Item 2.02 Results of Operations and Financial Condition

On Tuesday, May 1, 2007 the Company disseminated a press release, attached as Exhibit A, announcing the Company's operational results for the period ending March 31, 2007.

As part of the press release there is a bridge of the non-GAAP financial measurement of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) to reported net income. It is shown below the disclosure of the GAAP figures for Operating income, Net income and Diluted earnings per share. This reconciliation of EBITDA to Net income is for the Three Months ended March 31, 2007 and March 31, 2006.

The Company believes, however, that EBITDA is an important term and concept because of its use by the professional investment community, including the Company's primary lenders. The Company believes the use of this Term is necessary to a proper understanding of the changes in the Company's earnings.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

FOR IMMEDIATE RELEASE

A. M. Castle & Co. Reports Strong First Quarter Results;
Announces Strategic Investment in Oracle ERP Platform

FRANKLIN PARK, IL, May 1st - A. M. Castle & Co. (AMEX: CAS), a global distributor of specialty metal and plastic products, value-added services and supply chain solutions, today reported record sales and continued strong financial results for the first quarter ended March 31, 2007.

For the first quarter, consolidated net sales were a record \$375.4 million, an increase of \$96.2 million or 34.4% from the first quarter of 2006. Net income for the quarter was \$15.6 million, or \$0.81 per diluted share, as compared to \$15.8 million or \$0.86 per diluted share in the prior year. First quarter 2007 net income included a \$0.9 million after-tax charge (\$0.04 per diluted share) for the write-off of the Company's prior investment in information technology systems. During the quarter, the Company signed an agreement to purchase Oracle's ERP system in support of its strategic growth initiative.

"As we embark on our bold new direction to become the foremost provider of specialty products, services and specialized supply-chain solutions for targeted industries, we have carefully considered the infrastructure required to successfully execute the strategy," commented Michael Goldberg, President and CEO of A. M. Castle. "The existing systems in our metals business lack the flexibility and functionality needed to support our customers growing requirements on a global scale. The acquisition of Transtar also increased our need for a technology upgrade. Our selection of Oracle, which is at the forefront of global technology solutions, exemplifies our commitment to the

strategy," Goldberg added. The Company expects to invest \$10 to \$12 million for the system implementation across its metals segment, which is expected to be completed in late 2008.

Metal segment sales were \$346.6 million in the first quarter, an increase of \$95.9 million, or 38.3%, versus the first quarter of 2006. Of the 38.3% increase, the acquisition of Transtar Metals (which was completed on September 5, 2006), contributed 29.0% of the increase in sales and 14.4% was attributable to increased material pricing, offset by a 5.1% decline in volume for the balance of the business. “Excluding Transtar, volumes were off from the corresponding quarter last year, but we should remember from an overall tons sold perspective, the first half of 2006 represented the strongest period of the cycle so far,” stated Goldberg. “In the first quarter of this year, our average daily tons sold, excluding Transtar, were up slightly versus each of the prior three quarters. In addition, our mix continues to change with an increasing proportion of non-ferrous metal product sales driven by strong specialty metal markets. We continued to experience strong demand for specialty metal grade products in the aerospace and oil and gas markets. The balance of the business remains healthy, but is just softer than the exceptional first quarter we experienced last year,” indicated Goldberg. The Company reported record high pricing for nickel during the first quarter of 2007, and experienced price increases in nearly all other metal products compared to the first quarter of 2006.

Plastic segment sales were \$28.8 million in the quarter, an increase of \$0.2 million versus the first quarter of last year. Pricing and volume were essentially flat versus the same period last year.

The Company reported stronger operating cash flows in the first quarter of 2007 as compared to the prior year's quarter. "From a historical perspective, our first quarter has the highest cash funding requirements of the year," stated Larry Boik, Vice President and CFO of A.M. Castle. "Given the historical cash trends, we were pleased to bring our debt-to-capital ratio down to 49.4%, which is an improvement versus 51.2% at year-end 2006."

"Overall business conditions remain good," stated Goldberg. "In particular, the aerospace and oil and gas markets remain very strong and the Transtar acquisition has proven to be a sound investment and a solid strategic long-term fit for the Company. Pricing has been firm with surcharges for nickel and scrap being at all time highs.

Also on April 26, 2007, the Company announced a cash dividend of \$0.06 per share to be paid on May 28, 2007 to shareholders of record at close of business on May 14, 2007.

Safe Harbor Statement / Regulation G Disclosure

This release may contain forward-looking statements relating to future financial results. Actual results may differ materially as a result of factors over which the Company has no control. These risk factors and additional information are included in the Company's reports on file with the Securities Exchange Commission.

The financial statements included in this release contain a non-GAAP disclosure, EBITDA, which consists of income before provision for income taxes plus depreciation and amortization, and interest expense, less interest income. EBITDA is presented as a supplemental disclosure because this measure is widely used by the investment community for evaluation purposes and provides the reader with additional information in analyzing the Company's operating results. EBITDA should not be considered as an alternative to net income or any other item calculated in accordance with U.S. GAAP, or as an indicator of operating performance. Our definition of EBITDA used here may differ from that used by other companies. A reconciliation of EBITDA to net income is provided per U.S. Securities and Exchange Commission requirements.

Exhibit 3

NOW THEREFORE BE IT RESOLVED, that Article III of Section 1 of the By-Laws of this Corporation shall be amended to read as follows:

“Section 1. Beginning at such time as the corporation has more than one stockholder, the number of directors which shall constitute the whole Board of Directors shall be 10. At any regular meeting or at any special meeting called for that purpose, a majority of the entire Board of Directors may increase or decrease the number of directors, provided that the number thereof shall never be less than the minimum number required by the Maryland General Corporation Law, and further provided that the tenure of office of a director shall not be affected by any decrease in the number of directors. The directors shall be elected at the annual meeting of stockholders, except as provided in Section 2 of this Article III, and each director elected shall hold office until his successor is elected and qualifies. Directors need not be stockholder.”
