**INCOME TAX INFORMATION:** The cost of total investments for Federal income tax purposes was \$820,875,723. At September 30, 2004, net unrealized appreciation for all securities was \$311,374,336, consisting of aggregate gross unrealized appreciation of \$370,240,622 and aggregate gross unrealized depreciation of \$58,866,286. The primary differences in book and tax basis cost is the timing of the recognition of losses on securities sold and amortization of discount for book and tax purposes.

#### Valuation of investments:

Securities are valued as of the close of trading on the New York Stock Exchange (generally 4:00 p.m. Eastern time) on the valuation date. Securities that trade on an exchange or Nasdaq are valued at their last reported sales price taken from the primary market in which each security trades or, if no sale is reported for such day, at their bid price. Other over-the-counter securities for which market quotations are readily available are valued at their bid price. Securities for which market quotations are not readily available are valued at their fair value under procedures established by the Board of Trustees. Bonds and other fixed income securities may be valued by reference to other securities with comparable ratings, interest rates and maturities, using established independent pricing services.

d A portion of these securities were on loan at September 30, 2004. Total market value of loaned securities at September 30, 2004 was \$21,729,071.

Other information regarding the Fund is available in the Fund's most recent Prospectus and Report to Shareholders.
