You may obtain a description of the Fund's proxy voting policies and procedures, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") web site at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's web site at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

AllianceBernstein Investment Research and Management, Inc. is an affiliate of Alliance Capital Management L.P., the manager of the funds, and is a member of the NASD.

June 20, 2005

Semi-Annual Report

This report provides management's discussion of fund performance for Alliance National Municipal Income Fund (the "Fund") for the semi-annual reporting period ended April 30, 2005. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "AFB".

Investment Objective and Policies

The Fund is a closed-end management investment company designed for investors who seek high current income exempt from regular federal income tax. Under normal conditions, the Fund will invest at least 80%, and normally substantially all, of its assets in municipal securities paying interest that is exempt from regular federal income tax. In addition, the Fund normally invests at least 75% of its assets in investment grade municipal securities. For more information regarding the Fund's risks, please see "A Word About Risk" on page 3 and "Note G-Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 25.

Investment Results

The table on page 4 provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) Municipal Index, for the six- and 12-month periods ended April 30, 2005. For comparison, returns for the Lipper General Municipal Debt Funds (Leveraged) Average (the "Lipper Average") are also included. The funds that comprise the Lipper Average have generally similar investment objectives to the Fund, although some may have different investment policies and sales and management fees.

The Fund outperformed its benchmark and its peer group, as represented by the Lipper Average, during both the six- and 12-month periods ended April 30, 2005. The Fund's stronger relative performance versus its benchmark during the six-month reporting period was largely the result of security selection in the insured, special tax and hospital sectors. Security selection in the industrial revenue bond sector detracted from performance. The Fund's relative exposure to the pre-refunded, hospital, housing and industrial revenue bond sectors also contributed positively to the Fund's performance.

Market Review and Investment Strategy

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

During the six-month period ended April 30, 2005, long-term municipal bond yields declined and short-term municipal bond yields increased. Yields moved in a similar manner in the Treasury bond market. The rise in short-term bond yields was in response to the U.S. Federal Reserve increasing the target for the Federal Funds rate by 1.00% through four rate hikes over the period. Inconclusive economic signals and moderate inflation expectations, however, allowed longer-term bond yields to decline. On a pre-tax basis, the municipal market outperformed the taxable bond market for the six-month period ended April 30, 2005. The LB Municipal Index gained 1.93%, versus the LB U.S. Aggregate Index, representing taxable bonds, which returned 0.98% during the same time frame. As of April 30, 2005, 30-year municipal bonds were yielding approximately 97% of comparable maturity Treasury bonds.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 1

Interest rates are still low by historical standards versus inflation and indications of economic growth. As such, the Fund's portfolio managers (the "managers") continue to maintain shorter-than-benchmark portfolio durations. The low-rate environment has led to relatively strong demand for lower-rated bonds as investors seek higher income producing bonds. As the yield premium on lower-rated bonds declined, making them more expensive to buy/own versus high quality bonds, the managers sold lower-rated bonds opportunistically. Stronger economic growth has helped boost state and local government tax revenues, improving the creditworthiness of state and local issuers. Holdings in general obligation bonds benefited from this trend.

2 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on the following page represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. Returns are annualized for periods longer than one year. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

Alliance National Municipal Income Fund Shareholder Information

Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of The Wall Street Journal under the abbreviation "AllianceNA." The Fund's NYSE trading symbol is "AFB." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times and each Saturday in Barron's and other newspapers in a table called "Closed-End Bond Funds." For additional shareholder information regarding this Fund, please see page 39.

Benchmark Disclosure

The unmanaged Lehman Brothers (LB) Municipal Index does not reflect fees and expenses associated with the active management of a mutual fund portfolio. The Index is a total return performance benchmark for the long-term, investment grade, tax-exempt bond market. For both the six- and 12-month periods ended April 30, 2005, the Lipper General Municipal Debt Funds (Leveraged) Average consisted of 67 funds. These funds have generally similar investment objectives

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

to the Fund, although some may have different investment policies and sales and management fees. An investor cannot invest directly in an index or average, and their results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

Among the risks of investing in the Fund are changes in the general level of interest rates or changes in bond credit quality ratings. Changes in interest rates have a greater effect on bonds with longer maturities than on those with shorter maturities. Please note, as interest rates rise, existing bond prices fall and can cause the value of your investment in the Fund to decline. While the Fund invests principally in bonds and other fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, futures, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments. At the discretion of the Fund's Adviser, the Fund may invest up to 25% of its net assets in municipal bonds that are rated below investment grade ("junk bonds"). These securities involve greater volatility and risk than higher-quality fixed-income securities.

The issuance of the Fund's preferred stock results in leveraging of the Common Stock, an investment technique usually considered speculative. Leverage creates certain risks for holders of Common Stock, including higher volatility of both the net asset value and market value of the Common Stock, and fluctuations in the dividend rates on the preferred stock will affect the return to holders of Common Stock. If the Fund were fully invested in longer-term securities and if short-term interest rates were to increase, then the amount of dividends paid on the preferred shares would increase and both net investment income available for distribution to the holders of Common Stock and the net asset value of the Common Stock would decline. At the same time, the market value of the Fund's Common Stock (that is, its price as listed on the New York Stock Exchange) may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Stock's net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the Fund's Preferred Stock does not fluctuate. In addition to the decline in net asset value, the market value of the Fund's Common Stock may also decline.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 19

NOTES TO FINANCIAL STATEMENTS
April 30, 2005 (unaudited)

NOTE A
Significant Accounting Policies

Alliance National Municipal Income Fund, Inc. (the "Fund"), was incorporated in the state of Maryland on November 9, 2001 and is registered under the Investment Company Act of 1940 as a diversified, closed-end management

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, ("OTC") (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, Alliance Capital Management, L.P. (the "Adviser") may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security;

20 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because, most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the trade date the securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund amortizes premiums and accretes original issue discounts and market discounts as adjustments to interest income.

4. Dividends and Distributions

Dividends and distributions to shareholders, if any, are recorded on the ex-dividend date. Income dividends and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory Fee and Other Transactions with Affiliates

Under the terms of an investment advisory agreement, the Fund pays the Adviser an advisory fee at an annual rate of .65 of 1% of the Fund's average daily net assets applicable to common and preferred shareholders. Such fee is accrued daily and paid monthly. The Adviser has voluntarily agreed to waive a portion of its fees or reimburse the Fund for expenses in the amount of 0.25% of the Fund's average daily net assets applicable to common and preferred shareholders for the first 5 full years of the Fund's operations, 0.20% of the Fund's average daily net assets applicable to common and preferred shareholders in year 6, 0.15% in year

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 21

7, 0.10% in year 8, and 0.05% in year 9. For the six months ended April 30, 2005, the amount of such fees waived was \$638,188.

Under the terms of a Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. (AGIS), an affiliate of the Adviser, the Fund reimburses AGIS for costs relating to servicing phone inquiries for the Fund. During the six months ended April 30, 2005, there was no reimbursement paid to AGIS.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the six months ended April 30, 2005, were as follows:

	Purchases	Sales
	-----	-----
Investment securities (excluding		
U.S. government securities)	\$ 53,216,599	\$ 58,325,425
U.S. government securities	-0-	-0-

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

The cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes. Accordingly, gross unrealized appreciation and unrealized depreciation (excluding swap and futures transactions) are as follows:

Gross unrealized appreciation	\$28,344,512
Gross unrealized depreciation	(161,688)

Net unrealized appreciation	\$28,182,824

1. Swap Agreements

The Portfolio may enter into swaps to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment to be received by the Portfolio, and/or the termination value at the end of the contract. Therefore, the Portfolio considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. The Fund accrues for the interim payments

22 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Prior to November 1, 2003, these interim payments were reflected within interest income/expense in the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

2. Financial Futures Contracts

The Fund may buy or sell financial futures contracts for the purpose of hedging the portfolio against adverse effects of anticipated movements in the market. The Fund bears the market risk that arises from changes in the value of these financial instruments and the imperfect correlation between movements in the price of the futures contracts and movements in the price of the securities hedged or used for cover.

At the time the Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses.

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

Risks may arise from the potential inability of the counterparty to meet the terms of the contract. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

NOTE D

Common Stock

The Fund has 1,999,992,200 shares of \$.001 par value common stock authorized. There are 20,471,667 shares of common stock outstanding at April 30, 2005.

NOTE E

Preferred Stock

The Fund has authorized, issued and outstanding 7,800 shares of Auction Preferred Stock, consisting of 1,950 shares each of Series M, Series T, Series W and Series TH. The preferred shares have a liquidation value of \$25,000 per share plus accumulated, unpaid dividends. The dividend rate on the Auction Preferred Stock may change generally every 7 days as set by the auction agent for Series T and W. The dividend rate on the Series M is 2.86% effective through May 9, 2005. The dividend rate on the Series T is 2.76% effective through May 3, 2005. The dividend rate on the Series W is 2.71% effective through May 4,

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 23

2005. The dividend rate on the Series TH is 1.70% effective through August 4, 2005.

At certain times, the Preferred Shares are redeemable by the Fund, in whole or in part, at \$25,000 per share plus accumulated, unpaid dividends.

Although the Fund will not ordinarily redeem the Preferred Shares, it may be required to redeem shares if, for example, the Fund does not meet an asset coverage ratio required by law or to correct a failure to meet a rating agency guideline in a timely manner. The Fund voluntarily may redeem the Preferred Shares in certain circumstances.

The Preferred Shareholders, voting as a separate class, have the right to elect at least two Directors at all times and to elect a majority of the Directors in the event two years' dividends on the Preferred Shares are unpaid. In each case, the remaining Directors will be elected by the Common Shareholders and Preferred Shareholders voting together as a single class. The Preferred Shareholders will vote as a separate class on certain other matters as required under the Fund's Charter, the Investment Company Act of 1940 and Maryland law.

NOTE F

Distributions To Common Shareholders

The tax character of distributions to be paid to common shareholders for the year ending October 31, 2005 will be determined at the end of the current fiscal year. The tax character of distributions paid to common shareholders during the fiscal years ended October 31, 2004 and October 31, 2003 were as follows:

	2004	2003
	-----	-----
Distributions paid from:		
Ordinary income	\$ 75,220	\$ 56,946
Tax exempt income	20,243,067	17,845,503
	-----	-----
Total distributions paid	\$ 20,318,287	\$ 17,902,449

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

As of October 31, 2004, the components of accumulated earnings/(deficit) applicable to common shareholders on a tax basis were as follows:

Undistributed tax exempt income	\$ 5,057,817
Accumulated capital and other losses	(3,839,649) (a)
Unrealized appreciation/(depreciation)	25,735,319 (b)

Total accumulated earnings/(deficit)	\$ 26,953,487 (c)

(a) On October 31, 2004, the Fund had a net capital loss carryforward of \$3,839,649, of which \$1,199,398 expires in the year 2010, \$2,630,045 expires in the year 2011, and \$10,206 expires in the year 2012. To the extent future capital gains are offset by capital loss carryforward, such gains will not be distributed.

24 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

(b) The differences between book-basis and tax-basis unrealized appreciation/(depreciation) are attributed primarily to the difference between the book and tax treatment of swap income and the realization for tax purposes of gain/losses on certain derivative instruments.

(c) The difference between book-basis and tax-basis components of accumulated earnings/(deficit) is attributable primarily to dividends payable.

NOTE G

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

NOTE H

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 25

above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual fund cases involving market and late trading in the District of Maryland. Management of the Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuance dated September 1, 2004 ("NYAG Order"). Among the key provisions of these agreements are the following:

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

The Adviser and approximately twelve other investment management firms were publicly mentioned in connection with the settlement by the SEC of charges that an unaffiliated broker/dealer violated federal securities laws relating to its receipt of compensation for selling specific mutual funds and the disclosure of such com-

26 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

pensation. The SEC indicated publicly that, among other things, it was considering enforcement action in connection with mutual funds' disclosure of such arrangements and in connection with the practice of considering mutual fund sales in the direction of brokerage commissions from fund portfolio transactions. The SEC issued subpoenas to the Adviser, and the NASD issued requests for information in connection with this matter and the Adviser provided documents and other information to the SEC and NASD and cooperated fully with the investigations. On June 8, 2005 the NASD announced that it had reached a settlement with AllianceBernstein Investment Research and Management, Inc., a wholly owned subsidiary of the Adviser and the distributor of the open-end mutual funds sponsored by the Adviser, in connection with this matter. Management of the Adviser expects that the settlement has resolved both regulatory inquires described above.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal defendants. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by an alleged shareholder of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, numerous additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants, and others may be filed.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

(a) As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however, prior to November 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. For the year ended October 31, 2004, the effect of this change to the net investment income and the net realized and unrealized gain (loss) on investment transactions was less than \$0.01 per share and the ratio of net investment income to average net assets was .00%.

(b) Commencement of operations. Net asset value immediately after the closing of the first public offering was \$14.30.

(c) Based on average shares outstanding.

(d) Net of fees waived by the Adviser.

(e) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of the period. Total investment return calculated for a period of less than one year is not annualized.

(f) These expense and net investment income ratios do not reflect the effect of dividend payments to preferred shareholders.

(g) Annualized.

(2) Messrs. Dowden and Hults are the persons primarily responsible for the day-to-day management of the Fund's investment portfolio.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase at market prices from time to time shares of its Common Stock in the open market.

This report, including the financial statements therein, is transmitted to the shareholders of Alliance National Municipal Income Fund for their information. This is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in the report.

Annual Certifications--As required, on April 21, 2005, the Fund submitted to the New York Stock Exchange ("NYSE") the annual certification of the Fund's Chief Executive Officer certifying that he is not aware of any violation of the NYSE's Corporate Governance listing standards. The Fund also has included the certifications of the Fund's Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the Fund's Form N-CSR filed with the Securities and Exchange Commission for the annual period.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 31

Information Regarding the Review and Approval of the Fund's Advisory Agreement
The Fund's disinterested directors (the "directors") unanimously approved the continuance of the Advisory Agreement between the Fund and the Adviser at a meeting held on February 7-10, 2005

In preparation for the meeting, the directors had requested from the Adviser and evaluated extensive materials, including performance and expense information for other investment companies with similar investment objectives derived from data compiled by Lipper Inc. ("Lipper"). Prior to voting, the directors reviewed the proposed continuance of the Advisory Agreement with management and with experienced counsel who are independent of the Adviser and received a memorandum from such counsel discussing the legal standards for their consideration of the proposed continuance. The directors also discussed the proposed continuance in two private sessions at which only the directors, their independent counsel and the Fund's Independent Compliance Officer were present. In reaching their determinations relating to continuance of the Advisory Agreement, the directors considered all factors they believed relevant, including the following:

1. information comparing the performance of the Fund to other investment companies with similar investment objectives and to an index;
2. the nature, extent and quality of investment, compliance, administrative and other services rendered by the Adviser;
3. payments received by the Adviser from all sources in respect of the Fund and all investment companies in the Alliance Bernstein Fund complex;

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

4. the costs borne by, and profitability of, the Adviser and its affiliates in providing services to the Fund and to all investment companies in the AllianceBernstein Fund complex;

5. comparative fee and expense data for the Fund and other investment companies with similar investment objectives;

6. the extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of investors;

7. the Adviser's policies and practices regarding allocation of portfolio transactions of the Fund, including the extent to which the Adviser benefits from soft dollar arrangements;

32 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

8. portfolio turnover rates for the Fund;

9. fall-out benefits which the Adviser and its affiliates receive from their relationships with the Fund;

10. the Adviser's representation that it does not advise other clients with similar investment objectives and strategies;

11. the professional experience and qualifications of the Fund's portfolio management team and other senior personnel of the Adviser; and

12. the terms of the Advisory Agreement.

The directors also considered their knowledge of the nature and quality of the services provided by the Adviser to the Fund gained from their experience as directors or trustees of most of the funds advised by the Adviser, their overall confidence in the Adviser's integrity and competence they have gained from that experience and the Adviser's responsiveness to concerns raised by them in the past, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the AllianceBernstein Funds.

In their deliberations, the directors did not identify any particular information that was all-important or controlling, and each director attributed different weights to the various factors.

The directors determined that the overall arrangements between the Fund and the Adviser, as provided in the Advisory Agreement, were fair and reasonable in light of the services performed, expenses incurred and such other matters as the directors considered relevant in the exercise of their business judgment.

The material factors and conclusions that formed the basis for the directors' reaching their determinations to approve the continuance of the Advisory Agreement (including their determinations that the Adviser should continue to be the investment adviser for the Fund, and that the fees payable to the Adviser pursuant to the Advisory Agreement are appropriate) were separately discussed by the directors.

Nature, extent and quality of services provided by the Adviser

The directors noted that, under the Advisory Agreement, the Adviser, subject to the control of the directors, administers the Fund's business and other

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

affairs. The Adviser manages the investment of the assets of the Fund, including making purchases and sales of portfolio securities consistent with the Fund's investment objective and policies. The Adviser also provides the Fund with such office space, administrative and other services (exclusive of, and in addition to, any such ser-

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 33

vices provided by any others retained by the Fund) and executive and other personnel as are necessary for the Fund's operations. The Adviser pays all of the compensation of directors of the Fund who are affiliated persons of the Adviser and of the officers of the Fund.

The directors also considered that a provision in the Advisory Agreement for the Fund provides that the Fund will reimburse the Adviser for the cost of certain clerical, accounting, administrative and other services provided at the Fund's request by employees of the Adviser or its affiliates. The directors noted that no reimbursements had been made to date by the Fund to the Adviser as no requests for such reimbursements had been made in light of the expense cap for the Fund. Requests for these "at no more than cost" reimbursements are approved by the directors on a quarterly basis for most of the open-end AllianceBernstein funds and result in a higher rate of total compensation from the funds to the Adviser than the stated fee rates in the funds' advisory agreements.

The directors considered the scope and quality of services provided by the Adviser under the Advisory Agreement and noted that the scope of services provided had expanded over time as a result of regulatory and other developments. The directors noted that, for example, the Adviser is responsible for maintaining and monitoring its own and, to varying degrees, the Fund's compliance programs, and these compliance programs have recently been refined and enhanced in light of new regulatory requirements. The directors considered the quality of the investment research capabilities of the Adviser and the other resources it has dedicated to performing services for the Fund. The quality of administrative and other services, including the Adviser's role in coordinating the activities of the Fund's other service providers, also were considered. The directors also considered the Adviser's response to recent regulatory compliance issues affecting many of the investment companies in the AllianceBernstein Fund complex. The directors concluded that, overall, they were satisfied with the nature, extent and quality of services provided to the Fund under the Advisory Agreement.

Costs of Services Provided and Profitability to the Adviser

The directors reviewed a schedule of the revenues, expenses and related notes indicating the profitability of the Fund to the Adviser for calendar year 2003 and for the period from January 28, 2002 (inception) to December 31, 2002. The directors reviewed the assumptions and methods of allocation used by the Adviser in preparing fund-specific profitability data, and noted the Adviser's representation to them that it believed that the methods of allocation used in preparing the profitability information were reasonable and appropriate and that the Adviser had previously discussed with the directors that there is no generally accepted allocation methodology for information of this type.

The directors recognized that it is difficult to make comparisons of profitability

34 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

from fund advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. In considering profitability information, the directors considered the effect of fall-out benefits on the Adviser's expenses. The directors focused on the profitability of the Adviser's relationship with the Fund before taxes. The directors recognized that the Adviser should generally be entitled to earn a reasonable level of profits for the services it provides to the Fund and, based on their review, concluded that they were satisfied that the Adviser's level of profitability from its relationship with the Fund was not excessive.

Fall-Out Benefits

The directors considered that the Adviser benefits from soft dollar arrangements whereby it receives brokerage and research services from many of the brokers and dealers that execute purchases and sales of securities on behalf of its clients, including the Fund. While the Fund does not normally engage in brokerage transactions, the Adviser may benefit from soft dollar arrangements when the Fund purchases securities in fixed price underwritings. They noted that the Adviser makes presentations to the directors regarding its trading practices and brokerage allocation policies, including its policies with respect to soft dollar arrangements, from time to time and had made a special presentation to the directors in 2004 on this subject. The directors noted that the Adviser has represented to them that all of its soft dollar arrangements are consistent with applicable legal requirements including the achievement of best execution. At the special presentation, the directors received and reviewed information concerning the Adviser's soft dollar arrangements, which included a description of the Adviser's policies and procedures with respect to allocating portfolio transactions for brokerage and research services, data on the dollar amount of commissions allocated for third-party research and brokerage services and for proprietary research and brokerage services, and a list of firms providing third-party research and brokerage to the Adviser.

The directors also noted that a subsidiary of the Adviser provides certain shareholder services to the Fund and receives compensation from the Fund for such services.

The directors recognized that the Adviser's profitability would be somewhat lower if it did not receive research for soft dollars or if the Adviser's subsidiary did not receive the other benefits described above. The directors believe that the Adviser derives reputational and other benefits from its association with the Fund.

ALLIANCE NATIONAL MUNICIPAL INCOME FUND o 35

Investment Results

In addition to the information reviewed by the directors in connection with the meeting, the directors receive detailed comparative performance information for the Fund at each regular Board meeting during the year. At the meeting, the directors reviewed information showing performance of the Fund compared to other funds in the Lipper General Municipal Debt Average (Leveraged) for periods ending December 31, 2004 and compared to the Lehman Brothers Municipal Bond Index. The directors noted that the Fund had performed slightly above the Lipper median in the 1-year period and significantly above the Lipper medians in the 1-month, 3-month and since-inception periods (January 2002 inception).

Edgar Filing: ALLIANCE NATIONAL MUNICIPAL INCOME FUND - Form N-CSRS

Based on their review, the directors concluded that the Fund's relative investment performance over time had been satisfactory.

Advisory Fees and Other Expenses

The directors considered the advisory fee rate paid by the Fund to the Adviser and information prepared by Lipper concerning fee rates paid by other funds in the same Lipper category as the Fund. The directors recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds.

The directors noted that in connection with the settlement of the market timing matter with the New York Attorney General, the Adviser agreed to material reductions (averaging 20%) in the fee schedules of most of the open-end funds sponsored by the Adviser (other than money market funds). As a result of that settlement, the Adviser's fees (i) for managing open-end high income funds are .50% of the first \$2.5 billion of average daily net assets, .45% for average daily net assets over that level to \$5 billion, and .40% for average daily net assets over \$5 billion; and (ii) for managing open-end low risk income funds are .45% of the first \$2.5 billion of average daily net assets, .40% for average daily net assets over that level to \$5 billion, and .35% for average daily net assets over \$5 billion.

At their December 14-16, 2004 meetings, the directors requested a reduction in the advisory fees of the Fund to the fee levels charged to comparable open-end funds managed by the Adviser and deferred renewal of the Fund's Advisory Agreement pending receipt and consideration of proposals by the Adviser. At the February 7-10, 2005 meeting, the directors considered the Adviser's position that no fee adjustments were warranted.

The directors also considered the total expense ratio of the Fund in comparison to the fees and expenses of funds within the relevant Lipper category. The expense ratio of the Fund was based on the Fund's latest fiscal year expense ratio. The expense ratio of the Fund reflected fee waivers and/or expense reimbursements. The directors recognized that the expense ratio information for the Fund

36 o ALLIANCE NATIONAL MUNICIPAL INCOME FUND

potentially reflected on the Adviser's provision of services, as the Adviser is responsible for coordinating services provided to the Fund by others. The directors noted that the expense ratios of some funds in the Fund's Lipper category also were lowered by waivers or reimbursements by those funds' investment advisers, which in some cases were voluntary and perhaps temporary.

The information reviewed by the directors showed that the Fund's at current size contractual effective fee rate of 65 basis points was slightly above the Lipper average and the Lipper median. The directors also noted that the Fund's expense ratio was slightly below the Lipper median. The directors concluded that the Fund's expense ratio was satisfactory.

Economies of Scale

The directors considered that the Fund is a closed-end Fund and that it was not expected to have meaningful asset growth as a result. In such circumstances, the directors did not view the potential for realization of economies of scale as the Fund's assets grow to be a material factor in their deliberations. The directors also noted that if the Fund's net assets were to increase materially as a result of, e.g., an acquisition or rights offering, they would review whether potential economies of scale would be realized.

services to our customers efficiently and accurately, we may collect nonpublic personal information about our customers from the following sources: (1) information we receive from account documentation, including applications or other forms (which may include information such as a customer's name, address, social security number, assets and income) and (2) information about our customers' transactions with us, our affiliates and others (including information such as a customer's account balances and account activity).

It is our policy not to disclose nonpublic personal information about our customers (or former customers) except to our affiliates, or to others as permitted or required by law. From time to time, Alliance may disclose nonpublic personal information that we collect about our customers (or former customers), as described above, to non-affiliated third party providers, including those that perform processing or servicing functions and those that provide marketing services for us or on our behalf pursuant to a joint marketing agreement that requires the third party provider to adhere to Alliance's privacy policy. We have policies and procedures to safeguard nonpublic personal information about our customers (or former customers) which include: (1) restricting access to such nonpublic personal information and (2) maintaining physical, electronic and procedural safeguards that comply with federal standards to safeguard such nonpublic personal information.
