CHINA NATURAL RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands, except share, per share data)

1. BASIS OF PRESENTATION

Basis of consolidation

Management has prepared the accompanying unaudited condensed consolidated financial statements for the three-month and six-month periods ended June 30, 2018, and these operating results are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

The condensed consolidated statement of financial position at December 31, 2017 has been derived from the audited consolidated financial statements at that date but does not include all the information and footnotes required by International Financial Reporting Standards (IFRS) for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the annual report on Form 20-F of China Natural Resources, Inc. (CHNR or the Company) for the year ended December 31, 2017 (the 2017 Annual Report).

The condensed consolidated financial statements include the accounts of CHNR and those subsidiaries in which CHNR has direct or indirect controlling interests (collectively referred to as the Group). The Company's subsidiaries as of December 31, 2017 are as described in the 2017 Annual Report.

For the convenience of readers, amounts in Renminbi, the Chinese currency (CNY), have been translated into United States dollars (US\$) at the applicable rate of US\$1.00 = CNY6.6225 as quoted by www.ofx.com as of June 30, 2018, except as disclosed otherwise. No representation is made that the CNY amounts could have been, or could be, converted into US\$ at that rate, or at all.

Changes in accounting policies

IFRS 9 FINANCIAL INSTRUMENTS

In July 2014, the IASB issued the final version of IFRS 9, which will be effective for annual periods beginning on or after January 1, 2018. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. The expected impacts relate to the classification and measurement and the impairment requirements and are summarized as follows:

(i)

Classification and measurement

On January 1, 2018 (the date of initial application of IFRS 9), the Group's management has classified its financial assets into the appropriate IFRS 9 categories. There was no effect resulting from this reclassification.

(ii)

Impairment

IFRS 9 requires an impairment on debt instruments recorded at amortized cost or at fair value through other comprehensive income, lease receivables, loan commitments and financial guarantee contracts that are not accounted for at fair value through profit or loss under IFRS 9, to be recorded based on an expected credit loss model either on a twelve-month basis or a lifetime basis. The Group has no trade receivable and only has other receivables, thus, the Group applied the general approach and record twelve-month expected credit losses that are estimated based on the possible default events on its other receivables within the next twelve months. There was no significant effect of adoption on the Group's financial statements.

Changes in accounting policies (continued)

IFRS 15 REVENUE FROM CONTRACTS WITH CUSTOMERS

IFRS 15 supersedes IAS 18 Revenue and IAS 11 Construction Contracts. IFRS 15 establishes a comprehensive framework for recognizing revenue from contracts with customers. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. There was no revenue generated by the Group during the period.

Going concern

As of June 30, 2018, the Group had net current liabilities of CNY19.46 million (US\$2.94 million), and shareholder's deficiency in assets of CNY19.16 million (US\$2.89 million). In view of these circumstances, the Directors have given consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. In order to improve the Group's liquidity and cash flows to sustain the Group as a going concern, the Directors of the Company have undertaken certain measures to improve the cash flows of the Group, which include but are not limited to obtaining confirmations of continuous financial support from Feishang Group Limited ("Feishang Group" or the "Shareholder") and Feishang Enterprise Group Limited ("Feishang Enterprise"), entities controlled by Mr. Li Feilie who is also the principal beneficial shareholder of the Company, which have stated that Feishang Group and Feishang Enterprise would provide continuous financial support to the Group in relation to the going concern of its operations, including payments on debts and will not recall any amounts due to them until the Group is in a position to settle the amounts due without having a detrimental impact on the financial resources of the Group. Accordingly, in the opinion of the Directors, it is appropriate for the consolidated financial statements to be prepared on a going concern basis.

2. DISCONTINUED OPERATIONS

On February 24, 2017, Feishang Mining Holdings Limited (Feishang Mining), a wholly-owned subsidiary of CHNR, and Wuhu City Feishang Industrial Development Co., Ltd. (Wuhu Industrial), as nominee for Feishang Mining (collectively referred to as the Sellers), entered into an agreement with Shen Yandi, an unrelated individual (the Purchaser), pursuant to which the Sellers sold and the Purchaser purchased, all of the Sellers' right, title and interest in and to the outstanding capital stock of Wuhu Feishang Mining Development Co. Limited (Wuhu Feishang), which had been previously included in the Group's non-ferrous metals segment, at a cash consideration of CNY1.00 million (US\$0.15 million). The disposal was completed on March 3, 2017.

On December 29, 2017, CHNR sold all of CHNR's right, title and interest in and to the outstanding capital stock (the Equity Interests) of Double Grow International Limited (Double Grow) and its subsidiaries (including Planta Metalurgica Antay Pacha S.A.) to Shanghai Kangzheng Investment Management Co., Ltd., an unrelated third party. The purchase price for the Equity Interests was CNY17.19 million (US\$2.60 million), including the payment of CNY9.38 million (US\$1.42 million) in indebtedness of Double Grow to CHNR, which was recognized in other receivables and cash consideration of CNY7.81 million (US\$1.18 million). The disposal was completed on December 29, 2017.

Wuhu Feishang and Double Grow were the primary contributors to the Group's exploration and mining-non-ferrous metals segment and copper smelting segment, respectively, which represented separate major lines of business with separately identifiable operations and cash flows. Accordingly, the results of Wuhu Feishang and Double Grow are classified and separately reported as discontinued operations in the consolidated statement of profit or loss for the period ended June 30, 2017. The comparative amounts reported in the consolidated statements of profit or loss and related notes have been revised accordingly to reflect the reclassification between continuing operations and the discontinued operations. In addition, the gain or loss recognized on the disposal of Wuhu Feishang and Double Grow were included in the results of the discontinued operations. With Wuhu Feishang and Double Grow being classified as discontinued operations, their respective exploration and mining-non-ferrous metals segment and copper smelting segment businesses are no longer included in the operating segment information.

LOSS FOR THE PERIOD FROM CONTINUING OPERATIONS

The loss from continuing operations for the six months ended June 30, 2018 increased by CNY0.64 million (US\$0.10 million) from a loss of CNY2.92 million (US\$0.44 million) for the six months ended June 30, 2017 to a loss of CNY3.56 million (US\$0.54 million) for the six months ended June 30, 2018. The increase in loss was mainly due to the inclusion of the operating loss of Bayannaoer City Feishang Mining Company Limited (Bayannaoer Mining) which was acquired in November 2017.

The loss from continuing operations for the three months ended June 30, 2018 decreased by CNY0.48 million (US\$0.08 million) from CNY1.89 million (US\$0.29 million) for the three months ended June 30, 2017 to CNY1.41 million (US\$0.21 million) for the three months ended June 30, 2018. The decrease in loss was mainly due to the decrease in administrative expenses (audit fee, travel expenses and other office expenses), following the disposal of Wuhu Feishang and Double Grow in 2017. The decrease was partly offset by the inclusion of the operating loss of Bayannaoer Mining which was acquired in November 2017.

LOSS/ PROFIT FOR THE PERIOD FROM DISCONTINUED OPERATIONS

The discontinued operations represent the non-ferrous metal mining operation conducted by Wuhu Feishang and the copper smelting operation conducted by Double Grow, both of which were disposed of in 2017. For the period from January 1, 2017 to March 3, 2017, Wuhu Feishang incurred a loss of CNY1.36 million (US\$0.21 million) and a one-time gain on disposal of the discontinued operation of CNY12.34 million (US\$1.86 million). The loss of Wuhu Feishang mainly represents overhead costs incurred during the temporary suspension of production of Wuhu Feishang. For the six months ended June 30, 2017, Double Grow incurred a loss of CNY3.30 million (US\$0.50 million). For the three months ended June 30, 2017, Double Grow incurred a loss of CNY1.34 million (US\$0.20 million). The loss of Double Grow mainly represents overhead costs and trial run production costs.

LIQUIDITY AND CAPITAL RESOURCES

The Group's primary liquidity needs are to fund operating expenses. To date, the Group has financed its working capital requirements primarily through internally generated cash in prior years, non-interest bearing loans from related parties, and funds provided pursuant to the mutual cooperation agreement (the "Cooperation Agreement") entered into with Bayannaoer Jijincheng Mining Co., Ltd., an unrelated third party. In view of the disposition of our metals mining and copper smelting operations, and since the Moruogu Tong Mine of our newly acquired Bayannaoer Mining is in the pre-revenue exploration stage, it can be expected that internally generated funds to sustain operations will not be available until the commencement of commercial production at our Moruogu Tong Mine. We will continue to incur operating expenses prior to the commencement of revenue-producing activities and expect those expenses to continue to be funded through internally generated cash in prior years, non-interest bearing loans from related parties, and funds provided pursuant to the Cooperation Agreement. Feishang Group and Feishang Enterprise have confirmed they will not recall any amounts due to them until the Group is in a position to settle the amounts due without having a detrimental impact on the financial resources of the Group.

Net cash used in operating activities for the six months ended June 30, 2018 was approximately CNY4.82 million (US\$0.73 million) as compared to net cash used in operating activities of CNY8.95 million (US\$1.35 million) for the corresponding period in 2017. The decrease in net cash outflows mainly represent the disposal of Wuhu Feishang and Double Grow since their disposal in March 2017 and December 2017, respectively.

The following summarizes the Company's financial condition and liquidity at the dates indicated:
