TAYLOR MORRISON HOME CORPORATION

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BUSINESS

Organization and Description of the Business - Taylor Morrison Home Corporation (referred to herein as “TMHC,” “we,” “our,” “the Company” and “us”), through its divisions and segments, owns and operates a residential homebuilding business and is a developer of lifestyle communities. As of June 30, 2017, we operated in Arizona, California, Colorado, Florida, Georgia, Illinois, North Carolina, and Texas. Our Company serves a wide array of consumer groups from coast to coast, including first time, move-up, luxury, and 55 plus buyers. Our homebuilding company operates under our Taylor Morrison and Darling Homes brand names. Our business is organized into multiple homebuilding operating components, and a mortgage operating component, all of which are managed as four reportable segments: East, Central, West, and Mortgage Operations. The communities in our homebuilding segments offer single family attached and detached homes. We are the general contractors for all real estate projects and retain subcontractors for home construction and site development. Our Mortgage Operations reportable segment provides financial services to customers through our wholly owned mortgage subsidiary, operating as Taylor Morrison Home Funding, LLC (“TMHF”), and title services through our wholly owned title services subsidiary, Inspired Title Services, LLC (“Inspired Title”).

During the quarter ended March 31, 2017, we realigned our homebuilding operating divisions within our existing segments based on geographic location and management's long term strategic plans. As a result, all historical periods presented in the segment information have been reclassified to give effect to this segment realignment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation — The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Consolidated Financial Statements and accompanying notes included in our 2016 Annual Report on Form 10-K. In the opinion of management, the accompanying Unaudited Condensed Consolidated Financial Statements include all normal and recurring adjustments that are considered necessary for the fair presentation of our results for the interim periods presented. Results for interim periods are not necessarily indicative of results to be expected for a full fiscal year.

Unless otherwise stated, amounts are shown in U.S. dollars. Assets and liabilities recorded in foreign currencies are translated at the exchange rate on the balance sheet date, and revenues and expenses are translated at average rates of exchange prevailing during the period. Translation adjustments resulting from this process are recorded to accumulated other comprehensive loss in the Condensed Consolidated Balance Sheets and Condensed Consolidated Statement of Stockholders’ Equity.

Non-controlling interests – In connection with a series of transactions consummated at the time of the Company’s IPO (the “Reorganization Transactions”), the Company became the sole owner of the general partner of TMM Holdings II Limited Partnership (“New TMM”). As the sole owner of the general partner of New TMM, the Company exercises exclusive and complete control over New TMM. Consequently, the Company consolidates New TMM and records a non-controlling interest in the Condensed Consolidated Balance Sheets for the economic interests in New TMM, that are directly or indirectly held by a consortium of investors comprised of affiliates of TPG Global, LLC (the “TPG Entities” or “TPG”), investment funds managed by Oaktree Capital Management, L.P. (“Oaktree”) or their respective subsidiaries (the “Oaktree Entities”), and affiliates of JH Investments, Inc. (“JH” and together with the TPG Entities and Oaktree Entities, the “Principal Equityholders”) or by members of management and members of the Board of Directors. Refer to Note 11- Stockholders' Equity for discussion regarding our equity offering transactions during the six months ended June 30, 2017.

Reclassifications - Prior period amounts for cash, cash equivalents, and restricted cash on the Condensed Consolidated Statements of Cash Flows have been reclassified to conform with current period financial statement presentation as a result of adopting Accounting Standards Update ("ASU") 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash.

Use of Estimates — The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Significant estimates include real estate development costs to complete, valuation of real estate, valuation of acquired assets, valuation of goodwill, valuation of equity awards, valuation allowance on deferred tax assets and reserves for warranty and self-insured risks. Actual results could differ from those estimates.

Table of Contents

Non-controlling Interests – Principal Equityholders — Immediately prior to our IPO, as part of the Reorganization Transactions, the existing holders of limited partnership interests of TMM Holdings Limited Partnership (“TMM Holdings”) exchanged their limited partnership interests for limited partnership interests of New TMM (“New TMM Units”). For each New TMM Unit received in the exchange, the holders of New TMM Units also received a corresponding number of shares of our Class B Common Stock (the “Class B Common Stock”). Our Class B Common Stock has voting rights but no economic rights. One share of Class B Common Stock, together with one New TMM Unit, is exchangeable into one share of our Class A Common Stock in accordance with the terms of the Exchange Agreement, dated as of April 9, 2013, among the Company, New TMM and the holders of Class B Common Stock and New TMM Units.

During the six months ended June 30, 2017, we completed multiple sales of our Class A Common Stock in registered public offerings, totaling 41.5 million shares. We used all of the net proceeds from the public offerings to purchase partnership units in New TMM, our direct subsidiary, along with shares of our Class B Common Stock, held by our Principal Equityholders. As a result of all net proceeds being distributed to our Principal Equityholders, we adjusted Non-controlling interests - Principal Equityholders and Additional paid-in capital on the Condensed Consolidated Balance Sheets and Condensed Consolidated Statement of Stockholders' Equity to reflect the change in ownership. The aggregate number of partnership units and corresponding shares of Class B Common Stock we purchased was equal to the number of shares of Class A Common Stock sold in the public offerings. Refer to Note 11- Stockholders' Equity for discussion regarding our equity offering transactions during the six months ended June 30, 2017.

Real Estate Inventory —We assess the recoverability of our land inventory in accordance with the provisions of ASC Topic 360, “Property, Plant, and Equipment.” We review our real estate inventory for indicators of impairment by community during each reporting period. If indicators of impairment are present for a community, we first perform an undiscounted cash flow analysis to determine if the carrying value of the assets in that community exceeds the expected undiscounted cash flows. Generally, if the carrying value of the assets exceeds their estimated undiscounted cash flows, then the assets are deemed to be impaired and are recorded at fair value as of the assessment. Our determination of fair value is based on a discounted cash flow model which includes projections and estimates relating to sales prices, construction costs, sales pace, and other factors. Changes in these expectations may lead to a change in the outcome of our impairment analysis, and actual results may also differ from our assumptions. For the three and six months ended June 30, 2017 and 2016, no impairment charges were recorded.

Investments in Unconsolidated Entities —We evaluate our investments in unconsolidated entities for indicators of impairment. A series of operating losses of an investee or other factors may indicate that a decrease in value of our investment in the unconsolidated entity has occurred which is other-than-temporary. The amount of impairment recognized is the excess of the investment’s carrying amount over its estimated fair value. Additionally, we consider various qualitative factors to determine if a decrease in the value of the investment is other-than-temporary. These factors include age of the venture, stage in its life cycle, our intent and ability to recover our investment in the unconsolidated entity, financial condition and long-term prospects of the unconsolidated entity, short-term liquidity needs of the unconsolidated entity, trends in the general economic environment of the land, entitlement status of the land held by the unconsolidated entity, overall projected returns on investment, defaults under contracts with third parties (including bank debt), recoverability of the investment through future cash flows and relationships with the other partners. If the Company believes that the decline in the fair value of the investment is temporary, then no impairment is recorded. We did not record any impairment charges for the three and six months ended June 30, 2017 or 2016.

Revenue Recognition

Home closings revenue, net — Home closings revenue is recorded using the completed-contract method of accounting at the time each home is delivered, title and possession are transferred to the buyer, we have no significant continuing involvement with the home, risk of loss has transferred, the buyer has demonstrated sufficient investment in the

property, and the receivable, if any, from the homeowner or escrow agent is not subject to future subordination.

We typically grant our homebuyers certain sales incentives, including cash discounts, incentives on options included in the home, option upgrades, and seller-paid financing or closing costs. Incentives and discounts are accounted for as a reduction in the sales price of the home and home closings revenue is shown net of discounts. We also receive rebates from certain vendors and these rebates are accounted for as a reduction to cost of home closings.

Land closings revenue — Revenue from land sales is recognized when title is transferred to the buyer, there is no significant continuing involvement, and the buyer has demonstrated sufficient investment in the property sold. If the buyer has not made an adequate investment in the property, the profit on such sales is deferred until these conditions are met.

Table of Contents

Mortgage operations revenue — Loan origination fees (including title fees, points, closing costs) are recognized at the time the related real estate transactions are completed, usually upon the close of escrow. All of the loans TMHF originates are sold to third party investors within a short period of time, on a non-recourse basis. Gains and losses from the sale of mortgages are recognized in accordance with ASC Topic 860-20, “Sales of Financial Assets.” TMHF does not have continuing involvement with the transferred assets, therefore, we derecognize the mortgage loans at time of sale, based on the difference between the selling price and carrying value of the related loans upon sale, recording a gain/loss on sale in the period of sale. Also included in mortgage operations revenue/expenses is the realized and unrealized gains and loss from hedging instruments.

Recently Issued Accounting Pronouncements — In January 2017, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment (“ASU 2017-04”). ASU 2017-04 eliminates Step 2 from the goodwill impairment test. This change will allow an entity to avoid calculating the implied fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination, thus reducing the cost and complexity of evaluating goodwill for impairment. This amendment will be effective for us in our fiscal year beginning January 1, 2020. We are currently evaluating the impact the adoption of ASU 2017-04 will have on our condensed consolidated financial statements and disclosures.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business (“ASU 2017-01”). ASU 2017-01 provides clarification on the definition of a business by providing a screen to determine when a set of assets is not a business. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set of assets is not a business. This screen is expected to reduce the number of transactions that need to be further evaluated. This amendment will be effective for us in our fiscal year beginning January 1, 2018. As ASU 2017-01 is not retroactive, we do not believe such guidance will have a significant impact on our condensed consolidated financial statements and disclosures. Once adopted, we will evaluate the impact ASU 2017-01 will have on our condensed consolidated financial statements and disclosures in the event of future acquisitions.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) (“ASU 2016-02”). ASU 2016-02 primarily impacts off-balance sheet operating leases and will require such leases, with the exception of short-term leases, to be recorded on the balance sheet. Lessor accounting is not significantly impacted by the new guidance, however certain updates were made to align lessee and lessor treatment. ASU 2016-02 will be effective for us in our fiscal year beginning January 1, 2019. We do not believe the adoption of ASU 2016-02 will have a material impact on our condensed consolidated financial statements and disclosures.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”), which provides guidance for revenue recognition. ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets and supersedes the revenue recognition requirements in ASC Topic 605, Revenue Recognition, and most industry-specific guidance. This ASU also supersedes some cost guidance included in ASC Subtopic 605-35, Revenue Recognition-Construction-Type and Production-Type Contracts. The standard’s core principle is that an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. In doing so, entities will generally need to use more judgment and make more estimates than under current guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. ASU 2014-09 has been deferred and will be effective beginning January 1, 2018 and, at that time, we will adopt the new standard under the modified retrospective approach. We are currently conducting a company-wide initiative to prepare for implementation of this guidance. We do not believe the adoption of this pronouncement will have a material impact on our condensed consolidated financial statements and disclosures, except as it relates to the newly required transition disclosures and potential new revenue recognition footnote disclosures required by the new standard. We

also believe the adoption of this pronouncement will not materially affect our post-adoption revenue recognition since we have limited circumstances where we have separate performance obligations within our contracts.

3. BUSINESS COMBINATIONS

On January 8, 2016, we acquired Acadia Homes, an Atlanta based homebuilder, for total consideration of \$83.6 million (including \$19.7 million of seller financing holdbacks and contingent consideration). In accordance with ASC Topic 805, Business Combinations, all material assets and liabilities, including contingent consideration were measured and recognized at fair value as of the date of the acquisition to reflect the purchase price paid, which resulted in goodwill for the transaction.

Table of Contents

Unaudited pro forma results of the business combination as if Acadia Homes had been acquired on January 1, 2016 have not been provided as they are immaterial to the total Company's consolidated results of operations.

We determined the estimated fair value of real estate inventory on a community-by-community basis primarily using the sales comparison and income approaches. The sales comparison approach was used for all inventory in process. The income approach derives a value using a discounted cash flow for income-producing real property. This approach was used exclusively for finished lots. The income approach using discounted cash flows was also used to value lot option contracts acquired. These estimated cash flows and ultimate valuation are significantly affected by the discount rate, estimates related to expected average selling prices and sales incentives, expected sales paces and cancellation rates, expected land development and construction timelines, and anticipated land development, construction, and overhead costs, all of which may vary significantly between communities.

The Company performed a final allocation of purchase price as of the acquisition date for Acadia Homes. The following is a summary of the fair value of assets acquired, liabilities assumed, and liabilities created (in thousands):

(In thousands)	Acadia Homes
Acquisition Date	January 8, 2016
Assets acquired	
Real estate inventory	\$76,152

⁽¹⁾ Goodwill is fully deductible for tax purposes. The goodwill was allocated to our East homebuilding segment.

4. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing net income available to TMHC by the weighted average number of shares of Class A Common Stock outstanding during the period. Diluted earnings per share gives effect to the potential dilution that could occur if all shares of Class B Common Stock and their corresponding New TMM Units were exchanged for shares of Class A Common Stock and if all outstanding equity awards to issue shares of Class A Common Stock were exercised or settled.

The following is a summary of the components of basic and diluted earnings per share (in thousands, except per share amounts):

Table of Contents

Earnings per common share – diluted:				
Net income available to Taylor Morrison Home Corporation	\$0.46	\$0.37	\$0.76	\$0.58

We excluded a total weighted average of anti-dilutive 1,660,683 and 1,602,935 stock options and unvested restricted stock units (“RSUs”) and 1,926,724 and 2,361,178 stock options and unvested RSUs from the calculation of earnings per share for the three and six months ended June 30, 2017 and 2016, respectively.

The shares of Class B Common Stock have voting rights but do not have economic rights or rights to dividends or distributions on liquidation and therefore are not participating securities. Accordingly, Class B Common Stock is not included in basic earnings per share.

5. REAL ESTATE INVENTORY AND LAND DEPOSITS

Inventory consists of the following (in thousands):

	As of	
	June 30, 2017	December 31, 2016
Real estate developed and under development	\$2,155,644	\$2,074,651

Land Deposits — We provide deposits related to land options and land purchase contracts, which are capitalized when paid and classified as land deposits until the associated property is purchased.

As of June 30, 2017 and December 31, 2016, we had the right to purchase 7,331 and 7,583 lots under land option purchase contracts, respectively, for an aggregate purchase price of \$523.5 million and \$542.6 million as of June 30, 2017 and December 31, 2016, respectively. We do not have title to the properties, and the creditors generally have no recourse against the Company. As of June 30, 2017 and December 31, 2016, our exposure to loss related to our option contracts with third parties and unconsolidated entities consist of non-refundable option deposits totaling \$53.0 million and \$37.2 million, respectively, in land deposits related to land options and land purchase contracts.

Capitalized Interest — Interest capitalized, incurred and amortized is as follows (in thousands):

6. INVESTMENTS IN UNCONSOLIDATED ENTITIES

We have investments in a number of joint ventures with related and unrelated third parties, with ownership interests up to 50.0%. These entities are generally involved in real estate development, homebuilding and mortgage lending activities. Some of these joint ventures develop land for the sole use of the joint venture participants, including us, and others develop land for sale to the joint venture participants and to unrelated builders. Our share of the joint venture profit relating to lots we purchase from the joint ventures is deferred until homes are delivered by us and title passes to a homebuyer.

Summarized, unaudited combined financial information of unconsolidated entities that are accounted for by the equity method is as follows (in thousands):

2021 Senior Notes

On April 16, 2013, we issued \$550.0 million aggregate principal amount of 5.25% Senior Notes due 2021 (the “2021 Senior Notes”).

The 2021 Senior Notes mature on April 15, 2021. The 2021 Senior Notes are guaranteed by TMM Holdings, Taylor Morrison Holdings, Inc., Taylor Morrison Communities II, Inc. and their homebuilding subsidiaries (collectively, the “Guarantors”), which are all subsidiaries directly or indirectly of TMHC. The 2021 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The indenture for the 2021 Senior Notes contains covenants that limit (i) the making of investments, (ii) the payment of dividends and the redemption of equity and junior debt, (iii) the incurrence of additional indebtedness, (iv) asset dispositions, (v) mergers and similar corporate transactions, (vi) the incurrence of liens, (vii) prohibitions on payments and asset transfers among the issuers and restricted subsidiaries and (viii) transactions with affiliates, among others. The indenture governing the 2021 Senior Notes contains customary events of default. If we do not apply the net cash proceeds of certain asset sales within specified deadlines, we will be required to offer to repurchase the 2021 Senior Notes at par (plus accrued and unpaid interest) with such proceeds. We are also required to offer to repurchase the 2021 Senior Notes at a price equal to 101% of their aggregate principal amount (plus accrued and unpaid interest) upon certain change of control events.

The 2021 Senior Notes are redeemable at scheduled redemption prices, currently at 102.625%, of their principal amount (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2021 Senior Notes.

Table of Contents

2023 Senior Notes and Redemption of 2020 Senior Notes

On April 16, 2015, we issued \$350.0 million aggregate principal amount of 5.875% Senior Notes due 2023 (the “2023 Senior Notes”). The 2023 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The net proceeds of the offering, together with cash on hand, were used to redeem the entire remaining principal amount of 7.75% Senior Notes due 2020 (the “2020 Senior Notes”) on May 1, 2015, at a redemption price of 105.813% of their aggregate principal amount, plus accrued and unpaid interest thereon to, but not including, the date of redemption.

The 2023 Senior Notes mature on April 15, 2023. The 2023 Senior Notes are guaranteed by the same Guarantors that guarantee the 2021 Senior Notes. The indenture governing the 2023 Senior Notes contains covenants that limit our ability to incur debt secured by liens and enter into certain sale and leaseback transactions. The indenture governing the 2023 Senior Notes contains events of default that are similar to those contained in the indenture governing the 2021 Senior Notes. The change of control provisions in the indenture governing the 2023 Senior Notes are similar to those contained in the indenture governing the 2021 Senior Notes, but a credit rating downgrade must occur in connection with the change of control before the repurchase offer requirement is triggered for the 2023 Senior Notes.

Prior to January 15, 2023, the 2023 Senior Notes are redeemable at a price equal to 100% plus a “make-whole” premium for payments through January 15, 2023 (plus accrued and unpaid interest). Beginning January 15, 2023, the 2023 Senior Notes are redeemable at par (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2023 Senior Notes.

2024 Senior Notes

On March 5, 2014, we issued \$350.0 million aggregate principal amount of 5.625% Senior Notes due 2024 (the “2024 Senior Notes”). The net proceeds from the issuance of the 2024 Senior Notes were used to repay the outstanding balance under the Revolving Credit Facility and for general corporate purposes.

The 2024 Senior Notes mature on March 1, 2024. The 2024 Senior Notes are guaranteed by the same Guarantors that guarantee the 2021 and 2023 Senior Notes. The 2024 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The indenture governing the 2024 Senior Notes contains covenants that limit our ability to incur debt secured by liens and enter into certain sale and leaseback transactions similar to the 2023 Senior Notes. The indenture governing the 2024 Senior Notes contains events of default that are similar to those contained in the indenture governing the 2021 and 2023 Senior Notes. The change of control provisions in the indenture governing the 2024 Senior Notes are similar to those contained in the indenture governing the 2023 Senior Notes.

Prior to December 1, 2023, the 2024 Senior Notes are redeemable at a price equal to 100% plus a “make-whole” premium for payments through December 1, 2023 (plus accrued and unpaid interest). Beginning on December 1, 2023, the 2024 Senior Notes are redeemable at par (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2024 Senior Notes.

Revolving Credit Facility

Our \$500.0 million Revolving Credit Facility matures on April 12, 2019. The Revolving Credit Facility is guaranteed by the same Guarantors that guarantee the 2021, 2023 and 2024 Senior Notes.

The Revolving Credit Facility contains certain “springing” financial covenants, requiring us and our subsidiaries to comply with a maximum debt to capitalization ratio of not more than 0.60 to 1.00 and a minimum consolidated tangible net worth level of at least \$1.6 billion. The financial covenants would be in effect for any fiscal quarter during

which any (a) loans under the Revolving Credit Facility are outstanding during the last day of such fiscal quarter or on more than five separate days during such fiscal quarter or (b) undrawn letters of credit (except to the extent cash collateralized) issued under the Revolving Credit Facility in an aggregate amount greater than \$40.0 million or unreimbursed letters of credit issued under the Revolving Credit Facility are outstanding on the last day of such fiscal quarter or for more than five consecutive days during such fiscal quarter. For purposes of determining compliance with the financial covenants for any fiscal quarter, the Revolving Credit Facility provides that we may exercise an equity cure by issuing certain permitted securities for cash or otherwise recording cash contributions to our capital that will, upon the contribution of such cash to the borrower, be included in the calculation of consolidated tangible net worth and consolidated total capitalization. The equity cure right is exercisable up to twice in any period of four consecutive fiscal quarters and up to five times overall.

Table of Contents

The Revolving Credit Facility contains certain restrictive covenants including limitations on incurrence of liens, dividends and other distributions, asset dispositions and investments in entities that are not guarantors, limitations on prepayment of subordinated indebtedness and limitations on fundamental changes. The Revolving Credit Facility contains customary events of default, subject to applicable grace periods, including for nonpayment of principal, interest or other amounts, violation of covenants (including financial covenants, subject to the exercise of an equity cure), incorrectness of representations and warranties in any material respect, cross default and cross acceleration, bankruptcy, material monetary judgments, ERISA events with material adverse effect, actual or asserted invalidity of material guarantees and change of control. As of June 30, 2017, we were in compliance with all of the covenants under the Revolving Credit Facility.

Loans Payable and Other Borrowings

Loans payable and other borrowings as of June 30, 2017 and December 31, 2016 consist of project-level debt due to various land sellers and seller financing notes from current and prior year acquisitions. Project-level debt is generally secured by the land that was acquired and the principal payments generally coincide with corresponding project lot sales or a principal reduction schedule. Loans payable bear interest at rates that ranged from 0% to 8% at June 30, 2017 and December 31, 2016. We impute interest for loans with no stated interest rates.

9. FAIR VALUE DISCLOSURES

We have adopted ASC Topic 820, Fair Value Measurements, for valuation of financial instruments. ASC Topic 820 provides a framework for measuring fair value under GAAP, expands disclosures about fair value measurements, and establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the

use of unobservable inputs when measuring fair value. The three levels of the fair value hierarchy are summarized as follows:

Level 1 — Fair value is based on quoted prices for identical assets or liabilities in active markets.

Table of Contents

Level 2 — Fair value is determined using quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active or are directly or indirectly observable.

Level 3 — Fair value is determined using one or more significant inputs that are unobservable in active markets at the measurement date, such as a pricing model, discounted cash flow, or similar technique.

The fair value of our mortgage loans held for sale is derived from negotiated rates with partner lending institutions. The fair value of derivative assets includes interest rate lock commitments (“IRLCs”) and mortgage backed securities (“MBS”). The fair value of IRLCs is based on the value of the underlying mortgage loan, quoted MBS prices and the probability that the mortgage loan will fund within the terms of the IRLCs. We estimate the fair value of the forward sales commitments based on quoted MBS prices. The fair value of our mortgage warehouse borrowings, loans payable and other borrowings and the borrowings under our Revolving Credit Facility approximate carrying value due to their short term nature and variable interest rate terms. The fair value of our Senior Notes is derived from quoted market prices by independent dealers in markets that are not active. The fair value of the contingent consideration liability related to previous acquisitions was estimated using a Monte Carlo simulation model under the option pricing method. As the measurement of the contingent consideration is based primarily on significant inputs not observable in the market, it represents a Level 3 measurement. There were no changes to or transfers between the levels of the fair value hierarchy for any of our financial instruments as of June 30, 2017, when compared to December 31, 2016.

The carrying value and fair value of our financial instruments are as follows:

⁽¹⁾ Carrying value for Senior Notes, as presented, includes unamortized debt issuance costs. Debt issuance costs are not factored into the fair value calculation for the Senior Notes.

Fair value measurements are used for inventories on a nonrecurring basis when events and circumstances indicate that their carrying value is not recoverable. The following table presents the fair value for our inventories measured at fair value on a nonrecurring basis as of the period presented.

(Dollars in thousands)

Description:	Level in Fair Value Hierarchy	December 31, 2016
Inventories ⁽¹⁾	3	\$ 3,778

⁽¹⁾ During the year ended December 31, 2016, we recorded \$3.5 million of impairment charges.

As of June 30, 2017, the fair value for such inventories was not determined as there were no events and circumstances that indicated their carrying value is not recoverable.

10. INCOME TAXES

Our effective tax rate for the three and six months ended June 30, 2017 was 28.7% and 31.1%, respectively, compared to 32.6%

17

Table of Contents

and 32.8% for the same periods in 2016, respectively. For the three and six months ended June 30, 2017 and 2016, the effective tax rate differed from the U.S. federal statutory income tax rate primarily due to state income taxes, special deductions and credits relating to homebuilding activities, uncertain tax positions, and discrete tax adjustments related to certain deferred tax assets and liabilities.

At June 30, 2017 and December 31, 2016, we had \$13.7 million and \$7.8 million of cumulative gross unrecognized tax benefits, respectively. All unrecognized tax benefits, if recognized, would affect our effective tax rate. We had \$0.6 million and \$0.4 million of gross interest and penalties related to unrecognized tax positions accrued as of June 30, 2017 and December 31, 2016, respectively.

11. STOCKHOLDERS' EQUITY

Capital Stock — Holders of Class A Common Stock and Class B Common Stock are entitled to one vote for each share held on all matters submitted to stockholders for their vote or approval. The holders of Class A Common Stock and Class B Common Stock vote together as a single class on all matters submitted to stockholders for their vote or approval, except with respect to the amendment of certain provisions of the amended and restated Certificate of Incorporation that would alter or change the powers, preferences or special rights of the Class B Common Stock so as to affect them adversely. Such amendments must be approved by a majority of the votes entitled to be cast by the holders of the shares affected by the amendment, voting as a separate class, or as otherwise required by applicable law. The voting power of the outstanding Class B Common Stock (expressed as a percentage of the total voting power of all Common Stock) is equal to the percentage of partnership interests in New TMM not held directly or indirectly by TMHC.

During the six months ended June 30, 2017, we completed multiple sales of our Class A Common Stock in registered public offerings. We used all of the net proceeds from these public offerings to purchase partnership units in New TMM, our direct subsidiary, along with shares of our Class B Common Stock, held by our Principal Equityholders. As a result of net proceeds being distributed to our Principal Equityholders, we adjusted Non-controlling interests - Principal Equityholders and Additional paid-in capital on the Condensed Consolidated Balance Sheets to reflect the change in ownership. The aggregate number of partnership units and corresponding shares of Class B Common Stock we purchased was equal to the number of shares of Class A Common Stock sold in the public offerings. The following is a summary of the completed sales of our Class A Common Stock in registered public offerings. (Shares presented in thousands)

Closing date	Number of shares	Net purchase price per share
February 6, 2017	11,500	\$18.2875
March 27, 2017	10,000	20.7800
May 5, 2017	10,000	23.1200
June 27, 2017	10,000	23.3000

The components and respective voting power of outstanding TMHC Common Stock including the effects of the secondary offerings at June 30, 2017 are as follows:

	Shares Outstanding	Percentage
Class A Common Stock	72,492,923	60.5 %
Class B Common Stock	47,254,360	39.5 %
Total	119,747,283	100 %

Stock Repurchase Program

Our Board of Directors has authorized the repurchase of up to \$100.0 million of the Company's Class A Common Stock through December 31, 2017 in open market purchases, privately negotiated transactions or other transactions. The stock repurchase program is subject to prevailing market conditions and other considerations, including our liquidity, the terms of our

debt instruments, statutory requirements, planned land investment and development spending, acquisition and other investment opportunities and ongoing capital requirements. During the three and six months ended June 30, 2017, there were no shares repurchased. During the three and six months ended June 30, 2016, there were 1,333,873 and 1,671,633 shares repurchased for \$19.7 million and \$24.7 million, respectively. As of June 30, 2017, there was \$56.4 million available to be used for repurchases.

12. STOCK BASED COMPENSATION

Equity-Based Compensation

In April 2013, we adopted the Taylor Morrison Home Corporation 2013 Omnibus Equity Award Plan (the "Plan"). The Plan was most recently amended and restated in May 2017. The Plan provides for the grant of stock options, RSUs and other equity-based awards deliverable in shares of our Class A Common Stock. As of June 30, 2017, we had an aggregate of 8,978,206 shares of Class A Common Stock available for future grants under the Plan.

The following table provides information regarding the amount and components of stock-based compensation expense, all of which is included in general and administrative expenses in the accompanying Condensed Consolidated Statements of Operations (in thousands):

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2017	
Restricted stock units ⁽¹⁾	\$2,294	\$1,755	\$4,191	\$3,138
Stock options	1,188	1,061	2,146	2,018
New TMM units	356	381	513	761
Total stock compensation	\$3,838	\$3,197	\$6,850	\$5,917

⁽¹⁾ Includes compensation expense related to time-based RSUs and performance-based RSUs. Outstanding performance-based RSUs reflected in the table above are reported at target level of performance.

At June 30, 2017 and December 31, 2016, the aggregate unrecognized value of all outstanding stock-based compensation awards was approximately \$27.0 million and \$18.8 million, respectively.

Restricted Stock Units – The following table summarizes the time-based RSU and performance-based RSU activity for the six months ended June 30, 2017:

	Shares	Weighted Average Grant Date Fair Value
Balance at December 31, 2016	1,358,701	\$ 13.39
Granted	644,629	18.04
Vested	(76,585)	17.34
Forfeited	(37,559)	13.41
Balance at June 30, 2017	1,889,186	\$ 14.82

During the three and six months ended June 30, 2017, we issued time-based RSU awards and performance-based RSU awards to certain employees and members of the Board of Directors of the Company.

Our time-based RSUs consist of awards that settle in shares of Class A Common Stock and have been awarded to our employees and members of our Board of Directors. Vesting of these RSUs is subject to continued employment with TMHC or an affiliate, or continued service on the Board of Directors, through the applicable vesting dates. Time-based RSUs granted to employees generally become vested with respect to 33% of the RSUs on the second, third, and fourth anniversaries of the grant date. Time-based RSUs granted to members of the Board of Directors

generally become vested on the first anniversary of the grant date.

Additionally, we issued performance-based RSUs to certain employees of the Company. These awards will vest in full based on the achievement of certain performance goals over a three-year performance period, subject to the employee's continued employment through the date the Compensation Committee certifies the applicable level of performance achieved and will be settled in shares of our Class A Common Stock. The number of shares that may be issued in settlement of the performance-

based RSUs to the award recipients may be greater or lesser than the target award amount depending on actual performance achieved as compared to the performance targets set forth in the awards.

Stock Options – The following table summarizes the stock option activity for the six months ended June 30, 2017:

	Shares	Weighted Average Exercise Price Per Share
Outstanding at December 31, 2016	2,431,347	\$ 17.09
Granted	785,132	19.03
Exercised	(261,336)	18.12
Canceled/Forfeited	(54,912)	17.86
Outstanding at June 30, 2017	2,900,231	\$ 17.52
Options exercisable at June 30, 2017	918,087	\$ 19.62

Options granted to employees vest and become exercisable ratably on the second, third, fourth and fifth anniversary of the date of grant. Options granted to members of the Board of Directors vested and became exercisable ratably on the first, second and third anniversary of the date of grant. Vesting of the options is subject to continued employment with TMHC or an affiliate, or continued service on the Board of Directors, through the applicable vesting dates, and options expire within ten years from the date of grant.

New TMM Units – Certain members of management and certain members of the Board of Directors were issued Class M partnership units in TMM Holdings. Those units were subject to both time and performance vesting conditions.

Pursuant to the Reorganization Transactions, the time-vesting Class M Units in TMM Holdings were exchanged for New TMM Units with vesting terms substantially the same as the Class M Units surrendered for exchange. One New TMM Unit together with a corresponding share of Class B Common Stock is exchangeable for one share of Class A Common Stock. The shares of Class B Common Stock/New TMM Units held by members of management and members of our Board of Directors as of June 30, 2017 were as follows:

	Class B Shares/New TMM Units	Weighted Average Grant Date Fair Value
Balance at December 31, 2016	1,146,357	\$ 5.58
Exchanges ⁽¹⁾	(186,100)	5.27
Forfeited ⁽²⁾	(1,592)	8.04
Balance at June 30, 2017 ⁽³⁾	958,665	\$ 5.64

⁽¹⁾ Exchanges during the period represent the exchange of a vested New TMM Unit along with the corresponding share of Class B Common Stock for a newly issued share of Class A Common Stock.

⁽²⁾ Awards forfeited during the period represent the unvested portion of New TMM Unit awards for employees who have terminated employment with the Company and for which the New TMM Unit and the corresponding Class B Share have been canceled.

⁽³⁾ The number of vested and unexchanged New TMM Units as of June 30, 2017 was 936,695.

13. RELATED-PARTY TRANSACTIONS

From time to time, we may engage in transactions with entities or persons that are affiliated with us or one or more of the Principal Equityholders. Such transactions with related parties are typically conducted in the normal course of operations and are generally executed at arm's length, as they are entered into at terms comparable to those entered into with unrelated third parties. For the three and six months ended June 30, 2017, we engaged in equity offering transactions with our principal equityholders. Refer to Note 11 - Stockholders' Equity for discussion regarding such

transactions. During the three months ended June 30, 2017, we entered into a contract to purchase 140 home lots in Tustin, California for a total purchase price of \$30.0 million from Intracorp Companies, which is owned and controlled by a member of the Board of Directors. For the three and six months ended June 30, 2016 there were no related-party transactions.

15. REPORTING SEGMENTS

We have multiple homebuilding operating components which are engaged in the business of acquiring and developing land, constructing homes, marketing and selling those homes, and providing warranty and customer service. We aggregate our homebuilding operating components into three reporting segments, East, Central, and West, based on similar long-term economic characteristics. We also have a mortgage and title services reporting segment. We have no inter-segment sales as all sales are to external customers.

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

During the quarter ended March 31, 2017, we realigned our homebuilding operating divisions within our existing segments based on geographic location and management's long term strategic plans. As a result, all historical periods presented in the segment information have been reclassified to give effect to this segment realignment.

Our reporting segments are as follows:

16. COMMITMENTS AND CONTINGENCIES

Letters of Credit and Surety Bonds — We are committed, under various letters of credit and surety bonds, to perform certain development and construction activities and provide certain guarantees in the normal course of business. Outstanding letters of credit and surety bonds under these arrangements totaled \$310.5 million and \$302.8 million as of June 30, 2017 and December 31, 2016, respectively. Although significant development and construction activities have been completed related to these site improvements, the bonds are generally not released until all development and construction activities are completed. We do not believe that it is probable that any outstanding bonds as of June 30, 2017 will be drawn upon.

Legal Proceedings — We are involved in various litigation and legal claims in the normal course of our business operations, including actions brought on behalf of various classes of claimants. We are also subject to a variety of local, state, and federal laws and regulations related to land development activities, house construction standards, sales practices, mortgage lending operations, employment practices, and protection of the environment. As a result, we are subject to periodic examination or inquiry by various governmental agencies that administer these laws and regulations. We establish liabilities for legal claims and regulatory matters when such matters are both probable of occurring and any potential loss is reasonably estimable. At June 30, 2017 and December 31, 2016, our legal accruals were \$3.1 million and \$4.4 million, respectively. We accrue for such matters based on the facts and circumstances specific to each matter and revise these estimates as the matters evolve. In such cases, there may exist an exposure to

loss in excess of any amounts currently accrued. In view of the inherent difficulty of predicting the outcome of these legal and regulatory matters, we generally cannot predict the ultimate resolution of the pending matters, the related timing or the eventual loss. While the outcome of such contingencies cannot be predicted with certainty, we do not believe that the resolution of such matters will have a material adverse impact on our results of operations, financial position, or cash flows. However, to the extent the liability arising from the ultimate resolution of any matter exceeds the estimates reflected in the recorded reserves relating to such matter, we could incur additional charges that could be significant.

17. MORTGAGE HEDGING ACTIVITIES

We enter into IRLCs to originate residential mortgage loans held for sale, at specified interest rates and within a specified period of time (generally between 30 and 60 days), with customers who have applied for a loan and meet certain credit and underwriting criteria. These IRLCs meet the definition of a derivative and are reflected on the balance sheet at fair value with changes in fair value recognized in mortgage operations revenue/expenses on the statement of operations and other comprehensive income. Unrealized gains and losses on the IRLCs, reflected as derivative assets, are measured based on the fair value of the underlying mortgage loan, quoted Agency MBS prices, estimates of the fair value of the mortgage servicing rights (“MSRs”) and the probability that the mortgage loan will fund within the terms of the IRLC, net of commission expense and broker fees. The fair value of the forward loan sales commitment and mandatory delivery commitments being used to hedge the IRLCs and mortgage loans held for sale not committed to be purchased by investors are based on quoted Agency MBS prices.

The following summarizes derivative instruments as of the periods presented:

	As of			
	June 30, 2017		December 31, 2016	
(Dollars in thousands)	Fair Value	Notional Amount	Fair Value	Notional Amount
IRLCs	\$1,587	\$75,538	\$1,987	\$61,655
MBSs	210	104,010	304	97,000
Total	\$1,797		\$2,291	

Total commitments to originate loans approximated \$120.3 million as of June 30, 2017. This amount represents the commitments to originate loans for both best efforts and mandatory loans that have been locked and approved by underwriting. The notional amount in the table above includes only mandatory loans, that have been locked and approved by underwriting.

We have exposure to credit loss in the event of contractual non-performance by our trading counterparties in derivative instruments that we use in our rate risk management activities. We manage this credit risk by selecting only counterparties that we believe to be financially strong, spreading the risk among multiple counterparties, by placing contractual limits on the amount of unsecured credit extended to any single counterparty, and by entering into netting agreements with counterparties, as appropriate. Commitments to originate loans do not necessarily reflect future cash requirements as some commitments are expected to expire without being drawn upon.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For purposes of this “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the terms “the Company,” “we,” “us,” or “our” refer to Taylor Morrison Home Corporation (“TMHC”) and its subsidiaries. The Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our condensed consolidated financial statements included elsewhere in this quarterly report.

Forward-Looking Statements

This quarterly report includes certain forward-looking statements within the meaning of the federal securities laws regarding, among other things, our or management’s intentions, plans, beliefs, expectations or predictions of future events, which are considered forward-looking statements. You should not place undue reliance on those statements because they are subject to numerous uncertainties and factors relating to our operations and business environment, all

of which are difficult to predict and many of which are beyond our control. Forward-looking statements include information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as “may,” “will,” “should,” “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “can,” “could,” “might,” “project” or similar expressions. These statements are based upon assumptions that we have made in light of our experience in the industry, as well as our perceptions of historical trends, current conditions, expected future developments and other factors that we believe are appropriate under the circumstances. As you read this quarterly report, you should understand that these statements are not guarantees of performance or results. They involve known and unknown risks, uncertainties and assumptions, including those described under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016

Business Overview

Our principal business is residential homebuilding and the development of lifestyle communities with operations in Arizona, California, Colorado, Florida, Georgia, Illinois, North Carolina and Texas. Our Company serves a wide array of consumer groups from coast to coast, including first time, move-up, luxury and 55 plus buyers. Our homebuilding business operates under our Taylor Morrison and Darling Homes brand names. Our business is organized into multiple homebuilding operating components, and a mortgage operating component, all of which are managed as four reportable segments: East, Central, West and Mortgage Operations, as follows:

East	Atlanta, Charlotte, Chicago, Orlando, Raleigh, Southwest Florida and Tampa
Central	Austin, Dallas and Houston (both include a Taylor Morrison division and a Darling Homes division), and Denver
West	Bay Area, Phoenix, Sacramento and Southern California
Mortgage Operations	Taylor Morrison Home Funding (“TMHF”) and Inspired Title Services, LLC (“Inspired Title”)

During the quarter ended March 31, 2017, we realigned our homebuilding operating divisions within our existing segments based on geographic location and management's long term strategic plans. As a result, all historical periods presented in the segment information have been reclassified to give effect to this segment realignment.

We offer single family attached and detached homes, and revenue is recognized when the homes are completed and delivered to the buyers. Our primary costs are the acquisition of land in various stages of development and the construction costs of the homes we sell.

Our Mortgage Operations reportable segment provides mortgage services to customers through our wholly owned mortgage subsidiary, TMHF, and title services through our wholly owned title services subsidiary, Inspired Title. Revenues from loan origination are recognized at the time the related real estate transactions are completed, usually upon the close of escrow.

Recent Developments

During the six months ended June 30, 2017, we completed multiple sales of our Class A Common Stock in registered public offerings, totaling 41.5 million shares. We used all of the net proceeds from the public offerings to purchase partnership units in TMM Holdings II Limited Partnership (“New TMM”), our direct subsidiary, along with shares of our Class B Common Stock, held by our Principal Equityholders. The aggregate number of partnership units and corresponding shares of Class B Common Stock we purchased was equal to the number of shares of Class A Common Stock sold in the public offerings. Refer to Note 11- Stockholders' Equity for discussion regarding our equity offering transactions during the six months ended June 30, 2017.

Average active selling communities for the three and six months ended June 30, 2017 decreased by 6.7% and 5.1%, respectively, when compared to the same periods in the prior year. The decreases were primarily driven by our West region, which experienced higher than expected net sales orders in the first quarter of 2017, resulting in an increase in community close outs. In addition, the timing of new community openings in our other regions and higher than expected net sales order pace which led to increased community close-outs, were also a drivers for the overall decreases. During the period from July 2016 to June 2017, we closed approximately 70 communities and opened approximately 50 communities throughout the Company.

⁽¹⁾ Net sales orders represent the number and dollar value of new sales contracts executed with customers, net of cancellations.

East:

The number of net sales orders increased by 28.0% and 34.7%, respectively, for the three and six months ended June 30, 2017 compared to the prior year. Sales value of homes increased by 26.4% and 34.4%, respectively, for the same comparative periods. The increase in both units and sales value for the three and six months ended June 30, 2017 compared to the prior year is primarily driven by our acquired divisions, particularly in our Atlanta market where demand for first-time homebuyer

communities with lower average selling prices remains high. Our markets in Florida continue to experience favorable demand especially in active adult communities.

Central:

The number of net sales orders increased by 21.3% and 24.4%, respectively, for the three and six months ended June 30, 2017 compared to the prior year. Sales value of homes increased by 25.8% and 25.7%, respectively, for the same comparative periods. A significant portion of the increase reflects the Houston market improvement from the prior year's soft economic environment. Other markets within this region continue to strengthen their performance and contributed to the overall increase in units and dollars for the segment as well.

West:

The value of net sales orders increased by 5.8% and 19.7%, respectively, for the three and six months ended June 30, 2017 compared to the prior year. The number of net homes sold remained relatively flat for three months ended June 30, 2017, compared to the prior year and increased by 11.5% for the six months ended June 30, 2017, compared to the prior period. The markets in this region are showing continued strength as evidenced by an increase in the average selling price, which increased by 7.2% and 7.4%, respectively, for the three and six months ended June 30, 2017, compared to the prior year.

Total Company	10.4%	12.8%	10.7%	13.2%

⁽¹⁾ Cancellation rate represents the number of canceled sales orders divided by gross sales orders.

The primary driver for the decrease in the consolidated cancellation rate for the six months ended June 30, 2017 compared to the prior year related to the Central region. As the Houston market recovers from its previous economic conditions relating to the oil industry, the number of cancellations has decreased while the number of gross sales has increased, resulting in significant improvements in the cancellation rate. In addition, favorable market conditions coupled with increased demand for new housing has led to lower cancellation rates across the majority of our markets. The total Company cancellation rate was sequentially better in the three months ended June 30, 2017 compared to the first quarter of 2017. Our use of prequalification criteria through TMHF and robust earnest money deposits has helped manage our cancellation rate across the company.

(1) Sales order backlog represents homes under contract for which revenue has not yet been recognized at the end of the period (including homes sold but not yet started). Some of the contracts in our sales order backlog are subject to contingencies including mortgage loan approval and buyers selling their existing homes, which can result in cancellations.

Total backlog units and total sales value increased by 21.9% and 21.7% at June 30, 2017 compared to June 30, 2016, respectively. The increase in backlog units and total sales value is primarily as a result of the combination of increased sales orders and decreased cancellation rate. Our sales growth in units increased at the same relative pace as the increase in sales value, resulting in a flat average selling price, as we saw continued success among all regions in our homebuilding segments.

East:

The number of homes closed increased by 11.3% and 22.1%, respectively, for the three and six months ended June 30, 2017 compared to the prior year, and home closings revenue, net increased by 18.7% and 29.3%, respectively, for the same comparative periods. Our Florida markets were the primary drivers for both units and dollars as a result of increased net sales in prior quarters. In addition, our other divisions in the East region, continued to gain momentum as exemplified by their approximate 17% increase in homes closed for the six months ended June 30, 2017, compared to the prior year. Certain economic market improvements, as well as a continued favorable homebuyer reception of newer products and newer communities throughout the region, contributed to the increase in net home closings revenue.

Central:

For the three months ended June 30, 2017 when compared to the prior period, the number of homes closed decreased by 2.6%, while home closings revenue, net remained flat. For the six months ended June 30, 2017 when compared to the prior period, we experienced a decrease in both homes closed and home closings revenue, net, primarily as a result of the activity in the Houston market. This market has experienced an increase in net sales as a result of the improving economic environment, but homes closed and homes closing revenue have not yet improved as a result of timing.

West:

The number of homes closed and home closings revenue, net increased by 5.8% and 12.4% for the six months ended June 30, 2017 compared to the prior year. The increases are primarily driven by strong sales in our Phoenix division and markets within Northern California which continue to experience strong consumer demand as a result of increased job growth in those areas.

The number of homes closed for the for the three months ended June 30, 2017 compared to the prior year, decreased by 3.1%, however home closings revenue net increased by 3.9%, for the same comparative periods, as a result of continuously strong average sales prices in the majority of our markets within this region.

We generally purchase land and lots with the intent to build and sell homes. However, in some locations where we act as a developer, we occasionally purchase land that includes commercially zoned parcels or areas designated for school or government use, which we typically sell to commercial developers or municipalities, as applicable. We also sell residential lots or land parcels to manage our land and lot supply on larger tracts of land. As a developer, we may include land sales in our underwriting strategies in many of our master plan communities where we may mitigate risk, enhance our returns or pursue opportunities allowing access to new land positions. Land and lot sales occur at various intervals and varying degrees of profitability. Therefore, the revenue and gross margin from land closings will fluctuate from period to period, depending upon market opportunities.

The primary drivers for these increases is our Florida markets, which experienced an increase in net sales in the prior quarters and maintained strong

selling prices, contributing to an overall increase in net home closing revenue. Favorable homebuyer reception of our products offered in our East communities of our divisions further contributed to the increase as shown in the increase in net home closing revenue.

Central:

Home closings gross margin percentage increased to 18.1% from 17.4% for the three months ended June 30, 2017 and 2016, respectively, and to 18.0% from 17.7% for the six months ended June 30, 2017 and 2016, respectively. Much of the increase was due to lower construction costs in Austin. Additionally, many of our Denver communities experienced greater than expected price appreciation, and their newly opened communities offered higher margins than the market's average margin.

West:

Home closings gross margin percentage decreased to 15.9% from 17.0% for the three months ended June 30, 2017 and 2016 respectively, and to 15.9% from 16.6%, for the six months ended June 30, 2017 and 2016, respectively. The decrease is primarily due to product mix and an increase in costs of goods sold as a result of the homes closed in 2017 having higher land cost than those closed in 2016.

Mortgage Operations

Our Mortgage Operations segment provides mortgage lending through our subsidiary, TMHF, and title services through our subsidiary, Inspired Title. The following is a summary of mortgage operations gross margin:

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2017	2016	June 30, 2017	2016
Mortgage operations revenue	\$15,634	\$13,498	\$29,883	\$23,136
Mortgage operations expenses	10,102	8,193	18,804	14,717
Mortgage operations gross margin	\$5,532	\$5,305	\$11,079	\$8,419
Mortgage operations margin %	35.4	% 39.3	% 37.1	% 36.4

Our Mortgage Operations segment's revenue increased primarily due to increased closings volume, average loan amounts, and strong capture rates. The decrease in mortgage operations margin for the three months ended June 30, 2017 compared to the prior year period was due to an increase in employee-related costs to accommodate an increase in new loan activity. The increase in mortgage operations margin for the six months ended June 30, 2017 compared to the prior year period was due to improvements in the gain on sale of loans due to better investor pricing from our mandatory loan commitments model.

The following details the number of loans closed, the aggregate value and capture rate on our loans for the following periods:

	Closed Loans	Aggregate Loan Volume (in millions)	Capture Rate	Average FICO
Three Months Ended June 30, 2017	1,114	\$ 379.2	76 %	745
Three Months Ended June 30, 2016	1,096	\$ 373.4	80 %	744

rate for both the three and six months ended June 30, 2017 compared to the same periods in the prior year is primarily due to increased competition for new home mortgages.

Sales, Commissions and Other Marketing Costs

Sales, commissions and other marketing costs, as a percentage of home closings revenue, net, decreased to 6.9% from 7.1% and to 7.1% from 7.3% respectively, for the three and six months ended June 30, 2017 compared to the same periods in 2016. This decrease is primarily a result of our increased efforts in efficient marketing and advertising. In addition, the prior year period had higher sales and marketing costs as a result of our acquired divisions and an increase in new communities which typically have incremental startup costs during their early stages.

General and Administrative Expenses

General and administrative expenses as a percentage of home closings revenue, net, remained flat at 3.8% for the three months ended June 30, 2017 compared to the prior year and decreased slightly to 4.1% from 4.2% for the six months ended June 30, 2017 and 2016, respectively. During the prior year periods, we made investments in our Company for future business optimization and we continue to utilize our scalable platform, providing leverage with existing infrastructure to maintain stable operating costs.

Equity in Income of Unconsolidated Entities

Equity in income of unconsolidated entities was \$3.1 million and \$2.3 million for the three months ended June 30, 2017 and 2016, respectively, and \$4.2 million and \$3.1 million for the six months ended June 30, 2017 and 2016, respectively. The increase is primarily due to our increase in active unconsolidated joint ventures. We had six active unconsolidated joint ventures at June 30, 2017 compared to five active unconsolidated joint ventures at June 30, 2016.

Interest Income, Net

Interest income, net was \$89 thousand and \$15 thousand for the three months ended June 30, 2017 and 2016, respectively, and \$179 thousand and \$102 thousand for the six months ended June 30, 2017 and 2016, respectively. Interest income, net includes interest earned on cash balances offset by interest incurred but not capitalized on our long-term debt and other borrowings.

Other Expense, Net

Other expense, net was \$0.8 million and \$3.4 million, for the three months ended June 30, 2017 and 2016, respectively, and \$0.4 million and \$6.7 million for the six months ended June 30, 2017 and 2016, respectively. The three and six months ended June 30, 2016 included accruals for contingent consideration relating to our acquisitions during 2016, earn out accruals for our previous Darling Homes acquisition, and pre-acquisition costs on abandoned land projects.

Income Tax Provision

Our effective tax rate for the three and six months ended June 30, 2017 was 28.7% and 31.1%, respectively, compared to 32.6% and 32.8% for the same periods in 2016, respectively. The effective tax rate for the three and six months ended June 30, 2017 was favorably impacted by discrete tax adjustments related to certain deferred tax assets and liabilities and prior and current year federal energy tax credits.

Net Income

Net income and diluted earnings per share for the three months ended June 30, 2017 was \$55.7 million and \$0.46, respectively. Net income and diluted earnings per share for the three months ended June 30, 2016 was \$45.4 million and \$0.37, respectively. The increase in net income and earnings per share from the prior year is attributable to an increase in margin dollars as a result of an increase in the number of homes closed, decrease in sales, commissions, and other marketing costs as a percentage of home closings revenue, net and a decrease in our effective tax rate.

Liquidity and Capital Resources

Liquidity

We finance our operations through the following:

Borrowings under our Revolving Credit Facility (as defined below);

32

Table of Contents

- Our various series of Senior Notes (as defined below);
- Mortgage warehouse facilities;
- Project-level financing (including non-recourse loans);
- Performance, payment and completion surety bonds, and letters of credit; and
- Cash generated from operations.

We believe that we can fund our current and foreseeable liquidity needs for the next 12 months from:

- Cash generated from operations; and
- Borrowings under our Revolving Credit Facility.

We may also access the capital markets to obtain additional liquidity through debt and equity offerings on an opportunistic basis. Our principal uses of capital for the six months ended June 30, 2017 and 2016 were land purchases, lot development, home construction, operating expenses, payment of debt service, income taxes, investments in joint ventures, stock repurchases, and the payment of various liabilities. In addition, all net proceeds from our four equity offerings during the six months ended June 30, 2017, were used to purchase partnership units in New TMM, our direct subsidiary, along with shares of our Class B common stock, held by our Principal Equityholders. Cash flows for each of our communities depend on the status of the development cycle, and can differ substantially from reported earnings. Early stages of development or expansion require significant cash expenditures for land acquisitions, on and off-site development, construction of model homes, general landscaping and other amenities. Because these costs are a component of our inventory and are not recognized in our statement of operations until a home closes, we incur significant cash outflows prior to recognition of earnings.

The table below summarizes our total cash and liquidity as of the dates indicated (in thousands):

(Dollars in thousands)	As of	
	June 30, 2017	December 31, 2016
Total Cash, including Restricted Cash	\$248,088	\$301,812
Total Revolving Credit Facility	500,000	500,000
Letters of Credit Outstanding	(31,984)	(31,903)
Revolving Credit Facility Borrowings Outstanding	—	—
Revolving Credit Facility Availability	468,016	468,097
Total Liquidity	\$716,104	\$769,909

Cash Flow Activities

Operating Cash Flow Activities

Our net cash provided by operating activities was \$100.0 million for the six months ended June 30, 2017 compared to \$65.7 million provided by operating activities for the six months ended June 30, 2016. The primary driver of the current period's cash provided by operating activities was an increase in the number of homes closed, resulting in an increase in net income, a decrease in mortgage loans held for sale and cash generated therefrom and an increase in customer deposits as a result of higher sales volume.

Investing Cash Flow Activities

Edgar Filing: Taylor Morrison Home Corp - Form 10-Q

Net cash used in investing activities was \$21.2 million for the six months ended June 30, 2017, as compared to net cash used in investing activities of \$73.0 million for the six months ended June 30, 2016. The primary driver of the change between periods was the 2016 acquisition of Acadia Homes for \$52.8 million.

Financing Cash Flow Activities

Net cash used in financing activities was \$132.5 million for the six months ended June 30, 2017, as compared to net cash provided by financing activities of \$13.0 million for the six months ended June 30, 2016. The cash used in financing activities in 2017 was primarily attributable to repayments on the mortgage warehouse lines exceeding borrowings stemming from the

seasonal decline in mortgage receivables. In 2016, cash provided by financing activities was primarily attributable to borrowings on the Revolving Credit Facility.

Debt Instruments

Senior Notes:

The following table summarizes our outstanding senior unsecured notes (collectively, the “Senior Notes”) as of June 30, 2017.

(Dollars in thousands)	Date Issued	Principal Amount	Initial Offering Price		Interest Rate	Original Net Proceeds	Original Debt Issuance Cost
Senior Notes due 2021	April 16, 2013	550,000	100.0	%	5.250	% 541,700	8,300
Senior Notes due 2023	April 16, 2015	350,000	100.0	%	5.875	% 345,500	4,500
Senior Notes due 2024	March 5, 2014	350,000	100.0	%	5.625	% 345,300	4,700
Total		\$1,250,000				\$1,232,500	\$ 17,500

2021 Senior Notes

On April 16, 2013, we issued \$550.0 million aggregate principal amount of 5.25% Senior Notes due 2021 (the “2021 Senior Notes”).

The 2021 Senior Notes mature on April 15, 2021. The 2021 Senior Notes are guaranteed by TMM Holdings, Taylor Morrison Holdings, Inc., Taylor Morrison Communities II, Inc. and their homebuilding subsidiaries (collectively, the “Guarantors”) which are all subsidiaries directly or indirectly of TMHC. The 2021 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The indenture for the 2021 Senior Notes contains covenants that limit (i) the making of investments, (ii) the payment of dividends and the redemption of equity and junior debt, (iii) the incurrence of additional indebtedness, (iv) asset dispositions, (v) mergers and similar corporate transactions, (vi) the incurrence of liens, (vii) prohibitions on payments and asset transfers among the issuers and restricted subsidiaries and (viii) transactions with affiliates, among others. The indenture governing the 2021 Senior Notes contains customary events of default. If we do not apply the net cash proceeds of certain asset sales within specified deadlines, we will be required to offer to repurchase the 2021 Senior Notes at par (plus accrued and unpaid interest) with such proceeds. We are also required to offer to repurchase the 2021 Senior Notes at a price equal to 101% of their aggregate principal amount (plus accrued and unpaid interest) upon certain change of control events.

The 2021 Senior Notes are redeemable at scheduled redemption prices, currently at 102.625%, of their principal amount (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2021 Senior Notes.

2023 Senior Notes and Redemption of 2020 Senior Notes

On April 16, 2015, we issued \$350.0 million aggregate principal amount of 5.875% Senior Notes due 2023 (the “2023 Senior Notes”). The 2023 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The net proceeds of the offering, together with cash on hand, were used to redeem the entire remaining principal amount of 7.75% Senior Notes due 2020 on May 1, 2015, at a redemption price of 105.813% of their aggregate principal amount, plus accrued and unpaid interest thereon to, but not including, the date of redemption.

The 2023 Senior Notes mature on April 15, 2023. The 2023 Senior Notes are guaranteed by the same Guarantors that guarantee the 2021 Senior Notes. The indenture governing the 2023 Senior Notes contains covenants that limit our ability to incur debt secured by liens and enter into certain sale and leaseback transactions. The indenture governing the 2023 Senior Notes contains events of default that are similar to those contained in the indenture governing the 2021 Senior Notes. The change of control provisions in the indenture governing the 2023 Senior Notes are similar to those contained in the indenture governing the 2021 Senior Notes, but a credit rating downgrade must occur in connection with the change of control before the repurchase offer requirement is triggered for the 2023 Senior Notes.

Table of Contents

Prior to January 15, 2023, the 2023 Senior Notes are redeemable at a price equal to 100% plus a “make-whole” premium for payments through January 15, 2023 (plus accrued and unpaid interest). Beginning January 15, 2023, the 2023 Senior Notes are redeemable at par (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2023 Senior Notes.

2024 Senior Notes

On March 5, 2014, we issued \$350.0 million aggregate principal amount of 5.625% Senior Notes due 2024 (the “2024 Senior Notes”). The net proceeds from the issuance of the 2024 Senior Notes were used to repay the outstanding balance under the Revolving Credit Facility and for general corporate purposes.

The 2024 Senior Notes mature on March 1, 2024. The 2024 Senior Notes are guaranteed by the same Guarantors that guarantee the 2021 and 2023 Senior Notes. The 2024 Senior Notes and the related guarantees are senior unsecured obligations and are not subject to registration rights. The indenture governing the 2024 Senior Notes contains covenants that limit our ability to incur debt secured by liens and enter into certain sale and leaseback transactions similar to the 2023 Senior Notes. The indenture governing the 2024 Senior Notes contains events of default that are similar to those contained in the indenture governing the 2021 and 2023 Senior Notes. The change of control provisions in the indenture governing the 2024 Senior Notes are similar to those contained in the indenture governing the 2023 Senior Notes.

Prior to December 1, 2023, the 2024 Senior Notes are redeemable at a price equal to 100% plus a “make-whole” premium for payments through December 1, 2023 (plus accrued and unpaid interest). Beginning on December 1, 2023, the 2024 Senior Notes are redeemable at par (plus accrued and unpaid interest).

There are no financial maintenance covenants for the 2024 Senior Notes.

TMHC Compared to TMM Holdings

TMM Holdings is a parent guarantor of certain of our debt facilities. The financial information of TMHC is substantially identical to the financial performance and operations of TMM Holdings except for certain SEC and regulatory fees which are attributable to TMHC.

Revolving Credit Facility

Our \$500.0 million Revolving Credit Facility matures on April 12, 2019. The Revolving Credit Facility is guaranteed by the same Guarantors that guarantee the 2021, 2023, and 2024 Senior Notes.

The Revolving Credit Facility contains certain “springing” financial covenants, requiring us and our subsidiaries to comply with a maximum debt to capitalization ratio of not more than 0.60 to 1.00 and a minimum consolidated tangible net worth level of at least \$1.6 billion. The financial covenants would be in effect for any fiscal quarter during which any (a) loans under the Revolving Credit Facility are outstanding during the last day of such fiscal quarter or on more than five separate days during such fiscal quarter or (b) undrawn letters of credit (except to the extent cash collateralized) issued under the Revolving Credit Facility in an aggregate amount greater than \$40.0 million or unreimbursed letters of credit issued under the Revolving Credit Facility are outstanding on the last day of such fiscal quarter or for more than five consecutive days during such fiscal quarter. For purposes of determining compliance with the financial covenants for any fiscal quarter, the Revolving Credit Facility provides that we may exercise an equity cure by issuing certain permitted securities for cash or otherwise recording cash contributions to our capital that will, upon the contribution of such cash to the borrower, be included in the calculation of consolidated tangible net worth and consolidated total capitalization. The equity cure right is exercisable up to twice in any period of four consecutive fiscal quarters and up to five times overall.

The Revolving Credit Facility contains certain restrictive covenants including limitations on incurrence of liens, dividends and other distributions, asset dispositions and investments in entities that are not guarantors, limitations on prepayment of subordinated indebtedness and limitations on fundamental changes. The Revolving Credit Facility contains customary events of default, subject to applicable grace periods, including for nonpayment of principal, interest or other amounts, violation of covenants (including financial covenants, subject to the exercise of an equity cure), incorrectness of representations and warranties in any material respect, cross default and cross acceleration, bankruptcy, material monetary judgments, ERISA events with material adverse effect, actual or asserted invalidity of material guarantees and change of control. As of June 30, 2017, we were in compliance with all of the covenants under the Revolving Credit Facility.

Mortgage Warehouse Borrowings

The following is a summary of our mortgage subsidiary warehouse borrowings:

Facility	As of June 30, 2017		Interest Rate	Expiration Date	Collateral ⁽¹⁾
	Amount	Facility			
Flagstar	\$8,827	\$ 20,000	LIBOR + 2.5%	30 days written notice	Mortgage Loans
Comerica	17,419	50,000	LIBOR + 2.25%	November 16, 2017	Mortgage Loans
J.P. Morgan	36,904	100,000	LIBOR + 2.375%	September 26, 2017 ⁽²⁾	Mortgage Loans and Pledged Cash
Total	\$63,150	\$ 170,000			

⁽¹⁾ The mortgage warehouse borrowings outstanding as of June 30, 2017 and December 31, 2016 were collateralized by a) \$110.9 million and \$233.2 million, respectively, of mortgage loans held for sale, which comprised the balance of mortgage loans held for sale and b) approximately \$1.6 million and \$1.6 million, respectively, which are included in restricted cash in the accompanying Condensed Consolidated Balance Sheets.

⁽²⁾ We expect to renew the J.P. Morgan facility during the third quarter of 2017.

Loans Payable and Other Borrowings

Loans payable and other borrowings as of June 30, 2017 consist of project-level debt due to various land sellers and seller financing notes from current and prior year acquisitions. Project-level debt is generally secured by the land that was acquired and the principal payments generally coincide with corresponding project lot sales or a principal reduction schedule. Loans payable bear interest at rates that ranged from 0% to 8% at June 30, 2017 and December 31, 2016. We impute interest for loans with no stated interest rates.

Letters of Credit, Surety Bonds and Financial Guarantees

The following table summarizes our letters of credit and surety bonds as of the dates indicated:

(Dollars in thousands)	As of	
	June 30, 2017	December 31, 2016
Letters of credit ⁽¹⁾	\$31,984	\$31,903
Surety bonds	278,476	270,943
Total outstanding letters of credit and surety bonds	\$310,460	\$302,846

⁽¹⁾ As of June 30, 2017 and December 31, 2016, there was \$200 million total capacity of letters of credit available under our Revolving Credit Facility.

Off-Balance Sheet Arrangements as of June 30, 2017

Investments in Land Development and Homebuilding Joint Ventures or Unconsolidated Entities

We participate in strategic land development and homebuilding joint ventures with related and unrelated third parties. The use of these entities, in some instances, enables us to acquire land to which we could not otherwise obtain access, or could not obtain access on terms that are as favorable. Our partners in these joint ventures historically have been land owners/developers, other homebuilders and financial or strategic partners. Joint ventures with land owners/developers have given us access to sites owned or controlled by our partners. Joint ventures with other homebuilders have provided us with the ability to bid jointly with our partners for large or expensive land parcels. Joint ventures with financial partners have allowed us to combine our homebuilding expertise with access to our partners' capital.

In certain of our unconsolidated joint ventures, we enter into loan agreements, whereby one of our subsidiaries will provide the lenders with customary guarantees, including completion, indemnity and environmental guarantees subject to usual non-recourse terms.

For the six months ended June 30, 2017, total net capital invested in unconsolidated joint ventures was \$23.6 million.

Land Purchase and Land Option Contracts

36

Table of Contents

We enter into land purchase and option contracts to procure land or lots for the construction of homes in the ordinary course of business. Lot option contracts enable us to control significant lot positions with a minimal initial capital investment and substantially reduce the risks associated with land ownership and development. As of June 30, 2017, we had outstanding land purchase and lot option contracts of \$523.5 million. We are obligated to close the transaction under our land purchase contracts. However, our obligations with respect to the option contracts are generally limited to the forfeiture of the related non-refundable cash deposits and/or letters of credit provided to obtain the options. At June 30, 2017, we had non-refundable deposits totaling \$53.0 million.

Seasonality

Our business is seasonal. We have historically experienced, and in the future expect to continue to experience, variability in our results on a quarterly basis. We generally have more homes under construction, close more homes and have greater revenues and operating income in the third and fourth quarters of the year. Therefore, although new home contracts are obtained throughout the year, a higher portion of our home closings occur during the third and fourth calendar quarters. Our revenue therefore may fluctuate significantly on a quarterly basis, and we must maintain sufficient liquidity to meet short-term operating requirements. Factors expected to contribute to these fluctuations include:

- the timing of the introduction and start of construction of new projects;
- the timing of project sales;
- the timing of closings of homes, lots and parcels;
- the timing of receipt of regulatory approvals for development and construction;
- the condition of the real estate market and general economic conditions in the areas in which we operate;
- mix of homes closed;
- construction timetables;
- the prevailing interest rates and the availability of financing, both for us and for the purchasers of our homes;
- the cost and availability of materials and labor; and
- weather conditions in the markets in which we build.

As a result of seasonal activity, our quarterly results of operations and financial position are not necessarily representative of the results we expect for the full year.

Inflation

We and the homebuilding industry in general may be adversely affected during periods of high inflation, primarily because of higher land, financing, labor and construction material costs. In addition, higher mortgage interest rates can significantly affect the affordability of permanent mortgage financing to prospective homebuyers. We attempt to pass through to our customers increases in our costs through increased sales prices. However, during periods of soft housing market conditions, we may not be able to offset our cost increases with higher selling prices.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies during the six months ended June 30, 2017 as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our operations are interest rate sensitive. We monitor our exposure to changes in interest rates and incur both fixed rate and variable rate debt. At June 30, 2017, approximately 96% of our debt was fixed rate and 4% was variable rate. None of our market sensitive instruments were entered into for trading purposes. For fixed rate debt, changes in interest rates generally affect the fair value of the debt instrument, but not our earnings or cash flows. Conversely, for variable rate debt, changes in interest rates generally do not impact the fair value of the debt instrument but may affect our future earnings and cash flows, and may also impact our variable rate borrowing costs, which principally relate to any borrowings under our Revolving Credit Facility and borrowings by TMHF under its various warehouse facilities. As of June 30, 2017, we had no outstanding borrowings under our Revolving Credit Facility. We had \$468.0 million of additional availability for borrowings and \$168.0 million of additional availability for letters of credit (giving effect to \$32.0 million of letters of credit outstanding as of such date). Our 2021 Senior Notes are subject to a requirement that we offer to purchase such notes at par with certain proceeds of asset sales (to the extent not otherwise applied in accordance with the indenture governing such notes). We are also required to offer to purchase all of our outstanding Senior Notes at 101% of their aggregate principal amount upon the occurrence of specified change of control events. Other than in those circumstances, we do not have an obligation to prepay fixed rate debt prior to maturity and, as a result, we would not expect interest rate risk and changes in fair value to have a significant impact on our cash flows related to our fixed rate debt until such time as we are required to refinance, repurchase or repay such debt.

We are not materially exposed to interest rate risk associated with TMHF's mortgage loan origination business because at the time any loan is originated, TMHF has identified the investor who will agree to purchase the loan on the interest rate terms that are locked in with the borrower at the time the loan is originated.

The following table sets forth principal cash flows by scheduled maturity and effective weighted average interest rates and estimated fair value of our debt obligations as of June 30, 2017. The interest rate for our variable rate debt represents the interest rate on our borrowings under our mortgage warehouse facilities. Because the mortgage warehouse facilities are secured by certain mortgage loans held for sale which are typically sold within approximately 20 - 30 days, its outstanding balance is included as a variable rate maturity in the most current period presented.

(In millions, except percentage data)	Expected Maturity Date							Total	Fair Value
	2017	2018	2019	2020	2021	Thereafter			
Fixed Rate Debt	\$57.9	\$49.0	\$33.3	\$7.3	\$552.4	\$702.9	\$1,402.8	\$1,455.9	
Weighted average interest rate ⁽¹⁾	3.6 %	3.6 %	3.6 %	3.6 %	5.5 %	5.5 %	5.3 %		
Variable Rate Debt ⁽²⁾	\$63.2	\$—	\$—	\$—	\$—	\$—	\$63.2	\$63.2	
Weighted average interest rate	3.1 %	—	—	—	—	—	3.1 %		

⁽¹⁾ Represents the coupon rate of interest on the full principal amount of the debt.

⁽²⁾ Based upon the amount of variable rate debt outstanding at June 30, 2017, and holding the variable rate debt balance constant, each 1% increase in interest rates would increase the interest incurred by us by approximately \$0.6 million per year.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our principal executive officer, principal financial officer and principal accounting officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of June 30, 2017. Based on this evaluation, our principal executive officer, principal financial officer and principal accounting officer concluded that, as of June 30, 2017, the Company's disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in various litigation and legal claims in the normal course of our business operations, including actions brought on behalf of various classes of claimants. We are also subject to a variety of local, state, and federal laws and regulations related to land development activities, house construction standards, sales practices, mortgage lending operations, employment practices, and protection of the environment. As a result, we are subject to periodic examination or inquiry by various governmental agencies that administer these laws and regulations. We establish liabilities for legal claims and regulatory matters when such matters are both probable of occurring and any potential loss is reasonably estimable. We accrue for such matters based on the facts and circumstances specific to each matter and revise these estimates as the matters evolve. In such cases, there may exist an exposure to loss in excess of any amounts currently accrued. In view of the inherent difficulty of predicting the outcome of these legal and regulatory matters, we generally cannot predict the ultimate resolution of the pending matters, the related timing or the eventual loss. While the outcome of such contingencies cannot be predicted with certainty, we do not believe that the resolution of such matters will have a material adverse impact on our results of operations, financial position, or cash flows. However, to the extent the liability arising from the ultimate resolution of any matter exceeds the estimates reflected in the recorded reserves relating to such matter, we could incur additional charges that could be significant.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors set forth in Part I, Item 1A. of the Annual Report. These risk factors may materially affect our business, financial condition or results of operations. You should carefully consider the risk factors set forth in the Annual Report and the other information set forth elsewhere in this quarterly report. You should be aware that these risk factors and other information may not describe every risk facing our Company.
