PRESS RELEASE

CONTINUATION OF ASSET DIVESTITURES

Paris, November 22, 2012. \_Since August 2012, Veolia Environnement has completed or signed several small and medium-sized asset divestitures pursuant to the implementation of the Company's transformation plan. Certain divestitures have already been completed, while others will be finalized later this year or early next year. In total, these divestitures are expected to result in a reduction of net financial debt by around €350 million.

These divestitures include the sale of Ridgeline, a U.S. subsidiary specialized in wind power, to Atlantic Power, and the divestment of a portion of the Veolia Environmental Services operations in Switzerland, a waste-to-energy facility in Italy, as well as all Veolia Environmental Services operations in Estonia and Lithuania, and Dalkia operations in Switzerland and Estonia.

These divestitures are in addition to the €3 billion previously achieved by the divestitures of U.K. regulated Water activities in the United Kingdom and the U.S. Solid Waste business in the United States.

Given these achievements and the progress of other undertaken asset divestitures, Veolia Environnement confirms the company's objective of divesting €5 billion in assets for the 2012-2013 period.

\*\*\*\*\*

Veolia Environnement (Paris Euronext: VIE and NYSE: VE) is the worldwide reference in environmental solutions. With more than 330,000 employees the company has operations all around the world and provides tailored solutions to meet the needs of municipal and industrial customers in four complementary segments: water management, waste management, energy management and passenger transportation. Veolia Environnement recorded revenue of €29.6 billion\* in 2011.
