Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 11, 2012, Rogers Corporation (the “Company”) filed a Current Report on Form 8-K under Item 2.05 (the “Original Filing”), disclosing its commitment, in connection with its continuing efforts to reduce operating costs, to a plan to cease operations at its leased manufacturing site in Bremen, Germany. The manufacture of certain silicone materials produced in the Bremen facility will be consolidated into the Company’s existing facility in Carol Stream, Illinois. At the time of the Original Filing, the Company was not able to reasonably estimate the expenses and charges related to the termination of its operations at the Bremen site. The Original Filing is hereby amended to provide that information.

The expenses and charges related to the termination of the Company’s operations at the Bremen facility are estimated to be \$3.0 million, comprised of the following major components: (i) \$0.9 million associated with the early termination of the lease for the 68,000 square foot building; (ii) \$0.8 million associated with the separation from employment of approximately 33 employees at the facility; (iii) \$0.2 million associated with physically removing and transporting certain manufacturing equipment and preparing the building for return to the landlord; (iv) \$0.5 million related to the impairment of certain assets, and (v) approximately \$0.6 million of other related charges. Approximately \$2.7 million of these charges will be recognized in the second quarter of 2012 with the remainder to be recognized over the third and fourth quarters of 2012.
