US dollar time series for the periods from 2015 to Q3 2018 of UBS Group AG consolidated

#### Basis of preparation of this US dollar information

Effective 1 October 2018 and as required by IAS 21, *The Effects of Changes in Foreign Exchange Rates*, the functional currency of UBS Group AG and UBS AG's Head Office in Switzerland has changed from Swiss francs to US dollars and the functional currency of UBS AG's London Branch operations has changed from British pounds to US dollars. In line with these changes, the presentation currency of UBS Group AG's and UBS AG's consolidated financial statements have changed from Swiss francs to US dollars. Prior periods have been restated for this presentation currency change. Prior period information is now presented as if we had always prepared our financial statements under a US dollar presentation currency. Assets, liabilities and total equity were converted to US dollars at historic closing exchange rates prevailing on the respective balance sheet dates, and income and expenses were translated at the respective average rates prevailing for the relevant periods.

The attached time series includes selected historical information previously disclosed in Swiss francs, which is now presented in US dollars. This time series information is unaudited and should be read in conjunction with UBS Group AG's audited consolidated financial statements included in the Annual Report 2017.

UBS will present current period financial data in US dollars for the first time in its fourth quarter 2018 report, which will be published on 21 January 2019. This information will include a full balance sheet, including components of equity, restated under a US dollar presentation currency. This information will also be subject to external audit as part of UBS Group AG's consolidated financial statements included in the Annual Report 2018. UBS expects to complement and update its US dollar time series information for the periods 2015 to 2018 together with the publication of its fourth quarter 2018 report.

The UBS Group AG third quarter 2018 report references changes in Corporate Center cost allocations and equity attribution to business divisions or changes to Corporate Center segment reporting, both of which are applicable as of the first quarter of 2019. The restated US dollar time series for the periods from 2015 to Q3 2018 included in this document does not incorporate the effect of these changes.
