### Recent Development

On June 1, 2005, the FERC issued a decision in the System Agreement case. Entergy Arkansas, Inc. ( EAI ), Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy New Orleans, Inc., and we, the domestic utility companies, historically have engaged in the coordinated planning, construction, and operation of generating and bulk transmission facilities under the terms of an agreement called the System Agreement that has been approved by the FERC. Litigation involving the System Agreement is being pursued by the Louisiana Public Service Commission at both the FERC and before itself. Details of these proceedings are described in our Annual Report on Form 10-K for the year ended December 31, 2004.

The FERC decision concluded, among other things, that:

The System Agreement no longer roughly equalizes production costs among the domestic utility companies;

In order to reach rough production cost equalization, the FERC will impose a bandwidth remedy allowing for a maximum spread of 22 percent (expressed by the FERC as +/- 11%) between the total annual production costs of

the highest cost and lowest cost domestic utility companies;

When calculating the production costs for this purpose, output from the Vidalia Hydroelectric Power Plant will not reflect the actual Vidalia price for that year but will be priced at that year's average MSS-3 price, reducing the amount of Vidalia costs reflected in the comparison of the domestic utility companies' total production costs; and

The remedy ordered by FERC calls for no refunds and would be effective based on the calendar year 2006 production costs with the first potential reallocation payments, if required, expected to be made in 2007.

Although the domestic utility companies have not completed an analysis of the effect of the FERC decision on future production costs, management expects that the decision has the potential, depending principally on the cost of natural gas, to result in a material increase in costs allocated to EAI and a material decrease in costs allocated to us and the other domestic utility companies. However, management expects that these potential allocations will be less than the potential allocations that would have occurred under the initial decision by the FERC administrative law judge as described in our Annual Report on Form 10-K for the year ended December 31, 2004.

Management believes that any changes in the allocation of production costs resulting from the FERC decision and related retail proceedings should result in similar rate changes for retail customers. Although the outcome and timing of the FERC and other proceedings cannot be predicted at this time, we do not believe that the ultimate resolution of these proceedings will have a material effect on our financial condition or results of operations.

### Underwriting

Under the terms and conditions set forth in the underwriting agreement dated the date of this prospectus supplement, we have agreed to sell to each of the underwriters named below, and each of the underwriters has severally agreed to purchase, the respective number of shares of the preferred stock set forth opposite its name below:

Name	Number of Shares
Barclays Capital Inc.	540,000
Lehman Brothers Inc.	540,000
Morgan Keegan & Company, Inc.	120,000
Total	1,200,000

Under the terms and conditions of the underwriting agreement, the underwriters have committed, subject to the terms and conditions set forth therein, to take and pay for all of the shares of preferred stock if any of the shares of preferred stock are taken, provided, that under certain circumstances involving a default of an underwriter, less than all of the shares of preferred stock may be purchased.

The underwriters initially propose to offer the shares of preferred stock directly to the public at the price to public set forth on the cover page hereof and may offer the shares of preferred stock to certain dealers at a price that

represents a concession not in excess of \$0.30 per share. Any underwriter may allow, and any such dealers may reallocate to certain other dealers, a concession not in excess of \$0.20 per share. After the initial offering of the preferred stock, the offering price and other selling terms may from time to time be varied by the underwriters.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

There is presently no trading market for the preferred stock and there is no assurance that a market will develop since we do not intend to apply for listing of the preferred stock on a national securities exchange. Although they are under no obligation to do so, the underwriters may act as market makers for the preferred stock in the secondary trading market, but may discontinue such market-making at any time without notice. No assurance can be given as to the liquidity of the trading market for the preferred stock.

In order to facilitate the offering of the preferred stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the preferred stock. Specifically, the underwriters may overallocate in connection with the offering, creating a short position in the preferred stock for their own account. In addition, to cover overallocations or to stabilize the price of the preferred stock, the underwriters may bid for, and purchase, the preferred stock in the open market. Finally, the underwriters may reclaim selling concessions allowed to an underwriter or a dealer for distributing the preferred stock in the offering, if they repurchase previously distributed preferred stock in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price for the preferred stock above independent market levels. The underwriters are not required to engage in these activities and may end any of these activities at any time.

It is expected that delivery of the preferred stock will be made on or about the date specified on the cover page of this prospectus supplement, which will be the fifth business day (T+5) following the date of this prospectus supplement. Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days (T+3), unless the parties to any such trade expressly agree otherwise. Accordingly, the purchasers who wish to trade the preferred stock on the date of this prospectus supplement or the business day immediately following such date will be required to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the preferred stock who wish to trade the preferred stock on the date of this prospectus supplement or the business day immediately following such date should consult their own advisors.

S-8

Certain of the underwriters will make the preferred stock available for distribution on the Internet through a proprietary Web site and/or a third-party system operated by MarketAxess Corporation, an Internet-based communications technology provider. MarketAxess Corporation is providing the system as a conduit for communications between certain of the underwriters and their customers and is not a party to any transactions. MarketAxess Corporation, a registered broker-dealer, will receive compensation from certain of the underwriters based on transactions conducted through the system. Certain of the underwriters will make the preferred stock available to their customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

Certain underwriters or their affiliates may engage, or have engaged, in various general financing and commercial banking transactions from time to time with us or our affiliates. Barclays Capital Inc. and Lehman Brothers Inc., either directly or through affiliates, are lenders under certain Entergy System credit facilities.

#### **Ratios of Earnings to Fixed Charges and Preferred Dividends**

We have calculated ratios of earnings to fixed charges and preferred dividends pursuant to Item 503 of SEC Regulation S-K as follows:

<b>Twelve Months Ended December 31,</b>				
<b>2004</b>	<b>2003</b>	<b>2002</b>	<b>2001</b>	<b>2000</b>

entitled to elect the remaining directors of the Company.

*Restrictions on Issuance of Prior Ranking Stock and on Altering Rights of Preferred Stock.* The vote of the holders of at least two-thirds of the total number of votes entitled to be cast by the Preferred Stock, voting separately as a class and calculated as described above under *Voting Rights-General*, is required prior to the issuance of any new stock ranking prior to the Preferred Stock as to dividends or in liquidation, dissolution, winding up or distributions or any stock convertible into shares of such prior ranking stock except to provide funds for the redemption of all of the Preferred Stock then outstanding (provided that any such new stock shall be issued within twelve months after the vote by the holders of the Preferred Stock authorizing the issuance), and for the amendment or alteration of any of the rights, preferences or powers of the Preferred Stock in a manner which would affect adversely any of such rights, preferences or powers. If any such amendment or alteration would affect adversely the rights, preferences or powers of less than all of the Preferred Stock, only the consent of the holders of at least two-thirds of the votes entitled to be cast by the outstanding shares of all series so affected is required, with such vote calculated as described above under

*Voting Rights-General.* The increase or decrease in the authorized amount of the Preferred Stock, or the creation, or increase or decrease in the amount, of any class of stock ranking on a parity with the Preferred Stock, as to dividends or in liquidation, dissolution, winding up or distributions shall not be deemed to affect adversely the rights, preferences or powers of the holders of the Preferred Stock.

*Restrictions on Merger, Sale of Assets, and Sale of Additional Preferred Stock.* The vote of the holders of a majority of the total number of votes entitled to be cast by the Preferred Stock, voting separately as a class and calculated as described above under *Voting Rights-General*, is required prior to our merger or consolidation or the

disposition of all or substantially all of our assets, unless such merger, consolidation or disposition has been ordered, approved or permitted under the Public Utility Holding Company Act of 1935. This vote is also required for the issue of additional Preferred Stock or any other equally ranking stock, unless gross income (as specified in our Amended and Restated Articles of Incorporation) for a period of 12 consecutive calendar months within the 15 calendar months immediately preceding the issue, available for the payment of interest, is at least 1<sup>1</sup>/<sub>2</sub> times the sum of the annual interest charges on all of our interest bearing indebtedness and the annual dividend requirements on all of our outstanding Preferred Stock and any other classes of stock ranking prior thereto or on a parity therewith, including the shares proposed to be issued, and unless the aggregate of our capital applicable to our common stock and our surplus shall be not less than the aggregate amount payable on involuntary liquidation on all shares of our Preferred Stock, and any other stock ranking prior thereto or on a parity therewith, outstanding after the issue of the shares proposed to be issued.

***Liquidation Rights***

In the event of any voluntary liquidation, dissolution or winding up, each series of \$25 Preferred Stock shall be entitled, on a parity with all Preferred Stock then outstanding and in preference to our common stock, to an amount equal to its then current redemption price, plus any accumulated and unpaid dividends. In the event of any involuntary liquidation, dissolution or winding up, each series of \$25 Preferred Stock shall be entitled, on a parity with all Preferred Stock then outstanding and in preference to our common stock, to \$25 per share for the \$25 Preferred Stock, plus any accumulated and unpaid dividends.

***Other Rights***

The \$25 Preferred Stock will not have any preemptive or conversion rights.

***Liability to Further Calls and Assessments***

All of the \$25 Preferred Stock to be offered by this prospectus and the accompanying prospectus supplement will be validly issued and fully paid and non-assessable upon receipt by us of the purchase price thereof.

***Certain Limitations on Common Stock Dividends***

Our Amended and Restated Articles of Incorporation in effect restrict the payment of dividends on our common stock to 75% of net income available therefor if the percentage of Common Stock Equity to total capitalization, as defined in the Amended and Restated Articles of Incorporation, is between 20% and 25%, and to 50% of such net

5

income if such percentage is less than 20%. At any time when Common Stock Equity is 25% or more of total capitalization, we may not declare dividends on our stock that would reduce Common Stock Equity below 25% of total capitalization. Certain other limitations on the payment of common stock dividends also exist in our Amended and Restated Articles of Incorporation, including a prohibition of the payment of common stock dividends in the event we should be in arrears in our dividend obligations on the Preferred Stock or in our sinking fund obligations for any series of Preferred Stock. In addition, certain limitations on the payment of common stock dividends exist in our first mortgage bond indenture.

***Certain Terms Applicable to Redemption***

In general, at any time when dividends payable on any Preferred Stock are in default, we may not (1) make any payment, or set aside funds for payment, into any sinking fund for the purchase or redemption of any shares of the Preferred Stock, or (2) redeem, purchase or otherwise acquire less than all of the shares of the Preferred Stock, in either case unless approval is obtained under the Public Utility Holding Company Act of 1935. Any shares of the Preferred Stock which are redeemed, purchased or acquired shall be retired and cancelled.

The redemption terms for any series of \$25 Preferred Stock will be described in the prospectus supplement relating to that series of \$25 Preferred Stock. It is our intention to redeem the \$25 Preferred Stock only to the extent that we have raised funds in the period of six months preceding such redemption by the issuance of any securities ranking on a parity or junior to the \$25 Preferred Stock, in an aggregated amount at least equal to the aggregate principal amount of the \$25 Preferred Stock to be redeemed, but there is no obligation to do so nor any guarantee of our future behavior.

***Transfer Agent and Registrar***

The transfer agent and registrar for the \$25 Preferred Stock is CIBC Mellon Trust Company.

### **Book-Entry Only Securities**

The Depository Trust Company will act as securities depository for the \$25 Preferred Stock offered through this prospectus. The \$25 Preferred Stock will be issued as fully registered securities registered in the name of Cede & Co., the partnership nominee of DTC. One or more fully registered security certificates will be issued for each series of the \$25 Preferred Stock, in the aggregate liquidation preference of such series, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for United States and foreign equity issues, corporate and municipal debt issues, and money market instruments from countries that DTC participants ( Direct Participants ) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between the accounts of Direct Participants, thereby eliminating the need for physical movement of security certificates. Direct Participants include both United States and foreign securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ( DTCC ). DTCC is, in turn, owned by a number of Direct Participants of DTC and members of the National Securities Clearing Corporation, Government Securities Clearing Corporation, MBS Clearing Corporation, and Emerging Markets Clearing Corporation, all of which clearing corporations are subsidiaries of DTCC, as well as by The New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to other entities such as both United States and foreign securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ( Indirect Participants and, together with Direct Participants, the Participants ). The DTC rules applicable to its Participants are on file with the SEC.

Purchases of securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the securities on the

6

records of DTC. The ownership interest of each actual purchaser of each security ( Beneficial Owner ) is in turn to be recorded on the records of the Direct Participant or the Indirect Participant. Beneficial Owners will not receive written confirmation from DTC of their purchases. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participant or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of Direct Participants and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in securities, except in the event that use of the book-entry system for the securities is discontinued.

To facilitate subsequent transfers, all securities deposited by Direct Participants with DTC are registered in the name of Cede & Co., the partnership nominee of DTC, or such other name as may be requested by an authorized representative of DTC. The deposit of securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the securities; the records of DTC reflect only the identity of the Direct Participants to whose accounts such securities are credited, which may or may not be the Beneficial Owners. The Direct Participants and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the securities, such as redemptions. For example, Beneficial Owners of securities may wish to ascertain that the nominee holding the securities for their benefit has agreed to obtain and to transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to

the transfer agent and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all the securities within a series are being redeemed, the practice of DTC is to determine by lot the amount of the interest of each Direct Participant in such series to be redeemed.

Although voting with respect to the \$25 Preferred Stock is limited, in those cases where a vote is required, neither DTC nor Cede & Co. nor any other DTC nominee will consent or vote with respect to the \$25 Preferred Stock unless authorized by a Direct Participant in accordance with DTC procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns the consenting or voting rights of Cede & Co. to those Direct Participants to whose accounts securities are credited on the record date, identified in a listing attached to the omnibus proxy.

Payments on the \$25 Preferred Stock will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. The practice of DTC is to credit the accounts of Direct Participants, upon the receipt by DTC of funds and corresponding detail information from us on the payable date in accordance with their respective holdings shown on the records of DTC. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practice, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such Participant and not of DTC or its nominee, any underwriters, dealers or agents, or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments on the \$25 Preferred Stock to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC is our responsibility, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct Participants and Indirect Participants.

A Beneficial Owner shall give notice to elect to have its securities purchased or tendered, through its Participant, to the tender or remarketing agent and shall effect delivery of such securities by causing the Direct Participant to transfer the interest of the Participant in the securities, on the records of

7

DTC, to the tender or remarketing agent. The requirement for physical delivery of securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the securities are transferred by Direct Participants on the records of DTC and followed by a book-entry credit of tendered securities to the DTC account of the tender or remarketing agent.

DTC may discontinue providing its services as depository with respect to the securities at any time by giving reasonable notice to us. Under such circumstances, in the event that a successor depository is not obtained, securities certificates are required to be printed and delivered.

We may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository. In that event, security certificates will be printed and delivered.

The information in this section concerning DTC and its book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

### **Plan of Distribution**

#### ***Methods and Terms of Sale***

We may use a variety of methods to sell the \$25 Preferred Stock including:

- (1) through one or more underwriters or dealers;
- (2) directly to one or more purchasers;
- (3) through one or more agents; or
- (4) through a combination of any of these methods of sale.

The prospectus supplement relating to a particular series of \$25 Preferred Stock will describe the terms of the offering of the \$25 Preferred Stock, including:

- (1) the name or names of any underwriters, dealers or agents and any syndicate of underwriters;
- (2) the initial public offering price;
- (3) any underwriting discounts and other items constituting underwriters' compensation;
- (4) the proceeds we receive from that sale; and
- (5) any discounts or concessions allowed or reallocated or paid by any underwriters to dealers.

We are currently contemplating issuing up to 1.2 million shares of \$25 Preferred Stock in an underwritten offering shortly after the registration statement containing this prospectus is declared effective by the SEC. The general terms of the preferred stock are described in this prospectus under Description of Preferred Stock. We have not finally determined the timing or terms of such an offering nor the identity of the underwriters. The

8

dividend rate is expected to be a cumulative, fixed rate determined through negotiation with the underwriters based on market conditions at the time of the offering. We expect that the use of proceeds from this offering will be for the purpose of refinancing certain outstanding series of \$100 Preferred Stock. Other terms have not been determined as of the date of this prospectus, but will be reflected in a prospectus supplement that will be filed with the SEC if and when we decide to proceed with any such offering.

#### ***Underwriters***

If we sell the \$25 Preferred Stock through underwriters, they will acquire the \$25 Preferred Stock for their own account and may resell the \$25 Preferred Stock from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The underwriters for a particular underwritten offering of the \$25 Preferred Stock will be named in the prospectus supplement and, if an underwriting syndicate is used, the managing underwriter or underwriters will be named on the cover page. In connection with the sale of \$25 Preferred Stock, the underwriters may receive compensation from us or from purchasers in the form of discounts, concessions or commissions. The obligations of the underwriters to purchase \$25 Preferred Stock will be subject to certain conditions. The underwriters will be obligated to purchase all of the \$25 Preferred Stock of a particular series if any is purchased. However, the underwriters may purchase less than all of the \$25 Preferred Stock of a particular series should certain circumstances involving a default of one or more underwriters occur.

The initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers by any underwriters may be changed from time to time.

***Stabilizing Transactions***

Underwriters may engage in stabilizing transactions and syndicate covering transactions in accordance with Rule 104 under the Securities Exchange Act of 1934. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Syndicate covering transactions involve purchases of the \$25 Preferred Stock in the open market after the distribution has been completed in order to cover syndicate short positions. These stabilizing transactions and syndicate covering transactions may cause the price of the \$25 Preferred Stock to be higher than it would otherwise be if these transactions had not occurred.

***Agents***

If we sell the \$25 Preferred Stock through agents, the prospectus supplement will set forth the name of any agent involved in the offer or sale of the \$25 Preferred Stock, as well as any commissions we will pay to them. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment.

***Related Transactions***

Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our affiliates in the ordinary course of business.

***Indemnification***

We will agree to indemnify any underwriters, dealers, agents or purchasers and their controlling persons against certain civil liabilities, including liabilities under the Securities Act of 1933.

***Listing***

The applicable prospectus supplement will set forth whether or not a particular series of \$25 Preferred Stock will be listed on a national securities exchange. In addition, any underwriters, agents or dealers participating in the distribution of the \$25 Preferred Stock may make a market in the \$25 Preferred Stock, as permitted by applicable law and regulations. Any such underwriters, agents or dealers would not be obligated to do so, however, and could discontinue making a market at any time without notice. No assurance can be given as to the liquidity of any trading market for any particular series of \$25 Preferred Stock.
