

Edgar Filing: AGL RESOURCES INC - Form 8-K

registrant is realizing a rate return that is higher than its allowed rate of return, even though, as reported in the registrant's then most recent monthly filing with the Georgia PSC, the registrant's return on equity for the 12 months ended May 31, 2001 was 9.9% compared to the 11.0% return on equity authorized by the Georgia PSC.

On September 26, 2001, the Georgia PSC issued an order which denied the registrant's motion for reconsideration. Because of the legal expenses associated with the regulatory appeal process, the registrant has elected not to appeal the denial of the motion but intends to vigorously defend its current rate structure in the review proceedings. Based on the schedule adopted by the Georgia PSC, a final decision on the rate review is expected in March 2002.
