**FORWARD-LOOKING STATEMENTS**

Statements made by us in this report and in other reports and statements released by us that are not historical facts constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are necessarily estimates reflecting the judgment of our senior management based on our current estimates, expectations, forecasts and projections and include comments that express our current opinions about trends and factors that may impact future operating results. Disclosures that use words such as “believe,” “anticipate,” “estimate,” “intend,” “could,” “plan,” “expect,” “project” or the negative of these, as well as similar expressions, are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause our actual results, performance or achievement, or industry results, to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we do not guarantee that the transactions and events described will happen as described (or that they will happen at all). For a further discussion of these and other factors that could impact our future results, performance or transactions, please carefully read “Risk Factors” in Part I, Item 1A below in addition to the following factors:

- disruptions in general economic and business conditions, particularly in geographies where our business may be concentrated;
- volatility and disruption of the capital and credit markets, higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans, all of which could increase costs and could limit our ability to acquire additional real estate assets;
- continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;
- our leverage and ability to refinance existing indebtedness or incur additional indebtedness;
- an increase in our debt service obligations;
- our ability to generate a sufficient amount of cash to satisfy working capital requirements and to service our existing and future indebtedness;
- our ability to achieve improvements in operating efficiency;
- foreign currency fluctuations;
- adverse changes in the securities markets;
- our ability to retain our senior management and attract and retain qualified and experienced employees;
- our ability to attract new user and investor clients;
- our ability to retain major clients and renew related contracts;
- trends in use of large, full-service commercial real estate providers;
- changes in tax laws in the United States or Japan that reduce or eliminate deductions or other tax benefits we receive;
- future acquisitions may not be available at favorable prices or upon advantageous terms and conditions; and
- costs relating to the acquisition of assets we may acquire could be higher than anticipated.

Any such forward-looking statements, whether made in this report or elsewhere, should be considered in the context of the various disclosures made by us about our businesses including, without limitation, the risk factors discussed in this Annual Report. Except as required under the federal securities laws and the rules and regulations of the U.S. Securities and Exchange Commission (the “SEC”), we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise.

Table of Contents

PART I

Item 1. Business

Company Overview

Founded in 1977, we are an international real estate investment and services firm. We are a vertically-integrated real estate operating company with approximately 340 professionals in 24 offices throughout the United States, United Kingdom, Ireland, Spain and Japan. Based on management's estimate of fair value as of December 31, 2012, we have approximately \$12.7 billion of real estate and real estate related assets under our management ("AUM"), totaling over 61 million square feet of properties throughout the United States, Europe and Japan. This includes ownership in 14,764 multifamily apartment units, of which 965 units are owned by our consolidated subsidiaries and 13,799 are held in joint ventures.

We are a holding company whose primary business operations are conducted through our wholly owned subsidiary, Kennedy-Wilson, Inc., or "Kennedy Wilson". Kennedy-Wilson Holdings, Inc. was incorporated in Delaware on July 9, 2007, under the name "Prospect Acquisition Corp." On November 13, 2009, KW Merger Sub Corp., a wholly owned subsidiary of Prospect Acquisition Corp., merged with Kennedy Wilson, resulting in Kennedy Wilson becoming a wholly owned subsidiary of Prospect Acquisition Corp. Promptly after the merger, we changed the company name to "Kennedy-Wilson Holdings, Inc.," which is now listed on the New York Stock Exchange ("NYSE"). We refer to this transaction as the "Merger" throughout this document.

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is intended principally to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consist of the total estimated fair value of the real estate properties and other assets either owned by third parties, wholly owned or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in this component of our AUM. The estimated value of development properties is included at estimated completion cost.

Business Segments

Our operations are defined by two core business units: KW Investments and KW Services. KW Investments invests our capital in most cases alongside partners' capital in real estate-related assets including multifamily properties, loans secured by real estate and office and residential properties. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution based clients.

KW Investments

We invest our capital in real estate assets and loans secured by real estate through joint ventures, separate accounts, commingled funds, and wholly owned investments. We are typically the general partner in these investment vehicles with ownership interests ranging from approximately 5%-50%. Our equity partners include financial institutions, foundations, endowments, high net worth individuals and other institutional investors. In many cases we get a promoted interest in the profits of our investments beyond our ownership percentage.

Our investment philosophy is based on three core fundamentals:

- significant proprietary deal flow from an established network of industry relationships, particularly with financial institutions;

- focus on a systematic research process with a disciplined approach to investing; and

- superior in-house operating execution.

Our primary investment markets include California, Washington, Hawaii, the United Kingdom, Ireland and Japan, which we have identified as areas with dense populations, high barriers to entry, scarcity of land and supply constraints. We typically focus on the following opportunities:

- real estate owners or lenders seeking liquidity;

- under-managed or under-leased assets; and

repositioning opportunities.

In 2012 and 2011, together with our equity partners, we acquired \$6.0 billion of real estate and loans secured by real estate. These acquisitions were comprised of the following: 62% loans secured by real estate, 17% multifamily and 16% office and 5% other.

Japan	112.1	—	9.3	—	121.4
United Kingdom	—	60.0	—	—	60.0
Ireland	—	—	—	23.0	23.0
Total	\$243.6	\$171.3	\$62.3	\$105.6	\$582.8

(1) Includes for-sale residential, condominiums and residential land.

**KW Services**

KW Services offers a comprehensive line of real estate services for the full lifecycle of real estate ownership and investment to clients that include financial institutions, developers, builders and government agencies. KW Services has three business lines: investment management, property services and auction and conventional sales. These three business lines generate revenue for us through commissions and fees.

## Table of Contents

Through our investment management business, we provide acquisition, asset management and disposition services to our equity partners as well as to third parties.

We manage over 61 million square feet of properties for institutional clients and individual investors in the United States, Europe and Japan. With 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan, we have the capabilities and resources to provide property services to real estate owners as well as the experience, as a real estate investor, to understand client concerns.

Additionally, KW Services plays a critical role in supporting the company's investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

## Industry Overview

### Global

The current muted global economic recovery remains fragile. While the United States has shown signs of stabilization and recovery over the past couple of years despite continued political turmoil, other major world markets including Europe and Asia remain volatile and uncertain. Global liquidity has generally returned to the markets although not to the extent it existed pre-2008. The Euro crisis remains a hot topic as European banks continue the deleveraging process which started a few years after a similar process in the United States. Significant deleveraging, in particular from European financial institutions and government agencies, over the next several years has been forecast by many leading economists. In Europe alone, it has been reported that European banks hold approximately \$1 trillion of delinquent real estate loans.

We believe that the recent economic, capital and credit markets events have and will continue to create tremendous buying opportunities as properties may be purchased at significant discounts to historical cost. Many asset dispositions will result from:

- highly leveraged property owners who will have loans maturing in 2013-2017 but will be unable to refinance;
- asset and loan sales directly from financial institutions; and
- companies reducing real estate portfolios to raise cash and improve their balance sheets

As many sellers particularly in Europe continue to be under pressure to move assets off of their balance sheets, we believe that our strong sourcing relationships will position us to acquire properties at steep discounts. We believe sellers will look to firms that they have relationships with and that can execute quickly and discreetly. Further sales of U.S. and European based property from both U.S. and international financial institutions are expected over the next several years.

Real estate values globally may benefit from historically low interest rates across the developed world. Investors in search of return, in a yield starved world, may seek to achieve higher rates of return through investing in income producing properties which have historically traded at wider yields than both government and corporate bonds.

### United States

Although more moderate than in recent past cycles, the United States has been in a state of recovery since 2010. Signs of market stabilization have increased into 2013 as the Dow Jones and S&P 500 reached all-time highs and job growth continues. Liquidity has returned to the US market albeit not to the levels that existed pre-crisis.

Commercial real estate fundamentals began to stabilize in 2010 and have improved steadily since that time.

Commercial vacancy rates in the United States declined modestly and rental rates rose slightly in 2012, however, landlords and tenants have remained cautious and both sales and leasing activity continued to be well below the levels experienced pre-crisis.

The housing market in the US has continued to show signs of improvement as US home re-sales edged higher in 2013 and left the supply of homes at its lowest level in 13 years.

### United Kingdom

Although the United Kingdom has, to some degree, been able to avoid the turmoil associated with the Euro and the European Union, it has not been immune to the deleveraging necessary to relieve pressure on domestic financial institution's balance sheets. While the United States continued to shown signs of recovery in 2012 and into 2013, the

United Kingdom has been stuck in a no growth state for a couple of years and in fact contracted in the fourth quarter of 2012.

3

---

## Table of Contents

Despite the rest of the United Kingdom, London continues to be one of the strongest real estate markets in the world due to foreign capital investment and a strong global presence. Opportunities to acquire real estate in the London market at discounted prices are relatively scarce and investments therein have been more stable than other European CBDs.

However, secondary markets outside of London have seen property prices decline in a similar fashion to other cities in Europe.

### Ireland

Ireland financial institutions are ahead of the curve in deleveraging their portfolios as evidenced by the recent multibillion dollar loan pool sales (i.e. Anglo Irish and Bank of Ireland). This deleveraging activity was a direct result of the write-downs and transfer of assets initiated by the government agency, National Asset Management Agency (NAMA), which is extremely active in attempting to stabilize the country's financial fallout.

### Japan

Japan, while still subject to the same market forces affecting economies across the globe, was able to experience a less drastic economic downturn in this last cycle because the Japanese banking system was strong relative to its peers. The recent rhetoric from Japanese officials about returning the economy to an inflationary state has boosted Japanese stocks (in particular real estate companies) but has also weakened the Yen against the US Dollar and nearly all other major currencies.

Japan's current demographic trends include an influx of migration to major cities, creating strong demand for housing. Our research suggests that real estate fundamentals have remained strong in greater Tokyo's residential market, and, in particular, in Tokyo's three major wards: Minato-ku, Shibuya-ku, and Setagaya-ku. With diminishing supply of new inventory due to stricter building regulations imposed in 2007, rents for quality assets are expected to remain strong while vacancy rates remain stable.

We expect that properties in the greater Tokyo area that are newer and of higher quality will remain target assets for acquisition by many institutional investors.

### Competition

We compete with a range of global, national and local real estate firms, individual investors and other corporations. Because of our unique mix of investment and service businesses, we compete with brokerage and property management companies as well as companies that invest in real estate and loans secured by real estate. Our investment business competes with real estate investment partnerships, real estate investments trusts, private equity firms and other investment companies and regional investors and developers. We compete with them on the basis of our relationships with the sellers and our ability to close an investment transaction in a short time period at competitive pricing. The real estate services business is both highly fragmented and competitive. We compete with real estate brokerage and auction companies on the basis of our relationship with property owners, quality of service, and commissions charged. We compete with property management and leasing firms also on the basis of our relationship with clients, the range and quality of services provided, and fees and commissions charged.

### Competitive Advantages

The company has a unique platform from which to execute our investment and services strategy. The combination of a service business and an investment platform provides several competitive advantages over other real estate buyers operating stand-alone or investment-focused firms and may allow us to generate superior risk-adjusted returns. Our investment strategy focuses on investments that offer significant appreciation potential through intensive property management, leasing, repositioning, redevelopment and the opportunistic use of capital. We differentiate ourselves from other firms in the industry with our full service, investment oriented structure. Whereas most other firms use an investment platform to obtain additional service business revenue, we use our service platform to enhance the investment process and ensure the alignment of interests with our investors.

Our competitive advantages include:

• **Transaction experience:** Our Executive Committee has more than 125 years of combined real estate experience and has been working and investing together on average for over 15 years. Members of the Executive Committee have collectively acquired, developed and managed in excess of \$20 billion of real estate investments in the United States, the United Kingdom, Ireland and Japan throughout various economic cycles, both at our company and throughout

their careers.

Extensive relationship and sourcing network: We leverage our services business in order to source off-market deals. In addition, the Executive Committee and our acquisition team have transacted deals in nearly every major metropolitan market on the West Coast of the United States, as well as in the United Kingdom, Ireland and Japan. Their local presence

4

---

## Table of Contents

and reputation in these markets have enabled them to cultivate key relationships with major holders of property inventory, in particularly financial institutions, throughout the real estate community.

**Structuring expertise and speed of execution:** Prior acquisitions completed by us have taken a variety of forms including direct property investments, joint ventures, exchanges involving stock or operating partnership units, participating loans and investments in performing and non-performing mortgages with the objective of long-term ownership. We believe we have developed a reputation of being able to quickly execute, as well as originate and creatively structure acquisitions, dispositions and financing transactions.

**Vertically integrated platform for operational enhancement:** We have approximately 340 employees in both KW Investments and KW Services, with 24 regional offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. We have a hands-on approach to real estate investing and possess the local expertise in property management, leasing, construction management, development and investment sales, which we believe enable us to invest successfully in selected submarkets.

**Risk protection and investment discipline:** We underwrite our investments based upon a thorough examination of property economics and a critical understanding of market dynamics and risk management strategies. We conduct an in-depth sensitivity analysis on each of our acquisitions. This analysis applies various economic scenarios that include changes to rental rates, absorption periods, operating expenses, interest rates, exit values and holding periods. We use this analysis to develop our disciplined acquisition strategies.

### Transaction-based results

A significant portion of our cash flow is tied to transaction activity and joint venture investments, both of which can affect an investor's ability to compare our financial condition and results of operations on a quarter-by-quarter basis. Historically, this variability has caused our revenue, operating income, net income and cash flows to be tied to transaction activity, which is not necessarily concentrated in any one quarter.

### Employees

As of December 31, 2012, we had approximately 340 professionals in 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. We believe that we have been able to attract and maintain high quality employees. There are no employees subject to collective bargaining agreements. In addition, we believe we have a good relationship with our employees.

### Available Information

Information about us is available on our website (<http://www.kennedywilson.com>) (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, our website is not intended to be a part of this filing). We make available on our website, free of charge, copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Proxy Statements on Schedule 14A and amendments to those reports and statements filed or furnished pursuant to Section 13(a), 14 or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after filing or submitting such material electronically or otherwise furnishing it to the SEC. In addition, we have previously filed registration statements and other documents with the SEC. Any document we file may be inspected, without charge, at the SEC's public reference room at 100 F Street NE, Washington, D.C. 20549 or at the SEC's internet address at <http://www.sec.gov> (this website address is not intended to function as a hyperlink, and the information contained in, or accessible from, the SEC's website is not intended to be a part of this filing). Information related to the operation of the SEC's public reference room may be obtained by calling the SEC at 1-800-SEC-0330.

### Item 1A. Risk Factors

Our results of operations and financial condition can be adversely affected by numerous risks. You should carefully consider the risk factors detailed below in conjunction with the other information contained in this report. If any of the following risks actually occur, our business, financial condition, operating results, cash flows and/or future prospects could be materially adversely affected.

#### Risks Related to Our Business

Table of Contents

The success of our business is significantly related to general economic conditions and the real estate industry and, accordingly, our business could be harmed by an economic slowdown and downturn in real estate asset values, property sales and leasing activities.

Our business is closely tied to general economic conditions in the real estate industry. As a result, our economic performance, the value of our real estate and real estate secured notes, and our ability to implement our business strategies may be affected by changes in national and local economic conditions. The condition of the real estate markets in which we operate tends to be cyclical and related to the condition of the economy in the United States, United Kingdom, Ireland and Japan as a whole and to the perceptions of investors of the overall economic outlook. Rising interest rates, declining employment levels, declining demand for real estate, declining real estate values or periods of general economic slowdown or recession or the perception that any of these events may occur have negatively impacted the real estate market in the past and may in the future negatively affect our performance. In addition, the economic condition of each local market where we operate may be dependent on one or more industries. Our ability to change our portfolio promptly in response to economic or other conditions is limited. Certain significant expenditures, such as debt service costs, real estate taxes, and operating and maintenance costs are generally not reduced when market conditions are poor. These factors would impede us from responding quickly to changes in the performance of our investments and could adversely impact our business, financial condition and results of operations. We have experienced in past years, and expect in the future to be negatively impacted by, periods of economic slowdown or recession, and corresponding declines in the demand for real estate and related services, within the markets in which we operate. The previous recession and the downturn in the real estate market have resulted in and/or may result in:

- a general decline in rents due to defaulting tenants or less favorable terms for renewed or new leases;
- fewer purchases and sales of properties by clients, resulting in a decrease in property management fees and brokerage commissions;
- a decline in actual and projected sale prices of our properties resulting in lower returns on the properties in which we have invested;
- higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans, all of which could increase costs and could limit our ability to acquire additional real estate assets; and
- a decrease in the availability of lines of credit and the public equity and debt markets and other sources of capital used to purchase real estate investments and distressed notes.

If the economic and market conditions that prevailed in 2008 and 2009 were to return, our business performance and profitability could deteriorate. If this were to occur, we could fail to comply with certain financial covenants in our unsecured revolving credit facilities which would force us to seek an amendment with our lenders. No assurance can be given that we would be able to obtain any necessary waivers or amendments on satisfactory terms, if at all. In addition, in an extreme deterioration of our business, we could have insufficient liquidity to meet our debt service obligations when they come due in future years.

Adverse developments in the credit markets may harm our business, results of operations and financial condition.

Disruptions in the credit markets may adversely affect our business of providing advisory services to owners, investors and occupiers of real estate in connection with the leasing, disposition and acquisition of property. If our clients are unable to procure credit on favorable terms, there may be fewer completed leasing transactions, dispositions and acquisitions of property. In addition, if purchasers of real estate are not able to procure favorable financing resulting in the lack of disposition opportunities for our funds and projects, our services businesses will generate lower incentive fees and we may also experience losses of co-invested equity capital if the disruption causes a permanent decline in the value of investments made.

In 2008 and 2009, the credit markets experienced a disruption of unprecedented magnitude. This disruption reduced the availability and significantly increased the cost of most sources of funding. In some cases, these sources were eliminated. While the credit market has shown signs of improving since the second half of 2009, liquidity remains constrained and it is impossible to predict when the market will return to normalcy. This uncertainty may lead market participants to continue to act more conservatively, which may amplify decreases in demand and pricing in the markets we serve.

We could lose part or all of our investment in the real estate assets we have interests in, which could have a material adverse effect on our financial condition and results of operations.

There is the inherent possibility in all of our real estate investments that we could lose all or part of our investment. Real estate investments are generally illiquid, which may affect our ability to change our portfolio in response to changes in economic and other conditions. Moreover, regarding our investment in real estate, we may not be able to unilaterally decide the timing of the disposition of an investment, and as a result, we may not control when and whether any gain will be realized or loss avoided. The value of our investments can also be diminished by:

Table of Contents

• civil unrest, acts of war and terrorism and acts of God, including earthquakes, hurricanes and other natural disasters (which may result in uninsured or underinsured losses);  
• the impact of present or future legislation in the United States, United Kingdom, Ireland and Japan (including environmental regulation, changes in laws concerning foreign ownership of property, changes in real estate tax rates, changes in zoning laws and laws requiring upgrades for disabled persons) and the cost of compliance with these types of legislation; and  
• liabilities relating to claims to the extent insurance is not available or is inadequate.

We may be unsuccessful in renovating the properties we acquire resulting in investment losses.

Part of our investment strategy is to locate and acquire real estate assets that we believe are undervalued and to improve them to increase their resale value. We face risks arising from the acquisition of properties not yet fully developed or in need of substantial renovation or redevelopment, particularly the risk that we overestimate the value of the property and the risk that the cost or time to complete the renovation or redevelopment will exceed the budgeted amount. Such delays or cost overruns may arise from:

• shortages of materials or skilled labor;  
• a change in the scope of the original project;  
• the difficulty in obtaining necessary zoning, land-use, environmental, building, occupancy and other governmental permits and authorizations;  
• the discovery of structural or other latent defects in the property once construction has commenced; and  
• delays in obtaining tenants.

Any failure to complete a redevelopment project in a timely manner and within budget or to sell or lease the project after completion could have a material adverse effect upon our business, results of operation and financial condition.

The expansion of our business into the United Kingdom and Ireland may expose us to risks related to conducting our business in a new international market.

We may have difficulty managing our expansion into the United Kingdom and Ireland where, in comparison with the United States and Japan, our knowledge and understanding of the local economies is not as robust, we have fewer business relationships and less familiarity with the local real estate, zoning and development regulations and other governmental procedures and regulations.

In addition, there are risks inherent in conducting business internationally, which include:

• restrictions and problems relating to the repatriation of profits;  
• difficulties and costs of staffing and managing international operations;  
• the burden of complying with multiple and potentially conflicting laws;  
• laws restricting foreign companies from conducting business and unexpected changes in regulatory requirements;  
• the impact of different business cycles and economic instability;  
• political instability and civil unrest;  
• greater difficulty in perfecting our security interests, collecting accounts receivable, foreclosing on security and protecting our interests as a creditor in bankruptcies in certain geographic regions;  
• potentially adverse tax consequences;  
• share ownership restrictions on foreign operations;  
• the tax and tariff regimes of the countries in which we do business; and

geographic, time zone, language and cultural differences between personnel in different areas of the world.

Our operations in Japan subject us to social, political and economic risks associated with conducting business in foreign countries, which may materially adversely affect our business and results of operations.

One of our strategies for the future is to continue our operations in Japan. The scope of our international operations may lead to more volatile financial results and difficulties in managing our businesses. This volatility and difficulty could be caused by many of the same risks described above in the risk factor titled “The expansion of our business into the United Kingdom and Ireland may expose us to risks related to conducting our business in a new international market.”

## Table of Contents

Our joint venture activities subject us to unique third-party risks, including risks that other participants may become bankrupt or take action contrary to our best interests.

We have utilized joint ventures for large commercial real estate investments, real estate developments, and the purchase of loans secured by real estate. We plan to continue to acquire interests in additional limited and general partnerships, joint ventures and other enterprises, collectively referred to herein as “joint ventures,” formed to own or develop real property or interests in real property or note pools. It is our strategy in the United Kingdom, Ireland, and Japan to invest primarily through joint ventures. We have acquired and may acquire minority interests in joint ventures and we may also acquire interests as a passive investor without rights to actively participate in management of the joint ventures. Investments in joint ventures involve additional risks, including the possibility that the other participants may become bankrupt or have economic or other business interests or goals which are inconsistent with ours, that we will not have the right or power to direct the management and policies of the joint ventures and that other participants may take action contrary to our instructions or requests and against our policies and objectives. Should a participant in a material joint venture act contrary to our interest, it could have a material adverse effect upon our business, results of operations and financial condition. Moreover, we cannot be certain that we will continue these investments, or that we can identify suitable joint venture partners and form new joint ventures in the future.

We purchase distressed loans and loan portfolios that may have a higher risk of default and delinquencies than newly originated loans, and as a result, we may lose part or all of our investment in such loans and loan portfolios.

We may purchase loans and loan portfolios that are unsecured or secured by real or personal property. These loans and loan portfolios in some cases may be non-performing or sub-performing, and may be in default at the time of purchase. In general, the distressed loans and loan portfolios we acquire are speculative investments and have a greater than normal risk of future defaults and delinquencies as compared to newly originated loans. Returns on loan investments depend on the borrower's ability to make required payments or, in the event of default, our security interests, if any, and our ability to foreclose and liquidate whatever property that secures the loans and loan portfolios. We cannot be sure that we will be able to collect on a defaulted loan or foreclose on security successfully or in a timely fashion. There may also be instances when we are able to acquire title to an underlying property and sell it, but not make a profit on its investment.

We may not be successful in competing with companies in the real estate services and investment industry, some of which may have substantially greater resources than we do.

Real estate investment and services businesses are highly competitive. Our principal competitors include both large multinational companies and national and regional firms, such as Jones Lang LaSalle, Inc. and CBRE Group, Inc. Many of our competitors have greater financial resources and a broader global presence than we do. We compete with companies in the United States, and to a limited extent, in the United Kingdom, Ireland and Japan, with respect to:

- selling commercial and residential properties on behalf of customers through brokerage and auction services;
- leasing and property management, including construction and engineering services;
- purchasing commercial and residential properties, as well as undeveloped land for our own account; and
- acquiring secured and unsecured loans.

Our services operations must compete with a growing number of national firms seeking to expand market share. There can be no assurance that we will be able to continue to compete effectively, maintain current fee levels or arrangements, continue to purchase investment properties profitably or avoid increased competition.

If we are unable to maintain or develop new client relationships, our service business and financial condition could be substantially impaired.

We are highly dependent on long-term client relationships and on revenues received for services with third-party owners and related parties. A considerable amount of our revenues are derived from fees related to our service business. The majority of our property management agreements are cancelable prior to their expiration by the client for any reason on as little as 30 to 60 days' notice. These contracts also may not be renewed when their respective terms expire. If we fail to maintain existing relationships, fail to develop and maintain new client relationships or otherwise lose a substantial number of management agreements, we could experience a material adverse change in our business, financial condition and results of operations.

Decreases in the performance of the properties we manage are likely to result in a decline in the amount of property management fees and leasing commissions we generate.

## Table of Contents

Our property management fees are generally structured as a percentage of the revenues generated by the properties that we manage. Similarly, our leasing commissions typically are based on the value of the lease commitments. As a result, our revenues are adversely affected by decreases in the performance of the properties we manage and declines in rental value. Property performance will depend upon, among other things, our ability to control operating expenses (some of which are beyond our control), financial conditions generally and in the specific areas where properties are located and the condition of the real estate market generally. If the performance or rental values of the properties we manage decline, the management fees and leasing commissions we derive from such properties could be materially adversely affected.

Our leasing activities are contingent upon various factors, including tenant occupancy and rental rates, which if adversely affected, could cause our operating results to suffer.

A significant portion of our property management business involves facilitating the leasing of commercial space. In certain areas of operation, there may be inadequate commercial space to meet demand and there is a potential for a decline in the number of overall lease and brokerage transactions. In areas where the supply of commercial space exceeds demand, we may not be able to renew leases or obtain new tenants for our owned and managed rental properties as leases expire. Moreover, the terms of new leases and renewals (including renovation costs or costs of concessions to tenants) may be less favorable than current leases. Our revenues may be adversely affected by the failure to promptly find tenants for substantial amounts of vacant space, if rental rates on new or renewal leases are significantly lower than expected, or if reserves for costs of re-leasing prove inadequate. We cannot be sure that we can continue to lease properties for our clients and for our own account in a profitable manner.

Our ability to lease properties also depends on:

- the attractiveness of the properties to tenants;
- competition from other available space;
- our ability to provide adequate maintenance and obtain insurance and to pay increased operating expenses which may not be passed through to tenants;
- the availability of capital to periodically renovate, repair and maintain the properties, as well as for other operating expenses; and
- the existence of potential tenants desiring to lease the properties.

If we are unable to identify, acquire and integrate suitable acquisition targets, our future growth will be impeded.

Acquisitions and expansion have been, and will continue to be, a significant component of our growth strategy for the future. While maintaining our existing business lines, we intend to continue to pursue a sustained growth strategy by increasing revenues from existing clients, expanding the breadth of our service offerings, seeking selective co-investment opportunities and pursuing strategic acquisitions. Our ability to manage our growth will require us to effectively integrate new acquisitions into our existing operations while managing development of principal properties. We expect that significant growth in several business lines occurring simultaneously will place substantial demands on our managerial, administrative, operational and financial resources. We cannot be sure that we will be able to successfully manage all factors necessary for a successful expansion of our business. Moreover, our strategy of growth depends on the existence of and our ability to identify attractive and synergistic acquisition targets. The unavailability of suitable acquisition targets, or our inability to find them, may result in a decline in business, financial condition and results of operations.

Our business is highly dependent upon the economy and real estate market in California, which have recently experienced a downturn.

We have a high concentration of our business activities in California. Consequently, our business, results of operations and financial condition are dependent upon general trends in California's economy and real estate market. California's economy experienced a downturn in the recent global recession. Recent real estate market declines in California were so severe that the market value of a number of properties securing loans has become significantly less than the outstanding balances of those loans. Real estate market declines may negatively affect our ability to sell property at a profit. In addition, California historically has been vulnerable to certain natural disaster risks, such as earthquakes, floods, wild fires and erosion-caused mudslides. The existence of adverse economic conditions or the occurrence of natural disasters in California could have a material adverse effect on our business, financial condition and results of operations.

We own real estate properties located in Hawaii, which subjects us to unique risks relating to, among other things, Hawaii's economic dependence on fluctuating tourism, the isolated location of Hawaii and the potential for natural disasters.

Table of Contents

We conduct operations and own properties in Hawaii. Consequently, our business, results of operations and financial condition are dependent upon and affected by general trends in Hawaii's economy and real estate market. Hawaii's economy, although it has significantly recovered, experienced a significant downturn in the most recent recession. Real estate market declines may negatively affect our ability to sell property at a profit. In addition, Hawaii's economy is largely dependent upon tourism, which is subject to fluctuation. Hawaii historically has also been vulnerable to certain natural disaster risks, such as tsunamis, hurricanes and earthquakes, which could cause damage to properties owned by us or property values to decline in general. Hawaii's remote and isolated location also may create additional operational costs and expenses, which could have a material adverse impact on our financial results.

Our auction services business has historically been countercyclical, and, as a result, our operating results may be adversely affected when general economic conditions are improving.

Our results of operations are partially driven by the performance of our auction services group, which historically has been countercyclical. Improvements in general economic conditions may cause auction service revenues to decrease, which could cause an adverse impact on our results of operations.

If we fail to comply with laws and regulations applicable to us in our role as a real estate broker, property/facility manager or developer, we may incur significant financial penalties.

We are subject to numerous federal, state, local and non-U.S. laws and regulations specific to the services we perform in our business, as well as laws of broader applicability, such as tax, securities and employment laws. Brokerage of real estate sales and leasing transactions and the provision of property management and valuation services require us to maintain applicable licenses in each U.S. state and certain non-U.S. jurisdictions in which we perform these services. If we fail to maintain our licenses or conduct these activities without a license, or violate any of the regulations covering our licenses, we may be required to pay fines (including treble damages in certain states), return commissions received or have our licenses suspended or revoked.

We have certain obligations in connection with our real estate brokerage services which could subject us to liability in the event litigation is initiated against us for an alleged breach of any such obligation.

As a licensed real estate broker, we and our licensed employees are subject to certain statutory due diligence, disclosure and standard-of-care obligations. Failure to fulfill these obligations could subject us or our employees to litigation from parties who purchased, sold or leased properties we brokered or managed. In addition, we may become subject to claims by participants in real estate sales claiming that we did not fulfill our statutory obligations as a broker.

We may become subject to claims for construction defects or other similar actions in connection with the performance of our property management services.

In our property management capacity, we hire and supervise third-party contractors to provide construction and engineering services for our properties. While our role is limited to that of a supervisor, we cannot be sure that we will not be subjected to claims for construction defects or other similar actions. Adverse outcomes of property management litigation could have a material adverse effect on our business, financial condition and results of operations.

We may be subject to potential environmental liability.

Under various foreign, federal, state and local laws, ordinances and regulations, a current or previous owner or operator of real estate may be liable for the cleanup of hazardous or toxic substances and may be liable to a

governmental entity or to third parties for property damage and for investigation and clean-up costs incurred by governmental entities or third parties in connection with the contamination. Such laws typically impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of the hazardous or toxic substances, even when the contaminants were associated with previous owners or operators. The costs of investigation, remediation or removal of hazardous or toxic substances may be substantial, and the presence of those substances, or the failure to properly remediate those substances, may adversely affect the owner's or operator's ability to sell or rent the affected property or to borrow using the property as collateral. The presence of contamination at a property can impair the value of the property even if the contamination is migrating onto the property from an adjoining property. Additionally, the owner of a site may be subject to claims by parties who have no relation to the property based on damages and costs resulting from environmental contamination emanating from the site.

In connection with the direct or indirect ownership, operation, management and development of real properties, we may be considered an owner or operator of those properties or as having arranged for the disposal or treatment of hazardous or toxic substances. Therefore, we may be potentially liable for removal or remediation costs.

Table of Contents

Certain foreign, federal, state and local laws, regulations and ordinances also govern the removal, encapsulation or disturbance of asbestos-containing materials during construction, remodeling, renovation or demolition of a building. Such laws may impose liability for the release of asbestos-containing materials, and third parties may seek recovery from owners or operators of real properties for personal injuries associated with asbestos-containing materials. We may be potentially liable for those costs for properties that we own. In the past, we have been required to remove asbestos from certain buildings that we own or manage. There can be no assurance that in the future we will not be required to remove asbestos from our buildings or incur other substantial costs of environmental remediation.

Before consummating the acquisition of a particular piece of real property, it is our policy to retain independent environmental consultants to conduct an environmental review of the real property, including performing a Phase I environmental review. These assessments have included, among other things, a visual inspection of the real properties and the surrounding area and a review of relevant federal, state and historical documents. It is possible that the assessments we commissioned do not reveal all environmental liabilities or that there are material environmental liabilities of which we are currently unaware. There can be no assurance that future laws, ordinances or regulations will not impose any material environmental liability or that the current environmental condition of our properties will not be affected by tenants, by the condition of land or operations in the vicinity of those properties, or by unrelated third parties. There can be no assurance that federal, state and local agencies or private plaintiffs will not bring any actions in the future, or that those actions, if adversely resolved, would not have a material adverse effect on our business, financial condition and results of operations.

We may incur unanticipated expenses relating to laws benefiting disabled persons.

The Americans with Disabilities Act, or the ADA, generally requires that public accommodations such as hotels and office buildings be accessible to disabled people. If our properties are not in compliance with the ADA, the U.S. federal government could fine us or private litigants could sue us for monetary damages. In addition, if we are required to make substantial alterations to one or more of our properties in order to comply with the ADA, our results of operations could be materially adversely affected.

We may incur significant costs complying with laws, regulations and covenants that are applicable to our properties and operations.

The properties in our portfolio and our operations are subject to various covenants and federal, state and local laws and regulatory requirements, including permitting and licensing requirements. Such laws and regulations, including municipal or local ordinances, zoning restrictions and restrictive covenants imposed by community developers may restrict our use of our properties and may require us to obtain approval from local officials or community standards organizations at any time with respect to our properties, including prior to acquiring a property or when undertaking renovations of any of our existing properties. Among other things, these restrictions may relate to fire and safety, seismic, asbestos-cleanup or hazardous material abatement requirements. There can be no assurance that existing laws and regulations will not adversely affect us or the timing or cost of any future acquisitions or renovations, or that additional regulations will not be adopted that increase such delays or result in additional costs. Our failure to obtain required permits, licenses and zoning relief or to comply with applicable laws could have a material adverse effect on our business, financial condition and results of operations.

Our property insurance coverages are limited, and any uninsured losses could cause us to lose part or all of our investment in our insured properties.

We carry comprehensive general liability coverage and umbrella coverage on all of our properties with limits of liability which we deem adequate and appropriate under the circumstances (subject to deductibles) to insure against

liability claims and provide for the cost of legal defense. There are, however, certain types of extraordinary losses that either may be uninsurable or are not generally insured because it is not economically feasible to insure against those losses. Should any uninsured loss occur, we could lose our investment in, and anticipated revenues from, a property, which loss or losses could have a material adverse effect on our operations. Currently, we also insure some of our properties for loss caused by earthquake in levels we deem appropriate and, where we believe necessary, for loss caused by flood. We cannot be sure that the occurrence of an earthquake, flood or other natural disaster will not have a materially adverse effect on our business, financial condition and results of operations.

The ongoing debt crisis in Europe could harm our business, financial condition and results of operations.

Since the establishment of Kennedy Wilson Europe in June 2011, our European operations have become an increasingly important part of our business, and we expect to continue to grow our European investment portfolio over time. A number of European countries are continuing to experience high borrowing costs and recessionary conditions, and many European banks and investors have incurred substantial losses on real estate-related assets in recent years. Current macroeconomic conditions in

Table of Contents

Europe remain uncertain and make the valuation of real estate-related assets difficult. Continued weakness or a worsening of those conditions could negatively impact the value of our existing investments and harm our ability to sell those investments and identify attractive investment opportunities in the future. These developments could harm our business, financial condition and results of operations.

Risks Related to Our Company

If we are unable to raise additional debt and equity capital, our growth prospects may suffer.

We depend upon the capital markets to grow our balance sheet along third-party equity and debt financings to acquire properties through our investment business, which is a key driver of future growth. We estimate that in the next 12 to 18 months our acquisition plan will require between approximately \$800 million and \$1.5 billion in third-party equity and between approximately \$1.0 billion and \$2.5 billion in third-party debt. We depend on debt financing from a combination of seller financing, the assumption of existing loans, government agencies and financial institutions. We depend on equity financing from equity partners, which include pension funds, family offices, financial institutions, endowments and money managers. Our access to capital funding is uncertain. Our inability to raise additional capital on terms reasonably acceptable to us could jeopardize the future growth of our business.

The loss of one or more key personnel could have a material adverse effect on our operations.

Our continued success is dependent to a significant degree upon the efforts of our senior executives, who have each been essential to our business. The departure of all or any of our executives for whatever reason or the inability of all or any of them to continue to serve in their present capacities or our inability to attract and retain other qualified personnel could have a material adverse effect upon our business, financial condition and results of operations. Our executives have built highly regarded reputations in the real estate industry. Our executives attract business opportunities and assist both in negotiations with lenders and potential joint venture partners and in the representation of large and institutional clients. If we lost their services, our relationships with lenders, joint ventures and clients would diminish significantly.

In addition, certain of our officers have strong regional reputations and they aid in attracting and identifying opportunities and negotiating for us and on behalf of our clients. In particular, we view the establishment and maintenance of strong relationships through certain officers as critical to our success in the Japanese market. As we continue to grow, our success will be largely dependent upon our ability to attract and retain qualified personnel in all areas of business. We cannot be sure that we will be able to continue to hire and retain a sufficient number of qualified personnel to support or keep pace with our planned growth.

The loss of our chief executive officer, or CEO, could have a material adverse effect on our operations.

Our continued success is dependent to a significant degree upon the efforts of our CEO, who is essential to our business. The departure of our CEO for whatever reason or the inability of our CEO to continue to serve in his present capacity could have a material adverse effect upon our business, financial condition and results of operations. Our CEO has built a highly regarded reputation in the real estate industry. Our CEO attracts business opportunities and assists both in negotiations with lenders and potential joint venture partners and in the representation of large and institutional clients. If we lost his services, our relationships with lenders, joint ventures and clients would diminish significantly. Furthermore, the departure of our CEO for whatever reason or the inability of our CEO to continue to serve as our Chairman and CEO would be an event of default under our unsecured revolving loan agreement.

Our revenues and earnings may be materially and adversely affected by fluctuations in foreign currency exchange rates due to our international operations.

Our revenues from non-U.S. operations have been primarily denominated in the local currency where the associated revenues were earned. Thus, we may experience significant fluctuations in revenues and earnings because of corresponding fluctuations in foreign currency exchange rates. To date, our foreign currency exposure has been limited to the Japanese Yen, the Euro and the Pound Sterling. Certain questions have arisen about the viability of the Euro, and there has been speculation that some countries within the Eurozone may elect, or may be forced, to revert to the currency they issued prior to the establishment of the Euro, which could significantly reduce the value of the Euro. Due to the constantly changing currency exposures to which we will be subject and the volatility of currency exchange rates, there can be no assurance that we will not experience currency losses in the future, nor can we predict the effect of exchange rate fluctuations upon future operating results. Our management may decide to use currency hedging instruments from time to time including foreign currency forward contracts, purchased currency options (where applicable) and foreign currency borrowings. The economic risks associated with these hedging instruments include unexpected

Table of Contents

fluctuations in foreign currency rates which could lead to hedging losses or the requirement to post collateral along with, unexpected changes in our underlying net asset position. There can be no assurance that any hedging will be effective.

Our operating results are subject to significant volatility from quarter to quarter as a result of the varied timing and magnitude of our strategic acquisitions and dispositions.

We have experienced a fluctuation in our financial performance from quarter to quarter due in part to the significance of revenues from the sales of real estate on overall performance. The timing of purchases and sales of our real estate investments has varied, and will continue to vary, widely from quarter to quarter due to variability in market opportunities, changes in interest rates, and the overall demand for residential and commercial real estate, among other things. While these factors have contributed to our increased operating income and earnings in the fourth quarter in past years, there can be no assurance that we will continue to perform well in the fourth quarter. In addition, the timing and magnitude of brokerage commissions paid to us may vary widely from quarter to quarter depending upon overall activity in the general real estate market and the nature of our brokerage assignments, among other things.

We have in the past incurred and may continue in the future to incur significant amounts of debt to finance acquisitions, which could negatively affect our cash flows and subject our properties or other assets to the risk of foreclosure.

We have historically financed new acquisitions with cash derived from secured and unsecured loans and lines of credit. For instance, we typically purchase real property with loans secured by a mortgage on the property acquired. We anticipate the continuation of this trend. We do not have a policy limiting the amount of debt that we may incur. Accordingly, our management and board of directors have discretion to increase the amount of our outstanding debt at any time. We could become more highly leveraged, resulting in an increase in debt service costs that could adversely affect results of operations and increase the risk of default on debt. We may incur additional debt from time to time to finance strategic acquisitions, investments, joint ventures or for other purposes, subject to the restrictions contained in the documents governing our indebtedness. If we incur additional debt, the risks associated with our leverage, including our ability to service our debt, would increase. If we are required to seek an amendment to our credit agreement, our debt service obligations may be substantially increased.

Some of our debt bears interest at variable rates. As a result, we are subject to fluctuating interest rates that may impact, adversely or otherwise, results of operations and cash flows. We may be subject to risks normally associated with debt financing, including that cash flow will be insufficient to make required payments of principal and interest; that existing indebtedness on our properties will not be able to be refinanced or our leverage could increase our vulnerability to general economic downturns and adverse competitive and industry conditions, placing us at a disadvantage compared to those of our competitors that are less leveraged; that our debt service obligations could limit our flexibility in planning for, or reacting to, changes in our business and in the commercial real estate services industry; that our failure to comply with the financial and other restrictive covenants in the documents governing our indebtedness could result in an event of default that, if not cured or waived, results in foreclosure on substantially all of our assets; and that the terms of available new financing will not be as favorable as the terms of existing indebtedness. If we are unable to satisfy the obligations owed to any lender with a lien on one of our properties, the lender could foreclose on the real property or other assets securing the loan and we would lose that property or asset. The loss of any property or asset to foreclosure could have a material adverse effect on our business, financial condition and results of operations. From time to time, Moody's Investors Service, Inc. and Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., rate our significant outstanding debt. These ratings and any downgrades thereof may impact our ability to borrow under any new agreements in the future, as well as the interest rates and other terms of any future borrowings, and could also cause a decline in the market price of our common stock. We cannot be certain that our earnings will be sufficient to allow us to pay principal and interest on our debt

and meet our other obligations. If we do not have sufficient earnings, we may be required to seek to refinance all or part of our existing debt, sell assets, borrow more money or sell more securities, none of which we can guarantee that we will be able to do and which, if accomplished, may adversely impact our stock price.

Our debt obligations impose significant operating and financial restrictions, which may prevent us from pursuing certain business opportunities and taking certain actions.

Our existing debt obligations impose, and future debt obligations may impose, significant operating and financial restrictions on us. These restrictions limit or prohibit, among other things, our ability to:

- incur additional indebtedness;
- repay indebtedness (including our 8.75% senior notes due 2019, our 2037 debentures and our senior notes due 2042) prior to stated maturities;
- pay dividends on, redeem or repurchase our stock or make other distributions;
- make acquisitions or investments;

Table of Contents

- create or incur liens;
- transfer or sell certain assets or merge or consolidate with or into other companies;
- enter into certain transactions with affiliates;
- sell stock in our subsidiaries;
- restrict dividends, distributions or other payments from our subsidiaries; and
- otherwise conduct necessary corporate activities.

In addition, our unsecured revolving credit facility and the indenture governing our 2037 debentures require us to maintain compliance with specified financial covenants, including maximum balance sheet leverage and fixed charge coverage ratios. As of December 31, 2012, we were in compliance with these covenants. These covenants could adversely affect our ability to finance our future operations or capital needs and pursue available business opportunities. A breach of any of these covenants could result in a default in respect of the related indebtedness. If a default occurs, the relevant lenders could elect to declare the indebtedness, together with accrued interest and other fees, to be immediately due and payable and proceed against any collateral securing that indebtedness.

We have guaranteed a number of loans in connection with various equity method investments which may result in us being obligated to make substantial payments.

We have provided recourse guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) we could be required to make under these guarantees was approximately \$55.5 million at December 31, 2012. The guarantees expire through 2017 and our performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sales proceeds of the property. If we were to become obligated to perform on these guarantees, it could have an adverse effect on our financial condition.

We have a number of equity partnerships that subject us to obligations under certain “non-recourse carve out” guarantees that may be triggered in the future.

Most of our real estate properties within our equity partnerships are encumbered by traditional non-recourse debt obligations. In connection with most of these loans, however, we entered into certain “non-recourse carve out” guarantees, which provide for the loans to become partially or fully recourse against us if certain triggering events occur. Although these events are different for each guarantee, some of the common events include:

- the special purpose property-owning subsidiary's filing a voluntary petition for bankruptcy;
- the special purpose property-owning subsidiary's failure to maintain its status as a special purpose entity; and
- subject to certain conditions, the special purpose property-owning subsidiary's failure to obtain lender's written consent prior to any subordinate financing or other voluntary lien encumbering the associated property.

In the event that any of these triggering events occur and the loans become partially or fully recourse against us, our business, financial condition, results of operations and common stock price could be materially adversely affected.

The deteriorating financial condition and/or results of operations of certain of our clients could adversely affect our business.

We could be adversely affected by the actions and deteriorating financial condition and results of operations of certain of our clients. Losses or defaults by one or more of these clients could have a material adverse effect on our results of operations and financial condition. Any of our clients may experience a downturn in its business that may weaken its results of operations and financial condition. As a result, a client may fail to make payments when due, become insolvent or declare bankruptcy. Any client bankruptcy or insolvency, or the failure of any client to make payments

when due, could result in material losses to our company. A client bankruptcy would delay or preclude full collection of amounts owed to us. Additionally, certain corporate services and property management client agreements require that we advance payroll and other vendor costs on behalf of clients. If such a client were to file bankruptcy or otherwise fail, we may not be able to obtain reimbursement for those costs or for the severance obligations we would incur as a result of the loss of the client.

We may incur expenses associated with defending lawsuits filed by former holders of Kennedy-Wilson, Inc.'s stock.

On November 13, 2009, our wholly owned subsidiary, KW Merger Sub Corp., merged with and into Kennedy-Wilson, Inc., one of our subsidiaries. Prior to the merger, a small percentage of Kennedy-Wilson, Inc.'s outstanding common stock was owned by holders who were not known to our management. If one or more of these holders were to bring a claim alleging that members

Table of Contents

of Kennedy-Wilson, Inc.'s board of directors breached their fiduciary duties in connection with approving the merger, we would incur costs defending and/or settling such claim.

Our ability to utilize our net operating loss carryforwards and certain other tax attributes may be limited.

As of December 31, 2012, we had \$71.1 million of federal and \$32.8 million of California net operating loss carryforwards available to offset future taxable income. Under Section 382 of the Internal Revenue Code of 1986, as amended, or the Code, if a corporation undergoes an “ownership change” (generally defined as a greater than 50% change (by value) in its equity ownership over a three year period), the corporation's ability to use its pre-change net operating loss carryforwards and other pre-change tax attributes to offset its post-change income may be limited. We have not performed a detailed analysis to determine whether an ownership change under Section 382 of the Code has previously occurred. As a result, if we earn net taxable income, our ability to use our pre-change net operating loss carryforwards to offset U.S. federal taxable income may become subject to limitations, which could potentially result in increased future tax liability to us.

If we are unable to maintain and protect our intellectual property, or if third parties assert that we infringe their intellectual property rights, our business could suffer.

Our business depends, in part, on our ability to identify and protect proprietary information and other intellectual property such as our service marks, client lists and information and business methods. The laws of some countries in which we operate may offer only limited protection for our intellectual property rights. We rely on a combination of trade secrets, confidentiality policies, non-disclosure and other contractual arrangements and copyright and trademark laws to protect our intellectual property rights. However, we may not adequately protect these rights, and their disclosure to or use by third parties may harm our competitive position. Our inability to detect unauthorized use or take appropriate or timely steps to enforce our intellectual property rights may harm our business.

Also, third parties may claim that our business operations infringe on their intellectual property rights. These claims may harm our reputation, cost us money to defend, distract the attention of our management and prevent us from offering some services.

Confidential intellectual property is increasingly stored or carried on mobile devices, such as laptop computers, which increases the risk of inadvertent disclosure where the mobile devices are lost or stolen and the information has not been adequately safeguarded or encrypted. This also makes it easier for someone with access to our systems, or someone who gains unauthorized access, to steal information and use it to our disadvantage. Advances in technology, which permit increasingly large amounts of information to be stored on mobile devices or on third party “cloud” servers, may exacerbate these risks.

We may fail to comply with section 404 of the Sarbanes-Oxley Act of 2002.

We are subject to section 404 of The Sarbanes-Oxley Act of 2002 and the related rules of the SEC, which generally require our management and independent registered public accounting firm to report on the effectiveness of our internal control over financial reporting. Although our management has concluded that our internal control over financial reporting was effective as of December 31, 2012 and our independent registered public accounting firm has issued an unqualified report as to the same, our management or our independent registered public accounting firm may not be able to come to the same conclusion in future periods. During the course of the review and testing of our internal controls, we may identify deficiencies and weaknesses and be unable to remediate them before we must provide the required reports. If our management or our independent registered public accounting firm is unable to conclude on an ongoing basis that we have effective internal control over financial reporting, our operating results may suffer, investors may lose confidence in our reported financial information and the trading price of our stock may fall.

#### Risks Related to Ownership of Our Common Stock

Our directors and officers and their affiliates are significant stockholders, which makes it possible for them to have significant influence over the outcome of all matters submitted to stockholders for approval and which influence may be in conflict with our interests and the interests of our other stockholders.

As of December 31, 2012 our directors and executive officers and their respective affiliates owned an aggregate of approximately 32% of the outstanding shares of our common stock. These stockholders will have significant influence over the outcome of all matters submitted for stockholder approval, including the election of our directors and other corporate actions. In addition, such influence by one or more of these affiliates could have the effect of discouraging others from attempting to purchase or take us over and/or reducing the market price offered for our common stock in such an event.

## Table of Contents

We may issue additional equity securities which may dilute your interest in us.

In order to expand our business, we may consider offering and issuing additional equity or equity-based securities. Investors in our common stock may experience dilution to the extent of the difference between the price per share paid by investors to purchase our common stock and the net tangible book value per share. The number of shares that we may issue for cash in non-public offerings without stockholder approval will be limited by the rules of the NYSE or other exchange on which our securities are listed. However, we may issue and sell shares of our common stock in public offerings, and there generally are exceptions that allow companies to issue a limited number of equity securities in private offerings without stockholder approval, which could dilute your ownership.

The price of our common stock may be volatile.

The trading price of our common stock has historically been and may in the future continue to be volatile due to factors such as:

- changes in real estate prices;
- actual or anticipated fluctuations in our quarterly and annual results and those of our publicly held competitors;
- mergers and strategic alliances among any real estate companies;
- market conditions in the industry;
- changes in government regulation and taxes;
- shortfalls in our operating results from levels forecasted by securities analysts;
- investor sentiment toward the stock of real estate companies in general;
- announcements concerning us or our competitors; and
- the general state of the securities markets.

Our common stock may be delisted, which could limit your ability to trade our common stock and subject us to additional trading restrictions.

Our common stock is listed on the NYSE, a national securities exchange. We cannot assure you that our common stock will continue to be listed on the NYSE in the future. If the NYSE delists our common stock from trading on its exchange, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our common stock;
- a limited amount of news and analyst coverage for our company;
- a decreased ability for us to issue additional securities or obtain additional financing in the future; and
- limited liquidity for our stockholders due to thin trading.

Our staggered board may entrench management and discourage unsolicited stockholder proposals that may be in the best interests of stockholders and certain anti-takeover provisions in our organizational documents may discourage a change in control.

Our second amended and restated certificate of incorporation provides for our board of directors to be divided into three classes, each of which generally serves for a term of three years with only one class of directors being elected in each year. As a result, at any annual meeting only a minority of the board of directors will be considered for election. Since this “staggered board” would prevent our stockholders from replacing a majority of our board of directors at any annual meeting, it may entrench management and discourage unsolicited stockholder proposals that may be in the best interests of stockholders. Additionally, certain provisions of our second amended and restated certificate of incorporation and our amended and restated bylaws may have an anti-takeover effect and may delay, defer or prevent a tender offer or takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in the payment of a premium over the market price for the shares held by stockholders.

In addition, Section 203 of the Delaware General Corporation Law may, under certain circumstances, make it more difficult for a person who would be an “interested stockholder” to effect a “business combination” with us for a three-year period. An “interested stockholder” generally is defined as any entity or person that beneficially owns 15% or more of our outstanding voting stock or any entity or person that is an affiliate or associate of such entity or person. A “business combination” generally is defined to include, among other transactions, mergers, consolidations and certain other transactions, including sales, leases or other dispositions of assets with an aggregate market value equal to 10% or more of the aggregate market value of the corporation.

Table of Contents

These anti-takeover provisions could make it more difficult for a third party to acquire us, even if the third party's offer may be considered beneficial by many stockholders. As a result, stockholders may be limited in their ability to obtain a premium for their shares.

Our corporate headquarters is located in Beverly Hills, California. We also have 23 other offices throughout the United States, including our disaster recovery office in Austin, Texas, one office in London, England, one office in Dublin, Ireland, One office in Madrid, Spain and one office in Tokyo, Japan. The Beverly Hills office operates as the main investment and asset management center for us in the United States, while the United Kingdom, Ireland, and Japan offices are the main investment and asset management center for the respective British, Irish, and Japanese operations. The remaining office locations primarily operate as property management satellites. In general, we lease all of our offices. In addition, we have on-site property management offices located within properties that we manage. The most significant terms of the leasing arrangements for our offices are the length of the lease and the rent. Our leases have terms varying in duration. The rent payable under our office leases vary significantly from location to location as a result of differences in prevailing commercial real estate rates in different geographic locations. Our management believes that except as provided below, no single office lease is material to our business, results of operations or financial condition. In addition, our management believes there is adequate alternative office space available at acceptable rental rates to meet our needs, although adverse movements in rental rates in some markets may negatively affect our profits in those markets when we enter into new leases.

The following table sets forth certain information regarding our corporate headquarters and regional office located in Austin, Texas.

Table of Contents

Location	Use	Approximate Square Footage	Lease Expiration
Beverly Hills, CA	Corporate Headquarters	20,236	12/31/16
Austin, TX	Regional Office; Disaster Recovery Office	6,864	7/31/17

Item 3. Legal Proceedings

We may be involved in various legal proceedings arising in the ordinary course of business, none of which we currently believe is material to our business. From time to time, our real estate management division is named in “slip and fall” type litigation relating to buildings we manage. Our standard management agreement contains an indemnity provision whereby the building owner indemnifies and agrees to defend its real estate management division against such claims. In such cases, we are defended by the building owner’s liability insurer.

## Stock Price Information

From December 3, 2007 to March 18, 2010, our common stock traded on the NYSE Amex. Since March 19, 2010, our common stock has traded on the NYSE under the symbol “KW.” The following table sets forth, for the calendar quarter indicated, the high and low sales prices per share of common stock as reported on the NYSE. The quotations listed below reflect interdealer prices, without retail markup, markdown or commission and may not necessarily represent actual transactions.

	Common Stock	
	High	Low
Fiscal year 2012		
Quarter ended March 31, 2012	\$ 14.42	\$ 10.68
Quarter ended June 30, 2012	\$ 14.40	\$ 12.70
Quarter ended September 30, 2012	\$ 14.60	\$ 13.16
Quarter ended December 31, 2012	\$ 14.20	\$ 11.89
Fiscal year 2011		
Quarter ended March 31, 2011	\$ 11.02	\$ 9.90

Quarter ended September 30, 2011	\$ 12.55	\$ 10.40
Quarter ended December 31, 2011	\$ 12.79	\$ 10.25

## Holders

As of March 5, 2013, we had 85 holders of record of our common stock and five holders of record of our warrants.

## Dividend Policy

Beginning in the second quarter of 2011, we began paying quarterly dividends on our common stock. We declared and paid one quarterly dividend of \$0.03 and two quarterly dividends \$0.04 per share of common stock in 2011 and four quarterly dividends of \$0.05 per share of common stock in 2012.

Cumulative dividends on our Series A and Series B Preferred Stock accrue at an annual rate of 6.00% and 6.452%, respectively, of the purchase price, subject to adjustment under certain circumstances. The dividends are payable quarterly in arrears when, as and if declared by our board of directors. The declaration and payment of any future dividends is at the sole discretion of our board of directors and will depend on, among other things, our operating results, overall financial condition, capital requirements and general business conditions.

## Recent Sales of Unregistered Securities

## Equity Compensation Plan Information

See Item 12—“Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.”

## Performance Graph

The graph below compares the cumulative total return of our common stock from December 31, 2007 through December 31, 2012, with the comparable cumulative return of companies comprising the S&P 500 Index and a peer issuer selected by us. The peer issuer is a company in the real estate services and investment industry. Because this peer issuer became a comparable on November 13, 2009, the performance of our common stock relative to the performance of the common stock of the peer issuer prior to November 13, 2009 may not be representative of future results. The graph plots the growth in value of an initial investment of \$100 in each of our common stock, the S&P 500 Index and the peer issuer selected by us over the indicated time periods, and

Table of Contents

assumes reinvestment of all dividends, if any, paid on the securities. The stock price performance shown on the graph is not necessarily indicative of future price performance.

Note: The peer, CB Richard Ellis, is a comparable beginning November 13, 2009.

The information under this caption, "Performance Graph," is deemed not to be incorporated by reference into any filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that such filing specifically states otherwise.

## Purchases of Equity Securities by the Company and Affiliated Purchasers in the Fourth Quarter of 2012

Period	Total Number of Warrants Purchased	Average Price Paid per Warrant	Total Number of Warrants Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Warrants that May be Purchased under the Plans or Programs
Warrants				
October 1 to October 31	—	\$—	—	5,934,144
November 1 to November 30	—	—	—	5,934,144
December 1 to December 31	111,400	(1) 1.93	111,400	5,822,744

(1) Warrants repurchased under a plan announced April 30, 2010, approving the repurchase of up to 7.5 million outstanding warrants. On September 21, 2010, the Board of Directors approved an increase to the number of warrants subject to the plan by 5 million.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the financial statements and related notes and the other financial information appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. See the section title "Forward-Looking Statements" for more information. Actual results could differ materially from those anticipated in the forward-looking statements as a result of many factors, including those discussed in "Risk Factors" on page 5 and elsewhere in this report.

Overview

Founded in 1977, we are an international real estate investment and services firm. We are a vertically integrated real estate operating company with approximately 340 professionals in 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan.

Unless specifically noted otherwise, as used throughout this Management's Discussion and Analysis section, "we," "our," "Company" or "us" refers to the business, operations and financial results of Kennedy-Wilson Holdings, Inc., unless the context requires otherwise.

Kennedy Wilson's 2012 Highlights

Operating metrics

During the three months ended December 31, 2012, the Company achieved an adjusted EBITDA of \$44.9 million, a 51% increase from \$29.7 million for the same period in 2011.

During the year ended December 31, 2012, the Company achieved an adjusted EBITDA of \$100.3 million, a 41% increase from \$71.2 million for the same period in 2011.

Investments business

Investment Account

As of December 31, 2012, our investment account (Kennedy Wilson's equity in real estate, joint ventures, loan investments and marketable securities, less mortgage debt) increased by 42% to \$828.3 million from \$582.8 million at December 31, 2011. This change was comprised of approximately \$469.6 million (including \$230.3 million during the fourth quarter) of cash contributed to, offset by income earned on investments and approximately \$224.0 million (including \$60.0 million during the fourth quarter) of cash distributed from investments.

As of December 31, 2012, the Company and its equity partners owned 16.1 million rentable square feet of real estate including 14,764 apartment units and 30 commercial properties. Additionally, as of December 31, 2012, the Company and its equity partners owned \$2.2 billion in loans secured by real estate and over 3,300 acres of land.

Operating metrics

During the three months ended December 31, 2012, our investments business achieved an Adjusted EBITDA of \$42.0 million, a 159% increase from \$16.1 million for the same period in 2011.

During the year ended December 31, 2012, our investments business achieved an Adjusted EBITDA of \$88.5 million, a 68% increase from \$52.7 million for the same period in 2011.

During the year ended December 31, 2012, based on 9,015 same property multifamily units, rental revenues and net operating income increased by 3.6% and 5.9%, respectively, while percentage leased decreased by 0.2% from 2011.

In addition, based on 2.2 million square feet of same property commercial real estate, rental revenues, net operating income and occupancy increased by 9.9%, 13.2% and 5.1%, respectively.

Acquisition/disposition program

From January 1, 2010 through December 31, 2012, the Company and its equity partners, acquired approximately \$8.0 billion of real estate related investments (includes unpaid principal balance of loan purchases). During 2012, the Company and its equity partners acquired \$2.9 billion of real estate related investments. This includes \$1.4 billion of real estate and \$1.5 billion of loans secured by real estate in which we invested \$206.1 million and \$196.2 million, respectively.

During the year ended December 31, 2012, the Company and its equity partners sold six multifamily properties (through property sales and sale of equity interest) located in the Western U.S. for a total of \$251.7 million, which

resulted in a total gain of \$33.7 million, of which our share was \$10.1 million (\$20.7 million of our equity invested).

## Table of Contents

### Property level debt financing

During the year ended December 31, 2012, the Company and its equity partners completed approximately \$928.7 million of property financings and re-financings at an average interest rate of 3.8% and a weighted average maturity of 6.0 years.

During the year ended December 31, 2011, the Company and its equity partners completed approximately \$1.6 billion of property financings and re-financings at an average interest rate of 4.2% and a weighted average maturity of 3.3 years.

### Key Investment Updates

#### UK Loan Pool

Our current equity in this investment is \$60.4 million; we own 12.5% before carried interest.

In December 2011, we and our equity partners acquired a loan pool secured by real estate located in the United Kingdom with an unpaid principal balance of \$2.1 billion. As of December 31, 2012, the unpaid principal balance was \$765.8 million due to loan resolutions of approximately \$1.3 billion, representing 64% of the pool. The total debt incurred at the venture level at the time of purchase of these loans was \$323.4 million with a maturity date of October 2014. As a result of the loan resolutions, the venture level debt has been paid down by \$297.6 million to \$25.8 million as of December 31, 2012.

#### KW Residential, LLC

Our current equity in this investment is \$102.7 million; we own 40.9% before carried interest.

Maintained 96.4% occupancy in 50 apartment buildings with over 2,400 units.

Since Fairfax Financial became our partner in the Japanese apartment portfolio in September 2010, we have distributed a total of \$56.5 million, of which our share was \$26.4 million.

#### Services business

Management and leasing fees and commissions decreased by 42% to \$17.8 million for the three months ended December 31, 2012 from \$30.8 million for the same period in 2011.

During the three months ended December 31, 2012, our services business achieved an EBITDA of \$9.0 million, a 53% decrease from \$19.2 million for the same period in 2011.

Management and leasing fees and commissions decreased by 7% to \$53.3 million for the year ended December 31, 2012 from \$57.1 million for the same period in 2011. Included in management and leasing fees and commissions for the year ended December 31, 2012 and 2011 are \$4.4 million and \$21.6 million, respectively, of acquisition fees related to the acquisition of the Bank of Ireland stock and the UK loan pool in 2011. Excluding the acquisition fees, the Company achieved a 38% increase in management and leasing fees and commissions for the year ended December 31, 2012 as compared to the same period in 2011.

During the year ended December 31, 2012, our services business achieved an EBITDA of \$20.2 million, a 22% decrease from \$25.7 million for the same period in 2011. Excluding the acquisition fees related to the acquisition of the Bank of Ireland stock and the UK loan pool in 2011 of \$4.4 million and \$21.6 million for the year ended December 31, 2012 and 2011, respectively, the Company achieved a 282% increase in its services EBITDA for the year ended December 31, 2012 as compared to the same period in 2011.

#### Corporate financing

In July 2012, the Company issued 8.6 million shares of common stock primarily to institutional investors, resulting in gross proceeds of \$112.1 million, of which \$40.0 million was used to pay off the outstanding balance on our line of credit.

During the three months ended December 31, 2012, the Company issued \$155.0 million of senior notes.

#### Subsequent events

Subsequent to December 31, 2012, we have acquired or have entered into contracts to acquire approximately \$1.2 billion of real estate related investments which include 1.6 million rentable square feet of real estate, comprised of 725 apartment units and one commercial property along with \$727.6 million of loans secured by real estate and 301 residential lots. We expect the acquisitions to be joint venture investments.

Subsequent to December 31, 2012, KW Residential, LLC settled several Japanese yen related hedges resulting in cash proceeds of \$23.7 million to the joint venture, of which our share was \$10.6 million.

In December 2012, we invested \$43.6 million of our equity and borrowed \$79.3 million to acquire a loan secured by a shopping center in the United Kingdom. Additionally, in partnership with an institutional investor, we acquired a loan pool with an

## Table of Contents

unpaid principal balance of \$232.3 million, comprised of seven loans secured by 23 underlying properties in the United Kingdom. Our investment in the pool totaled \$16.0 million. Subsequent to December 31, 2012, we sold 50% of our interest in both investments to an institutional investor. As a result of the sale, the loan secured by a shopping center will no longer be consolidated.

During March 2013, we drew \$35 million on our unsecured credit facility.

### Critical Accounting Policies

**Basis of Presentation**—The consolidated financial statements include the accounts of ourselves and our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. In addition, we evaluate our relationships with other entities to identify whether they are variable interest entities (VIE) as defined by FASB Accounting Standards Codification (ASC) Subtopic 810 – Consolidation and to assess whether we are the primary beneficiary of such entities. In determining whether we are the primary beneficiary of a VIE, qualitative and quantitative factors are considered, including, but not limited to: the amount and characteristics of our investments; the obligation or likelihood for us to provide financial support; and our ability to control or significantly influence key decisions for the VIE. Significant judgments related to these determinations include estimates about the current future fair values and performance of real estate held by these VIEs and general market conditions. As of December 31, 2012, we have determined that we do not have any consolidated investments which are VIEs.

Our investments in unconsolidated subsidiaries in which we have the ability to exercise significant influence over operating and financial policies, but do not control, or entities which are variable interest entities in which we are not the primary beneficiary are accounted for under the equity method. Accordingly, our share of the earnings from these equity-method basis companies are included in our consolidated statements of operations. As of December 31, 2012, we had investments in five unconsolidated subsidiaries which are VIEs in which we are not the primary beneficiary and therefore account for them under the equity method.

**Revenue Recognition**—Revenue primarily consists of management fees, performance fees, commission revenue, rental income and sales of real estate.

Management fees are primarily comprised of property management fees and base asset management fees. Property management fees are earned for managing the operations of real estate assets and are based on a fixed percentage of the revenues generated from the respective real estate assets. Base asset management fees are earned from limited partners of funds we sponsor and are generally based on a fixed percentage of committed capital or net asset value. These fees are recognized as revenue ratably over the period that the respective services are performed.

Performance fees or carried interest are allocated to the general partner, special limited partner or asset manager of our real estate funds and loan pool participations based on the cumulative performance of the fund and loan pools and are subject to preferred return thresholds of the limited partners and participants. At the end of each reporting period, we calculate the performance fee that would be due to the general partner, special limited partner or asset manager's interests for a fund or loan pool, pursuant to the fund agreement or participation agreements, as if the fair value of the underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance fees to reflect either (a) positive performance resulting in an increase in the performance fee allocated to the general partner or asset manager or (b) negative performance that would cause the amount due to us to be less than the amount previously recognized as revenue, resulting in a negative adjustment to performance fees allocated to the general partner or asset manager. Substantially all of the carried interest is recognized in equity in joint venture income and substantially all of the performance fees are recognized in management and leasing fees in our consolidated statements of operations. Total performance fees accrued through December 31, 2012 that may be reversed in future periods if there is negative fund performance were \$12.8 million. Performance fees recognized during the year ended December 31, 2012 and 2011 were \$8.6 million and \$4.2 million, respectively.

Commissions primarily consist of acquisition fees, auction and real estate sales commissions and leasing commissions. Acquisition fees are earned for identifying and closing investments on behalf of investors and are based on a fixed percentage of the acquisition price. Acquisition fees are recognized upon the successful completion of an acquisition after all required services have been performed. In the case of auction and real estate sales commissions,

the revenue is generally recognized when escrow closes. In accordance with the guidelines established for Reporting Revenue Gross as a Principal versus Net as an Agent in the ASC Subtopic 605-45, we record commission revenues and expenses on a gross basis. Of the criteria listed in the Subtopic 605-45, we are the primary obligor in the transaction, do not have inventory risk, perform all or part of the service, have credit risk, and have wide latitude in establishing the price of services rendered and discretion in selection of agents and determination of service specifications. Leasing fees that are payable upon tenant occupancy, payment of rent or other events beyond our control are recognized upon the occurrence of such events.

Rental income from operating leases is generally recognized on a straight-line basis over the terms of the leases.

Table of Contents

Sales of real estate are recognized at the close of escrow when title to the real property passes to the buyer and there is no continuing involvement in the real property. We follow the requirements for profit recognition as set forth by the Sale of Real Estate ASC Subtopic 360-20.

**Real Estate Acquisitions**—When acquiring a property, the purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated fair values in accordance with Business Combinations ASC Subtopics 805-10. Acquisition-related costs are expensed as incurred. The valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate and the investments in debt securities are valued, in part, based on third party valuations and management estimates also using an income approach.

**Investments in Joint Ventures**—We have a number of joint venture interests, generally ranging from 5% to approximately 50%, that were formed to acquire, manage, and/or sell real estate. Investments in joint ventures which we do not control are accounted for under the equity method of accounting as we can exercise significant influence, but do not have the ability to control the joint venture. An investment in a joint venture is recorded at its initial investment and is increased or decreased by our share of undistributed income or loss, plus additional contributions and less distributions. A decline in the value of an investments in a joint venture that is other than temporary is recognized when evidence indicates that such a decline has occurred in accordance with Equity Method Investments ASC Subtopic 323-10.

Profits on the sale of real estate held by joint ventures in which we have continuing involvement are deferred until such time that the continuing involvement has been concluded and all the risks and rewards of ownership have passed to the buyer. Profit on sales to joint ventures in which we retain an equity ownership interest results in partial sales treatment in accordance with Sale of Real Estate ASC Subtopic 360-20, thus deferring a portion of the gain as a result of our continuing ownership percentage in the joint ventures.

We have three investments in joint ventures, KW Property Fund III, L.P. (KW Fund III), Kennedy Wilson Real Estate Fund IV, L.P. (Fund IV) and SG KW Venture I, LLC (the Funds) that are investment companies under the Investment Companies ASC Subtopic 946-10. Thus, the Funds reflect their investments at fair value, with unrealized gains and losses resulting from changes in fair value reflected in their earnings. We have retained the specialized accounting for the Funds pursuant to Retention of Specialized Accounting for Investments in Consolidation ASC Subtopic 810-10 in recording its equity in joint venture income from the Funds.

Additionally, we elected the fair value option for two investments in joint venture entities that were acquired during 2008. We elected to record these investments at fair value to more accurately reflect the timing of the value created in the underlying investments and report those results in current operations.

**Investments in Loan Pool Participations and Notes Receivable**—Interest income from investments in loan pool participations and note receivable pools are recognized on a level yield basis under the provisions of Loans and Debt Securities Acquired with Deteriorated Credit Quality ASC Subtopic 310-30, where a level yield model is utilized to determine a yield rate which, based upon projected future cash flows, accretes interest income over the estimated holding period. In the event that the present value of those future cash flows is less than net book value, a loss would be immediately recorded. When the future cash flows of a note cannot be reasonably estimated, cash payments are applied to the cost basis of the note until it is fully recovered before any interest income is recognized.

**Fair Value Measurements**—We account for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis under the provisions of Fair Value Measurements ASC Subtopic 820-10. Subtopic 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

**Derivative Instruments and Hedging Activities**—We have joint ventures that hold derivatives to reduce our exposure to foreign currencies. We recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value and the changes in fair value must be reflected as income or expense. If the derivative qualifies for hedge accounting, depending on the nature of the hedge, changes in the fair value of derivatives are either offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings or

recognized in other comprehensive income, which is a component of the stockholders' equity accounts. The ineffective portion of a derivative's change in fair value is immediately recognized in earnings.

Table of Contents

Earnings per Share—Basic earnings per share is computed based upon the weighted average number of shares of common stock outstanding during the periods presented. Diluted earnings per share is computed based upon the weighted average number of shares of common stock and potentially dilutive securities outstanding during the periods presented. The dilutive impact of potentially dilutive securities including warrants, convertible securities, and unvested stock which were outstanding during the period is calculated by the “treasury stock” method.

Share-Based Payment Arrangements—We account for our share-based payment arrangements under the provisions of Share-Based Payments ASC Subtopic 718-10. Compensation cost for employee services received in exchange for an award of equity instruments is based on the grant-date fair value of the share-based award that is ultimately settled in our equity. The cost of employee services are recognized over the period during which an employee provides service in exchange for the share-based payment award. Share-based payment arrangements that vest ratably over the requisite service period are recognized on the straight-line basis and performance awards that vest ratably are recognized on a tranche-by-tranche basis over the performance period. Unrecognized compensation costs for share-based payment arrangements that have been modified are recognized over the original service or performance period.

Fair Value Option—We account for financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value reported in earnings in accordance with the provisions of Fair Value Measurements and Disclosures ASC Subtopic 820-10.

Income Taxes—Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In accordance with Accounting for Uncertainty in Income Taxes ASC Subtopic 740-10, we recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

We record interest related to unrecognized tax benefits in interest expense and penalties in selling, general, and administrative expenses.

Results of Operations

The following table sets forth items derived from our consolidated statement of operations for the years ended December 31, 2012, 2011, and 2010:

Table of Contents

	Year Ended December 31		
	2012	2011	2010
Revenue			
Management and leasing fees	\$40,304,000	\$27,116,000	\$21,330,000
Commissions	12,955,000	29,960,000	11,734,000
Sale of real estate	2,271,000	417,000	13,472,000
Rental and other income	8,526,000	5,140,000	4,000,000
Total revenue	64,056,000	62,633,000	50,536,000
Operating expenses			
Commission and marketing expenses	4,550,000	3,965,000	3,186,000

Rental operating expense	4,496,000	3,308,000	1,913,000
Total operating expenses	91,495,000	66,052,000	69,937,000
Equity in joint venture income	21,527,000	12,507,000	10,548,000
Interest income from loan pool participations and notes receivable	9,256,000	7,886,000	11,855,000
Operating income	3,344,000	16,974,000	3,002,000
Non-operating income (expense)			
Interest income	2,938,000	2,306,000	854,000
Acquisition related gains	25,476,000	6,348,000	2,108,000
Gain on sale of marketable securities	4,353,000	—	—
Gain on early extinguishment of mortgage debt	—	—	16,670,000
Loss on early extinguishment of corporate debt	—	—	(4,788,000 )
Acquisition related expenses	(675,000 )	—	—
Interest expense	(28,595,000 )	(20,507,000 )	(7,634,000 )
Income from continuing operations before benefit from (provision for) income taxes	6,841,000	5,121,000	10,212,000
Benefit from (provision for) income taxes	208,000	2,014,000	(3,727,000 )
Income from continuing operations	7,049,000	7,135,000	6,485,000
Income from discontinued operations, net of income taxes	2,000	8,000	—
(Loss) gain from sale of real estate, net of income taxes	(212,000 )	335,000	—
Net income	6,839,000	7,478,000	6,485,000
Net income attributable to the noncontrolling interests	(2,589,000 )	(1,132,000 )	(2,979,000 )
Net income attributable to Kennedy-Wilson Holdings, Inc.	4,250,000	6,346,000	3,506,000
Preferred stock dividends and accretion of issuance costs	(8,144,000 )	(8,744,000 )	(4,558,000 )
Net loss attributable to Kennedy Wilson Holdings, Inc. common shareholders	\$(3,894,000 )	\$(2,398,000 )	\$(1,052,000 )
EBITDA <sup>(1)</sup>	\$92,174,000	\$66,122,000	\$48,108,000
Adjusted EBITDA <sup>(2)</sup>	\$100,321,000	\$71,177,000	\$58,427,000

(1) EBITDA represents net income before interest expense, our share of interest expense included in income from investments in joint ventures and loan pool participations, depreciation and amortization, our share of depreciation and amortization included in income from investments in joint ventures, loss on early extinguishment of corporate debt and income taxes. We do not adjust EBITDA for gains or losses on the extinguishment of mortgage debt as we are in the business of purchasing discounted notes secured by real estate and, in connection with these note purchases, we

may resolve these loans through discounted payoffs with the borrowers. EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Our management believes EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA generally eliminates the effects of financing and income taxes and the

Table of Contents

accounting effects of capital spending and acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.

(2) Adjusted EBITDA represents EBITDA, as defined above, adjusted to exclude acquisition and merger related expenses and stock based compensation expense. Our management uses Adjusted EBITDA to analyze our business because it adjusts EBITDA for items we believe do not have an accurate reflection of the nature of our business going forward. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.

However, EBITDA and Adjusted EBITDA are not recognized measurements under GAAP and when analyzing our operating performance, readers should use EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

Additionally, we use certain non-GAAP measures to analyze our business, they include EBITDA<sup>(1)</sup> and Adjusted EBITDA<sup>(2)</sup> calculated as follows:

	Three months ended December 31,	
	2012	2011

The following compares results of operations for the years ended December 31, 2012 and December 31, 2011 and years ended December 31, 2011 and December 31, 2010.

Our Consolidated Financial Results and Comparison of the years ended December 31, 2012 and 2011

Our revenues for the year ended December 31, 2012 and 2011 were \$64.1 million and \$62.6 million, respectively.

Total operating expenses for the same periods were \$91.5 million and \$66.1 million, respectively. Net loss attributable to our common shareholders was \$3.9 million and \$2.4 million in 2012 and 2011, respectively. EBITDA was \$92.2 million and \$66.1 million in 2012 and 2011, respectively. Adjusted EBITDA was \$100.3 million and \$71.2 million in 2012 and 2011, respectively. The Company achieved a 39% increase in EBITDA and a 41% increase in adjusted EBITDA for the year ended December 31, 2012 as compared to the same period in 2011.

#### Revenues

##### Investments Segment Revenues

Rental and other income increased to \$8.5 million in 2012 from \$5.1 million in 2011. The \$3.4 million increase is primarily due to the acquisition of three apartment buildings and one office building in the Western United States during 2012. Additionally, we acquired an approximately 200,000 square foot office portfolio in Oakland, California in the latter half of 2011 which contributed to the increase in rental and other income in 2012.

During the year ended December 31, 2012, we sold five condominium units generating \$2.3 million of proceeds from the sale of real estate. During the year ended December 31, 2011, we sold a land parcel in Kent, Washington, generating \$0.4 million of proceeds in sale of real estate.

##### Services Segment Revenues

Third Party Services - These are management and leasing fees as well as commissions earned from third parties and relate to assets in which we do not have an ownership interest.

Table of Contents

Our third party management and leasing services increased to \$15.8 million during the year ended December 31, 2012 as compared to approximately \$12.6 million for the same period in 2011. The \$3.2 million or 26% increase primarily relates to our acquisitions of the real estate investment management division of the Bank of Ireland in the latter half of 2011 which provided asset management fees of \$3.2 million during the year ended December 31, 2012 as compared to approximately \$1.4 million for the same period in 2011. In addition, in March 2012, we acquired a real estate consultancy firm specializing in capital sourcing and real estate research for the single family homebuilding and multifamily apartment industries which generated \$1.2 million in management fees.

Our third party commission revenues was at \$5.0 million in 2012 as compared to approximately \$5.8 million in 2011. During 2012 we had a decrease in auction sales as compared to 2011. Our auction services business has historically been countercyclical and improvements in general economic conditions may cause auction service revenues to decrease.

**Related Party Services** - These are management and leasing fees as well as commissions earned from our equity partners and relate to assets in which we have an ownership interest.

Our related party management and leasing services generated revenues of \$24.5 million in 2012 compared to approximately \$14.5 million in 2011. The \$10.0 million, or 68%, increase primarily relates to our acquisition of the U.K.-based loan pool in the latter half of 2011, which provided additional asset management fees of \$8.4 million in 2012. In addition, as a result of our acquisition activity in the latter half of 2011 and during 2012, we have generated an additional \$1.6 million in management and leasing fees.

In 2012, our related party commission revenues were \$7.9 million compared to approximately \$24.2 million in 2011. Our commission revenues are primarily driven by fees related to the acquisition of the \$2.1 billion U.K.-based loan portfolio. During 2012, we recognized \$4.4 million of acquisition fees related to certain debt hurdles achieved in the U.K.-based loan portfolio as compared to \$13.3 million in 2011. During 2011, we received \$8.3 million of fees related to the \$1.5 billion recapitalization of the Bank of Ireland. We did not received such fees in 2012.

**Operating Expenses**

**Investments Segment Operating Expenses**

Operating expenses for the year ended December 31, 2012 increased to \$41.2 million compared to \$21.7 million for the same period in 2011. The increase is attributable to the following:

Compensation and related expenses increased by \$10.8 million and general and administrative expenses increased by \$3.7 million due to growth in the Company, including an increase in personnel, particularly due to our expansion in the United Kingdom and Ireland, to source and execute on acquisition opportunities. We began our operations in the United Kingdom and Ireland in June 2011 and have doubled our headcount there since December 31, 2011.

Rental operating expenses increased by \$1.2 million and depreciation and amortization increased by \$2.0 million due to the acquisition of three apartment buildings and one office building in the Western United States during 2012.

Additionally, we acquired an approximate 200,000 square foot office portfolio in Oakland, California in the latter half of 2011 which contributed to the increase in rental operating expenses and depreciation and amortization in 2012.

During the year ended December 31, 2012 we sold five condominium units which resulted in \$2.2 million of sale-related costs. During the year ended December 31, 2011, a land parcel in Kent, Washington was sold which resulted in \$0.4 million of sale-related costs.

**Services Segment Operating Expenses**

Operating expenses (excluding depreciation and amortization expense) for the year ended December 31, 2012 were approximately \$33.1 million as compared to \$31.4 million for the same period in 2011. The increase is attributable to the following:

Commissions and marketing expenses increased by \$0.6 million as a result of an increase in third party services used to generate new business.

General and administrative expenses increased by \$1.2 million primarily due to the growth of our company specifically in the United Kingdom and Ireland. We began our operations in the United Kingdom and Ireland in June 2011 and have doubled our headcount there since December 31, 2011.

**Corporate Operating Expenses**

## Table of Contents

Operating expenses (excluding depreciation and amortization expense) for the year ended December 31, 2012 were approximately \$16.7 million as compared to \$12.6 million for the same period in 2011. Compensation and related expenses increased by \$3.9 million primarily due to the growth of our company.

### Investments Segment Equity in Joint Venture Income

Equity in joint ventures generated income of \$21.5 million for the year ended December 31, 2012, as compared to income of \$12.5 million for the same period in 2011. The income in 2012 and 2011 was primarily derived from property sales and fair value gains as further discussed below.

During the year ended December 31, 2012, the Company and its equity partners sold six multifamily properties (through property sales and sale of equity interest) located in the Western United States for a total of \$251.7 million, which resulted in a total gain of \$33.7 million, of which \$10.1 million was a gain to us and \$3.0 million to our noncontrolling interest holders. In addition, we recognized \$9.4 million of unrealized fair value gains. Included in equity in joint venture income are one-time acquisition costs which are non-recurring. During the year ended December 31, 2012, approximately \$2.4 million of acquisition costs were included in equity in joint venture income. During the year ended December 31, 2011, the joint venture income was primarily attributable to fair value gains recognized in connection with the foreclosure by one of our joint ventures on a first trust deed position it held followed by its taking ownership of a class A multifamily project in San Jose, California, the acquisition of additional membership interests in a joint venture that we account for using the fair value option, the sale of a 286-unit apartment complex in Anaheim, California and unrealized fair value gains.

Our share of depreciation generated at the joint venture level was \$22.6 million and \$13.9 million for the years ended December 31, 2012 and 2011, respectively. We look at equity in joint venture income plus our share of the joint ventures depreciation to get a better sense of cash generated by our joint venture investments. The aggregate of these amounts were \$44.1 million and \$26.4 million for the year ended December 31, 2012 and 2011, respectively, representing a 67% increase.

### Investments Segment Income from Loan Pool Participations and Notes Receivable

Income from loan pool participations and notes receivable generated income of \$9.3 million in 2012 as compared to \$7.9 million in 2011. During the year ended December 31, 2012, we accreted \$8.0 million of interest income on our U.K.-based loan pool. Additionally, we accreted or recognized \$6.1 million of interest income from new loan pools or notes originated or acquired in the Western United States during 2012. These increases were offset by a \$4.5 million decrease in accretion income recognized during the same period on a loan pool purchased during 2010 due to an increase in the estimated resolution periods as well as foreclosure on certain underlying real estate collateral. Even with this decrease in accretion we have accreted to date a profit of \$4.7 million on this loan pool.

During the year ended December 31, 2011, we accreted \$1.4 million of interest income on our U.K.-based loan pool which we acquired in the last quarter of 2011. Additionally we accreted or recognized \$5.6 million of interest income from our loan pools in the Western United States.

### Non-Operating Items

Acquisition related gains were \$25.5 million for the year ended December 31, 2012 compared to \$6.3 million for the same period in 2011. The acquisition related gains in 2012 are primarily attributable to a change of control and thereby consolidation of KW Property Fund II, LP, a limited partnership that had been previously accounted for using the equity method. As the fair value was in excess of the carrying value of our equity method ownership interest, we recorded an acquisition related gain in the amount of \$22.8 million. The acquisition related gain in 2011 is primarily attributed to a gain recognized in connection with the purchase of an approximately 200,000 square foot office portfolio in Oakland, California with a fair value in excess of the price paid.

Interest expense was \$28.6 million in 2012 as compared to \$20.5 million in 2011. The increase is primarily attributable to the \$250 million senior notes issued in April 2011 and the additional \$100 million issued in December 2012 bearing interest at a rate of 8.75% per annum and the \$55 million senior notes issued in December 2012 bearing interest at 7.75% per annum. In addition, we incurred additional interest expense associated with the mortgage loans on the acquisition of three apartment buildings and one office building in the Western United States during 2012.

Benefit from income taxes was \$0.2 million in 2012 as compared to \$2.0 million in 2011.

We had net income of \$2.6 million attributable to a non-controlling interest in 2012 compared to \$1.1 million in 2011. During 2012 the net income attributable to non-controlling interest holders was primarily due to a gain from the sale of a multifamily

Table of Contents

property. During 2011, a majority of the net income attributable to non-controlling interest holders related to entities which were consolidated at that time. As a result of a restructuring in December 2011, these entities were no longer consolidated as of December 31, 2011.

Our Consolidated Financial Results and Comparison of the years ended December 31, 2011 and 2010

Our revenues for the year ended December 31, 2011 and 2010 were \$62.6 million and \$50.5 million, respectively.

Total operating expenses for the same periods were \$66.1 million and \$69.9 million, respectively. Net loss attributable to our common shareholders was \$2.4 million and \$1.1 million in 2011 and 2010, respectively. EBITDA was \$66.1 million and \$48.1 million in 2011 and 2010, respectively. Adjusted EBITDA was \$71.2 million and \$58.4 million in 2011 and 2010, respectively. The Company achieved a 37% increase in EBITDA and a 22% increase in adjusted EBITDA for the year ended December 31, 2011 as compared to the same period in 2010.

Revenues

Services Segment Revenues

Third Party Services - These are management and leasing fees as well as commissions earned from third parties and relate to assets in which we do not have an ownership interest.

Our third party management and leasing services generated revenues of \$12.6 million in 2011 compared to approximately \$8.9 million in 2010. The increase primarily relates to our acquisitions of the real estate investment management division of the Bank of Ireland and the U.K.-based loan pool, which provided additional asset management fees of \$3.4 million in the year ended December 31, 2011.

In 2011, our third party commission revenues were \$5.8 million as compared to approximately \$6.4 million in 2010. During 2011 we had a decrease in auction sales as compared to 2010. Our auction services business has historically been countercyclical and improvements in general economic conditions may cause auction service revenues to decrease.

Related Party Services - These are management and leasing fees as well as commissions earned from our equity partners and relate to assets in which we have an ownership interests.

Our related party management and leasing services generated revenues of \$14.5 million in 2011 compared to approximately \$12.4 million in 2010. The increase is due to a full year of asset management fees earned on acquisitions in 2010 and additional fees earned on 2011 acquisitions.

In 2011, our related party commission revenues were \$24.2 million compared to approximately \$5.4 million in 2010. The increase in commission revenue was primarily driven primarily by \$13.3 million of fees related to the acquisition of the \$2.1 billion U.K.-based loan portfolio and \$8.3 million of fees related to the \$1.5 billion recapitalization of the Bank of Ireland.

Investments Segment Revenues

Rental and other income increased to \$5.1 million in 2011 from \$4.0 million in 2010. The \$1.1 million increase is due to Kennedy-Wilson's foreclosure on four assets in the consolidated loan portfolio and the 100% acquisition of equity acquired in an approximately 200,000 square foot office portfolio in Oakland, California in 2011.

Sale of real estate decreased to \$0.4 million in 2011 from \$13.5 million in 2010. The decrease is primarily attributable to the sale of a controlling interest in land in Kent, Washington in 2011 as compared to the sale of 11 condominium units in southern California and the sale of a 50% interest in an apartment project in northern California in 2010.

Operating Expenses

Operating expenses in 2011 were approximately \$65.7 million (not including cost of real estate sold), as compared to \$58.4 million in 2010. This increase in operating expenses is a result of the growth in the size of our company as well as the increase in revenues. Revenues before sales of real estate increased approximately 68% in 2011 as compared to 2010 while operating expenses before cost of real estate sold increased only 12% in 2011 as compared to 2010.

Additionally, EBITDA and adjusted EBITDA grew by 37% and 22%, respectively, from year over year.

Services Segment Operating Expenses

Commissions and marketing expenses increased to \$4.0 million in 2011 from \$3.2 million in 2010. The increase is primarily attributable to commissions related to raising capital.

Table of Contents

Compensation and related expenses were approximately \$20.6 million in 2011, as compared to \$15.4 million in 2010. The increase is primarily attributed to discretionary compensation paid to employees which is commensurate with the increase in our services segment EBITDA and Adjusted EBITDA in 2011 as compared to 2010.

General and administrative expenses were \$6.7 million in 2011 as compared to \$5.0 million in 2010. The increase is primarily related to increased general and administrative expenses required to support the growth in our company and the associated growth in service revenues.

Investments Segment Operating Expenses

Compensation and related expenses were approximately \$11.4 million in 2011 as compared to \$9.3 million in 2010. The increase is primarily attributable to discretionary compensation paid to employees.

Cost of real estate sold decreased to \$0.4 million in 2011 from \$11.5 million in 2010. The decrease is primarily attributable to the sale of a controlling interest in land in Kent, Washington in 2011 as compared to the sale of 11 condominium units in southern California and the sale of a 50% interest in an apartment project in northern California in 2010.

Rental operating expenses in 2011 and 2010 were approximately \$3.3 million and \$1.9 million, respectively, an increase of 73% from 2010 to 2011. The increase is due to Kennedy-Wilson's foreclosure on four assets in the consolidated loan portfolio and the acquisition of the outstanding partnership interests to achieve ownership of an approximate 200,000 square foot office portfolio in Oakland, California in 2011.

General and administrative expenses were \$4.1 million in 2011 as compared to \$3.5 million in 2010. The increase is primarily related to increased general and administrative expenses required to support the growth in our company and the associated equity in income generated from our investment segment.

Depreciation and amortization expense increased to \$2.4 million in 2011, a 80% increase from \$1.3 million in 2010. The increase is primarily attributable to Kennedy-Wilson's foreclosure on four assets in the consolidated loan portfolio and the acquisition of the outstanding partnership interests to achieve ownership of an approximate 200,000 square foot office portfolio in Oakland, California, in 2011.

Corporate Operating Expenses

Compensation and related expenses were approximately \$9.1 million in 2011, as compared to \$13.4 million in 2010. The decrease is primarily related to \$5.1 million of stock compensation expense in 2011 as compared to \$8.1 million in 2010 associated with the 2009 Equity Participation Plan.

Merger related expenses were \$2.2 million for the year ended December 31, 2010. These were costs incurred in connection with the Merger.

General and administrative expenses were \$3.6 million in 2011, as compared to \$2.8 million in 2010. The increase is primarily related to increased general and administrative expenses required to support the growth in our company.

Investments Segment Equity in Joint Venture Income

Investments in joint ventures generated income of \$12.5 million in 2011, an increase of \$2.0 million from income of \$10.5 million recorded in 2010, due primarily to \$4.3 million of unrealized fair value gains recognized in 2011 versus \$6.2 million in 2010. This decrease in fair value gains recognized was offset by improved operating results at the joint venture level due to decreased financing costs achieved in refinances that took place in 2010 and 2011.

Our share of depreciation generated at the joint venture level was \$13.9 million and \$10.0 million for the years ended December 31, 2011 and 2010, respectively. We look at equity in joint venture income plus our share of the joint ventures depreciation to get a better sense of cash generated by our joint venture investments. The aggregate of these amounts were \$26.4 million and \$20.6 million for the year ended December 31, 2011 and 2010, respectively, representing a 28% increase.

Investments Segment Income from Loan Pool Participations and Notes Receivable

Income from loan pool participations and notes receivable generated income of \$7.9 million in 2011 as compared to \$11.9 million in 2010. This can be attributed to a decrease in accretion income recognized on our loan pools purchased during 2010 due to an increase in the estimated resolution periods as well as foreclosure on certain underlying real estate collateral. Additionally, the 2011 results only include two months of accretion related to our investment in the U.K.-based loan pool.

## Table of Contents

### Non-Operating Items

Acquisition related gain was \$6.3 million for the year ended December 31, 2011 compared to \$2.1 million for the same period 2010. The acquisition related gain in 2011 is primarily attributed to a gain recognized in connection with the purchase of a approximate 200,000 square foot office portfolio in Oakland, California with a fair value in excess of the price paid as compared to the purchase of a controlling joint venture interest in a project in Northern California with a fair value in excess of the price paid during the same period in 2010.

We achieved a gain on early extinguishment of debt of \$16.7 million in 2010 related to the purchase of debt on a 2,700 acre ranch in Hawaii at a discount. No such gain was recorded in 2011.

Loss on early extinguishment of debt was \$4.8 million for 2010. The loss was related to the early extinguishment of convertible subordinated debt at an amount that was above face value and the associated decrease in the value of the beneficial conversion feature. No similar loss was recorded in 2011.

Interest expense was \$20.5 million in 2011 as compared to \$7.6 million in 2010. The increase is primarily attributable to the \$250 million senior notes issued in April 2011 bearing interest at a rate of 8.75%. Additionally, in 2010, we paid off our convertible subordinated note.

Benefit from income taxes was \$2.0 million in 2011 as compared to a provision for income taxes of \$3.7 million in 2010. During 2011, a majority of our taxable income was earned directly by our Irish subsidiaries which are taxed at the foreign tax rate of 12.5%, resulting in a rate differential and benefit from income taxes. During 2010, a majority of our income was earned directly in the United States which is taxed at the federal rate of approximately 34%.

Income from discontinued operations was \$0.3 million in 2011. The income relates to the foreclosure sale of a property from our consolidated loan pool.

We had net income of \$1.1 million attributable to a non-controlling interest in 2011 compared to \$3.0 million in 2010.

The decrease is primarily due to the 2010 allocation to the noncontrolling interest in the income of the loan pool participations for reasons described above.

### Liquidity and Capital Resources

Our liquidity and capital resources requirements include capital expenditures for our real estate and joint venture investments, and working capital needs. Historically, we have not required significant capital resources to support our brokerage and property management operations. We finance these operations with internally generated funds, borrowings under our revolving line of credit and sales of equity and debt securities. Our investments in real estate are typically financed with equity from our balance sheet and mortgage loans secured primarily by that real estate. These mortgage loans are generally nonrecourse in that, in the event of default, recourse will be limited to the mortgaged property serving as collateral. In some cases, we guarantee a portion of the loan related to a joint venture investment, usually until some condition, such as completion of construction or leasing or certain net operating income criteria, has been met. We do not expect these guarantees to materially affect liquidity or capital resources.

During the year ended December 31, 2012, the Company earned \$9.4 million related to operations in the United Kingdom and Ireland. Foreign taxes of \$1.1 million are included in the consolidated tax provision for income taxes related to the portion of income earned directly by the United Kingdom and Ireland subsidiaries for the year ended December 31, 2012. U.S. domestic taxes have not been provided for in the consolidated tax provision on amounts earned directly by these subsidiaries since it is the Company's plan to indefinitely invest amounts earned by these subsidiaries in the United Kingdom and Ireland operations. If these subsidiaries' cumulative earnings were repatriated to the United States additional US domestic taxes of \$7.4 million would be incurred. Additionally, approximately \$13.7 million of our consolidated cash and cash equivalents is held by our United Kingdom and Irish subsidiaries.

### Currency Derivative Instruments

Fluctuations in currency exchange rates may affect our financial position and results of operations. During 2012, we entered into a currency forward contract to manage our exposure to currency fluctuations between our functional currency (the U.S. dollar) and the functional currency (Euros) of certain of our wholly owned subsidiaries and joint venture investments and our exposure to currency fluctuations caused by our investment in marketable securities. We

hedged these exposures by entering into a currency forward contract to sell EUR16,000,000 at a forward rate. We expect this hedging instrument to partially hedge our exposure to our net investment in certain foreign operations and the changes in fair value of our marketable securities caused by currency

## Table of Contents

fluctuations. The currency forward contract matures on June 4, 2015, and its fair value held as of December 31, 2012 was \$1.5 million, which is included in accrued expenses and other liabilities on our consolidated balance sheet.

For 2012, we recorded a loss of \$1.2 million in other comprehensive income as the portion of the currency forward contract used to hedge the currency exposure of certain of our wholly owned subsidiaries qualifies as a net investment hedge under ASC Topic 815. During 2012, we recorded a loss of \$0.3 million in general and administrative expenses related to the portion of the currency forward contract that was used to hedge currency exposure of our investment in marketable securities

### Cash Flows

#### Operating

Our cash flows from operating activities are primarily dependent upon the operating distributions from our joint venture investments and loan pool participations, revenues from our services business, and the level of our operating expenses and other general and administrative costs. Net cash provided by operating activities totaled \$6.8 million for the year ended December 31, 2012 as compared to net cash used in operating activities of \$6.0 million for the year ended December 31, 2011.

#### Investing

Our cash flows from investing activities are generally comprised of cash used to fund investments in our joint ventures and loan pool participations, property acquisitions and capital expenditures, loans secured by real estate, and investments in marketable securities as well as cash received from dispositions, resolutions and other distributions of these investments. Net cash used in investing activities totaled \$389.7 million for the year ended December 31, 2012. We invested \$119.0 million in the acquisitions of real estate primarily related to the purchase of the three multifamily properties and one commercial property in the Western United States. We also invested \$178.7 million of equity in joint ventures of which \$149.5 million was invested in the acquisition of nine income producing multifamily and residential properties and 11 income producing commercial properties located primarily in the Western United States and Ireland. In addition, we invested \$257.9 million to fund our equity in new and existing loans. The cash used in the aforementioned investing activities was offset by receipt of \$48.7 million in distributions from our joint ventures primarily due to the sale of six multifamily properties (through property sales and sale of equity interest) located in the Western United States. In addition, we received \$58.1 million in distributions from our loan pools primarily due to loan resolutions. Lastly, we sold our marketable securities which provided \$34.1 million.

Net cash used in investing activities totaled \$198.1 million for the year ended December 31, 2011. This was primarily due to \$78.2 million of equity invested in joint ventures of which \$63.6 million was invested in the acquisition of eight income-producing multifamily properties and five income producing commercial properties in the Western United States and a development project in Hawaii. In addition, we contributed \$14.2 million to our joint venture in Japan for the purpose of refinancing a large portion of the Japanese multifamily portfolio and \$7.0 million to increase our investment in a project in Northern California. Additionally, we advanced \$172.0 million to fund our equity in new and existing loans of which \$61.2 million was invested in our U.K.-based loan pool. We also invested \$32.8 million in the ordinary stock of the Bank of Ireland. The cash used in the aforementioned investing activities was offset by the receipt of \$32.7 million in distributions from our joint ventures and \$66.4 million from our loan pool participations.

#### Financing

Our net cash related to financing activities is generally impacted by our borrowings and capital raising activities net of dividends and distributions paid to common and preferred shareholders and noncontrolling interests. Net cash provided by financing activities totaled \$388.4 million for the year ended December 31, 2012. This was primarily due to proceeds of \$106.2 million received from the issuance of 8.6 million shares of common stock primarily to institutional investors, issuance of \$155 million of senior debt which generated \$160.3 million in proceeds, \$157.7

million of proceeds from mortgage loans to finance our property acquisitions, offset by payments of cash dividends of \$21.9 million to our common and preferred shareholders and a \$4.9 million distribution to noncontrolling interest holders as a result of the sale of a 180-unit apartment building.

Net cash provided by financing activities totaled \$272.6 million for the year ended December 31, 2011. This was primarily due to the issuance of \$250 million of senior notes which generated \$249.3 million in proceeds. In addition, we issued 4.8 million shares of our common stock in a private placement for net proceeds of \$51.4 million and we also completed a follow-on offering of 6.9 million shares of our common stock primarily to institutional investors for net proceeds of \$71.7 million. This was offset by net repayments of \$73.0 million under our line of credit, mortgage loans and notes payables and payments of cash dividends of \$11.7 million.

Table of Contents

Since being listed in November 2009, cumulative preferred and common dividends declared were \$24.6 million and \$17.4 million, respectively, and are included as a component of retained earnings in the accompanying consolidated balance sheet and consolidated statement of equity.

We believe that our existing cash and cash equivalents plus capital generated from property management and leasing, brokerage, sales of real estate owned, collections from notes receivable, as well as our current line of credit, will provide us with sufficient capital requirements to maintain our current portfolio for at least the next 12 months.

To the extent that we engage in additional strategic investments, including real estate, note portfolios, or acquisitions of other real estate related companies, we may need to obtain third party financing which could include bank financing or the public sale or private placement of debt or equity securities.

Under our current joint venture strategy, we generally contribute property expertise and a fully funded initial cash contribution, with commitments to provide additional funding. Capital required for additional improvements and supporting operations during leasing and stabilization periods is generally obtained at the time of acquisition via debt financing or third party investors. Accordingly, we generally do not have significant capital commitments with unconsolidated entities. However, there may be certain circumstances when we, usually with the other members of the joint venture entity, may be required to contribute additional capital for a period of time.

Our need to raise funds from time to time to meet our capital requirements will depend on many factors, including the success and pace of the implementation of our strategy for growth. We regularly monitor capital-raising alternatives to be able to take advantage of other available avenues to support our working capital and investment needs, including strategic partnerships and other alliances, bank borrowings, and the sale of equity or debt securities. We expect to meet the repayment obligations of our senior notes and borrowing under our line of credit from cash generated by our business activities, including the sale of assets and the refinancing of debt.

**Contractual Obligations and Commercial Commitments**

At December 31, 2012, our contractual cash obligations, including debt, lines of credit, and operating leases included the following:

	Payments due by period				
	Total	Less than 1 year	1 - 3 years	4 - 5 years	After 5 years
<b>Contractual obligations</b>					
<b>Borrowings: <sup>(1)</sup></b>					
Mortgage loans and notes payable	\$236,538,000	\$12,918,000	\$90,735,000	\$43,917,000	\$88,968,000
Senior notes	405,000,000	—	—	—	405,000,000
Subordinated debt	40,000,000	—	—	—	40,000,000
Total borrowings	681,538,000	12,918,000	90,735,000	43,917,000	533,968,000
Operating leases	8,619,000	2,369,000	4,272,000	1,978,000	—
Total contractual cash obligations	\$690,157,000	\$15,287,000	\$95,007,000	\$45,895,000	\$533,968,000

See Notes 10-14 of our Notes to Consolidated Financial Statements. Figures do not include scheduled interest payments. Assuming each debt obligation is held until maturity, we estimate that we will make the following (1) interest payments: Less than 1 year-\$49,210,000; 1-3 years-\$96,222,000; 4-5 years-\$84,186,000; After 5 years: \$183,054,000. The interest payments on variable rate debt have been calculated at the interest rate in effect as of December 31, 2012.

**Significant indebtedness**

Our level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay our obligations as they become due. In addition, we may incur additional debt from time to time to finance strategic acquisitions, investments, joint ventures or for other purposes, subject to the restrictions contained in the documents governing our indebtedness. If we incur additional debt, the risks associated with our leverage, including our ability to

service our debt, would increase.

In 2007, Kennedy-Wilson issued junior subordinated debentures in the amount of \$40.0 million. The debentures were issued to a trust established by Kennedy-Wilson, which contemporaneously issued \$40.0 million of trust preferred securities to Merrill

Table of Contents

Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06%, and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly with the principal due in 2037. Kennedy Wilson may redeem the debentures, in whole or in part, on any interest payment date at par.

In June 2012, Kennedy-Wilson, Inc., a wholly owned subsidiary of Kennedy Wilson, amended its existing unsecured revolving credit facility with U.S. Bank and East-West Bank which effectively increased the total principal amount available to be borrowed by an additional \$25.0 million, for an aggregate of \$100.0 million. The loans under the amended unsecured credit facility will bear interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to June 30, 2015. As of December 31, 2012, there were no amounts drawn under the amended unsecured credit facility.

In April 2011, Kennedy-Wilson, Inc., a wholly owned subsidiary of Kennedy Wilson, issued \$200.0 million in aggregate principal amount of its 8.750% senior notes due 2019, for approximately \$198.6 million, net of discount. An additional \$50.0 million in aggregate principal amount of its 8.75% senior notes due 2019, was issued for approximately \$50.8 million, net of premium. In December 2012, Kennedy Wilson issued an additional \$100.0 million aggregate principal amount of these 8.750% senior notes for approximately \$105.3 million, net of premium. Collectively, the issuances are referred to as "the 2019 Notes". The terms of the 2019 Notes are governed by an indenture, dated as of April 5, 2011, by and among the issuer, Kennedy-Wilson, as parent guarantor; certain subsidiaries of the issuer, as subsidiary guarantors; and Wilmington Trust FSB, as amended by various subsequent supplemental indentures. The 2019 Notes bear interest at 8.750% per annum. Interest is payable on April 1 and October 1 of each year, beginning on October 1, 2011, until the maturity date of April 1, 2019. The issuer's obligations under the 2019 Notes are fully and unconditionally guaranteed by Kennedy-Wilson and the subsidiary guarantors. At any time prior to April 1, 2015, the issuer may redeem the 2019 Notes, in whole or in part, at a price equal to 100% of the principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after April 1, 2015, the issuer may redeem the 2019 Notes, in whole or in part, at the redemption prices specified in the indenture. Until April 1, 2014, the issuer may choose to redeem the 2019 Notes in an amount not to exceed in aggregate 35% of the original principal amount of the 2019 Notes together with any additional 2019 Notes issued under the indenture with money the issuer or Kennedy-Wilson raise in certain equity offerings. The amount of the 2019 Notes included in the consolidated balance sheets, net of unamortized discount and premium, was \$354.6 million at December 31, 2012.

In December 2012, Kennedy Wilson completed a public offering of \$55.0 million aggregate principal amount of 7.75% Senior Notes due 2042 (the "2042 Notes"). The 2042 Notes were issued pursuant to an indenture dated as of November 28, 2012, by and between Kennedy-Wilson, as issuer and Wilmington Trust FSB, as trustee, as amended by various subsequent supplemental indentures. The issuer's obligations under the 2042 Notes are fully and unconditionally guaranteed by Kennedy-Wilson and the subsidiary guarantors. At any time prior to December 1, 2017, the issuer may redeem the 2042 Notes, in whole or in part, at a redemption price equal to 100% of their principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after December 1, 2017, the issuer may redeem the 2042 Notes, in whole or in part, at a redemption price equal to 100% of their principal amount, plus accrued and unpaid interest, if any, to the redemption date. Interest on the 2042 Notes accrues at a rate of 7.75% per annum and is payable quarterly in arrears on March 1, June 1, September 1 and December 1 of each year, commencing on March 1, 2013. The 2042 Notes will mature on December 1, 2042. The amount of the 2042 Notes included in the accompanying consolidated balance sheets was \$55.0 million at December 31, 2012.

The junior subordinated debentures, the unsecured credit facility with U.S. Bank and East West Bank, and the indenture governing the 2019 Notes and 2042 Notes contain numerous restrictive covenants that, among other things, limit Kennedy-Wilson's and certain of its subsidiaries' ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens on assets, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. The unsecured credit facility and junior subordinated debentures also require Kennedy-Wilson to maintain a minimum tangible net worth and a specified amount of cash and cash equivalents.

The junior subordinated debentures require Kennedy-Wilson to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing our junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four-quarter rolling basis, and (ii) a ratio of total debt to net worth (as defined in the indenture governing the junior subordinated debentures) of not greater than 3.00 to 1.00 at anytime. As of December 31, 2012, Kennedy-Wilson's fixed charge coverage ratio was 3.42 to 1.00 and its ratio of total debt to net worth was 1.35 to 1.00.

The revolving loan agreement that governs the amended unsecured credit facility requires Kennedy-Wilson, Inc. to maintain (i) a minimum rent adjusted fixed charge coverage ratio (as defined in the revolving loan agreement) of not less than 1.50 to 1.00, measured on a four quarter rolling average basis and (ii) maximum balance sheet leverage (as defined in the revolving loan agreement) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter. As of December 31, 2012, Kennedy-Wilson, Inc.'s adjusted fixed charge coverage ratio was 2.49 to 1.00 and its balance sheet leverage was 0.93 to 1.00.

## Table of Contents

The indentures governing the 2019 Notes and 2042 Notes limits Kennedy-Wilson's ability to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, Kennedy-Wilson's maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of December 31, 2012, the balance sheet leverage ratio was 0.87 to 1.00.

### Off-Balance Sheet Arrangements

#### Guarantees

We have provided guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) we could be required to make under the guarantees was approximately \$55.5 million at December 31, 2012. The guarantees expire by the year end of 2017 and our performance under the guarantees would be required to the extent there is a shortfall in liquidation between the principal amount of the loan and the net sales proceeds of the property. If we were to become obligated to perform on these guarantees, it could have an adverse affect on our financial condition.

As of December 31, 2012, we have a unfulfilled capital commitments totaling \$8.3 million to our joint ventures. As we identify investment opportunities in the future, we may be called upon to contribute additional capital to joint ventures in satisfaction of our capital commitment obligations.

#### Non-Recourse Carve Out Guarantees

Most of our real estate properties within our equity partnerships are encumbered by traditional non-recourse debt obligations. In connection with most of these loans, however, we entered into certain "non-recourse carve out" guarantees, which provide for the loans to become partially or fully recourse against us if certain triggering events occur. Although these events are different for each guarantee, some of the common events include:

- the special purpose property-owning subsidiary's filing a voluntary petition for bankruptcy;
- the special purpose property-owning subsidiary's failure to maintain its status as a special purpose entity; and
- subject to certain conditions, the special purpose property-owning subsidiary's failure to obtain lender's written consent prior to any subordinate financing or other voluntary lien encumbering the associated property.

In the event that any of these triggering events occur and the loans become partially or fully recourse against us, our business, financial condition, results of operations and common stock price could be materially adversely affected.

In addition, other items that are customarily recourse to a non-recourse carve out guarantor include, but are not limited to, the payment of real property taxes, liens which are senior to the mortgage loan and outstanding security deposits.

#### Impact of Inflation and Changing Prices

Inflation has not had a significant impact on the results of operations of our company in recent years. Our exposure to market risk from changing prices consists primarily of fluctuations in rental rates of commercial and residential properties, market interest rates on residential mortgages and debt obligations and real estate property values. The revenues associated with the commercial services businesses are impacted by fluctuations in interest rates, lease rates, real property values and the availability of space and competition in the market place. Commercial service revenues are derived from a broad range of services that are primarily transaction driven and are therefore volatile in nature and highly competitive. The revenues of the property management operations with respect to rental properties are highly dependent upon the aggregate rents of the properties managed, which are affected by rental rates and building occupancy rates. Rental rate increases are dependent upon market conditions and the competitive environments in the respective locations of the properties. Employee compensation is the principal cost element of property management. Economic trends in 2012 were characterized by general decrease in commercial leasing volume in the United States.

### Qualitative and Quantitative Disclosures about Market Risk

The primary market risk exposure of our company relates to changes in interest rates in connection with our short-term borrowings, some of which bear interest at variable rates based on the lender's base rate, prime rate, and LIBOR plus an applicable borrowing margin. Historically, we have not experienced material gains or losses due to interest rate changes.

#### Interest Rate Risk

We have established an interest rate management policy, which attempts to minimize our overall cost of debt, while taking into consideration the earnings implications associated with the volatility of short-term interest rates. As part of this policy, we have elected to maintain a combination of variable and fixed rate debt.

Table of Contents

The tables below represent contractual balances of our financial instruments at the expected maturity dates as well as the fair value at December 31, 2012. The expected maturity categories take into consideration actual amortization of principal and do not take into consideration reinvestment of cash. The weighted average interest rate for the various assets and liabilities presented below represents the actual interest rate that would apply as of December 31, 2012. We closely monitor the fluctuation in interest rates, and if rates were to increase significantly, we believe that we would be able to either hedge the change in the interest rate or refinance the loans with fixed interest rate debt. All instruments included in this analysis are non-trading.

**Recently Issued Accounting Pronouncements**

In May 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-04, Fair Value Measurement - Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in US GAAP and IFRS. Update No. 2011-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-04 is intended to result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The adoption of this update did not have a material impact to our financial statements.

In June 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Update No. 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-05 requires an entity to present each component of net income along with total net income, each component of other comprehensive income along

with a total for other comprehensive income, and a total amount for comprehensive income. The Company has adopted this approach and the required disclosure is presented herein.

In September 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment, which is intended to simplify goodwill impairment testing. Entities will be permitted to perform a qualitative assessment on goodwill impairment to determine whether it is more likely than not (defined as having a likelihood of more than 50%) that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. This guidance is effective for goodwill impairment tests performed in interim and annual periods for fiscal years beginning after December 15, 2011. The adoption of this update did not have a material impact on our financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders  
Kennedy-Wilson Holdings, Inc.:

We have audited the accompanying consolidated balance sheets of Kennedy-Wilson Holdings, Inc. and subsidiaries (the Company) as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, equity and cash flows for each of the years in the three-year period ended December 31, 2012. In connection with our audits of the consolidated financial statements, we also have audited financial statement schedules III and IV. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kennedy-Wilson Holdings, Inc. and subsidiaries as of December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Kennedy-Wilson Holdings, Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 12, 2013 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Kennedy-Wilson Holdings, Inc.:

We have audited Kennedy-Wilson Holdings Inc.'s (the Company) internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Kennedy-Wilson Holdings, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Kennedy-Wilson Holdings, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Kennedy-Wilson Holdings, Inc. and subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, equity and cash flows for each of the years in the three-year period ended December 31, 2012, and our report dated March 12, 2013 expressed an unqualified opinion on those consolidated financial statements.

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Consolidated Statements of Cash Flows (continued)

	Year ended December 31,		
	2012	2011	2010
Supplemental disclosure of non-cash investing and financing activities:			
Unrealized gain (loss) on marketable securities, net of tax	\$3,263,000	\$(3,198,000 )	\$6,000
Accretion of preferred stock issuance costs	44,000	44,000	25,000
Acquisitions of property by assumption of mortgage loan and note payable	33,817,000	—	—
Sale of condo unit with seller back financing	1,193,000	—	—
Acquisition of properties in lieu of settlement of notes receivable and interest receivable	36,941,000	—	—

In November 2012, due to a change of control, Kennedy Wilson began to consolidate KW Property Fund II, LP, a limited partnership that had been previously accounted for using the equity method. As a result of obtaining control of this entity, Kennedy Wilson applied Business Combinations guidance and assumed assets and liabilities as described

in note 4.

During 2011, as a result of the acquisition of a 100% interest in an approximate 200,000 square foot office portfolio, real estate increased by \$17,680,000, accounts receivable increased by \$44,000, other assets increased by \$50,000, accounts payable increased by \$87,000, accrued expenses and other liabilities increased by \$991,000 and mortgage loans payable increased by \$16,000,000.

During 2011, as a result of the sale of a controlling interest in a piece of land in Kent, Washington, real estate decreased \$696,000.

During 2011, as a result of Kennedy-Wilson's foreclosure of five assets in its consolidated loan portfolio, notes receivable decreased by \$15,938,000 and real estate increased by \$15,938,000.

During 2011, Kennedy-Wilson issued 4,400,000 shares of its common stock to an institutional investor for \$10.70 per share when the market value was \$12.20. In addition, as a result of its contractual rights, the preferred shareholder also acquired 400,000 shares for \$10.70 per share, representing a \$600,000 discount. Because the discount was the result of the preferred shareholder's contractual rights, it is reflected as a non-cash preferred dividend.

In December 2011, Kennedy-Wilson declared dividends on its common stock totaling \$2,073,000. The dividends were paid subsequent to December 31, 2011.

During 2011, Kennedy-Wilson deconsolidated a balance of \$7.0 million of non-controlling interest.

During 2011, Kennedy-Wilson distributed \$2.8 million of the Bank of Ireland stock to a noncontrolling entity comprised of Kennedy-Wilson executives.

During 2011, Kennedy-Wilson foreclosed on two condominiums reducing notes receivable by \$1.4 million and increasing real estate by \$1.4 million.

During 2010, as a result of the consolidation of two joint venture investments and a subsequent deconsolidation of one of those entities, accounts receivable increased by \$171,000, real estate increased by \$28,464,000, investment in joint ventures increased by \$3,292,000, other assets increased by \$3,174,000, accrued expenses and other liabilities increased by \$323,000 and mortgage loan payable increased by \$32,670,000.

Supplemental cash flow information:

	Year ended December 31,		
	2012	2011	2010
Cash paid during the year for:			
Interest	\$28,717,000	\$17,006,000	\$8,400,000
Interest capitalized	2,258,000	2,716,000	790,000
Income taxes	100,000	30,000	25,000

See accompanying notes to consolidated financial statements.

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2012, 2011 and 2010

NOTE 1—ORGANIZATION

Kennedy-Wilson Holdings, Inc., a Delaware corporation, and its subsidiaries (“Kennedy Wilson,” “KWH” or the “Company”), provide various commercial and residential real estate services including property management, asset management, brokerage and marketing in the United States, the United Kingdom, Ireland, Spain and Japan primarily to institutional investors, financial institutions, pension funds, and developers. Kennedy Wilson, principally through joint venture investments, also acquires, renovates and resells commercial and residential real estate, and invests in loan pools and discounted loan portfolios. Additionally, from time to time Kennedy Wilson will acquire real estate and real estate related investments without partners.

NOTE 2—BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**BASIS OF PRESENTATION**—The consolidated financial statements include the accounts of Kennedy Wilson and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. In addition, Kennedy Wilson evaluates its relationships with other entities to identify whether they are variable interest entities (VIE) as defined by FASB Accounting Standards Codification (ASC) Subtopic 810 – Consolidation and to assess whether it is the primary beneficiary of such entities. In determining whether Kennedy Wilson is the primary beneficiary of a VIE, qualitative and quantitative factors are considered, including, but not limited to: the amount and characteristics of Kennedy-Wilson's investment; the obligation or likelihood for Kennedy Wilson to provide financial support; Kennedy Wilson's ability to control or significantly influence key decisions for the VIE; and the similarity with and significance to the business activities of Kennedy Wilson. Significant judgments related to these determinations include estimates about the future fair values and performance of real estate held by these VIEs and general market conditions. As of December 31, 2012, Kennedy-Wilson has determined that it does not have any VIEs except as discussed in the joint ventures policy below.

**USE OF ESTIMATES**—The preparation of the accompanying consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosure about contingent assets and liabilities, and reported amounts of revenues and expenses. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances.

Management adjusts such estimates and assumptions when facts and circumstances dictate. The after-effects of the recent global financial crisis, including highly volatile credit, equity and foreign currency markets and a slow and uneven global economic recovery, have increased the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates will be reflected in the financial statements in future periods.

**REVENUE RECOGNITION**—Revenue primarily consists of management fees, performance fees, commission revenue, rental income and sales of real estate.

Management fees are primarily comprised of property management fees and base asset management fees. Property management fees are earned for managing the operations of real estate assets and are generally based on a fixed percentage of the revenues generated from the respective real estate assets. Base asset management fees are earned from limited partners of funds Kennedy-Wilson sponsors and are generally based on a fixed percentage of committed capital or net asset value. These fees are recognized as revenue ratably over the period that the respective services are performed.

Performance fees or carried interest are allocated to the general partner, special limited partner or asset manager of Kennedy Wilson's real estate funds and loan pool participations based on the cumulative performance of the fund and loan pools and are subject to preferred return thresholds of the limited partners and participants. At the end of each reporting period, Kennedy Wilson calculates the performance fee that would be due as if the fair value of the

underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance fees to reflect either (a) positive performance resulting in an increase in the performance fee allocated to the general partner or asset manager or (b) negative performance that would cause the amount due to Kennedy-Wilson to be less than the amount previously recognized as revenue, resulting in a negative adjustment to performance fees allocated to the general partner or asset manager. Substantially all of the performance fees are recognized in management and leasing fees and substantially all of the carried interest is recognized in equity in joint venture income in our consolidated statements of operations. Total performance fees recognized to date through December 31, 2012 that may be reversed in future periods if there is negative fund performance totaled \$12.8 million. Performance fees accrued

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements—(continued)

December 31, 2012, 2011 and 2010

as of December 31, 2012 and 2011 were \$8.6 million and \$4.2 million, respectively, and are included in accounts receivable—related parties in the accompanying consolidated balance sheet.

Commissions primarily consist of acquisition fees, auction and real estate sales commissions and leasing commissions. Acquisition fees are earned for identifying and closing investments on behalf of investors and are based on a fixed percentage of the acquisition price. Acquisition fees are recognized upon the successful completion of an acquisition after all required services have been performed. In the case of auction and real estate sales commissions, the revenue is generally recognized when escrow closes. In accordance with the guidelines established for Reporting Revenue Gross as a Principal versus Net as an Agent in the ASC Subtopic 605-45, Kennedy Wilson records commission revenues and expenses on a gross basis. Of the criteria listed in the Subtopic 605-45, Kennedy Wilson is the primary obligor in the transaction, does not have inventory risk, performs all or part of the service, has credit risk, and has wide latitude in establishing the price of services rendered and discretion in selection of agents and determination of service specifications. Leasing fees that are payable upon tenant occupancy, payment of rent or other events beyond Kennedy Wilson's control are recognized upon the occurrence of such events.

Rental income from operating leases is generally recognized on a straight-line basis over the terms of the leases.

Sales of real estate are recognized at the close of escrow when title to the real property passes to the buyer and there is no continuing involvement in the real property. Kennedy Wilson follows the requirements for profit recognition as set forth by the Sale of Real Estate ASC Subtopic 360-20.

**REAL ESTATE ACQUISITIONS**—When acquiring a property, the purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated fair values in accordance with Business Combinations ASC Subtopics 805-10. Acquisition-related costs are expensed as incurred. The valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate are valued, in part, based on third party valuations and management estimates also using an income approach.

**INVESTMENTS IN JOINT VENTURES**—Kennedy Wilson has a number of joint venture interests, that were formed to acquire, manage, and/or sell real estate and invest in loan pools and discounted loan portfolios. Investments in joint ventures which Kennedy Wilson does not control are accounted for under the equity method of accounting as Kennedy Wilson can exercise significant influence, but does not have the ability to control the joint venture. An investment in a joint venture is recorded at its initial investment and is increased or decreased by Kennedy Wilson's share of income or loss, plus additional contributions and less distributions. A decline in the value of an investments in a joint venture that is other than temporary is recognized when evidence indicates that such a decline has occurred in accordance with Equity Method Investments ASC Subtopic 323-10. As of December 31, 2012, Kennedy Wilson also had investments in five joint venture investments which are VIEs in which Kennedy Wilson is not the primary beneficiary and therefore accounts for them under the equity method as well.

Profits on the sale of real estate held by joint ventures in which Kennedy Wilson has continuing involvement are deferred until such time that the continuing involvement has been concluded and all the risks and rewards of ownership have passed to the buyer. Profit on sales to joint ventures in which Kennedy Wilson retains an equity ownership interest results in partial sales treatment in accordance with Sale of Real Estate ASC Subtopic 360-20, thus deferring a portion of the gain as a result of Kennedy Wilson's continuing ownership percentage in the joint ventures. Kennedy Wilson has three investments in joint ventures, KW Property Fund III, L.P. (KW Fund III), Kennedy Wilson Real Estate Fund IV, L.P. (Fund IV) and SG KW Venture I, LLC (the Funds) that are investment companies under the Investment Companies ASC Subtopic 946-10. Thus, the Funds reflect their investments at fair value, with unrealized gains and losses resulting from changes in fair value reflected in their earnings. Kennedy Wilson has retained the specialized accounting for the Funds pursuant to Retention of Specialized Accounting for Investments in Consolidation ASC Subtopic 810-10 in recording its equity in joint venture income from the Funds.

Additionally, Kennedy Wilson elected the fair value option for two investments in joint venture entities that were acquired during 2008. Kennedy-Wilson elected to record these investments at fair value to more accurately reflect the timing of the value created in the underlying investments and report those results in current operations.

**INVESTMENTS IN LOAN POOL PARTICIPATIONS AND NOTES RECEIVABLE**—Interest income from investments in loan pool participations and note receivable are recognized on a level yield basis under the provisions of Loans and Debt Securities Acquired with Deteriorated Credit Quality ASC Subtopic 310-30, where a level yield model is utilized to determine a

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements—(continued)  
December 31, 2012, 2011 and 2010

yield rate which, based upon projected future cash flows, accretes interest income over the estimated holding period. In the event that the present value of those future cash flows is less than net book value, a loss would be immediately recorded. When the future cash flows of a note cannot be reasonably estimated, cash payments are applied to the cost basis of the note until it is fully recovered before any interest income is recognized. Interest income from investments in notes receivable acquired at a discount are recognized using the effective interest method. Interest income from investments in notes receivable which the Company originates are recognized at the stated interest rate.

**FAIR VALUE MEASUREMENTS**—Kennedy Wilson accounts for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis under the provisions of Fair Value Measurements ASC Subtopic 820-10. Subtopic 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When estimating fair value in the absence of an orderly transaction between market participants, valuations of real estate are based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate and the investments in debt securities are valued, in part, based on third party valuations and management estimates also using an income approach.

**GOODWILL**—Goodwill results from the difference between the purchase price and the fair value of net assets acquired based upon the purchase method of accounting for business combinations. In accordance with Accounting for Goodwill ASC Subtopic 350-20, goodwill is reviewed for impairment on an annual basis. In testing for impairment, goodwill is assigned to the reporting unit based upon the amount of goodwill generated at the time of acquisition of the businesses by the reporting unit. The Company first perform a qualitative assessment annually at each reporting unit that has goodwill to determine if facts and circumstances indicate that goodwill is more likely than not impaired. If the qualitative assessment indicates that goodwill of a reporting unit is not more likely than not impaired, we do not perform a quantitative impairment test for the reporting unit. If the qualitative assessment indicates that goodwill of a reporting unit is more likely than not impaired, we perform the first step, or step 1, of the quantitative goodwill impairment test. The Company performs its annual review of impairment at year end and when a triggering event occurs between annual year end reviews. As a result of the evaluation performed as described above, Kennedy Wilson has determined that there was no impairment of goodwill as of December 31, 2012, 2011 and 2010.

**CASH AND CASH EQUIVALENTS**—Cash and cash equivalents consist of cash and all highly liquid investments purchased with maturities of three months or less. Cash and cash equivalents are invested in institutions insured by government agencies. Certain accounts contain balances in excess of the insured limits. Kennedy Wilson's operations and financial position are affected by fluctuations in currency exchange rates between the Yen and European currencies against the U.S. Dollar.

**SHORT TERM INVESTMENTS**—Short term investments, which have an original maturity of one year or less, are carried at amortized cost, which approximates fair value.

**LONG-LIVED ASSETS**—Kennedy-Wilson reviews its long-lived assets (excluding goodwill) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with Impairment of Long-Lived Assets ASC Subtopic 360-10. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are presented separately in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of the assets to be disposed of are classified as held for sale and would be presented separately in the appropriate asset and liability sections of the balance sheet.

**ACCOUNTS RECEIVABLE**—Accounts receivable are recorded at the contractual amount as determined by the underlying agreements and do not bear interest. An allowance for doubtful accounts is provided when the Company

determines there are probable credit losses in the Company's existing accounts receivable and is determined based on historical experience. The Company reviews its accounts receivable for probable credit losses on a quarterly basis. As of December 31, 2012, the Company had an immaterial allowance for doubtful accounts and during the years ended December 31, 2012, 2011 and 2010 had recorded no provision for doubtful accounts.

**FAIR VALUE OF FINANCIAL INSTRUMENTS**—The estimated fair value of financial instruments is determined using available market information and appropriate valuation methodologies. Considerable judgment, however, is necessary to interpret market data and develop the related estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that could be realized upon disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material impact on the estimated fair value amounts.

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements—(continued)  
December 31, 2012, 2011 and 2010

**NONCONTROLLING INTERESTS**—Noncontrolling interests are reported within equity as a separate component of Kennedy-Wilson's equity in accordance with Noncontrolling Interests in Consolidated Financial Statements ASC Subtopic 810-10. Revenues, expenses, gains, losses, net income or loss, and other comprehensive income are reported in the consolidated statements of operations at the consolidated amounts and net income and comprehensive income attributable to noncontrolling interests are separately stated.

**CAPITALIZED INTEREST**—Kennedy-Wilson capitalizes interest in accordance with Capitalization of Interest Cost ASC Subtopic 835-20 for assets that are undergoing development or entitlement activities in preparation for their planned principal operations. For qualifying equity investments, interest is capitalized in accordance with Capitalization of Interest Cost in Financial Statements That Include Investments Accounted for Under the Equity Method ASC Subtopic 835-20. An appropriate interest rate is applied to Kennedy-Wilson's cash investment in the qualifying asset. Interest capitalization begins upon the commencement of development activities and ceases when the investment has begun its planned principal operations.

**DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES**—Kennedy Wilson has joint ventures that hold derivatives to reduce their exposure to foreign currencies. All derivative instruments are recognized as either assets or liabilities in the balance sheet at their respective fair values. For derivatives designated in hedging relationships, changes in fair value of cash flow hedges or net investment hedges are recognized in accumulated other comprehensive income, to the extent the derivative is effective at offsetting the changes in the item being hedged until the hedged item affects earnings. Changes in fair value for fair value hedges are recognized in earnings.

**GUARANTEES**—Kennedy-Wilson has certain guarantees associated with loans secured by assets held in various joint venture investments. The maximum potential amount of future payments (undiscounted) Kennedy Wilson could be required to make under the guarantees was \$55.5 million and \$26.7 million at December 31, 2012 and 2011, respectively. The guarantees expire through 2017 and Kennedy Wilson's performance under the guarantees would be required to the extent there is a shortfall in liquidation between the principal amount of the loan and the net sales proceeds of the asset. Based upon Kennedy Wilson's evaluation of guarantees under Estimated Fair Value of Guarantees ASC Subtopic 460-10, the estimated fair value of guarantees made as of December 31, 2012 and 2011 is immaterial.

**CONCENTRATION OF CREDIT RISK**—Financial instruments that subject Kennedy Wilson to credit risk consist primarily of accounts and notes receivable and cash equivalents. Credit risk is generally diversified due to the large number of entities composing Kennedy Wilson's customer base and their geographic dispersion throughout the United States, the United Kingdom, Ireland and Japan. Kennedy Wilson performs ongoing credit evaluations of its customers and debtors.

**EARNINGS PER SHARE**—Basic earnings per share is computed based upon the weighted average number of shares of common stock outstanding during the periods presented. Diluted earnings per share is computed based upon the weighted average number of shares of common stock and potentially dilutive securities outstanding during the periods presented. The dilutive impact of potentially dilutive securities including warrants, convertible securities, and unvested stock which were outstanding during the period is calculated by the "treasury stock" method.

**FOREIGN CURRENCIES**—The financial statements of subsidiaries located outside the United States are measured using the local currency as the functional currency. The assets and liabilities of these subsidiaries are translated at the rates of exchange at the balance sheet date, and income and expenses are translated at the average monthly rate. The foreign currencies include the Euro, the British pound sterling, and the Japanese yen. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in the consolidated statements of equity and comprehensive income as a component of accumulated other comprehensive income.

**COMPREHENSIVE (LOSS) INCOME**—Comprehensive (loss) income consists of net income (loss) and other comprehensive income (loss). In the accompanying consolidated balance sheets, accumulated other comprehensive income consists of foreign currency translation adjustments and unrealized gains (losses) on available for sale securities and derivative instruments.

**REPURCHASE OF EQUITY INSTRUMENTS**—Upon the decision to retire repurchased equity instruments, Kennedy Wilson records the retirement as a reduction to additional paid in capital.

**SHARE-BASED PAYMENT ARRANGEMENTS**—Kennedy Wilson accounts for its share-based payment arrangements under the provisions of Share-Based Payments ASC Subtopic 718-10. Compensation cost for employee service received in exchange for an award of equity instruments is based on the grant-date fair value of the share-based award that is ultimately settled in equity of Kennedy Wilson. The cost of employee services is recognized over the period during which an employee provides

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements—(continued)  
December 31, 2012, 2011 and 2010

service in exchange for the share-based payment award. Share-based payment arrangements with only services conditions that vest ratably over the requisite service period are recognized on the straight-line basis and performance awards that vest ratably are recognized on a tranche by tranche basis over the performance period. Unrecognized compensation costs for share-based payment arrangements that have been modified are recognized over the original service or performance period.

**FAIR VALUE OPTION**—Kennedy-Wilson accounts for financial assets and financial liabilities at fair value on an instrument-by-instrument basis, with changes in fair value reported in earnings in accordance with the provisions of Fair Value Measurements and Disclosures ASC Subtopic 820-10.

**INCOME TAXES**—Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In accordance with Accounting for Uncertainty in Income Taxes ASC Subtopic 740-10, Kennedy-Wilson recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. Kennedy-Wilson records interest related to unrecognized tax benefits in interest expense and penalties in selling, general, and administrative expenses.

**RECENT ACCOUNTING PRONOUNCEMENTS**—In May 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-04, Fair Value Measurement - Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in US GAAP and IRFS. Update No. 2011-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-04 is intended to result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The adoption of this update did not have a material impact to our financial statements.

In June 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Update No. 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-05 requires an entity to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. The Company has adopted this approach and the required disclosure is presented herein.

In September 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-08, Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment, which is intended to simplify goodwill impairment testing. Entities will be permitted to perform a qualitative assessment on goodwill impairment to determine whether it is more likely than not (defined as having a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. This guidance is effective for goodwill impairment tests performed in interim and annual periods for fiscal years beginning after December 15, 2011. The adoption of this update did not have a material impact on our financial statements.

**RECLASSIFICATIONS**—Certain balances included in prior years' financial statements have been reclassified to conform with the current year's presentation.

 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

## NOTE 3—NOTES RECEIVABLE

Notes receivable consists of the following:

	December 31, 2012	2011
Note receivable, variable interest rate of 5.00% over LIBOR, interest only, due December 2016, secured by a shopping center and 107 residential units in the United Kingdom	\$ 122,770,000	\$—
Note receivable, fixed interest rate of 10.75%, interest only, due April 2013, secured by a hotel in San Diego, California	4,275,000	—
Note receivable, fixed interest rate of 10.50%, interest only, due December 2013, secured by two office/research and development buildings in San Jose, CA	3,759,000	—
Note receivable, fixed interest rate of 11.50%, interest only, due November 2013, secured by 25 acres of land and an adjacent 204-slip marina in Portland, Oregon	3,000,000	—
Note receivable, fixed interest rate of 4%, interest only, due June 2017	1,193,000	—
Note receivable, fixed interest rate of 8%, interest only, due May 2013, secured by personal guarantees of borrowers	900,000	1,000,000
Notes receivable, fixed interest rate of 12%, with various maturities secured by a 16-unit condominium in Los Angeles, California - repaid in 2012	—	6,076,000
Other	710,000	862,000
Total notes receivable	136,607,000	7,938,000
Note receivable from KW Property Fund II, LP, fixed interest rate of 15%, principal and accrued interest interest due October 2013	—	22,674,000
Note receivable from KW Property Fund I, LP, fixed interest rate of 9%, principal and accrued interest interest due August 2012	—	8,127,000
Note receivable from a joint venture investment, fixed interest rate of 9%, principal and accrued interest due August 2012, secured by deed of trust	—	2,468,000
Total notes receivable from related parties	—	33,269,000
	\$ 136,607,000	\$ 41,207,000

In December 2012, Kennedy Wilson acquired a loan secured by a shopping center with 107 residential units in the United Kingdom. At the time of the acquisition, Kennedy Wilson invested \$43.6 million of equity and borrowed \$79.3 million in order to finance the transaction. As of December 31, 2012, both the note receivable and mortgage payable are consolidated on Kennedy Wilson's consolidated balance sheet. Subsequent to December 31, 2012, Kennedy Wilson sold a 50% interest in the note receivable to an institutional investor.

On November 30, 2012, due to a change of control, Kennedy Wilson began to consolidate KW Property Fund II, LP, a limited partnership that had been previously accounted for using the equity method and to whom Kennedy Wilson had advanced a total of \$39.6 million as of the date of the change of control. As a result of this transaction, Kennedy Wilson's notes receivable balance have been eliminated upon consolidation of the entity (see Note 4).

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

## NOTE 4—REAL ESTATE

The following table summarizes Kennedy Wilson's investment in consolidated real estate properties at December 31, 2012 and 2011:

	December 31,	
	2012	2011
Land	\$99,595,000	\$65,908,000
Buildings	193,302,000	53,112,000
Building improvements	3,964,000	2,295,000
	296,861,000	121,315,000
Less accumulated depreciation	(7,412,000 )	(5,435,000 )
Real estate, net	\$289,449,000	\$115,880,000

Real property, including land, buildings, and building improvements, are included in real estate and are generally stated at cost. Buildings and building improvements are depreciated on the straight-line method over their estimated lives not to exceed 40 years.

Depreciation expense on buildings and building improvements for the years ended December 31, 2012, 2011 and 2010 was \$2.0 million, \$1.4 million and \$1.3 million, respectively.

## 2012 Consolidated Acquisitions

During 2012, the Company acquired three apartment buildings: a 178-unit apartment building in Oakland, California, for \$31.0 million, a 366 unit apartment building in Salt Lake City, Utah, for \$43.5 million, and a 217-unit apartment building in Renton, Washington, for \$44.4 million. In addition, Kennedy Wilson acquired one office building in North Hollywood, California, consisting of approximately 175,000 square feet for \$48.0 million.

The purchase price of acquired properties is recorded to land, buildings and building improvements and intangible lease value (value of above-market and below-market leases, acquired in-place lease values, and tenant relationships, if any) based on their respective estimated fair values in accordance with Business Combinations ASC Subtopics 805-10. Acquisition-related costs are expensed as incurred. The fair value was in excess of the purchase price for the acquisition of the Renton apartment building, which was an off-market transaction, and therefore we recognized a gain of approximately \$2.6 million in the accompanying consolidated statements of operations for the year ended December 31, 2012. In addition, the Company incurred and expensed acquisition related costs of \$0.7 million for the year ended December 31, 2012.

The Company considers its allocation of the purchase price of properties acquired in 2012 to be preliminary, particularly with respect to the valuation of in-place lease values and the allocation of value between land and buildings. The following table summarizes Kennedy Wilson's acquisitions during 2012 as described above:

Land	\$32,433,000
Buildings	125,683,000
Acquired in-place lease values	8,180,000
Total purchase price	166,296,000
Mortgage notes placed/assumed	(110,029,000 )
Total cash paid	\$56,267,000

In addition, on November 30, 2012, due to a change of control, Kennedy Wilson began to consolidate KW Property Fund II, LP, (Fund II) a limited partnership that had been previously accounted for using the equity method and to whom Kennedy Wilson had advanced \$39.6 million in notes receivable as of November 30, 2012 (see Note 3). This entity directly owns two office buildings which are encumbered by mortgage loans and has investments in real estate joint ventures which in aggregate own seven

58

---

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements—(continued)

December 31, 2012, 2011 and 2010

office properties. As a result of obtaining control of this entity, Kennedy Wilson applied Business Combinations guidance which requires assets and liabilities to be consolidated at fair value. Accordingly, \$0.6 million in cash and cash equivalents, \$2.7 million in other assets, \$11.1 million in real estate, net, \$75.4 million in investment in joint ventures, \$1.6 million in accrued expenses and other liabilities, \$5.827 million in notes payable, \$8.9 million in mortgage loans payable and \$7.6 million in noncontrolling interests were recorded as a result of the consolidation.

As the fair value was in excess of the carrying value of Kennedy Wilson's equity method ownership interest, Kennedy Wilson recorded an acquisition related gain in the amount of \$22.8 million in the accompanying consolidated statements of operations for the year ended December 31, 2012. See Note 7 - Fair Value Measurements for further of the methodology used to determine the fair value of the assets and liabilities acquired in this transaction.

The results of operations of the properties acquired have been included in our consolidated financial statements since the date of their acquisition. The unaudited pro forma data presented below assumes that the acquisitions occurred as January 1, 2011. There was \$2.1 million of revenues, \$0.2 million of equity in joint venture income and \$0.9 million of net loss attributable to common shareholders related to the acquisitions for the year ended December 31, 2012 reported in Kennedy Wilson's consolidated statements of operations. The Company's unaudited pro forma results have been prepared for comparative purposes only and do not purport to be indicative of the results of operations that would have occurred had these acquisitions been consummated at the beginning of the periods presented.

Dollars in thousands, except for per share data	Unaudited Year Ended December 31,	
	2012	2011
Pro forma revenues	\$79,357	\$78,482
Pro forma equity in joint venture income	\$17,063	\$7,719
Pro forma net loss attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(11,387)	\$(12,447)
Pro forma net loss per share:		
Basic	\$(0.21)	\$(0.29)

## 2011 Consolidated Acquisitions

During 2011, Kennedy Wilson acquired a 100% interest in an approximate 200,000 square foot office portfolio in Oakland, California (the "Portfolio") from a related party fund (the "Seller") in which Kennedy Wilson has a 5% ownership interest and the fund was accounted for under the equity method. The assets and liabilities of the Portfolio since the date of acquisition have been consolidated at fair value in accordance with Business Combinations guidance. The amounts of \$15.0 million in building, \$2.5 million in acquired intangibles, \$6.2 million in land, \$0.6 million in cash and cash equivalents, \$0.1 million in accounts receivables and other assets, \$16.0 million in mortgage loans payable, and \$1.1 million in other liabilities were recorded as a result of the combination. Direct costs of the business combination have been charged to operations in the period that such costs were incurred. Additionally, Kennedy Wilson will pay the Seller 15% of all profits realized by Kennedy-Wilson in excess of a 10% internal rate of return upon disposition of the investment. Accordingly, Kennedy Wilson had recorded a liability of \$0.2 million and \$0.7 million, at fair value, for the 15% contingent interest as of December 31, 2012 and 2011, respectively. This interest will be re-evaluated on an on-going basis.

As the fair value was in excess of price paid, Kennedy Wilson recorded a acquisition related gain in the amount of \$6.3 million in the accompanying consolidated statements of operations for the year ended December 31, 2011. Fair value was determined using the income approach.

#### 2010 Acquisitions

During 2010, Kennedy Wilson acquired its partners interest to obtain 100% of the interest in Fairways 340, LLC ("Fairways") that was previously accounted for under the equity method. The assets, liabilities, and results of the operations of Fairways at the date of acquisition were consolidated at fair value and direct costs of the business combination have been charged to operations in the period that such costs were incurred in accordance with Business Combinations guidance. Kennedy Wilson had a 49.83% ownership interest and equity with a fair value of \$8.9 million before the combination and the combination was considered to be achieved in stages. As a result of remeasuring its basis at fair value (utilizing an income approach) upon the combination, Kennedy

## NOTE 5—INVESTMENTS IN JOINT VENTURES

Kennedy Wilson has a number of joint venture interests, generally ranging from 5% to approximately 50%, that were formed to acquire, manage, and/or sell real estate and invest in loan pools and discounted loan portfolios. Kennedy Wilson has significant influence over these entities, but not control, and accordingly, these investments are accounted for under the equity method. The Company also accounts for four investments which are more than 50% owned under the equity method and they are further discussed below.

As of December 31, 2012 and 2011, Kennedy Wilson's equity investment in joint ventures totaled \$543.2 million and \$343.4 million, respectively. The largest equity investment, KW Residential, LLC ("KWR"), had a balance of \$102.7 million and \$112.1 million as of December 31, 2012 and 2011, respectively. Kennedy Wilson owns approximately 41% of KWR. KWR is a joint venture investment in a portfolio of 50 apartment buildings comprised of approximately 2,400 units, located primarily in Tokyo and surrounding areas. During the year ended December 31, 2012 and 2011, Kennedy Wilson received cash distributions of \$11.4 million and \$9.3 million, respectively, from this joint venture investment. Additionally, during the year ended December 31, 2012 and 2011, Kennedy Wilson recognized \$9.6 million in losses and \$6.2 million in gains, respectively from foreign currency translation adjustments from its investment in KWR. The foreign currency losses and gains are included in other comprehensive income in the accompanying consolidated statements of equity and consolidated statements of comprehensive income. As of December 31, 2012, the Company did not have any other investments which individually exceeded 10% of the investment in joint venture balance.

During the year ended December 31, 2012 and 2011, Kennedy Wilson made \$178.7 million and \$105.4 million, respectively, in contributions to new and existing joint venture investment of which \$149.5 million and \$63.6 million, respectively, were contributed to new joint ventures, respectively, and were invested in the following types of properties:

Investment Type	Region	Year Ended December 31, 2012		Year Ended December 31, 2011	
		Number of Properties	Kennedy Wilson Initial Contribution	Number of Properties	Kennedy Wilson Initial Contribution
Multifamily Properties	Western U.S.	5	\$22,873,000	8	\$19,935,000
Multifamily Properties	Ireland	2	34,328,000	—	—
Residential	Western U.S.	2	19,625,000	2	17,942,000
Commercial Properties	Western U.S.	9	26,894,000	5	25,756,000
Commercial Properties	Ireland	2	45,827,000	—	—
Total		20	\$149,547,000	15	\$63,633,000

During the year ended December 31, 2012 and 2011, Kennedy Wilson contributed \$29.2 million and \$41.8 million, respectively, to existing joint ventures to pay off existing debt, fund working capital and to acquire the interests of other members in joint ventures.

During the year ended December 31, 2012 and 2011, Kennedy Wilson received \$79.1 million and \$36.3 million, respectively, in distributions from its joint ventures. During 2012, \$34.1 million of the distributions resulted from the sale of five multifamily properties located in the Western United States and the sale of the Company's interest in a joint venture which held a multifamily property located in the Western United States. Kennedy Wilson's share of the gain recognized from these sales was \$13.1 million, which is included in equity in joint venture income in the consolidated statements of operations. The remaining \$45.0 million of distributions resulted from positive operating performance at the properties and return of investments in connection with the refinancing of debt at the properties. On November 30, 2012, due to a change of control, Kennedy Wilson began to consolidate Fund II, a limited partnership that had been previously accounted for using the equity method. See Note 4 for further discussion.

During the year ended December 31, 2012, the Company acquired 49.5% of the non-managing membership interests in Bay Area Smart Growth Fund II, LLC. Prior to the acquisition, Kennedy Wilson had a 5% managing member interest and served as the non-controlling managing member. The terms of the partnership agreement require a vote of the majority interest of the non-managing members, whose commitments are greater than 50% of the aggregate capital commitments, in order to direct and control key decision making over the partnership. Since Kennedy Wilson acquired only 49.5% of the non-managing member interests, the Company has concluded that it does not control Bay Area Smart Growth Fund II, LLC and will continue to account for its

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements—(continued)  
December 31, 2012, 2011 and 2010

interest in the entity as an equity method investment. As of December 31, 2012 and 2011, Kennedy Wilson's investment in this joint venture was \$12.9 million and \$1.0 million, respectively.

In addition, during the year ended December 31, 2012, the Company, as a member, acquired a greater than 50% interest in three joint ventures, which own retail properties. Due to certain voting rights, control does not rest with the managing member nor with the other members and, as such, neither party has control. Since the Company concluded that it does not control these entities despite its greater than 50% ownership interest, it will account for its interest as equity method investments. At December 31, 2012, Kennedy Wilson's investment in these joint ventures were \$7.8 million.

Kennedy Wilson has determined that it has investments in five variable interest entities as of December 31, 2012 and has concluded that Kennedy Wilson is not the primary beneficiary of any of the investments. As of December 31, 2012, the variable interest entities had assets totaling \$326.9 million with Kennedy Wilson's exposure to loss as a result of its interests in these variable interest entities totaling \$109.9 million related to its equity contributions. As of December 31, 2012, Kennedy Wilson has unfulfilled capital commitments totaling \$8.3 million to four of its joint ventures. The Company may be called upon to contribute additional capital to joint ventures in satisfaction of Kennedy Wilson capital commitment obligations.

Kennedy Wilson has certain guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) Kennedy Wilson could be required to make under the guarantees was approximately \$55.5 million as of December 31, 2012. The guarantees expire through 2017 and Kennedy Wilson's performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sale proceeds from the property. Based upon Kennedy Wilson's evaluation of guarantees under Estimated Fair Value of Guarantees ASC Subtopic 460-10, the estimated fair value of guarantees made as of December 31, 2012 and December 31, 2011 is immaterial.

Investments in which Kennedy-Wilson does not have significant influence are accounted for under the cost method of accounting. As of December 31, 2012 and 2011, Kennedy Wilson had three investments accounted for under the cost method with a carrying value totaling \$5.7 million and \$4.5 million, respectively.

Summarized financial data of the joint ventures is as follows:

## NOTE 6—INVESTMENTS IN LOAN POOL PARTICIPATIONS

As of December 31, 2012 and 2011, the Company's investment in loan pool participations totaled \$95.6 million and \$90.0 million, respectively.

The Company's largest loan pool, which is secured by real estate primarily located in the United Kingdom (the "UK Loan Pool"), had a balance of \$60.4 million and \$60.0 million as of December 31, 2012 and 2011, respectively. In 2011, Kennedy Wilson, along with institutional partners, acquired this loan portfolio consisting of 58 performing loans. The 58 loans were secured by more than 170 properties comprised of the following product types: office, multifamily, retail, industrial, hotel and land. Kennedy Wilson, through a 50/50 joint venture with one of its partners, acquired a 25% participation interest in the pool for \$440.9 million, of which \$323.4 million was funded with debt that matures in October 2014. As of December 31, 2012, the unpaid principal balance of the loans were \$765.8 million due to collections of \$1.4 billion through December 31, 2012, representing 65% of the pool. As a result of the positive performance of the loan pool, the venture level debt had been paid down to \$25.8 million as of December 31, 2012. Kennedy Wilson expects to accrete \$23.0 million in interest income on the UK Loan Pool over the total estimated collection period (excluding asset management fees).

The following table represents the demographics of the Company's investment in the loan pools including the initial unpaid principal balance ("UPB") and the UPB as of December 31, 2012.

Acquisition date	Location	Unpaid Principal Balance		Kennedy Wilson	Investment	Expected accretion over total estimated collection period	Accreted to date
		Initial	December 31, 2012	initial equity invested	balance at 12/31/12

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

(1) During the year ended December 31, 2012, Kennedy Wilson recognized a reduction in accretion in this loan pool due to an increase in the estimated resolution periods as well as foreclosures on certain underlying real estate collateral.

**NOTE 7—FAIR VALUE MEASUREMENTS AND THE FAIR VALUE OPTION**

**FAIR VALUE MEASUREMENTS**—Fair Value Measurements and Disclosures ASC Subtopic 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1—Valuations based on unadjusted quoted market prices in active markets for identical securities.

Level 2—Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets and quoted prices in markets that are not active.

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table presents fair value measurements (including items that are required to be measured at fair value and items for which the fair value option has been elected) as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Short term investments	\$—	\$10,000,000	\$—	\$10,000,000
Investments in joint ventures	—	—	68,363,000	68,363,000
Currency forward contract	—	(1,188,000 )	—	(1,188,000 )
	\$—	\$8,812,000	\$68,363,000	\$77,175,000

The following table presents fair value measurements (including items that are required to be measured at fair value and items for which the fair value option has been elected) as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Marketable securities	\$23,005,000	\$—	\$—	\$23,005,000
Investments in joint ventures	—	—	51,382,000	51,382,000
	\$23,005,000	\$—	\$51,382,000	\$74,387,000

Kennedy-Wilson's investment in the ordinary stock units of the Bank of Ireland were classified as available-for-sale and were stated at fair value based upon observed market prices (Level 1 in the fair value hierarchy). Unrealized changes in value on these securities were included in accumulated other comprehensive income. As of December 31, 2012, the marketable securities were sold.

The carrying value of short term investments approximates fair value due to the short maturities of these investments. The following table presents changes in Level 3 investments, investments in investment companies and investments in joint ventures that elected the fair value option, for the years ended December 31:

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements—(continued)

December 31, 2012, 2011 and 2010

	2012	2011	2010
Beginning balance	\$51,382,000	\$34,654,000	\$19,590,000
Unrealized and realized gains	9,981,000	5,690,000	6,199,000
Unrealized and realized losses	(446,000 )	(1,394,000 )	—
Contributions	11,648,000	13,986,000	10,795,000
Distributions	(4,202,000 )	(1,554,000 )	(1,930,000 )
Ending Balance	\$68,363,000	\$51,382,000	\$34,654,000

The change in unrealized and realized gains and losses are included in equity in joint venture (loss) income in the accompanying consolidated statements of operations.

The change in unrealized gains on level 3 investments during 2012 and 2011 for investments still held as of December 31, 2012 and 2011 were \$8.6 million and \$4.2 million, respectively.

Kennedy Wilson records its investment in KW Property Fund III, L.P., Kennedy Wilson Real Estate Fund IV, L.P., and SG KW Venture I, LLC (the "Funds") based upon the net assets that would be allocated to its interests in the Funds assuming the Funds were to liquidate their investments at fair value as of the reporting date. The Funds report their investments in real estate at fair value based on valuations of the underlying real estate holdings and indebtedness secured by the real estate. The valuations of real estate were based on management estimates of the real estate assets using income and market approaches. The indebtedness securing the real estate and the investments in debt securities were valued, in part, based on third party valuations and management estimates also using an income approach. The primary inputs for these valuations are unobservable and include discount rates, capitalization rates and projected growth rates. Increases in fair value for the Funds of \$1.7 million, \$0.9 million, and \$3.7 million were recorded in equity in joint venture income in the accompanying consolidated statements of operations for the years ended December 31, 2012, 2011 and 2010, respectively. Kennedy Wilson's investment balance in the Funds was \$25.8 million and \$23.4 million at December 31, 2012 and 2011, respectively, which are included in investments in joint ventures in the accompanying consolidated balance sheet. As of December 31, 2012 and 2011, Kennedy Wilson has unfunded capital commitments to the Funds in the amounts of \$3.4 million and \$5.3 million, respectively.

**FAIR VALUE OPTION**—Kennedy Wilson elected the fair value option for two investments in joint venture entities that were acquired during 2008. Kennedy Wilson elected to record these investments at fair value to more accurately reflect the timing of the value created in the underlying investments and report those results in current operations. In May 2011, Kennedy Wilson purchased an additional 24% (increasing its interest from 24% to 48%) interest in one of its fair value option investments for \$7.0 million from a related party fund. Since the purchase price was less than the fair value of this interest at the time of purchase, this transaction resulted in Kennedy Wilson recording an increase in fair value of \$4.8 million in equity in joint venture income in the accompanying consolidated statements of operations for the year ended December 31, 2011. During the years ended December 31, 2012, 2011, and 2010, Kennedy Wilson recorded an increase in fair value of both fair value option investments of \$7.9 million, \$3.4 million, and \$2.5 million, respectively, in equity in joint venture income in the accompanying consolidated statements of operations. Kennedy Wilson determines the fair value of these investments based upon the income approach, utilizing estimates of future cash flows, discount rates and liquidity risks. As of December 31, 2012 and 2011, these two investments had fair values of \$42.6 million and \$27.9 million, respectively.

In estimating fair value of real estate held by the Funds, two joint ventures that elected the fair value option investments and the value of the assets and liabilities acquired in connection with the change in control and consolidation of Fund II (as further described in Note 4), Kennedy-Wilson considers significant inputs such as capitalization and discount rates. The table below describes the range of inputs used as of December 31, 2012 for real estate assets:

	Estimated rates used for	
	Capitalization rates	Discount Rates
Multifamily	5.75% — 7.00%	7.50% — 9.00%

Edgar Filing: Kennedy-Wilson Holdings, Inc. - Form 10-K

Office	6.25% — 7.50%	7.50% — 9.75%
Retail	8.00%	9.00% — 12.00%
Land and condominium units	n/a	8.00% — 12.00%
Loan	n/a	2.00% — 9.30%

---

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements—(continued)  
December 31, 2012, 2011 and 2010

In valuing real estate related assets and indebtedness, Kennedy-Wilson considers significant inputs such as the term of the debt, value of collateral, market loan-to-value ratios, market interest rates and spreads, and credit quality of investment entities. The credit spreads used by Kennedy-Wilson for these types of investments range from 2.00% to 9.30%.

The accuracy of estimating fair value for investments utilizing unobservable inputs cannot be determined with precision, cannot be substantiated by comparison to quoted prices in active markets, and may not be realized in a current sale or immediate settlement of the asset or liability. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including cap rates, discount rates, liquidity risks, and estimates of future cash flows, could significantly affect the fair value measurement amounts.

**DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES**—During the year ended December 31, 2012, Kennedy Wilson entered into a currency forward contract to manage its exposure to currency fluctuations between its functional currency (U.S. dollars) and the functional currency (Euros) of certain of its wholly owned subsidiaries and joint venture investments and its exposure to currency fluctuations caused by its investment in marketable securities. To accomplish this objective, Kennedy Wilson hedged these exposures by entering into a currency forward contract to sell €16,000,000 at a forward rate. This hedging instrument is expected to partially hedge Kennedy Wilson's exposure to its net investment in certain foreign operations and the changes in fair value of the marketable securities caused by currency fluctuations. The currency forward contract matures on June 4, 2015. The currency forward contract is valued based on the difference between the contract rate and the forward rate at maturity of the foreign currency applied to the notional value in that foreign currency discounted at a market rate for similar risks. Although Kennedy Wilson has determined that the majority of the inputs used to value its derivative fall within Level 2 of the fair value hierarchy, the counterparty risk adjustments associated with the derivative utilize Level 3 inputs. However, as of December 31, 2012, Kennedy Wilson assessed the significance of the impact of the counterparty valuation adjustments on the overall valuation of its derivative positions and determined that the counterparty valuation adjustments are not significant to the overall valuation of its derivative. As a result, Kennedy Wilson has determined that its derivative valuation in its entirety be classified in Level 2 of the fair value hierarchy. The fair value of the derivative instrument held as of December 31, 2012 was \$1.5 million and is included in accrued expenses and other liabilities on the consolidated balance sheet.

For the year ended December 31, 2012, the Company recorded a loss of \$1.2 million in other comprehensive income in the accompanying consolidated statements of comprehensive income as the portion of the currency forward contract used to hedge currency exposure of its certain wholly owned subsidiaries qualifies as a net investment hedge under ASC Topic 815. During the year ended December 31, 2012, a portion of the currency forward contract was used to hedge currency exposure of Kennedy Wilson's investment in marketable securities which qualified as a fair value hedge under ASC Topic 815 and, accordingly, for the year ended December 31, 2012, Kennedy Wilson recorded a loss of \$0.3 million in general and administrative expenses in the accompanying consolidated statements of operations.

**FAIR VALUE OF FINANCIAL INSTRUMENTS**—The carrying amounts of cash and cash equivalents, accounts receivable including related party, accounts payable, accrued expenses and other liabilities, accrued salaries and benefits, deferred and accrued income taxes, and income tax receivable approximate fair value due to their short-term maturities. The carrying value of notes receivable (excluding related party notes receivable as they are presumed not to be an arm's length transaction) approximates fair value as the terms are similar to loans with similar characteristics available in the market. As of December 31, 2012 and December 31, 2011, senior notes payable, borrowings under lines of credit, mortgage loans payable and junior subordinated debentures was estimated to be approximately \$708.2 million and \$312.8 million, respectively, based on a comparison of the yield that would be required in a current transaction, taking into consideration the risk of the underlying collateral and our credit risk to the current yield of a similar security, compared to their carrying value of \$686.2 million and \$320.1 million at December 31, 2012 and December 31, 2011, respectively.

**NOTE 8—MARKETABLE SECURITIES**

During the year ended December 31, 2012, Kennedy Wilson sold its investment in the ordinary stock of the Bank of Ireland and recognized a gain on the sale of \$4.4 million, including the impact of foreign currency, which is included in the accompanying consolidated statements of operations. As a result of the sale of the stock, \$3.3 million was reclassified from accumulated other comprehensive income and into gain on sale of marketable securities included on the statement of operations for the year ended December 31, 2012.

**NOTE 9—OTHER ASSETS**

Other assets consist of the following:

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

	December 31,	
	2012	2011
Office furniture and equipment	\$4,081,000	\$4,103,000
Less: Accumulated depreciation	(1,240,000 )	(995,000 )
	2,841,000	3,108,000
Prepaid expenses	5,330,000	4,509,000
Loan fees, net of accumulated amortization of \$2,413,000 and \$1,107,000 at December 31, 2012 and 2011, respectively	14,508,000	8,556,000
Acquired in place leases, net of accumulated amortization of \$3,086,000 and \$823,000 at December 31, 2012 and 2011, respectively	9,311,000	1,646,000
Deposits and other, net of accumulated amortization of \$230,000 and \$181,000 at December 31, 2012 and 2011, respectively	6,089,000	2,930,000
	\$38,079,000	\$20,749,000

The estimated annual amortization expense of in place leases for each of the years ending December 31, 2013 through December 31, 2017 approximates \$4.5 million, \$3.6 million, \$1.1 million, \$0.2 million and \$0.0 million, respectively. Depreciation and amortization expense related to the above depreciable assets were \$3.9 million, \$1.9 million, and \$0.3 million for the years ended December 31, 2012, 2011 and 2010, respectively.

## NOTE 10—MORTGAGE LOANS AND NOTES PAYABLE

Mortgage loans at December 31, 2012 and 2011 consist of the following:

Property Pledged as Collateral	Region	Carrying amount of mortgage notes as of December 31, <sup>(1)</sup>		Interest Rate	Maturity Date
		2012	2011		
Notes receivable <sup>(2)</sup>	United Kingdom	\$78,705,000	\$—	LIBOR + 5.00%	2015
Multi-family property <sup>(1)</sup>	Western U.S.	27,988,000	—	4.71%	2020
Multi-family property <sup>(1)</sup>	Western U.S.	5,829,000	—	5.43%	2020
Commercial building	Western U.S.	29,000,000	—	LIBOR + 2.00%	2017
Multi-family property	Western U.S.	26,000,000	—	3.35%	2023
Multi-family property	Western U.S.	23,475,000	—	Adjustable rate + 2.07%	2022
Multi-family property	Western U.S.	14,357,000	14,357,000	4.19%	2018
Commercial building	Western U.S.	12,000,000	12,000,000	6.75%	2016
Commercial building	Western U.S.	7,032,000	—	LIBOR + 3.50%	2014
Commercial building/Warehouse	Western U.S.	4,391,000	4,391,000	Prime + 1.00%	2013
Commercial building	Western U.S.	1,873,000	—	5.72%	2013
Total mortgage loans payable		230,650,000	30,748,000		
Notes Payable		5,888,000	—	15.00%	2013
Total notes payable		5,888,000	—		

Total mortgage and notes payable	\$236,538,000	\$30,748,000
----------------------------------	---------------	--------------

---

(1) The mortgage loan payable balances include the unamortized debt premiums. Debt premiums represent the excess of the fair value of debt over the principal value of debt assumed in various acquisitions and are amortized into interest expense over the remaining term of the related debt in a manner that approximates the effective interest method. The unamortized loan premium as of December 31, 2012 was \$2.3 million.

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

<sup>(2)</sup> In December 2012, Kennedy Wilson acquired a loan secured by a shopping center and 107 residential units in the United Kingdom. At the time of acquisition, Kennedy Wilson invested \$43.6 million of equity and borrowed \$79.3 million in order to finance the transaction (see Note 4). As of December 31, 2012, both the note receivable and mortgage payable are consolidated on Kennedy Wilson's consolidated balance sheet. Subsequent to December 31, 2012, Kennedy Wilson sold a 50% interest in this investment to an institutional investor.

The aggregate maturities of mortgage loans and notes payable subsequent to December 31, 2012 are as follows :

2013	\$ 12,643,000
2014	8,472,000
2015	81,694,000
2016	15,040,000
2017	28,292,000
Thereafter	88,134,000
	234,275,000
Debt premium	2,263,000
	\$ 236,538,000

## NOTE 11—BORROWINGS UNDER LINES OF CREDIT

In June 2012, Kennedy-Wilson, Inc. amended its existing unsecured revolving credit facility which increased the total principal amount available to be borrowed by an additional \$25.0 million, for an aggregate of \$100.0 million. The loans bear interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to a maturity date of June 30, 2015 and adjusts the Minimum Rent Adjusted Fixed Charge Coverage Ratio to 1.50:1.00. The average outstanding borrowings under the facility were \$11.2 million and \$13.6 million during the year ended December 31, 2012 and 2011, respectively. As of December 31, 2012 and 2011, there was no principal amount outstanding under the unsecured facility.

The revolving loan agreement that governs the amended unsecured credit facility requires Kennedy-Wilson, Inc. to maintain (i) a minimum rent adjusted fixed charge coverage ratio (as defined in the revolving loan agreement) of not less than 1.50 to 1.00, measured on a four quarter rolling average basis and (ii) maximum balance sheet leverage (as defined in the revolving loan agreement) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter. As of December 31, 2012, Kennedy-Wilson, Inc.'s adjusted fixed charge coverage ratio was 2.49 to 1.00 and its balance sheet leverage was 0.93 to 1.00.

## NOTE 12—SENIOR NOTES

In December 2012, Kennedy Wilson completed a public offering of \$55.0 million aggregate principal amount of 7.75% Senior Notes due 2042. The Notes were issued and sold at a public offering price of 100% of their principal amount by Kennedy-Wilson, Inc. (the "Issuer"), a wholly owned subsidiary of Kennedy Wilson. The amount of the 7.75% senior notes included in the accompanying consolidated balance sheets was \$55.0 million at December 31, 2012.

In December 2012, the Issuer, in a private placement, issued \$100.0 million aggregate principal amount of 8.750% senior notes due April 1, 2019 (the "Notes") for approximately \$105.3 million, net of premium. The Notes were issued as additional Notes under an indenture dated as of April 5, 2011, among the Issuer; Kennedy Wilson, as parent guarantor; certain subsidiaries of the Issuer, as subsidiary guarantors; and Wilmington Trust, National Association (as successor by merger to Wilmington Trust FSB), as trustee, as thereafter supplemented and amended. During 2011, the Issuer issued \$200.0 million aggregate principal amount of its 8.750% Senior Notes due 2019 on April 5, 2011 for approximately \$198.6 million, net of discount, and an additional \$50.0 million aggregate principal amount of such

notes on April 12, 2011 for approximately \$50.8 million, net of premium (together, the "Initial Notes"). The Notes have substantially identical terms as the Initial Notes and will be treated as a single series with the Initial Notes under the Indenture. In December 2011, Kennedy-Wilson commenced a registered exchange offer for the Initial Notes. The exchange was completed on February 2012 and all outstanding Initial Notes issued in the private placements were exchanged for registered notes. Kennedy-Wilson has filed a registration statement with the Securities and Exchange Commission to commence a registered exchange offer for the Notes issued in December 2012.

The aggregate carrying value of the 8.75% senior notes included in the accompanying consolidated balance sheets, net of unamortized premiums and discounts was \$354.6 million and \$249.4 million at December 31, 2012 and 2011, respectively.

The indentures governing the 7.75% Senior Notes and the 8.75% Senior notes contain various restrictive covenants, including, among others, limitations on our ability and the ability of certain of our subsidiaries to incur or guarantee additional indebtedness,

Table of Contents

make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stocks, engage in transactions with affiliates, create or permit liens on assets, enter into sale /leaseback transactions, and enter into consolidations or mergers. The indentures governing the 7.75% Senior Notes and the 8.750% Senior Notes limits the ability of Kennedy-Wilson and certain of its subsidiaries to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, Kennedy-Wilson's maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of December 31, 2012, the balance sheet leverage ratio was 0.87 to 1.00. See Note 23 for the guarantor and non-guarantor financial statements.

**NOTE 13—CONVERTIBLE SUBORDINATED DEBT**

In July 2010, Kennedy-Wilson extinguished its convertible subordinated debt with a face value of \$30.0 million for \$32.5 million. The convertible subordinated debt was originally issued with a beneficial conversion feature and the carrying value of the convertible subordinated debt on the day of extinguishment was \$27.7 million, net of the unamortized beneficial conversion of \$2.3 million. The intrinsic value of the beneficial conversion feature was measured at \$0.1 million on the day of extinguishment and was recorded as a reduction to additional paid in capital. The difference between the extinguishment amount and the carrying value of \$4.8 million is included in the accompanying consolidated statement of operations as a loss on early extinguishment of debt for the year ended December 31, 2010.

**NOTE 14—JUNIOR SUBORDINATED DEBENTURES**

In 2007, Kennedy Wilson issued junior subordinated debentures in the amount of \$40 million. The debentures were issued to a trust established by Kennedy Wilson, which contemporaneously issued \$40 million of trust preferred securities to Merrill Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06%, and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly with the principal due in 2037. Prior to April 30, 2012, Kennedy Wilson may redeem the debentures, upon a Special Event, as defined in the debentures, at a redemption price equal to 107.5% of the outstanding principal amount. After April 30, 2012, Kennedy Wilson may redeem the debentures, in whole or in part, on any interest payment date at par. The junior subordinated debentures require Kennedy Wilson to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing our junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four quarter rolling basis, and (ii) a ratio of total debt to net worth (as defined in the indenture governing the junior subordinated debentures) of not greater than 3.00 to 1.00 at any time. As of the most recent quarter end, Kennedy Wilson's fixed charge coverage ratio was 3.42 to 1.00 and its ratio of total debt to net worth was 1.35 to 1.00.

**NOTE 15—RELATED PARTY TRANSACTIONS**

During the year ended December 31, 2012, a noncontrolling interest holder of a consolidated entity, comprised of Kennedy Wilson executives, received \$0.4 million in distributions from a joint venture investment as a result of the sale of a multifamily asset. During the year ended December 31, 2011, a noncontrolling entity comprised of Kennedy Wilson executives co-invested \$1.7 million with Kennedy Wilson for the acquisition of new joint venture investments and \$0.3 million was distributed to the executives from the joint venture investments.

In 2012, Kennedy Wilson acquired the remaining noncontrolling interests of a consolidated entity from Kennedy Wilson executives. In exchange for the noncontrolling interests, Kennedy Wilson issued 150,000 shares of common stock to the executives and also paid them \$0.5 million.

For the years ended December 31, 2012, 2011 and 2010, Kennedy Wilson received \$0.5 million, \$0.8 million and \$0.6 million, respectively, from KW Residential, LLC for consulting services.

The firm of Solomon, Winnett & Rosenfield was paid \$0.2 million, \$0.2 million, and \$0.2 million for income tax services provided by the firm during the years ended December 31, 2012, 2011, and 2010, respectively. Jerry Solomon is a partner in the firm and a member of Kennedy Wilson's Board of Directors. For the years ended December 31, 2012, 2011, and 2010, Mr. Solomon was paid an immaterial amount of director's fees.

In 2009, Kennedy Wilson entered into a seven-year lease with an affiliate of a third-party shareholder for its corporate offices in Beverly Hills, California commencing in January 2010 . In 2010, Kennedy-Wilson amended the lease to provide for the rental of additional square footage. As of December 31, 2012, the future minimum lease payments under this agreement are as follows:

71

---

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

Year	
2013	\$1,493,000
2014	1,537,000
2015	1,583,000
2016	1,632,000
2017	—
Thereafter	—
Total minimum payments	\$6,245,000

Rental expense under this arrangement totaled \$1.3 million and \$1.2 million for the years ended December 31, 2012 and 2011, respectively.

Kennedy Wilson received fees and other income from affiliates and entities in which Kennedy-Wilson holds ownership interests in the following amounts:

	Year ended December 31,		
	2012	2011	2010
Property management and leasing fees	\$24,509,000	\$14,546,000	\$12,417,000
Commissions	7,932,000	24,183,000	5,375,000
Sale of real estate	—	—	9,535,000
Total related party revenue	\$32,441,000	\$38,729,000	\$27,327,000

During 2011, Kennedy-Wilson purchased an additional 24% (increasing its interest from 24% to 48%) interest in a condominium project in Northern California for \$7.0 million from a related party fund.

During 2011, Kennedy-Wilson acquired a 100% interest in an approximate 200,000 square foot office portfolio in Oakland, California from a related party fund in which Kennedy-Wilson has a 5% ownership interest as further discussed in Note 3 above.

As of December 31, 2011 a total of \$33.3 million was due to Kennedy Wilson from various joint venture investments as further discussed in Note 3.

During 2011, as a result of issuing the 8.75% Senior Notes as discussed in Note 12, the Company is subject to reporting associated with non-wholly owned subsidiary guarantors under the Indenture. Therefore, in order to reduce the the reporting requirements, certain direct and indirect non-wholly owned subsidiaries of Kennedy-Wilson, Inc., a wholly-owned subsidiary of Kennedy-Wilson, that are guarantors of the Company's 8.75% Senior Notes, entered into agreements with (i) current and former employees of the Kennedy-Wilson, Inc. (the "Executives") and pooled investment vehicles owned by the executives (the "Executives Entities"), and/or (ii) unaffiliated third parties. The Executives Entities and the unaffiliated third parties were owners of an interest in non-wholly owned subsidiaries that are guarantors under the Indenture. These subsidiaries held ownership interests in unconsolidated co-investment vehicles (each a "Fund Entity"). In the transactions, interests held in the subsidiaries were exchanged for interests in the Fund Entities. As a result of the transactions, each of the subsidiaries became a wholly-owned subsidiary of Kennedy-Wilson, Inc., and each of the Executives, the Executive Entities and unaffiliated third parties continues to hold an economic interest in the relevant Fund Entity that is economically equivalent to the interest held by it prior to such transactions. As a result of this transaction, the Company deconsolidated a balance of \$7.0 million of non-controlling interests.

In 2010, Kennedy-Wilson sold a 50% ownership interest in Fairways and its entire 5% interest in another joint venture to KW Fund III in which it also has an ownership interest of 11.62% and is the general partner. The gain recognized on the sale of Fairways in the amount of \$0.7 million is included in the accompanying consolidated statements of operations. The gain recognized on the sale of the 5% joint venture interest in the amount of \$0.6 million is included in equity in income of joint ventures in the accompanying consolidated statements of operations. Gains on the sale of Fairways and the 5% joint venture interest were deferred in the amount of \$0.2 million and are included in accrued

expenses and other liabilities in the accompanying consolidated balance sheets.

NOTE 16—INCOME TAXES

Cumulative tax effects of temporary differences are shown below at December 31, 2012 and 2011:

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

	Year ended December 31,	
	2012	2011
Deferred tax assets:		
Accrued reserves	\$204,000	\$210,000
Stock option expense	3,103,000	1,833,000
Net operating loss carryforward and credits	26,334,000	20,935,000
Marketable securities	(1,250,000)	) 2,564,000
Hedging transactions	(391,000)	) 2,426,000
Total deferred tax assets	28,000,000	27,968,000
Deferred tax liabilities:		
Depreciation and amortization	7,919,000	7,447,000
Prepaid expenses and other	1,475,000	581,000
Investment basis and reserve differences	32,384,000	28,355,000
Foreign currency translation	6,163,000	7,667,000
Capitalized interest	2,328,000	2,355,000
Valuation allowance	402,000	—
Total deferred tax liabilities	50,671,000	46,405,000
Net deferred tax liability	\$22,671,000	\$18,437,000

Based upon the level of historical taxable income and projections for future taxable income over the periods which Kennedy-Wilson's gross deferred tax assets are deductible, management believes it is more likely than not Kennedy-Wilson will realize the benefits of these deductible differences at December 31, 2012.

As of December 31, 2012 Kennedy Wilson had federal net operating losses of \$71.1 million. These net operating losses begin to expire in the year 2030. As of December 31, 2012 there were also California net operating loss carryforwards of approximately \$32.8 million. The California net operating losses begin to expire after the year 2028. In addition, Kennedy Wilson has \$7.2 million of other state net operating losses. We believe that it is more likely than not that certain state net operating losses will expire before the Kennedy Wilson can realize the benefit of the losses. We have provided a valuation allowance of \$0.4 million as of December 31, 2012 for certain state net operating losses.

Presently a deferred tax liability for undistributed earnings of subsidiaries located outside the United States has not been recorded. These earnings may become taxable upon a payment of a dividend or as a result of a sale or liquidation of the subsidiaries. At this time we don't have plans to repatriate income from our foreign subsidiaries, however to the extent that are able to repatriate such earnings in a tax free manner, or in the event of a change in our capital situation or investment strategy, it is possible that the foreign subsidiaries may pay a dividend which would impact our effective tax rate. Unremitted earnings of foreign subsidiaries, which have been, or are intended to be permanently invested, aggregated approximately \$34.2 million as of December 31, 2012. If these subsidiaries' earnings were repatriated to the United States additional US domestic taxes of \$7.4 million would be incurred.

There were no gross unrecognized tax benefits at December 31, 2012 and December 31, 2011. Management has considered the likelihood and significance of possible penalties associated with Kennedy-Wilson's current and intended filing positions and has determined, based on its assessment, that such penalties, if any, would not expected to be significant.

Kennedy-Wilson's federal income tax returns remain open to examination for the years 2008 through 2012.

Kennedy-Wilson is currently under examination for 2008, 2009 and 2010.

For income tax purposes, distributions paid to common stockholders and preferred shareholder are return of capital for the year ended December 31, 2012.

NOTE 17—COMMITMENTS AND CONTINGENCIES

Future minimum lease payments under scheduled operating leases that have initial or remaining noncancelable terms in excess of one year are as follows:

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

Year ending December 31,	
2013	\$2,369,000
2014	2,231,000
2015	2,041,000
2016	1,893,000
2017	85,000
Thereafter	—
Total minimum payments	\$8,619,000

Rental expense was \$3.0 million, \$2.3 million, and \$2.2 million for the years ended December 31, 2012, 2011, and 2010, respectively, and is included in general and administrative expense in the accompanying consolidated statements of operations.

**GUARANTEES**—Kennedy-Wilson has provided guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) Kennedy-Wilson could be required to make under the guarantees were approximately \$55.5 million at December 31, 2012. The guarantees expire by the year end of 2017 and Kennedy-Wilson's performance under the guarantees would be required to the extent there is a shortfall in liquidation between the principal amount of the loan and the net sales proceeds of the property.

**CAPITAL COMMITMENTS**—As of December 31, 2012 and 2011, Kennedy-Wilson has unfunded capital commitments to its joint ventures in the amounts of \$8.3 million and \$9.1 million.

**EMPLOYMENT AGREEMENTS**—Kennedy-Wilson has entered into employment agreements with its Chief Executive Officer and its President and Chief Executive Officer of its European operations, which provide for annual base compensation in the aggregate amounts of \$1.0 million and \$0.75 million, respectively, and expire in December 2019 and January 2014, respectively. The employment agreements also provide for the issuance of 556,875 shares of restricted stock to each officer that vest in equal amounts over five years provided certain performance targets are achieved (see Note 18). Additionally, the employment agreements provide for the payment of an annual discretionary bonus in an amount determined in the sole and absolute discretion of the Compensation Committee of the board of directors.

Kennedy-Wilson also has an employment agreements with one other non-officer employee which provides for aggregate minimum annual compensation of \$0.6 million and will expire in 2014.

**LITIGATION**—Kennedy-Wilson is currently a defendant in certain routine litigation arising in the ordinary course of business. It is the opinion of management and legal counsel that the outcome of these actions will not have a material effect on the financial statements taken as a whole.

**NOTE 18—STOCK COMPENSATION PLANS**

In November 2009, Kennedy Wilson adopted the 2009 Equity Participation Plan ("the Equity Plan") that allows for the grant of up to approximately 2.5 million shares of common stock. As of December 31, 2012 all the restricted share awards were granted to employees, which vest ratably over a five year period. Vesting of the restricted share awards is contingent upon the expected achievement of a performance target as of the initial vesting date of November 13, 2010 and each of the next four years thereafter. The performance targets were achieved for 2010, 2011 and 2012. From inception of the plan through December 31, 2012, 1,454,467 shares have vested and been issued to participants and 23,512 shares have been forfeited. These restricted share awards are recognized as expense on a tranche by tranche basis over the five year performance period. As of December 31, 2012, there was \$5.0 million of unrecognized compensation cost for the Equity Plan related to unvested restricted shares.

In June 2012, Kennedy Wilson adopted and its shareholders approved the Amended and Restated 2009 Equity Participation Plan (the "Amended and Restated Plan") under which an additional 3,170,000 shares of common stock have been reserved for restricted stock grants to officers, employees, non-employee directors and consultants. The

terms of the awards granted under the 2009 Amended and Restated Equity Participation Plan are set by the Company's compensation committee at its discretion. During the year ended December 31, 2012, 3,170,000 shares of restricted common stock were granted under the Amended and Restated Plan along with 5,000 shares which remained under the original plan. The shares vest over five years with 40% vesting ratably in the first four years of the award period and the remaining 60% in the fifth year of the award period. Vesting of the restricted share awards is contingent upon the expected achievement of a performance target in each year of the award period with the initial vesting of the first 10% in January 2013. The performance targets were achieved for 2012. As of December 31, 2012, there was

75

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

\$38.0 million of unrecognized compensation cost for the Equity Plan related to unvested restricted shares which will vest over the next four years.

During the years ended December 31, 2012, 2011 and 2010, Kennedy Wilson recognized \$8.1 million, \$5.1 million and \$8.1 million, respectively, of compensation expense related to the vesting of restricted common stock awarded in 2012 and prior awards and is included in compensation and related expense in the accompanying consolidated statements of operations.

The following table sets forth activity under the Equity Plan and Amended and Rested Plan:

	Shares
Nonvested at December 31, 2010	2,003,600
Granted	3,000
Vested	(493,043 )
Forfeited	(4,950 )

Granted	3,175,000
Vested	(493,643 )
Forfeited	—
Nonvested at December 31, 2012	4,189,964

## NOTE 19—CAPITAL STOCK TRANSACTIONS

## Common Stock

In July 2012, Kennedy Wilson completed a follow-on offering of 8.6 million shares of its common stock, which raised \$106.2 million of net proceeds.

During 2011, Kennedy Wilson issued 4.4 million shares of the its common stock to an institutional investor for \$10.70 per share when the market value was \$12.20. In addition, as a result of its contractual rights, the preferred shareholder also acquired 400,000 shares for \$10.70 per share, representing a \$0.6 million discount. Because the discount was the result of the preferred shareholder's contractual rights, it is reflected as additional preferred dividend in the accompanying consolidated statements of operations.

During 2011, Kennedy Wilson completed a follow-on offering of 6.9 million shares of its common stock, which raised \$71.7 million of net proceeds.

## Preferred Stock

During 2010, Kennedy-Wilson issued two series of Convertible Cumulative Preferred Stock (together “the Preferred Stock”), series A (100,000 shares) and series B (32,550 shares), for total proceeds less issuance costs of \$99.8 million and \$32.5 million, respectively. The series A Preferred Stock is convertible into common stock at any time at the option of the holder prior to May 19, 2015 at a price of \$12.41 per share and is mandatorily convertible into common stock on May 19, 2015. The series B Preferred Stock is convertible into common stock at any time at the option of the holder prior to November 3, 2018 at a price of \$10.70 per share and is mandatorily convertible into common stock on November 3, 2018. The series A and series B Preferred Stock have dividend rates of 6.0% and 6.452%, respectively, payable quarterly.

The certificate of designations of the Preferred Stock contain provisions that require Kennedy Wilson to commence an offer to purchase all shares of the Preferred Stock at a purchase price in cash per share of Preferred Stock equal to \$1,150 plus all accumulated and accrued dividends upon the occurrence of a fundamental change, defined as a change of control. The parties have agreed that a change of control is deemed to occur when any person or group other than the purchaser of the Preferred Stock and its affiliates, or any officer or director of Kennedy Wilson as of the issue date of the Preferred Stock, acquires directly or indirectly voting control or direction over more than 35% of the voting

control of Kennedy Wilson for a period of seven consecutive days following the earlier of the date the company becomes aware of such acquisition and the date such person or group files a Schedule 13D. This change of control provision is within Kennedy-Wilson's control as the Board of Directors, at its discretion, would be able to issue blank check Preferred Stock at any time for any reason which could dilute the person or group to below

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

the 35% of the voting control threshold. As such, Kennedy Wilson has concluded that the change of control is within the control of Kennedy-Wilson and therefore has classified the Preferred Stock as permanent equity in the accompanying consolidated balance sheets.

In connection with the issuance of the Preferred Stock, Kennedy Wilson entered into registration rights agreements that allow for the holders of the Preferred Stock, with at least a 51% vote, to demand registration of the Preferred Stock (or converted common stock) on or after November 13, 2010. If Kennedy Wilson does not satisfy the demand for registration, the holders of the Preferred Stock (or converted common stock) would be entitled to receive a payment in an amount equal to 1.50% per annum of the liquidation preference of \$1,000 per share. There are sufficient shares of unregistered common stock authorized and unissued to accommodate the conversion feature.

**Warrants**

In April 2010, the Board of Directors authorized a warrant repurchase program enabling Kennedy Wilson to repurchase up to 12.5 million of its outstanding warrants. The warrants carry an exercise price of \$12.50 with an expiration date of November 14, 2014. Kennedy Wilson may call for redemption of the warrants in whole and not in part at a price of \$0.01 per warrant if the share price of its common stock equals or exceeds \$19.50 per share for any 20 trading days within a 30 trading day period ending on the third business day prior to the notice of redemption to warrant holders, or upon not less than 30 days' prior written notice of redemption to each warrant holder. During the years ended December 31, 2012 and 2011, Kennedy Wilson repurchased a total of 0.6 million and 3.4 million, respectively of its outstanding warrants for total consideration of \$1.6 million and \$6.1 million. There are 5.8 million warrants outstanding as of December 31, 2012.

**Dividend Distributions**

Kennedy Wilson declared and paid the following cash dividends on its common and preferred stock:

	Year Ended December 31, 2012		Year Ended December 31, 2011	
	Declared	Paid	Declared	Paid
Preferred Stock				
Series A	\$6,000,000	\$6,000,000	\$6,000,000	\$6,000,000
Series B	2,100,000	2,100,000	2,100,000	2,100,000
Total Preferred Stock	8,100,000	8,100,000	8,100,000	8,100,000
Common Stock	11,724,000	13,797,000	5,671,000	3,598,000
Total <sup>(1)</sup>	\$19,824,000	\$21,897,000	\$13,771,000	\$11,698,000

<sup>(1)</sup> The difference between declared and paid is the amount accrued on the consolidated balance sheets.

<sup>(2)</sup> The \$0.6 million difference between paid and the amount presented on the statement of equity represents the discount provided as a result of the preferred shareholder's contractual rights as discussed above in 2011.

**NOTE 20—EMPLOYEE BENEFIT ARRANGEMENTS**

Kennedy Wilson has a qualified plan under the provisions of Section 401(k) of the Internal Revenue Code. Under this plan, participants are able to make salary deferral contributions of up to 15% of their total compensation, up to a specified maximum. The 401(k) plan also includes provisions which authorize Kennedy Wilson to make discretionary contributions. During the years ended December 31, 2012, 2011 and 2010, Kennedy Wilson made matching contributions of \$155,000, \$140,000, and \$232,000, respectively, to this plan and they are included in compensation and related expenses in the accompanying consolidated statements of operations.

**NOTE 21—EARNINGS PER SHARE**

The following table sets forth the computation of basic and diluted earnings per share:

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries  
 Notes to Consolidated Financial Statements—(continued)  
 December 31, 2012, 2011 and 2010

	Year ended December 31,		
	2012	2011	2010
Basic and diluted (loss) income per share attributable to Kennedy-Wilson Holdings, Inc. common shareholders:			
Loss from continuing operations attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(3,684,000 )	\$(2,741,000 )	\$(1,052,000 )
(Loss) income from discontinued operations, net of income taxes, attributable to Kennedy-Wilson Holdings Inc. common shareholders	(210,000 )	343,000	—
Net loss attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(3,894,000 )	\$(2,398,000 )	\$(1,052,000 )
(Loss) from continuing operations attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(0.07 )	\$(0.06 )	\$(0.03 )
(Loss) income from discontinued operations, net of income taxes, attributable to Kennedy-Wilson Holdings Inc. common shareholders	—	0.01	—
Net loss attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(0.07 )	\$(0.05 )	\$(0.03 )
Weighted average shares outstanding for basic and diluted loss per share	55,285,833	42,415,770	38,978,272

The dilutive shares from warrants, convertible securities, and un-vested stock have not been included in the diluted weighted average shares as Kennedy-Wilson has a net loss available to common shareholders. There was a total of 19,339,021, 20,609,591 and 23,450,734 potentially dilutive securities as of December 31, 2012, 2011 and 2010, respectively.

**NOTE 22—SEGMENT INFORMATION**

Kennedy Wilson's business is defined by two core segments: KW Investments and KW Services. KW Investments invests in multifamily, residential and office properties as well as loans secured by real estate. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution-based clients. Kennedy Wilson's segment disclosure with respect to the determination of segment profit or loss and segment assets is based on these services and investments.

**KW INVESTMENTS**—Kennedy Wilson, on its own and through joint ventures, is an investor in real estate, including multifamily, residential and office properties as well as loans secured by real estate.

Substantially all of the revenue—related party was generated via inter-segment activity for the years ended December 31, 2012, 2011 and 2010. Generally, this revenue consists of fees earned on investments in which Kennedy Wilson also has an ownership interest. The amounts representing investments with related parties and non-affiliates are included in the investment segment. No single third party client accounted for 10% or more of Kennedy Wilson's revenue during any period presented in these financial statements.

**KW SERVICES**—Kennedy Wilson offers a comprehensive line of real estate services for the full life cycle of real estate ownership and investment to clients that include financial institutions, developers, builders and government agencies. Kennedy Wilson provides auction and conventional sales, property management, investment management, asset management, leasing, construction management, acquisitions, dispositions and trust services.

NOTE 23—GUARANTOR AND NON-GUARANTOR FINANCIAL STATEMENTS

The following consolidating financial information and condensed consolidating financial information includes:

(1) Condensed consolidating balance sheets as of December 31, 2012 and 2011, respectively; consolidating statements of operations and comprehensive (loss) income for the years ended December 31, 2012, 2011, and 2010, respectively; and condensed consolidating statements of cash flows for the years ended December 31, 2012, 2011, and 2010, respectively, of (a) Kennedy-Wilson Holdings, Inc. on an unconsolidated basis as the parent (and guarantor), (b) Kennedy-Wilson, Inc., as the subsidiary issuer, (c) the guarantor subsidiaries, (d) the non-guarantor subsidiaries and (e) Kennedy-Wilson Holdings, Inc. on a consolidated basis; and

(2) Elimination entries necessary to consolidate Kennedy-Wilson Holdings, Inc., as the parent guarantor, with Kennedy-Wilson, Inc. and its guarantor and non-guarantor subsidiaries

Included in the guarantor subsidiaries column below are data for certain guarantor subsidiaries that were less than 100% owned by Kennedy-Wilson as of December 31, 2010. Such guarantor subsidiaries were restructured prior to the exchange offer such that Kennedy-Wilson owned 100% of all of the guarantor subsidiaries as of December 31, 2011. As a result, in accordance with Rule 3-10(d) of Regulation S-X promulgated by the SEC, no separate financial statements are required for these subsidiaries as of December 31, 2012 or 2011.

(1) Included in the guarantor subsidiaries column above are data for certain subsidiaries that were less than 100% owned for the year ended December 31, 2010 by Kennedy-Wilson at the time the notes were originally issued. Such guarantor subsidiaries were restructured prior to registering the notes such that Kennedy-Wilson now owns 100% of all the guarantor subsidiaries. As a result, in accordance with Rule 3-10(d) of Regulation S-X promulgated by the SEC, no separate financial statements are required for such guarantor subsidiaries.

Notes to Consolidated Financial Statements—(continued)

December 31, 2012, 2011 and 2010

NOTE 25—SUBSEQUENT EVENTS

Subsequent to December 31, 2012, KW Residential, LLC settled several Japanese yen related hedges resulting in cash proceeds of \$23.7 million to the joint venture, of which our share was \$10.6 million.

In December 2012, at time of acquisition, Kennedy Wilson invested \$43.6 million of its equity and borrowed \$79.3 million to acquire a loan secured by a shopping center in the United Kingdom. Additionally, in partnership with an institutional investor, we acquired a loan pool with an unpaid principal balance of \$232.3 million, comprised of 7 loans secured by 23 underlying properties in the United Kingdom. Kennedy Wilson's investment in the pool totaled \$16.0 million. Subsequent to December 31, 2012, we sold 50% of our interest in both investments to an institutional investor.

In March 2013, Kennedy Wilson drew \$35 million on its unsecured credit facility, bringing the outstanding balance to \$35 million and availability to \$65 million.

Table of Contents

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure  
None.

Item 9A. Controls and procedures

Disclosure controls and procedures and changes in internal control over financial reporting during the latest quarter  
Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls include, without limitation, controls and procedures designed to ensure that information required to be disclosed under the Exchange Act is accumulated and communicated to management, including principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Our management carried out an evaluation, under the supervision of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation our disclosure controls and procedures as of December 31, 2012. Based upon that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of December 31, 2012.

Management's Report on Internal Control over Financial Reporting

Our management, including our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2012.

KPMG LLP, an independent registered public accounting firm, audited the effectiveness of our internal control over financial reporting as of December 31, 2012, as stated in their report included in this report.

Changes in Internal Control Over Financial Reporting

There were no changes during our last fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.
