**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On December 8, 2004, GGB France E.U.R.L., a wholly-owned subsidiary of EnPro Industries, Inc., announced a restructuring plan for its facility in Annecy, France. The restructuring plan involves the transfer of certain manufacturing equipment to a new GGB facility in Slovakia in 2005 and the early retirement of approximately 40 employees at Annecy. The restructuring plan will allow the Annecy operation to focus on high volume, low labor products and products that require a high level of technology.

The total cost of the restructuring plan is estimated to be between \$3 million and \$4 million, and is primarily related to employee termination benefits. The company previously estimated that it would spend approximately \$9 million - \$10 million on restructuring activities to be announced this year. These termination benefits were included in that estimate.

The individuals affected by the restructuring plan will depart during 2005 and 2006. The cash expenditures described above will be incurred between 2005 and 2008.
