COMMERCIAL BANKSHARES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. INTERIM FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements, which are for interim periods, do not include all disclosures provided in the annual consolidated financial statements. These financial statements and the footnotes thereto should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2005 for Commercial Bankshares, Inc. (the "Company").

All material intercompany balances and transactions have been eliminated.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary for a fair presentation of the financial statements. Those adjustments are of a normal recurring nature. The results of operations for the nine month period ended September 30, 2006, are not necessarily indicative of the results to be expected for the full year.

In preparing the condensed consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the statements of financial condition and revenues and expenses for the periods covered. Actual results could differ from those estimates and assumptions.

2. STOCK-BASED COMPENSATION

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"), that requires companies to expense the value of employee stock purchase plans, stock option grants and similar awards at the beginning of their next fiscal year that begins after June 15, 2005 and requires the use of either the modified prospective or the modified retrospective application method. The Company adopted SFAS 123R on January 1, 2006 under the modified prospective method; as such, prior periods do not include share-based compensation expense related to SFAS 123R. The modified prospective method requires the application of SFAS 123R to new awards and to awards modified, repurchased, or cancelled after the effective date. Additionally, compensation cost for the portion of outstanding awards for which service has not been rendered (such as unvested options) that are outstanding as of the date of adoption are recognized as the remaining services are rendered. The Company recognizes the fair value of stock-based compensation awards in salaries and benefits for employee options and in other expenses for director options on a straight line basis over the vesting period.

The Company's stock-based compensation consists solely of expense related to stock options. The Company generally grants stock options to employees and directors at exercise prices equal to the fair market value of the Company's stock at the dates of grant. Stock options vest immediately for directors and after one year for employees and expire 10 years from the date of the award.

During the three and nine months ended September 30, 2006, the Company recognized approximately \$41,000 and \$191,000, respectively, of stock-based compensation expense and \$0 and \$24,000, respectively, of tax related benefits. As of September 30, 2006, there was \$110,000 in unrecognized compensation cost related to non-vested stock options.

Prior to January 1, 2006, the Company accounted for its stock options in accordance with the intrinsic value provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"). Under APB 25, the difference between the quoted market price as of the date of grant and the contractual purchase price of shares was recognized as compensation expense over the vesting period on a straight-line basis. The Company did not recognize compensation expense in its consolidated financial statements for stock options as the exercise price was not less than 100% of the fair value of the underlying common stock on the date of grant.

The following table illustrates the effect on net income and net income per share had the Company recognized compensation expense consistent with the fair value provisions of SFAS No. 123 "Accounting for Stock-Based Compensation" prior to the adoption of SFAS 123R:

| | Three Months Ended September 30, 2005 | Nine Months Ended September 30, 2005 |
|--|--|---|
| | (Dollars in thousands) | |
| Net income as reported | \$3,086 | \$9,012 |
| Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects | (62) | (209) |
| Pro forma net income | \$3,024 | \$8,803 |
| Earnings per share, basic as reported | \$.51 | \$ 1.51 |
| Earnings per share, basic pro forma | \$.50 | \$ 1.47 |
| Earnings per share, diluted as reported | \$.49 | \$ 1.44 |
| Earnings per share, diluted pro forma | \$.48 | \$ 1.40 |

The table below presents information related to stock options activity for the nine months ended September 30, 2006 and 2005 (in thousands):

| | Nine months ended September 30, 2006 2005 | |
|---|---|----------|
| Total intrinsic value of stock options exercised | \$ 1,522 | \$ 1,962 |
| Cash received from stock option exercises | 430 | 752 |
| Gross income tax benefit from the exercise of stock options | 376 | 226 |

A summary of stock option activity for the nine months ended September 30, 2006 is as follows:

Weighted-Average

| | Number of Options | Exercise Price | Weighted-Average Contractual Term | Aggregate Intrinsic Value (000s) |
|--|----------------------------------|-----------------------|--|---|
| Options outstanding, January 1, 2006 | 615,468 | \$ 16.78 | | |
| Options granted | 32,000 | 35.18 | | |
| Option forfeited | (2,500) | 38.85 | | |
| Options exercised | (55,862) | 8.68 | | |
| Options outstanding, September 30, 2006 | 589,106 | \$ 18.46 | 4.8 years | \$ 10,235 |
| Options exercisable, September 30, 2006 | 564,606 | \$ 17.73 | 4.6 years | \$ 10,223 |

Edgar Filing: COMMERCIAL BANKSHARES INC - Form 10-Q

Common stock issued upon exercise of stock options are newly-issued shares. At September 30, 2006, options to purchase 194,500 shares were available for grant under the Company's Stock Option Plans.

Stock-based compensation expense was calculated using the Modified Black-Scholes option-pricing model with the following assumptions:

| Black-Scholes Assumptions | Nine Months Ended September 30, 2006 |
|--------------------------------------|---|
|--------------------------------------|---|

| | |
|-------------------------|-------|
| Risk-free interest rate | 4.61% |
|-------------------------|-------|

| | |
|----------------------|-----|
| Expected option life | 6.0 |
|----------------------|-----|

| | |
|---------------------------------|--------|
| Expected stock price volatility | 21.59% |
|---------------------------------|--------|

| | |
|----------------|-------|
| Dividend yield | 2.27% |
|----------------|-------|

| | |
|--|---------|
| Weighted average fair value of options granted during the year | \$ 8.20 |
|--|---------|

3. PER SHARE DATA

Earnings per share have been computed by dividing net income by the weighted average number of shares of common stock (basic earnings per share) and by the weighted average number of shares of common stock plus dilutive shares of common stock equivalents outstanding (diluted earnings per share). Common stock equivalents include the effect of all outstanding stock options, using the treasury stock method.

| | Three Months Ended September 30, 2006 | | | Three Months Ended September 30, 2005 | | |
|-------------------------------|--|-------------------------|---------------------|--|-------------------------|---------------------|
| | Income (Numerator) | Shares (Denominator) | Per-Share Amount | Income (Numerator) | Shares (Denominator) | Per-Share Amount |
| Basic EPS | \$ 3,195 | 6,058 | \$.53 | \$ 3,086 | 6,002 | \$.51 |
| Effect of Dilutive Options | - | 228 | (.02) | - | 285 | (.02) |
| Diluted EPS | \$ 3,195 | 6,286 | \$.51 | \$ 3,086 | 6,287 | \$.49 |

For the three months ended September 30, 2006, options to purchase 30,000 shares of common stock at \$38.85 per share were outstanding, which were not included in the computation of diluted earnings per share because they were antidilutive. All outstanding options for the three months ended September 30, 2005 were included in the computation of diluted earnings per share.

Nine Months Ended September 30, 2006

Nine Months Ended September 30, 2005

Edgar Filing: COMMERCIAL BANKSHARES INC - Form 10-Q

| | Income (Numerator) | Shares (Denominator) | Per-Share Amount | Income (Numerator) | Shares (Denominator) | Per-Share Amount |
|-------------------------------|-----------------------|-------------------------|---------------------|-----------------------|-------------------------|---------------------|
| Basic EPS | \$ 9,369 | 6,044 | \$ 1.55 | \$ 9,012 | 5,977 | \$ 1.51 |
| Effect of Dilutive Options | - | 239 | (.06) | - | 301 | (.07) |
| Diluted EPS | \$ 9,369 | 6,283 | \$ 1.49 | \$ 9,012 | 6,278 | \$ 1.44 |

For the nine months ended September 30, 2006, options to purchase 30,000 shares of common stock at \$38.85 per share were outstanding, which were not included in the computation of diluted earnings per share because they were antidilutive. All outstanding options for the nine months ended September 30, 2005 were included in the computation of diluted earnings per share.

4. NEW ACCOUNTING PRONOUNCEMENTS

In September 2006, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 108 ("SAB 108"). Due to diversity in practice among registrants, SAB 108 expresses SEC staff views regarding the process by which misstatements in financial statements are evaluated for purposes of determining whether financial statement restatement is necessary. The Company has not yet determined the effect of implementing this pronouncement, which is effective for fiscal years ending after November 15, 2006.

In July 2006, the FASB released Interpretation No. 48, "Accounting for Uncertainty in Income Taxes." This Interpretation revises the recognition tests for tax positions taken in tax returns such that a tax benefit is recorded only when it is more likely than not that the tax position will be allowed upon examination by taxing authorities. The amount of such a tax benefit to record is the largest amount that is more likely than not to be allowed. Any reduction in deferred tax assets or increase in tax liabilities upon adoption will correspondingly reduce retained earnings. The Company has not yet determined the effect of adopting this Interpretation, which is effective for it on January 1, 2007.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets", which amends FASB Statement No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." SFAS No. 156 requires an entity to separately recognize servicing assets and servicing liabilities and to report these balances at fair value upon inception. Future methods of assessing values can be performed using either the amortization or fair value measurement techniques. Adoption of SFAS No. 156 was required for transactions occurring in fiscal years beginning after September 15, 2006. The adoption of this standard did not have a material effect on the financial statements of the Company.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis of the Company's consolidated results of operations and financial condition should be read in conjunction with the unaudited interim consolidated financial statements and the related notes included herein and the consolidated financial statements for the year ended December 31, 2005 appearing in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

CORPORATE OVERVIEW

Commercial Bankshares, Inc. (the "Company"), a Florida corporation organized in 1988, is a bank holding company whose wholly-owned subsidiary and principal asset is the Commercial Bank of Florida (the "Bank"). The Company, through its ownership of the Bank, is engaged in a commercial banking business. Its primary source of earnings is derived from income generated by its ownership and operation of the Bank. The Bank is a Florida chartered banking corporation with fourteen branch locations throughout Miami-Dade and Broward counties in South Florida. The Bank primarily focuses on providing personalized banking services to businesses and individuals within the market areas where its banking offices are located.

RESULTS OF OPERATIONS

Three and Nine Months Ended September 30, 2006 and 2005

The Company's net income for the three months ended September 30, 2006, was \$3.20 million, a 4% increase over net income for the same three month period ended September 30, 2005 of \$3.09 million. Basic and diluted earnings per share were \$.53 and \$.51, respectively, for the three months ended September 30, 2006, as compared to \$.51 and \$.49, respectively, for the three months ended September 30, 2005.

Results for the nine months ended September 30, 2006 showed net income of \$9.37 million, a 4% increase over net income for the nine months ended September 30, 2005 of \$9.01 million. Basic and diluted earnings per share were \$1.55 and \$1.49, respectively, for the nine months ended September 30, 2006, as compared to \$1.51 and \$1.44 respectively, for the nine months ended September 30, 2005.

The Company's third quarter tax-equivalent net interest income increased 5% to \$9.18 million, from \$8.75 million in the third quarter in 2005. The increase is the result of growth in average earning assets, which have increased 9% to \$1.0 billion for the third quarter of 2006, as compared to \$936 million for the third quarter of 2005. The tax-equivalent net interest yield for the three months ended September 30, 2006 was 3.59%, as compared to 3.71% for the same period in 2005. The decrease in net interest yield is the result of the Bank's liability-sensitive balance sheet in a rising interest rate environment. The net interest margin has been calculated on a tax-equivalent basis, which includes an adjustment for interest on tax-exempt securities.

For the nine months ended September 30, 2006, tax equivalent net interest income increased 5% to \$27.1 million from \$25.7 million in the same nine-month period one year ago, and the tax-equivalent net interest margin decreased to 3.63% from 3.85% one year ago. The decrease in the nine-month net interest margin is also the result of the Bank's liability-sensitive balance sheet in a rising interest rate environment.

Non-interest income increased by \$346,000, or 54%, for the third quarter of 2006, as compared to the corresponding period in 2005 and increased by \$333,000 for the nine months ended September 30, 2006, as compared to the same nine month period ending September 30, 2005. The increase in the third quarter is primarily due to gains on sale of investment securities of \$332,000. The increase in the nine months ended September 30, 2006 is due to gains on sale of investment securities of \$423,000 and increases of \$61,000 in letter of credit income, Visa/Master Card income and other miscellaneous income, partially offset by a decrease in service charges on deposit accounts, primarily insufficient funds and business analysis fees, of \$124,000. Business analysis fees have an inverse relationship to interest rates and will decrease in a rising rate environment. Insufficient funds fees have dropped due to the closing of or management's counseling of chronically overdrawn accounts.

Non-interest expense for the third quarter of 2006 increased \$369,000, or 8% from the same quarter in 2005, due to increases in salaries and employee benefits, occupancy expense and insurance expense. Salaries and employee benefits increased \$285,000, or 10%, due to the addition of new officers and employees, normal salary adjustments and stock option expensing. Occupancy increased \$68,000, or 18%, due to higher real estate taxes on owned branch properties. Insurance expense increased \$22,000, or 28%, due to new cyber-risk insurance premiums and other insurance premium increases.

Non-interest expense for the nine months ended September 30, 2006 increased \$847,000, or 7%, from the nine months ended September 30, 2005. Salaries and employee benefits increased \$628,000, or 8%, occupancy \$198,000, or 20% and insurance premiums \$61,000, or 25%. The reasons for these increases were the same as mentioned above for the three month period. In addition, director fees increased \$63,000, or 87%, due to the implementation of FAS 123R whereby director stock option grants were expensed. These increases were partially offset by a decrease in professional fees of \$128,000, or 35%, due to Sarbanes-Oxley related expenses in 2005 that were not repeated in 2006.

The effective income tax rate, which includes both federal and state income taxes, was level at 34% for both of the three months ended September 30, 2006 and 2005. For the nine months ended September 30, 2006 and 2005 the effective income tax rate remained level at 34%.

Company management continually reviews and evaluates the allowance for loan losses. In evaluating the adequacy of the allowance for loan losses ("allowance"), management considers the results of its methodology, along with other factors such as the amount of non-performing loans and the economic conditions affecting the Company's markets and customers. The allowance was \$5.92 million at September 30, 2006, as compared with \$5.40 million at December 31, 2005. For the three months ended September 30, 2006 the allowance was increased with a provision for loan losses of \$330,000 and decreased by approximately \$18,000 in net charge-offs. For the three months ended September 30, 2005, the allowance was increased with a provision for loan losses of \$30,000 and increased by approximately \$37,000 in net recoveries. For the nine months ended September 30, 2006, the allowance was increased with a provision for loan losses of \$545,000 and decreased by approximately \$23,000 in net charge-offs. For the nine months ended September 30, 2005, the allowance was increased with a provision for loan losses of \$170,000 and increased by approximately \$40,000 in net recoveries. The allowance as a percentage of total loans has decreased to .99% at September 30, 2006, from 1.06% at December 31, 2005. Based on the nature of the loan portfolio and prevailing economic factors, management believes that the current level of the allowance is sufficient to absorb probable losses in the loan portfolio.

The Bank primarily grants loans for which South Florida real estate is the collateral. As of September 30, 2006, approximately 93% of loans had real estate as the primary or secondary component of collateral.

The Company had no non-accrual loans and no loans past due 90 days or more and still accruing interest at September 30, 2006 or September 30, 2005.

LIQUIDITY AND CAPITAL RESOURCES

The objective of liquidity management is to maintain cash flow requirements to meet immediate and ongoing future needs for loan demand, deposit withdrawals, maturing liabilities, and expenses. In evaluating actual and anticipated needs, management seeks to obtain funds at the most economical cost. Management believes that the level of liquidity is sufficient to meet future funding requirements.

For banks, liquidity represents the ability to meet both loan commitments and withdrawals of deposited funds. At September 30, 2006 loan commitments totaled \$84 million. Funds to meet these needs can be obtained by converting liquid assets to cash or by attracting new deposits or other sources of funding. Many factors affect a bank's ability to meet liquidity needs. The Bank's principal sources of funds are deposits, repurchase agreements, payments on loans, maturities and sales of investments. As an additional source of funds, the Bank has credit availability with the Federal Home Loan Bank amounting to \$159 million, and lines of credit available at correspondent banks amounting to \$30 million as of September 30, 2006.

The Bank's primary use of funds is to originate loans and purchase investment securities. During the nine months ended September 30, 2006, the Bank purchased \$10 million in investment securities and loans increased by \$87 million. Funding for both came from increases in deposits and repurchase agreements of \$21 million, and increases from proceeds of sales, maturities and prepayments of investment securities of \$31 million.

In accordance with risk-based capital guidelines issued by the Federal Reserve Board, the Company and the Bank are each required to maintain a minimum ratio of total capital to risk weighted assets of 8%. Additionally, all bank holding companies and member banks must maintain "core" or "Tier 1" capital of at least 3% of total assets ("leverage ratio"). Member banks operating at or near the 3% capital level are expected to have well diversified risks, including no undue interest rate risk exposure, excellent control systems, good earnings, high asset quality, high liquidity, and well managed on- and off-balance sheet activities, and in general be considered strong banking organizations with a composite 1 rating under the CAMELS rating system of banks. For all but the most highly rated banks meeting the above conditions, the minimum leverage ratio is to be 3% plus an additional 100 to 200 basis points. The Tier 1 Capital, Tier 2 Capital, and Leverage Ratios of the Company were 12.23%, 13.42%, and 8.03%, respectively, as of September 30, 2006.

CRITICAL ACCOUNTING POLICIES

The Company's critical accounting policies are disclosed on page 17 of its 2005 Annual Report under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations, which report is filed with the Annual Report on Form 10-K for the year ended December 31, 2005. On an on-going basis, the Company evaluates its estimates and assumptions, including those related to valuation of the loan portfolio. Since the date of the 2005 Annual Report, there have been no material changes to the Company's critical accounting policies.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q may contain forward-looking statements (within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended), representing the Company's expectations and beliefs concerning future events. The actual results of the Company could differ materially from those indicated by the forward-looking statement because of various risks and uncertainties, including, without limitation, the Company's effective and timely initiation and development of new client relationships, the maintenance of existing client relationships and programs, the recruitment and retention of qualified personnel, possible or proposed products, branch offices, or strategic plans, the ability to increase sales of Company products and to increase deposits, the adequacy of cash flows from operations and available financing to fund capital needs and future growth, changes in management's estimate of the adequacy of the allowance for loan losses, changes in the overall mix of the Company's loan and deposit products, the impact of repricing and competitors' pricing initiatives on loan and deposit products as well as other changes in competition, the extent of defaults, the extent of losses given such defaults, the amount of lost interest income that may result in the event of a severe recession, the status of the national economy and the South Florida economy in particular, the impact that changing interest rates have on the Company's net interest margin, changes in governmental rules and regulations applicable to the Company and other risks in the Company's filings with the Securities and Exchange commission. The Company cautions that its discussion of these matters is further qualified, as these risks and uncertainties are beyond the ability of the Company to control. In many cases, the Company cannot predict the risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements.

The Company undertakes no obligation to revise or update these forward-looking statements to reflect events or circumstances after the date of this filing.

[Return to Table of Contents](#)**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****ASSET/LIABILITY MANAGEMENT AND INTEREST RATE RISK**

Changes in interest rates can substantially impact the Company's long-term profitability and current income. An important part of management's efforts to maintain long-term profitability is the management of interest rate risk. The goal is to maximize net interest income within acceptable levels of interest rate risk and liquidity. Interest rate exposure is managed by monitoring the relationship between interest-earning assets and interest-bearing liabilities, focusing on the size, maturity or anticipated repricing date, rate of return and degree of risk. The Asset/Liability Management Committee of the Bank oversees the interest rate risk management and reviews the Bank's asset/liability structure on a quarterly basis.

The Bank uses interest rate sensitivity or GAP analysis to monitor the amount and anticipated timing of balances exposed to changes in interest rates. The GAP analysis is not relied upon solely to determine future reactions to interest rate changes because it is presented at one point in time and could change significantly from day-to-day. Other methods such as simulation analysis are utilized in evaluating the Bank's interest rate risk position. The table presented below shows the Bank's GAP analysis at September 30, 2006. Management's assumptions reflect the Bank's estimate of the anticipated repricing sensitivity of non-maturity deposit products.

INTEREST RATE SENSITIVITY ANALYSIS

(Dollars in Thousands)

| | Anticipated Term to Repricing | | | | |
|--------------------------------------|--------------------------------------|------------------------|-------------------------|---|--------------|
| | 90 Days or Less | 91-181 Days | 182-365 Days | Over 1 Year & Non-rate Sensitive | Total |
| Interest-earning assets: | | | | | |
| Interest-bearing due from banks | \$ 18,142 | \$ - | \$ - | \$ - | \$ 18,142 |
| Federal funds sold | 23,653 | - | - | - | 23,653 |
| Investment securities (1) | 10,704 | 21,872 | 28,328 | 324,400 | 385,304 |
| Gross loans (excluding non-accrual) | 178,032 | 68,843 | 92,144 | 257,678 | 596,697 |
| Total interest-earning assets | \$ 230,531 | \$ 90,715 | \$ 120,472 | \$ 582,078 | \$ 1,023,796 |
| Interest-bearing liabilities: | | | | | |
| Interest-bearing checking | \$ - | \$ - | \$ - | \$ 88,189 | \$ 88,189 |
| Money market | 82,704 | - | - | - | 82,704 |
| Savings | - | - | 28,266 | - | 28,266 |
| Time deposits | 160,054 | 102,968 | 109,748 | 131,050 | 503,820 |
| Borrowed funds | 107,377 | - | - | - | 107,377 |
| Total interest-bearing liabilities | \$ 350,135 | \$ 102,968 | \$ 138,014 | \$ 219,239 | \$ 810,356 |
| Interest sensitivity gap | \$ (119,604) | \$ (12,253) | \$ (17,542) | \$ 362,839 | \$ 213,440 |
| Cumulative gap | \$ (119,604) | \$ (131,857) | \$ (149,399) | \$ 213,440 | |

| | | | | |
|---|---------|---------|---------|-------|
| Cumulative ratio of interest-earning assets to interest-bearing liabilities | 66% | 71% | 75% | 126% |
| Cumulative gap as a percentage of total interest-earning assets | (11.7%) | (12.9%) | (14.6%) | 20.8% |

(1) Investment securities include equity investment in the Federal Reserve Board and Federal Home Loan Bank.

In the above table, savings accounts have been allocated to the "182-365 days" category and interest-bearing checking accounts have been allocated to the "over 1 year" category because management does not anticipate changes the rates on these products in an earlier period even if market conditions change. If all non-maturing deposits had been shown at their contractual term (90 days or less column), the cumulative gap as a percentage of total earning assets would have been -23.1%, -24.3%, -23.2% and 20.8% for 90 days or less, 91-181 days, 182-365 days and over 1 year, respectively.

The Bank uses simulation analysis to quantify the effects of various immediate parallel shifts in interest rates on net interest income over the next 12 month period. Such a "rate shock" analysis requires key assumptions which are inherently uncertain, such as deposit sensitivity, cash flows from investments and loans, reinvestment options, management's capital plans, market conditions, and the timing, magnitude and frequency of interest rate changes. As a result, the simulation is only a best-estimate and cannot accurately predict the impact of the future interest rate changes on net income. As of September 30, 2006, the Bank's simulation analysis projects a decrease to net interest income of 6.94%, assuming an immediate parallel shift downward in interest rates by 200 basis points. If rates rise by 200 basis points, the simulation analysis projects net interest income would increase by 1.11%. These projected levels are within the Bank's policy limits.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

As of September 30, 2006, the Company's management carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

The work undertaken by the Company to comply with Section 404 of the Sarbanes-Oxley Act of 2002 involved the identification, documentation, assessment and testing of the Company's internal control over financial reporting in order to evaluate the effectiveness of such controls.

(b) Changes in Internal Control Over Financial Reporting

There have been no significant changes in the Company's internal control over financial reporting during the quarter ended September 30, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1A. RISK FACTORS

There has not been any material change in the risk factor disclosure from that contained in the Company's 2005 Annual Report on Form 10-K for the year ended December 31, 2005.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) On August 24, 2006 the Company announced a stock repurchase plan whereby up to \$4 million can be used to buy shares of the Company's common stock in open market and negotiated transactions during the next 24 months. The Company made no stock repurchases during this quarter.

ITEM 6. EXHIBITS

- | | |
|------|---|
| 10.1 | Amendment to Standard Office Building Lease between Promenade of Coral Springs, Inc. (Landlord) and Commercial Bank of Florida (Tenant), dated June 21, 2006 |
| 10.2 | Employment Agreement between Commercial Bank of Florida and Barbara E. Reed, dated October 16, 2006 |
| 31.1 | Certification of Chief Executive Officer Pursuant to Rule 15A-14(A) or 15D-14(A) of the Securities Exchange Act of 1934, As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 |
| 31.2 | Certification of Chief Financial Officer Pursuant to Rule 15A-14(A) or 15D-14(A) of the Securities Exchange Act of 1934, As Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 |
| 32.1 | Certification of Chief Executive Officer Pursuant to Rule 13a-14(b) or Rule 15d-14(b) and 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 |
| 32.2 | Certification of Chief Financial Officer Pursuant to Rule 13a-14(b) or Rule 15d-14(b) and 18 U.S.C. Section 1350, As Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 |
