PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

1. Description of the Business

Public Storage (referred to herein as “the Company”, “we”, “us”, or “our”), a Maryland real estate investment trust, was organized in 1980. Our principal business activities include the acquisition, development, ownership and operation of self-storage facilities which offer storage spaces for lease, generally on a month-to-month basis, for personal and business use.

At March 31, 2012, we had direct and indirect equity interests in 2,064 self-storage facilities (with approximately 131 million net rentable square feet) located in 38 states in the U.S. operating under the “Public Storage” name. In Europe, we own one facility in London, England and we have a 49% interest in Shurgard Europe, which owns 188 self-storage facilities (with approximately 10.1 million net rentable square feet) located in seven Western European countries, all operating under the “Shurgard” name. We also have direct and indirect equity interests in approximately 28.9 million net rentable square feet of commercial space located in 11 states in the U.S. primarily owned and operated by PS Business Parks, Inc. (“PSB”) under the “PS Business Parks” name. At March 31, 2012, we have a 42% interest in PSB.

Any reference to the number of properties, square footage, number of tenant reinsurance policies outstanding and the aggregate coverage of such reinsurance policies are unaudited and outside the scope of our independent registered public accounting firm’s audit of our financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States).

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) as defined in the Financial Accounting Standards Board Accounting Standards Codification (the “Codification”), including the related guidance with respect to interim financial information, and in conformity with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. We believe that all adjustments (consisting of normal and recurring adjustments) necessary for a fair presentation have been reflected in these unaudited interim financial statements. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012 due to seasonality and other factors. The accompanying unaudited interim financial statements should be read together with the audited financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011.

Certain amounts previously reported in our December 31, 2011 and March 31, 2011 financial statements have been reclassified to conform to the March 31, 2012 presentation, as a result of discontinued operations.

Consolidation and Equity Method of Accounting

The Codification stipulates generally that entities with insufficient equity to finance their activities without additional subordinated financial support provided by other parties, or where the equity holders as a group do not have a controlling financial interest, are considered Variable Interest Entities (“VIE”). We have determined that we have no investments in any VIEs.

We consolidate all entities that we control (these entities, for the period in which the reference applies, are referred to collectively as the “Subsidiaries”), and we eliminate intercompany transactions and balances. We account for our investment in entities that we do not control, but we have significant influence over, using the equity method of accounting (these entities, for the periods in which the reference applies, are referred to collectively as the “Unconsolidated Real Estate Entities”). When we obtain control of entities in which we already own a partial equity interest, we record a gain representing the differential between the book value and fair value of our preexisting partial equity interest. We then commence consolidating the assets, liabilities, and any noncontrolling interests of the entity. All such changes in consolidation status are reflected prospectively.

PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

When we are the general partner of a partnership, we believe we control the partnership, unless the third-party limited partners can dissolve the partnership or otherwise remove us as general partner without cause, or if the limited partners have the right to participate in substantive decisions of the partnership.

Collectively, at March 31, 2012, the Company and the Subsidiaries own 2,047 self-storage facilities in the U.S., one self-storage facility in London, England and six commercial facilities in the U.S. At March 31, 2012, the Unconsolidated Real Estate Entities are comprised of PSB, Shurgard Europe, as well as two limited partnerships (these two limited partnerships, for the periods in which the reference applies, are referred to collectively as the "Other Investments"). At March 31, 2012, the Other Investments own in aggregate 17 self-storage facilities with 1.0 million net rentable square feet in the U.S.

Use of Estimates

The financial statements and accompanying notes reflect our estimates and assumptions. Actual results could differ from those estimates.

Income Taxes

We have elected to be treated as a real estate investment trust ("REIT"), as defined in the Internal Revenue Code. As a REIT, we do not incur federal income tax if we distribute 100% of our REIT taxable income (generally, net rents and gains from real property, dividends, and interest) each year, and if we meet certain organizational and operational rules. We believe we will meet these REIT requirements in 2012, and that we have met them for all other periods presented herein. Accordingly, we have recorded no federal income tax expense related to our REIT taxable income.

Our merchandise and tenant reinsurance operations are subject to corporate income tax, and such taxes are included in ancillary cost of operations. We also incur income and other taxes in certain states, which are included in general and administrative expense.

We recognize tax benefits of income tax positions that are subject to audit only if we believe it is more likely than not that the position would be sustained (including the impact of appeals, as applicable), assuming the relevant taxing authorities had full knowledge of the relevant facts and circumstances of our positions. As of March 31, 2012, we had no tax benefits that were not recognized.

Real Estate Facilities

Real estate facilities are recorded at cost. Costs associated with the development, construction, renovation and improvement of properties, including interest and property taxes incurred during the construction period, are capitalized. Internal and external transaction costs associated with acquisitions or dispositions of real estate and equity interests in real estate are expensed as incurred. Expenditures for repairs and maintenance are expensed as incurred. Buildings and improvements are depreciated on a straight-line basis over estimated useful lives ranging generally between 5 to 25 years.

PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

Acquisitions of interests in operating self-storage facilities, including the acquisition of a controlling interest in facilities we have a partial interest in, are accounted for under the provisions of Codification Section 805, "Business Combinations." The net acquisition cost, consisting of cash paid to third parties for their interests, the fair value of our existing investment, the fair value of any liabilities assumed, and the fair value of remaining noncontrolling interests, is allocated to the underlying land, buildings, and identified intangible assets based upon the relative individual estimated fair values. Any difference between the net acquisition cost and the fair value of the net tangible and intangible assets acquired is recorded as goodwill.

Other Assets

Other assets primarily consist of prepaid expenses, accounts receivable, and restricted cash.

Accrued and Other Liabilities

Accrued and other liabilities consist primarily of trade payables, property tax accruals, tenant prepayments of rents, accrued interest payable, accrued payroll, accrued tenant reinsurance losses, casualty losses, and contingent loss accruals which are accrued when probable and estimable. When it is reasonably possible that a significant unaccrued contingent loss has occurred, we disclose the nature of the potential loss and, if estimable, a range of exposure.

Cash Equivalents and Marketable Securities

We classify as cash equivalents all highly liquid financial instruments such as money market funds with daily liquidity and a rating of at least AAA by Standard and Poor's, or investment grade (rated A1 by Standard and Poor's) short-term commercial paper or treasury securities with remaining maturities of three months or less at the date of acquisition. Cash and cash equivalents which are restricted from general corporate use are included in other assets.

Commercial paper with a remaining maturity of more than three months when acquired is included in marketable securities. When at acquisition we have the positive intent and ability to hold these securities to maturity (investments that are "Held to Maturity"), the securities are stated at amortized cost and interest is recorded using the effective interest method.

Fair Value Accounting

As used herein, the term "fair value" is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. We prioritize the inputs used in measuring fair value based upon a three-tier fair value hierarchy described in Codification Section 820-10-35.

We believe that, during all periods presented, the carrying values approximate the fair values of our cash and cash equivalents, marketable securities, other assets, and accrued and other liabilities, based upon our evaluation of the underlying characteristics, market data, and short maturity of these financial instruments, which involved considerable judgment. The estimated fair values are not necessarily indicative of the amounts that could be realized in current market exchanges. The characteristics of these financial instruments, market data, and other comparative metrics utilized in determining these fair values are "Level 2" inputs as the term is defined in Codification Section 820-10-35-47.

Significant judgment is used to estimate fair values in recording our business combinations, in evaluating real estate, goodwill, and other intangible assets for impairment, and determining fair values of our notes payable and noncontrolling interests in subsidiaries. In estimating fair values, we consider significant unobservable inputs such as market prices of land, capitalization rates for real estate facilities, earnings multiples, projected levels of earnings, costs of construction, functional depreciation, and estimated market interest rates for debt securities with a similar time to maturity and credit quality, which are “Level 3” inputs as the term is defined in Codification Section 820-10-35-52.

PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

Currency and Credit Risk

Financial assets that are exposed to credit risk consist primarily of cash and cash equivalents, accounts receivable, loans receivable, and restricted cash. At March 31, 2012, due primarily to our investment in and loan receivable from Shurgard Europe, our operations and financial position are affected by fluctuations in currency exchange rates between the Euro, and to a lesser extent, other European currencies, against the U.S. Dollar.

Goodwill and Other Intangible Assets

Intangible assets are comprised of goodwill, acquired tenants in place, leasehold interests in land, and the “Shurgard” tradename.

Goodwill totaled \$174.6 million at March 31, 2012 and December 31, 2011. Goodwill has an indeterminate life and is not amortized.

Acquired tenants in place and leasehold interests in land are finite-lived and are amortized relative to the benefit of the tenants in place or the land lease expense to each period. At March 31, 2012, these intangibles have a net book value of \$17.8 million (\$16.4 million at December 31, 2011). Accumulated amortization totaled \$24.1 million at March 31, 2012 and December 31, 2011, and amortization expense of \$2.0 million and \$3.5 million was recorded for the three months ended March 31, 2012 and 2011, respectively. During the three months ended March 31, 2012, these intangibles were increased by \$3.4 million in connection with the acquisition of self-storage facilities (Note 3).

The “Shurgard” tradename, which is used by Shurgard Europe pursuant to a licensing agreement, has a book value of \$18.8 million at March 31, 2012 and December 31, 2011. This asset has an indefinite life and, accordingly, is not amortized.

Evaluation of Asset Impairment

Goodwill impairment is evaluated annually by reporting unit. No impairment of goodwill or the Shurgard trade name was identified in our annual evaluation at December 31, 2011, nor were there any indicators of impairment at March 31, 2012. We evaluate our real estate and property related intangibles for impairment on a quarterly basis. If any indicators of impairment are noted, we estimate future undiscounted cash flows to be received from the use of the asset and, if such future undiscounted cash flows are less than carrying value, an impairment charge is recorded for the excess of carrying value over the assets’ estimated fair value. Long-lived assets which we expect to sell or otherwise dispose of prior to the end of their estimated useful lives are stated at the lower of their net realizable value (estimated fair value less cost to sell) or their carrying value.

Impairment charges with respect to continuing operations are included under “asset impairment charges” on our statements of income, and any such charges with respect to discontinued operations are included under “discontinued operations” on our statements of income.

Revenue and Expense Recognition

Rental income, which is generally earned pursuant to month-to-month leases for storage space, as well as late charges and administrative fees, are recognized as earned. Promotional discounts reduce rental income over the promotional period. Ancillary revenues and interest and other income are recognized when earned. Equity in earnings of unconsolidated real estate entities is recognized based on our ownership interest in the earnings of each of the Unconsolidated Real Estate Entities.

We accrue for property tax expense based upon actual amounts billed and, in some circumstances, estimates and historical trends when bills or assessments have not been received from the taxing authorities or such bills and assessments are in dispute. If these estimates are incorrect, the timing and amount of expense recognition could be incorrect. Cost of operations, general and administrative expense, interest expense, as well as television, yellow page, and other advertising expenditures are expensed as incurred.

Foreign Currency Exchange Translation

The local currency is the functional currency for the foreign operations in which we have an interest. Assets and liabilities related to foreign operations are translated from the functional currency into U.S. Dollars at the exchange rates at the respective financial statement date, while revenues, expenses, and equity in earnings are translated at the average exchange rates during the respective period. The Euro, which is the functional currency of a majority of the foreign operations we have an interest in, was translated at exchange rates of approximately 1.334 U.S. Dollars per Euro at March 31, 2012 (1.295 at December 31, 2011), and average exchange rates of 1.310 and 1.366 for the three months ended March 31, 2012 and 2011, respectively. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in equity as a component of accumulated other comprehensive income (loss).

Comprehensive Income (Loss)

Total comprehensive income for a period represents net income, adjusted for changes in other comprehensive income (loss) for the applicable period, as set forth on our statements of comprehensive income. The foreign currency exchange gains and losses reflected on our statements of income are comprised primarily of foreign currency exchange gains and losses on the Euro-denominated loan to Shurgard Europe.

Discontinued Operations

The net income of real estate facilities or other businesses that have been sold or otherwise disposed of, or that we expect to sell or dispose of within the next year based upon a committed plan of disposal, are reclassified and presented on our income statement for all periods as “discontinued operations.” Discontinued operations for the three months ended March 31, 2011 are comprised primarily of a loss on disposition of real estate.

(Unaudited)

Net Income per Common Share

Net income is first allocated to each of our noncontrolling interests based upon their respective share of the net income of the Subsidiaries, and to our cumulative preferred shares based upon the dividends declared (or accumulated).

When our cumulative preferred shares are called for redemption, additional income is allocated to (from) the redeemed security to the extent the redemption cost is greater (less) than the related original net issuance proceeds. Such redemption-related allocations are referred to hereinafter as "EITF D-42 allocations". The remaining net income is allocated to our common shares and our restricted share units based upon the dividends declared (or accumulated), combined with participation rights in undistributed earnings.

Net income allocated to our common shares from continuing operations is computed by eliminating the net income or loss from discontinued operations allocable to our common shares, from net income allocated to our common shares.

Basic net income per share, basic net income (loss) from discontinued operations per share, and basic net income from continuing operations per share are computed using the weighted average common shares outstanding. Diluted net income per share, diluted net income (loss) from discontinued operations per share, and diluted net income from continuing operations per share are computed using the weighted average common shares outstanding, adjusted for the impact, if dilutive, of stock options outstanding (Note 10).

The following table reflects the components of the calculations of our basic and diluted net income per share, basic and diluted net income (loss) from discontinued operations per share, and basic and diluted net income from continuing operations per share which are not already otherwise set forth on the face of our statements of income:

	For the Three Months Ended March 31,	
	2012	2011
	(Amounts in thousands)	
Net income allocable to common shareholders from continuing operations and discontinued operations:		
Net income allocable to common shareholders	\$ 125,343	\$ 148,059
Eliminate: Discontinued operations allocable to common shareholders	-	318
Net income from continuing operations allocable to common shareholders	\$ 125,343	\$ 148,377
Weighted average common shares and equivalents outstanding:		
Basic weighted average common shares outstanding	170,309	169,315

Edgar Filing: Public Storage - Form 10-Q

Net effect of dilutive stock options - based on treasury stock method	1,106	1,067

Recent Accounting Pronouncements and Guidance

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2011-04, which clarifies existing fair value measurements principals, and expands certain disclosure requirements. In September 2011, the FASB issued ASU No. 2011-08, “Testing Goodwill for Impairment” which allows the consideration of qualitative factors in evaluating impairment to reduce (in certain circumstances) the required complexity of supporting computations. We adopted both of these updates on January 1, 2012, which did not have a material impact on our results of operations, financial condition or disclosures.

In 2011, the FASB issued ASU No’s. 2011-05 and 2011-12, which required that comprehensive income be presented on either our income statement or a separate financial statement, rather than as a note to financial statements, beginning January 1, 2012. We early adopted these statements in the fourth quarter of 2011.

3. Real Estate Facilities

Activity in real estate facilities is as follows:

	Three Months Ended March 31, 2012 (Amounts in thousands)
Operating facilities, at cost:	
Beginning balance	\$10,777,576
Capital improvements	14,278
Acquisition of real estate facilities	38,570
Current development	997
Impact of foreign exchange rate changes	755
Ending balance	10,832,176
Accumulated depreciation:	
Beginning balance	(3,398,379)
Depreciation expense	(84,397)
	(291)

Impact of foreign exchange rate changes	
Ending balance	(3,483,067)
Total real estate facilities at March 31, 2012	\$7,349,109

During the three months ended March 31, 2012 we acquired six operating self-storage facilities (532,000 net rentable square feet) for an aggregate cost of \$42.0 million of cash. The aggregate cost was allocated \$38.6 million to real estate facilities and \$3.4 million to intangible assets for acquired tenants in place.

4. Investments in Real Estate Entities

The following tables sets forth our investments in the Unconsolidated Real Estate Entities at March 31, 2012 and December 31, 2011, and our equity in earnings of the Unconsolidated Real Estate Entities for the three months ended March 31, 2012 and 2011 (amounts in thousands):

Other Investments	378	405
Total	\$ 9,115	\$ 13,716

During the three months ended March 31, 2012 and 2011, we received cash distributions from our investments in the Unconsolidated Real Estate Entities totaling \$11.1 million and \$12.9 million, respectively.

Investment in PSB

PSB is a REIT traded on the New York Stock Exchange, which controls an operating partnership. We have a 42% common equity interest in PSB as of March 31, 2012 and December 31, 2011, comprised of our ownership of 5,801,606 shares of PSB's common stock and 7,305,355 limited partnership units in the operating partnership. The limited partnership units are convertible at our option, subject to certain conditions, on a one-for-one basis into PSB common stock. Based upon the closing price at March 31, 2012 (\$65.54 per share of PSB common stock), the shares and units we owned had a market value of approximately \$859.0 million.

The following table sets forth selected financial information of PSB; the amounts represent all of PSB's balances and not our pro-rata share.

Investment in Shurgard Europe

For all periods presented, we had a 49% equity investment in Shurgard Europe. On March 2, 2011, Shurgard Europe acquired the 80% interests it did not own in two joint ventures that owned 72 self-storage facilities located in Europe operating under the "Shurgard" name. We and our joint venture partner provided the funding for this acquisition.

Changes in foreign currency exchange rates caused our investment in Shurgard Europe to increase approximately \$10.9 million and \$14.6 million during the three months ended March 31, 2012 and 2011, respectively.

For the three months ended March 31, 2012 and 2011, we also received interest on the loans due from Shurgard Europe and trademark license fees. For financial statement purposes, 49% of the interest and license fees have been classified as equity in earnings of unconsolidated real estate entities and the remaining 51% as interest and other income, as set forth in the following table:

5. Loans Receivable from Unconsolidated Real Estate Entities

On February 9, 2011, we loaned PSB \$121.0 million. The loan had a six-month term and bore interest at a rate of three-month LIBOR plus 0.85% (1.13% per annum for the term of the loan). For the three months ended March 31, 2011, we recorded interest income of approximately \$0.2 million related to the loan. The loan was repaid in 2011.

As of March 31, 2012 and December 31, 2011, we had a Euro-denominated loan receivable from Shurgard Europe with a balance of €311.0 million at both periods (\$414.8 million at March 31, 2012 and \$402.7 million at December 31, 2011), which bears interest at a fixed rate of 9.0% per annum and matures February 15, 2015. Because we expect repayment of this loan in the foreseeable future, foreign exchange rate gains or losses due to changes in exchange rates between the Euro and the U.S. Dollar are recognized in income, under "foreign currency gain." We have received a total of €80.9 million in principal repayments on this loan since its inception on March 31, 2008.

On February 28, 2011, we provided bridge financing to Shurgard Europe totaling \$237.9 million, which it used to acquire its partner's 80% interests in two affiliated joint ventures on March 2, 2011. This loan bore interest at a fixed rate of 7.0% per annum and was denominated in U.S. Dollars. On June 15, 2011, our joint venture partner in Shurgard Europe effectively purchased 51% of the loan from us for \$121.3 million and then the entire loan balance was effectively exchanged for an equity interest in Shurgard Europe.

For the three months ended March 31, 2012 and 2011, we recorded interest income of approximately \$4.7 million and \$6.5 million, respectively, related to the loans to Shurgard Europe. These amounts reflect 51% of the aggregate interest on the loans, with the other 49% classified as equity in earnings of unconsolidated real estate entities.

Although there can be no assurance, we believe that Shurgard Europe has sufficient liquidity and collateral, and we have sufficient creditor rights, such that credit risk relating to our loan to Shurgard Europe is mitigated. In addition, we believe the interest rates on the loan to Shurgard Europe approximate the market rate for loans with similar credit characteristics and tenor, and that the carrying values of the loans to Shurgard Europe approximate fair value. The characteristics of the loan to Shurgard Europe and comparative metrics utilized in our evaluation represent significant unobservable inputs, which are “Level 3” inputs as the term is utilized in Codification Section 820-10-35-52.

March 31, 2012
(Unaudited)

6. Line of Credit and Notes Payable

On March 21, 2012, we entered a new revolving credit agreement (the “Credit Agreement”), which expires on March 21, 2017. The aggregate limit with respect to borrowings and letters of credit totals \$300 million. Amounts drawn on the Credit Agreement bear an annual interest rate ranging from the London Interbank Offered Rate (“LIBOR”) plus 0.925% to LIBOR plus 1.850% depending on our credit ratings (LIBOR plus 0.950% at March 31, 2012). In addition, we are required to pay a quarterly facility fee ranging from 0.125% per annum to 0.400% per annum depending on our credit ratings (0.125% per annum at March 31, 2012). We had no outstanding borrowings on our Credit Agreement at March 31, 2012 or at May 4, 2012. At March 31, 2012, we had undrawn standby letters of credit, which reduce our borrowing capacity with respect to our line of credit by the amount of the letters of credit, totaling \$15.9 million at March 31, 2012 (\$18.4 million at December 31, 2011).

The carrying amounts of our notes payable at March 31, 2012 and December 31, 2011 consist of the following (dollar amounts in thousands):

	March 31, 2012	December 31, 2011
Unsecured Notes Payable:		
5.875% effective and stated note rate, interest only and payable semi-annually, matures in March 2013	\$ 186,460	\$ 186,460
Secured Notes Payable:		
5.0% average effective rate mortgage notes payable, secured by 71 real estate facilities with a net book value of approximately \$427 million at March 31, 2012 and stated note rates between 4.95% and 7.43%, maturing at varying dates between August 2012 and September 2028 (carrying amount includes \$2,014 of unamortized premium at March 31, 2012 and \$2,665 at December 31, 2011)	186,519	211,854
Total notes payable	\$ 372,979	\$ 398,314

Substantially all of our debt was assumed in connection with the acquisition of real estate. An initial premium or discount is established for any difference between the stated note balance and estimated fair value of the debt assumed. This initial premium or discount is amortized over the remaining term of the debt using the effective interest method.

The notes payable and Credit Agreement have various customary restrictive covenants, all of which we were in compliance with at March 31, 2012.

At March 31, 2012, approximate principal maturities of our notes payable are as follows (amounts in thousands):

18

PUBLIC STORAGE

Cash paid for interest totaled \$6.0 million and \$8.1 million for the three months ended March 31, 2012 and 2011, respectively. No interest was capitalized as real estate in the three months ended March 31, 2012 (\$0.1 million for the same period in 2011).

7. Noncontrolling Interests

Third party interests in the net assets of the Subsidiaries that can require us to redeem their interests, other than pursuant to a liquidation of the subsidiary, are presented at fair value as “Redeemable Noncontrolling Interests.” We estimate fair value by applying the liquidation provisions of the governing documents to our estimate of the fair value of the underlying net assets (principally real estate assets). Any adjustments recorded due to changes in the fair value of these interests are recorded against retained earnings. All other noncontrolling interests are presented on our balance sheets as a component of equity, “Equity of Permanent Noncontrolling Interests.”

Redeemable Noncontrolling Interests

At December 31, 2011, the Redeemable Noncontrolling Interests represented ownership interests in Subsidiaries that own 14 self-storage facilities. During the three months ended March 31, 2012, we acquired all the outstanding Redeemable Noncontrolling Interests for \$19.9 million in cash, of which \$11.9 million was recorded as a reduction to redeemable noncontrolling interests and \$8.0 million was recorded as a reduction to paid-in capital. During each of the three month periods ended March 31, 2012 and 2011, we allocated a total of \$0.2 million of income to these interests and paid distributions to these interests totaling \$0.6 million. As of March 31, 2012, we had no outstanding Redeemable Noncontrolling Interests.

Permanent Noncontrolling Interests

At March 31, 2012, the Permanent Noncontrolling Interests have ownership interests in Subsidiaries that own 12 self-storage facilities and own 231,978 partnership units (the “Convertible Partnership Units”) in a subsidiary that are convertible on a one-for-one basis (subject to certain limitations) into common shares of the Company at the option of the unitholder. During the three months ended March 31, 2012 and 2011, we allocated a total of \$0.6 million and \$4.2 million, respectively, in income, and paid distributions to our Permanent Noncontrolling Interests totaling \$1.1 million

and \$3.6 million, respectively.

During the year ended December 31, 2011, we acquired Permanent Noncontrolling Interests in 19 Subsidiaries, which includes five Subsidiaries representing public limited partnerships pursuant to mergers described in Note 9. These interests were acquired for an aggregate cost of approximately \$175.5 million, consisting of \$118.4 million in cash and 477,928 of our common shares with an aggregate fair value of \$57.1 million based on the closing trading price of our common shares on the date of acquisition. During the three months ended March 31, 2012, we acquired additional interests in the Subsidiaries for \$0.3 million in cash, of which \$0.1 million was recorded as a reduction to permanent noncontrolling interests and the remainder as a reduction to paid-in capital.

Total Cumulative						
Preferred Shares			128,018	\$3,200,450	475,000	\$3,111,271

The holders of our Cumulative Preferred Shares have general preference rights with respect to liquidation and quarterly distributions. Except under certain conditions and as noted below, holders of the Cumulative Preferred Shares will not be entitled to vote on most matters. In the event of a cumulative arrearage equal to six quarterly dividends, holders of all outstanding series of preferred shares (voting as a single class without regard to series) will have the right to elect two additional members to serve on our Board of Trustees until the arrearage has been cured. At March 31, 2012, there were no dividends in arrears.

Except under certain conditions relating to the Company's qualification as a REIT, the Cumulative Preferred Shares are not redeemable prior to the dates indicated on the table above. On or after the respective dates, each of the series of Cumulative Preferred Shares will be redeemable, at the option of the Company, in whole or in part, at \$25.00 per share (or depositary share as the case may be), plus accrued and unpaid dividends. Holders of the Cumulative Preferred Shares do not have the right to require the Company to redeem such shares.

Upon issuance of our Cumulative Preferred Shares of beneficial interest, we classify the liquidation value as preferred equity on our balance sheet with any issuance costs recorded as a reduction to paid-in capital.

CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

In January 2012, we issued 18.4 million depositary shares each representing 1/1,000 of our 5.900% Cumulative Preferred Shares, Series S for gross proceeds of \$460.0 million, and we incurred \$14.6 million in issuance costs.

In the three months ended March 31, 2012, we redeemed our Series E, Series L, and Series Y Cumulative Preferred Shares, at par. The aggregate redemption amount, before payment of accrued dividends, was \$356.7 million. In March 2012, we called for redemption our Series M Cumulative Preferred Shares, at par. The redemption value of \$476.6 million of this series has been classified as a liability at March 31, 2012. On April 11, 2012, we redeemed this series, at par. We recorded a \$24.9 million EITF D-42 allocation of income from our common shareholders to the holders of our Cumulative Preferred Shares in the three months ended March 31, 2012 in connection with these redemptions.

In March 2012, we issued 18.5 million depositary shares each representing 1/1,000 of our 5.750% Cumulative Preferred Shares, Series T for gross proceeds of \$462.5 million, and we incurred \$14.7 million in issuance costs.

Dividends

Common share dividends, including amounts paid to our restricted share unitholders, totaled \$188.1 million (\$1.10 per share) and \$135.9 million (\$0.80 per share), for the three months ended March 31, 2012 and 2011, respectively. Preferred share dividends totaled \$55.1 million and \$57.6 million for the three months ended March 31, 2012 and 2011, respectively.

9. Related Party Transactions

The Hughes Family owns approximately 16.0% of our common shares outstanding at March 31, 2012.

The Hughes Family has ownership interests in, and operates, approximately 53 self-storage facilities in Canada (“PS Canada”) using the “Public Storage” brand name pursuant to a non-exclusive, royalty-free trademark license agreement with the Company. We currently do not own any interests in these facilities nor do we own any facilities in Canada. We have a right of first refusal to acquire the stock or assets of the corporation that manages the 53 self-storage facilities in Canada, if the Hughes Family or the corporation agrees to sell them. However, we have no interest in the operations of this corporation, we have no right to acquire this stock or assets unless the Hughes Family decides to sell and we receive no benefit from the profits and increases in value of the Canadian self-storage facilities.

We reinsure risks relating to loss of goods stored by tenants in the self-storage facilities in Canada. During each of the three month periods ended March 31, 2012 and 2011, we received \$0.1 million in reinsurance premiums attributable to the Canadian facilities. Since our right to provide tenant reinsurance to the Canadian facilities may be qualified, there is no assurance that these premiums will continue.

PS Canada holds approximately a 2.2% interest in Stor-RE, a consolidated entity that provides liability and casualty insurance for PS Canada, the Company and certain affiliates of the Company for occurrences prior to April 1, 2004.

On August 23, 2011, we completed mergers to acquire all of the units of limited partnership interest and general partnership interests we did not already own in each of five affiliated partnerships. For three of these partnerships, Mr. Hughes was a co-general partner along with the Company. These mergers were approved by Public Storage and

the Hughes Family, who together own a majority of the limited partnership units outstanding and therefore could approve the mergers without the vote of the other limited partners. The merger consideration was based upon independent appraisals, dated April 5, 2011, from a nationally recognized appraisal firm, with allocation of the net asset value based upon the liquidation provisions of the relevant partnership documents. Under the merger agreements, the Hughes Family sold all of its general and limited partnership interests in these five partnerships for approximately \$54.6 million, reflecting the same pricing and terms as the public limited partners (see “Permanent Noncontrolling Interests” in Note 7 “Noncontrolling Interests”). In addition, on August 23, 2011, the Hughes Family’s interests in a private REIT owned by the Company and the Hughes Family were acquired for approximately \$0.2 million, based upon the merger value of the interests in these five partnerships owned by the private REIT. Our board of trustees appointed a special committee of independent trustees to review the terms of these acquisitions. The special committee unanimously determined that the transactions were advisable and fair to and in the respective best interests of Public Storage and its shareholders not affiliated with the Hughes Family, as well as fair to the public limited partners. The Company also engaged an investment banking firm who concluded that the consideration received in the mergers by the unaffiliated limited partners was fair to them, from a financial point of view. As a trustee, Mr. Hughes is indemnified for any litigation arising from this transaction pursuant to the indemnification agreements we have with each Public Storage trustee.

PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

The Hughes Family also had interests in 18 additional limited partnerships that we acquired on June 30, 2011. The acquisition price was based upon independent appraisals of the partnerships' facilities, dated April 5, 2011, from a nationally recognized appraisal firm, with allocation of the net asset value based upon the liquidation provisions of the relevant partnership documents. We paid the Hughes Family \$13.3 million for their interests. The special committee of our board of trustees also reviewed the terms of each of these purchases and unanimously determined that the purchases were fair to and in the respective best interests of Public Storage and its shareholders not affiliated with the Hughes Family. As of March 31, 2012, Mr. Hughes has withdrawn as general partner in 17 of these partnerships. At May 4, 2012, Mr. Hughes remains as general partner in one of these partnerships.

10. Share-Based Compensation

Under various share-based compensation plans, the Company can grant non-qualified options to purchase the Company's common shares, as well as restricted share units ("RSUs"), to trustees, officers, service providers, and key employees. The terms of these grants are established by an authorized committee of our Board of Trustees.

Stock options and RSUs are considered "granted" and "outstanding" (legal grant date notwithstanding) as the terms are used herein, when the Company and the recipient reach a mutual understanding of the key terms of the award, the award has been authorized in accordance with the Company's share grant approval procedures and, in the case of performance-based grants, it is probable that the performance condition will be met.

Stock Options

Stock option exercise prices are equal to the closing trading price of our common shares on the date of grant, vest generally over a five-year period, and expire ten years after the grant date. We use the Black-Scholes option valuation model to estimate the grant-date fair value of our stock options, and recognize these amounts, net of estimated forfeitures, as compensation expense over the applicable vesting period.

Outstanding stock option grants are included on a one-for-one basis in our diluted weighted average shares, to the extent dilutive, after applying the treasury stock method (based upon the average common share price during the period) to assumed exercise proceeds and measured but unrecognized compensation.

For each of the three month periods ended March 31, 2012 and 2011, we recorded \$0.7 million in compensation expense related to stock options.

During the three months ended March 31, 2012, no stock options were granted, 134,990 options were exercised, and 4,000 options were forfeited. A total of 2,452,076 stock options were outstanding at March 31, 2012 (2,591,066 at December 31, 2011).

PUBLIC STORAGE
CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

Restricted Share Units

RSUs vest ratably over a five or eight-year period from the date of grant. The grantee receives additional compensation equal to the per-share dividends received by common shareholders for each outstanding RSU. Such compensation is classified as dividends paid. When RSUs are forfeited, any dividends previously paid on such forfeited RSUs are expensed. When RSUs vest, the grantee may receive common shares equal to the number of vested restricted share units, less common shares withheld for employee statutory tax liabilities. Generally, however, deposits are made to taxing authorities on behalf of employees in lieu of the issuance of common shares (based upon the market value of the shares at the date of vesting) to settle the employees' tax liability generated by the vesting, and is charged against paid in capital.

We recognize the estimated grant-date fair value of RSUs as compensation expense over the applicable vesting period, net of estimates for future forfeitures. Fair value is determined based upon the closing trading price of our common shares on the grant date. The employer portion of payroll taxes is expensed as incurred. We have elected to use the straight-line attribution method with respect to restricted share grants that are earned solely based upon the passage of time and continued employment. Performance-based RSU grants are amortized using the accelerated attribution method, with each vesting amortized separately over the individual vesting period.

During the three months ended March 31, 2012, 86,750 restricted share units were granted, 5,239 restricted share units were forfeited and 119,883 restricted share units vested. This vesting resulted in the issuance of 75,713 common shares. In addition, cash compensation totaling \$6.0 million was paid to employees in lieu of 44,170 common shares based upon the market value of the shares at the date of vesting is used to settle the employees' tax liability generated by the vesting and is charged against paid in capital.

At March 31, 2012, approximately 663,127 restricted share units were outstanding (701,499 at December 31, 2011). A total of \$4.6 million and \$4.4 million in restricted share unit expense was recorded for the three months ended March 31, 2012 and 2011, respectively, and includes the compensation expense amounts with respect to the 266,800 RSUs granted under our 2011 performance-based restricted share unit program described above.

See also "net income per common share" in Note 2 for further discussion regarding the impact of restricted share units and stock options on our net income per common and income allocated to common shareholders.

11. Segment Information

Our reportable segments reflect the significant components of our operations that are evaluated separately by our chief operating decision maker and have discrete financial information available. Our segments are organized based upon differences in the nature of the underlying products, services, and whether the operation is located in the U.S. or outside the U.S. In making resource allocation decisions, our chief operating decision maker reviews the net income from continuing operations of each reportable segment included in the tables below, excluding the impact of depreciation and amortization, gains or losses on disposition of real estate facilities, and real estate impairment charges. The amounts for each reportable segment included in the tables below are in conformity with GAAP and our significant accounting policies as denoted in Note 2, and exclude ancillary revenues and expenses, interest income (other than from Loans Receivable from Unconsolidated Real Estate Entities), interest expense, general and administrative expense, and gains and losses on the early repayment of debt, none of which can be allocated to any

reportable segment. Our chief operating decision maker does not consider the book value of assets in making resource allocation decisions.

Following is the description of and basis for presentation for each of our segments.

23

CONDENSED NOTES TO FINANCIAL STATEMENTS
March 31, 2012
(Unaudited)

Domestic Self-Storage Segment

The Domestic Self-Storage Segment includes the operations of the 2,048 self-storage facilities owned by the Company and the Subsidiaries, as well as our equity share of the Other Investments. For all periods presented, substantially all of our real estate facilities, goodwill and other intangible assets, other assets, and accrued and other liabilities are associated with the Domestic Self-Storage Segment.

European Self-Storage Segment

The European Self-Storage segment comprises our interest in Shurgard Europe, which has self-storage operations in seven western European countries. It has a separate management team that determines the strategic direction for this segment under the direction of our chief operating decision maker and our joint venture partner which owns a 51% equity interest in Shurgard Europe. The European Self-Storage segment presentation includes our equity share of Shurgard Europe's operations, the interest and other income received from Shurgard Europe, as well as foreign currency exchange gains and losses that are attributable to Shurgard Europe. Our balance sheet includes an investment in Shurgard Europe (Note 4) and a loan receivable from Shurgard Europe (Note 5).

Commercial Segment

The Commercial segment comprises our investment in PSB, a self-managed REIT with a separate management team that makes its financing, capital allocation and other significant decisions. The Commercial segment also includes our direct interest in certain commercial facilities, substantially all of which are managed by PSB. The Commercial segment presentation includes our equity earnings and interest income from PSB, as well as the revenues and expenses of our commercial facilities. At March 31, 2012, the assets of the Commercial segment are comprised principally of our investment in PSB (Note 4).

Presentation of Segment Information

The following tables reconcile the performance of each segment, in terms of segment income, to our net income (amounts in thousands):

12. Commitments and Contingencies

Contingent Losses

We are a party to various legal proceedings and subject to various claims and complaints that have arisen in the normal course of business. We believe that the likelihood of these pending legal matters and other contingencies resulting in a material loss to the Company, either individually or in the aggregate, is remote.

Insurance and Loss Exposure

We have historically carried customary property, earthquake, general liability and workers compensation coverage through internationally recognized insurance carriers, subject to customary levels of deductibles. The aggregate limits on these policies of \$75 million for property losses and \$102 million for general liability losses are higher than estimates of maximum probable loss that could occur from individual catastrophic events determined in recent engineering and actuarial studies; however, in case of multiple catastrophic events, these limits could be exhausted.

Our tenant insurance program reinsures a program that provides insurance to certificate holders against claims for property losses due to specific named perils (earthquakes are not covered by these policies) to goods stored by tenants at our self-storage facilities for individual limits up to a maximum of \$5,000. We have third-party insurance coverage for claims paid exceeding \$5.0 million resulting from any one individual event, to a limit of \$15.0 million. At March 31, 2012, there were approximately 700,000 certificate holders held by our self-storage tenants participating in this program, representing aggregate coverage of approximately \$1.5 billion. We rely on a third-party insurance company to provide the insurance and are subject to licensing requirements and regulations in several states.

13. Subsequent Events

On May 4, 2012, we called for redemption all of our outstanding 6.9 million depository shares each representing 1/1,000 of a 7.00% Cumulative Preferred Share of Beneficial Interest, Series N at par. The aggregate redemption amount, before payment of accrued dividends, to be paid on July 2, 2012, is \$172.5 million. We will record an EITF D-42 allocation of approximately \$5.4 million from our common shareholders to the holders of our Preferred Shares in the quarter ending June 30, 2012 as a result of this redemption.

We have also entered into contracts to acquire four self-storage properties, located in California (two), Florida and New York, for an aggregate purchase price of \$46.0 million, cash. We expect the pending acquisitions of these properties will close in the second quarter of 2012. The pending acquisitions are subject to various conditions and contingencies and there can be no assurance that they will be completed.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our financial statements and notes thereto.

Forward Looking Statements: This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. All statements in this document, other than statements of historical fact, are forward-looking statements which may be identified by the use of the words "expects," "believes," "anticipates," "plans," "would," "should," "may," "estimates" and similar expressions. These forward-looking statements involve known and unknown risks and uncertainties, which may cause our actual results and performance to be materially different from those expressed or implied in the forward-looking statements. As a result, you should not rely on any forward-looking statements in this report, or which management may make orally or in writing from time to time, as predictions of future events nor guarantees of future performance. We caution you not to place undue reliance on forward-looking statements, which speak only as of the date of this report or as of the dates indicated in the statements. All of our forward-looking statements, including those in this report, are qualified in their entirety by this statement.

Factors and risks that may impact our future results and performance include, but are not limited to, those described in Part I, Item 1A, "Risk Factors" in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on February 24, 2012 and in our other filings with the SEC and the following:

- general risks associated with the ownership and operation of real estate including changes in demand, potential liability for environmental contamination, natural disasters, and adverse changes in laws and regulations governing property tax, real estate and zoning;
 - risks associated with downturns in the national and local economies in the markets in which we operate, including risks related to current economic conditions and the economic health of our tenants;
- the impact of competition from new and existing self-storage and commercial facilities and other storage alternatives;
- difficulties in our ability to successfully evaluate, finance, integrate into our existing operations, and manage acquired and developed properties;
- risks associated with international operations including, but not limited to, unfavorable foreign currency rate fluctuations and local and global economic uncertainty that could adversely affect our earnings and cash flows;
 - risks related to our participation in joint ventures;
- the impact of the regulatory environment as well as national, state, and local laws and regulations including, without limitation, those governing environmental, tax and tenant insurance matters and real estate investment trusts ("REITs"), and risks related to the impact of new laws and regulations;
- risk of increased tax expense associated either with a possible failure by us to qualify as a REIT, or with challenges to intercompany transactions with our taxable REIT subsidiaries;
 - disruptions or shutdowns of our automated processes and systems or breaches of our data security;
 - difficulties in raising capital at a reasonable cost; and

- economic uncertainty due to the impact of war or terrorism.

We expressly disclaim any obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, new estimates, or other factors, events or circumstances after the date of this document, except where required by law. Accordingly, you should use caution in relying on past forward-looking statements to anticipate future results.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our financial statements, which have been prepared in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP"). The preparation of our financial statements and related disclosures in conformity with GAAP and our discussion and analysis of our financial condition and results of operations requires management to make judgments, assumptions and estimates that affect the amounts reported in our financial statements and accompanying notes. The notes to our March 31, 2012 financial statements, primarily Note 2, summarize the significant accounting policies and methods used in the preparation of our financial statements and related disclosures.

We believe the following are our critical accounting policies, because they have a material impact on the portrayal of our financial condition and results, and they require us to make judgments and estimates about matters that are inherently uncertain.

Income Tax Expense: We have elected to be treated as a real estate investment trust ("REIT"), as defined in the Internal Revenue Code. As a REIT, we do not incur federal income tax if we distribute 100% of our REIT taxable income (generally, net rents and gains from real property, dividends, and interest) each year, and if we meet certain organizational and operational rules. We believe we have met these REIT requirements in 2011 and for all other periods presented herein. Accordingly, we have recorded no federal income tax expense related to our REIT taxable income.

Our assumption that we have met the REIT requirements could be incorrect, because the REIT requirements are complex, require ongoing factual determinations, and there could be future unanticipated changes in our circumstances, or circumstances in previous years that we did not identify could affect our compliance. For any taxable year that we fail to qualify as a REIT and for which applicable statutory relief provisions did not apply, we would be taxed at the regular corporate rates on all of our taxable income for at least that year and the ensuing four years, we could be subject to penalties and interest, and our net income would be materially different from the amounts estimated in our financial statements.

In addition, our taxable REIT subsidiaries are taxable as a regular corporation. To the extent that amounts paid to us by our taxable REIT subsidiaries are determined by the taxing authorities to be in excess of amounts that would be paid under similar arrangements among unrelated parties, we could be subject to a 100% penalty tax on the excess payments. If we became subject to such a penalty tax, our net income could be materially overstated from our current estimates.

Impairment of Long-Lived Assets: Substantially all of our assets, consisting primarily of real estate, are long-lived assets. The evaluation of long-lived assets for impairment involves identification of indicators of impairment, projections of future operating cash flows, and determining fair values, all of which require significant judgment and subjectivity. Others could come to materially different conclusions than we did regarding impairment. In addition, we may not have identified all current facts and circumstances that may affect impairment. Any unidentified impairment loss, or change in assumptions as to cash flows or fair values, could have a material adverse impact on our

financial condition and results of operations.

Accruals for Operating Expenses: Certain of our expenses are estimated based upon assumptions regarding past and future trends, such as losses for workers compensation, employee health plans, and estimated claims for our tenant reinsurance program. Our property tax expense represents one of our largest operating expenses and has significant estimated components. Most notably, in certain jurisdictions we do not receive tax bills for the current fiscal year until after our earnings are finalized, and as a result, we must estimate tax expense based upon anticipated implementation of regulations and trends. If these estimates and assumptions with respect to these operating expenses were incorrect, our expenses could be misstated.

Accruals for Contingencies: We are exposed to business and legal liability risks with respect to events that have occurred, but in accordance with GAAP, we have not accrued for certain potential liabilities because the loss is either not probable or not reasonably estimable or because we are not aware of the event. We could in the future accrue additional amounts for such liabilities, due to future events and the results of further investigation or litigation. Such accruals could have a material adverse impact on our financial condition or results of operations.

Valuation of real estate and intangible assets acquired: In reporting the acquisition of operating self-storage facilities in our financial statements, we must estimate the fair value of the land, buildings, and intangible assets acquired in these transactions. These estimates are based upon many assumptions, subject to a significant degree of judgment, including estimating discount rates, replacement costs of land and buildings, future cash flows from the tenant base in place at the time of the acquisition, and future revenues to be earned and expenses to be incurred with respect to acquired properties. We believe that the assumptions we used were reasonable, however, others could come to materially different conclusions as to the estimated values, which would result in different depreciation and amortization expense, gains and losses on sale of real estate assets, as well as the amounts included on our balance sheets for real estate and intangible assets.

Overview

Our principal business activities include the acquisition, development, ownership and operation of self-storage facilities which offer storage spaces for lease, generally on a month-to-month basis, for personal and business use. We are the largest owner of self-storage facilities in the U.S., which represents our Domestic Self-Storage segment. A large portion of management time is focused on maximizing revenues and managing expenses at our self-storage facilities, which is the primary driver of growth in our net income and cash flow from operations and contributed 92% of our revenues for the three months ended March 31, 2012.

The remainder of our operations is comprised of our European Self-Storage segment through our investment in Shurgard Europe, our Commercial segment primarily through our investment in PS Business Parks, Inc. (“PSB”), and the operations not allocated to any segment, each of which is described in Note 11 to our March 31, 2012 financial statements.

The self-storage industry is subject to general economic conditions, particularly conditions that affect the spending habits of consumers and moving trends.

Our ability to effectively deploy capital to expand our asset base is an important component of our long-term growth strategy. Since the beginning of 2010, we have acquired 59 self-storage facilities for approximately \$362 million, noncontrolling interests in subsidiaries owning self-storage facilities for \$196 million, and we invested \$117 million in Shurgard Europe to fund its acquisition of the remaining interests it did not own in 72 self-storage facilities.

We believe that there may be opportunities to acquire additional self-storage facilities from third parties in the remainder of 2012, because we continue to see self-storage facilities come to market. However, there is significant competition for facilities marketed in many of the geographic locations we find attractive. As a result, there can be no assurance that we will be able to acquire facilities on terms we find attractive.

Due to the challenging operating environment and our belief that acquisitions of self-storage facilities are more economically advantageous, we have substantially curtailed our development activities. We continue to have a nominal development pipeline at March 31, 2012.

Other investments we have made in the past, and may make in the future, include i) further investment in Shurgard Europe to allow it to develop or acquire facilities, ii) further investment in PSB, and iii) the early retirement of debt or redemption of preferred securities. There can be no assurance that these other investment alternatives will be attractive in the long-term, or will even be available as investment alternatives.

We believe that we are not dependent upon raising capital to fund our operations or meet our obligations, due to our low levels of debt and significant cash from operations available for principal payments on debt and reinvestment (see “Liquidity and Capital Resources” below). However, access to capital is important to growing our asset base. We choose between the issuance of common and preferred securities based upon the relative cost of capital. For at least the last ten years, we have raised cash proceeds for growth and other corporate purposes primarily through the issuance of preferred securities, while we have issued common equity only in connection with mergers and the acquisition of interests in real estate entities. Our ability to raise capital at favorable costs is dependent upon capital market conditions. When market conditions are favorable, we have generally been able to raise capital as necessary; however, there can be no assurance that future market conditions will permit us to raise capital at favorable costs. During the year ended December 31, 2011, we issued approximately \$863 million of preferred securities. During the three months ended March 31, 2012, we issued another \$923 million of preferred securities.

At March 31, 2012, we had approximately \$620 million of cash and we have access to a \$300 million line of credit which expires March 21, 2017. On April 11, 2012, we paid \$477 million to redeem our Series M Cumulative Preferred Shares. As of May 4, 2012, we are under contract (subject to contingencies) to acquire four facilities for an aggregate purchase price of \$46 million, in cash. We have called for redemption our Series N Preferred Shares (\$173 million) on July 2, 2012. After May 4, 2012, we have no other significant commitments until 2013, when \$265 million of existing debt comes due.

Results of Operations

Operating Results for the Three Months Ended March 31, 2012 and 2011

For the three months ended March 31, 2012, net income allocable to our common shareholders was \$125.3 million or \$0.73 per diluted common share, compared to \$148.1 million or \$0.87 per diluted common share for the same period in 2011, representing a decrease of \$22.8 million or \$0.14 per diluted common share. This decrease is due to (i) a \$30.1 million reduction in income allocated to common shareholders, in connection with applying EITF D-42 to our redemptions of preferred shares and our pro rata share of PSB’s preferred equity redemptions and (ii) a \$19.1 million decline in foreign currency exchange gain, offset partially by (iii) improved property operations.

Funds from Operations

For the three months ended March 31, 2012, funds from operations (“FFO”) was \$1.35 per diluted common share as compared to \$1.48 for the same period in 2011, representing a decrease of \$0.13.

For the three months ended March 31, 2012, FFO was impacted by a foreign currency exchange gain of \$12.2 million (compared to \$31.3 million for the same period in 2011) and a \$27.1 million charge in applying EITF D-42 to our and PSB’s redemptions of preferred shares (compared to a \$3.0 million gain for the same period in 2011).

The following table provides a summary of the per-share impact of the items noted above:

	Three Months Ended March 31,		
	2012	2011	Percentage Change
FFO per diluted common share prior to adjustments for the following items	\$ 1.44	\$ 1.28	12.5 %
Foreign currency exchange gain	0.07	0.18	
Application of EITF D-42 to the redemption of our securities and our equity share from PSB	(0.16)	0.02	
FFO per diluted common share, as reported	\$ 1.35	\$ 1.48	(8.8)%

FFO is a term defined by the National Association of Real Estate Investment Trusts, is a non-GAAP financial measure. It is generally defined as net income before depreciation with respect to real estate assets and gains and losses on real estate assets. FFO is presented because management and many analysts consider FFO to be one measure of the performance of real estate companies. In addition, we believe that FFO is helpful to investors as an additional measure of the performance of a REIT, because net income includes the impact of depreciation, which assumes that the value of real estate diminishes predictably over time, while we believe that the value of real estate fluctuates due to market conditions and in response to inflation. FFO computations do not consider scheduled principal payments on debt, capital improvements, distributions and other obligations of the Company. FFO is not a substitute for our cash flow or net income as a measure of our liquidity or operating performance or our ability to pay dividends. Other REITs may not compute FFO in the same manner; accordingly, FFO may not be comparable among REITs. The following table reconciles from our net income to FFO, and sets forth the calculations of FFO per share.

	Three Months Ended March 31,	
	2012	2011
	(Amounts in thousands, except per share data)	
Computation of Funds from Operations (“FFO”) allocable to Common Shares:		
Net income	\$206,722	\$210,568
Add back – depreciation and amortization	86,938	88,511
Add back – depreciation from unconsolidated real estate investments	19,741	16,788
Add back – depreciation and amortization included in Discontinued Operations	-	42
Eliminate – gain on sale of real estate investments	-	(198)
Eliminate – loss on sale of real estate included in Discontinued Operations	-	253
FFO allocable to our equity holders	313,401	315,964
Less allocations of FFO to other noncontrolling equity interests in subsidiaries	(1,718)	(4,929)
FFO allocable to Public Storage shareholders	311,683	311,035
Less allocations of FFO to:		
Preferred shareholders, based upon distributions paid	(55,095)	(57,617)
Preferred shareholders, based on redemptions	(24,900)	-
Restricted share unitholders	(923)	(728)
Remaining FFO allocable to Common Shares	\$230,765	\$252,690
Diluted weighted average common shares outstanding	171,415	170,382
FFO per diluted common share	\$1.35	\$1.48

Real Estate Operations

Self-Storage Operations: Our self-storage operations are by far the largest component of our operating activities, representing more than 91% of our revenues for the three months ended March 31, 2012 and 2011, respectively.

Management analyzes the results of the Company's consolidated self-storage operations in two-groups: (i) the Same Store facilities, representing the facilities in the Domestic Self-Storage Segment that we have owned and operated on a stabilized basis since January 1, 2010, and (ii) all other facilities in the Domestic Self-Storage Segment, which are newly acquired, newly developed, and recently expanded facilities.

Self-Storage Operations Summary	Three Months Ended March 31,		
	2012	2011	Percentage Change
	(Dollar amounts in thousands)		
Revenues:			
Same Store Facilities	\$ 383,928	\$ 366,497	4.8 %
Non Same Store Facilities	23,760	18,511	28.4 %
Total rental income	407,688	385,008	5.9 %
Cost of operations:			
Same Store Facilities	130,682	128,295	1.9 %
Non Same Store Facilities	8,292	7,032	17.9 %
Total cost of operations	138,974	135,327	2.7 %
Net operating income (a):			
Same Store Facilities	253,246	238,202	6.3 %
Non Same Store Facilities	15,468	11,479	34.8 %
Total net operating income	268,714	249,681	7.6 %
Total depreciation and amortization expense:			
Same Store Facilities	(76,482)	(77,941)	(1.9)%
Non Same Store Facilities	(9,756)	(9,897)	(1.4)%
Total depreciation and amortization expense	(86,238)	(87,838)	(1.8)%
Total net income	\$ 182,476	\$ 161,843	12.7 %
Number of facilities at period end:			
Same Store Facilities	1,941	1,941	-
Non Same Store Facilities	107	92	16.3 %
Net rentable square footage at period end (in thousands):			
Same Store Facilities	122,464	122,464	-
Non Same Store Facilities	7,896	6,444	22.5 %

(a) See "Net Operating Income" below for further information regarding this non-GAAP measure.

Net income with respect to our self-storage operations increased by \$20.6 million or 12.7% during the three months ended March 31, 2012, when compared to the same period in 2011. This was due primarily to a 6.3% increase in net operating income with respect to our Same Store Facilities due to increased revenues driven by higher occupancy and higher realized rents per occupied square foot, and a 34.8% increase in net operating income with respect to the Non Same Store Facilities, due primarily to the impact of the properties acquired in 2012 and 2011.

Same Store Facilities

The Same Store Facilities represents those 1,941 facilities that are stabilized and owned since January 1, 2010 and therefore provide meaningful comparisons for 2011 and 2012. The following table summarizes the historical operating results of these 1,941 facilities (122.5 million net rentable square feet) that represent approximately 94% of the aggregate net rentable square feet of our U.S. consolidated self-storage portfolio at March 31, 2012.

SAME STORE FACILITIES	Three Months Ended March 31,		
	2012	2011	Percentage Change
	(Dollar amounts in thousands, except weighted average amounts)		
Revenues:			
Rental income	\$ 364,128	\$ 347,754	4.7 %
Late charges and administrative fees	19,800	18,743	5.6 %
Total revenues (a)	383,928	366,497	4.8 %
Cost of operations:			
Property taxes	43,058	41,382	4.1 %
On site property manager payroll	25,928	25,773	0.6 %
Repairs and maintenance	12,025	10,765	11.7 %
Utilities	9,424	10,101	(6.7) %
Media advertising	3,145	4,046	(22.3) %
Other advertising and selling expense	7,360	7,818	(5.9) %
Other direct property costs	9,084	9,143	(0.6) %
Supervisory payroll	8,934	8,360	6.9 %
Allocated overhead	11,724	10,907	7.5 %
Total cost of operations (a)	130,682	128,295	1.9 %
Net operating income (b)	253,246	238,202	6.3 %
Depreciation and amortization expense	(76,482)	(77,941)	(1.9) %
Net income	\$ 176,764	\$ 160,261	10.3 %
Gross margin (before depreciation and amortization expense)	66.0 %	65.0 %	1.5 %
Weighted average for the period:			
Square foot occupancy (c)	90.3 %	89.8 %	0.6 %
Realized annual rent per occupied square foot (d)(e)	\$ 13.17	\$ 12.65	4.1 %
REVPAF (e)(f)	\$ 11.89	\$ 11.36	4.7 %
Weighted average at March 31:			
Square foot occupancy	90.8 %	90.6 %	0.2 %
In place annual rent per occupied square foot (g)	\$ 13.96	\$ 13.42	4.0 %
Total net rentable square feet (in thousands)	122,464	122,464	-

Number of facilities	1,941	1,941	-
----------------------	-------	-------	---

- (a) Revenues and cost of operations do not include ancillary revenues and expenses generated at the facilities with respect to tenant reinsurance and retail sales.
- (b) See “Net Operating Income” below for a reconciliation of this non-GAAP measure to our net income in our statements of income for the three months ended March 31, 2012 and 2011.
 - (c) Square foot occupancies represent weighted average occupancy levels over the entire period.
- (d) Realized annual rent per occupied square foot is computed by annualizing the result of dividing rental income (which excludes late charges and administrative fees) by the weighted average occupied square feet for the period. Realized annual rent per occupied square foot takes into consideration promotional discounts that reduce rental income from the contractual amounts due.

- (e) Late charges and administrative fees are excluded from the computation of realized annual rent per occupied square foot and REVPAF. Exclusion of these amounts provides a better measure of our ongoing level of revenue, by excluding the volatility of late charges, which are dependent principally upon the level of tenant delinquency, and administrative fees, which are charged upon move-in volumes and are therefore dependent principally upon the absolute level of move-ins for a period.
- (f) Realized annual rent per available foot or “REVPAF” is computed by dividing rental income (which excludes late charges and administrative fees) by the total available net rentable square feet for the period.
- (g) In place annual rent per occupied square foot represents annualized contractual rents per occupied square foot without reductions for promotional discounts and excludes late charges and administrative fees.

Revenues generated by our Same Store Facilities increased by 4.8% for the three months ended March 31, 2012, as compared to the same period in 2011. The increase was due primarily to a 4.1% increase in realized rent per occupied square foot as well as a 0.6% increase in weighted average occupancy.

Our operating strategy is to maintain occupancy levels for our Same Store Facilities at an average of approximately 90% for the full year. In order to achieve this strategy, we evaluate changes in traffic patterns of new tenants renting space and the volume of existing tenants vacating, and in response we increase or decrease rental rates, promotional discounts offered to new tenants, and the frequency of television advertising. We experience seasonal fluctuations in the occupancy levels with occupancies generally higher in the summer months than in the winter months. Consequently, rates charged to new tenants are typically higher in the summer months than in the winter months.

Notwithstanding high current occupancy levels compared to historical levels, we will continue to be competitive in our pricing and discounting in order to compete with other operators to attract new incoming tenants. Based upon current trends, we expect positive year-over-year growth in rental income to continue.

Cost of operations (excluding depreciation and amortization) increased by 1.9% in the three months ended March 31, 2012, as compared to the same period in 2011. Increases in property taxes and repairs and maintenance were partially offset by reductions in media advertising and utilities.

Property tax expense increased 4.1% in the three months ended March 31, 2012, as compared to the same period in 2011. We expect property tax expense growth of approximately 4.0% in the year ending December 31, 2012, due primarily to higher assessed values.

On-site property manager payroll expense increased approximately 0.6% in the three months ended March 31, 2012, as compared to the same period in 2011. We expect payroll expense to be relatively flat in the remainder of 2012, compared to 2011.

Repairs and maintenance expenditures increased 11.7% in the three months ended March 31, 2012, as compared to the same period in 2011. Repairs and maintenance expenditures are dependent upon several factors, such as weather, the timing of periodic needs throughout our portfolio, inflation in material and labor costs, and random events. Included in our repairs and maintenance expenditures in the three months ended March 31, 2012 and 2011 was approximately \$1.8 million and \$3.1 million, respectively, in snow removal costs. During the quarter ended March 31, 2012, we accelerated some of our normal repair and maintenance expenditures due to mild weather. While these expenditures can vary considerably from period to period and are difficult to project, we expect full year repairs and maintenance expenditures in 2012, excluding snow removal expenses totaling \$4.3 million during the year ended December 31,

2011, to approximate the levels incurred in 2011.

Utility expenses decreased 6.7% in the three months ended March 31, 2012, as compared to the same period in 2011. The decrease is due primarily to reduced usage driven by milder weather. It is difficult to estimate future utility cost levels because utility costs are primarily dependent upon changes in demand driven by weather and temperature, as well as fuel prices, each of which are volatile and not predictable.

Media advertising decreased 22.3% in the three months ended March 31, 2012, as compared to the same period in 2011. This decrease is due primarily to reductions in the number of markets in which we advertised on television. We expect media advertising in the quarter ending June 30, 2012 to approximate the amount incurred in the same period in 2011. Media advertising costs in particular can be volatile and increase or decrease significantly in the short-term.

Other advertising and selling expense is comprised principally of yellow page, Internet advertising, and the operating costs of our telephone reservation center, which decreased 5.9% in the three months ended March 31, 2012, as compared to the same period in 2011. This decrease is due primarily to lower yellow page advertising expense, due primarily to lower rates.

Our future spending on yellow page, media, and Internet advertising will be driven in part by demand for our self-storage spaces, our occupancy levels, and the relative cost and efficacy of each type of advertising.

Other direct property costs include administrative expenses that are solely attributable to the self-storage facilities, such as property insurance, office expenses incurred at the property and by supervisory personnel, telephone and data communication lines at the properties, business license costs, and bank charges related to handling the properties cash deposits. We expect moderate growth in other direct property costs in the remainder of 2012 as compared to the same periods in 2011.

Supervisory payroll expense represents compensation paid to the management which directly and indirectly supervises the on-site property managers, and increased 6.9% in the three months ended March 31, 2012, as compared to the same period in 2011. This increase is due principally to increased headcount. We expect more moderate growth in supervisory payroll in the remainder of 2012.

Allocated overhead represents administrative expenses for shared general corporate functions, which are allocated to self-storage property operations to the extent their efforts are devoted to self-storage operations. Such functions include data processing, human resources, operational accounting and finance, marketing, and costs of senior executives (other than the Chief Executive Officer and Chief Financial Officer). The increase is due principally to increased headcount. We expect moderate growth in allocated overhead in the remainder of 2012 as compared to the same periods in 2011.

The following table summarizes selected quarterly financial data with respect to the Same Store Facilities:

Edgar Filing: Public Storage - Form 10-Q

All other states	11.15	10.66	4.6 %
Total REVPAF	\$ 11.89	\$ 11.36	4.7 %

We believe that our geographic diversification and scale provide some insulation from localized economic effects and add to the stability of our cash flows. It is difficult to predict localized trends in short-term self-storage demand and operating results. Over the long run, we believe that markets that experience population growth, high employment, and otherwise exhibit economic strength and consistency will outperform markets that do not exhibit these characteristics.

Non Same Store Facilities

The Non Same Store Facilities include 107 facilities that were not stabilized with respect to occupancies or rental rates since January 1, 2010, or were acquired since January 1, 2010. As a result of the stabilization process and timing of when the facilities were put into place, year-over-year changes can be significant. In the following table, "Facilities placed into service in 2012" includes six facilities acquired from third parties in the three months ended March 31, 2012. "Facilities placed into service in 2011" includes 11 facilities acquired from third parties, one facility that was newly developed, and two facilities that we obtained control of and began consolidating in the year ended December 31, 2011. "Other facilities" includes 42 facilities we acquired in 2010, as well as 45 other facilities that we have owned since January 1, 2010 that are not stabilized due to the addition of more net rentable square feet or due to casualty damage.

The following table summarizes operating data with respect to these facilities:

40

Edgar Filing: Public Storage - Form 10-Q

NON SAME STORE FACILITIES	Three Months Ended March 31, 2012 2011 Change (Dollar amounts in thousands, except square foot amounts)

	7,896	6,444	1,452

(a) See “Net Operating Income” below for a reconciliation of this non-GAAP measure to our net income in our statements of income for the three months ended March 31, 2012 and 2011.

During the three months ended March 31, 2012, we acquired six facilities for an aggregate cost of \$42.0 million. The weighted average aggregate capitalization rates for these properties are not meaningful as these properties were acquired late in the quarter.

In 2011, we acquired 11 facilities for an aggregate cost of \$80.4 million. The weighted average aggregate capitalization rates for these acquisitions, based upon annualizing the net operating income of these facilities for the three months ended March 31, 2012, was approximately 7.5% and the average occupancy was 79.9%.

In addition, during 2011, we obtained control of two entities we had a partial interest in, and began consolidating the two stabilized self-storage facilities (143,000 net rentable square feet) owned by these entities.

We believe that our management, promotion, and operating infrastructure will result in newly acquired facilities stabilizing at a higher level of net operating income than was achieved by the previous owners, who are typically smaller operators. However, it can take 24 or more months for these newly acquired facilities to reach stabilization, and the ultimate levels of rent to be achieved can be affected by changes in general economic conditions. As a result, there can be no assurance that our expectations with respect to these facilities will be achieved. However, we expect the Non Same Store Facilities will continue to provide earnings growth during 2012 as these facilities approach stabilized occupancy levels, and the earnings of 2011 acquisitions are reflected in our operations for a full year.

Equity in earnings of unconsolidated real estate entities

At March 31, 2012, we have equity investments in PSB, Shurgard Europe and two limited partnerships. We account for such investments using the equity method.

Equity in earnings of unconsolidated real estate entities for the three months ended March 31, 2012 and 2011 consists of our pro-rata share of the net income of these unconsolidated real estate entities based upon our ownership interest for the period. The following table sets forth the significant components of equity in earnings of unconsolidated real estate entities.

Historical summary:	Three Months Ended March 31,		
	2012	2011	Change
	(Amounts in thousands)		
Equity in earnings of unconsolidated real estate entities:			
PSB	\$ 1,895	\$ 8,784	\$ (6,889)
Shurgard			
Europe	6,842	4,527	2,315
Other			
Investments	378	405	(27)
Total equity in earnings of unconsolidated real estate entities	\$ 9,115	\$ 13,716	\$ (4,601)

Investment in PSB: At March 31, 2012, we have a 42% common equity interest in PSB, comprised of our ownership of 5,801,606 shares of PSB's common stock and 7,305,355 limited partnership units in PSB's underlying operating partnership. The limited partnership units are convertible at our option, subject to certain conditions, on a one-for-one basis into PSB common stock.

At March 31, 2012, PSB owned and operated 27.2 million rentable square feet of commercial space located in eight states. PSB also manages commercial space owned by the Company and affiliated entities pursuant to property management agreements.

Equity in earnings from PSB decreased to \$1.9 million in the three months ended March 31, 2011 as compared to \$8.8 million in the same period in 2011. This decrease was principally due to (i) the impact of redemptions of preferred securities, which increased income allocations to the preferred equity holders in the quarter ended March 31, 2012, as compared to reducing income allocations in the same period in 2011, (ii) increased depreciation and interest expense, each as a result of the properties PSB acquired in 2011, partially offset by (iii) incremental income generated by the properties PSB acquired in 2011. See Note 4 to our March 31, 2012 financial statements for selected financial information on PSB, as well as PSB's filings and selected financial information that can be accessed through the Securities and Exchange Commission, and on PSB's website, www.psbusinessparks.com.

We expect our future equity income from PSB to be dependent entirely upon PSB's operating results. Our investment in PSB provides us with some diversification into another asset type. We have no plans of disposing of our investment in PSB.

Investment in Shurgard Europe: Equity in earnings of Shurgard Europe represents our 49% equity share of Shurgard Europe's net income. At December 31, 2011 and March 31, 2012, Shurgard Europe's operations are comprised of 188 wholly-owned facilities with 10 million net rentable square feet. Selected financial data for Shurgard Europe for each of the three month periods ended March 31, 2012 and 2011, respectively, is included in Note 4 to our financial statements. As described in more detail in Note 4, we receive interest income and trademark license fees from Shurgard Europe, of which 49% is classified as equity in earnings and the remaining 51% as interest and other income.

Equity in earnings from Shurgard Europe for the three months ended March 31, 2012 was \$6.8 million as compared to \$4.5 million for the same period in 2011, representing an increase of \$2.3 million. The increase was primarily due to Shurgard Europe's acquisition on March 2, 2011 of the 80% interests it did not own in two joint ventures that owned 72 self-storage facilities.

Our equity in earnings from Shurgard Europe is affected by exchange rates, most notably the exchange rate between the U.S. Dollar and the Euro. The average exchange rates for the U.S. Dollar to the Euro decreased from 1.366 for the three months ended March 31, 2011 to 1.310 for the same period in 2012.

Our future earnings from Shurgard Europe will be affected primarily by the operating results of its existing stabilized facilities described below, which represent 163 of the 188 facilities that Shurgard Europe owns. Shurgard Europe's 25 non-same store facilities had average occupancies of approximately 66% during the three months ended March 31, 2012. There can be no assurance about the ultimate level of occupancy of the non-same store facilities.

European Same-Store Facilities: The Shurgard Europe Same Store Pool represents those 163 facilities that are wholly-owned at March 31, 2012 and have been operated by Shurgard Europe at a stabilized occupancy level since January 1, 2010 and therefore provide meaningful comparisons for 2011 and 2012. We evaluate the performance of these facilities because Shurgard Europe's ability to effectively manage stabilized facilities represents an important measure of its ability to grow its earnings over the long-term.

The following table reflects 100% of the operating results of those 163 facilities, and we restate the exchange rates used in prior year's presentation to the actual exchange rates for 2011. However, only our pro rata share of the operating results for these facilities, based upon the actual exchange rates for each period, is included in "equity in earnings of unconsolidated real estate entities" on our statements of income.

Selected Operating Data for the 163 facilities operated by Shurgard Europe on a stabilized basis since January 1, 2010 (“European Same Store Facilities”):

	Three Months Ended March 31,		
	2012	2011	Percentage Change
	(Dollar amounts in thousands, except weighted average data, utilizing constant exchange rates) (a)		
Revenues	\$ 47,433	\$ 47,443	0.0 %
Less: Cost of operations (excluding depreciation and amortization expenses):	20,733	20,895	(0.8) %
Net operating income (b)	\$ 26,700	\$ 26,548	0.6 %
Gross margin	56.3 %	56.0 %	0.5 %
Weighted average for the period:			
Square foot occupancy (c)	83.8 %	84.6 %	(0.9) %
Realized annual rent per occupied square foot (d)(e)	\$ 25.66	\$ 25.36	1.2 %
REVPAF (e)(f)	\$ 21.51	\$ 21.46	0.2 %
Weighted average at March 31:			
Square foot occupancy	83.8 %	84.5 %	(0.8) %
In place annual rent per occupied square foot (g)	\$ 28.74	\$ 28.18	2.0 %
Total net rentable square feet (in thousands)	8,677	8,677	-
Average Euro to the U.S. Dollar (a):			
Constant exchange rates used herein	1.310	1.310	-
Actual historical exchange rates	1.310	1.366	(4.1) %

- (a) In order to isolate changes in the underlying operations from the impact of exchange rates, the amounts in this table are presented on a constant exchange rate basis. The amounts for the three months ended March 31, 2011 have been restated using the actual exchange rate for the three months ended March 31, 2012.
- (b) We present net operating income “NOI” of the European Same Store Facilities, which is a non-GAAP financial measure that excludes the impact of depreciation and amortization expense. Although depreciation and amortization is a component of GAAP net income, we believe that NOI is a meaningful measure of operating performance, because we utilize NOI in making decisions with respect to capital allocations, segment performance, and comparing period-to-period and market-to-market property operating results. In addition, the investment community utilizes NOI in determining real estate values, and does not consider depreciation expense as it is based upon historical cost. NOI is not a substitute for net operating income after depreciation and

amortization in evaluating our operating results.

- (c) Square foot occupancies represent weighted average occupancy levels over the entire period.
- (d) Realized annual rent per occupied square foot is computed by annualizing the result of dividing rental income (which excludes late charges and administrative fees) by the weighted average occupied square feet for the period. Realized annual rent per occupied square foot takes into consideration promotional discounts that reduce rental income from the contractual amounts due.
- (e) Late charges and administrative fees are excluded from the computation of realized annual rent per occupied square foot and REVPAF. Exclusion of these amounts provides a better measure of our ongoing level of revenue.
- (f) Realized annual rent per available foot or “REVPAF” is computed by dividing rental income before late charges and administrative fees by the total available net rentable square feet for the period.
- (g) In place annual rent per occupied square foot represents annualized contractual rents per occupied square foot without reductions for promotional discounts and excludes late charges and administrative fees.

Net operating income increased 0.6% at March 31, 2012 as compared to the same period in 2011, due principally to a decrease in expenses. Based upon current operating trends and metrics, we do not expect growth in the net operating income of the European Same Store Facilities in 2012. In Note 4 to our March 31, 2012 financial statements, we disclose Shurgard Europe’s consolidated operating results for the three months ended March 31, 2012 and 2011. Shurgard Europe’s consolidated operating results include additional facilities that are not European Same Store Facilities, and are based upon historical exchange rates rather than constant exchange rates for each of the respective periods.

See “Liquidity and Capital Resources – Shurgard Europe” for additional information on Shurgard Europe’s liquidity.

Other Investments: The “Other Investments” at March 31, 2012 are comprised primarily of our equity in earnings from two limited partnerships that collectively own 17 self-storage facilities. Our future earnings with respect to the Other Investments will be dependent upon the operating results of the facilities that these entities own. See Note 4 to our March 31, 2012 financial statements for the operating results of these 17 facilities under the “Other Investments.”

Ancillary Operations

Ancillary revenues and expenses include amounts associated with (i) the reinsurance of policies against losses to goods stored by tenants in our self-storage facilities in the U.S., (ii) merchandise sales, (iii) commercial property operations, and (iv) management of facilities for third parties and facilities owned by the Unconsolidated Real Estate Entities.

Commercial property operations are included in our Commercial segment, and all other ancillary revenues and costs of operations are not allocated to any segment. See Note 11 to our March 31, 2012 financial statements for further information regarding our segments and for a reconciliation of these ancillary revenues and cost of operations to our net income.

The following table sets forth our ancillary operations as presented on our statements of income.

	Three Months Ended March 31		
	2012	2011	Change
	(Amounts in thousands)		
Ancillary Revenues:			
Tenant reinsurance premiums	\$ 18,592	\$ 16,755	\$ 1,837
Commercial	3,501	3,800	(299)
Merchandise and other	7,183	6,360	823
Total revenues	29,276	26,915	2,361
Ancillary Cost of Operations:			
Tenant reinsurance	3,533	3,118	415
Commercial	1,304	1,514	(210)
Merchandise and other	4,681	4,282	399
Total cost of operations	9,518	8,914	604
Depreciation – commercial operations:	700	673	27
Ancillary net income:			
Tenant reinsurance	15,059	13,637	1,422
Commercial	1,497	1,613	(116)
Merchandise and other	2,502	2,078	424

Edgar Filing: Public Storage - Form 10-Q

Total ancillary net income	\$ 19,058	\$ 17,328	\$ 1,730
----------------------------	-----------	-----------	----------

Tenant reinsurance operations: We reinsure policies offered through a non-affiliated insurance company against losses to goods stored by tenants in the domestic self-storage facilities we operate. The revenues that we record are based upon premiums that we reinsure. The level of tenant reinsurance revenues is largely dependent upon the number of new tenants electing to purchase policies, the level of premiums charged for such insurance, and the number of tenants that continue participating in the insurance program. Cost of operations primarily includes claims paid that are not covered by our outside third-party insurers, as well as claims adjustment expenses, and is dependent primarily upon the level of losses incurred, including the level of catastrophic events, such as hurricanes, that occur and affect our properties thereby increasing tenant insurance claims.

The increase in tenant reinsurance revenues over the past year was due primarily to an increase in the percentage of our existing tenants retaining such policies and in increase in premium rates. On average, approximately 62% and 59% of our tenants had such policies during the three months ended March 31, 2012 and 2011, respectively. We expect less growth in the percentage of tenants retaining insurance policies in the remainder of 2012 as compared to the same periods in 2011.

Commercial operations: We also operate commercial facilities, primarily small storefronts and office space located on or near our existing self-storage facilities that are rented to third parties. We do not expect any significant changes in revenues or profitability from our commercial operations.

Merchandise sales and other: We sell locks, boxes, and packing supplies at the self-storage facilities that we operate, and to a much lesser extent, we manage self-storage facilities in the U.S. for third party owners and the Unconsolidated Real Estate Entities. The primary factor impacting the level of merchandise sales is the level of customer traffic at our self-storage facilities, including the level of move-ins. During the three months ended March 31, 2012, merchandise sales and margins were positively impacted by higher retail prices for our locks, as compared to the same period in 2011.

Other Income and Expense Items

Interest and other income: Interest and other income was \$5.7 million and \$7.8 million in the three months ended March 31, 2012 and 2011, respectively, comprised primarily of interest and other income from Shurgard Europe.

The interest and other income from Shurgard Europe is comprised of interest income on loans receivable from Shurgard Europe, as well as trademark license fees received from Shurgard Europe for the use of the "Shurgard" trade name. We record 51% of the aggregate interest income and trademark license fees as interest and other income, while 49% is presented as additional equity in earnings on our statements of income.

Interest and other income from Shurgard Europe decreased from \$6.8 million in the three months ended March 31, 2011 to \$5.1 million in the same period in 2012, due primarily to principal payments received in 2011 on our loan receivable from Shurgard Europe, and the extinguishment of a bridge loan to Shurgard Europe that was outstanding between March 2, 2011 and June 15, 2011 (see Note 5 to our March 31, 2012 financial statements for more information).

The loan receivable from Shurgard Europe, denominated in Euros, totaling €311.0 million (\$414.8 million) as of March 31, 2012, and €311.0 million (\$402.7 million) as of December 31, 2011, matures in February 2015. Future interest income recorded in connection with this loan will be dependent upon the average outstanding balance as well as the exchange rate of the Euro versus the U.S. Dollar. All such interest has been paid currently when due and we expect the interest to continue to be paid when due with Shurgard Europe's operating cash flow. The terms of a loan payable by Shurgard Europe to a bank requires significant principal reduction through the maturity date in November 2014, as a result during this period future principal repayments on our loan will be limited.

The remainder of our interest and other income is comprised primarily of interest earned on cash balances as well as sundry other income items that are received from time to time in varying amounts. Interest income on cash balances has been minimal, because rates have been at historic lows of 0.1% or less, and we expect this trend to continue in the foreseeable future. Future earnings from sundry other income items are not predictable.

Depreciation and amortization: Depreciation and amortization expense was \$86.9 million and \$88.5 million for the three months ended March 31, 2012 and 2011, respectively.

The decrease in depreciation and amortization expense for the three months ended March 31, 2012 as compared to the same period in 2011 is primarily due to a \$1.5 million decrease in amortization expense with respect to tenant intangible assets.

We expect approximately \$5.3 million in intangible amortization during the remainder of 2012, with respect to our intangible assets at March 31, 2012. We expect an approximately \$3.0 million reduction in depreciation in 2012, as compared to 2011, with respect to fully depreciated buildings. The level of future depreciation and amortization will also depend upon the level of acquisitions of facilities, and the level of capital expenditures we incur on our facilities.

General and administrative expense: General and administrative expense was \$16.4 million and \$14.2 million for the three months ended March 31, 2012 and 2011, respectively, and is set forth in the following table:

	Three Months Ended March 31		
	2012	2011	Change
	(Amounts in thousands)		
Stock based compensation expense	\$ 5,305	\$ 5,070	\$ 235
Costs of senior executives	3,485	2,056	1,429
Development and acquisition overhead	2,513	1,992	521
Tax compliance costs and taxes paid	1,622	1,720	(98)
Legal costs	1,632	1,330	302
Public company costs	810	849	(39)
Other	1,038	1,218	(180)
Total	\$ 16,405	\$ 14,235	\$ 2,170

Stock based compensation expense includes the amortization of restricted share and stock options granted to employees, as well as employer taxes incurred upon vesting of restricted shares and upon exercise of employee stock options. The level of stock-based compensation expense varies based upon the level of grants and forfeitures.

Costs of senior executives represents principally the cash compensation paid to our chief executive officer and chief financial officer, and has increased due to an increase in incentive compensation paid in the three months ended March 31, 2012 as compared to the same period in 2011.

Development and acquisition overhead represents the internal and external expenses of identifying, evaluating, and implementing our acquisition and development activities and varies primarily based upon the level of development and acquisition activities undertaken.

Tax compliance costs and taxes paid include taxes paid to various state and local authorities based upon our self-storage activities, as well as the internal and external costs of filing tax returns and other costs associated with complying with federal and state tax laws.

Legal costs include internal personnel as well as fees paid to legal firms and other third parties with respect to general corporate legal matters and risk management, and varies based upon the level of litigation.

Public company costs represent the incremental costs of operating as a publicly-traded REIT, such as internal and external investor relations expenses, stock listing and transfer agent fees, board of directors' costs, and costs associated with maintaining compliance with the Sarbanes-Oxley act.

Interest expense: Interest expense was \$5.3 million, and \$7.0 million, for the three months ended March 31, 2012 and 2011, respectively.

The decrease in the three months ended March 31, 2012 as compared to the same period in 2011 is due to principal repayments, most notably the repayment in February 2011 of approximately \$103 million of unsecured notes payable with an effective rate of interest of 5.7%.

See Note 6 to our March 31, 2012 financial statements for a schedule of our notes payable balances, principal repayment requirements, and average interest rates.

Foreign Exchange Gain: We recorded a foreign currency translation gains of \$12.2 million and \$31.3 million in the three months ended March 31, 2012 and 2011, respectively, representing the change in the U.S. Dollar equivalent of our Euro-based loan receivable from Shurgard Europe due to changes in exchange rates. We have not entered into any agreements to mitigate the impact of currency exchange fluctuations between the U.S. Dollar and the Euro, therefore the amount of U.S. Dollars we will receive on repayment will depend upon the currency exchange rates at that time. We record the exchange gains or losses into income each period because of our continued expectation of repayment of the loan in the foreseeable future. The U.S. Dollar exchange rate relative to the Euro was approximately 1.334 and 1.295 at March 31, 2012 and December 31, 2011, respectively.

Future foreign exchange gains or losses will be dependent primarily upon the movement of the Euro relative to the U.S. Dollar, the amount owed from Shurgard Europe and our continued expectation of collecting the principal on the loan in the foreseeable future.

Net Income Allocable to Noncontrolling Interests: Net income allocable to noncontrolling interests decreased during the three months ended March 31, 2012 as compared to the same period in 2011, due primarily to our acquisition of noncontrolling interests during the year ended December 31, 2011. We allocated \$0.2 million in income during the three months ended March 31, 2012 to noncontrolling interests we acquired on March 31, 2012.

Net Income Allocable to Preferred Shareholders: Net income allocable to preferred shareholders increased during the three months ended March 31, 2012 as compared to the same period in 2011, due primarily to increased allocations based upon redemptions of preferred shares. Based upon preferred shares outstanding at April 12, 2012 and adjusted for the redemption in full of our 7.0% Series N Preferred Shares on July 2, 2012, our regular quarterly preferred distribution is expected to be approximately \$47.3 million. Based upon the July 2, 2012 redemption, we expect to allocate an additional approximately \$5.4 million of income to the preferred shareholders during the three months ending June 30, 2012.

Net Operating Income

In our discussions above, we refer to net operating income (“NOI”) of our self-storage facilities, which is a non-GAAP financial measure that excludes the impact of depreciation and amortization expense. Although depreciation and amortization are a component of GAAP net income, we believe that NOI is a meaningful measure of operating performance, because we utilize NOI in making decisions with respect to capital allocations, property performance, and comparing period-to-period and market-to-market property operating results. In addition, we believe the investment community utilizes NOI in determining operating performance and real estate values, and does not consider depreciation expense as it is based upon historical cost. NOI is not a substitute for net operating income after depreciation and amortization or net income in evaluating our operating results. The following reconciles NOI generated by our self-storage segment to our net income in our March 31, 2012 financial statements.

Edgar Filing: Public Storage - Form 10-Q

	Three Months Ended March 31,	
	2012	2011
	(Amounts in thousands)

Net income of the Company	\$ 206,722	\$ 210,568

Liquidity and Capital Resources

We believe that our cash balances and the internally generated net cash provided by our operating activities will continue to be sufficient to enable us to meet our operating expenses, debt service requirements, capital improvements and distribution requirements to our shareholders for the foreseeable future.

Operating as a REIT, our ability to retain cash flow for reinvestment is restricted. In order for us to maintain our REIT status, a substantial portion of our operating cash flow must be distributed to our shareholders (see “Requirement to Pay Distributions” below). However, despite the significant distribution requirements, we have been able to retain a significant amount of our operating cash flow. The following table summarizes our ability to fund capital improvements to maintain our facilities, distributions to the noncontrolling interests, and distributions to our shareholders through the use of cash provided by operating activities. The remaining cash flow generated is available to make both scheduled and optional principal payments on debt and for reinvestment.

	For the Three Months Ended March 31,	
	2012	2011
	(Amount in thousands)	
Net cash provided by operating activities (a)	\$ 279,490	\$ 264,819
Capital improvements to real estate facilities	(14,278)	(11,874)
Remaining operating cash flow available for distributions to equity holders	265,212	252,945
Distributions paid to noncontrolling interests	(1,739)	(3,857)
Distributions paid to common shareholders and restricted share unitholders (\$1.10 per share for the quarter ended March 31, 2012 as compared to \$0.80 per share for the same period in 2011)	(188,148)	(135,888)
Distributions paid to preferred shareholders	(55,095)	(57,617)
Cash from operations available for principal payments on debt and reinvestment (b)	\$ 20,230	\$ 55,583

- (a) Represents net cash provided by operating activities for each respective period as presented in our March 31, 2012 statements of cash flows.
- (b) We present cash from operations available for principal payments on debt and reinvestment because we believe it is an important measure to evaluate our ongoing liquidity. This measure is not a substitute for cash flows from operations or net cash flows in evaluating our liquidity, ability to repay our debt, or to meet our distribution requirements. In addition, this measure is not necessarily indicative of what can be expected for the year ended December 31, 2012, because cash generated by operating activities varies seasonally, while dividends vary based upon the dividend rate. However, we expect the cash from operations available for principal payments on debt

and reinvestment for the full year ended December 31, 2012 to exceed the annualized amount for the three months ended March 31, 2012.

Our financial profile is characterized by a low level of debt-to-total-capitalization. We expect to fund our long-term growth strategies and debt obligations with (i) cash at March 31, 2012, (ii) internally generated retained cash flows, (iii) depending upon market conditions, proceeds from the issuance of common or preferred equity securities, and (iv) in the case of acquisitions of facilities, the assumption of existing debt. In general, our strategy is to continue to finance our growth with permanent capital, either retained operating cash flow or capital raised through the issuance of common or preferred equity to the extent that market conditions are favorable.

We have elected to use preferred securities as a form of leverage despite the fact that the dividend rates of our preferred securities exceed the prevailing market interest rates on conventional debt. We have chosen this method of financing for the following reasons: (i) under the REIT structure, a significant amount of operating cash flow needs to be distributed to our shareholders, making it difficult to repay debt with operating cash flow alone, (ii) our perpetual preferred shares have no sinking fund requirement or maturity date and do not require redemption, all of which eliminate future refinancing risks, (iii) after the end of a non-call period, we have the option to redeem the preferred shares at any time, which enables us to refinance higher coupon preferred shares with new preferred shares at lower rates if appropriate, (iv) preferred shares do not contain covenants, thus allowing us to maintain significant financial flexibility, and (v) dividends on the preferred shares can be applied to satisfy our REIT distribution requirements.

Our credit ratings on each of our series of preferred shares are “Baa1” by Moody’s, “BBB+” by Standard & Poor’s and “A-” by Fitch Ratings.

Summary of Current Cash Balances and Short-term Capital Commitments: At March 31, 2012, we had approximately \$620.1 million of cash and we have access to a \$300 million line of credit which expires March 21, 2017. On April 11, 2012, we paid \$476.6 million (excluding accrued dividends) to redeem our Series M Cumulative Preferred Shares. As of May 4, 2012, we are under contract to acquire four self-storage properties for an aggregate purchase price of \$46.0 million, cash, subject to contingencies. We expect the pending acquisitions of these properties will close in the second quarter of 2012. We have called our Series N Preferred Shares (\$172.5 million) for redemption on July 2, 2012. We have no other significant commitments until 2013, when \$264.9 million of existing debt comes due.

Access to Additional Capital: We have a revolving line of credit for borrowings up to \$300 million line of credit which expires March 21, 2017, with no outstanding borrowings at May 4, 2012. We seldom borrow on the line of credit and generally view borrowings on the line as a means to bridge capital needs until we are able to refinance them with permanent capital.

We believe that we are not dependent upon raising capital to fund our operations or meet our obligations. However, access to capital is important to growing our asset base. When growth capital is needed, we select either common or preferred securities based upon the relative cost of capital. For at least the last ten years, we have raised cash proceeds for growth and other corporate purposes primarily through the issuance of preferred securities, while we have issued common stock only in connection with mergers and the acquisition of interests in real estate entities. During periods of favorable market conditions, we have generally been able to raise capital at attractive costs; however, there can be no assurance that future market conditions will be favorable.

Debt Service Requirements: At March 31, 2012, outstanding debt totaled approximately \$373.0 million. Approximate principal maturities are as follows (amounts in thousands):

	Unsecured debt	Secured debt	Total
2012 (remainder)	\$ -	\$ 26,835	\$ 26,835
2013	186,460	78,391	264,851
2014	-	35,127	35,127
2015	-	30,009	30,009
2016	-	10,065	10,065
Thereafter	-	6,092	6,092
	\$ 186,460	\$ 186,519	\$ 372,979

Our current intention is to repay the debt at maturity and not seek to refinance debt maturities with additional debt. Alternatively, we may prepay debt and finance such prepayments with cash on-hand or proceeds from the issuance of preferred or common securities.

Our portfolio of real estate facilities is substantially unencumbered. At March 31, 2012, we have 1,977 self-storage facilities with an aggregate net book value of approximately \$6.9 billion that are unencumbered.

Capital Improvement Requirements: Capital improvements include major repairs or replacements to elements of our facilities, which keep the facilities in good operating condition and maintain their visual appeal to the customer. Capital improvements do not include costs relating to the development of new facilities or the expansion of net rentable square footage of existing facilities. We incurred capital improvements totaling \$14.3 million during the

three months ended March 31, 2012. During 2012, we expect to incur approximately \$70 million for capital improvements and expect to fund such improvements with operating cash flow.

Requirement to Pay Distributions: We have operated, and intend to continue to operate, in such a manner as to qualify as a REIT under the Code, but no assurance can be given that we will at all times so qualify. To the extent that we continue to qualify as a REIT, we will not be taxed, with certain limited exceptions, on the REIT taxable income that is distributed to our shareholders, provided that at least 90% of our taxable income is so distributed. We believe we have satisfied the REIT distribution requirement since 1981.

Aggregate REIT qualifying distributions paid during the three months ended March 31, 2012 totaled \$243.2 million, consisting of \$55.1 million to cumulative preferred shareholders and \$188.1 million to common shareholders and restricted share unitholders.

We estimate the annual distribution requirements with respect to our cumulative preferred shares outstanding at March 31, 2012, adjusted for the April 2012 redemption of our Series M Cumulative Preferred Shares and the July 2, 2012 redemption of our Series N Cumulative Preferred Shares to be approximately \$189 million per year.

On May 3, 2012, our Board of Trustees declared a regular common quarterly dividend of \$1.10 per common share. Our consistent, long-term dividend policy has been to distribute only our taxable income. Future quarterly distributions with respect to the common shares will continue to be determined based upon our REIT distribution requirements after taking into consideration distributions to the preferred shareholders and will be funded with operating cash flow.

We are obligated to pay distributions to noncontrolling interests in our consolidated subsidiaries based upon the operating cash flows of the respective subsidiary less any required reserves for capital expenditures or debt repayment. We paid \$1.1 million in the first quarter of 2012 with respect to such non-controlling interests outstanding at March 31, 2012, which represents our expectation with respect to future distributions to these interests.

Acquisition and Development Activities: At March 31, 2012, we were not under contract to acquire any properties. During the remainder of 2012, we will continue to seek to acquire self-storage facilities from third parties; however, it is difficult to estimate the amount of third party acquisitions we will undertake. As of May 4, 2012 we are under contract (subject to contingencies) to acquire four self-storage properties from third parties, for an aggregate of \$46.0 million in cash. We have a minimal development pipeline at March 31, 2012 and have no current plans to expand our development activities. We plan on financing our development and acquisition activities in one or more of the following ways: with available cash on-hand, the assumption of existing debt, borrowings on our line of credit, or the net proceeds from the issuance of common or preferred securities.

Shurgard Europe: We have a 49% interest in Shurgard Europe and our institutional partner owns the remaining 51% interest. As of March 31, 2012, we had a €311.0 million loan receivable from Shurgard Europe totaling \$414.8 million, which bears interest at a fixed rate of 9.0% per annum and matures February 15, 2015. The loan can be prepaid in part or in full at any time without penalty. This loan is denominated in Euros and is translated to U.S. Dollars for financial statement purposes.

In November 2011, Shurgard Europe obtained a three year term loan of €215 million from Wells Fargo (the "Wells Fargo Loan"), and used the proceeds to refinance existing loans totaling €183 million and make an additional principal payment of €32 million on the Public Storage loan. The Wells Fargo Loan is without recourse to Public Storage or our institutional partner.

Our loan to Shurgard Europe participates pari passu with the Wells Fargo Loan in a liquidation of Shurgard Europe. In addition, Shurgard Europe is obligated to utilize most of its available cashflow to make principal payments on the Wells Fargo Loan, which limits the principal payments that could otherwise be made on our loan. Future

prepayments will be dependent upon Shurgard Europe's management's evaluation of uses for the capital available from operations after making principal payments on the Wells Fargo Loan, and the availability of other sources of capital. Further, consistent with prior years, we do not expect to receive cash distributions from Shurgard Europe with respect to our 49% equity interest for the foreseeable future.

Redemption of Preferred Securities: As of March 31, 2012, several series of our preferred securities were redeemable at our option upon at least 30 days' notice with dividend rates ranging from 6.125% to 6.600% and have an aggregate redemption value of approximately \$1.0 billion. Generally our strategy is to redeem a preferred security with the proceeds from the issuance of a new preferred series having a lower dividend rate, thus reducing our cost of capital, but not necessarily reducing our overall leverage. However, we may use cash on hand to redeem preferred securities, reducing our aggregate preferred securities outstanding. Accordingly, the redemption of any of the series of preferred securities that are callable will depend upon many factors including current dividend rates that we might pay on newly issued preferred securities, as well as comparison of the acquisition of preferred securities to other investment alternatives with respect to the use of cash on hand. None of our preferred securities are redeemable at the option of the holders.

We have called our Series N Preferred Shares for redemption on July 2, 2012.

Repurchases of Company's Common Shares: Our Board of Trustees has authorized the repurchase from time to time of up to 35,000,000 of our common shares on the open market or in privately negotiated transactions. During the three months ended March 31, 2012, we did not repurchase any of our common shares. From the inception of the repurchase program through May 4, 2012, we have repurchased a total of 23,721,916 common shares at an aggregate cost of approximately \$679.1 million. Future levels of common share repurchases will be dependent upon our available capital, investment alternatives, and the trading price of our common shares. We believe that our cash and the internally generated net cash provided by our operating activities will continue to be sufficient to enable us to meet our operating expenses, debt service requirements, capital improvements and distribution requirements to our shareholders for the foreseeable future.

Contractual Obligations

Our significant contractual obligations at March 31, 2012 and their impact on our cash flows and liquidity are summarized below for the years ending December 31 (amounts in thousands):

	Total	Remainder of 2012	2013	2014	2015	2016	Thereafter
Long-term debt (1)	\$409,062	\$46,707	\$274,412	\$38,534	\$31,358	\$10,851	\$7,200
Preferred shares called for redemption (2)	476,634	476,634	-	-	-	-	-
Operating leases (3)	69,622	3,306	4,447	4,325	3,356	3,201	50,987
Total	\$955,318	\$526,647	\$278,859	\$42,859	\$34,714	\$14,052	\$58,187

(1) Amounts include principal and fixed-rate interest payments on our notes payable based on their contractual terms. See Note 6 to our March 31, 2012 financial statements for additional information on our notes payable.

- (2) In March 2012, we called for redemption all of our Cumulative Preferred Shares, Series M, at par plus accrued dividends. We redeemed these shares on April 11, 2012. Amounts include the liquidation amount of \$476.6 million.

- (3) We lease land, equipment and office space under various operating leases. Certain leases are cancelable; however, significant penalties would be incurred upon cancellation. Amounts reflected above consider continuance of the lease without cancellation.

Off-Balance Sheet Arrangements: At March 31, 2012, we had no material off-balance sheet arrangements as defined under Regulation S-K 303(a)(4) and the instructions thereto.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

To limit our exposure to market risk, we are capitalized primarily with preferred and common equity. Our preferred shares are redeemable at our option generally five years after issuance, but the holder has no redemption option. Our debt is our only market-risk sensitive portion of our capital structure, which totals \$373.0 million and represents 4.5% of the book value of our equity at March 31, 2012.

We have foreign currency exposures related to our investment in Shurgard Europe, which has a book value of \$388.3 million at March 31, 2012. We also have a loan receivable from Shurgard Europe, which is denominated in Euros, totaling €311.0 million (\$414.8 million) at March 31, 2012.

The table below summarizes annual debt maturities and weighted-average interest rates on our outstanding debt at the end of each year and fair values required to evaluate our expected cash-flows under debt agreements and our sensitivity to interest rate changes at March 31, 2012 (dollar amounts in thousands).

	Remainder of 2012		2013		2014		2015		2016		Thereafter		Total	Fair Value
Fixed rate debt	\$26,835		\$264,851		\$35,127		\$30,009		\$10,065		\$6,092		\$372,979	\$378,497
Average interest rate	5.53	%	5.72	%	5.34	%	4.33	%	5.59	%	5.66	%		
Variable rate debt (1)	\$-		\$-		\$-		\$-		\$-		\$-		\$-	\$-
Average interest rate														

- (1) Amounts include borrowings under our line of credit, which expires in March 2017. As of March 31, 2012, we have no borrowings under our line of credit.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file and submit under the Securities Exchange Act of 1934, as amended, ("Exchange Act") is recorded, processed, summarized and reported within the time periods specified in accordance with SEC guidelines and that such information is communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures in reaching that level of reasonable assurance. We also have investments in certain unconsolidated entities and because we do not control these entities, our disclosure controls and procedures with respect to such entities are substantially more limited than those we maintain with respect to our consolidated subsidiaries.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures, as required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level.

There were no changes in our internal control over financial reporting during the quarter ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II.

OTHER INFORMATION

Item 1. Legal Proceedings

The information set forth under the heading “Contingent Losses” in Note 12 to the Financial Statements in this Form 10-Q is incorporated by reference in this Item 1.

Item 1A. Risk Factors

In addition to the other information in this Quarterly Report on Form 10-Q, you should carefully consider the risks described in our Annual Report on Form 10-K filed for the year ended December 31, 2011, in Part I, Item 1A, Risk Factors. These factors may materially affect our business, financial condition and operating results and could cause our actual results to differ materially from those stated in forward-looking statements in this Form 10-Q and elsewhere. In addition, in considering the forward-looking statements contained in this Form 10-Q and elsewhere, you should refer to the qualifications and limitations on our forward-looking statements that are described in Forward Looking Statements at the beginning of Part I, Item 2.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Common Share Repurchases

Our Board of Trustees has authorized the repurchase from time to time of up to 35,000,000 of our common shares on the open market or in privately negotiated transactions. During the three months ended March 31, 2012, we did not repurchase any of our common shares. From the inception of the repurchase program through May 4, 2012, we have repurchased a total of 23,721,916 common shares at an aggregate cost of approximately \$679.1 million. Our common share repurchase program does not have an expiration date and there are 11,278,084 common shares that may yet be repurchased under our repurchase program as of March 31, 2012. Future levels of common share repurchases will be dependent upon our available capital, investment alternatives, and the trading price of our common shares.

Preferred Share Redemptions

During February 2012, we redeemed all 8.3 million of our outstanding Cumulative Preferred Shares, Series L with a liquidation amount of \$206.7 million for an aggregate of \$208.1 million in cash (inclusive of accrued dividends).

During February 2012, we redeemed all 5.7 million of our outstanding Cumulative Preferred Shares, Series E with a liquidation amount of \$141.3 million for an aggregate of \$142.6 million in cash (inclusive of accrued dividends).

During March 2012, we redeemed all 0.4 million of our outstanding Cumulative Preferred Shares, Series Y with a liquidation amount of \$8.8 million for an aggregate of \$8.9 million in cash (inclusive of accrued dividends).

The following table presents monthly information related to our redemption of all of our outstanding Cumulative Preferred Shares, Series L, Series E and Series Y during the three months ended March 31, 2012:

Period Covered	Total Number of Shares Repurchased	Average Price Paid per Share
January 1, 2012 – January 31, 2012	-	-
February 1, 2012 – February 29, 2012		
Preferred Shares - Series L	8,266,600	\$ 25.00
Preferred Shares - Series E	5,650,000	\$ 25.00
March 1, 2012 – March 31, 2012		
Preferred Shares - Series Y	350,900	\$ 25.00
Total	14,267,500	\$ 25.00
