NOTE 2. RESTRUCTURING CHARGES

We have executed restructuring actions primarily in the form of involuntary separation programs in the fourth quarter of 2012. These actions were in response to deterioration in our U.S. businesses and most key markets around the world in the second half of 2012, as well as a reduction in orders in most U.S. and global markets for 2013. We

reduced our worldwide professional workforce by approximately 650 employees, or 3 percent. We also reduced our hourly workforce by approximately 650 employees. During 2012, we incurred a pre-tax charge related to the professional and hourly workforce reductions of approximately \$49 million.

Employee termination and severance costs were recorded based on approved plans developed by the businesses and corporate management which specified positions to be eliminated, benefits to be paid under existing severance plans or statutory requirements and the expected timetable for completion of the plan. Estimates of restructuring were made based on information available at the time charges were recorded. Due to the inherent uncertainty involved, actual amounts paid for such activities may differ from amounts initially recorded and we may need to revise previous estimates.

We incurred \$1 million of restructuring expenses for lease terminations and \$2 million of restructuring expenses for asset impairments and other non-cash charges. During 2012, we recorded a total pre-tax restructuring charge of \$52 million. These restructuring actions included:

In millions	Year ended December 31, 2012
Workforce reductions	\$ 49
Exit activities	1
Other	2
Total restructuring charges	\$ 52

If the 2012 restructuring actions are successfully implemented, we expect the annualized savings from the professional actions to be approximately \$39 million.

At December 31, 2012, of the approximately 1,300 employees to be affected by this plan, 1,130 had been terminated.

Restructuring charges were included in each segment in our operating results.

The table below summarizes where the restructuring costs are located in our *Condensed Consolidated Statements of Income* for the year ended December 31, 2012.

In millions	Year ended December 31, 2012
--------------------	---

Cost of sales	\$ 29
Selling, general and administrative expenses	20
Research, development and engineering expenses	3
Total restructuring charges	\$ 52

NOTE 3. INCOME TAXES

Our income tax rates are generally less than the 35 percent U.S. income tax rate primarily because of lower taxes on foreign earnings and research tax credits. Our effective tax rate for the fourth quarter and full year of 2012 was 16.8 percent and 23.6 percent, respectively. The tax rate for the fourth quarter and full year includes one-time tax items that total a benefit of \$39 million (\$0.21 per diluted share) and \$55 million (\$0.29 per diluted share), respectively. The one-time tax items for the fourth quarter and full year related primarily to benefits resulting from transactions entered into and elections made with respect to our U.K. operations. Our effective tax rate for the fourth quarter and full year of 2011 was 24.5 percent and 27.1 percent, respectively. Excluding the gain on sale of certain assets and liabilities of the businesses and the flood insurance recovery, our effective tax rate for the fourth quarter and full year of 2011 was 22.8 percent and 26.3 percent, respectively.

A reconciliation of the U.S. federal income tax rate of 35 percent to the actual effective tax rate is as follows:

	Years ended December 31,			
	2012		2011	
U.S. federal statutory rate	35.0	%	35.0	%
State income tax, net of federal effect	1.0		0.4	
Research tax credits	(0.4)		(4.7)	
Differences in rates and taxability of foreign subsidiaries and joint ventures	(12.0)		(4.6)	
Other, net	-		1.0	
Effective tax rate	23.6	%	27.1	%

On January 2, 2013, the American Taxpayer Relief Act of 2012 was enacted. This legislation retroactively extended the U.S. federal research credit for two years, from January 1, 2012 through December 31, 2013. We expect our 2013 effective tax rate, which will include an estimated 1 percent benefit for the 2013 research credit, to be 26 percent excluding any one-time tax items that may arise. Additionally, we anticipate that our first quarter 2013 results will include a one-time tax benefit of approximately \$28 million representing the net benefit attributable to the 2012 research credit.

NOTE 4. DEPRECIATION AND AMORTIZATION

Depreciation and amortization expense included in operating activities of the *Condensed Consolidated Statements of Cash Flows* for the years ended December 31, 2012 and 2011, was \$361 million and \$325 million, respectively.

CUMMINS INC. AND SUBSIDIARIES**FINANCIAL MEASURES THAT SUPPLEMENT GAAP****(Unaudited)****Net income and diluted earnings per share (EPS) attributable to Cummins Inc. excluding special items.**

We believe this is a useful measure of our operating performance for the period presented as it illustrates our operating performance without regard to special items including the gains related to restructuring charges, one-time income tax items, the sale of certain assets and liabilities and a flood insurance recovery.
