Safe Harbor Forward Looking Statements Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward looking statements include the strength of

world economies and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward looking statements are based on management's current evaluation, and TORM is only under obligation to update and change the listed expectations to the extent required by law.

6. Proposals from the Board of Directors:

Unless otherwise stated below, the proposals under items 6a - 6o below are motivated in part by new terminology used in the new Danish Companies Act, in part by the increased flexibility introduced under the new Danish Companies Act and in part by amendments necessary to bring the Articles of Association into line with the new Danish Companies Act.

- a. That the entire Article 1.3 of the Company's Articles of Association (place of registered office) be deleted after which the present Article 1.4 will become Article 1.3.
- b. That the entire Article 2.6 of the Company's Articles of Association (authorisation to issue shares to the employees) be deleted.

The proposal is motivated by the expiry on 1 April 2010 of the authorisation under said Article 2.6.

- c. That an authorisation to the Board of Directors be inserted in Article 2.6 of the Articles of Association to issue convertible debt instruments and to effect the capital increase relating thereto, to the effect that the new Article 2.6 will read as follows:

2.6. The Board of Directors is authorised in the period until 31 December 2011, in one stage, with or without any pre-emption rights for the existing shareholders, to resolve by unanimous resolution to raise loans for a total amount of up to DKK 700,000,000 against the issuance of convertible debt instruments entitling the holder to subscribe for shares in the Company. The loans must be paid in cash to the Company. The Board of Directors will by unanimous resolution lay down the specific terms and conditions for the convertible debt instruments being issued under this authorisation. If the shareholders' pre-emption rights are excluded, conversion may not take place at a price, which is lower than the market price of the Company's shares at the time of the issuance of the convertible debt instruments.

As a result of this authorisation, the Board of Directors is furthermore authorised in the period until 31 December 2011 by unanimous resolution to increase the Company's share capital, with or without any pre-emption rights for the existing shareholders, by up to a total nominal amount of DKK 50,000,000 by conversion of convertible debt instruments issued pursuant to this Article 2.6. New shares issued pursuant to this authorisation shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders, the transferability of the new shares shall not be

subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the shares are in all other respects to carry the same rights and privileges as the existing shares in the Company. The Board of Directors will by unanimous resolution determine any other terms and conditions."

The proposal is motivated by ensuring the Company a flexible capital structure.

d. That in Article 3.3 of the Danish version of the Articles of Association, the Danish word "aktiebog" be replaced with "ejerbog" (in English the designation "register of shareholders" remains unchanged) and that the Danish word "aktiebogsfører" be replaced with "ejerbogsfører" (in English the designation "keeper of the Company's register of shareholders" remains unchanged), and that the address for VP Investor Services A/S (VP Services A/S) be replaced by the CVR no. of this company so that "Weidekampsgade 14, DK-2300 København S" is replaced by "CVR no. 30201183".
