PEDEVCO CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying consolidated financial statements of PEDEVCO CORP. (“PEDEVCO” or the “Company”), have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) and the rules of the Securities and Exchange Commission (“SEC”) and should be read in conjunction with the audited financial statements and notes thereto contained in PEDEVCO’s latest Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements that would substantially duplicate disclosures contained in the audited financial statements for the most recent fiscal year, as reported in the Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 29, 2016, have been omitted.

The Company’s consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and subsidiaries in which the Company has a controlling financial interest. All significant inter-company accounts and transactions have been eliminated in consolidation.

NOTE 2 – DESCRIPTION OF BUSINESS

PEDEVCO’s primary business plan is engaging in the acquisition, exploration, development and production of oil and natural gas shale plays in the United States, with a secondary focus on conventional oil and natural gas plays. The Company plans to focus on the development of shale oil and gas assets held by the Company in the U.S., including its oil and gas working interests in the Wattenberg and Wattenberg Extension in the D-J Basin (the “D-J Basin Asset”).

The Company’s principal operating properties are located in the Wattenberg, Wattenberg Extension, and Niobrara formation in the Denver-Julesburg Basin (the “D-J Basin”) in Weld County, Colorado all of which properties are owned by the Company through its wholly-owned subsidiary, Red Hawk Petroleum, LLC (“Red Hawk”).

The Company plans to focus on the development of shale oil and gas assets held by the Company in the U.S., including its oil and gas working interests in the Wattenberg and Wattenberg Extension in the D-J Basin (the “D-J Basin Asset”).

The Company plans to seek additional shale oil and gas and conventional oil and gas asset acquisition opportunities in the U.S. through utilizing its strategic relationships and technologies that may provide the Company a competitive advantage in accessing and exploring such assets. Some or all of these assets may be acquired by existing subsidiaries or other entities that may be formed at a future date.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation. The consolidated financial statements herein have been prepared in accordance with GAAP and include the accounts of the Company and those of its wholly and partially-owned subsidiaries as follows: (i) Blast AFJ, Inc., a Delaware corporation; (ii) Pacific Energy Development Corp., a Nevada corporation; (iii) Pacific Energy Technology Services, LLC, a Nevada limited liability company (owned 70% by us)(which was dissolved in April 2016 with an effective date of December 31, 2015); (iv) Pacific Energy & Rare Earth Limited, a Hong Kong company; (v) Blackhawk Energy Limited, a British Virgin Islands

company; (vi) White Hawk Petroleum, LLC, a Nevada limited liability company; (vii) Red Hawk Petroleum, LLC, a Nevada limited liability company; (viii) Pacific Energy Development MSL, LLC (owned 50% by us) (which was dissolved in September 2016) and is included in our consolidated results; (ix) PEDEVCO Acquisition Subsidiary, Inc., a Texas corporation which was formed on May 21, 2015 in connection with the planned reorganization transaction with Dome Energy, Inc. (“Dome Energy”), which was subsequently terminated (which entity was dissolved in April 2016); and (x) White Hawk Energy, LLC, a Delaware limited liability company, formed on January 4, 2016 in connection with the planned reorganization transaction with GOM Holdings, LLC (“GOM”). All significant intercompany accounts and transactions have been eliminated.

Equity Method Accounting for Joint Ventures. A portion of the Company's oil and gas interests were held in Condor Energy Technology, LLC ("Condor"), a joint venture collectively owned with an affiliate of MIE Holdings Corporation ("MIE Holdings", Hong Kong Stock Exchange code: 1555.HK). Condor was a Nevada limited liability company owned 20% by the Company and 80% by an affiliate of MIE Holdings. The Company accounted for its 20% ownership in Condor using the equity method. In February 2015, the Company divested its interest in Condor.

Non-Controlling Interests. The Company is required to report its non-controlling interests as a separate component of shareholders' equity. The Company is also required to present the consolidated net income and the portion of the consolidated net income allocable to the non-controlling interests and to the shareholders of the Company separately in its consolidated statements of operations. Losses applicable to the non-controlling interests are allocated to the non-controlling interests even when those losses are in excess of the non-controlling interests' investment basis.

Use of Estimates in Financial Statement Preparation. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as certain financial statement disclosures. While management believes that the estimates and assumptions used in the preparation of the financial statements are appropriate, actual results could differ from these estimates. Significant estimates generally include those with respect to the amount of recoverable oil and gas reserves, the fair value of financial instruments, oil and gas depletion, asset retirement obligations, and stock-based compensation.

Cash and Cash Equivalents. The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. As of September 30, 2016 and December 31, 2015, cash equivalents consisted of money market funds and cash on deposit.

Concentrations of Credit Risk. Financial instruments which potentially subject the Company to concentrations of credit risk include cash deposits placed with financial institutions. The Company maintains its cash in bank accounts which, at times, may exceed federally insured limits as guaranteed by the Federal Deposit Insurance Corporation (FDIC). At September 30, 2016, approximately \$385,000 of the Company's cash balances were uninsured. The Company has not experienced any losses on such accounts.

Sales to one customer comprised 51% of the Company's total oil and gas revenues for the nine months ended September 30, 2016. Sales to two customers comprised 59% and 11%, respectively, of the Company's total oil and gas revenues for the nine months ended September 30, 2015. The Company believes that, in the event that its primary customers are unable or unwilling to continue to purchase the Company's production, there are a substantial number of alternative buyers for its production at comparable prices.

Accounts Receivable. Accounts receivable typically consist of oil and gas receivables. The Company has classified these as short-term assets in the balance sheet because the Company expects repayment or recovery within the next 12 months. The Company evaluates these accounts receivable for collectability considering the results of operations of these related entities and, when necessary, records allowances for expected unrecoverable amounts. To date, no significant allowances have been recorded. Included in accounts receivable - oil and gas is \$6,000 related to receivables from joint interest owners.

Bad Debt Expense. The Company's ability to collect outstanding receivables is critical to its operating performance and cash flows. Accounts receivable are stated at an amount management expects to collect from outstanding balances. The Company extends credit in the normal course of business. The Company regularly reviews outstanding receivables and when the Company determines that a party may not be able to make required payments a charge to bad debt expense in the period of determination is made. Though the Company's bad debts have not historically been significant, the Company could experience increased bad debt expense should a financial downturn occur.

Equipment. Equipment is stated at cost less accumulated depreciation and amortization. Maintenance and repairs are charged to expense as incurred. Renewals and betterments which extend the life or improve existing equipment are capitalized. Upon disposition or retirement of equipment, the cost and related accumulated depreciation are removed and any resulting gain or loss is reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which are 3 to 10 years.

F-6

Oil and Gas Properties, Successful Efforts Method. The successful efforts method of accounting is used for oil and gas exploration and production activities. Under this method, all costs for development wells, support equipment and facilities, and proved mineral interests in oil and gas properties are capitalized. Geological and geophysical costs are expensed when incurred. Costs of exploratory wells are capitalized as exploration and evaluation assets pending determination of whether the wells find proved oil and gas reserves. Proved oil and gas reserves are the estimated quantities of crude oil and natural gas which geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, (i.e., prices and costs as of the date the estimate is made). Prices include consideration of changes in existing prices provided only by contractual arrangements, but not on escalations based upon future conditions.

Exploratory wells in areas not requiring major capital expenditures are evaluated for economic viability within one year of completion of drilling. The related well costs are expensed as dry holes if it is determined that such economic viability is not attained. Otherwise, the related well costs are reclassified to oil and gas properties and subject to impairment review. For exploratory wells that are found to have economically viable reserves in areas where major capital expenditure will be required before production can commence, the related well costs remain capitalized only if additional drilling is under way or firmly planned. Otherwise the related well costs are expensed as dry holes.

Exploration and evaluation expenditures incurred subsequent to the acquisition of an exploration asset in a business combination are accounted for in accordance with the policy outlined above.

Depreciation, depletion and amortization of capitalized oil and gas properties is calculated on a field by field basis using the unit of production method. Lease acquisition costs are amortized over the total estimated proved developed and undeveloped reserves and all other capitalized costs are amortized over proved developed reserves.

Impairment of Long-Lived Assets. The Company reviews the carrying value of its long-lived assets annually or whenever events or changes in circumstances indicate that the historical cost-carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of the asset by estimating the future net undiscounted cash flows expected to result from the asset, including eventual disposition. If the future net undiscounted cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and estimated fair value.

Asset Retirement Obligations. If a reasonable estimate of the fair value of an obligation to perform site reclamation, dismantle facilities or plug and abandon wells can be made, the Company will record a liability (an asset retirement obligation or "ARO") on its consolidated balance sheet and capitalize the present value of the asset retirement cost in oil and gas properties in the period in which the retirement obligation is incurred. In general, the amount of an ARO and the costs capitalized will be equal to the estimated future cost to satisfy the abandonment obligation assuming the normal operation of the asset, using current prices that are escalated by an assumed inflation factor up to the estimated settlement date, which is then discounted back to the date that the abandonment obligation was incurred using an assumed cost of funds for the Company. After recording these amounts, the ARO will be accreted to its future estimated value using the same assumed cost of funds and the capitalized costs are depreciated on a unit-of-production basis over the estimated proved developed reserves. Both the accretion and the depreciation will be included in depreciation, depletion and amortization expense on our consolidated statements of operations.

The following table describes changes in our asset retirement obligations during the nine months ended September 30, 2016 and 2015 (in thousands):

	2016	2015
Asset retirement obligations at January 1,	\$189	\$89
Accretion expense	24	32
Obligations incurred for acquisition	19	87
Obligations settled - assets sold	-	(1)
Changes in estimates	(7)	(15)
Asset retirement obligations at September 30,	\$225	\$192

Revenue Recognition. All revenue is recognized when persuasive evidence of an arrangement exists, the service or sale is complete, the price is fixed or determinable and collectability is reasonably assured. Revenue is derived from the sale of crude oil and natural gas. Revenue from crude oil and natural gas sales is recognized when the product is delivered to the purchaser and collectability is reasonably assured. The Company follows the “sales method” of accounting for oil and natural gas revenue, so it recognizes revenue on all natural gas or crude oil sold to purchasers, regardless of whether the sales are proportionate to its ownership in the property. A receivable or liability is recognized only to the extent that the Company has an imbalance on a specific property greater than its share of the expected remaining proved reserves. If collection is uncertain, revenue is recognized when cash is collected.

Income Taxes. The Company utilizes the asset and liability method in accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for operating loss and tax credit carry-forwards and for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not that the value of such assets will be realized.

Stock-Based Compensation. The Company utilizes the Black-Scholes option pricing model to estimate the fair value of employee stock option awards at the date of grant, which requires the input of highly subjective assumptions, including expected volatility and expected life. Changes in these inputs and assumptions can materially affect the measure of estimated fair value of our share-based compensation. These assumptions are subjective and generally require significant analysis and judgment to develop. When estimating fair value, some of the assumptions will be based on, or determined from, external data and other assumptions may be derived from our historical experience with stock-based payment arrangements. The appropriate weight to place on historical experience is a matter of judgment, based on relevant facts and circumstances.

The Company estimates volatility by considering the historical stock volatility. The Company has opted to use the simplified method for estimating expected term, which is generally equal to the midpoint between the vesting period and the contractual term.

Loss per Common Share. Basic loss per common share equals net loss divided by weighted average common shares outstanding during the period. Diluted loss per share includes the impact on dilution from all contingently issuable shares, including options, warrants and convertible securities. The common stock equivalents from contingent shares are determined by the treasury stock method. The Company incurred net losses for the nine months ended September 30, 2016 and 2015, and therefore, basic and diluted loss per share for those periods are the same as all potential

common equivalent shares would be anti-dilutive. The Company excluded 3,024,839 and 2,162,540 potentially issuable shares of common stock related to options, 12,566,079 and 7,753,282 potentially issuable shares of common stock related to warrants and 1,362,950 and 1,248,638 potentially issuable shares of common stock related to the conversion of Bridge Notes, due to their anti-dilutive effect for the nine months ended September 30, 2016 and 2015, respectively.

Fair Value of Financial Instruments. The Company follows Fair Value Measurement (“ASC 820”), which clarifies fair value as an exit price, establishes a hierarchical disclosure framework for measuring fair value, and requires extended disclosures about fair value measurements. The provisions of ASC 820 apply to all financial assets and liabilities measured at fair value.

F-8

As defined in ASC 820, fair value, clarified as an exit price, represents the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As a result, fair value is a market-based approach that should be determined based on assumptions that market participants would use in pricing an asset or a liability.

As a basis for considering these assumptions, ASC 820 defines a three-tier value hierarchy that prioritizes the inputs used in the valuation methodologies in measuring fair value.

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Recently Issued Accounting Pronouncements. In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 amends previous guidance to require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The affected amounts shown on the Company's balance sheet were a result of reclassifications within the balance sheet upon adoption of this ASU to conform to this standard. The Company adopted this ASU during the first quarter of 2016 and the adoption of this ASU did not have a material impact on its financial statements (balance sheet amounts as of December 31, 2015 were also reclassified for comparability purposes).

Subsequent Events. The Company has evaluated all transactions through the date the consolidated financial statements were issued for subsequent event disclosure consideration.

NOTE 4 – OIL AND GAS PROPERTIES

The following table summarizes the Company's oil and gas activities by classification for the nine months ended September 30, 2016:

	December 31,				September 30,
	2015	Additions	Disposals	Transfers	2016
Oil and gas properties, subject to amortization	\$64,655	\$3,650	\$-	\$-	\$68,305
Oil and gas properties, not subject to amortization	-	-	-	-	-
Asset retirement costs	137	12	-	-	149
Accumulated depreciation, depletion and impairment	(6,025)	(2,296)	-	-	(8,321)

Edgar Filing: PEDEVCO CORP - Form 10-Q

Total oil and gas assets	\$58,767	\$1,366	\$-	\$-	\$60,133
--------------------------	----------	---------	-----	-----	----------

The depletion recorded for production on proved properties for the three and nine months ended September 30, 2016 and 2015, amounted to \$512,000 compared to \$1,064,000 and \$2,296,000 compared to \$3,345,000, respectively. The Company did not record any impairment expense for unproved leasehold costs for the nine months ended September 30, 2016. The Company did not record any impairment of properties subject to amortization for the nine months ended September 30, 2016. The Company recorded impairment expense of \$1,337,000 for all unproved leasehold costs for the nine months ended September 30, 2015, as a result of a revision of management's plans to our re-leasing program due to the decrease in commodity pricing.

F-9

Acquisition of Properties from Dome Energy, Inc.

During the nine months ended September 30, 2016, net additions to oil and gas properties subject to amortization were \$3,650,000, comprised of the development of the Company's oil and gas properties of \$82,000 and drilling costs related to the acquisition of oil and gas properties of \$3,568,000 with respect to eight non-operated wells drilled and completed by a third party operator.

On November 19, 2015, the Company entered into a Letter Agreement with certain parties including Dome Energy AB and its wholly-owned subsidiary Dome Energy, Inc. (collectively "Dome Energy"), pursuant to which Dome Energy agreed to acquire the Company's interests in these eight wells and fully fund the Company's proportionate share of all the corresponding working interest owner expenses with respect to these eight wells. The Company assigned its interests in these wells to Dome Energy effective November 18, 2015, and Dome Energy assumed all amounts owed for the drilling and completion costs corresponding to these interests acquired from the Company.

On March 29, 2016, the Company entered into a Settlement Agreement with Dome Energy, pursuant to which Dome Energy re-conveyed to the Company the interests in these eight wells assigned to Dome Energy by the Company on November 18, 2015, with the Company becoming responsible for its proportionate share of all the working interest owner expenses, and having the right to receive all corresponding revenues with respect to these eight wells, from the initial production date of the wells. As part of this transaction, the Company also settled \$659,000 of outstanding payables due from the Company to Dome Energy that was accounted for as a purchase price adjustment to the value of the oil and gas properties acquired.

The following tables summarize the purchase price and allocation of the purchase price to the net assets acquired (in thousands):

	Assets Acquired
Accounts receivable – oil and gas	\$793
Oil and gas properties, subject to amortization	3,587
Total assets	\$4,380

	Liabilities Assumed
Accounts payable	\$(4,361)
Asset retirement obligation	(19)
Total liabilities	\$(4,380)

Acquisition of Properties from Golden Globe Energy (US) LLC.

On February 23, 2015 (the "Closing"), the Company's wholly-owned subsidiary, Red Hawk, completed the acquisition of approximately 12,977 net acres of oil and gas properties and interests in 53 gross wells located in the Denver-Julesburg Basin, Colorado (the "GGE Acquired Assets") from Golden Globe Energy (US), LLC ("GGE").

As consideration for the acquisition of the GGE Acquired Assets, the Company (i) issued to GGE 3,375,000 restricted shares of the Company's common stock and 66,625 restricted shares of the Company's then newly-designated Series A Convertible Preferred Stock (the "Series A Preferred") (see Note 11), (ii) assumed approximately \$8.35 million of subordinated notes payable from GGE, and (iii) provided GGE with a one-year option to acquire the Company's interest in its Kazakhstan opportunity for \$100,000 payable upon exercise of the option pursuant to a Call Option Agreement. The effective date of the transaction was January 1, 2015, with the exception of all revenues and refunds attributable to GGE's approximate 49.7% interest in each of the Loomis 2-1H, Loomis 2-3H and Loomis 2-6H wells, which revenues and refunds the Company owned from the date of first production, and which were approximately \$467,000 through January 1, 2015.

The following tables summarize the purchase price and allocation of the purchase price to the net assets acquired (in thousands):

Purchase price on February 23, 2015

Fair value of common stock issued	\$2,734
Fair value of Series A Preferred stock issued	28,402
Assumption of subordinated notes payable	8,353
Kazakhstan option issued	5,000
Total purchase price	\$44,489
Fair value of net assets at February 23, 2015	
Accounts receivable – oil and gas	\$1,578
Oil and gas properties, subject to amortization	43,562
Prepaid expenses and other assets	100
Total assets	45,240
Accounts payable	(664)
Asset retirement obligations	(87)
Total liabilities	(751)
Net assets acquired	\$44,489

Disposition of Oil and Gas Properties

In February 2015, the Company sold to MIE Jurassic Energy Corp. (“MIEJ”) all of the Company’s direct interests in approximately 945 net acres and interests in three wells owned by the Company that were operated by Condor, resulting in a gain on sale of oil and gas properties of \$275,000.

NOTE 5 – OTHER CURRENT ASSETS

On September 11, 2013, the Company entered into a Shares Subscription Agreement (“SSA”) to acquire an approximate 51% ownership in Asia Sixth Energy Resources Limited (“Asia Sixth”), which held an approximate 60% ownership interest in Aral Petroleum Capital Limited Partnership (“Aral”), a Kazakhstan entity. In August 2014 the SSA and related documents were restructured (the “Aral Restructuring”), in connection with which the Company received a promissory note in the principal amount of \$10.0 million from Asia Sixth (the “A6 Promissory Note”), which would be converted into a 10.0% interest in Caspian Energy, Inc. (“Caspian Energy”), an Ontario, Canada company listed on the NEX board of the TSX Venture Exchange, upon the consummation of the Aral Restructuring.

The Company entered into an agreement with GGE to convey 50% of our interests in Asia Sixth in connection with the Continental Resources, Inc. acquisition (“Continental Acquisition”) in March 2014.

The Aral Restructuring was consummated on May 20, 2015, upon which date the A6 Promissory Note was converted into 23,182,880 shares of common stock of Caspian Energy. In addition, on the date of conversion of the A6 Promissory Note, Mr. Frank Ingriselli, our Chairman and former Chief Executive Officer, was appointed as a non-executive director of Caspian Energy and currently serves as its Chairman of the Board of Directors.

In connection with our GGE Acquisition, on February 23, 2015, we provided GGE a one-year option to acquire our interest in Caspian Energy for \$100,000 payable upon exercise of the option recorded in prepaid expenses and other current assets. As a result, the carrying value of the 23,182,880 shares of common stock of Caspian Energy which

were issued upon conversion of the A6 Promissory Note at December 31, 2015 was \$100,000. The option provided to GGE was not exercised and expired on February 23, 2016, resulting in the Company retaining ownership of the 23,182,880 shares of Caspian Energy.

In connection with the Company's May 2016 debt restructuring as more fully described below in Note 8, the Company entered into a new Call Option Agreement with GGE, dated May 12, 2016 (the "GGE Option Agreement"), pursuant to which the Company provided GGE an option to purchase the 23,182,880 common shares of Caspian Energy upon payment of \$100,000 by GGE to the Company. The option expires on May 12, 2019, which is the maturity date of the debt evidenced by that certain Note and Security Agreement, dated April 10, 2014, as amended on February 23, 2015, and May 12, 2016, issued by the Company to RJ Credit LLC ("RJC" and the "RJC Junior Note"), as described below. The \$100,000 option is classified as part of other current assets as of September 30, 2016.

NOTE 6 – ACCOUNTS RECEIVABLE

On November 19, 2015, the Company entered into a Letter Agreement with Dome Energy pursuant to which Dome Energy agreed to acquire the Company's interests in eight wells drilled by a third party operator and fully fund the Company's proportionate share of all the corresponding working interest owner expenses with respect to these eight wells. The Company assigned its interests in these wells to Dome Energy effective November 18, 2015, and Dome Energy assumed all amounts owed for the drilling and completion costs of \$3,851,000 corresponding to these interests acquired from the Company. Dome Energy also agreed to pay an additional \$250,000 to the Company in the event the anticipated merger with Dome Energy was not consummated. In connection with the assignment of these well interests to Dome Energy, Dome Energy issued a contingent promissory note to the Company, dated November 19, 2015 (the "Dome Promissory Note"), with a principal amount of \$250,000, which note was due and payable to the Company on December 29, 2015, upon the termination of the anticipated merger with Dome Energy. To guarantee payment of the Dome Promissory Note, Dome Energy deposited \$250,000 into an escrow account. During the nine month period ending September 30, 2016, the Company collected this receivable of \$250,000 related to this transaction.

On March 24, 2015, Red Hawk and Dome Energy entered into a Service Agreement (the "Service Agreement"), pursuant to which Red Hawk agreed to provide certain human resource augmentation and accounting services to Dome Energy, of which \$156,000 remained due and payable by Dome Energy to Red Hawk as of December 31, 2015. On March 29, 2016, the Company entered into a Settlement Agreement (the "Settlement Agreement") with Dome Energy and certain of its affiliated entities, pursuant to which the Company and Dome Energy agreed to terminate and cancel the Service Agreement and settle and resolve a number of outstanding matters, with Dome Energy agreeing to pay to Red Hawk \$50,000 on May 2, 2016, in full satisfaction of the amounts due under the Service Agreement, with all remaining amounts owed forgiven by Red Hawk. As of September 30, 2016, the receivable is still due from Dome Energy for \$50,000, which amount is owed to Red Hawk as a part of the Settlement Agreement. As of December 31, 2015, the receivable due from Dome Energy totaled \$406,000. During the nine months ended September 30, 2016, the net receivable created by the Dome Promissory Note due from Dome Energy to the Company was reduced to zero by (i) the collection of the \$250,000 as described above, (ii) forgiveness by the Company of \$106,000 due from Dome Energy pursuant to the Settlement Agreement, and (iii) the recording of an allowance of \$50,000 as a doubtful account (which was recognized as bad debt expense in selling, general and administrative expense on the Company's income statement).

NOTE 7 – EQUITY METHOD INVESTMENTS

Condor Energy Technology, LLC

In October 2011, the Company formed a new subsidiary, Condor. The Company owned 20% of Condor and a subsidiary of MIE Holdings owned 80%.

The Company accounted for its 20% ownership in Condor using the equity method. The Company evaluated its relationship with Condor to determine if Condor was a variable interest entity ("VIE") as defined in ASC 810-10, and whether the Company was the primary beneficiary of Condor, in which case consolidation with the Company would be required. The Company determined that Condor qualified as a VIE, however, the Company concluded that MIE Holdings was the primary beneficiary as a result of being in control of the Board and its ability to control the funding commitments to Condor.

Settlement Agreement with MIEJ

On February 19, 2015, the Company entered into a Settlement Agreement with MIEJ, the 80% partner in Condor and the lender under that certain Amended and Restated Secured Subordinated Promissory Note, dated March 25, 2013, in the principal amount of \$6,170,065 (the “MIEJ Note”). The Settlement Agreement and related agreements for the disposition of the Company’s interest in Condor contained the following terms:

The Company and MIEJ entered into a new Amended and Restated Secured Subordinated Promissory Note, dated February 19, 2015 (the “New MIEJ Note”), with a principal amount of \$4.925 million, extinguishing the original MIEJ Note;

The Company sold to MIEJ (i) its 20% interest in Condor, and (ii) all of the direct interests in approximately 945 net acres and working interests in three wells separately owned by the Company and operated by Condor;

The Company’s employees were removed as officers of Condor, and the Company agreed to assist with Condor’s accounting and audits and perform joint interest billing accounting for a monthly fee of \$55,000 for January 2015, \$0 for February 2015, \$10,000 for March 2015 and \$30,000 per month thereafter, pro-rated for partial months, through August 2015;

MIEJ paid \$500,000 to the Company’s senior loan investors as a principal reduction on the Company’s senior notes;

Condor forgave approximately \$1.8 million in previous working interest expenses related to the drilling and completion of certain wells operated by Condor that the Company owed to Condor;

The Company paid MIEJ \$100,000 as a principal reduction under the original MIEJ Note; and

The parties fully released each other from every claim, demand or cause of action arising on or before February 19, 2015.

The net effect of these transactions with MIEJ was to reduce approximately \$9.4 million in aggregate liabilities due from the Company to MIEJ and Condor to \$4.925 million, which was the new principal amount of the New MIEJ Note.

The following table reflects the activity related to the Company’s settlement with MIEJ (in thousands):

	Items Issued / Sold
New MIEJ note	\$4,925
Note receivable with Condor	1,272
Oil and gas property operated by Condor	620
Total items issued or sold	6,817

	Items Received
Accrued liabilities	3,280
Original debt with MIE net of cash payments	6,070
Proceeds from cash payments made by MIE to RJ Credit and BAM	500
Total items received	9,850
Net gain on settlement	\$3,033

F-13

The following table presents the allocation of the gain on settlement with MIEJ described above (in thousands):

	Allocated Value	Historical Cost	Gain on Settlement
Oil and gas properties	\$895	\$620	\$275
Investment in Condor	1,838	1,272	566
Note payable – MIEJ	7,117	4,925	2,192
Total	\$9,850	\$6,817	\$3,033

The Company recognized a gain on sale of equity investments during the nine months ended September 30, 2015 in the amount of \$566,000.

NOTE 8 – NOTES PAYABLE

Note Purchase Agreement and Sale of Secured Promissory Notes

On March 7, 2014, the Company entered into a \$50 million financing facility (the “Notes Purchase Agreement”) between the Company, BRe BCLIC Primary, BRe BCLIC Sub, BRe WNIC 2013 LTC Primary, BRe WNIC 2013 LTC Sub, and RJC, as investors (collectively, the “Investors”), and BAM Administrative Services LLC, as agent for the Investors (the “Agent”). The Company issued the Investors Secured Promissory Notes in the aggregate amount of \$34.5 million (the “Initial Notes” or “Senior Notes”) and provided for an additional \$15.5 million available under the financing agreement to fund the Company’s future drilling costs to be evidenced by notes with substantially similar terms as the Initial Notes (the “Subsequent Notes”). On March 19, 2015, BRe WNIC 2013 LTC Primary transferred a portion of its Initial Note to HEARTLAND Bank, and effective April 1, 2015, BRe BCLIC Primary transferred its Initial Note to Senior Health Insurance Company of Pennsylvania (“SHIP”), with each of HEARTLAND Bank and SHIP becoming an “Investor” for purposes of the discussion below.

Pursuant to letter agreements and amendments thereto entered into with the holders of the Senior Notes on August 28, 2015, January 29, 2016, March 7, 2016 and April 1, 2016, certain of the holders agreed to, among other things, (i) defer until the maturity date of their Senior Notes the mandatory principal payments that would otherwise be due and payable by the Company to them on payment dates occurring from August 2015 through April 2016; and (ii) defer until the maturity date of their Senior Notes and the RJC Junior Note all of the interest payments that would otherwise be due and payable by the Company to them from August 2015 to April 2016, with all interest amounts deferred being added to principal on the first business day of the month following the month in which such deferred interest is accrued. The purpose of these deferrals was to provide the Company with temporary relief from cash requirements to fully-focus and execute upon its contemplated business combinations.

As consideration for the note amendments and deferrals, on September 10, 2015, the Company issued warrants exercisable on a cash-only basis for an aggregate of 1,201,004 shares of common stock to the lenders, proportionately based on their individual principal. The warrants have a three year term and are exercisable on a cash-only basis at a price of \$0.75 per share. The fair value of these 1,201,004 warrants of approximately \$120,000 was recorded as additional deferred financing costs.

During the nine months ended September 30, 2016, there were no payments made to reduce the outstanding principal due under the Initial Notes, however, such Notes were restructured as described below.

As a result of the issuance of common and preferred shares in the acquisition of the assets from GGE in 2015, GGE became a related party of the Company.

2016 Senior Note Restructuring

Following a series of temporary payment deferrals, on May 12, 2016 (the “Closing Date”), the Company entered into an Amended and Restated Note Purchase Agreement (the “Amended NPA”), with SHIP, BRe BCLIC Sub, BRe WINIC 2013 LTC Primary, BRe WNIC 2013 LTC Sub, Heartland Bank, BHLN-Pedco Corp. (“BHLN”), BBLN-Pedco Corp. (“BBLN”), and RJC (together with BHLN and BBLN, the “Tranche A Investors”) (collectively, the “Lenders”), and the Agent, as agent for the Lenders. The Amended NPA amended and restated the Senior Notes, and the Company issued new Senior Secured Promissory Notes to each of the Lenders (collectively, the “Tranche B Notes”) in a transaction that qualified as a troubled debt restructuring. RJC is also a party to the RJC Junior Note (discussed below).

F-14

The Amended NPA amended the Senior Notes as follows:

Created new “Tranche A Notes,” in substantially the same form and with similar terms as the Tranche B Notes, except as discussed below, consisting of a term loan issuable in tranches with a maximum aggregate principal amount of \$25,960,000, with borrowed funds accruing interest at 15% per annum, and maturing on May 11, 2019 (the “Tranche A Maturity Date”) (the “Tranche A Notes,” and together with the Tranche B Notes, the “New Senior Notes”);

The Company capitalized all accrued and unpaid interest under the Tranche B Notes as a term loan with an aggregate outstanding principal balance as of May 12, 2016 equal to \$39,065,000 (as of September 30, 2016, the aggregate outstanding principal balance is \$41,010,000). The Tranche B Notes mature on June 11, 2019 except for the Tranche B Note issued to RJC, which matures on July 11, 2019;

Amended the provisions of the Senior Notes which required mandatory prepayments from our revenues, replacing them with a Net Revenue Sweep as described below; and

Provides that interest on the Tranche B Notes will continue to accrue at the rate of 15% per annum, but all accrued interest through December 31, 2017 will be deferred until due and payable on the maturity date, with all interest amounts deferred being added to the principal of the Tranche B Notes on a monthly basis and that following December 31, 2017, all interest will accrue and be paid monthly in arrears in cash to the Tranche B Note holders.

The Tranche A Notes are substantially similar to the Tranche B Notes, except that such notes are senior to the Tranche B Notes, accrue interest until maturity and have priority to the payment of Monthly Net Revenues as discussed below.

On the Closing Date, the Tranche A Investors loaned the Company their pro rata share of an aggregate of \$6,422,000 (the “Initial Tranche A Funding”). The Initial Tranche A Funding net proceeds (amounting to \$6,422,000 less legal fees of \$127,000) were used by the Company to (i) fund approximately \$5.1 million due to a third party operator for drilling and completion expenses related to the acquired working interests in eight wells from Dome Energy, (ii) pay \$750,000 of the Company’s past due payables to Liberty (defined below under “Note 10 – Commitments and Contingencies” – “Other Commitments”), (iii) pay \$445,000 of unpaid interest payments due to Heartland Bank under its Tranche B Note through February 29, 2016, and (iv) pay fees and expenses of \$127,000 incurred in connection with the transactions contemplated by the Amended NPA and related documents.

Subject to the terms and conditions of the Amended NPA, the Company may request each Tranche A Investor, from time to time, to advance to the Company additional amounts of funding (each, a “Subsequent Tranche A Funding”), provided that: (i) the Company may not request a Subsequent Tranche A Funding more than one time in any calendar month; (ii) Agent shall have received a written request from the Company at least 15 business days prior to the requested date of such advance (the “Advance Request”); (iii) no Event of Default or event that with the passage of time or the giving of notice, or both, would become an Event of Default (a “Default”) shall have occurred and be continuing or would result therefrom; and (iv) the Company shall provide to the Agent such documents, instruments, certificates and other writings as the Agent shall reasonably require in its sole and absolute discretion. The advancement of all or any portion of the Subsequent Tranche A Funding is in the sole and absolute discretion of the Agent and the Investors and no Investor is obligated to fund all or any part of the Subsequent Tranche A Funding. Each Subsequent Tranche A Funding shall be in a minimum amount of \$500,000 and multiples of \$100,000 in excess thereof. The aggregate amount of Subsequent Tranche A Fundings that may be made by the Investors under the Amended NPA shall not exceed \$18,577,876 and any Subsequent Tranche A Funding repaid may not be re-borrowed.

In addition, subject to the terms and conditions of the Amended NPA, RJC agreed to loan to the Company \$240,000, within 30 days of the Closing Date and within 30 days of each of July 1, 2016, October 1, 2016 and January 1, 2017 (collectively, the “RJC Fundings” and collectively with the Investor Tranche A Fundings, the “Fundings”), provided that no Event of Default or Default shall exist. The aggregate amount of the RJC Fundings made by RJC under the Amended NPA shall not exceed \$960,000 and any Funding repaid may not be re-borrowed. As of September 30, 2016, the Company has received no loan proceeds under this agreement.

F-15

To guarantee RJC's obligation in connection with the RJC Fundings as required under the Amended NPA, GGE entered into a Share Pledge Agreement with the Company, dated May 12, 2016 (the "GGE Pledge Agreement"), pursuant to which GGE agreed to pledge an aggregate of 10,000 shares of the Company's Series A Convertible Preferred Stock held by GGE (convertible into 10,000,000 shares of Company common stock), which pledged shares are subject to automatic cancellation and forfeiture based on a schedule set forth in the GGE Share Pledge Agreement, in the event RJC fails to meet each of its RJC Funding obligations pursuant to the Amended NPA. To date, RJC has not met its RJC Funding obligations under the Amended NPA and the Company is entitled to cancel and forfeit 7,500 shares of the Company's Series A Convertible Preferred Stock held by GGE (convertible into 7,500,000 shares of Company common stock) pursuant to the terms of the GGE Pledge Agreement, which shares have not been cancelled as of the date of this filing.

As additional consideration for the entry into the Amended NPA and transactions related thereto, the Company granted to BHLN and BBLN, warrants exercisable for an aggregate of 5,962,800 shares of common stock of the Company (the "Investor Warrants"). The warrants have a 3 year term, are transferrable, and are exercisable on a cashless basis at any time at \$0.25 per share (as amended), subject to receipt of additional listing approval of such underlying shares of common stock from the NYSE MKT (which additional listing approval was received from the NYSE MKT on June 1, 2016). The Investor Warrants include a beneficial ownership limitation that prohibits the exercise of the Investor Warrants to the extent such exercise would result in the holder, together with its affiliates, holding more than 9.99% of the Company's outstanding voting stock (the "Blocker Provision"). The estimated fair value of the Investor Warrants issued is approximately \$707,000 based on the Black-Scholes option pricing model. The relative fair value allocated to the Tranche A Notes and recorded as debt discount was \$636,000.

Other than the Investor Warrants, no additional warrants exercisable for common stock of the Company are due, owing, or shall be granted to the Lenders pursuant to the Senior Notes, as amended. In addition, warrants exercisable for an aggregate of 349,111 shares of the Company's common stock at an exercise price of \$1.50 per share and warrants exercisable for an aggregate of 1,201,004 shares of the Company's common stock at an exercise price of \$0.75 per share previously granted by the Company to certain of the Lenders on September 10, 2015 in connection with prior interest payment deferrals have been amended and restated to provide that all such warrants are exercisable on a cashless basis and include a Blocker Provision (the "Amended and Restated Warrants").

Additionally, the Company also agreed to (a) provide to the Agent and the Investors a monthly projected general and administrative expense report (the "Projected G&A") and a monthly comparison report of the Projected G&A provided for the preceding month, with an explanation of any variances, provided that in no event shall such variances exceed \$150,000, and (B) pay to the Agent within 2 business days following the end of each calendar month all of the Company's oil and gas revenue received by the Company during such month (the "Net Revenue Sweep"), less (i) lease operating expenses, (ii) interest payments due to Investors under the New Senior Notes, (iii) general and administrative expenses not to exceed \$150,000 per month unless preapproved by the Agent (the "G&A Cap"), and (iv) preapproved extraordinary expenses (together the "Monthly Net Revenues"). Amounts paid to the Agent through the Net Revenue Sweep are applied first to the repayment of principal and interest due under the Tranche A Notes until such notes are paid in full and then to the repayment of principal and interest amounts due under the Tranche B Notes. During the nine months ended September 30, 2016, the Company has paid \$499,000 of principal under the Net Revenue Sweep. The amount of interest deferred under the Tranche A Notes as of September 30, 2016 equaled \$367,000.

The amounts outstanding under the New Senior Notes are secured by a first priority security interest in all of the Company's and its subsidiaries' assets, property, real property, intellectual property, securities and proceeds therefrom, granted in favor of the Agent for the benefit of the Lenders, pursuant to a Security Agreement and a Patent Security Agreement, each entered into as of March 7, 2014, as amended on May 12, 2016 (the "Amended Security Agreement" and "Amended Patent Agreement," respectively). Additionally, the Agent, for the benefit of the Lenders, was granted a

mortgage and security interest in all of the Company's and its subsidiaries real property as located in the State of Colorado and the State of Texas pursuant to (i) a Leasehold Deed of Trust, Fixture Filing, Assignment of Rents and Leases, and Security Agreements, dated March 7, 2014, as amended May 12, 2016, filed in Weld County and Morgan County, Colorado; and (ii) a Mortgage, Deed of Trust, Security Agreement, Financing Statement and Assignment of Production to be filed in Matagorda County, Texas (collectively, the "Amended Mortgages").

F-16

Other than as described above, the terms of the Amended NPA (including the covenants and obligations thereunder) are substantially the same as the Senior Notes, and the terms of the Tranche A Notes and Tranche B Notes (including the events of default, interest rates and conditions associated therewith) are substantially the same as the original notes sold pursuant to the terms of the Senior Notes.

All debt discount amounts are amortized using the effective interest rate method. The total amount of the debt discount reflected on the accompanying balance sheet as of September 30, 2016 was \$7,926,000. Amortization of debt discount and interest expense was \$4,638,000 and \$5,715,000 for the nine months ended September 30, 2016, respectively, and was \$882,000 and \$2,069,000 for the three months ended September 30, 2016, respectively.

Junior Debt Restructuring

On May 12, 2016, the Company entered into an Amendment No. 2 to Note and Security Agreement with RJC (the "Second Amendment"). The Company and RJC agreed to amend the RJC Junior Note to (i) capitalize all accrued and unpaid interest under the RJC Junior Note as of May 12, 2016, and add it to the note principal, making the outstanding principal amount of the RJC Junior Note as of May 12, 2016 equal to \$9,379,000, (ii) extend the maturity date ("Termination Date") from December 31, 2017 to July 11, 2019, (iii) provide that all future interest accruing under the RJC Junior Note is deferred until payable on the Termination Date, with all future interest amounts deferred being added to the principal on a monthly basis, and (iv) subordinate the RJC Junior Note to the New Senior Notes.

Bridge Note Financing

As of September 30, 2016, the Company had Bridge Notes with an aggregate principal amount of \$475,000 remaining outstanding, plus accrued interest of \$159,000 and additional payment-in-kind ("PIK") of \$48,000. The aggregate principal and accrued and unpaid interest and PIK amounts are available for conversion into common stock pursuant to the terms of the Bridge Notes into common stock of the Company, subject to no more than 19.99% of the Company's outstanding common stock on the date the Second Amended Notes were entered into. Upon a conversion, the applicable holder shall receive that number of shares of common stock as is determined by dividing the Conversion Amount by a conversion price (the "Conversion Price") as follows:

(A)
prior to June 1, 2014, the Conversion Price was \$2.15 per share; and

(B)
following June 1, 2014, the denominator used in the calculation described above is the greater of (i) 80% of the average of the closing price per share of the Company's publicly-traded common stock for the five (5) trading days immediately preceding the date of the conversion notice provided by the holder; and (ii) \$0.50 per share.

Additionally, each Amended Bridge Investor entered into a Subordination and Intercreditor Agreement in favor of the Agent, subordinating and deferring the repayment of the Bridge Notes until full repayment of certain senior notes. The Subordination and Intercreditor Agreements also prohibit the Company from repaying the Bridge Notes until certain senior notes have been paid in full, except that we are allowed to repay the Bridge Notes from net proceeds received from the sale of common or preferred stock (i) in calendar year 2014 if such net proceeds received in such calendar year exceeds \$35,000,000, (ii) in calendar year 2015 if such net proceeds received in such calendar year exceeds \$50,000,000, and (iii) in calendar year 2016 if such net proceeds actually received in such calendar year exceeds \$50,000,000, none of which has occurred to date. The interest expense related to these notes for the three and nine months ended September 30, 2016 and 2015 was \$15,000 compared to \$14,000 and \$43,000 compared to \$43,000, respectively.

The unamortized debt premium on the Convertible Bridge Notes as of September 30, 2016 and December 31, 2015, was \$113,000.

F-17

MIE Jurassic Energy Corporation

On February 14, 2013, PEDCO entered into a Secured Subordinated Promissory Note, as amended on March 25, 2013 and July 9, 2013 (the “MIEJ Note”, as amended through December 31, 2014) with MIEJ.

In February 2015, the Company and PEDCO entered into a Settlement Agreement with MIEJ (the “MIEJ Settlement Agreement”). As part of the MIEJ Settlement Agreement, the Company entered into a new Secured Subordinated Promissory Note, which extinguished the original MIEJ Note, and reduced the principal amount owed from \$6.17 million to \$4.925 million (the “New MIEJ Note”). As of September 30, 2016, the amount outstanding under the New MIEJ Note was \$4,925,000. The Company recognized a gain on debt extinguishment during the three months ended March 31, 2015 related to these transactions of \$2,192,000.

The New MIEJ Note has an interest rate of 10.0%, with no interest due until maturity, is secured by all of the Company’s assets, and is subordinated to the Secured Promissory Notes. MIEJ also agreed to subordinate its note up to an additional \$60 million of new senior lending, with any portion of new senior lending in excess of this amount requiring to be paid first to MIEJ until the New MIEJ Note is paid in full. Further, for every \$20 million in new senior lending the Company raises, MIEJ shall be paid all interest and fees accrued to date on the New MIEJ Note. The New MIEJ Note was due and payable on March 8, 2017, subject to automatic extensions upon the occurrence of a Long Term Financing or PEDEVCO Senior Lending Restructuring (each as defined below), which as described below has occurred to date.

On a onetime basis, the Secured Promissory Notes may be refinanced by a new loan (“Long-Term Financing”) by one or more third party replacement lenders (“Replacement Lenders”), and in such event the Company shall undertake commercially reasonable best efforts to cause the Replacement Lenders to simultaneously refinance both the Secured Promissory Notes and the New MIEJ Note as part of such Long-Term Financing. If the Replacement Lenders are unable or unwilling to include the New MIEJ Note in such financing, then the Long-Term Financing may proceed without including the New MIEJ Note, and the New MIEJ Note shall remain in place and shall be automatically subordinated, without further consent of MIEJ, to such Long-Term Financing. Furthermore, upon the occurrence of a Long-Term Financing, the maturity of the New MIEJ Note is automatically extended to the same maturity date of the Long-Term Financing, but to no later than March 8, 2020. Additionally, in connection with the Long-Term Financing:

The Long-Term Financing must not exceed \$95 million;

The Company must make commercially reasonable best efforts to include adequate reserves or other payment provisions whereby MIEJ is paid all interest and fees accrued on the New MIEJ Note commencing as of March 8, 2017 and annually thereafter, and to allow for quarterly interest payments starting March 31, 2017 of not less than 5% per annum on the outstanding balance of the New MIEJ Note, plus a one-time payment of accrued interest (not to exceed \$500,000) as of March 31, 2017; and

Commencing on March 8, 2017, MIEJ shall have the right to convert the balance of the New MIEJ Note into the Company’s common stock at a price equal to 80% of the average closing price per share of our stock over the then previous 60 days, subject to a minimum conversion price of \$0.30 per share. MIEJ shall not be permitted to convert if the conversion would result in MIEJ holding more than 19.9% of the Company’s outstanding common stock without approval from the Company’s shareholders, which the Company has agreed to seek at its 2016 annual shareholder meeting or, if not approved then, at its 2017 annual shareholder meeting.

In the event the Secured Promissory Notes are not refinanced, restructured or extended by the existing Investors, the maturity of both the New MIEJ Note and the Secured Promissory Notes may be extended to no later than March 8, 2019, without requiring the consent of MIEJ. However, (i) any such maturity extension of the New MIEJ Note will give MIEJ the right to convert the note into our common stock as described above, commencing on March 8, 2017, and (ii) such extension agreement must provide that MIEJ is paid all interest and fees accrued on the New MIEJ Note as of March 8, 2018. The New MIEJ Note may be prepaid any time without penalty.

As a result of the Company's May 2016 senior debt restructuring pursuant to the Amended NPA (as described above under "Note Purchase Agreement and Sale of Secured Promissory Notes" – "2016 Senior Note Restructuring"), the maturity date of the New MIEJ Note has automatically been extended to March 8, 2019 and MIEJ has the Right of Conversion (described above) beginning on March 8, 2017.

F-18

The interest expense related to this note for the three and nine months ended September 30, 2016 and 2015 was \$123,000 compared to \$41,000 and \$371,000 compared to \$367,000, respectively.

For financial reporting purposes, MIEJ was considered a related party for all periods presented prior to the MIEJ Settlement Agreement signed in February 2015. After that date, MIEJ was no longer considered a related party.

Related Party Financings

Subordinated Note Payable Assumed

In 2015, the Company assumed approximately \$8.35 million of subordinated note payable from GGE in the acquisition of the GGE Acquired Assets. The amount outstanding as of September 30, 2016 equaled \$9,868,000. The lender under the subordinated note payable is RJC, which is one of the lenders under the Senior Notes and is an affiliate of GGE. The note was originally due and payable on December 31, 2017. The assumed note payable is subordinate and subject to the terms and conditions of the Senior Notes, as well as any future secured indebtedness from a lender with an aggregate principal amount of at least \$20,000,000. Should the Company repay the Senior Notes or replace them with secured indebtedness from a lender with an aggregate principal amount of at least \$20,000,000, RJC agreed to further amend the subordinated note payable to adjust the frequency of interest payments or to eliminate the payments and replace them with a single payment of the accrued interest to be paid at maturity.

As consideration for deferral of payments and related note amendments, on September 10, 2015, the Company granted RJC warrants exercisable on a cash-only basis for an aggregate of 265,241 shares (which are included in the aggregate total of 1,201,004 shares issuable upon exercise of warrants issued to the Investors as described above under "Note Purchase Agreement and Sale of Secured Promissory Notes" in the Notes above). The warrants have a three year term and were exercisable on a cash-only basis at a price of \$0.75 per share.

The interest expense related to this note for the three and nine months ended September 30, 2016 and 2015 was \$297,000 compared to \$74,000 and \$858,000 compared to \$430,000, respectively.

2016 RJC Subordinated Note Deferrals

On January 29, 2016 and March 7, 2016, the Company entered into agreements with RJC to defer until maturity the payment of interest and principal due under the subordinated note through March 31, 2016, and return the interest rate to 12% per annum effective January 31, 2016.

The deferral period was further extended on May 12, 2016, on which date the Company entered into an Amendment No. 2 to Note and Security Agreement with RJC (the "Second Amendment"). The Company and RJC agreed to amend the RJC Junior Note to (i) capitalize all accrued and unpaid interest under the RJC Junior Note as of May 12, 2016, and add it to the note principal, making the outstanding principal amount of the RJC Junior Note as of June 12 2016 equal to \$9,379,432, (ii) extend the maturity date ("Termination Date") from December 31, 2017 to July 11, 2019, (iii) provide that all future interest accruing under the RJC Junior Note is deferred until payable on the Termination Date, with all future interest amounts deferred being added to the principal on a monthly basis, and (iv) subordinate the RJC Junior Note to the New Senior Notes. The warrants previously issued to RJC on September 10, 2015 were also amended to provide that such warrants are exercisable on a cashless basis and to include a Blocker Provision.

For the nine-month period ended September 30, 2016, interest deferred and capitalized since May 12, 2016, under Amendment No. 2 to the Note amounted to \$488,000 and amounted to a total deferred of \$950,000 since January 1, 2016. The outstanding principal amount of the RJC Junior Note as of September 30, 2016 was equal to \$9,868,000.

F-19

NOTE 9 – INCOME TAXES

Due to the Company's net losses, there was no provision for income taxes for the nine months ended September 30, 2016 and 2015.

The difference between the income tax expense of zero shown in the statement of operations and pre-tax book net loss times the federal statutory rate of 34% is principally due to the increase in the valuation allowance.

Changes in deferred income tax assets as of September 30, 2016 and December 31, 2015 are as follows (in thousands):

	For the Nine Months Ended September 30,	For the Year Ended December 31,
	2016	2015
Deferred Tax Assets (Liabilities)		
Difference in depreciation, depletion, and capitalization methods – oil and natural gas properties	\$212	\$1,863
Net operating losses	3,450	4,131
Impairment – oil and natural gas properties	-	(1,122)
Other	438	753
Total deferred tax asset	4,100	5,625
Less: valuation allowance	(4,100)	(5,625)
Total deferred tax assets	\$-	\$-

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of deferred assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Based on the available objective evidence, management believes it is more likely than not that the net deferred tax assets will not be fully realizable. Accordingly, management has applied a full valuation allowance against its net deferred tax assets at September 30, 2016. The net change in the total valuation allowance for the nine months ended September 30, 2016 was an increase of \$4,100,000.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of September 30, 2016, the Company did not have any significant uncertain tax positions or unrecognized tax benefits. The Company did not have associated accrued interest or penalties, nor were any interest expense or penalties recognized during the period from February 9, 2011 (Inception) through September 30, 2016.

As of September 30, 2016, the Company had gross net operating loss carryforwards (“NOLs”) of approximately \$123,116,000 of which \$49,922,000 are subject to limitations for federal and state tax purposes. If not utilized, these losses will begin to expire beginning in 2032 and 2023, respectively, for both federal and state purposes.

Utilization of NOL and tax credit carryforwards may be subject to a substantial annual limitation due to ownership change limitations that may have occurred or that could occur in the future, as required by the Internal Revenue Code (the “Code”), as amended, as well as similar state provisions. In general, an “ownership change” as defined by the Code results from a transaction or series of transactions over a three-year period resulting in an ownership change of more than 50% of the outstanding stock of a company by certain stockholders or public groups.

Due to the impact of temporary and permanent differences between the book and tax calculations of net loss, the Company experiences an effective tax rate above the federal statutory rate of 34%.

F-20

NOTE 10 – COMMITMENTS AND CONTINGENCIES

Office Lease

In May 2016, the Company entered into a lease addendum to the original lease agreement signed in July 2012, as amended, which extends the term of the lease by an additional one year, now ending in July 2017, for its corporate office space located in Danville, California. The obligation under this one year lease extension for the remainder of 2016 and the first seven months of 2017 is \$47,000.

In September 2014, the Company entered into a lease agreement for office space located in Houston, Texas, with a term of five years ending on March 1, 2020, which location served as the Company's operations office. Effective April 1, 2016, the Company terminated this lease agreement and issued the landlord 700,000 shares of common stock valued at \$161,000, with no further obligations due thereunder.

Leasehold Drilling Commitments

The Company's oil and gas leasehold acreage is subject to expiration of leases if the Company does not drill and hold such acreage by production. In the D-J Basin Asset, 5 net acres are due to expire during the three months remaining in 2016 (4,602 net acres did expire during the nine months ended September 30, 2016), 584 net acres expire in 2017, 392 net acres expire in 2018, 127 net acres expire in 2019, and 1,290 net acres expire thereafter. Where the Company is not able to drill and complete a well before lease expiration, the Company may seek to extend leases where able. In March 2015, the Company fully impaired its unproved leasehold costs based on management's revised re-leasing program, however, it continues to retain its rights to the unexpired leases.

Other Commitments

On December 18, 2015, a complaint was filed against Red Hawk, our wholly-owned subsidiary, in the District Court, County of Weld, State of Colorado (Case Number: 2015CV31079) (the "Court"), pursuant to which Liberty Oilfield Services, LLC ("Liberty") made various claims against Red Hawk in connection with certain completion services provided by Liberty to Red Hawk in November and December 2014, and accrued in accounts payable as of December 31, 2014. The complaint alleges causes of action for foreclosure of lien, breach of contract, quantum meruit and account stated, and seeks payment of amounts allegedly owed, pre- and post-judgment interest, attorneys' fees and court costs in connection with Red Hawk's alleged failure to pay Liberty approximately \$2.9 million in fees due for completion services provided by Liberty. On May 12, 2016, the Company and Liberty entered into a settlement agreement, pursuant to which the Company paid to Liberty \$750,000 and issued 2,450,000 fully-vested shares of the Company's restricted common stock, valued at \$588,000, based on the market price on the grant date, as full settlement of all amounts due for the services previously rendered, for which the Company owed approximately \$2.6 million. As a result of the settlement, the Company recognized a gain on settlement of payables of \$1,282,000 during the three and nine months ended September 30, 2016.

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we are not currently a party to any material legal proceeding. In addition, we are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

As part of its regular operations, the Company may become party to various pending or threatened claims, lawsuits and administrative proceedings seeking damages or other remedies concerning its commercial operations, products, employees and other matters.

Although the Company provides no assurance about the outcome of these or any other pending legal and administrative proceedings and the effect such outcomes may have on the Company, the Company believes that any ultimate liability resulting from the outcome of such proceedings, to the extent not otherwise provided for or covered by insurance, will not have a material adverse effect on the Company's financial condition or results of operations.

F-21

NOTE 11 – SHAREHOLDERS’ EQUITY

PREFERRED STOCK

At September 30, 2016, the Company was authorized to issue 100,000,000 shares of preferred stock, \$0.001 par value per share, of which 66,625 shares have been designated “Series A Convertible Preferred Stock” (the “Series A Preferred”).

On February 23, 2015, the Company issued 66,625 Series A Preferred to GGE as part of the consideration paid for the GGE Acquired Assets. The fair value of the Series A Preferred was \$28,402,000 based on a calculation using a binomial lattice model. See Note 14.

The 66,625 shares of Series A Preferred issued to GGE are redeemable and contingently convertible in 4 tranches as follows: (i) 15,000 shares in Tranche One; (ii) 15,000 shares in Tranche Two; (iii) 11,625 shares in Tranche Three; and (iv) 25,000 shares in Tranche Four.

In addition, the 66,625 shares of Series A Preferred issued to GGE originally had the following features:

a liquidation preference senior to all of the Company’s common stock equal to \$400 per share;

a dividend, payable annually, of 10% of the liquidation preference;

voting rights on all matters, with each share having 1 vote; and

a conversion feature at GGE’s option, which must be approved by a majority of the shareholders of the Company which will allow the Series A Preferred to be converted into shares of the Company’s common stock on a 1,000:1 basis.

However, following the October 7, 2015, approval of the Company shareholders of the issuance of shares of common stock upon the conversion of the Series A Preferred, the Series A Preferred features have been modified as follows:

the Series A Preferred ceased accruing dividends and all accrued and unpaid dividends have been automatically forfeited and forgiven; and

the liquidation preference of the Series A Preferred has been reduced to \$0.001 per share from \$400 per share.

GGE was also subject to a lock-up provision that prohibited it from selling the shares of common stock through the public markets for less than \$1 per share (on an as-converted to common stock basis) until February 23, 2016, and in no event may GGE convert shares of Series A Preferred if upon such conversion it would beneficially own more than 9.99% of our outstanding common stock or voting stock.

The Series A Preferred ceased being redeemable on November 23, 2015, per the Series A Certification of Designations, if the Company did not repurchase any shares within nine months of the initial Series A issuance, the Company lost the right to redeem any of the Series A Preferred and the holder also lost the right to force any

redemption.

As of September 30, 2016 and December 31, 2015, there were 66,625 shares of the Company's Series A Preferred outstanding, 7,500 shares of which are subject to cancellation and forfeiture as described further in Note 8 above due to RJC's failure to meet its RJC Funding obligations under the Amended NPA.

COMMON STOCK

At September 30, 2016, the Company was authorized to issue 200,000,000 shares of its common stock with a par value of \$0.001 per share.

During the nine months ended September 30, 2016, the Company issued shares of common stock or restricted common stock as follows:

F-22

On January 7, 2016, the Company issued 1,750,000 shares of its restricted common stock with a fair value of \$385,000, based on the market price on the date of issuance, to certain of its employees, including 600,000 shares to its Chairman and then Chief Executive Officer, Frank C. Ingriselli, 600,000 shares to its President and then Chief Financial Officer, Michael L. Peterson, and 550,000 shares to its Executive Vice President and General Counsel, Clark R. Moore, all pursuant to the Company's 2012 Amended and Restated Equity Incentive Plan and in connection with the Company's 2015 annual equity incentive compensation review process. 50% of the shares vest on the six month anniversary of the grant date, 30% vest on the twelve month anniversary of the grant date and 20% vest on the eighteen month anniversary of the grant date, all contingent upon the recipient's continued service with the Company.

On April 5, 2016, the Company issued 700,000 shares of Company common stock to the Company's Houston office landlord in connection with the termination of the Company's Houston office lease, valued at \$161,000, based on the market price on the date of grant.

On May 12, 2016, the Company and Liberty entered into a settlement agreement, pursuant to which the Company paid to Liberty \$750,000 and issued 2,450,000 fully-vested shares of the Company's restricted common stock, valued at \$588,000, based on the market price on the grant date, as full settlement of all amounts due for the services previously rendered, for which the Company owed approximately \$2.6 million. As of December 31, 2015 and March 31, 2016, the Company had accrued \$2,620,000 in accounts payable. As a result of the settlement, the Company recognized a gain on settlement of payables of \$1,282,000 during the nine months ended September 30, 2016.

On April 15, 2016, there were 45,000 shares of unvested restricted stock forfeited in connection with the termination of an employee.

On April 28, 2016, there were 323,490 total shares repurchased and retired by the Company from two employees to satisfy tax withholding obligations arising from vesting of equity awards at \$0.23 per share.

On July 5, 2016, the Company issued 81,290 shares of the Company's common stock to Mr. Frank C. Ingriselli, the Company's Chairman, member of the Board of Directors, and former Chief Executive Officer, in connection with the exercise of stock options by Mr. Ingriselli.

As of September 30, 2016, there were 49,849,297 shares of common stock outstanding.

Stock-based compensation expense recorded related to the vesting of restricted stock during the three and nine months ended September 30, 2016 and 2015 was \$95,000 compared to \$599,000 and \$904,000 compared to \$2,117,000, respectively. The remaining unamortized stock-based compensation expense at September 30, 2016 related to restricted stock was \$154,000.

NOTE 12 – STOCK OPTIONS AND WARRANTS

Blast 2003 Stock Option Plan and 2009 Stock Incentive Plan

As of September 30, 2016, 3,424 shares of common stock granted under the 2003 Stock Option Plan and 2009 Stock Incentive Plan approved when the Company was known as Blast Energy Services, Inc. ("Blast") remain outstanding and exercisable at a weighted average exercise price of \$35.05. No options were issued under these plans during the nine months ended September 30, 2016.

2012 Incentive Plan

On July 27, 2012, the shareholders of the Company approved the 2012 Equity Incentive Plan (the “2012 Incentive Plan”), which was previously approved by the Board of Directors on June 27, 2012, and authorizes the issuance of various forms of stock-based awards, including incentive or non-qualified options, restricted stock awards, performance shares and other securities as described in greater detail in the 2012 Incentive Plan, to the Company’s employees, officers, directors and consultants. The 2012 Incentive Plan was amended on June 27, 2014 and October 7, 2015 to increase by 5,000,000 and 3,000,000, respectively, the number of shares of common stock reserved for issuance under the Plan. A total of 10,000,000 shares of common stock are eligible to be issued under the 2012 Incentive Plan, of which 6,139,170 shares have been issued as restricted stock, 3,067,000 shares are subject to issuance upon exercise of issued and outstanding options, and 793,830 remain available for future issuance as of September 30, 2016.

PEDCO 2012 Equity Incentive Plan

As a result of the July 27, 2012 merger by and between the Company, Blast Acquisition Corp., a wholly-owned Nevada subsidiary of the Company (“MergerCo”), and Pacific Energy Development Corp., a privately-held Nevada corporation (“PEDCO”) pursuant to which MergerCo was merged with and into PEDCO, with PEDCO continuing as the surviving entity and becoming a wholly-owned subsidiary of the Company, in a transaction structured to qualify as a tax-free reorganization (the “Merger”), the Company assumed the PEDCO 2012 Equity Incentive Plan (the “PEDCO Incentive Plan”), which was adopted by PEDCO on February 9, 2012. The PEDCO Incentive Plan authorized PEDCO to issue an aggregate of 1,000,000 shares of common stock in the form of restricted shares, incentive stock options, non-qualified stock options, share appreciation rights, performance shares, and performance units under the PEDCO Incentive Plan. As of September 30, 2016, options to purchase an aggregate of 310,136 shares of the Company’s common stock and 571,115 shares of the Company’s restricted common stock have been granted under this plan (all of which were granted by PEDCO prior to the closing of the merger with the Company, with such grants being assumed by the Company and remaining subject to the PEDCO Incentive Plan following the consummation of the merger). The Company does not plan to grant any additional awards under the PEDCO Incentive Plan.

Options

On January 7, 2016, the Company granted options to purchase an aggregate of 1,660,000 shares of common stock to certain of its consultants and employees at an exercise price of \$0.22 per share, including an option to purchase 280,000 shares to its then Chairman and then Chief Executive Officer (prior to his retirement) Frank C. Ingriselli, an option to purchase 300,000 shares to its then President and then Chief Financial Officer Michael L. Peterson, and an option to purchase 280,000 shares to its Executive Vice President and General Counsel Clark R. Moore, all pursuant to the Company’s 2012 Amended and Restated Equity Incentive Plan and in connection with the Company’s 2014 annual equity incentive compensation review process. The options have terms of five years and fully vest in January 2018. 50% vest six months from the date of grant, 30% vest one year from the date of grant and 20% vest eighteen months from the date of grant, all contingent upon the recipient’s continued service with the Company. The aggregate fair value of the options on the date of grant, using the Black-Scholes model, was \$183,000. Variables used in the Black-Scholes option-pricing model for the options issued include: (1) a discount rate of 1.61%, (2) expected term of 3.5 years, (3) expected volatility of 69%, and (4) zero expected dividends.

During the three and nine months ended September 30, 2016 and 2015, the Company recognized stock option expense of \$22,000 compared to \$102,000 and \$278,000 compared to \$384,000, respectively. The remaining amount of unamortized stock options expense at September 30, 2016, was \$33,000.

The intrinsic value of outstanding and exercisable options at September 30, 2016 was \$0 and \$0, respectively.

The intrinsic value of outstanding and exercisable options at December 31, 2015 was \$6,000 and \$6,000, respectively.

F-24

Option activity during the nine months ended September 30, 2016 was:

	Weighted Average		
	Weighted	Remaining	
	Average	Contract	
	Number of	Exercise	Term
	Shares	Price	(# years)
Outstanding at January 1, 2016	3,058,890	\$0.80	4.8
Granted	1,660,000	0.22	4.3
Exercised	(81,290)	0.22	-
Forfeited and cancelled	(328,710)	0.93	-
Outstanding at September 30, 2016	4,308,890	\$0.57	4.4
Exercisable at September 30, 2016	3,024,839	\$0.66	4.5

Warrants

On May 12, 2016, as consideration for the entry into the Amended NPA, the Company granted to BHLN and BBLN, warrants exercisable for an aggregate of 5,962,800 shares of common stock of the Company (the “Investor Warrants”). The warrants have a 3 year term, are transferrable, and are exercisable on a cashless basis at any time at \$0.25 per share, subject to receipt of additional listing approval of such underlying shares of common stock from the NYSE MKT (which additional listing approval was received from the NYSE MKT on June 1, 2016). The Investor Warrants include a beneficial ownership limitation that prohibits the exercise of the Investor Warrants to the extent such exercise would result in the holder, together with its affiliates, holding more than 9.99% of the Company’s outstanding voting stock (the “Blocker Provision”). The estimated fair value of the Investor Warrants issued is approximately \$707,000 based on the Black-Scholes option pricing model. The relative fair value allocated to the Tranche A Notes and recorded as debt discount was \$636,000.

Other than the Investor Warrants, no additional warrants exercisable for common stock of the Company are due, owing, or shall be granted to the Lenders pursuant to the Senior Notes. In addition, warrants exercisable for an aggregate of 349,111 shares of the Company’s common stock at an exercise price of \$1.50 per share and warrants exercisable for an aggregate of 1,201,004 shares of the Company’s common stock at an exercise price of \$0.75 per share previously granted by the Company to certain of the Lenders on September 10, 2015 in connection with prior interest payment deferrals have been amended and restated to provide that all of such warrants are exercisable on a cashless basis and include a Blocker Provision (the “Amended and Restated Warrants”).

During the three and nine months ended September 30, 2016 and 2015, the Company recognized warrant expense of \$-0- compared to \$19,000 and \$-0- compared to \$669,000, respectively. The remaining amount of unrecognized warrant expense at September 30, 2016 was \$-0-.

The intrinsic value of outstanding as well as exercisable warrants at September 30, 2016 and December 31, 2015 was \$-0- and \$-0-, respectively.

F-25

Warrant activity during the nine months ended September 30, 2016 was:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contract Term (# years)
Outstanding at January 1, 2016	7,803,282	\$1.78	3.0
Granted	5,962,800	0.25	
Exercised	-	-	
Forfeited and cancelled	(1,200,003)	4.50	
Outstanding at September 30, 2016	12,566,079	\$0.80	2.6
Exercisable at September 30, 2016	12,566,079	\$0.80	2.6

NOTE 13 – RELATED PARTY TRANSACTIONS

Note Amendments and Warrant Issuances to RJC

See Note 8 for a discussion of certain amendments to the Senior Note and subordinated note held by RJC.

See Note 8 for a discussion of certain warrants issued to RJC by the Company in connection with the amendment of the Senior Note and subordinated note held by RJC.

GGE Acquisition

As a result of the 66,625 restricted shares of the Company's Series A Convertible Preferred issued to GGE which can be converted into shares of the Company's common stock on a 1,000:1 basis as described in greater detail in Note 11 above) and the appointment by GGE, and election, of a GGE representative to the Company's Board of Directors, GGE became a related party to the Company as of that date. The following table reflects the related party amounts for GGE included in the September 30, 2016 balance sheet (in thousands):

	As of September 30, 2016
Accounts receivable	\$-
Accrued expenses	\$(411)
Long-term notes payable - Secured Promissory Notes, net of discount	\$(15,588)

NOTE 14 – FAIR VALUE

As defined in our accounting policy on the fair value of financial instruments, financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's

assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

F-26

The following table sets forth by level within the fair value hierarchy our financial instruments that were accounted for at fair value as of September 30, 2016 (in thousands):

Fair Value Measurements at September 30, 2016

	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Total Carrying Value
	(Level 1)	(Level 2)	(Level 3)	
Series A Convertible Preferred Stock	\$-	\$-	\$28,402	\$28,402

The Company believes there is no active market or significant other market data for the Series A Preferred as it is held by a limited number of closely held entities, therefore the Company has determined it should use Level 3 inputs.

The Series A Convertible Preferred was valued using the binomial lattice model of which the significant assumptions were the expected term and expected volatility. The binomial lattice model used a probabilistic approach in which the Company assigned percentages to each scenario based on the chance of repayment. The percentages used were as follows: the non-repayment scenario was assigned a 25% probability and the repayment scenario was assigned a 75% probability.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Some of the statements contained in this report discuss future expectations, contain projections of results of operations or financial condition, or state other "forward-looking" information. The words "believe," "intend," "plan," "expect," "anticipate," "estimate," "project," "goal" and similar expressions identify such a statement was made, although not all forward-looking statements contain such identifying words. These statements are subject to known and unknown risks, uncertainties, and other factors that could cause the actual results to differ materially from those contemplated by the statements. The forward-looking information is based on various factors and is derived using numerous assumptions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, the risks discussed in this and our other SEC filings. We do not promise to or take any responsibility to update forward-looking information to reflect actual results or changes in assumptions or other factors that could affect those statements except as required by law. Future events and actual results could differ materially from those expressed in, contemplated by, or underlying such forward-looking statements.

Forward-looking statements may include statements about our:

business strategy;

reserves;

technology;

cash flows and liquidity;

financial strategy, budget, projections and operating results;

oil and natural gas realized prices;

timing and amount of future production of oil and natural gas;

availability of oil field labor;

the amount, nature and timing of capital expenditures, including future exploration and development costs;

availability and terms of capital;

drilling of wells;

government regulation and taxation of the oil and natural gas industry;

marketing of oil and natural gas;

exploitation projects or property acquisitions;

costs of exploiting and developing our properties and conducting other operations;

general economic conditions;

competition in the oil and natural gas industry;

effectiveness of our risk management activities;

environmental liabilities;

counterparty credit risk;

developments in oil-producing and natural gas-producing countries;

future operating results;

planned combination transaction with GOM Holdings, LLC;

estimated future reserves and the present value of such reserves; and plans, objectives, expectations and intentions contained in this report that are not historical.

All forward-looking statements speak only at the date of the filing of this Quarterly Report. The reader should not place undue reliance on these forward-looking statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements we make in this Quarterly Report are reasonable, we provide no assurance that these plans, intentions or expectations will be achieved. We disclose important factors that could cause our actual results to differ materially from our expectations under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Quarterly Report and our Annual Report on Form 10-K filed with the SEC on March 29, 2016. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf. We do not undertake any obligation to update or revise publicly any forward-looking statements except as required by law, including the securities laws of the United States and the rules and regulations of the SEC.

The following is management's discussion and analysis of the significant factors that affected the Company's financial position and results of operations during the periods included in the accompanying unaudited consolidated financial statements. You should read this in conjunction with the discussion under "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" and the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2015, as amended, and the unaudited consolidated financial statements included in this quarterly report.

Certain abbreviations and oil and gas industry terms used throughout this Report are described and defined in greater detail under "Glossary of Oil And Natural Gas Terms" on page 26 of our Annual Report on Form 10-K for the year ended December 31, 2015, as filed with the Securities and Exchange Commission on March 29, 2016.

Certain capitalized terms used below but not otherwise defined, are defined in, and shall be read along with the meanings given to such terms in, the notes to the unaudited financial statements of the Company for the nine months ended September 30, 2016, above.

Unless the context requires otherwise, references to the "Company," "we," "us," "our," "PEDEVCO" and "PEDEVCO Corp." specifically to PEDEVCO Corp. and its wholly and majority owned subsidiaries.

In addition, unless the context otherwise requires and for the purposes of this report only:

"Exchange Act" refers to the Securities Exchange Act of 1934, as amended;

"SEC" or the "Commission" refers to the United States Securities and Exchange Commission; and

"Securities Act" refers to the Securities Act of 1933, as amended.

General Overview

We are an energy company engaged primarily in the acquisition, exploration, development and production of oil and natural gas shale plays in the Denver-Julesburg Basin ("D-J Basin") in Colorado, which contains hydrocarbon bearing deposits in several formations, including the Niobrara, Codell, Greenhorn, Shannon, J-Sand, and D-Sand. As of September 30, 2016, we held approximately 11,556 net D-J Basin acres located in Weld County, Colorado through our wholly-owned operating subsidiary, Red Hawk Petroleum, LLC ("Red Hawk"), which asset we refer to as our "D-J Basin Asset." As of September 30, 2016, we hold interests in 61 gross (17.4 net) wells in our D-J Basin Asset, of which 14 gross (12.5 net) wells are operated by Red Hawk and currently producing, 25 gross (4.9 net) wells are non-operated and 22 wells have an after-payout interest.

We believe that the D-J Basin shale play represents among the most promising unconventional oil and natural gas plays in the U.S. We plan to continue to opportunistically seek additional acreage proximate to our currently held acreage. Our strategy is to be the operator, directly or through our subsidiaries and joint ventures, in the majority of our acreage so we can dictate the pace of development in order to execute our business plan.

We have listed below the total production volumes and total revenue net to the Company for the three and nine months ended September 30, 2016 and 2015 attributable to our D-J Basin Asset, including the calculated production volumes and revenue numbers for our D-J Basin Asset held indirectly through Condor that would be net to our interest if reported on a consolidated basis and production realized from our recent D-J Basin Acquisition beginning February 23, 2015 (described in greater detail below in “D-J Basin Asset Acquisition”).

	Three Months Ended September 30, 2016	Three Months Ended September 30, 2015
Oil volume (BBL)	25,617	25,256
Gas volume (MCF)	51,896	112,239
Volume equivalent (BOE) (1)	34,266	43,963
Revenue (000's)	\$1,218	\$1,318

	Nine Months Ended September 30, 2016	Nine Months Ended September 30, 2015
Oil volume (BBL)	74,022	99,093
Gas volume (MCF)	135,111	248,348
Volume equivalent (BOE) (1)	96,541	140,484
Revenue (000's)	\$3,003	\$4,623

(1) Assumes 6 Mcf of natural gas is equivalent to 1 barrel of oil.

Strategy

The majority of our capital expenditure budget for the next twelve months will be focused on the development of our D-J Basin Asset. Our development plan calls for the development of approximately \$35.6 million in capital expenditures (of which \$5.1 million has been deployed to acquire interests in 2.1 net short lateral wells already in 2016) in order to drill and complete, participate in the drilling and completion of, and/or acquire approximately 8.5 net wells in our D-J Basin Asset for the next twelve months. We plan to fund our operations and business plan by utilizing projected cash flow from operations, a \$26 million debt facility we closed in May 2016, our cash on hand and proceeds from future potential debt and/or equity financings, which may include drilling partnerships. In addition, we may seek additional funding through asset sales, farm-out arrangements, lines of credit, or public or private debt or equity financings to fund additional 2016-2017 capital expenditures and/or repay or refinance a portion or all of our outstanding debt. If market conditions are not conducive to raising additional funds, the Company may choose to extend the drilling program and associated capital expenditures further into 2017.

Recent Developments

GOM Merger

On February 29, 2016, the Company entered into an Amendment No. 1 to Agreement and Plan of Merger and Reorganization (the “Amendment”) with White Hawk Energy, LLC, a wholly-owned subsidiary of the Company (“White Hawk”), and GOM Holdings, LLC (“GOM”), which amends that certain Agreement and Plan of Merger and Reorganization entered into by and among the Company, White Hawk and GOM on December 29, 2015 (the “GOM

Merger Agreement”). In order to provide GOM additional time to meet certain closing conditions contemplated by the GOM Merger Agreement, the parties entered into the Amendment to extend the deadline for closing the merger and the date after which either party could terminate the GOM Merger Agreement if the merger had not yet been consummated, from February 29, 2016 to no later than April 15, 2016.

On April 25, 2016, the Company entered into an Amendment No. 2 to the GOM Merger Agreement (the “Amendment No. 2”) with White Hawk and GOM, which further amends the GOM Merger Agreement in order to provide GOM additional time to meet certain closing conditions contemplated by the GOM Merger Agreement. Pursuant to the Amendment No. 2, the parties agreed to remove the deadline for closing the merger and work expeditiously in good faith toward closing.

In order for the Company to move forward with the GOM Merger, it is requiring that GOM improve its financial position, including pay off certain amounts of its accounts payable. On October 19, 2016, GOM notified the Company that it had received funding of approximately \$7.5 million that has been deposited into an escrow account and that will be used to pay down its accounts payable once certain funding requirements have been met by GOM. The Company is encouraged by this news as it is a requisite step necessary for closing. The Company and GOM continue to move forward with the merger, which the Company is working to close as soon as possible, subject to satisfaction of closing conditions including possible approval by applicable bankruptcy courts.

At-The-Market Offering

On September 29, 2016, the Company entered into an At Market Issuance Sales Agreement (the “Sales Agreement”) with National Securities Corporation (“NSC”), a wholly owned subsidiary of National Holdings Corporation (NasdaqCM:NHLD), pursuant to which the Company may issue and sell shares of its common stock, having an aggregate offering price of up to \$2,000,000 (the “Shares”) from time to time, as the Company deems prudent, through NSC (the “Offering”). Also, on September 29, 2016, the Company filed a prospectus supplement with the Securities and Exchange Commission in connection with the Offering (the “Prospectus Supplement”) under its existing shelf registration statement, which became effective on November 5, 2013 (File No. 333-191869). Upon delivery of a placement notice and subject to the terms and conditions of the Sales Agreement, NSC may sell the Shares by methods deemed to be an “at the market offering” as defined in Rule 415 promulgated under the Securities Act, including sales made directly on or through the NYSE MKT, on any other existing trading market for the Company’s common stock or sales made to or through a market maker. With the Company’s prior written approval, NSC may also sell the Shares by any other method permitted by law, including in negotiated transactions. The Company may elect not to issue and sell any Shares in the Offering and the Company or NSC may suspend or terminate the offering of Shares upon notice to the other party and subject to other conditions. NSC will act as sales agent on a commercially reasonable efforts basis consistent with its normal trading and sales practices and applicable state and federal law, rules and regulations and the rules of the NYSE MKT. The Company has agreed to pay NSC commissions for its services in acting as agent in the sale of the Shares in the amount equal to 3.0% of the gross sales price of all Shares sold pursuant to the Agreement. The Company also agreed to pay various expenses in connection with the offering, including reimbursing up to \$30,000 of NSC’s legal fees, which is to be paid in three (3) installments as follows: (a) \$10,000 on the date of the parties’ entry into the Sales Agreement, (b) \$10,000 on the date that is thirty (30) days from the date of the Sales Agreement, and (c) the balance due (not to exceed \$10,000) on the date that is sixty (60) days from the date of the Sales Agreement. The Company has also agreed to provide NSC with customary indemnification and contribution rights. The Company intends to use the net proceeds from the offering, if any, to fund development and for working capital and general corporate purposes, including general and administrative purposes. The Company is not obligated to make any sales of common stock under the Sales Agreement, and no assurance can be given that the Company will sell any shares under the Sales Agreement, or, if it does, as to the price or amount of Shares that it will sell, or the dates on which any such sales will take place. As of the date of this filing, the Company has issued and sold no shares in the Offering.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make judgments, estimates and assumptions in the preparation of our consolidated financial statements and accompanying notes. Actual results could differ from those estimates. We believe there have been no significant changes in our critical accounting policies as discussed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Results of Operations and Financial Condition

All of the numbers presented below are rounded numbers and should be considered as approximate.

Comparison of the Three Months Ended September 30, 2016 with the Three Months Ended September 30, 2015

Oil and Gas Revenue. For the three months ended September 30, 2016, we generated a total of \$1,218,000 in revenues from the sale of oil and gas, compared to \$1,318,000 for the three months ended September 30, 2015. The decrease of \$100,000 was primarily due to a small decline in production from our oil and gas assets (this decline was a result of the natural decline in production from these wells).

Lease Operating Expenses. For the three months ended September 30, 2016, lease operating expenses associated with our oil and gas properties were \$512,000, compared to \$495,000 for the three months ended September 30, 2015, an increase of \$17,000.

Exploration Expense. For the three months ended September 30, 2016, exploration expense was \$14,000, compared to \$165,000 for the three months ended September 30, 2015. The decrease of \$151,000 was primarily due to less exploration activity undertaken by the Company in the current period due to price volatility in the oil markets and capital constraints.

Selling, General and Administrative Expenses. For the three months ended September 30, 2016, selling, general and administrative (“SG&A”) expenses were \$597,000, compared to \$1,389,000 for the three months ended September 30, 2015. The decrease of \$792,000 was primarily due to decreases in stock compensation expense, as well as payroll, as shown in the table below. The components of SG&A expenses are summarized below (amounts in thousands):

	For the Three Months Ended		
	Ended September 30,		Increase/
(in thousands)	2016	2015	(Decrease)
Payroll and related costs	\$264	\$461	\$(197)
Stock-based compensation expense	117	701	(584)
Legal fees	31	22	9
Accounting and other professional fees	115	78	37
Insurance	28	20	8
Travel and entertainment	5	17	(12)
Bad debt expense	-	-	-
Office rent, communications and other	37	90	(53)
	\$597	\$1,389	\$(792)

Depreciation, Depletion and Amortization and Accretion (“DD&A”). For the three months ended September 30, 2016, DD&A costs were \$521,000, compared to \$1,072,000 for the three months ended September 30, 2015. The \$551,000 decrease was primarily the result of lower depletion rates after receiving an updated reserve report on June 1, 2016 (which included additional reserves acquired with the interests in eight (8) non-operated wells re-acquired from Dome Energy in March 2016), and lower production volumes due to a natural decline in well production.

Total Other Expense. For the three months ended September 30, 2016, total other expense was \$3,088,000, compared to \$3,656,000 for the three months ended September 30, 2015. The decrease in total other expense was primarily due to a decrease in amortized debt discount included in interest expense during the three months ended September 30, 2016 compared to the prior year's period, offset slightly by the increase in monthly interest due as the principal balance of the debt increased.

Net Loss Attributable to PEDEVCO Common Stockholders. For the three months ended September 30, 2016, net loss attributable to PEDEVCO common stockholders was \$3,514,000, compared to a net loss attributable to PEDEVCO common stockholders of \$5,455,000 for the three months ended September 30, 2015. The decrease in net loss of \$1,941,000 was primarily due to lower SG&A expenses, lower DD&A, and a decrease in interest expenses (as described above).

Comparison of the Nine Months Ended September 30, 2016 with the Nine Months Ended September 30, 2015

Oil and Gas Revenue. For the nine months ended September 30, 2016, we generated a total of \$3,003,000 in revenues from the sale of oil and gas, compared to \$4,593,000 for the nine months ended September 30, 2015. The decrease of \$1,590,000 was primarily due to a decline in production from our oil and gas assets and a reduction in crude oil prices. This volume decline was a result of a natural decline in well production, periodic wells being shut-in and the Loomis wells being put on line in December 2014 which yielded higher production in the nine months ending September 30, 2015 relative to the their production in 2016 (due to the natural decline in production from these wells).

Lease Operating Expenses. For the nine months ended September 30, 2016, lease operating expenses associated with our oil and gas properties were \$1,190,000, compared to \$1,434,000 for the nine months ended September 30, 2015. The decrease of \$244,000 was primarily due to lower variable lease operating expenses associated with the lower volume resulting from the natural decline in well production and periodic wells being shut-in.

Exploration Expense. For the nine months ended September 30, 2016, exploration expense was \$217,000, compared to \$693,000 for the nine months ended September 30, 2015. The decrease of \$476,000 was primarily due to less exploration activity undertaken by the Company in the current period due to price volatility in the oil markets and capital constraints.

Selling, General and Administrative Expenses. For the nine months ended September 30, 2016, SG&A expenses were \$3,318,000, compared to \$5,672,000 for the nine months ended September 30, 2015. The decrease of \$2,354,000 was primarily due to a decrease in stock compensation expense, as well as cost reductions in various other areas as shown in the table below. The components of SG&A expenses are summarized below (amounts in thousands):

	For the Nine Months Ended		
	September 30,		Increase/
(in thousands)	2016	2015	(Decrease)
Payroll and related costs	\$1,056	\$1,421	\$(365)
Stock-based compensation expense	1,343	3,150	(1,807)
Legal fees	81	192	(111)
Accounting and other professional fees	378	398	(20)
Insurance	78	70	8
Travel and entertainment	14	66	(52)
Bad debt expense	156	-	156
Office rent, communications and other	212	375	(163)
	\$3,318	\$5,672	\$(2,354)

Impairment of Oil and Gas Properties. For the nine months ended September 30, 2016, impairment of oil and gas properties was \$-0-, compared to \$1,337,000 for the nine months ended September 30, 2015. All of our unproved leasehold property was impaired in 2015 as a result of a change in drilling plans.

Depreciation, Depletion, Amortization and Accretion. For the nine months ended September 30, 2016, DD&A costs were \$2,320,000, compared to \$3,379,000 for the nine months ended September 30, 2015. This decrease was primarily the result of lower depletion rates after receiving an updated reserve report on June 1, 2016 (which included additional reserves acquired with the interests in eight (8) non-operated wells re-acquired from Dome Energy in March 2016), and lower production volumes due to a natural decline in well production.

Gain on Settlement of Payables. For the nine months ended September 30, 2016, gain on settlement of payables was \$1,282,000 compared to a gain of \$-0- for the nine months ended September 30, 2015. The gain in 2016 was related to a Settlement Agreement entered into with Liberty for vendor obligations that was recorded in the nine months ended September 30, 2016.

Gain on Sale of Oil and Gas Properties. For the nine months ended September 30, 2016, gain on sale of oil and gas properties was \$-0- compared to a gain on sale of oil and gas properties of \$275,000 for the nine months ended September 30, 2015. The gain in 2015 was related to a Settlement Agreement entered into with MIE Jurassic Energy Corporation (“MIEJ”) that was recorded in the nine months ended September 30, 2015.

Gain on Sale of Equity Investment. For the nine months ended September 30, 2016, the gain on sale of equity investment was \$-0- compared to a gain of \$566,000 for the nine months ended September 30, 2015. The gain in 2015 was related to a Settlement Agreement entered into with MIEJ that was recorded in the nine months ended September 30, 2015.

Gain from Equity Method Investments. For the nine months ended September 30, 2016, we had no gain or loss from equity method investments compared to a loss from equity method investments of \$91,000 for the nine months ended September 30, 2015, due to the Settlement Agreement entered into with MIEJ that was recorded in the nine months ended September 30, 2015. There is no longer an equity method investment.

Total Other Income (Expense). For the nine months ended September 30, 2016, total other expense was \$10,766,000, compared to \$7,913,000 for the nine months ended September 30, 2015. The increase in total other expense was primarily due to the one-time gain on debt extinguishment of \$2,192,000 related to the Settlement Agreement in the nine months ended September 30, 2015, offset by \$621,000 of additional interest expense incurred during the nine months ended September 30, 2016 compared to the prior year’s period (due to an increase in the principal balance of the debt).

Net Loss Attributable to PEDEVCO Common Stockholders. For the nine months ended September 30, 2016, net loss attributable to PEDEVCO common stockholders was \$13,526,000, compared to a net loss attributable to PEDEVCO common stockholders of \$15,081,000 for the nine months ended September 30, 2015. The decrease in net loss of \$1,555,000 was primarily due to lower operating expenses as described above.

Liquidity and Capital Resources

In order to sustain and further develop the Company’s business plan, management determined that (1) it required funding for acquisitions of strategic properties and to execute its drilling plans and (2) its existing debt would be required to be restructured to provide additional time for the Company to pursue accretive acquisitions and oil field development in order to grow the Company and provide the operating cash flows to fully repay its debts. Accordingly, in May 2016, we entered into a new debt facility of approximately \$25 million to be used solely to fund drilling and completion costs, and also deferred principal and interest payments of an aggregate of approximately \$39 million from short-term to long-term liabilities. In connection with the new debt facility (described in Note 8 to the financial statements included above), all Net Revenue produced each month over and above a \$150,000 G&A budget is used for debt repayment. “Net Revenue” is defined as all oil and gas revenue received by the Company and its subsidiaries less (i) lease operating expenses (which include all expenses chargeable to joint interest billing accounts under applicable joint operating agreements, transportation and processing charges, land owner royalties, ad valorem and severance taxes, and reasonable lease and well-related title, legal, accounting and other professional fees), (ii) interest payments due to the lenders under the new debt facility, payment of which shall not commence until February 2108, (iii) general and administrative expenses not to exceed \$150,000 per month unless preapproved in writing by the Agent, and (iv) extraordinary expenses that are preapproved in writing. This monthly sweep will use most of the cash generated by our assets, thereby limiting cash generated from our operations for use toward future development and general and administrative expenses.

The Company made an initial draw under the new debt facility of approximately \$6.4 million to acquire interests in 8 wells located in the Wattenberg Area of Weld County, Colorado and to pay transaction-related closing costs, accrued

interest, and outstanding accounts payable. The Company has access to up to an additional \$18.5 million of debt capital available under the new debt facility and notes issued thereunder to fund its drilling and development plans, including approximately 8.5 net wells in our D-J Basin Asset during the period from January 2016 to December 2016 (of which interests in 2.1 net short lateral wells have been acquired already in 2016), which additional draws are available in the lenders' sole discretion.

To complete the remainder of the \$35.6 million planned acquisition and drilling plan (of which \$5.1 million has been deployed to acquire interests in 2.1 net short lateral wells already in 2016), the Company will be required to raise an additional \$11-12 million from additional sources. There is no assurance that such funds will be available on favorable terms, if at all. If such funds are not available, we plan to use the remaining proceeds under the new debt facility to complete as much of the acquisition and drilling plan as possible and extend the drilling program and associated capital expenditures into 2017.

The Company implemented a cost reduction plan in April 2016 that reduced our general and administrative costs to the \$150,000 budgeted amount as required under the new debt facility, primarily through work force reductions and lower professional fees.

The Company maintains additional sources of liquidity including \$692,000 of cash on-hand, and existing receivables of \$537,000.

As a part of the anticipated GOM Merger, we expect to have additional financial resources and plan to further restructure our existing debt obligations to fund the Company's drilling plans.

As of December 31, 2015, the Company had a working capital deficit of \$5.6 million. Following completion of the new debt facility, we settled a \$2,620,000 payable for \$750,000; and \$4.95 million borrowed as part of the transaction was used to reduce other accrued liabilities. In addition, \$588,000 of short-term debt was subordinated to the senior lender and cannot be paid until the senior lender is repaid. As a result, our working capital deficit as of September 30, 2016 was approximately \$1.7 million that includes revenue held in suspense, unpaid employee vacation, estimated 2017 taxes, PIK interest, principal and other payables that when due and payable should be covered by our \$1.4 million in current assets.

Our future liquidity is limited to the amounts available after the monthly Net Revenue Sweep until such debt is repaid or the terms are modified for alternate payment arrangements. We anticipate that our planned drilling and development activities will provide sufficient cash flow to repay the debt at which time we will no longer be subject to the Monthly Sweep. Availability of the remaining funds under the new debt facility are subject to the discretion of the lender and our results from initial drilling activities.

We acknowledge that adequate funds may not be available when needed or may not be available on favorable terms. If we need to raise funds in the future by issuing equity securities, dilution to existing shareholders will result, and such securities may have rights, preferences, and privileges senior to those of our common stock. If funding is insufficient at any time in the future and we are unable to generate sufficient revenue from new business arrangements, to complete planned acquisitions or operations, our results of operations and the value of our securities could be adversely affected.

Financial Summary

We had total current assets of \$1.4 million as of September 30, 2016, including cash of \$0.7 million, compared to total current assets of \$1.9 million as of December 31, 2015, including a cash balance of \$1.1 million.

We had total assets of \$61.6 million as of September 30, 2016 compared to \$60.8 million as of December 31, 2015. Included in total assets as of September 30, 2016 and December 31, 2015, were \$60.1 million and \$58.8 million, respectively, of proved oil and gas properties subject to amortization and \$-0- and \$-0-, respectively, of unproved oil and gas properties not subject to amortization.

We had total liabilities of \$57.6 million as of September 30, 2016, including current liabilities of \$3.1 million, compared to total liabilities of \$45.7 million as of December 31, 2015, including current liabilities of \$7.6 million.

We had negative working capital of \$1.7 million, total shareholders' equity of \$4.0 million and a total accumulated deficit of \$95.6 million as of September 30, 2016, compared to negative working capital of \$5.6 million, total shareholders' equity of \$15.0 million and a total accumulated deficit of \$82.1 million as of December 31, 2015.

Cash Flows From Operating Activities. We had net cash used in operating activities of \$6,094,000 for the nine months ended September 30, 2016, which was a decrease in cash used of \$1,382,000 compared to the prior year's period net cash used of \$7,476,000. This decrease was primarily due to a lower net loss.

Cash Flows From Investing Activities. We had net cash used in investing activities of \$74,000 for the nine months ended September 30, 2016, which was a decrease in cash available of \$431,000 compared to \$357,000 of net cash provided by investing activities for the prior year's period. This change was primarily due to proceeds from the sale of an equity investment in the prior year during the nine months ended September 30, 2015.

Cash Flows From Financing Activities. We had net cash provided by financing activities of \$5,722,000 for the nine months ended September 30, 2016, which was an increase of \$3,905,000 compared to \$1,817,000 of net cash provided by financing activities for the prior year's period. This change was primarily a result of the proceeds from notes payable in the current period.

Recent Accounting Pronouncements

Recently Issued Accounting Pronouncements. In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 amends previous guidance to require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The affected amounts shown on the Company's balance sheet were a result of reclassifications within the balance sheet upon adoption of this ASU to conform to this standard. The Company adopted this ASU during the first quarter of 2016 and the adoption of this ASU did not have a material impact on its financial statements (balance sheet amounts as of December 31, 2015 were also reclassified for comparability purposes).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Pursuant to Item 305(e) of Regulation S-K (§ 229.305(e)), the Company is not required to provide the information required by this Item as it is a "smaller reporting company," as defined by Rule 229.10(f)(1).

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time period specified in the SEC's rules and forms and is accumulated and communicated to the Company's management, as appropriate, in order to allow timely decisions in connection with required disclosure.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of the end of the period covered by this Quarterly Report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of September 30, 2016, that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended September 30, 2016, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we are not currently a party to any material legal proceeding. In addition, we are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, filed with the Commission on March 29, 2016, other than as described below, and investors are encouraged to review such risk factors in the Form 10-K, prior to making an investment in the Company.

We are required to complete a reverse stock split of our issued and outstanding common stock prior to May 3, 2017, in order to continue to trade our common stock on the NYSE MKT.

On November 3, 2016, we were notified by the NYSE MKT that our common stock had been selling for a low price per share (i.e., under \$0.20 per share), for a substantial period of time, and that our continued listing on the NYSE MKT was predicated on us completing a reverse stock split of our issued and outstanding common stock by May 3, 2017. Pursuant to the rules of the NYSE MKT, if an issuer's common stock sells at what the NYSE MKT considers a "low selling price" (generally trading below \$0.20 per share for an extended period of time) and the issuer fails to correct this via a reverse split after notification by the NYSE MKT (provided that issuers can also be delisted if any shares of the issuer trade below \$0.06 per share), the NYSE MKT may delist the securities of such issuer. The NYSE MKT also advised us that we were 'below compliance' with applicable NYSE MKT listing standards due to the low trading price of our common stock and that a '.BC' indicator would be affixed to our trading symbol until such time as we regained compliance with the NYSE MKT's listing standards. In the event we fail to receive stockholder approval for a reverse stock split at our 2016 annual meeting of stockholders which will take place on December 28, 2016, or any meeting convened thereafter, and/or in the event we fail to effect a reverse stock split by May 3, 2017, the NYSE MKT may delist our common stock. If the NYSE MKT delists our common stock, investors may face material adverse consequences, including, but not limited to, a lack of trading market for our securities, reduced liquidity, decreased analyst coverage of our securities, and an inability for us to obtain additional financing to fund our operations. In addition, delisting from the NYSE MKT might negatively impact our reputation and, as a consequence, our business. Finally, if we were delisted from the NYSE MKT and are not able to list our common stock on another national exchange we will no longer be eligible to use Form S-3 registration statements, which may delay our ability to raise funds in the future, may limit the type of offerings of common stock we could undertake, and could increase the expenses of any offering.

The closing of the GOM merger is subject to various risks and closing conditions and such planned transaction may not occur on a timely basis, if at all.

The GOM merger is subject to various closing conditions as set forth in greater detail in the GOM Merger Agreement. Additionally, the Company is aware that the parent company of GOM has experienced significant liquidity problems, is currently under investigation by the U.S. Securities and Exchange Commission and the Justice Department, is currently taking steps to liquidate its assets, including the assets subject to the GOM merger, has filed for Bankruptcy protection, and certain of its assets are also subject to separate Bankruptcy proceedings initiated by certain creditors. Any one of these circumstances may delay the closing of the GOM merger or prevent certain closing conditions associated therewith from occurring, which in turn could prevent the merger from closing.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuances/Grants of Unregistered Securities

None.

10

Issuances/Grants of Registered Securities

On July 5, 2016, the Company issued 81,290 shares of common stock to Mr. Frank C. Ingriselli, the Company's former Chief Executive Officer and President, and current Chairman and member of the Company's Board of Directors, in connection with the cashless net exercise of options to purchase 280,000 shares of common stock issued under the Company's 2012 Equity Incentive Plan, as amended.

Use of Proceeds From Sale of Registered Securities

None.

Issuer Purchases of Equity Securities

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

See the Exhibit Index following the signature page to this Quarterly Report on Form 10-Q for a list of exhibits filed or furnished with this report, which Exhibit Index is incorporated herein by reference.
