PART III - NARRATIVE

As previously disclosed in its Current Reports on Form 8-K, on November 17, 2017 (the “Petition Date”), Real Industry, Inc. (the “Company”), Real Alloy Intermediate Holding, LLC (“RAIH”), Real Alloy Holding, Inc. (“Real Alloy”) and certain of Real Alloy’s wholly owned domestic subsidiaries (collectively with RAIH and Real Alloy, the “Real Alloy Debtors,” and the Real Alloy Debtors with the Company, the “Debtors”) filed voluntary petitions in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”) seeking relief under Chapter 11 of Title 11 of the United States Code (the “Bankruptcy Code”). The Chapter 11 cases are being jointly administered under the caption “In re Real Industry, Inc., et al.,” Case No. 17-12464, in the Bankruptcy Court (the “Chapter 11 Cases”). The Debtors continue to operate their business and manage their properties as “debtors-in-possession” under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions and orders of the Bankruptcy Code.

On March 1, 2018, as previously disclosed in a Current Report on Form 8-K, the Company filed a Disclosure Statement and Plan of Reorganization for Real Industry (as further modified, the “RI Plan”) with the Bankruptcy Court whereby the lenders providing the Company’s debtor-in-possession (“DIP”) financing, along with affiliated investors (collectively, the “Plan Sponsor”), are acting as a plan sponsor to provide \$17.5 million of capital in exchange for 49% of newly issued equity in the Company on a reorganized basis (“Reorganized RELY”). Under the RI Plan, the Company’s existing common stockholders will receive their pro rata share of 20% of the newly issued equity in Reorganized RELY, assuming such stockholders vote to accept the RI Plan as a class. The holder of the Company’s Series B Preferred Shares (the “Redeemable Preferred Stock”), who has agreed to vote in favor of the RI Plan, will receive a \$2.0 million cash payment plus 31% of the newly issued equity in Reorganized RELY, in exchange for full settlement of its \$28.5 million liquidation preference and \$1.8 million of accrued dividends. If the stockholders do not vote to approve the RI Plan as a class, the common stockholders will receive 16%, and the Redeemable Preferred Stock holder will receive 35% of the newly issued equity in Reorganized RELY. There is a scheduled hearing with the Bankruptcy Court to consider and approve the adequacy of the RI Plan and the related solicitation procedures on March 29, 2018.

Also as previously disclosed in a Current Report on Form 8-K, in connection with the DIP financing obtained by the Real Alloy Debtors (the “RA DIP Financing”), the Real Alloy Debtors agreed to pursue a sale of substantially all of their assets pursuant to Section 363 of the Bankruptcy Code (a “Section 363 Sale”). On March 8, 2018, the Real Alloy Debtors filed a form of stalking horse asset purchase agreement with the Bankruptcy Court for a sale of substantially all of the assets of the Real Alloy Debtors for to-be-determined consideration (including, inter alia, cash, a credit bid, and the assumption of certain of the Real Alloy Debtors’ liabilities), which is subject to further negotiation and amendment of an asset purchase agreement (the “Asset Purchase Agreement”), receipt of higher and otherwise better bids by March 19, 2018, and approval by the Bankruptcy Court.

Since the Petition Date, the Company has been principally engaged in addressing bankruptcy-related matters for all of the Debtors, including obtaining, negotiating and complying with the requirements of DIP financing; negotiating with suppliers, creditors, committees, stockholders and potential strategic partners; conducting the actions incident to the Section 363 Sale and negotiating the Asset Purchase Agreement; negotiating the RI Plan and related disclosure statement (collectively, the “Bankruptcy Administration”); and overseeing the operations of Real Alloy. The Company’s financial, accounting and administrative personnel have devoted a substantial amount of their time to the Bankruptcy Administration and the Company’s ongoing operations, including the development and implementation of Real Alloy and the Company’s post-petition strategy and negotiations with potential purchasers of assets. The Company’s ability to address all of these matters concurrently has also been adversely affected by departures of certain administrative personnel.

The Chapter 11 Cases and Bankruptcy Administration matters discussed above occurred at a time during which the year-end close procedures for the Company and Real Alloy would normally be conducted. As a result of the increased burdens placed upon the Company’s financial, accounting and administrative staff, the diversion of significant financial resources, time and attention towards the Bankruptcy Administration, and the subsequent changes in the

Further, since the Petition Date, the Company has filed, and intends to continue to file, monthly Current Reports on Form 8-K with the Securities and Exchange Commission ("SEC") that include, as exhibits, copies of the unaudited monthly operating reports filed by the Debtors with the Bankruptcy Court commencing on December 20, 2017 for the period from the Petition Date to November 30, 2017, and on a monthly basis thereafter (collectively, the "Monthly Operating Reports"). The Monthly Operating Reports include, and will continue to include, information regarding the results of operations of the Real Alloy Debtors during the periods covered by such reports. Court filings and other information related to the court-supervised proceedings are available at a website administered by the Company's claims agent, Prime Clerk, at <https://cases.primeclerk.com/realindustry>.

If the answer is no, identify report(s).

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

The Company and a number of its direct and indirect subsidiaries filed for bankruptcy protection on the Petition Date due to insufficient liquidity to continue operating the businesses. Real Alloy, the Company's primary operating subsidiary's operations in the United States, had been affected by severely tightened liquidity during the past year, due in part to constrained trade credit terms, which increased during the fourth quarter, and ultimately hindered Real Alloy's ability to timely refinance its \$305 million 10% senior secured notes due January 2019 ("Senior Secured Notes") or to expand borrowing capacity under its asset-based lending facility. As a holding company, the Company relies on the operations of its subsidiaries and external financing sources for its liquidity needs. During 2017, the holding company's liquidity and financial position declined substantially. After an extensive review by the Company's Board of Directors, the Real Alloy Board of Directors, management, and advisors, a determination was made that it would be in the best interest of all stakeholders to initiate the Chapter 11 proceedings.

The Company reported a net loss available to common stockholders of \$105.9 million for the year ended December 31, 2016. Of that amount, \$61.8 million was attributed to a goodwill impairment charge taken during the fourth quarter. Through the nine months ended September 30, 2017, the Company reported a net loss available to common stockholders of \$61.1 million, compared to a loss of \$24.7 million in the prior year period as more fully discussed in the Company's Quarterly Report on Form 10-Q filed with the SEC on November 9, 2017. Management expects that the impact of the bankruptcy filing on our operations, impairment charges associated with goodwill, identifiable intangible assets, and property, plant and equipment, increases in interest expense, professional fees, and reorganization items, to result in a net loss to common stockholders for the year ended December 31, 2017 that will be greater than the net loss reported in 2016.

As noted above, the Company files copies of the Monthly Operating Reports filed with the Bankruptcy Court on Current Reports on Form 8-K with the SEC.

The foregoing information is based on the Company's preliminary estimates of its results of operations for the fiscal year ended December 31, 2017 and anticipated changes from the prior year period. The Company's estimates are subject to change, and actual results may differ significantly from these estimates.
