts and realization of inventories.

At the end of the 2004 fiscal year, the Company prepared technical feasibility studies, approved by the Board of Directors, which indicate full recovery of the deferred taxes recognized, as determined by CVM Resolution No. 371. Management did not identify any change that could affect the conclusion of these studies as of September 30, 2005.

(a) The subsidiaries have fidelity programs, in which calls are transformed into points for future exchange for handsets. The accumulated points, net of redemptions, are provisioned, considering historic redemption data, points generated and the average cost of a point.

(b) Refers to the credit made available to shareholders who are beneficiaries of the excess shares resulting from the reverse split of the Company's share capital (Note 16).

15 RESERVE FOR CONTINGENCIES

The subsidiaries are parties to certain lawsuits involving labor, tax and civil matters, and recorded reserves in relation to the claims in which an unsuccessful outcome was classified as probable.

The composition of the reserves is as follows:

	Consolidated	
	09.30.05	06.30.05
Labor	8,775	12,000
Civil	38,040	30,370
Tax	49,589	49,442
Total	96,404	91,812
Current	72,296	67,118
Noncurrent	24,108	24,694

The changes in the reserve for contingencies in the nine-month period ended September 30, 2005 are as follows:

	Consolidated
Balance at the beginning of the year	83,620
New provisions, net of reversals	24,179
Monetary variation	3,862

Payments	(15,257)
Balance as of September 30	96,404
15.1. Tax litigation	

15.1.1. Probable loss

No significant new tax claims with a "probable" loss classification were filed in the nine-month period ended September 30, 2005. The evolution of the reserves for tax contingencies corresponds to the monetary changes in the claims since the last financial year.

15.1.2. Possible loss

No significant new tax claims with a "possible" loss classification were filed in the nine-month period ended September 30, 2005. No significant alterations occurred in the claims indicated in this report since the last financial year.

15.2. Labor and civil suits

Include several labor and civil claims. A reserve was posted as previously shown, which is considered to be sufficient to cover the probable losses on these cases.

The amount involved in relation to claims in which a "possible" loss is classified is R\$58,287 for civil claims and R\$10,482 for labor claims.

16 SHAREHOLDERS' EQUITY

a) Capital

An Extraordinary Shareholders' Meeting held on March 29, 2005 approved a reverse split of the 449,009,994,135 nominative book-entry shares, without par value, comprising 189,434,957,933 common shares and 259,575,036,202 preferred shares, representing capital, in the proportion of 5,000 (five thousand) shares to 1 (one) share of the same class. Capital now comprises 89,801,999 nominative book-entry shares, without par value, of which 37,886,992 are common shares and 51,915,007 are preferred shares.

On July 29, 2005, the Company advised the shareholders of a capital increase of R\$36,485, corresponding to the tax benefit from the merged goodwill, effectively realized during the 2004 fiscal year. The capital increased from R\$891,460 to R\$927,945, with the issue of 2,029,225 new common shares, guaranteeing the right of preference as established in article 171 of Law No. 6,404/76, and establishing that funds arising from possible future exercise of the right of preference should be credited to the companies Sudestecel Participações S.A. and Tagilo Participações Ltda.

The capital as of September 30 and June 30, 2005 comprises shares without par value, as follows:

	Thousands of shares	
	09.30.05	06.30.05
Common shares	39,916	37,887

Preferred shares	51,915	51,915
Total	91,831	89,802

b) Interest on capital and dividends

The preferred shares do not have voting rights, except in the cases stipulated in the bylaws. They are, however, assured priority in the reimbursement of capital, without premium, and the right to participate in a dividend 10% higher than that attributed to each common share.

The dividends are calculated in accordance with the Company's bylaws and corporate law, which establishes a minimum dividend of 25% of income for the financial year.

c) Special goodwill reserve

This reserve represents the formation of a special goodwill reserve as a result of the Company's corporate restructuring, which is being capitalized in favor of the controlling shareholder at the time of effective realization of the tax benefit (Note 26).

d) Revenue reserve

d.1) Statutory reserve

The statutory reserve is calculated based on 5% of net annual income until the reserve reaches 20% of capital or 30% of capital plus capital reserves; from then on, appropriations to this reserve are no longer compulsory. The purpose of this reserve is to ensure the integrity of capital and it may only be used to set off losses or to increase capital.

d.2) Other revenue reserves

The special reserve for expansion and modernization is based on the capital expenditure budget prepared by management, which demonstrates the need for funds for investment projects for the coming financial years.

24 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONSOLIDATED)

a) Risk considerations

The major market risks to which Telerj and Telest are exposed in conducting their businesses are:

Credit risk : derived from the possible difficulty in collecting amounts of telecommunications services provided to customers, and the sales of handsets by the distribution network, together with the risks related with investments and swap operations.

Interest rate risk : derived from the portion of the debt and liability positions in derivatives contracted at floating rates, and involves the risk of financial expenses rising due to an unfavorable movement in interest rates (principally Libor and CDI).

Currency risk : the possibility of the Company incurring losses on account of fluctuations in interest rates that increase the balances of foreign currency denominated loan and financing liabilities.

The Company and its subsidiaries take a positive attitude towards the management of the various risks to which they are subject, by means of a wide-ranging set of operational initiatives, procedures and policies that enable the risks inherent in their businesses to be mitigated.

Credit risk

The credit risk from providing telecommunications services is minimized by a strict control of the customer base and active management of default by means of clear policies related with selling postpaid sets. As of September 30, 2005, the subsidiaries had 69.4% (70.3% as of June 30, 2005) of their customer base under the prepaid system, which requires prepaid loading, and, therefore, does not represent any credit risk.

The credit risk on the sale of handsets is managed by means of a conservative credit policy, using modern management methods that involve applying credit scoring techniques, balance sheet analysis and consulting commercial databases, together with the automatic control of sales release integrated with the SAP ERP software distribution module.

The Company and its subsidiaries are also subject to credit risk derived from the temporary investment and amounts receivable from swap operations. The Company and its subsidiaries operate in such a way as to diversify this exposure over first rate financial institutions.

Interest rate risk

Telerj and Telest are exposed to the risk of local interest rate fluctuations, due to the fact that the liability portion of operations with derivatives (exchange hedge) is indexed to the CDI. However, the balance of temporary investments, also indexed to the CDI, neutralizes this effect.

Foreign currency-denominated loans are also exposed to the risk of a rise in the floating exchange rates (Libor). As of September 30, 2005, the principal of these operations amounted to R\$8,390 (R\$8,874 as of June 30, 2005).

Currency risk

Telerj and Telest use derivative instruments as protection against currency risk on foreign currency-denominated loans. The instruments normally used are swap contracts.

The following table summarizes the net exposure of the Company and its subsidiaries to the exchange rate factor as of September 30, 2005:

	In thousands of	
	US\$	Euros
Loans and financing	(7,040)	-
Other liabilities	(21,346)	(922)
Derivative contracts	27,386	714
Total	(1,000)	(208)

b) Derivative contracts

The subsidiaries record derivative gains and losses as a component of financial expenses or income.

The estimated book and market values of loans and financing and derivative instruments are as follows:

	Book value	Market value	Unrealized gain (loss)
Loans and financing	(15,645)	(15,696)	(51)
Derivative contracts	(10,677)	(10,647)	30
Other liabilities	(49,902)	(49,902)	-
Total	(76,224)	(76,245)	(21)

c) Market value of financial instruments

The market value of the loans and financing, together with the swap contracts, was established based on the discounted cash flow method, using available interest rates projections.

The market values are calculated at a specific time based on information available and in-house valuation methodologies, and, therefore, the estimates indicated do not necessarily represent market realization values. The use of different assumptions could significantly affect the estimates.

25 POST-RETIREMENT BENEFIT PLANS

The subsidiaries, together with other companies of the former Telebrás system, sponsor private pension and healthcare plans for retired employees, managed by Fundação Sistel de Seguridade Social - SISTEL, as follows:

a) PBS-A: defined-benefit multi-sponsor plan for participants that were previously assisted and had such status on January 31, 2000.

b) PBS-Tele Sudeste Celular: a defined-benefit plan that serves approximately 1% of the Company's employees.

c) PAMA: a multi-sponsor healthcare plan for retired employees and their dependents, on a shared cost basis.

The contributions to the PBS-Tele Sudeste Celular Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the regulations in effect in Brazil . Cost is determined using the capitalization method and the contribution due by the sponsor is equivalent to 13.5% of the payroll of the employees participating in the Plan, of which 12% is allocated to funding the PBS-Tele Sudeste Celular Plan and 1.5% to the PAMA Plan.

d) Visão Celular Benefits Plan: a individual defined contribution plan - the Visão Celular Benefit Plan was introduced by SISTEL in August 2000.

The subsidiaries' contributions to the Visão Celular Plan are equal to those of the participants, varying between 2% and 9% of the participation salary, according to the percentage selected by the participant.

In the nine-month period ended September 30, 2005, the subsidiaries made contributions to the PBS-Tele Sudeste Celular Plan and the Visão Celular Plan amounting to R\$2,371 (R\$2,554 as of September 30, 2004).

Up to September 30, 2005, the subsidiaries recognized proportionally the estimated actuarial cost for the year 2005, recording R\$414 in relation to these costs, in the other operating expenses account.

26 CORPORATE RESTRUCTURING

On November 30, 2000, the corporate restructuring plan was concluded, in which the goodwill paid in the privatization process of the Company was transferred to the subsidiaries.

The financial statements, maintained for the corporate and tax purposes of the Company and its subsidiaries, record specific accounts related to the goodwill, the reserve merged and the respective amortization, reversal and tax credit, the balances of which as of September 30 and June 30, 2005 are as follows:

	Balances on the date of merger	Consolidated	
		09.30.05	06.30.05
Balance sheet:			
Merged goodwill	1,393,279	7,500	77,164
Merged reserve	(928,437)	(4,950)	(50,928)
Balance	464,842	2,550	26,236
		09.30.05	09.30.04
Statement of income:			
Amortization of goodwill		208,992	208,992
Reversal of reserve		(137,935)	(137,935)
Tax credit		(71,057)	(71,057)
Effect on the result		-	-

As shown, the goodwill amortization, net of the reversal of the reserve and corresponding tax credit, has nil effect on income and, consequently, on the calculation base of the statutory minimum compulsory dividend. To ensure a better presentation of the Company's financial and equity situation in the financial statements, the net amount of R\$2,550, as of September 30, 2005 (R\$26,236 as of June 30, 2005), which essentially represents the merged tax credit, was classified in the balance sheet under current assets as deferred taxes (see Note 6).

The merged tax credit is capitalized as and when it is effectively realized. In the nine-month period ended September 30, 2005, the subsidiaries realized R\$41,079 of the tax benefit on account of the restructuring. The subsidiaries did not realize the entire tax benefit and recorded R\$94,592 and R\$34,169 as tax credit carryforwards on tax loss and negative social contribution base, respectively.

27 TRANSACTIONS WITH RELATED PARTIES
