Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Period Ending December 31, 2003)
Unaudited Financial Data

The discussion and analysis contained herein should be read in conjunction with the preceding financial statements and the information contained in the Company's 10SB. Except for the historical information contained herein, the matters discussed in this 10 QSB contain forward looking statements within the meaning of Section 27a of the Securities Act of 1933, as amended, and Section 21e of the Securities Exchange Act of 1934, as amended, that are based on management's beliefs and assumptions, current expectations, estimates, and projections. Statements that are not historical facts, including without limitation statements which are preceded by, followed by or include the words "believes," "anticipates," "plans," "expects," "may," "should," or similar expressions are forward-looking statements. Many of the factors that will

Edgar Filing: PIONEER OIL & GAS - Form 10QSB

determine the company's future results are beyond the ability of the Company to control or predict. These statements are subject to risks and uncertainties and, therefore, actual results may differ materially. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressed qualified in their entirety by these cautionary statements. The Company disclaims any obligation to update any forward-looking statements whether as a result of new information, future events or otherwise.

Important factors that may include, but are not limited to: the risk of a significant natural disaster, the inability of the Company to insure against certain risks, fluctuations in commodity prices, the inherent limitations in the ability to estimate oil and gas reserves, changing government regulations, as well as general market conditions, competition and pricing, and other risks detailed from time to time in the Company's SEC reports, copies of which are available upon request from the Company.

Results of Operations -

Total revenue for the first fiscal quarter increased 60 percent from \$251,490 in fiscal 2003 to \$401,774 in fiscal 2004. The increase in revenue was due primarily to an increase in royalty income of \$180,781 for fiscal 2004 versus \$20,831 in fiscal 2003. Part of the increase was due to a clerical error on the part of the payor on the Hunter Mesa Unit who paid the Company for November and December 2003 production instead of just November 2003. Project and lease sales income declined from \$33,838 in fiscal 2003 to \$18,750 in fiscal 2004.

Total oil and gas sales (including royalty revenue) increased from \$217,152 (2003) to \$381,822 (2004) in the first quarter. This increase was due to increased royalty revenue and higher product prices. Average oil prices for the quarter increased over the first quarter of fiscal 2003 from \$23.85 bbl to \$26.25 bbl while gas prices increased from \$2.01 MCF to \$4.25 MCF. For the quarter oil production dropped thirty percent due to natural declines (and lower production rates on The Climax 7-2 well) while gas production increased 38 percent. The Climax 7-2 is currently being produced at a lower rate to preserve equipment integrity and reduce work-over expenses.

Project and lease sales income for the quarter decreased from \$33,858 to \$18,750. Project sales are a function of many factors and in general are not related to the time of year.

Costs of operations increased from \$111,416 (2003) to \$181,906 (2004) for the quarter primarily due to work over expenses on the Sheldon, Pilot and Climax properties.

General and administrative expenses increased from \$66,402 to \$79,830.

The Company's net income for the first quarter increased from a loss of \$35,339 for fiscal 2003 to net income of \$62,708 for fiscal 2004 an increase of \$98,047. Earnings per share for the first quarter of fiscal 2004 were \$.01. This compares to a loss of \$.01 for the same period last year.

Liquidity and Capital Resources

During the first quarter of fiscal 2004 net cash provided by operating activities was \$117,433 while investing activities used \$7,374 in cash. Financing activities used \$74 in the repurchase of a small amount of the Company's stock. One of the larger uses of cash was \$21,607 for the purchase of resale leases to increase the Company's inventory of acreage for future development and sale. Cash at the end of the quarter increased from \$371,527 to

\$481,512.
