Environmental Tectonics Corporation

Notes to the Condensed Consolidated Financial Statements

1. Stock Exchange Listing

On September 16, 2008, Environmental Tectonics Corporation (ETC or the Company) was advised by the American Stock Exchange (AMEX) that it had accepted the Company's compliance plan (the Plan) and agreed to continue the listing of the Company's common stock through at least March 16, 2009, subject to the Company attaining certain milestones. The Plan had been submitted on July 31, 2008 in response to a letter received from AMEX on July 2, 2008 stating that the Company was not in compliance with Section 1003 of the AMEX Company Guide. Specifically, the Company is not in compliance with Section 1003(a)(i) of the AMEX Company Guide with stockholders' equity of less than \$2,000,000 and losses from continuing operations and net losses in two out of its three most recent fiscal years, Section 1003(a)(ii) of the AMEX Company Guide with stockholders' equity of less than \$4,000,000 and losses from continuing operations and net losses in three out of its four most recent fiscal years, and Section 1003(a)(iii) of the AMEX Company Guide with stockholders' equity of less than \$6,000,000 and net losses in its five most recent fiscal years. This non-compliance by the Company with Section 1003 of the AMEX Company Guide makes the Company's common stock subject to being delisted from AMEX.

The Company has been granted an extension until March 16, 2009 to regain compliance with the continued listing standards and must meet certain milestones during that timeframe which relate to specific plan objectives, some of which involve modifications to the Company's Subordinated Note and Preferred Stock (See Note 7 Credit Arrangements and Preferred Stock in the accompanying Notes to the Condensed Consolidated Financial Statements.) These instruments are held by H.F. Lenfest, a significant shareholder and a member of the Company's Board of Directors (Lenfest). The Company is currently in discussions with Lenfest concerning these matters. The Company cannot predict the outcome of these discussions at this time. The Company will be subject to periodic review by AMEX Exchange Staff during the extension period. Failure to make progress consistent with the Plan or to regain compliance with the continued listing standards by the end of the extension period could result in the Company's common stock being delisted from AMEX. (See Note 3 Liquidity Matters in the Notes to the Consolidated Condensed Financial Statements).

As a consequence of falling below the continued listing standards set forth in the AMEX Company Guide, the Company has been included in a list of issuers that are not in compliance with AMEX's continued listing standards. Additionally, an indicator has been added to the Company's trading symbol noting the Company's non-compliance with the continued listing standards of the AMEX Company Guide. The indicator will remain in place until such time as the Company regains compliance with the applicable listing standards.

2. Lenfest Acquisition Proposal

On February 20, 2008, ETC received a proposal from an affiliate of Lenfest to purchase all of the publicly traded shares of the common stock of the Company not owned by Lenfest at the time the acquisition is consummated. On September 11, 2008, ETC was informed by Lenfest that he was withdrawing his proposal to purchase all of the publicly traded shares of the common stock of the Company that he did not currently own. Lenfest beneficially owns 48.7% of the Company's common stock, on a fully diluted basis (assuming the conversion of outstanding convertible notes and convertible preferred stock).

3. Liquidity Matters

The Company expects to need additional sources of capital in order to continue growing and operating its business. The Company is currently in discussions with PNC Bank, National Association (PNC) and Lenfest for potential additional funding. The Company cannot be certain that it will be successful in obtaining additional sources of capital.

On May 20, 2008, Lenfest agreed to fund all requests by ETC for funds to support its operations through June 30, 2009, on terms and conditions to be mutually agreed upon by Lenfest and ETC, provided that ETC may not request more than \$10 million in the aggregate. All agreements are subject to any required approvals including the approval of ETC's shareholders and are required to be made in accordance with the rules and regulations of AMEX (assuming that the Company's common stock is still listed on AMEX). This commitment by Lenfest is not dependent on the transaction contemplated in Note 1 Stock Exchange Listing.

Table of Contents

Environmental Tectonics Corporation

Notes to the Condensed Consolidated Financial Statements, continued

ETC's objective in its refinancing efforts is to increase its current financing with additional financing from PNC or Lenfest commitments. It is expected that these arrangements may include a restructuring of the Company's current capital structure including an exchange of Lenfest's debt for preferred stock and a modification of the terms of the outstanding preferred stock. The Company believes that existing cash balances at November 28, 2008, cash generated from operating activities, cash from potential new contract awards, and potential additional funding from PNC and/or Lenfest will be adequate to meet its future obligations through at least November 30, 2009.

At November 28, 2008, the Company's availability under its Credit Agreement with PNC was approximately \$971,000.

The Company's backlog at November 28, 2008 and February 29, 2008, for work to be performed and revenue to be recognized under written agreements after such dates, was \$28,040,000 and \$38,281,000, respectively. In addition, training, maintenance and upgrade contracts backlog at November 28, 2008 and February 29, 2008, for work to be performed and revenue to be recognized after such dates under written agreements was \$2,339,000 and \$1,028,000, respectively. These contracts total \$30,379,000 and include contracts with domestic customers (\$3,748,000 or 12.3%), U.S. Government agencies (\$3,003,000 or 9.9%) and international customers (\$23,627,000 or 77.8%). Of the November 28, 2008 sales backlog, the Company has contracts totaling approximately \$14,036,000 for pilot training systems including \$12,729,000 for two customers in the Middle East.

4. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying interim condensed consolidated financial statements include the accounts of ETC, Entertainment Technology Corporation (EnTCo), ETC International Corporation and ETC-Delaware, its wholly-owned subsidiaries, ETC Europe, its 99% owned subsidiary, and ETC-PZL Aerospace Industries, Ltd. (ETC-PZL), its 95% owned subsidiary. ETC Southampton refers to the Company's corporate headquarters and main production plant located in Southampton, Pennsylvania, USA. All significant inter-company accounts and transactions have been eliminated in consolidation.

The accompanying condensed consolidated financial statements have been prepared by ETC, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Certain information in footnote disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America has been condensed or omitted pursuant to such rules and regulations and the financial results for the periods presented may not be indicative of the full year's results, although the Company believes the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.

References to fiscal third quarter and first nine months of fiscal 2009 are references to the 13 and 39 week periods ended November 28, 2008, respectively.

References to fiscal third quarter and first nine months of fiscal 2008 are references to the 13 and 39 week periods ended November 23, 2007, respectively.

Certain amounts from the fiscal 2008 condensed consolidated financial statements regarding the Company's European subsidiary have been reclassified from cost of goods sold to selling and administrative expenses to conform to the presentation in fiscal 2009.

Significant Accounting Policies

There have been no material changes in the Company's significant accounting policies during fiscal 2009 as compared to what was previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.

Fair Value Measurements

On March 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157), which clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures on fair value measurements. In February 2008, the Financial Accounting Standards Board (FASB) issued Staff Position 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2) that deferred the effective date of SFAS No. 157 for one year for non-financial assets and liabilities recorded at fair value on a non-recurring basis. SFAS No. 157 defines fair value as the exchange price that would be

Table of Contents

Environmental Tectonics Corporation

Notes to the Condensed Consolidated Financial Statements, continued

received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The adoption of this pronouncement had no material impact on the Company's financial statements.

Recently Issued Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141(R)). SFAS No. 141(R) establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired. SFAS No. 141(R) also establishes disclosure requirements to enable the evaluation of the nature and financial effects of the business combination. SFAS No. 141(R) is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 141(R) on its consolidated results of operations and financial condition.

In February 2007, FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (FAS 159). FAS 159, which becomes effective for the Company on January 1, 2008, permits companies to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses in earnings. Such accounting is optional and is generally to be applied instrument by instrument. Election of this fair-value option did not have a material effect on the Company's consolidated financial condition, results of operations, cash flows or disclosures.

In December 2007, FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of Accounting Research Bulletin No. 51* (SFAS No. 160). SFAS No. 160 establishes accounting and reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. SFAS No. 160 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 160 on its consolidated results of operations and financial condition.

In May 2008, FASB issued SFAS No. 162, *Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. The implementation of this standard is not expected to have a material impact on the Company's consolidated financial position and results of operation.

In May 2008, FASB issued FSP APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)*, which specifies that issuers of convertible debt instruments that may be settled in cash upon conversion should separately account for the liability and equity components in a manner reflecting their nonconvertible debt borrowing rate when interest costs are recognized in subsequent periods. FSP APB 14-1 is effective for interim periods and fiscal years beginning after December 15, 2008. The Company will adopt FSP APB 14-1 effective February 27, 2009. The Company is currently assessing the impact of FSP APB 14-1 on its financial statements.

In June 2008, FASB ratified Emerging Issues Task Force Issue No. (EITF) 07-5, *Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock* (EITF 07-5). EITF 07-5 provides that an entity should use a two step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. It also clarifies on the impact of foreign currency denominated strike prices and market-based employee stock option valuation instruments on the evaluation. EITF 07-5 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 07-5 on its consolidated financial position and results of

operations.

Table of Contents**Environmental Tectonics Corporation****Notes to the Condensed Consolidated Financial Statements, continued****5. Inventories**

Inventories are valued at the lower of cost or market using the first in, first out (FIFO) method and consist of the following:

	November 28, 2008 (unaudited) (in thousands)	February 29, 2008
Raw materials	\$ 96	\$ 90
Work in process	3,398	5,916
Finished goods	1,197	767
Total	\$ 4,691	\$ 6,773

Inventory is presented net of an allowance for obsolescence of \$1,602,000 (Raw material \$97,000, Work in process \$804,000 and Finished goods \$701,000) and \$1,222,000 (Raw material \$90,000, Work in process \$571,000 and Finished goods \$561,000) at November 28, 2008 and February 29, 2008, respectively.

6. Accounts Receivable:

The components of accounts receivable are as follows:

	November 28, 2008 (unaudited) (in thousands)	February 29, 2008
U.S. government receivables	\$ 179	\$ 315
U.S. commercial receivables	1,628	2,573
International receivables	2,637	1,089
	4,444	3,977
Less: allowance for doubtful accounts	(361)	(746)
	\$ 4,083	\$ 3,231

7. Long-term Obligations, Credit Arrangements and Preferred Stock:**Lenfest Letter Agreement**

On May 20, 2008, Lenfest agreed to fund all requests by ETC for funds to support its operations through June 30, 2009, on terms and conditions to be mutually agreed upon by Lenfest and ETC, provided that ETC shall not request more than \$10 million in the aggregate. All agreements are subject to any required approvals including the approval of ETC's shareholders and are required to be made in accordance with the rules and regulations of the American Stock Exchange (assuming that the Company's common stock is still listed on AMEX). As of November 28, 2008, the Company had not requested any funding under this agreement.

Bank Credit and Facility

On July 31, 2007, ETC entered into a revolving credit agreement (the "Credit Agreement") in order to refinance its indebtedness with PNC in the aggregate amount of up to \$15,000,000. This Credit Agreement was a replacement of a

credit facility originally entered into with PNC in February 2003.

On September 10, 2008, the Credit Agreement was renewed. The expiration date of the Credit Agreement was extended from June 30, 2009 to June 30, 2010. All other terms and conditions of the Credit Agreement remained in full force and effect. Borrowings are required to be used for ETC's working capital or other general business purposes and for issuances of letters of credit. Amounts borrowed under the Credit Agreement may be borrowed, repaid and reborrowed from time to time until June 30, 2010. Borrowings made pursuant to the Credit Agreement bear interest at either the prime rate (as described in the promissory note executed in accordance with the Credit Agreement) minus 1.00% or the London Interbank Offered Rate (as described in the Note) plus 0.90%. Additionally, ETC is obligated to pay a fee of 0.125% per annum for unused available funds.

Table of Contents**Environmental Tectonics Corporation****Notes to the Condensed Consolidated Financial Statements, continued**

The Credit Agreement contains affirmative and negative covenants for transactions of this type, including limitations with respect to indebtedness, liens, investments, distributions, dispositions of assets, change of business and transactions with affiliates. Effective August 26, 2008, the Credit Agreement was amended to reflect that the Company must maintain a minimum Consolidated Tangible Net Worth (which, as defined, is total assets excluding intangibles less liabilities excluding the Subordinated Convertible Debt) of (a) \$5,000,000 for the fiscal quarter ended August 29, 2008, (b) \$4,000,000 for the fiscal quarter ended November 28, 2008 and (c) \$3,500,000 for the fiscal quarter ending February 27, 2009 and thereafter. At November 28, 2008, our availability under the Credit Agreement was approximately \$971,000. This included cash borrowings under the Credit Agreement of \$8,910,000 and outstanding letters of credit of \$5,119,000.

Subordinated Convertible Debt

In connection with the financing provided by PNC on February 19, 2003, the Company entered into a Convertible Note and Warrant Purchase Agreement with Lenfest, pursuant to which the Company issued to Lenfest (i) a senior subordinated convertible promissory note (the "Subordinated Note") in the original principal amount of \$10,000,000 and (ii) warrants to purchase 803,048 shares of the Company's common stock, which were exercised by Lenfest on February 14, 2005. Upon the occurrence of certain events, the Company will be obligated to issue additional warrants to Lenfest. The Subordinated Note accrues interest at the rate of 10% per annum (Lenfest reduced the rate to 8% per annum for the period December 1, 2004 through November 30, 2008) and originally had a maturity date of February 18, 2009. At the Company's option, the quarterly interest payments may be deferred and added to the outstanding principal. As of November 28, 2008, a total of \$2,080,000 in accrued interest was due under the Note. The Subordinated Note entitles Lenfest to convert all or a portion of the outstanding principal of, and accrued and unpaid interest on, the Subordinated Note into shares of ETC common stock at a conversion price of \$6.05 per share. Any additional warrants issued under the Subordinated Note may be exercised into shares of ETC common stock at an exercise price equal to the lesser of \$4.00 per share or two-thirds of the average of the high and low sale prices of the ETC common stock for the 25 consecutive trading days immediately preceding the date of exercise.

On March 11, 2008, the Company entered into Amendment No. 1 to the Convertible Note and Warrant Purchase Agreement (the "Purchase Agreement Amendment") and First Amendment to Senior Subordinated Convertible Note (the "Note Amendment"). Under the terms of the Purchase Agreement Amendment, ETC and Lenfest agreed to amend the financial covenants set forth in the Convertible Note and Warrant Purchase Agreement so that they are similar to the financial covenants set forth in the Credit Agreement with PNC. Under the terms of the Note Amendment, the maturity date of the Subordinated Note was extended from February 18, 2009 to March 1, 2010. The effective date of the Purchase Agreement Amendment and the Note Amendment was February 19, 2008.

Long-term obligations at November 28, 2008 and February 29, 2008 consist of the following:

	(in thousands)	
	November 28, 2008 (unaudited)	February 29, 2008

Notes to the Condensed Consolidated Financial Statements, continued

Preferred Stock

On April 7, 2006, the Company entered into a Preferred Stock Purchase Agreement (the "Lenfest Equity Agreement") with Lenfest. The Lenfest Equity Agreement permitted ETC to unilaterally draw down up to \$15 million in exchange for shares of the Company's Series B Cumulative Convertible Preferred Stock ("Series B Preferred Stock"). The Preferred Stock provides for a dividend equal to 6% per annum. On August 23, 2007, the dividend was amended to 10% per annum, effective from August 23, 2007. The Preferred Stock is convertible, at Lenfest's request, into ETC common shares at a conversion price (the "Conversion Price") which was set on the day of each draw down. The Lenfest Equity Agreement provided that the Conversion Price would be equal to the closing price of the Company's common stock on the trading day immediately preceding the day in which the draw down occurs, subject to a floor price of \$4.95 per common share. Drawdowns were not permitted on any day when the Conversion Price would be less than this floor price. On the sixth anniversary of the Lenfest Equity Agreement, any issued and outstanding Preferred Stock will be mandatorily converted into ETC common stock at each set Conversion Price. The Preferred Stock will vote with the ETC common stock on an as converted basis.

In connection with the execution of the Lenfest Equity Agreement, the Company drew down \$3 million by issuing 3,000 shares of Preferred Stock with a Conversion Price equal to \$4.95 per share. Additionally, on July 31, 2006, the Company drew down an additional \$3 million by issuing 3,000 shares of Preferred Stock at a conversion price equal to \$6.68 per common share. The Lenfest Equity Agreement was terminated on July 31, 2007 upon execution of the PNC Credit Agreement.

By way of a letter dated March 29, 2007, Lenfest agreed to allow the Company to defer until April 6, 2012, or earlier if demanded, the payment of accruing dividends on the Series B Preferred Stock issued under the Lenfest Equity Agreement.

On August 23, 2007, the Company entered into the Series C Preferred Stock Purchase Agreement (the "Series C Purchase Agreement") with Lenfest, pursuant to which, among other things, ETC issued and sold 3,300 shares of its newly-created class of Series C Preferred Stock to Lenfest for \$3,300,000. The proceeds from the issuance of the Series C Preferred Stock were restricted solely for use to partially fund a settlement with the U.S. Navy. The proceeds are presented in the accompanying Condensed Consolidated Balance Sheets as Restricted Cash.

The Series C Preferred Stock is convertible by Lenfest at any time into shares of ETC's common stock at a conversion price of \$3.03 per share based on the closing price for ETC's common stock on August 22, 2007, the trading day immediately prior to the issuance. The Series C Preferred Stock votes with ETC's common stock on an as-converted basis and is fully convertible into 1,089,108 shares of ETC common stock. The Series C Preferred Stock automatically converts into ETC common shares on the fifth anniversary of the Acquisition. It carries an annual dividend rate of ten percent (10%).

ETC granted Lenfest certain demand and "piggy back" registration rights pursuant to a Registration Rights Agreement with respect to the shares of common stock issuable upon conversion of the Series C Preferred Stock.

In connection with Lenfest's investment in the Series C Preferred Stock, ETC agreed to amend the terms of ETC's Series B Preferred Stock to (i) increase the annual dividend rate to 10%, (ii) provide for immediate conversion into common stock at the option of Lenfest, and (iii) to remove ETC's right to redeem the Series B Preferred Stock.

As allowed in the Series C Purchase Agreement, the Company is accruing dividends for the outstanding Preferred Stock but has deferred payment of these dividends until a subsequent date, up to and including August 23, 2012.

As of November 28, 2008, the total of accrued dividends under both the Series B and Series C Preferred Stock was \$1,616,000.

Due to the Company's accumulated deficit, all dividends accruing for the Series B and Series C Preferred Stock have been recorded in the accompanying financial statements as a reduction in additional paid-in capital.

Table of Contents**Environmental Tectonics Corporation****Notes to the Condensed Consolidated Financial Statements, continued****Accrued Interest and Dividends**

Accrued interest and dividends as of November 28, 2008 and February 29, 2008 consist of the following:

	(amounts in thousands)	
	November 28, 2008 (unaudited)	February 29, 2008

Other accrued interest	35	
Total accrued interest	2,115	1,367
Total accrued interest and dividends	\$3,731	\$ 2,287

8. Income Taxes

The income tax provision differs from the statutory U.S. Federal income tax rate due primarily to a valuation allowance provided against net deferred tax assets. As described in the Company's Annual Report on Form 10-K for the year ended February 29, 2008, the Company maintains a valuation allowance in accordance with SFAS No. 109, *Accounting for Income Taxes*, on its net deferred tax assets. Until the Company achieves and sustains an appropriate level of profitability, it plans to maintain a valuation allowance on its net deferred tax assets on a fully reserved basis.

Effective February 24, 2007, the Company adopted the provision of FASB interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN No. 48). FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109. FIN No. 48 requires a company to determine it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements. The tax years 2000 through 2007 remain open to examination by all tax jurisdictions to which the Company is subject.

Table of Contents**Environmental Tectonics Corporation****Notes to the Condensed Consolidated Financial Statements, continued****9. Segment Information (unaudited):**

The Company primarily manufactures, under contract, various types of high-technology equipment which it has designed and developed. The Company considers its business activities to be divided into two segments: Training Services Group (TSG) and the Control Systems Group (CSG). Product categories included in TSG are pilot training and flight simulators, disaster management systems and entertainment applications. CSG includes sterilizers, environmental control devices, hyperbaric chambers along with parts and service support. The following segment information reflects the accrual basis of accounting.

Thirteen weeks ended November 28, 2008.

Concentration of sales greater than 10% of total sales included 36.5% of sales totaling \$3,177,000 in the thirteen weeks ended November 28, 2008 to two customers in the international pilot training product line and 33.4% of sales totaling \$2,240,000 in the thirteen weeks ended November 23, 2007 to two domestic customers in the TSG segment. Included in the segment information for the thirteen weeks ended November 28, 2008 are export sales, which included

sales of the Company's foreign subsidiaries, of \$5,637,000. Of this amount, there are sales of 10% or more to or relating to governments or commercial accounts in Saudi Arabia (\$2,185,000) and Turkey (\$992,000). Included in the segment information for the thirteen weeks ended November 23, 2007 are export sales, which included sales of the Company's foreign subsidiaries, of \$1,683,000. Of this amount, there are sales of 10% or more to or relating to governments or commercial accounts in Indonesia (\$259,000), Thailand (\$339,000), Japan (\$183,000) and Poland (\$170,000). Sales to the U.S. Government totaled \$367,000 and \$443,000 for the thirteen week periods ended November 28, 2008 and November 23, 2007, respectively.

Thirty-nine weeks ended November 28, 2008.

There was no concentration to any one customer of sales greater than 10% of total sales in the thirty-nine weeks ended November 28, 2008. Concentration of sales greater than 10% of total sales included 22.8% of sales totaling \$3,491,000 in the thirty-nine weeks ended November 23, 2007 to two customers in the TSG segment. Included in the segment information for the thirty-nine weeks ended November 28, 2008 are export sales, which included sales of the Company's foreign subsidiaries, of \$13,315,000. Of this amount, there were sales to or relating to governments or commercial accounts in Saudi Arabia (\$4,705,000) and Turkey (\$2,521,000). Included in the segment information for the thirty-nine weeks ended November 23, 2007, are export sales, which included sales of the Company's foreign subsidiaries, of \$4,789,000. Of this amount, there were sales to or relating to governments or commercial accounts in Indonesia (\$1,302,000), Thailand (\$482,000) and Poland (\$703,000). Sales to the U.S.

Table of Contents

Government totaled \$1,742,000 and \$1,090,000 for the thirty-nine week periods ended November 28, 2008 and November 23, 2007, respectively.

Segment operating income consists of net sales less applicable costs and expenses relating to these revenues. Included in the CSG segment operating losses are claims settlement costs of \$3,639,000 for the first nine months of fiscal 2008. These costs consist of accounts receivable write-offs and a reserve for a settlement with the U.S. Navy and other costs. Unallocated general corporate expenses and other expenses such as letter of credit fees have been excluded from the determination of the total profit/loss for segments. Corporate home office expenses are primarily central administrative office expenses. Other expenses include banking and letter of credit fees. Property, plant and equipment are not identified with specific business segments, as these are common resources shared by all segments.

10. Legal Proceedings

Walt Disney World Co.

In June 2003, Entertainment Technology Corporation (EnTCo), our wholly owned subsidiary, filed suit against Walt Disney World Co. and other entities (Disney) in the United States District Court for the Eastern District of Pennsylvania, alleging breach of contract for, among other things, failure to pay all amounts due under a contract for the design and production of the amusement park ride Mission: Space located in Disney's Epcot Center. In response, in August 2003, Disney filed counterclaims against both EnTCo and ETC (under a guarantee) for, among other things, alleged failures in performance and design in the contract. Disney alleged damages ranging from approximately \$47 million to \$72 million plus punitive damages (collectively, the 2003 Litigation). The 2003 Litigation was stayed until pretrial proceedings in the 2005 Litigation (described below) were completed.

In December 2005, ETC and EnTCo filed a second lawsuit against Disney, alleging breach of contract and unfair competition (the 2005 Litigation). On March 26, 2008, the Court granted summary judgment in favor of Disney and against the Company and dismissed the Company's claim in the 2005 Litigation. On April 7, 2008, the Company filed a motion for reconsideration asking the Court to reconsider its March 2008 decision in the 2005 Litigation. The motion for reconsideration was denied. On July 9, 2008, the Company filed a formal appeal to the Court's decision.

Subsequent to fiscal quarter end, the Company entered into a settlement agreement and release with Disney which resolved both the 2003 Litigation and the 2005 Litigation. The financial impact of the settlement did not have a material effect on the Company's financial position or results of operation.

Mends International, Ltd.

On May 29, 2008, a Request for Arbitration was filed against the Company with the Secretariat of the International Court of Arbitration by Mends International Ltd. (Mends). Mends's Request for Arbitration arises out of a February 3, 1999 contract between Mends and the Company wherein Mends purchased aeromedical equipment for sale to the Nigerian Air Force. Mends asserted a claim for breach of contract and demanded \$797,486.00, plus interest and costs. On September 16, 2008, Mends filed an Amended Request for Arbitration, adding tort claims for conversion and breach of fiduciary duty and seeking punitive damages. The Company has asserted a counterclaim seeking damages for other disputes with Mends that have arisen under the contract that Mends has put at issue in this arbitration. The Company is contesting this arbitration case vigorously. However, as of November 28, 2008 the Company had recorded a reserve in this matter.

Settlement with U.S. Navy

History of the Claim Receivable

In May 2003, the Company filed a certified claim with the Department of the Navy (the Government) seeking costs totaling in excess of \$5.0 million in connection with a contract for submarine rescue decompression chambers.

In accordance with accounting principles generally accepted in the United States of America, recognizing revenue on contract claims and disputes related to customer caused delays, errors in specifications and designs, and other unanticipated causes, and for amounts in excess of contract value, is generally appropriate if it is probable that the claim will result in additional contract revenue and if the Company can reliably estimate the amount of

Table of Contents

Environmental Tectonics Corporation

Notes to the Condensed Consolidated Financial Statements, continued

additional contract revenue the Company may receive. However, revenue recorded on a contract claim cannot exceed the incurred contract costs related to that claim. Since 2004, the Company had a claim receivable recorded for \$3,004,000. The Company's Form 10-K as originally filed for February 23, 2007 included this claim receivable. This claim receivable was subsequently deemed to be impaired and reserved in full (see below).

Litigation of the Certified Claim

On July 22, 2004, the Navy's contracting officer issued a final decision denying the claim in full. In July 2005, the Company converted this claim into a complaint which the Company filed in the United States Court of Federal Claims. On June 14, 2007, the Government amended its filings to add counterclaims pursuant to the anti-fraud provisions of the Contract Disputes Act, the False Claims Act, and the forfeiture statute.

Settlement of Litigation and Subsequent Funding

On June 27, 2007, the Company and the Government filed a Joint Motion to Dismiss with prejudice all of the Company's claims against the Government, which was granted on June 28, 2007. Additionally, the Company agreed to pay to the Government \$3.55 million to reimburse the Government for estimated work to complete the chambers and for litigation expenses (\$3.3 million recorded in the first quarter of fiscal 2008 and \$250,000 recorded in the second quarter of fiscal 2008) and transfer the submarine rescue decompression chambers to the Navy. As of May 14, 2008, the Company had made all payments required under this settlement agreement and had transferred the chambers to the Government.

To partially fund the settlement, on August 23, 2007 the Company entered into the Series C Preferred Stock Purchase Agreement with Lenfest, pursuant to which, among other things, ETC issued and sold 3,300 shares of its newly-created class of Series C Cumulative Convertible Participating Preferred Stock (the "Series C Preferred Stock") to Lenfest for \$3,300,000. The proceeds from the issuance of the Series C Preferred Stock were used to partially fund the settlement with the Government.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on the Company's current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about the Company and its subsidiaries that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements.

These forward-looking statements include statements with respect to the Company's vision, mission, strategies, goals, beliefs, plans, objectives, expectations, anticipations, estimates, intentions, financial condition, results of operations, future performance and business of the company, including but not limited to, (i) potential additional funding by Lenfest and PNC, (ii) the potential delisting of the Company's common stock from the American Stock Exchange as a result of the Company's failure to comply with the AMEX listing standards, (iii) projections of revenues, costs of materials, income or loss, earnings or loss per share, capital expenditures, growth prospects, dividends, capital structure, other financial items and the effects of currency fluctuations, (iv) statements of our plans and objectives of the Company or its management or Board of Directors, including the introduction of new products, or estimates or predictions of actions of customers, suppliers, competitors or regulatory authorities, (v) statements of future economic performance, (vi) statements of assumptions and other statements about the Company or its business, (vii) statements made about the possible outcomes of litigation involving the Company; (viii) statements regarding the Company's ability to obtain additional financing to support its operations and other expenses, and (ix) statements preceded by, followed by or that include the words, may, could, should, looking forward, would, believe, expect, anticipate, estimate, intend, plan, or the negative of such terms or similar expressions. These forward-looking statements involve risks and uncertainties which are subject to change based on various important factors. Some of these risks and uncertainties, in whole or in part, are beyond the Company's control. Factors that might cause or contribute to such a material difference include, but are not limited to, those discussed in the Company's Annual Report on Form 10-K for the year ended February 29, 2008, in the section entitled "Risks Particular to Our Business." Shareholders are urged to review these risks carefully prior to making an investment in the Company's common stock.

The Company cautions that the foregoing list of important factors is not exclusive. Except as required by federal securities law, the Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

References to fiscal third quarter 2009 and the first nine months of fiscal 2009 are references to the 13 and 39 week periods ended November 28, 2008, respectively. References to fiscal third quarter 2008 and the first nine months of fiscal 2008 are references to the 13 and 39 week periods ended November 23, 2007.

In this report, all references to ETC, we, us, or our, mean Environmental Tectonics Corporation and our subsidiaries.

Overview

We were incorporated in 1969 in Pennsylvania and are principally engaged in the design, manufacture and sale of software driven products and services used to recreate and monitor the physiological effects of motion on humans and equipment and to control, modify, simulate and measure environmental conditions. These products include aircrew training systems (aeromedical, tactical combat and general), disaster management training systems and services, entertainment products, sterilizers (steam and gas), environmental testing products and hyperbaric chambers and other products that involve similar manufacturing techniques and engineering technologies. The Company considers its business activities to be divided into two segments: Training Services Group (TSG) and the Control Systems Group (CSG). Product categories included in TSG are pilot training and flight simulators, disaster management systems and entertainment applications. CSG includes sterilizers, environmental control devices and hyperbaric chambers along with parts and service support.

The following factors had an adverse impact on our performance (operating results and/or cash flow) for the fiscal quarter ended November 28, 2008:

high bid and proposal activity which utilized engineering resources which otherwise would have been applied to existing contract requirements, resulting in delayed revenue recognition on long-term contracts;

Table of Contents

the continuing cost of development and marketing efforts for our Authentic Tactical Fighting Systems (ATFS);

continued spending to modify our main facility in Southampton, Pa., and to build equipment for the National Aerospace Training and Research (NASTAR) Center;

In response to the ongoing domestic market budgetary constraints for G-force, aeromedical training and spatial disorientation, and as a potential alternative to high cost high risk air combat training, in 2004 we began incorporating tactical combat flight capabilities into our human centrifuge technology. Dubbed the Authentic Tactical Fighting System (ATFS), this product was the first fully flyable centrifuge-based tactical maneuvering ground based simulator. This technology allows a fighter pilot to practice tactical air combat maneuvers such as dodging enemy missiles, ground fire and aircraft obstacles while experiencing the real life environment of a high G-force fighter aircraft. These flight trainers provide a low cost and extremely less risky alternative to actual air flight. We continue the enhancement of our existing AFTS technology platform in fiscal 2009.

Spending continued in fiscal 2009 to market tactical flight simulation to the world's defense agencies. Our goal is to validate the use of ground-based simulation as an alternative method to actual in-flight training to teach jet pilots tactical flight and combat skills. In fiscal 2008, we were awarded research contracts from the U. S. Navy and the U. S. Air Force to develop Tactical Aircraft Configuration Modules (TacModules) which will be used in this validation process. We are hopeful that either the Navy, Air Force or both branches will approve funds to continue the development and validation of this important technology.

In fiscal 2006, we began construction of the National Aerospace Training and Research (NASTAR) Center. This center, which opened in fiscal 2008, is an integrated pilot training center offering a complete range of aviation training and research support for military jet pilots and civil aviation as well as space travel and tourism. The NASTAR Center houses state of the art equipment including the ATFS-400, a GYROLAB GL-2000 Advanced Spatial Disorientation Trainer, a Hypobaric Chamber, an Ejection Seat Trainer, and a Night Vision and Night Vision Goggle Training System. These products represent 37 years of pioneering development and training solutions for the most rigorous stresses encountered during high performance aircraft flight including the effects of altitude exposure, High G-force exposure, spatial disorientation and escape from a disabled aircraft.

Other factors include:

continuing public company legal and other costs;

The Company continues to incur the expense of a publicly traded company. These costs have been relatively high in the current fiscal period reflecting the required regulatory announcements and filings associated with, among other items, the continued listing of the Company's common stock on the American Stock Exchange, the filing of multiple period financial reports and the initiative by Lenfest to take the Company private.

relatively high cost of capital (preferred stock) and debt-related amortization and interest expense.

The Company's subordinated debt currently carries an annual interest rate of 8% and the Company's preferred stock has an annual dividend rate of 10%. Interest expense for the first nine months of fiscal 2009 was \$1,287,000 or 4.7% of sales. Preferred stock dividends were \$695,000. Under arrangements currently in place, although the Company accrues interest and dividends, actual payment of these amounts has been deferred until sometime in the future.

cash limitations;

One of the greatest challenges we continue to face is adequately funding the cash requirements of our large, long-term multi-year projects, the costs of technological development of existing products, the costs to modify the building and produce the equipment for the NASTAR Center, and the costs to market our ATFS technology to the U.S. government and international government defense agencies. Although some long-term contracts incorporate milestone payments, the cash flows associated with production and material requirements tend to vary significantly over time. These projects are usually cash positive in the early stages and cash negative during the production phase. Funding these contracts and the other initiatives continues to require a significant amount of cash.

Fiscal year to date the Company has been cash positive from operating activities, but this has partially resulted from the Company's delay in paying interest and dividends to Lenfest under his various financial instruments.

On May 20, 2008, Lenfest agreed to fund all requests by ETC for funds to support its operations through June 30, 2009, on terms and conditions to be mutually agreed upon by Lenfest and ETC, provided that ETC may not request

more than \$10 million in the aggregate. All agreements are subject to any required approvals including the approval of ETC's shareholders and are required to be made in accordance with the rules and regulations of AMEX

Table of Contents

Environmental Tectonics Corporation

Notes to the Condensed Consolidated Financial Statements, continued

(assuming that the Company's common stock is still listed on the AMEX). This commitment by Lenfest is not dependent on the transaction contemplated in Note 1 Stock Exchange Listing in accompanying Notes to the Condensed Consolidated Financial Statements.

The Company expects to need additional sources of capital in order to continue growing and operating its business. The Company is currently in discussions with PNC and Lenfest for potential additional funding. The Company cannot be certain that it will be successful in obtaining additional sources of capital.

ETC's objective in its refinancing efforts is to increase its current financing with additional financing from PNC or Lenfest. It is expected that these arrangements may include a restructuring of the Company's current capital structure including an exchange of Lenfest's debt for preferred stock and a modification of the terms of the preferred stock. The Company believes that existing cash balances at November 28, 2008, cash generated from operating activities, cash from potential new contract awards, and potential additional funding from PNC and/or Lenfest will be adequate to meet its future obligations through at least November 30, 2009.

At November 28, 2008, the Company's availability under its Credit Agreement with PNC was approximately \$971,000.

On February 20, 2008, ETC received a proposal from an affiliate of Lenfest to purchase all of the publicly traded shares of the common stock of the Company not owned by Lenfest at the time the acquisition is consummated. On September 11, 2008, ETC was informed by Lenfest was withdrawing its proposal to purchase all of the publicly traded shares of the common stock of the Company not already owned by Lenfest. Lenfest beneficially owns 48.7% of the Company's common stock, on a fully diluted basis (assuming the conversion of outstanding convertible notes and convertible preferred stock).

Critical Accounting Policies

The discussion and analysis of the Company's financial condition and results of operation are based upon the Company's condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires the Company to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's condensed financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that reflect significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. For a detailed discussion on the application of these and other accounting policies, see Note 3 to the Consolidated Financial Statements, Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2008.

Table of Contents**Results of Operations****Thirteen weeks ended November 28, 2008 compared to thirteen weeks ended November 23, 2007**

We have historically experienced significant variability in our quarterly revenue, earnings and other operating results, and our performance may fluctuate significantly in the future.

	Summary Table of Results			
	Thirteen weeks ended November 28, 2008	Thirteen weeks ended November 23, 2008	Variance \$	Variance %
	(amounts in thousands)		Favorable (Unfavorable)	
Sales:				
Domestic	\$ 2,702	\$ 4,575	(\$1,873)	(40.9%)
US Government	367	443	(76)	(17.2%)
International	5,637	1,683	3,954	234.9%
 Total Sales	 8,706	 6,701	 2,005	 29.9%
Gross Profit	2,957	1,267	1,690	133.4%
Selling, general and administrative	2,434	2,830	396	14.0%
Research and development	247	64	(183)	(285.9%)
Operating profit (loss)	276	(1,627)	1,903	117.0%
Interest expense, net	417	406	(11)	(2.7%)
Other expense, net	(27)	61	88	144.3%
Income taxes	0	0	0	
Minority interest	(1)	4	5	125.0%
 Net loss	 (\$113)	 (\$2,098)	 \$ 1,985	 94.6%
Net loss per common share	(\$0.04)	(\$0.26)	\$ 0.22	84.6%

Net Loss

The Company had a net loss of \$113,000, or \$0.04 per share (basic and diluted), during the third quarter of fiscal 2009 compared to a net loss of \$2,098,000, or \$0.26 per share (basic and diluted), for the third quarter of fiscal 2008, representing a decrease in net loss of \$1,985,000. This decrease in net loss is attributed to a significant increase in sales and corresponding gross profit coupled with reduced selling, general and administrative expenses. Acting as partial offsets were higher research and development expenses and slightly higher interest expense.

Sales

Sales for the third quarter of fiscal 2009 were \$8,706,000 as compared to \$6,701,000 for the third quarter of fiscal 2008, an increase of \$2,005,000, 29.9%. A significant increase in international sales completely offset decreases in domestic and government sales. Product line wise, all product areas showed improvement except sterilizers, environmental and service/spares.

Given the product mix of the Company's November 28, 2008 sales backlog of \$30,379,000, it is anticipated that the sales level may decline in the next fiscal quarter compared to the first three quarters of fiscal 2009. Specifically, \$12.7 million of the backlog is for large simulators in the pilot training area. These contracts ordinarily have long lead

time items and require extensive software development time. Given that the Company's contracts under proposal were significant as of November 28, 2008, including two major U.S. Government proposals, it is anticipated that sales performance for the next fiscal year, fiscal 2010, will be consistent with fiscal 2009 performance.

Domestic Sales

Domestic sales in the third quarter of fiscal 2009 were \$2,702,000 as compared to \$4,575,000 in the third quarter of fiscal 2008, a decrease of \$1,873,000 or 40.9%, primarily reflecting significant decreases in environmental, sterilizers and service/spares. These three product areas were down a combined \$2,005,000.

Table of Contents

Environmental in the prior period benefited from significant work under an automotive contract for conditioned air supply (CAS) units. Higher sterilizer performance in the prior period reflected multiple contracts for both small military and large steam sterilizers. Service/spares in the prior period benefited from higher installation work (consistent with the higher sterilizers production) and significant spares sales. Domestic sales represented 31.1% of the Company's total sales in the third quarter of fiscal 2009, as compared to 68.3% for the third quarter of fiscal 2008. U.S. Government sales in the third quarter of fiscal 2009 were \$367,000 as compared to \$443,000 in the third quarter of fiscal 2008 and represented 4.2% of total sales in the third quarter of fiscal 2009 versus 6.6% for the third quarter of fiscal 2008.

International Sales

International sales, which includes the Company's foreign subsidiaries, for the third quarter of fiscal 2009 were \$5,637,000 as compared to \$1,683,000 in the third quarter of fiscal 2008, an increase of \$3,954,000 or 234.9%, and represented 64.7% of total sales, as compared to 25.1% in the third quarter of fiscal 2008. The current reporting period benefited from significant percentage of completion (POC) revenue recognition in ETC Southampton for three major ongoing pilot training services (PTS) contracts in the Middle East coupled with an almost five-fold increase in sales in ETC-PZL. Throughout the Company's history, most of the sales for PTS have been made to international customers. Of the international total sales for the third quarter of fiscal 2009, there are sales of 10% or more to or relating to governments or commercial accounts in Saudi Arabia (\$2,185,000) and Turkey (\$992,000). Of the international total sales for the third quarter of fiscal 2008, there were sales of 10% or more to or relating to governments or commercial accounts in Indonesia (\$259,000), Thailand (\$339,000), Japan (\$183,000) and Poland (\$170,000). Fluctuations in sales to international countries from year to year primarily reflect POC revenue recognition on the level and stage of development and production on multi-year long-term contracts.

Gross Profit

Gross profit for the third quarter of fiscal 2009 was \$2,957,000 as compared to \$1,267,000 in the third quarter of fiscal 2008, an increase of \$1,690,000 or 133.4%. This increase reflected the aforementioned increased sales level and corresponding gross profit coupled with an improvement in the gross profit rate as a percent of revenue to 34.0% compared to 18.9% in the prior period. The improved gross profit percentage was primarily the result of an improved product mix which included significant sales of higher margin pilot training equipment. Most product and geographic categories generated higher gross profit rates.

Selling and Administrative Expenses

Selling and administrative expenses for the third quarter of fiscal 2009 were \$2,434,000 as compared to \$2,830,000 in the third quarter of fiscal 2008, a decrease of \$396,000 or 14.0%. Reduced legal and bid and proposal expenses (down a combined total of \$641,000) were partially offset by increased commissions (up \$423,000) on a higher level of commissionable sales. As a percentage of sales, selling and administrative expenses were 28.0% in the current period compared to 41.6% in the third quarter of fiscal 2008.

Research and Development Expenses

Research and development expenses, which are charged to operations as incurred, were \$247,000 for the third quarter of fiscal 2009 as compared to \$64,000 in the prior period, primarily for work performed in the Company's Turkish subsidiary. The prior period benefited from higher grant awards from the Turkish government. Most of ETC's research efforts, which were and continue to be a significant cost of our business, are included in cost of sales for applied research for specific contracts, as well as research for feasibility and technology updates.

Interest Expense

Interest expense for the third quarter of fiscal 2009 was \$417,000 as compared to \$406,000 for the third quarter of fiscal 2008, representing a slight increase of \$11,000 or 2.7%. The increase reflected higher interest expense on a higher average loan balance partially offset by lower amortization expense related to the beneficial feature of the Company's Subordinated Note and the value assigned to warrants which were issued with the Subordinated Note as part of the Company's February 2003 refinancing. Amortization expense associated with the Subordinated Note has been recalculated to reflect the extension of the maturity date of the note.

Other Income/Expense, Net

Other income/expense, net, was a net income of \$27,000 for the third quarter of fiscal 2009 versus a net expense of \$61,000 for the third quarter of fiscal 2008, an increase in income of \$88,000. The prior period included a significant local license charge related to an ATS contract in Turkey.

Table of Contents**Thirty-nine weeks ended November 28, 2008 compared to thirty-nine weeks ended November 23, 2007**

	Summary Table of Results			
	Thirty-nine weeks November 28, 2008 (amounts in thousands)	Thirty-nine weeks November 23, 2007	Variance \$ Favorable (Unfavorable)	Variance %
Sales:				
Domestic	\$ 12,348	\$ 9,416	\$ 2,932	31.1%
US Government	1,742	1,090	652	59.8%
International	13,315	4,789	8,526	178.0%
 Total Sales	 27,405	 15,295	 12,110	 79.2%
Gross Profit	7,494	2,794	4,700	168.2%
Selling, general and administrative	8,502	8,353	(149)	(1.8%)
Claim settlement costs	0	3,639	3,639	100.0%
Research and development	946	355	(591)	(166.5%)
Impairment expense	0	0	0	
 Operating loss	 (1,954)	 (9,553)	 7,599	 79.5%
Interest expense, net	1,287	1,146	(141)	(12.3%)
Other expense, net	(38)	102	140	137.3%
Income taxes	0	0	0	
Minority interest	(6)	(8)	(2)	25.0%
 Net loss	 (\$3,197)	 (\$10,793)	 \$ 7,596	 70.4%
Net loss per common share	(\$0.43)	(\$1.24)	\$ 0.81	65.3%

Net Loss

The Company had a net loss of \$3,197,000, or \$0.43 per share (basic and diluted), during the first nine months of fiscal 2009 compared to a net loss of \$10,793,000, or \$1.24 per share (basic and diluted), for the first nine months of fiscal 2008, representing a decrease in net loss of \$7,596,000, 70.4%. This decrease in net loss resulted from significant improvements at the sales and gross profit levels which was partially offset by higher selling, general and administrative expenses, research and development expenses and interest charges. Additionally, the prior period included claims costs of \$3,639,000 associated with a settlement with the U.S. Government under a contract for submarine rescue chambers. Overall, sales were up 79.2% and gross profit was up 168.2%.

Sales

Sales for the first nine months of fiscal 2009 were \$27,405,000 as compared to \$15,295,000 for the first nine months of fiscal 2008, an increase of \$12,110,000 or 79.2%, reflecting significant increases in all geographic areas and most product areas. In terms of volume, combined ATS government and international sales, which includes those in the Company's foreign subsidiaries, showed the most improvement, up \$8,312,000, 182.8%. Overall, only two product areas evidenced sales decreases, sterilizers and service/spares, which were down a combined \$310,000, 5.9%.

Given the product mix of the Company's November 28, 2008 sales backlog of \$30,379,000, it is anticipated that the sales level may decline in the next fiscal quarter compared to the first three quarters of fiscal 2009. Specifically,

\$12.7 million of the backlog is for large simulators in the pilot training area. These contracts ordinarily have long lead time items and require extensive software development time. Given that the Company's contracts under proposal were significant as of November 28, 2008, including two major U.S. Government proposals, it is anticipated that sales performance for the next fiscal year, fiscal 2010, will be consistent with fiscal 2009 performance.

Table of Contents

Domestic Sales

Overall, domestic sales in the first nine months of fiscal 2009 were \$12,348,000 as compared to \$9,416,000 in the first nine months of fiscal 2008, an increase of \$2,932,000 or 31.1%, primarily reflecting increases in the hyperbaric (up \$1,773,000, 116.4%), environmental (up \$958,000, 33.9%) and simulation (up \$430,000, 1,195.1%) product areas. Domestic sales represented 45.1% of the Company's total sales in the first nine months of fiscal 2009, down from 61.6% for the first nine months of fiscal 2008. U.S. Government sales in the first nine months of fiscal 2009 were \$1,742,000 as compared to \$1,090,000 in the first nine months of fiscal 2008 and represented 6.4% of total sales in the first nine months of fiscal 2009 versus 7.1% for the first nine months of fiscal 2008.

International Sales

International sales, which includes those in the Company's foreign subsidiaries, were \$13,315,000 as compared to \$4,789,000 in the first nine months of fiscal 2008, an increase of \$8,526,000 or 178.0%, and represented 48.5% of total sales, as compared to 31.3% in the first nine months of fiscal 2008. Only two product areas evidenced sales decreases, sterilizers and service/spares, which were down a combined \$312,000, 73.4%.

Throughout the Company's history, most of the sales for PTS have been made to international customers. During the first nine months of fiscal 2009, there were sales to or relating to governments or commercial accounts in Saudi Arabia (\$4,705,000) and Turkey (\$2,521,000). During the first nine months of fiscal 2008, there were sales to or relating to governments or commercial accounts in Indonesia (\$1,302,000), Thailand (\$482,000) and Poland (\$703,000). Fluctuations in sales to international countries from year to year primarily reflect POC revenue recognition on the level and stage of development and production on multi-year long-term contracts.

Gross Profit

Gross profit for the first nine months of fiscal 2009 was \$7,494,000 as compared to \$2,794,000 in the first nine months of fiscal 2008, an increase of \$4,700,000 or 168.2%. This increase reflected the aforementioned increased sales level and corresponding gross profit coupled with an improvement in the gross profit rate as a percent of revenue to 27.4% compared to 18.3% in the prior period. The improved gross profit percentage was primarily the result of an improved product mix which included significant sales of higher margin pilot training equipment. Most product and geographic categories generated higher gross profit rates.

Selling and Administrative Expenses

Selling and administrative expenses for the first nine months of fiscal 2009 were \$8,502,000 as compared to \$8,353,000 in the first nine months of fiscal 2008, an increase of \$149,000 or 1.8%. Higher commissions on the higher sales levels and increased accounting fees were partially offset by lower legal costs, despite a reserve for a potential settlement of the Mends Litigation. (See Note 10 - Legal Proceeding in the accompany Notes to the Condensed Consolidated Financial Statements.) As a percentage of sales, selling and administrative expenses were 31.0% for the first nine months of fiscal 2009 compared to 54.6% in the first nine months of fiscal 2008.

Claim Settlement Costs

Claims settlement costs in the first nine months of fiscal 2008 consisted of a write off of contract accounts receivables of \$89,000 and a reserve for a tentative payment to the Government of \$3,550,000. (See Note 10. Legal Proceedings in the accompanying Notes to the Condensed Consolidated Financial Statements.)

Research and Development Expenses

Research and development expenses, which are charged to operations as incurred, were \$946,000 for the first nine months of fiscal 2009 compared to \$355,000 for the first nine months of fiscal 2008. The prior period benefited from the receipt of monies under a NASA grant and higher grant awards from the Turkish government. Most of the Company's research efforts, which were and continue to be a significant cost of its business, are included in cost of sales for applied research for specific contracts, as well as research for feasibility and technology updates.

Interest Expense

Interest expense for the first nine months of fiscal 2009 was \$1,287,000 as compared to \$1,146,000 for the first nine months of fiscal 2008, representing an increase of \$141,000 or 12.3%. The increase reflected higher interest expense reflecting new borrowings partially offset by lower amortization expense related to the beneficial feature of the Company's Subordinated Note and the value assigned to warrants which were issued with the Subordinated Note as part of the Company's February 2003 Refinancing. Amortization expense associated with the Subordinated Note has

been recalculated to reflect the extension of the maturity date of the subordinated note to March 1, 2010.

Table of Contents

Other Income/Expense, Net

Other income/expense, net, was a net income of \$38,000 for the first nine months of fiscal 2009 versus a net expense of \$102,000 for the first nine months of fiscal 2008, an increase in income of \$140,000. The prior period included a significant local license charge related to an ATS contract in Turkey.

Liquidity and Capital Resources

We have historically financed operations through a combination of cash generated from operations, equity offerings, subordinated borrowings and bank debt. On July 31, 2007, the Company entered into a credit agreement pursuant to which it completed a refinancing of its indebtedness with PNC in the aggregate amount of up to \$15,000,000. This Credit Agreement is a replacement of a credit facility originally entered into with PNC in February 2003. On September 10, 2008, PNC renewed the Credit Agreement. The expiration date of the Credit Agreement has been extended from June 30, 2009 to June 30, 2010. All other terms and conditions of the Credit Agreement remain in effect. (See Note 7 Long-term Obligations, Credit Arrangements and Preferred Stock in the accompanying Notes to the Condensed Consolidated Financial Statements.)

During the thirty-nine weeks ended November 28, 2008, operating activities generated \$397,000 of cash versus a usage of \$7,693,000 for the corresponding prior period. This variance reflected significant cash generation from the reduced net loss, collections of accounts receivables, lower inventories and lower costs and estimated earnings in excess of billings on uncompleted long-term contracts. Partial offsets were reductions in customer deposits and billings in excess of costs and estimated earnings on uncompleted long-term contracts, reflecting increased revenue recognition on various contracts, and vendor payments in accounts payable.

The Company's investing activities required \$1,590,000 during the thirty-nine weeks ended November 28, 2008, down from \$3,694,000 for the prior period, consisting primarily of spending for the continued construction of the Company's NASTAR center.

The Company's financing activities required \$130,000 during the thirty-nine weeks ended November 28, 2008 primarily reflecting a reduction of restricted cash which was used to partially fund the aforementioned U.S. Government settlement. Net borrowings under the Company's line of credit were \$100.

The Company expects to need additional sources of capital in order to continue growing and operating its business. The Company is currently in discussions with its commercial lender, PNC and Lenfest for potential additional funding. The Company cannot be certain that it will be successful in obtaining additional sources of capital.

On May 20, 2008, Lenfest agreed to fund all requests by ETC for funds to support its operations through June 30, 2009, on terms and conditions to be mutually agreed upon by Lenfest and ETC, provided that ETC may not request more than \$10 million in the aggregate. All agreements are subject to any required approvals including the approval of ETC's shareholders and are required to be made in accordance with the rules and regulations of AMEX (assuming that the Company's common stock is still listed on the AMEX). This commitment by Lenfest is not dependent on the transaction contemplated in Note 1 Stock Exchange Listing in accompanying Notes to the Condensed Consolidated Financial Statements.

ETC's objective in its refinancing efforts is to increase its current financing with additional financing from PNC or Lenfest.. It is expected that these arrangements may include a restructuring of the Company's current capital structure including an exchange of Lenfest's debt for preferred stock and a modification of the terms of the outstanding preferred stock. The Company believes that existing cash balances at November 28, 2008, cash generated from operating activities, cash from potential new contract awards, and potential additional funding from PNC and/or Lenfest with will be adequate to meet its future obligations through at least November 30, 2009.

At November 28, 2008, the Company's availability under its Credit Agreement with PNC was approximately \$971,000.

On February 20, 2008, ETC received a proposal from an affiliate of Lenfest to purchase all of the publicly traded shares of the common stock of the Company not owned by Lenfest at the time the acquisition is consummated. On September 11, 2008, ETC was informed by Lenfest that he was withdrawing his proposal to purchase all of the publicly traded shares of the common stock of the Company not already owned by Lenfest. Lenfest beneficially owns 48.7% of the Company's common stock, on a fully diluted basis (assuming the conversion of outstanding convertible notes and convertible preferred stock).

Backlog

The Company's backlog at November 28, 2008 and February 29, 2008, for work to be performed and revenue to be recognized under written agreements after such dates, was \$28,040,000 and \$38,281,000, respectively.

24

Table of Contents

In addition, training, maintenance and upgrade contracts backlog at November 28, 2008 and February 29, 2008, for work to be performed and revenue to be recognized after such dates under written agreements was \$2,339,000 and \$1,028,000, respectively. These contracts total \$30,379,000 and include contracts with domestic customers (\$3,748,000 or 12.3%), U.S. Government agencies (\$3,003,000 or 9.9%) and international customers (\$23,627,000 or 77.8%). Of the November 28, 2008 sales backlog, the Company has contracts totaling approximately \$14,036,000 for pilot training systems including \$12,729,000 for two customers in the Middle East.

Given the product mix of the Company's November 28, 2008 sales backlog of \$30,379,000, it is anticipated that the sales level may decline in the next fiscal quarter compared to the first three quarters of fiscal 2009. Specifically, \$12.7 million of the backlog is for large simulators in the pilot training area. These contracts ordinarily have long lead time items and require extensive software development time. However, given that the Company's contracts under proposal were significant as of November 28, 2008, this may provide additional sales to offset portions of the long lead time contracts. For the full 2009 fiscal year, the Company anticipates that sales will be significantly improved over fiscal 2008. The Company's order flow does not follow any seasonal pattern as the Company receives orders in each quarter of its fiscal year. Although all of the Company's orders in backlog are under written agreements, given the current global economic climate, there exists the potential that one or more of the Company's existing orders or customers could experience delays or cancellations or financial difficulty. This could have a material adverse effect on the Company financial performance.

Item 4. Controls and Procedures

Evaluation of Disclosure Control and Procedures

As of the end of the period covered by this report, the Company's management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective. A. control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports.

Changes in Internal Control Over Financial Reporting.

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Walt Disney World Co.

In June 2003, Entertainment Technology Corporation (EnTCo), our wholly owned subsidiary, filed suit against Walt Disney World Co. and other entities (Disney) in the United States District Court for the Eastern District of Pennsylvania, alleging breach of contract for, among other things, failure to pay all amounts due under a contract for the design and production of the amusement park ride Mission: Space located in Disney s Epcot Center. In response, in August 2003, Disney filed counterclaims against both EnTCo and ETC (under a guarantee) for, among other things, alleged failures in performance and design in the contract. Disney alleged damages ranging from approximately \$47 million to \$72 million plus punitive damages (collectively, the 2003 Litigation). The 2003 Litigation was stayed until pretrial proceedings in the 2005 Litigation (described below) were completed.

In December 2005, ETC and EnTCo filed a second lawsuit against Disney, alleging breach of contract and unfair competition (the 2005 Litigation). On March 26, 2008, the Court granted summary judgment in favor of Disney and against the Company and dismissed the Company s claim in the 2005 Litigation. On April 7, 2008, the Company filed a motion for reconsideration asking the Court to reconsider its March 2008 decision in the 2005 Litigation. The motion for reconsideration was denied. On July 9, 2008, the Company filed a formal appeal to the Court s decision.

Subsequent to fiscal quarter end, the Company entered into a settlement agreement and release with Disney which resolved both the 2003 Litigation and the 2005 Litigation. The financial impact of the settlement did not have a material effect on the Company s financial position or results of operation.

Mends International, Ltd.

On May 29, 2008, a Request for Arbitration was filed against the Company with the Secretariat of the International Court of Arbitration by Mends International Ltd. (Mends). Mends s Request for Arbitration arises out of a February 3, 1999 contract between Mends and the Company wherein Mends purchased aeromedical equipment for sale to the Nigerian Air Force. Mends asserted a claim for breach of contract and demanded \$797,486.00, plus interest and costs. On September 16, 2008, Mends filed an Amended Request for Arbitration, adding tort claims for conversion and breach of fiduciary duty and seeking punitive damages. The Company has asserted a counterclaim seeking damages for other disputes with Mends that have arisen under the contract that Mends has put at issue in this arbitration. The Company is contesting this arbitration case vigorously. However, as of November 28, 2008 the Company had recorded a reserve in this matter.

Other Matters

Certain other claims, suits, and complaints arising in the ordinary course of business have been filed or are pending against us. In our opinion, after consultation with legal counsel handling these specific matters, all such matters are reserved for or adequately covered by insurance or, if not so covered, are without merit or are of such kind, or involve such amounts, as would not have a significant effect on our financial position or results of operations if disposed of unfavorably.
