NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Except for per share amounts, dollar amounts in tables are in thousands unless otherwise indicated)

(Unaudited, Restated)

Note 1 - Basis Of Presentation

The accompanying consolidated financial statements and notes thereto have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted. The accompanying consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto

included in the Company's 2000 Annual Report on Form $10-\mathrm{K}$, as amended and restated.

The consolidated financial statements include the financial statements of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited financial statements as of September 30, 2001, and for the three months and nine months ended September 30, 2001 and 2000, reflect adjustments (which were normal and recurring) which, in the opinion of management, are necessary for a fair statement of the financial position and results of operations of the interim periods presented. Results for the three months and nine months ended September 30, 2001 are not necessarily indicative of results expected for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

As previously reported, in January 2001 and May 2001, the staff of the Division of Corporation Finance of the Securities and Exchange Commission ("SEC") reviewed the Company's 1999 and 2000 Forms 10-K, respectively. On May 11, 2001, the Company received a letter from the staff of the Division of Corporation Finance advising that, after reviewing the Company's Forms 10-K, it was the position of the Division that the Company's accounting for commission advance receivables was not in accordance with generally accepted accounting principles (GAAP). The Company subsequently appealed this decision to the Chief Accountant of the SEC. On July 25, 2001, the Company announced that the Chief Accountant concurred with the prior staff opinion of the Division of Corporation Finance. The Company subsequently announced that it would not pursue any further appeals and that it would amend its previously filed SEC reports to restate the Company's financial statements to reflect the SEC's position that the Company's advance commission payments should be expensed ratably over the first month of the related membership. The Company's filings on Form 10-Q for the periods ended June 30, 2001 and September 30, 2001 contained restated financial statements to reflect the Company's initial understanding of the SEC's position. As a result of the SEC's position, the Company and its prior independent auditor, Deloitte & Touche, mutually agreed that a change in auditor would be made and the Company on September 17, 2001 engaged Grant Thornton LLP to audit its restated consolidated financial statements for the years ended December 31, 2000, 1999 and 1998. After further consultations with the staff of the SEC, this new audit was completed and the amended and restated Form 10-K for the period ending December 31, 2000 has been filed. This amended Form 10-Q contains financial statements that have been restated on a basis consistent with the audited financial statements in the amended and restated Form 10-K and contain adjustments from those previously filed to conform to such presentation (the "restatement"). These financial statements have also been restated due to the effect of the Company's sale on December 31, 2001 of Universal Fidelity Life Insurance Co. (UFL), which is reported as and referred to as "discontinued operations" as discussed in Note 5 to the Consolidated Financial Statements. Additionally, the Company implemented SEC Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," ("SAB 101") effective January 1, 2000 and has deferred the non-refundable \$10 Membership fees and \$47 of the associate enrollment fees and the related direct incremental costs associated with services provided members and associates in return for such fees. At the time of the original filing we estimated the direct incremental costs related to the non-refundable Membership fee and associate enrollment fee to be in excess of \$10 and \$47, respectively. Based upon further review, estimated direct

incremental costs of \$7 for the Membership fee and \$40 for the associate enrollment fee have been deferred. The implementation of SAB 101 resulted in a cumulative effect type charge of \$1.0 million ("Cumulative effect"), net of tax, in the consolidated income statement for the nine months ended September 30, 2000. Primarily due to discontinued operations and including the effects of the restatement adjustments and SAB 101, total assets were reduced from \$106 million, as previously reported at September 30, 2001, to \$85 million, total liabilities were reduced from \$57 million to \$39 million and therefore stockholders' equity was reduced from \$49 million to \$46 million. A summary of the effects of these items on previously reported results of operations follows:

Note 2 - Contingencies

Subsequent to December 31, 2000, the Company and various of its executive officers were named in multiple putative securities class action complaints

filed in both the United States District Courts for the Eastern and Western Districts of Oklahoma seeking unspecified damages on the basis of allegations that the Company issued false and misleading financial information, primarily related to the method the Company used to account for commission advance receivables from sales associates. These complaints have been transferred to Western District of Oklahoma where motions to consolidate them into a single proceeding are pending. An amended and consolidated complaint was filed on June 14, 2001, and the Company filed a motion to dismiss the complaint on July 24, 2001. The plaintiffs filed a response to the motion to dismiss on September 4, 2001 and the Company's reply brief was filed on September 24, 2001. Under the Private Securities Litigation Reform Act of 1995, discovery is stayed during the pendency of a motion to dismiss. Costs of defense of these cases through the motion to dismiss stage are not expected to be material. While the outcome of these cases is uncertain, the Company believes these actions are without merit and will vigorously defend these actions. However, an unfavorable decision in this litigation could have a material adverse effect on the Company's financial position, results of operations and cash flows.

Also, in January 2001, the Company received inquiries from the Division of Enforcement of the SEC requesting information relating primarily to the Company's accounting policies for commission advance receivables from sales associates. The Company has had no further contact from the Division of Enforcement. The Division of Enforcement's inquiries were informal and did not constitute a formal investigation or proceeding. The Company is unable to determine the ultimate outcome of this inquiry, including whether the Division of Enforcement will continue the inquiry subsequent to the Company's decision to restate its financial statements.

On June 7, 2001 and August 3, 2001, shareholder derivative actions were filed by alleged company shareholders, Bruce A. Hansen and Donna L. Hansen, and Roger Strykowski, respectively, against all of the directors of the Company seeking unspecified actual and punitive damages on behalf of the Company based on allegations of breach of fiduciary duty, corporate waste and mismanagement by the defendant directors. The derivative actions are in the preliminary pleading stage. The complaints allege that the defendant directors caused the Company to violate generally accepted accounting principles and federal securities laws by improperly capitalizing commission expenses, caused the Company to allegedly pay increased salaries and bonuses based upon financial performance which was allegedly improperly inflated and caused the Company to expend significant dollars in connection with the defense of its accounting policy, including cost incurred in connection with the defense of the securities class actions described above, and in connection with purchase of its own shares on the open market at allegedly artificially inflated prices. The Company believes that these derivative actions are related to the securities class actions described above and may be intended to circumvent the restrictions on the securities class actions imposed by the Private Securities Litigation Reform Act of 1995. While the outcome of these cases is uncertain, based on the information currently available to the Company, it appears that the complaints should be dismissed because the plaintiffs failed to make or excuse the requisite demand that the Company pursue the claims of alleged misconduct.

In the second quarter of 2001 and through January 4, 2002, multiple lawsuits were filed against the Company, certain sales associates and other unnamed defendants in Alabama state courts by current or former members seeking unspecified actual and punitive damages for alleged breach of contract and fraud in connection with the sale of memberships. As of January 30, 2002, the Company was aware of 20 separate lawsuits involving approximately 110 plaintiffs that have been filed in multiple counties in Alabama and it is possible that additional cases will be filed. These cases make allegations similar to allegations made in cases previously filed against the Company in Alabama state courts by multiple plaintiffs which was previously settled for a payment of \$1.5 million to settle claims by 97 separate claimants. In January 2002, one of the

law firms representing individual plaintiffs filed a putative class action on behalf of all Alabama residents purchasing memberships seeking damages and injunctive relief based on alleged failures to provide coverage under the memberships. Based on the Company's preliminary investigation of the new cases, the facts involved are in many respects significantly different from the facts involved in the case the company previously settled. These cases are all in the preliminary stages and the ultimate outcome is not determinable.

On June 29, 2001, an action was filed in the District Court of Canadian County, Oklahoma by Gina Cotwitz against the Company. This action is a putative class action on behalf of all sales associates of the Company and alleges violations of the Oklahoma Consumer Protection Act, the Oklahoma Uniform Consumer Credit Code and breach of contract in connection with certain of the Company's practices relating to advancing commissions to sales associates. The Company has filed an answer denying the plaintiff's claims and raising affirmative defenses and intends to vigorously defend this case. The case is in the preliminary stages and the ultimate outcome is not determinable.

The Company is a defendant in various other legal proceedings that are routine and incidental to its business. The Company will vigorously defend its interests in these proceedings. While the ultimate outcome of these proceedings is not determinable, the Company does not currently anticipate that these contingencies will result in any material adverse effect to its financial condition or results of operation.

Note 3 - Treasury Stock Purchases

The Company announced on April 6, 1999, a treasury stock purchase program authorizing management to acquire up to 500,000 shares of the Company's common stock. The Board of Directors has increased such authorization from 500,000 shares to 3 million shares during subsequent board meetings. At September 30, 2001, the Company had purchased 2.6 million shares under these authorizations for a total consideration of \$62.6 million, an average price of \$24.07 per share.

Treasury stock purchases will be made at prices that are considered attractive by management and at such times that management believes will not unduly impact the Company's liquidity. No time limit has been set for completion of the purchase program. The Company obtained on November 6, 2001 a \$17.5 million line of credit facility that may be used for additional purchases.

Note 4 - Earnings Per Share

Basic earnings per common share are computed by dividing net income applicable to common stockholders by the weighted average number of shares of common stock outstanding during the respective periods.

Diluted earnings per common share are computed by dividing net income applicable to common stockholders by the weighted average number of shares of common stock and common stock equivalents outstanding during the respective periods. The \$3.00 Cumulative Convertible Preferred stock and the Special Preferred stock are considered to be dilutive common stock equivalents for all periods through the conversion/redemption date and the number of shares issuable on conversion of the \$3.00 Cumulative Convertible Preferred stock and the Special Preferred Stock is added to the weighted average number of common shares. At December 31, 2000 all such shares had been converted or redeemed. The weighted average number of common shares is also increased by the number of shares issuable on the exercise of options less the number of common shares assumed to have been purchased with the proceeds from the exercise of the options pursuant to the treasury stock method; those purchases are assumed to have been made at the average price of the common stock during the respective period.

	Septem	nths Ended ber 30,
Basic Earnings Per Share:	2001	2000

Shares: Weighted average shares outstanding	63	_ 164
Weighted average number of shares, as adjusted	21,414	22,661

Note 5 - Discontinued Operations

On December 31, 2001 the Company completed the sale of its wholly owned subsidiary UFL. The Company received a \$2.8 million dividend and \$1.2 million from the sale of 100% of UFL stock. Net assets of \$4.0 million and \$4.5 million have been segregated on the September 30, 2001 and December 31, 2000 Consolidated Balance Sheets, respectively. The sale is not expected to have a significant impact on reported earnings or stockholders' equity for 2001. Assets and liabilities of UFL's discontinued operations were as follows:

		September 30, 2001				
Cash Available-for-sale investments, current	\$	111 190	\$			
Amount due from coinsurer		14,420				
Available-for-sale investments, non-current		7,441				
Investment pledged		1,800				
Property and equipment, net		751				
Goodwill, net		558				
Other assets		2,022				

Total assets	27,293	
Accident and health reserves	14,420	
Life insurance reserves, current	971	
Accounts payable and accrued expenses	261	
Life insurance reserves, non-current	7,643	
Total Liabilities	 23,295	
Net assets of UFL's discontinued operations	\$ 3 , 998	\$

The results of operations of the UFL segment have been segregated and reported as discontinued operations in the Consolidated Statements of Income. Cash flow impacts of discontinued operations have been segregated in the Consolidated Statements of Cash Flows. Details of income from discontinued operations, net of income tax, are as follows:

	Three Months Ended September 30,				Ni
	2001		2000		20

<pre>Income (loss) from discontinued operations, net of tax benefit of \$0 and \$285 for three months and \$0 and \$388 for the nine months ended September 30, 2001 and 2000, respectively</pre>	\$	(562)	\$	227	\$

Note 6 - Recent Issued Accounting Pronouncements and Accounting Change

SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," ("SFAS 133") was issued in June 1998. This Statement, as amended, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, (collectively referred to as derivatives) and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The accounting for changes in the fair value of a derivative (that is, gains and losses) depends on the intended use of the derivative and the resulting designation. SFAS 133, as amended, applies to all entities and is effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The Company adopted SFAS 133, as amended, on January 1, 2001 as required. The Company did not hold any derivative instruments at January 1, 2001 and there was no effect on the consolidated financial statements upon the adoption of SFAS 133.

In July 2001, the Financial Accounting Standards Board issued new pronouncements: SFAS 141, "Business Combinations"; SFAS 142, "Goodwill and Other Intangible Assets"; and SFAS 143, "Accounting for Asset Retirement Obligations." SFAS 141, which requires the purchase method of accounting for all business

combinations, applies to all business combinations initiated after June 30, 2001 and to all business combinations accounted for by the purchase method that are completed after June 30, 2001. SFAS 141 will not apply to the Company unless it enters into a future business combination. SFAS 142 requires that goodwill as well as other intangible assets be tested annually for impairment. In addition, the Statement eliminates the current requirement to amortize goodwill or intangible assets with indeterminate lives, and is effective for fiscal years beginning after December 15, 2001. SFAS 143 requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred and a corresponding increase in the carrying amount of the related long-lived asset. SFAS 143 is effective for fiscal years beginning after June 15, 2002. The Company does not expect SFAS 142 or143 to materially impact its reported results.

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", (SFAS 144") is effective for the Company for the fiscal year beginning January 1, 2002, and addresses accounting and reporting for the impairment or disposal of long-lived assets. SFAS 144 supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" and APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business." SFAS 144 retains the fundamental provisions of SFAS No. 121 and expands the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. The Company estimates that the new standard will not have a material impact on its financial statements but is still in the process of evaluating the impact on its financial statements.

Codification of Statutory Accounting Principles

In March 1998, the National Association of Insurance Commissioners adopted the Codification of Statutory Accounting Principles (the "Codification"). The Codification, which is intended to standardize regulatory accounting and reporting to state insurance departments, is effective January 1, 2001. However, statutory accounting principles will continue to be established by individual state laws and permitted practices. The State of Oklahoma will require adoption of the Codification for the preparation of statutory financial statements effective January 1, 2001. The Company's adoption of the Codification increased the statutory capital and surplus of its regulated subsidiaries as of January 1, 2001 by \$798,000.

Accounting Change

SEC Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements," ("SAB 101") was issued December 1999. This Staff Bulletin summarizes certain of the staff's views in applying generally accepted accounting principles to revenue recognition in financial statements. SAB 101 was effective no later than the fourth fiscal quarter of the fiscal years, beginning after December 15, 1999. The Company implemented SAB 101 in the fourth quarter of 2000 but effective January 1, 2000, and has deferred the non-refundable \$10 Membership and \$47 of the associate enrollment fees and the related direct incremental costs associated with services provided members and associates in return for such fees. These deferred revenues and related costs will be amortized to income over the estimated life of the Membership or the estimated average active service period of associates which at September 30, 2001 were 3.6 years and one year, respectively. The implementation of SAB 101 resulted in a cumulative effect type adjustment of \$1.0 million, net of tax, which decreased net income for the nine months ended September 30, 2000. See Note 1.

Board of Directors and Stockholders Pre-Paid Legal Services, Inc.

We have reviewed the accompanying consolidated balance sheet of Pre-Paid Legal Services, Inc. and subsidiaries as of September 30, 2001, and the related consolidated statements of income, comprehensive income and cash flows for the three-month and nine-month periods ended September 30, 2001 and 2000. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the consolidated financial statements referred to above have been restated primarily to change the accounting treatment for payments to associates for membership commission advances and related revenue recognition to be consistent with such treatment. Additionally, as discussed in Note 6 the Company changed certain of its revenue recognition policies as a result of the adoption of Staff Accounting Bulletin No. 101 "Revenue Recognition in Financial Statements."

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet as of December 31, 2000, and the related consolidated statements of income, comprehensive income, cash flows and changes in stockholders' equity for the year then ended (not presented herein) and in our report dated January 30, 2002, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2000, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

GRANT THORNTON LLP

Oklahoma City, Oklahoma February 22, 2002

Results of Operations

The Company reported net income applicable to common shares of \$19.4 million, or \$.89 per diluted common share, for the nine months ended September 30, 2001, up 27% from net income applicable to common stockholders of \$15.2

million, or \$.67 per diluted common share, for the comparable period of the prior year after an after-tax charge of \$1.0 million relating to the cumulative effect on prior years of adopting SAB 101. See Note 6.

Membership fees totaled \$193.8 million during 2001 compared to \$154.3 million for 2000, an increase of 26%. Membership fees and their impact on total revenues in any period are determined directly by the number of active Memberships in force during any such period. The active Memberships in force are determined by both the number of new Memberships sold in any period together with the renewal rate of existing Memberships. New Membership sales increased 9% during the nine months ended September 30, 2001 to 548,967 from 504,408 during the comparable period of 2000. At September 30, 2001, there were 1,216,889 active Memberships in force compared to 1,018,181 at September 30, 2000, an increase of 20%. Additionally, the average annual fee per Membership has increased from \$243 for all Memberships in force at September 30, 2000 to \$251 for all Memberships in force at September 30, 2001, a 3% increase. This increase is a result of a higher portion of active Memberships containing the Legal Shield benefit and the additional pre-trial hours benefit at an additional cost and increased sales of the Business Owners' Legal Solutions plan.

Associate services revenue increased 14% from \$23.5 million for the first nine months of 2000 to \$26.8 million during the same period of 2001 primarily as a result of more new associates recruited and of the Fast Start program which generated training fees of approximately \$14.6 million during the first nine months of 2001 compared to \$12.7 million for the comparable period of 2000. The field training program, titled Fast Start to Success ("Fast Start") is aimed at increasing the level of new Membership sales per associate. Fast Start requires a training fee of \$184 per new associate and upon successful completion of the program provides for the payment of certain training bonuses. The \$14.6 million and \$12.7 million for the nine month periods ending September 30, 2001 and 2000, respectively, in training fees was comprised of \$184 from each of approximately 79,584 new sales associates who elected to participate in Fast Start during the first nine months of 2001 compared to 69,251 that participated during the comparable period of 2000. New associates enrolled during the first nine months of 2001 were 83,193 compared to 74,273 for the same period of 2000, an increase of 12%. Effective April 2001, the Company modified its compensation plan to consolidate the lower four levels of its compensation structure into two levels. At the same time, the Company implemented a two-year advance at the lowest commission level for associates who participate in the training program. Associates who do not participate in the training program receive only earned commissions until they meet the advancement qualification requiring them to produce 50 new memberships in their organization in order to advance to the next compensation level and qualify for up to 3 years commission advance. Effective October 1, 2001 the Company implemented a policy whereby the associate receives only earned commissions on the first three sales unless the associate has successfully completed the Fast Start training program.

Product sales declined 95% during the nine months ended September 30, 2001 to \$44,000 from \$864,000 for the comparable period of 2000 primarily due to the concentration on Membership sales as opposed to the sale of goods and services following the TPN acquisition. Product sales are expected to be immaterial in 2001 and future periods as the Company no longer encourages product sales.

Other income increased from \$2.4 million for the first nine months of 2000 to \$2.7 million during the same period of 2001.

Primarily as a result of the increase in Membership fees and associate services, total revenues increased to \$223.3 million for the nine months ended September 30, 2001 from \$181.1 million during the comparable period of 2000, an increase of 23%.

Membership benefits totaled \$64.0 million for the nine months ended

September 30, 2001 compared to \$50.0 million for the comparable period of 2000, an increase of 28%, and represented 33.0% and 32.4% of Membership fees for 2001 and 2000, respectively. This Membership benefit ratio (Membership benefits as a percentage of Membership fees) should remain near current levels as substantially all active Memberships provide for a capitated benefit.

Commissions to associates increased 17% to \$84.0 million for the nine months ended September 30, 2001 compared to \$72.0 million for the comparable period of 2000, and represented 43% and 47% of Membership fees for such periods. These amounts were reduced by \$1.8 million and \$1.3 million, respectively, representing Membership lapse fees. These fees are determined by applying the prime interest rate to the advance commission payment balance pertaining to lapsed Memberships. The Company realizes and recognizes this fee only when the amount of the calculated fee is collected by withholding from cash commissions due the associate, because the Company's ability to recover fees in excess of current payments is primarily dependent on the associate selling new Memberships which qualify for advance commission payments. Commissions to associates per new membership sold were \$153 per membership for the nine months ended September 30, 2001 compared to \$143 for the comparable period of 2000. This \$10 increase in commissions per new member was primarily due to increased advance commissions to new associates during the second and third quarter of 2001.

Associate services and direct marketing expenses increased to \$21.3 million for the nine months ended September 30, 2001 from \$17.0 million for the comparable period of 2000. Fast Start bonuses incurred were approximately \$7.0 million during the first nine months of 2001 compared to \$5.6 million in the same period of 2000. Additional costs due to increased enrollment of new associates and purchases of marketing and promotional supplies by associates also contributed to the increase. These expenses also include marketing costs, other than commissions, that are directly associated with new Membership sales.

General and administrative expenses during the nine months ended September 30, 2001 and 2000 were \$20.8 million and \$16.4 million, respectively, and represented 10.8% and 10.7% of Membership fees for such years. Management expects further gradual decreases in general and administrative expenses when expressed as a percentage of Membership fees as a result of certain economies of scale.

Product costs declined to \$33,000 for the nine months ended September 30, 2001 from \$621,000 for the comparable period of 2000 in conjunction with the 95% decline in product sales. Product costs are expected to be immaterial in 2001 and future periods as the Company no longer encourages product sales.

Other expenses, which includes depreciation and amortization and premium taxes reduced by interest income, increased to \$3.7 million for the nine months ended September 30, 2001 from \$2.4 million for the comparable period of 2000. Depreciation and amortization increased to \$3.0 million for the first nine months of 2001 from \$2.0 million for the comparable period of 2000. Premium taxes increased from \$1.2 million for the nine months ended 2000 to \$1.7 million for the same period of 2001. Interest income increased by approximately \$75,000 for the first nine months of 2001 to \$2.0 million due to an increase in investment balances.

The Company has recorded a provision for income taxes of \$9.7 million (32.8% of pretax income) for the first nine months of 2001 compared to \$6.9 million (30.7% of pretax income) for the same period of 2000. The decrease in the effective tax rate for 2000 was due to the recognition of certain income tax credits.

The results of operations of the UFL segment have been segregated and reported as discontinued operations in the Consolidated Statements of Income. Income (loss) from discontinued operations, net of income tax, are \$(506,000),

net of tax of \$0 and \$599,000 net of tax benefit of \$388,000 for the nine months ended September 30, 2001 and 2000, respectively.

The Company did not pay preferred stock dividends during the first nine months of 2001 since during the second quarter of 2000, all shares of preferred stock were converted into shares of common stock or repurchased by the Company. Dividends paid on outstanding preferred stock were \$4,000 for the nine-month period ended September 30, 2000.

Results of Operation - Third Quarter of 2001 compared to
----the Third Quarter of 2000

The results of operations in the third quarter of 2001, compared to the third quarter of 2000, reflect increases in revenues and expenses primarily as a result of the same factors discussed in the comparison of the first nine months of 2001 to the first nine months of 2000.

Total revenues increased 16% or approximately \$10.5 million to \$76.2 million in the third quarter of 2001 compared to \$65.7 million in the third quarter of 2000, primarily as a result of increases in membership premiums offset by a reduction in associate services revenue. The membership premium increase of 23% primarily resulted from an increase in the number of average active memberships during the third quarter of 2001 compared to the similar period in 2000. Associate services revenue decreased 24% from \$10.1 million for the third quarter of 2000 to \$7.7 million during the same period of 2001 primarily as a result of fewer new associates being recruited.

Membership benefits totaled \$22.1 million in the 2001 third quarter compared to \$18.3 million in the 2000 third quarter and resulted in a loss ratio of 33% for both periods.

Commissions to associates increased 23% to \$28.9 million for the three months ended September 30, 2001 compared to \$23.5 million for the comparable period of 2000, and represented 43% of Membership fees for both periods. These amounts were reduced by \$577,000 and \$559,000, respectively, representing Membership lapse fees. Commissions to associates per new membership sold were \$161 per membership for the three months ended September 30, 2001 compared to \$139 for the comparable period of 2000. This \$22 increase in commissions per new member was primarily due to increased advance commissions to new associates during the third quarter of 2001. Effective October 1, 2001 new associates must qualify to receive advance commissions; accordingly management expects future commission payments per new member to be between \$145 and \$155.

Associate services and direct marketing expenses decreased to \$5.3 million for the third quarter of 2001 from \$7.1 million for the comparable period of 2000 primarily due to the reduction in new associates recruited during the period.

General and administrative expenses during the three months ended September 30, 2001 and 2000 were \$7.0 million and \$5.9 million, respectively, and represented 10.3% and 10.7% of Membership fees.

The Company has recorded a provision for income taxes of \$3.7 million (33.2% of pretax income) for the three months ended September 30, 2001 compared to \$2.6 million (27.5% of pretax income) for the same period of 2000. The decrease in the effective tax rate for 2000 was due to the recognition of certain income tax credits.

The results of operations of the UFL segment have been segregated and

reported as discontinued operations in the Consolidated Statements of Income. Income (loss) from discontinued operations, net of income tax, are \$(562,000), net of tax of \$0 and \$227,000 net of tax benefit of \$285,000 for the three months ended September 30, 2001 and 2000, respectively.

The above factors resulted in a 2001 third quarter net income applicable to common shareholders of \$7.0 million, or \$.32 per share, diluted, compared to \$7.0 million, or \$.31 per share, for the third quarter of 2000.

Liquidity and Capital Resources

General

Consolidated net cash provided by operating activities of continuing operations was \$25.8 million for the first nine months of 2001 compared to cash provided of \$16.8 million for the 2000 period. The increase of \$9.0 million in cash provided by operating activities during the first nine months of 2001 compared to the same period of 2000 resulted primarily from the increase in net income of \$4.1 million, a net increase in deferred member and associate service costs of \$3.3 million, a net increase in accounts payable and accrued expenses of \$2.5 million, a net increase in other assets of \$1.6 million and a \$1.1 million change in loss from discontinued operations offset by a \$4.9 million net increase in deferred revenue and fees.

Consolidated net cash used in investing activities of continuing operations was \$7.8 million for the first nine months of 2001 compared to net cash used in investing activities of \$9.8 million for the comparable period of 2000. This \$2.0 million decrease in cash used in investing activities resulted from the \$8.2 million change in the maturities and sales of investments offset by a \$3.5 million increase in the purchases of investments and the \$2.7 million increase in net additions to property and equipment.

Net cash used in financing activities of continuing operations during the first nine months of 2001 was \$15.9 million compared to \$2.3 million for the comparable period of 2000. This \$13.6 million change was primarily comprised of the \$12.6 million increase in cash used to acquire treasury stock during the first nine months of 2001.

The Company had a consolidated working capital surplus of \$5.9 million at September 30, 2001, a decrease of \$1.4 million compared to a consolidated working capital of \$7.3 million at December 31, 2000. The \$1.4 million decrease in working capital during the first nine months of 2001 was primarily the result of a \$1.2 million increase in deferred Membership revenue and fees and associate fees, a \$1.8 million decrease in deferred income taxes offset by a \$2.1 million increase in cash and cash equivalents.

At September 30, 2001 the Company reported \$35.9 million in cash and investments (after utilizing more than \$15.8 million to purchase approximately 917,000 shares of its common stock during the nine months ending September 30, 2001) compared to \$31.5 million at December 31, 2000. The Company's investments consist of common stocks, investment grade (rated Baa or higher) preferred stocks and investment grade bonds primarily issued by corporations, the United States Treasury, federal agencies, federally sponsored agencies and enterprises as well as mortgage-backed securities and state and municipal tax-exempt bonds.

The Company generally advances significant commissions at the time a Membership is sold. During the nine months ended September 30, 2001, the Company advanced commissions of \$83.9 million on new Membership sales compared to \$73.0 million for the same period of 2000. Since approximately 94% of Membership premiums are collected on a monthly basis, a significant cash flow deficit is created at the time a Membership is sold. This deficit is reduced as monthly premiums are remitted and commissions payable on those Memberships are withheld to recover the advance.

The Company expenses advance commissions ratably over the first month of the related membership. As a result of this accounting policy, the Company's commission expenses are all recognized over the first month of a Membership and there is no commission expense recognized for the same Membership during the remainder of the advance period. The Company tracks its advance commission payments outstanding for internal purposes of analyzing its commission advance program. While not recorded as an asset, unearned commission payments to associates for the nine months ended September 30, 2001 were:

	(Amoı	ints in 000
Beginning unearned advance commission payments (1)	\$	167,193 83,947 (46,393) (1,399)
Ending unearned advance commission payments before estimated unrecoverable payments (1)		203,348 (13,686)
	\$	189 , 662

(1) These amounts do not represent fair value, as they do not take into consideration timing of estimated recoveries.

The ending unearned advance commission payments, net, above includes net unearned advance commission payments to non-vested associates of \$18.4 million. As such, at September 30, 2001 future commission payments and related expense should be reduced as unearned advance commission payments of \$171.3 million are recovered. Commissions are earned by the associate as Membership premiums are earned by the Company, usually on a monthly basis. The Company reduces unearned advance commission payments or remits payment to an associate, as appropriate, when commissions are earned. Should a Membership lapse before the advances have been recovered for each commission level, the Company generates an immediate "charge-back" to the applicable sales associate to recapture up to 50% of any unearned advance. This charge-back is deducted from any future advances that would otherwise be payable to the associate for additional new Memberships. Any remaining unearned advance commission payment may be recovered by withholding future residual earned commissions due to an active associate on active Memberships. Additionally, even though a commission advance may have been fully recovered on a particular Membership, no additional commission earnings from any Membership are paid to an associate until all previous advances on all Memberships, both active and lapsed, have been recovered.

The Company has the contractual right to require associates to repay unearned advance commission payments from sources other than earned commissions including cash (a) from all associates either (i) upon termination of the associate relationship, which includes but is not limited to when an associate becomes non-vested or (ii) when it is ascertained that earned commissions are insufficient to repay the unearned advance commission payments and (b) upon demand, from agencies or associates who are parties to the associate agreements signed between October 1989 and July 1992 or July 1992 to August 1998, respectively. The sources, other than earned commissions, that may be available to recover associate unearned advance commission payments are potentially subject to limitation based on applicable state laws relating to creditors' rights generally. Historically, the Company has not demanded repayments of the

unearned advance commissions from associates, including terminated associates, because collection efforts would likely increase costs and have the potential to disrupt the Company's relationships with its sales associates. This business decision by the Company has a significant effect on the Company's cash flow by electing to defer collection of advance payments of which approximately \$13.7 million were not expected to be collected from future commissions at September 30, 2001. However, the Company regularly reviews the unearned advance commission payments status of associates and will exercise its right to require associates to repay advances when management believes that such action is appropriate.

The Company believes that it has significant ability to finance expected future growth in Membership sales based on its existing amount of cash and cash equivalents and unpledged investments at September 30, 2001 of \$31.5 million. The Company expects to maintain cash and investment balances, including pledged investments, on an on-going basis of approximately \$25 to \$35 million in order to meet expected working capital needs and regulatory capital requirements. Cash balances in excess of this amount would be used for discretionary purposes such as treasury stock purchases. The Company continues to consider incurring indebtedness in order to continue or increase the rate of stock purchases, including financing its new corporate headquarters in order to allow cash flow from operations to continue to be used to purchase stock.

Subsequent event

On November 6, 2001, the Company entered into a \$17.5 million line of credit with Bank of Oklahoma, N.A. in order to fund additional treasury stock purchases. The line of credit provides for immediate funding of up to \$17.5 million with scheduled repayments beginning February 15, 2002 and ending November 15, 2002 with interest at the Libor rate plus 2% per annum or the prime rate minus 1/2 percent per annum as selected by the Company. The loan is secured by the Company's rights to receive membership fees on a portion of its memberships. The terms of this loan have various covenants customary for similar transactions.

Parent Company Funding and Dividends

Although the Company is the operating entity in many jurisdictions, the Company's subsidiaries serve as operating companies in various states that regulate Memberships as insurance or specialized legal expense products. The most significant of these wholly owned subsidiaries are PPLCI, UFL and PPLSIF. The ability of PPLCI and PPLSIF to provide funds to the Company is subject to a number of restrictions under various insurance laws in the jurisdictions in which PPLCI and PPLSIF conduct business, including limitations on the amount of dividends and management fees that may be paid and requirements to maintain specified levels of capital and reserves. In addition PPLCI will be required to maintain its stockholders' equity at levels sufficient to satisfy various state or provincial regulatory requirements, the most restrictive of which is currently \$3 million. Additional capital requirements of PPLCI or PPLSIF will be funded by the Company in the form of capital contributions or surplus debentures. At September 30, 2001, neither UFL nor PPLSIF had funds available for payment of substantial dividends without the prior approval of the respective insurance commissioners. PPLCI had approximately \$5 million in surplus funds available for payment of an ordinary dividend.

Forward-Looking Statements

All statements in this report concerning Pre-Paid Legal Services, Inc. (the "Company") other than purely historical information, including but not limited to, statements relating to the Company's future plans and objectives, discussions with the staff of the SEC, expected operating results, and the assumptions on which such forward-looking statements are based, constitute "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on the Company's historical operating trends and financial condition as of September 30, 2001 and other information currently available to management. The

Company cautions that the Forward-Looking Statements are subject to all the risks and uncertainties incident to its business, including but not limited to risks described below. Moreover, the Company may make acquisitions or dispositions of assets or businesses, enter into new marketing arrangements or enter into financing transactions. None of these can be predicted with certainty and, accordingly, are not taken into consideration in any of the Forward-Looking Statements made herein. For all of the foregoing reasons, actual results may vary materially from the Forward-Looking Statements. The Company assumes no obligation to update the Forward-Looking Statements to reflect events or circumstances occurring after the date of the statement.

Risk Factors

There are a number of risk factors that could affect our financial condition or results of operations. See Note 2 - Contingencies and Part II - Item 1 Legal Proceedings. Please refer to page 33 and 34 of the Company's 2000 Annual Report on Form 10-K, as amended and restated, for a description of other risk factors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's consolidated balance sheets include a certain amount of assets and liabilities whose fair values are subject to market risk. Due to the Company's significant investment in fixed-maturity investments, interest rate risk represents the largest market risk factor affecting the Company's consolidated financial position. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by the creditworthiness of the issuer, prepayment options, relative values of alternative investments, liquidity of the instrument and other general market conditions.

As of September 30, 2001, substantially all of the Company's investments were in investment grade (rated Baa or higher) fixed-maturity investments, interest-bearing money market accounts and a collateralized repurchase agreement. The Company does not hold any investments classified as trading account assets or derivative financial instruments.

The table below summarizes the estimated effects of hypothetical increases and decreases in interest rates on the Company's fixed-maturity investment portfolio. It is assumed that the changes occur immediately and uniformly, with no effect given to any steps that management might take to counteract that change. The hypothetical changes in market interest rates reflect what could be deemed best and worst case scenarios. The fair values shown in the following table are based on contractual maturities. Significant variations in market interest rates could produce changes in the timing of repayments due to prepayment options available. The fair value of such instruments could be affected and, therefore, actual results might differ from those reflected in the following table (dollars in 000's):

Hypothetical change in interest rate
Fair Value (bp=basis points)

Fixed-maturity investments at September 30, 2001 (1) \dots \$ 27,568 100 bp increase

200 bp increase 50 bp decrease а

100 bp decrease

Fixed-maturity investments at December 31, 2000 (1)...... \$ 25,480 100 bp increase 200 bp increase 50 bp decrease 100 bp decrease

(1) Excluding short-term investments with a fair value of \$3.5 million and \$3.9 million at September 30, 2001 and December 31, 2000, respectively. Includes UFL investments with a fair value of \$9.4 million and \$9.1 million at September 30, 2001 and December 31, 2000, respectively

The table above illustrates, for example, that an instantaneous 200 basis point increase in market interest rates at September 30, 2001 would reduce the estimated fair value of the Company's fixed-maturity investments by approximately \$1.7 million at that date. At December 31, 2000, an instantaneous 200 basis point increase in market interest rates would have reduced the estimated fair value of the Company's fixed-maturity investments by approximately \$1.7 million at that date. The definitive extent of the interest rate risk is not quantifiable or predictable due to the variability of future interest rates, but the Company does not believe such risk is material.

The Company primarily manages its exposure to interest rate risk by purchasing investments that can be readily liquidated should the interest rate environment begin to significantly change.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

See Note 2 of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report for information with respect to legal proceedings.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

- (a) Exhibits: None
- (b) Reports on Form 8-K:

The Company filed Form 8-K dated August 3, 2001 providing under Item 4-C Changes in Registrant's Certifying Accountant describing the Company's mutual agreement with its independent auditor, Deloitte & Touche LLP, to cease their client-auditor relationship.

The Company filed Form 8-K dated September 19, 2001 providing under Item 4 - Changes in Registrant's Certifying Accountant describing the Company's engagement of Grant Thornton LLP as its new independent accountants as of

September 17, 2001.

SIGNATURES

Pursuant to the requirements of the Securities and Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
